> They (the Communists) had two-fold purposes . . . . First, to be in a position to pressure the pastor of the church to participate in various Communist-front activities . . . The other was to give a coat of protection and responsibility to the Communists operating in the South. For example, in a number of the States, the police officials were constantly after the Communists. Well, the best place for hiding was in the church. So they cloaked themselves in religion, becoming active members in the church.

Again, it is no coincidence that with increasing frequency Negro churches are becoming the assembling areas for mobilizing the Negro masses to pour into the streets in Negro demonstrations.

The activities of Martin Luther King have met with beaming approval by members of the Communist Party, U.S.A. In the pamphlet entitled *Turning Point in Freedom Road* published in 1962, the Negro Communist Claude Lightfoot praises Rev. King by describing his activities as "the healthiest sign in the whole Negro struggle."

THE STRANGE ASSOCIATES OF MARTIN LUTHER KING

King conducts most of his racial agitation activities in his capacity as president of the Southern Christian Leadership Conference. The national secretary of King's organization is a Negro by the name of Rev. Fred L. Shuttlesworth. An article in the June, 1963, issue of the *Cincinnati Enquirer* identified Shuttlesworth as also the new president of the Southern Conference Educational Fund. According to the article, both the Senate Internal Security Subcommittee and the House Committee on Un-American Activities have described the SCEF as an organization set up to promote Communism throughout the South. The field secretary of the SCEF is an identified Communist by the name of Carl Braden, of Louisville, Kentucky.

HUNTER PITTS O'DELL

Rev. Martin Luther King has a facility of attracting to his ranks men with highly questionable backgrounds. One of these is Jack H. O'Dell. An article appearing in the *St. Louis Globe-Democrat* of October 25, 1962, stated:

> A Communist has infiltrated to the top administrative post in the Rev. Martin Luther King's Southern Christian Leadership Conference. He is Jack H. O'Dell, acting executive director of Conference activities in southeastern states . . . From his birth in Detroit in 1923 until as late as 1958, he was known as Hunter Pitts O'Dell. This O'Dell, by whatever name, operates as a concealed member of the national committee of the Communist Party, U.S.A., according to a highly authoritative source.

On April 12, 1956, Hunter Pitts O'Dell invoked the Fifth Amendment when testifying before the Senate Internal Security Subcommittee. However, Robert Morris, counsel for the subcommittee, said information had been received that O'Dell was, in fact, district organizer for the Communist Party in New Orleans. Hundreds of documents seized at O'Dell's home substantiated his position in the Communist conspiracy.

Shortly after the above-mentioned article appeared in the *St. Louis Globe-Democrat* and in other newspapers throughout the country, King accepted O'Dell's resignation. When public attention was no longer focused on King and his relationship with O'Dell, King quietly rehired O'Dell. However, it soon became known that O'Dell was again in King's employ and, at a press conference in Atlanta on July 25, 1963, Rev. King admitted that on June 26 O'Dell had, "by mutual agreement," left the Southern Christian Leadership Conference for a second time. King gave as the reason his concern that O'Dell's affiliation with the integration movement would be used against it by "segregationists and race baiters."

In other words, according to Rev. King, anyone who brings out the fact that a man with Communist affiliations is associated in a prominent position with the civil rights movement is a "race baiter."

BAYARD RUSTIN

Another strange former associate of Rev. Martin Luther King is Bayard Rustin, a Pennsylvania-born Negro with a British accent. One of Rustin's activities during the period of five years that he served as secretary to Rev. Martin Luther King, was to organize King's 1958 march on Washington which the Communist publication *The Worker* called "a Communist project."

Briefly, here is the sordid background of Rev. King's former personal secretary:

On January 21, 1953, Bayard Rustin pleaded guilty in Pasadena, Calif., to a charge of sex perversion and was sentenced to 60 days. Earlier, as a student at the College of the City of New York, in 1936, Rustin joined the Young Communist League. In World War II he served 26 months in Federal prisons as a conscientious objector.

When A. Philip Randolph, chairman of the August 28, 1963, March on Washington, was confronted with the background facts on the March's deputy director, Rustin, and was asked if such a record would cause the replacement of Rustin, Randolph replied "No, he's Mister March himself! We couldn't do without him."

It is not surprising that Martin Luther King associates himself with characters tagged with Communist-front labels when King's own views are coming nearer and nearer to those of the Communist Party itself. In addressing the March on Washington participants in August, 1963, Rev. King promised that there would be "neither rest nor tranquillity in America" and that "the winds of revolt will continue to shake the foundations of our nation" until his aims are met.

The "revolt" or "revolution" which was so frequently referred to by the speakers in Washington is not really one for so-called Negro "rights," but is, instead, a revolution to seize political power in this nation in order to first hoist the flag of Socialism – and ultimately, Communism – over the United States of America.

WHAT YOU CAN DO

The Communist plan to use the civil rights movement as a vehicle for revolution in the United States must be fully exposed. The American people, both white and Negro, can defeat this plan to use racial agitation as a means to overthrow the constitutional government of the United States.

If you wish to help expose the plans of the Communists, here is what you can do:

(1) Send a copy of this pamphlet to your Congressman and two Senators **demanding a full Congressional investigation as to the extent of Communist infiltration of civil rights organizations,** such as the NAACP, the Southern Christian Leadership Conference, the Congress of Racial Equality (CORE), etc. In this way cer-

tain racial agitators can be officially identified as Communists or members of Communist-front organizations. Respectable Negro organizations can then guard against infiltration by such identified Communists.

(2) Use the documented facts in this pamphlet in writing letters to the editor of your local newspaper **proving the Communist influence behind racial agitation** in the nation or in your particular city. Be sure to send a copy of this pamphlet with your letter, thereby substantiating your statements.

(3) If the pastor of your church is unaware of the Communist influences in the civil rights movement, bring the facts in this pamphlet to his attention, as well as to the attention of the leading laymen in your church.

(4) Distribute copies of this pamphlet to department store owners, theater owners, hotel managers, etc., who would be affected by civil rights legislation which would deny business owners the right to choose their customers. Also, distribute copies to owners of business establishments on whose premises racial demonstrations have taken place or have been threatened.

(5) Mail or distribute copies to members of your local School Board and local judges in order that they may have these documented facts which bring the real meaning of racial agitation into focus.

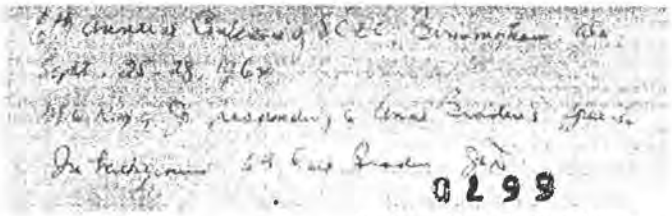
Now What Was That About No Red Connections, Martin Luther King?

BY KENT COURTNEY, PUBLISHER

The Communist Party, U.S.A. has been put on the defensive in New Orleans as the result of the operation of the Louisiana Subversive Control Law.

Readers will recall that in the last issue of THE INDEPENDENT AMERICAN we carried a feature story concerning the raid made on October 4 by Louisiana State Police on the headquarters of the Southern Conference Educational Fund, Inc.

The SCEF has been officially labeled as a Communist-front organization by two Congressional committees, and James A. Dombrowski, the Executive Director of the SCEF, was identified as a Communist before the Senate Sub-committee on Internal Security on March 18, 1954.



The raid on SCEF headquarters obtained for the State of Louisiana evidence concerning the activities of this Communist-front organization. The material collected was first transported to a State Police warehouse in Baton Rouge. However, legal possession was transferred to the Senate Committee on Internal Security when the evidence was subpoenaed by Senator James O. Eastland of Mississippi, Chairman of the Subcommittee.

Dombrowski, acting for the SCEF, has attempted to regain possession of his files and records in both State and Federal Courts. He has entered suits to obtain injunctions preventing the copying of the evidence by the State Police and the Senate Committee.

Fortunately, the State Police and the investigators of the Louisiana Joint Legislative Committee on Un-American Activities and the staff of the Senate Committee on Internal Security have had ample time, since October 4, to go through the evidence and make copies of pertinent portions.

The Louisiana anti-Communist committee held a hearing on November 8th, in which certain evidence was made part of the public domain. Below is the first publication of this particular evidence.

Above is shown Martin Luther King, the head of the Southern Christian Leadership Conference which has been in the forefront in racial and civil rights agitation, not only throughout the South but the nation. Below the photo is a reproduction of

(See RED CONNECTIONS....Page 6)

1128-00 SPC-JCTMB 92951-2

RED CONNECTIONS ...from Page 1.

the notation found on the back of the original photograph which indicates that three identified Communists, Anne and Carl Braden and James E. Dombrowski, were among the principal speakers, along with Martin Luther King, at the Sixth Annual Conference of the Southern Christian Leadership Conference at Birmingham, Alabama on September 25-28, 1962. In James Dombrowski's handwriting we note: "M. L. King, Jr., responding to Anne Braden's speech. In background, AB (Anne Braden), Carl Braden, JAD (James A. Dombrowski). The figures 6670 are evidently the State's document number, indicating the extent of the evidence found in Dombrowski's files. Anne and Carl Braden are identified Communists. Carl Braden was convicted of sedition under Kentucky laws, and is the publisher of the official newspaper of the Southern Conference Educational Fund, "The Southern Patriot."

Although Martin Luther King, Jr., piously claims no Red connections, the above picture may be well worth a thousand words of refutation of King's claims.

Not strangely since the records of the SCEF have been in the possession of the Louisiana authorities, racial agitation in the South has been reduced considerably. Responsible authorities informed THE INDEPENDENT AMERICAN that the SCEF was probably one of the key centers for dissemination of literature connected with the various public demonstrations in which Martin Luther King has been a key figure.

As mentioned at the beginning of this article, the Communists are on the defensive in Louisiana. The Communist Party doesn't want Communism made a court issue where a jury of Americans will be asked to make a decision for or against Communism, or for or against a Communist-front.

The Louisiana anti-Communist committee, however, turned over to a grand jury on November 14 evidence seized in the October 4 raid. This material is now being considered by the Orleans Parish Grand Jury. Meanwhile a special three-judge Federal court has been designated to hear a suit attacking the constitutionality of Louisiana's subversive activities and Communist control law. Named to hear the case are Circuit Judge John Minor Wisdom (an Eisenhower Republican of distinct Liberal tendencies), and District Judges E. Gordon West and Frank B. Ellis. Ellis has long been a Liberal Democrat and is a Kennedy appointee. Many people believed he received his Federal judgeship as a result of his efforts to prevent the Louisiana Democrat Party State Central Committee from bolting from the Kennedy forces in 1960.

As we go to press, Judge John Minor Wisdom, a member of the Federal Court tioned are restrained from prosecuting James A. Dombrowski and two others arrested in connection with the raid on the SCEF, and also seeks to restrain the presenting of evidence to the Orleans Parish Grand Jury for the purpose of showing a violation of the subversive control law of Louisiana.

The evidence obtained in the raid on the SCEF has already been subpoenaed from Pfister's Committee by the Grand Jury, and thus this Federal Court can be rightly accused of tampering with the Grand Jury. The temporary injunction has been granted to James A. Dombrowski, Benjamin E. Smith, Treasurer of the SCEF, and his law partner Bruce Waltzer, who are seeking to have the Louisiana subversive control law declared unconstitutional.

This is the third time in recent weeks that this Fifth Circuit Court of Appeals has interfered with the prosecution under State laws of persons who have been accused of breaking those State laws. A similar event took place in Americus, Georgia, on November 1, where a Federal Court broke into the middle of a State prosecution, declaring a Georgia State law unconstitutional, and in effect took over the operation of a State Court -- and this at the request of a private party.

Thurman Sensing, Vice President of the Southern States Industrial Council, commenting on the Americus case said:

"Under normal circumstances, the accused would be tried in state court. If convicted, their cases presumably would be appealed through the state's court system and then to a federal court. If a flaw were found in the court proceeding, the federal court would then return the case to the state court for rehearing. This is the traditional way in American jurisprudence. But the federal court in the Americus Ga. case discarded tradition. Instead, it chose to bulldoze a state law out of the way and run over a state court proceeding."

Judge John Minor Wisdom has previously interfered with Louisiana State Court proceedings in the case of the Town of Clinton, Louisiana, vs. the Committee on Racial Equality (CORE). Judge Wisdom issued an indefinite injunction to CORE after the CORE case had been previously remanded by a federal court back to the state court. Thus Judge Wisdom is guilty of granting CORE a review expressly prohibited by Title 28, Section 1447-D of the United States Code Annotated, which says: "An order remanding a case to the State Court from which it was removed is not reversible on appeal or otherwise." John Minor Wisdom granted CORE the very review expressly and specifically prohibited by Federal statute.

This third instance of a Federal Court

document number, indicating the extent of the evidence found in Dombrowski's files. Anne and Carl Braden are identified Communists, Carl Braden was convicted of sedition under Kentucky laws, and is the publisher of the official newspaper of the Southern Conference Educational Fund, "The Southern Patriot."

Although Martin Luther King, Jr., piously claims no Red connections, the above picture may be well worth a thousand words of refutation of King's claims.

Not strangely since the records of the SCEF have been in the possession of the Louisiana authorities, racial agitation in the South has been reduced considerably. Ellis has long been a Liberal Democrat and is a Kennedy appointee. Many people believed he received his Federal judgeship as a result of his efforts to prevent the Louisiana Democrat Party State Central Committee from bolting from the Kennedy forces in 1960.

As we go to press, Judge John Minor Wisdom, a member of the Federal Court mentioned above, issued a temporary injunction directed to State Representative James A. Pfister, Chairman of the Louisiana Joint Legislative Committee on Un-American Activities; Maj. Russell Willie of the State Police; Atty. Gen. Jack P. F. Gremillion; Thomas D. Burbank, head of the State Police; Gov. Jimmie H. Davis; and District Attorney Jim Garrison. The injunction directs that the persons mentioned to James A. Dombrowski, Benjamin E. Smith, Treasurer of the SCEF, and his law partner Bruce Waltzer, who are seeking to have the Louisiana subversive control law declared unconstitutional.

This is the third time in recent weeks that this Fifth Circuit Court of Appeals has interfered with the prosecution under State laws of persons who have been accused of breaking those State laws. A similar event took place in Americus, Georgia, on November 1, where a Federal Court broke into the middle of a State prosecution, declaring a Georgia State law unconstitutional, and in effect took over the operation of a State Court -- and this at the request of a private party.

Thurman Sensing, Vice President of the Southern States Industrial Council, commenting on the Americus case said:

"Under normal circumstances, the accused would be tried in state court. If convicted, their cases presumably would be appealed through the state's court system and then to a federal court. If a flaw were found in the court proceeding, the federal court would then return the case to the state court for rehearing. This is the traditional way in American jurisprudence. But the federal court in the Americus Ga. case discarded tradition. Instead, it chose to bulldoze a state law out of the way and run over a state court proceeding."

Judge John Minor Wisdom has previously interfered with Louisiana State Court proceedings in the case of the Town of Clinton, Louisiana, vs. the Committee on Racial Equality (CORE). Judge Wisdom issued an indefinite injunction to CORE after the CORE case had been previously remanded by a federal court back to the state court. Thus Judge Wisdom is guilty of granting CORE a review expressly prohibited by Title 28, Section 1447-D of the United States Code Annotated, which says: "An order remanding a case to the State Court from which it was removed is not reversible on appeal or otherwise." John Minor Wisdom granted CORE the very review expressly and specifically prohibited by Federal statute.

This third instance of a Federal Court usurping State-jurisdiction is a threat to all State laws, State Legislatures and State Courts. In Louisiana the Federal Court is interfering with the State's right to pass laws to control subversion and to conduct investigation concerning subversion and to prevent presenting evidence of subversion to a Grand Jury. This is the beginning of the Federal Police State in America.

Truman administration wanted an armistice at the 38th parallel.

And what happened in this case? No sooner had the Eisenhower administration taken office than it adopted bipartisanship and signed a humiliating armistice with the Communists which sacrificed our military advantage in the field and sealed the principles.

I am not saying that bipartisanship is evil because it has resulted in the adoption of Democratic policies - but because it has resulted in the adoption of the wrong policies, and because it has blocked all attempts to change those policies. Bipartisanship has kept us on the road of appeasement, retreat, and surrender.

Bipartisanship discourages independent, critical evaluation of our foreign policies. It has bred a race of political sycophants. And now it seeks to destroy the remnant - to intimidate and silence any voice that ventures criticism.

I shall always support any administration, whether it be Republican or Democrat, that deals with Communism firmly, courageously, and honorably. But these are the only conditions under which bipartisanship can be urged or tolerated.

The policy of retreat, appeasement, and surrender must stop. And if America's voice must be divided on this issue, then let it be divided until the day that leaders of both parties finally appreciate the consummate evil of Communism and together resolve to destroy it.

The Senate Gets The Word

By Rep. H. R. Gross

Quite obviously, members of the Senate of the United States are hearing from home. There can be no other explanation for the surprising action of the "upper body" on the foreign aid authorization bill.

It has always been the contention of this writer that Congress will respond to demands of the public for economy if only the people will make themselves heard.

In reporting the foreign aid bill, the Senate Foreign Relations Committee recommended $4.2 billion, as compared with the $3.5 billion voted by the House. Soon recognizing that the measure was in trouble, and in a desperate move to stave off deeper cuts, the Democrat and Republican leaders came up with an agreement to shave off $385 million from the total. In repudiation of this "bipartisan" pact, the Senate, as of last Friday, Nov. 8, had chopped $500 million from its bill -- lowering the total to $3.7 billion.

Although this is still much too high, it marks the first time in my memory that the Senate has shown even fleeting interest in economy as far as foreign aid is concerned.

It is further and welcome evidence that the public is fast becoming fed up with the global boondoggles that have cost American taxpayers some $120 billion in the short space of 16 years.

(Editor's note: On November 15 the Senate passed the Foreign Aid authorization bill setting the ceiling at $3,702,365,000. The vote was 63-17, which included 20 Republicans voting in favor of the bill. This, however, is merely the first vote on the Foreign Aid bill; the second will be the appropriation bill which will actually authorize the expenditure of taxpayer funds for Foreign Aid. Write your Congressman and two Senators urging them to vote "No" on the Foreign Aid appropriation bill when it comes up.)

Height of Stupidity!

"If the free peoples of the West, or certain circles among them, are ready now to help the Soviet Union despite all the dangers that threaten us, then I must say, 'only the stupidest calves choose their own butcher'."

KONRAD ADENAUER

THE BROTHERS BUNDY

(Reprinted from RICHMOND (Va.) NEWS LEADER)

Recently we lamented the appointment of that great disarmament expert, Paul Nitze, as Secretary of the Navy. Today we would pass along something of the background of the substitute moved up to Nitze's old slot as Assistant Secretary of Defense. The new man was Mr. Nitze's second-in-command, William P. Bundy.

Bill Bundy is not to be confused with his younger brother, McGeorge Bundy. McGeorge works at the White House as Special Assistant to the President for National Security Affairs. Bill's new job is in the Defense Department in charge of International Security Affairs. The difference is subtle, but as we understand it, McGeorge sits in on the National Security Council with the President and the Secretaries of State and Defense while overall defense policies are formulated. Bill will be handling administrative problems such as military aid to India and Viet Nam and squabbles in NATO. The brothers will make quite a team.

The last time that Bill Bundy was in the news was when he was working for the CIA in the fifties. At that time, there was a public outcry when it was discovered that Bill had contributed $400 to the legal defense fund for Alger Hiss. Recently, he has reiterated that "I believe him worthy of a full defense." In his refusal to turn his back on Alger Hiss, Bill Bundy is very much like his father-in-law, Dean Acheson.

(Editor's note: Paul Nitze, Dean Acheson, William P. Bundy and McGeorge Bundy are all members of the Council on Foreign Relations.)

POLITICAL INSURANCE NEEDED NOW

By Harold Poeschel

The shocking events which occurred in Dallas, both the assassination of the President and then the premeditated murder of the suspected assassin, should make all of us realize that no one can predict the future and that the salvation of the country and the preservation of the Republic should not depend on any one man, but rather on basic principles.

To Conservatives who believe that only Senator Goldwater can solve the problems of Communism, Socialism, and Welfare-ism, these hideous actions by lawless men should prove the need for political insurance. If Goldwater should lose his life at the hands of a Communist assassin, or should he decide not to run for the office of President, then the Liberals in the Republican Party would be free to nominate a person under the control of the Council on Foreign Relations. The result would be that Conservatives would have no candidate and no party to vote for.

My book entitled "IT IS HIGH TIME" still states my position. It is high time that the Republican Party be forced into the Conservative position -- or out of existence. The Case For A NEW PARTY is to force the Republican Party to divest itself of internationalist control and thereby restore itself as a PARTY OF OPPOSITION -- or, failing to accomplish this, replace it with a NEW PARTY.

If you were a military strategist and were called upon to take an enemy stronghold, would you immediately make a frontal assault on the enemy position -- or would you first use your intelligence media to make an analysis of the strength and weakness of the enemy -- and then, after evaluating the information, conclude how the job must be done to achieve victory?

The enemy of Constitutional government is strong -- it controls both parties; it controls the media of communications; it is well financed. In comparison, we Conservatives are armed with a pea-shooter. We cannot WIN by putting up only token resistance. We cannot WIN by staying on the defensive. We have to take the offensive and use strategy.

To many thousands of knowledgeable Conservatives, Senator Goldwater is not the answer. However, to many millions of people seeking an end to the insidious sell-out to atheistic-socialistic-communistic world government under the United Nations, Barry Goldwater is the answer. These people are not the enemy -- they are our prospective supporters, but they will not support our Independent position requirements of the States -- and in most cases prior to the nominating Conventions of the two old parties. But what we need in addition to an Independent ballot position is SUPPORT for that position in the event that Goldwater is not nominated by the Republican Party. We can get absolutely nowhere by staying on the ballot in the General Election if Goldwater is nominated; we would have to support his election. This would at least be a step in the right direction.

How can we prove to the Goldwater supporters that Goldwater will not be nominated by the Republican Party -- and thereby win their support for the Independent position?

By naming Goldwater as the candidate for President on the Independent ticket, organizing all Conservatives into a solid voting bloc representing the Balance of Power, and then serving NOTICE on the delegates to the Republican Convention that if they do not nominate him, he will be on the ballot anyway as candidate for President of a NEW PARTY.

The Republican Party cannot win without the Conservative vote. The internationalists in control of the Party do not care whether or not the Republican Party wins -- their interests are served as well by the Democrat Party. But, the professional Republican wants his Party to WIN. This action from outside will apply the greatest pressure possible for these politicians to throw off the internationalist control and thereby restore the Republican Party as the Party of conservative principle.

If the nomination of Goldwater is rejected by the Republican Party, he can remain on the ballot as candidate of the NEW PARTY in 38 States even without his consent. However, he would have a decision to make -- whether or not he would champion the restoration of Constitutional government under a NEW PARTY banner. In 1959 Goldwater said in a letter to me (on page 161 of my book):

> "What I want most is to see the United States preserved as the Constitutional Republic laid down by our forefathers. Any party banner or political affiliation must be secondary to this major objective . . . ."

If Goldwater refuses to run as an Independent Conservative and instead declares his support of another Republican nominee, he would thereby declare to his supporters that he places a higher value on "party loyalty" than on loyalty to his

> "What I want most is to see the United States preserved as the Constitutional Republic laid down by our forefathers. Any party banner or political affiliation must be secondary to this major objective . . . ."

If Goldwater refuses to run as an Independent Conservative and instead declares his support of another Republican nominee, he would thereby declare to his supporters that he places a higher value on "party loyalty" than on loyalty to his Country and his principles -- and this should cause his supporters to "jump ship" in favor of the NEW PARTY position.

This is where STROM THURMOND -- or J. EDGAR HOOVER -- comes into the picture. In convention assembled, the Independents would select their candidate to replace Goldwater on the ballot -- and the NEW PARTY would be born, having the support of all Conservatives.

This may seem like a drastic move --

ing the illegal action of the Supreme Court on June 17, 1963.

WHAT YOU CAN DO

It is unlikely that members of the House and the Senate will expedite the passage of the foregoing Prayer Amendment, unless they are assured of overwhelming "grass roots" demand for such an amendment.

Because 1964 is an election year, all members of the U. S. House of Representatives and one-third of the U. S. Senate are up for re-election. Therefore, Congress is particularly receptive to the demands of their constituents.

If you wish to overturn the atheism-promoting "prayer ban" edict of the soft-on-Communism Supreme Court, here is what you can do:

(1) Order copies of this pamphlet and send them, together with a short note or letter, to your Congressman and two Senators, expressing your views on this subject.

(2) Write letters to the editor of your local newspaper using the documented facts contained in this pamphlet in order that thousands may be alerted in your area as to how the "prayer ban" decree of the Supreme Court can be negated.

(3) Buy as many copies of this pamphlet as you possibly can and mail or distribute them to your friends and members of your church, asking them to also write letters to their Congressman and Senators urging support for the Prayer Amendment to the U.S. Constitution.

What The Supreme Court's Ban On Prayer Really Means

On June 17, 1963, the Supreme Court in an 8-1 ruling on cases from Maryland and Pennsylvania barred the reading of the Bible and recitation of the Lord's prayer in public schools as part of classroom exercises. This landmark opinion by the U. S. Supreme Court, in effect, carries out one of the proposals made by William Z. Foster, then National Chairman of the Communist Party of the United States of America in his book *TOWARD SOVIET AMERICA* published in 1932. Prophesied Communist Foster:

> God will be banished from the laboratories as well as from the schools ... The studies will be revolutionized, being cleansed of religious, patriotic and other features of the bourgeois ideology.

The relationship between religion and Communism is clearly delineated in many of the writings and statements of Communist leaders. For example, in 1904 V. I. Lenin stated: "Religion is the opium of the people." In 1909 he declared that Marxism is "relentlessly hostile to religion."

On the subject of religion the Communist Manifesto proclaimed:

> Communism abolishes eternal truths, it abolishes all religion, and all morality, instead of constituting them on a new basis; it therefore acts in contradiction to all past historical experience.

AMERICA FOUNDED AS A CHRISTIAN NATION

The Supreme Court in outlawing prayer in public schools turned its back on the religious heritage of this Nation. The right to practice freely one's religion was one of the principal causes for the settlement of America. The first charter of Virginia granted by King James I, in 1606, refers to the "furtherance of so noble a work ... in propagating the Christian religion." The celebrated compact made by the Pilgrims on the *MAYFLOWER*, in 1620, recites:

> Having undertaken for the glory of God and advancement of the Christian faith and the honor of our king and country a voyage to plant the first colony in the northern parts of Virginia ....

The Constitution of Vermont, of 1777, required of every member of the house of representatives that he take this oath: "I do believe in one God, Creator and Governor of the Universe ..."

THE INTENT OF THE FRAMERS OF THE CONSTITUTION

The U. S. Constitution was written by a group of delegates who began each day of the Constitutional Convention with a prayer asking guidance of the Almighty in their deliberations. Indicative of the importance placed on religious freedom is the fact that the First Amendment to the U. S. Constitution guarantees to each individual the right to practice his religion without any governmental restraint.

On September 25, 1789, Congress submitted the First Amendment to the several States for ratification. On that same day, clearly spelling out the intention of the framers of the Constitution a House Resolution was passed recommending for all people "a day of public thanksgiving and prayer be observed by acknowledging, with grateful hearts, the many signal favors of Almighty God ..."

UNCONSTITUTIONALITY OF PRAYER BAN

Amendment I of the U. S. Constitution states:

> Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof ...

In barring Bible reading and recitation of the Lord's Prayer in public schools, the Supreme Court used as its guide the First Amendment. This, however, is a deliberate misinterpretation by the Court inasmuch as the intent of the Constitution certainly was not to disassociate Government completely from belief in a deity. Rather, the purpose of the First Amendment was to prevent the establishment of an official religion in the United States, such as the Church of England in Great Britain, the Catholic church in Italy, or the Jewish religion in Israel.

How can the recitation of the Lord's prayer and Bible reading by school children possibly be construed as an attempt to constitute the "establishment of" religion? Further, no local or State school board compels any student to attend exercises where Bible reading or recitation of the Lord's prayer takes place. Attendance at such religious exercises is strictly on a voluntary basis.

Completely overlooked in the Supreme Court "prayer ban" ruling is the second part of

THE PRO-COMMUNIST VOTING RECORD OF THE U.S. SUPREME COURT

The 1963 "prayer ban" by the U. S. Supreme Court is not surprising in view of the soft-on-Communism decisions by the Court in recent years. From 1943 down to June, 1961, 104 cases involving Communism or subversion have been decided where the position of the individual judge could be ascertained.

Earl Warren took the oath of office as Chief Justice in October 1953. Up until June, 1961, the Court heard 70 cases or more involving Communist or subversive activities. Forty-six of these Supreme Court decisions have sustained the position advocated by the Communists, and 24 have been to the contrary.

Below is a tabulation of how individual members of the Supreme Court, from 1943 up to June 12, 1961, voted on issues concerning Communism.

HOW THE U.S. SUPREME COURT HAS VOTED ON ISSUES INVOLVING COMMUNISM

Name of Justice	No. of cases participated	Anti-Red	Pro-Red	Percentage in favor of Reds
Earl Warren	65	3	62	95%
Hugo L. Black	102	0	102	100%
*Felix Frankfurter	103	34	69	67%
William O. Douglas	100	3	97	97%
Thomas C. Clark	82	61	21	27%
John M. Harlan	65	35	30	46%
William J. Brennan	51	2	49	96%
*Charles E. Whittaker	42	30	12	29%
Potter Stewart	20	14	6	30%

The above summary is taken from a speech by Senator James O. Eastland on the floor of the U. S. Senate on May 2, 1962. For a detailed tabulation of cases involved see pages 7028-7029 of the *CONGRESSIONAL RECORD* of that date.

*Justices Whittaker and Frankfurter did not participate in the "prayer ban" decision of June 17, 1963. By 1963, Whittaker had been replaced by Byron "Whizzer" White, and Frankfurter by Arthur J. Goldberg.

The following Justices voted to ban prayer and Bible reading in the schools: Warren, Black, Douglas, Clark, Harlan, Brennan, White and Goldberg. Potter Stewart was the sole dissenter.

Amendment I of the Constitution which stipulates that "Congress shall make no law ... prohibiting the free exercise" of religion. And, yet that is exactly what the U. S. Supreme Court did on June 17, 1963! Because the Supreme Court is an arm of the authority of the Federal Government, its ruling, according to an editorial in the INDIANAPOLIS STAR, "puts the Federal Government right into the business of regulating religion." This is clearly a violation of the First Amendment of the U. S. Constitution.

Thus the "prayer ban" edict of the Supreme Court not only disregards the religious heritage of this Nation, but it is patently unconstitutional.

DISCRIMINATING AGAINST CHILDREN

While specifically denying to school children the right of the "free exercise" of religion, as of this date other aspects of freedom of religion have not yet come under attack by the Supreme Court. The Pledge of Allegiance still contains the phrase "under God." U. S. currency still bears the inscription "In God we trust." In the national anthem there is still reference to God. There are still chaplains in both Houses of Congress and in the armed forces. Witnesses in courts still take oaths which end with "so help me God." Therefore, it is seen that the Supreme Court, in effect, has practiced rank discrimination against the

children of the Nation. Why?

On November 27, 1957, in an interview with William Randolph Hearst, Jr., Krushchev said:

> Those who believe in God are becoming fewer and fewer. Young people are growing up ... Public education, the dissemination of scientific knowledge, and the study of the laws of nature, leave no place for belief in God.

Also recognizing the importance of training the youth, Lenin stated: "Give us the child for 8 years and it will be a Bolshevik forever." Lenin also declared that "atheism is an integral part of Marxism."

The banning of non-denominational religious exercises in schools could have the effect of encouraging atheism with its attendant destruction of the moral fibre of America's youth and the weakening of the national determination to withstand and defeat the atheistic International Communist Conspiracy.

THE RIGHTS OF THE MAJORITY

The Maryland case, one of the two cases on which the Supreme Court "prayer ban" ruling was based, was the result of a suit brought by an atheist mother, who did not wish her child to take part in any religious exercises. By winning her case, this one atheist has managed to deprive the Nation's children of participation in such non-denominational religious exercises.

Isn't it about time for someone to stand up for the rights of the majority! This country, supposedly, is ruled by the wishes of the majority. Atheists and other minority religious groups, who do not wish to recite the Lord's prayer or listen to readings from the Bible, should not be forced to do so. But, on the other hand, why should the minuscule minority, in this case a handful of atheists, be allowed, because of an unconstitutional ruling by the U. S. Supreme Court, to prevent the majority from the "free exercise" of religion as guaranteed in the first Amendment of the U. S. Constitution?

Mark well the words of Daniel Webster who said:

> If we abide by the principles taught in the Bible, our country will go on prospering and to prosper; but if we and our posterity neglect its instructions and authority, no man can tell how sudden a catastrophe may overwhelm us and bury all our glory in profound obscurity.

And the words of Horace Greeley who said:

> It is impossible to enslave mentally or socially a Bible-reading people. The principles of Bible are the groundwork of human freedom.

SUPREME COURT MUST BE CIRCUMVENTED

Immediately following the Supreme Court's "prayer ban" ruling Congressman Richard L. Roudebush of Indiana issued a statement in which he said that if the Constitution and the Bill of Rights are to be preserved, "the Supreme Court must be restrained and circumvented."

Taking cognizance of the past performance of the Supreme Court, Roudebush declared:

> The Supreme Court has embraced, aided, and comforted Communist defendants in the vast majority of its opinions .... Prohibition of prayer and Bible reading by our school children smacks of atheistic Soviet Russia and is a disgrace and shame of everything this country has come to stand for. It is obvious that the Supreme Court is driving headlong toward religious suppression in this country .... I believe the leftist liberals of the Supreme Court are driving us toward the Communist concept.

SUPPORT THE "PRAYER AMENDMENT"

Reacting to the prayer ban decision, a number of Congressmen and Senators introduced resolutions clearly spelling out the will of Congress regarding this unconstitutional edict of the Supreme Court.

By the fall of 1963, an amendment to the U. S. Constitution had been drafted by a committee of both Democrats and Republicans. This proposed constitutional amendment reads:

> Section (1). Nothing in this Constitution shall be deemed to prohibit the offering, reading from, or listening to prayers or Biblical Scriptures, if participation therein is on a voluntary basis, in any governmental or public school, institution or public place.
>
> Section (2). Nothing in this Constitution shall be deemed to prohibit making reference to belief in, reliance upon, or invoking the aid of God or a Supreme Being, in any governmental or public document, proceeding, activity, ceremony, school, institution, or place or upon any coinage, currency, or obligation of the United States.
>
> Section (3). Nothing in this Article shall constitute an establishment of religion.

Article V of the Constitution stipulates that an amendment proposal must be approved by a two-thirds vote in both the House and Senate; and that three-fourths of the States also must ratify the proposal.

When such requirements have been complied with, the foregoing proposed Prayer Amendment would become a part of the Constitution of the United States thereby completely negat-

THE COMMUNIST CONSPIRACY MUST BE DESTROYED!

11-28-00 SP5-JC/TM8 92 95/2

"As long as this Soviet-dominated apparatus exists in the United States, there will remain among us an aggressive force of dedicated fanatics, constantly at work to destroy the American way of life. It is a beachhead of subversion within our Nation."

--- J. Edgar Hoover, Director
Federal Bureau of Investigation

If America is ever destroyed, it will be from within not from without.

- - Abraham Lincoln

What insanity of mass hysteria is sweeping this country that has permitted craven distortion to be passed off as fact?

Immediately following the tragic assassination of President John F. Kennedy in Dallas, Tex., on November 22, 1963, a propaganda barrage began both within the United States and from Soviet Russia, the aim of which was to blame the Radical Right, also called the Far Right, for the dastardly deed.

At 1:59 p.m. on November 22, the Voice of America overseas broadcast, an official government agency, implied that members of the "extreme Right-wing" were responsible for the murder.

Arthur Krock of the *NEW YORK TIMES*, commenting on this slanderous implication, declared in a signed column:

> This gratuitous, and as it proved, false, suggestion that such was the affiliation of the assassin was deleted from the broadcast at 2:10 p.m. But, it was grist to Moscow's mill, which has been grinding ever since.

Within an hour *TASS*, the Russian news agency, broadcast to the world that the "attempt was made on his (President Kennedy's) life by persons, as believed, from among the extreme Right-wing elements."

Echoing the Communist Party line in a TV interview shortly after the assassination, Congressman Hale Boggs, Democrat Majority Whip, charged:

> "The radicals and haters in politics there (New Orleans) and elsewhere have had their way; they are the ones who really pulled the trigger and killed the great American (President Kennedy).

On that afternoon of November 22, the Communist Party, U.S.A., headquartered in New York, issued the following statement:

> It (the assassination) is the ultimate depravity of the pro-Fascists, ultra-right forces – of the fiendish Dixiecrats and racists ...

THE COMMUNIST ASSASSIN

Within an hour after President Kennedy had been shot, the Dallas police arrested a 24-year-old man as a prime suspect. **The assassin later Friday night was identified as a self-professed Communist.**

The Left-wingers, the apologists for Communism, thwarted in their concerted attempt to

pin the blame of the assassination on members of the Right-wing, re-grouped their propaganda forces and commenced a second-wave barrage against the Conservatives. The new propaganda attack by the Liberal extremists charges that activities of the Radical Right had caused an atmosphere of "hatred" throughout the country which provided the climate for the assassination.

This deliberate distortion of fact was ably refuted by the Republican Policy Committee of the U.S. House of Representatives on December 6, 1963, when it issued a statement which said, in part:

> We are told that hate was the assassin that struck down the President .... Efforts to make Americans generally feel guilty of the crime now are obscuring the nature of the crime ... If it was hatred that moved the assassin, that hatred was bred by teachings of Communism.

Republican Senator Milward L. Simpson, in line with the statement of the House Republican Policy Committee, declared on December 6:

> The Radical Right has not sold our nuclear secrets to Russia; has not allowed Free China to be driven to Formosa; has not condoned the enslavement of the captive nations of Europe; and has not helped Communism establish a beachhead in Cuba. The only genuine hatred they seem to be guilty of is a hatred of Communism.

THE ANTI-COMMUNIST RIGHT-WING

The Communists and Liberals, when attacking the Right-wing, seldom, if ever, describe the Right-wing as "anti-Communist" even though **anti-Communism is the prime characteristic of the Conservative Right-wing movement** within the United States.

The Liberals, the pro-Communists in high places in the Government, have for years attempted to deceive the American people into believing that there is no threat of Communist subversion within the United States. This appalling ignorance of the threat of internal subversion is illustrated in a United Press International dispatch from Washington on March 7, 1962, which stated:

> Attorney General Robert F. Kennedy said yesterday, the U.S. Communist party is a "wind-mill," virtually powerless to hurt the Government. He criticized "hysteria" about the party's activities. "They can't do anything to us" ... the President's brother said.

And yet on November 22, self-confessed Communist Lee Oswald, not a Russian Communist, but a native born American, assassinated the Attorney General's brother!

THE THREAT FROM WITHIN

In his book, *THE BIG DECISION*, the late Matt Cvetic, who for 9 years was a counterspy for the F.B.I. said:

> Many clergymen, educators, business men, bankers, political leaders, diplomats and others try to delude themselves into believing that Khrushchev really doesn't mean it when he repeats over and over again his threat to communize America and bury us. Frankly, for nine years, while posing as a Communist, I sat in hundreds of secret Communist meetings where the overthrow of our country was plotted; meetings in which the mass murder or enslavement of many of the above-mentioned Americans was discussed.
>
> Contrary to what many think, the numerical strength of the Communist Party is relatively unimportant in their plot to conquer the world. What is important to the Reds, is getting their agents, sympathizers and dupes into strategic posts in all sections of American society, as well as in our Government.

In his book *MASTERS OF DECEIT*,* F.B.I. Director J. Edgar Hoover states:

> To make the United States a Communist nation is the ambition of every party member ... Even if he lives in the United States, he is a supporter of a foreign power espousing an alien line of thought. He is a conspirator against his country.

Thus do two experts on the menace of Communism, Matt Cvetic and J. Edgar Hoover, refute the dangerously shallow view of Attorney General Robert Kennedy that the Communist Party, U.S.A., is a mere "windmill."

FINDINGS OF CONGRESSIONAL INVESTIGATING COMMITTEES

On July 30, 1953, the Senate Internal Security Subcommittee, also known as the Jenner Committee, issued a report based on extensive investigation and testimony which said in part:

> The Soviet international organization has carried on a successful and important penetration of the United States Government and this penetration has not been fully exposed.
>
> This penetration has extended from the lower ranks to top-level policy and operating positions in our Government ....
>
> In general, the Communists who infiltrated our Government worked behind the scenes – guiding research and preparing memoranda on which basic American policies were set, writing speeches for Cabinet officers, influencing congressional investigations, drafting laws, manipulating administrative reorganizations – always serving the interest of their Soviet superiors ....
>
> Policies and programs laid down by members of this Soviet conspiracy are still in effect within our Government and constitute a continuing hazard to our national security.

James Burnham, in his book *THE WEB OF SUBVERSION*,* states:

> The public record shows that the web of subversion has enmeshed the following government agencies:
>
> The administrative staff of the White House; the Departments of State, Treasury, Army, Navy, Defense Justice, Agriculture, Labor, Commerce; six congressional committees; ... Office of Strategic Services, Office of Defense Mobilization ... Civil Service Commission; Coordinator of Information; Office of Education ... Government Printing Office and U.S. Information Services.
>
> The above list is not complete. Each agency named has harbored at least one individual who has been publicly identified as a Communist or espionage agent, or as a Fifth Amendment case.)

SEN. JOE McCARTHY'S FIGHT AGAINST REDS

Most prominent in the attempt to root out and expose this Communist infiltration into high places in the U.S. Government, was the late Senator Joe McCarthy. So effective was his work in informing the American public of the fact of Communist subversion within this nation that in 1953 the Communist Party U.S.A. decided to mobilize all their power to destroy Senator McCarthy.

The June 1, 1953, issue of the *DAILY WORKER*, the official Communist newspaper, acknowledged that the Communists were the "initiators" of the cry "McCarthyism."

In his book *THE TECHNIQUES OF COMMUNISM*,** ex-Communist Louis F. Budenz, who left the Party in 1945 to fight Communism, discussed the Communist plan to "get" McCarthy. Stated Mr. Budenz:

> The Communists could not permit the accumulation of damaging evidence by congressional inquirers to throw light on the extensive operation of concealed Communists in ... government. They had to halt it, or at

*Henry Holt and Company New York, 1958

*The John Day Company, New York, 1954
**Henry Regnery Co., Chicago, 1954

least to create that "confusion" which they always seek, in order to bring about the paralysis of any moves against them.

The "coup de grace" against exposure of Communist infiltration in Government was administered on December 2, 1954, when the U.S. Senate by a vote of 67 to 22 condemned the foremost anti-Communist investigator, Senator Joe McCarthy.

Although since that time Communists in Government have been immune from congressional exposure, nevertheless, House and Senate investigating committees have continued to investigate Communist activities outside of the Government itself, and to issue public warnings regarding Communist infiltration.

On April 6, 1960, Congressman Francis E. Walter, Chairman of the House Un-American Activities Committee, said on the floor of the House:

> The Committee on Un-American Activities has repeatedly attempted to procure from the executive agencies identifying information on security risks who have been restored to government service, this information has been adamantly refused by the executive agencies concerned, and, indeed, by the White House itself.

In the August, 1959, issue of *NATIONAL REPUBLIC* magazine appeared an article by Congressman Walter, in which he stated:

> Thousands of spies are active in the United States today, some 5,400 are known to be active in our defense industries. Unrelenting, schooled in intrigue and fanatically devoted to Communism, they are determined to obliterate the American way of life.

HAS THE STATE DEPARTMENT BEEN INFILTRATED BY CASTRO SYMPATHIZERS?

Because congressional committees now are not allowed to effectively investigate Communism, it is practically impossible to estimate the number of Communist agents or sympathizers holding key positions in the State Department. However, Senator James O. Eastland on August 31, 1960, said:

> State Department aides helped install Fidel Castro as dictator of Cuba.
>
> Cuba was handed to Castro and the Communists in the same way that China was handed to the Communists. American foreign policy is made in the State Department by unknown policy planners and memo makers ...

Senator Eastland also said his Committee, the Senate Internal Security Subcommittee, had just heard testimony from former Ambassador to Cuba, Earl E. T. Smith, which, said Eastland, "went into detail step by step, how the State Department overthrew Batista and installed Castro as dictator of Cuba, doing so when they knew he was a Marxist."

Thus the sell-out of the Cuban people to Communist Dictator Castro was actually facilitated by policy planners in the U.S. State Department.

History will record that the assassin of President Kennedy was a professed admirer of Communist Castro!

BACKGROUND OF COMMUNIST OSWALD

Shortly after Lee Oswald, assassin of President Kennedy, was arrested on November 22, Dallas Police Chief Jesse Curry stated:

> He readily admitted he is a Communist. Apparently he was proud of being a Communist. He didn't try to hide it.

An AP photograph depicted the handcuffed assassin defiantly giving the upraised clenched fist salute, which is the Communist symbol of the triumph of Marxism by revolutionary violence.

After his arrest, investigation revealed the sinister background of the Communist assassin: Lee Oswald in September, 1959, defected to the Soviet Union arriving in Moscow on October 15, 1959. Soon after his arrival, he petitioned the Supreme Soviet for Soviet citizenship. On November 2, 1959, Lee Oswald signed an affidavit which stated:

> I affirm that my allegiance is to the Soviet Socialist Republic.

During his stay in the Soviet Union, although denied Soviet citizenship, Oswald was permitted to travel freely within Russia, a coveted privilege in that police state. He apparently was able to obtain employment in Russia, which is only possible with the approval of the Soviet government.

During his stay he married a Russian girl. In early 1962, when Oswald decided he wished to return to the United States, he had no trouble in getting his wife and child out of the Soviet Union – a most unusual occurrence. And, even though having renounced his U.S. citizenship, the U.S. Embassy in Moscow not only provided him with passports for himself and his Russian wife and child, but gave him $435.71 for travelling expenses.

One can only wonder how Oswald occupied

himself while in the Soviet Union. In this connection, it is interesting to note that according to a column by Allen and Scott of November 29, 1963:

> Fifteen days before he was shot down, President Kennedy was warned that assassins were being trained in Russia to commit murders in the U.S. and England.
>
> This warning was voiced in a letter Representative Charles Kirsten (R-Wis.) sent to the late President and his brother Attorney General Robert Kennedy ...

A question arises: Did Lee Oswald attend a school for assassins during his more than two-year stay in the Soviet Union?

Early in 1963, Oswald turned up in New Orleans and locally promoted the Fair Play for Cuba Committee, a pro-Castro outfit. Sometime prior to September 26, 1963, the exact time is not known, Oswald moved to Dallas and continued to promote the Fair Play for Cuba Committee. **By joining this pro-Castro organization, Oswald actually was working for Communist Castro,** one of his original purposes. (When he was in Moscow in 1959, he told Soviet authorities that he wanted to go to Cuba to fight on the side of Fidel Castro.)

The Fair Play for Cuba Committee, with offices in New York City, was born in April 1960. After a 14-month probe the Senate Internal Security Subcommittee labelled the Fair Play for Cuba Committee a Communist front. In its investigation it also discovered that the Committee had received funds from the Castro regime. F.B.I. Director J. Edgar Hoover stated the Fair Play for Cuba Committee had been "heavily infiltrated by the Communist Party."

And yet, Attorney General Robert Kennedy refused to place the name of the Fair Play for Cuba Committee on the Attorney General's list of subversive organizations.

What a cruel irony that a member of this Communist-front organization on November 22 assassinated the Attorney General's own brother!

HOW THE SUPREME COURT AIDS COMMUNIST SUBVERSION

The average American citizen uninformed of the implications of the Supreme Court's decisions during recent years may well wonder why, with duly established congressional investigating committees, Communists are still free to roam at will and plot the overthrow of the U.S. Government. Even a brief examination of the Supreme Court's decisions involving the issue

of Communism gives the appalling answer.

The May, 1959, issue of *NATIONAL REPUBLIC* magazine contains an article by Congressman Wint Smith in which he refers to 17 decisions of the Supreme Court during the month of June, 1957. Declared Congressman Smith:

> All 17 of these decisions put the arm of judicial protection around American Communists.

The Supreme Court, by its actions, has become an ally of the Communist conspiracy. As the result of its pro-Communist rulings:

(1) The anti-sedition acts in 42 States, Alaska and Hawaii cannot be enforced. *(Pennsylvania vs. Steve Nelson)*

(2) Advocating forcible overthrow of the U.S. Government is not punishable under the Smith Act as long as it is "divorced from any effort to instigate action to that end." In other words, as long as Communists do not name the specific date on which they plan to take over the Government, they may continue to advocate and plot. *(Yates et al)*

(3) Security risks in government may not be dismissed unless they occupy "sensitive positions." *(Cole v. Young)* In a dissenting opinion, three Supreme Court Justices remarked:

> We believe the Court's order has stricken down the most effective weapon against subversive activity available to the Government ...One never knows just which job is sensitive.

* * *

In discussing Supreme Court decisions which have aided the Communist conspiracy, the *DAN SMOOT REPORT* of February 6, 1961, states:

> Warren court decisions in such cases ... have rendered Communists virtually immune to Federal laws or controls of any kind ... Now, the Warren court rules, State governments can't prosecute Communists because the Smith Act gives the Federal Government a monopoly in this field; but the Federal Government can't prosecute, because the Smith Act (as interpreted by Warren in the Yates case) is meaningless.

COMMUNISTS REFUSE TO REGISTER

On September 23, 1950, Congress enacted the Subversive Activities Control Act which requires Communists to register with the Department of Justice. The Act also sets up two classes of organizations required to register – Communist-front and Communist action groups.

After years of litigation, in which the Supreme Court employed every possible device

to protect the Communists, finally on June 5, 1961, the Supreme Court ordered the Communist Party, all Communist officials and all party members to register on or before December 20, 1961.

On March 15, 1962, two top officials of the Communist Party, Gus Hall and Benjamin Davis, were indicted for failure to register, but both were instantly released on $5,000 bond.

Since that time the attorneys for the Communist Party, and Hall and Davis have engaged in a seemingly endless series of legal maneuvers, the purpose of which, of course, is to attempt to legalize this refusal to obey the law. Nor is it likely that Robert Kennedy or any other Attorney General of the Democrat Administration will take legal steps to force the registration of Communists and the Communist Party.

BEWARE THE WHITEWASH

On November 30, President Lyndon Johnson circumvented the investigatory powers of Congress. Instead of the Senate Judiciary Committee investigating the assassination of President Kennedy, Johnson named a super-committee, headed by Chief Justice Earl Warren, to carry on this investigation. By setting up this special commission and naming Warren head of it, Johnson was following the dictates of the Communist Party U.S.A. because four days before Johnson's announcement *THE WORKER*, official Communist newspaper, in its November 26 issue, urged that President Johnson appoint a special investigation commission. And then *THE WORKER* added:

> Such an investigation committee, headed by the Chief Justice of the Supreme Court, should be composed of citizens and experts who enjoy the confidence of the nation.

Obviously, Chief Justice Warren "enjoys" the "confidence" of Communists, because during the period October, 1953, to June, 1961, **Chief Justice Warren voted on the side of the Communists in 62 out of 65 cases, or 95% of the time in favor of the Communists!**

In view of the above, it can be expected that the Warren Commission will so blur the lines of the assassination case **that the fact that the President was killed by a Communist will be all but obscured.** In addition, the commission's investigation can be expected to be

long and drawn out. An Associated Press dispatch of December 11 reported that "some officials predicted privately today that it may be a year before Chief Justice Earl Warren's commission finishes investigating the assassination of President John F. Kennedy." In this way, Earl Warren and the other apologists for Communism will hope to put a damper on the fire of public outrage and the demand for destruction of the Communist conspiracy within this Nation.

That the Warren Commission was set up for "whitewash" purposes is revealed in an article in the *NEW YORK TIMES* of November 24 which reported that "the highest men in government" were very concerned over the public's reaction to the murder of President Kennedy by a Communist. According to the *TIMES* "their greatest fear was that the assassination and the left-wing background of the prime suspect, Lee H. Oswald, would generate anti-Communist passions and cries for vengeance."

WHAT CAN BE DONE

Communist infiltration and Communist terrorism, particularly in view of the fact that Castro's Cuba is now an armed Soviet missile base, is the burning issue before the American people today.

No help in controlling domestic Communists can be expected from either the Communist-coddling U.S. Supreme Court or from the office of the U.S. Attorney General. Therefore, this leaves only two means by which the American people can defend this nation against Communist subversion:

(1) There is nothing that the Communists and their friends in high places in the Government fear more than an alarmed and aroused American public demanding the destruction of the Communist conspiracy.

(2) The prime weapon that the American people have against those who aid and abet the Communist conspiracy is "voter reprisal." **Every single Congressman coming up for re-election in 1964 should be put on notice that his re-election will depend on his taking a forthright, vigorous stand against Communist infiltration.**

The Government rules in this country by the "consent of the governed." If the American people do not docilely "consent" to Communist subversion, there is something they can

do about it. And that is, **elect only 100% anti-Communists to Congress.** Congress in the hands of an anti-Communist majority can pass the necessary legislation to destroy the Communist enemy within our midst.

WHAT YOU CAN DO

The first job, of course, is to give the widest possible distribution to the documented facts in this pamphlet, which expose the extent of Communist infiltration.

(1) Order TODAY copies of this pamphlet and send, together with a short note or letter, to your Congressman and two Senators, demanding effective action against Communists.

(2) Write letters to the editor of your local newspaper using the documented facts contained in this pamphlet in order that thousands in your area may be alerted to the dangers as outlined herein.

(3) Buy as many of these pamphlets as you possibly can and mail or distribute them to your friends or members of your church asking them to help in defeating the atheistic Communist enemy within our borders.

Help make the menace of Communism the major issue in the 1964 elections!

McNamara Lands in a Bee Hive

(Reprinted from THE SHREVEPORT (La.) TIMES)

Defense Secretary Robert S. McNamara may have barked a bit too quickly in denouncing Senator Goldwater as "damaging the national security" when he said that our intercontinental ballistic missiles were not dependable and that the administration really should tell the people exactly how undependable they may be.

It is possible that Mr. McNamara has stuck his head into a beehive in a manner to create what could be one of *the* major issues in the next presidential campaign. There is an ever growing demand for the full truth, whatever it is, about our national security under the Washington administration's constant cutting down or eliminating military programs which all or most of the responsible Generals and Admirals of the Pentagon say are essential to our safety from Russia.

It is not likely that a 2-to-1 Democratic Congress will grant a Republican presidential aspirant the kind of investigation Senator Goldwater demands. But more than one congressional committee already has taken investigative steps as to Secretary McNamara's national security decisions. The Congressional Joint Committee on Atomic Energy recently gave him about the toughest raking over any Defense Secretary has had in decades. It denounced his decision against nuclear power for new Navy carriers.

There is, also, the matter of just what meaning is attached to such words as "dependable" and "undependable." We heard Senator Goldwater make his statement on the air and his tone of voice was not one to imply that he meant there was no dependability whatever in our long

feel the same way. Similar thoughts have been expressed in these columns more than once in the past few years, and by many citizens.

President Kennedy himself originated a national feeling of insecurity in the 1960 campaign with statements later proven false—namely, that there was a big missile gap between the United States and Russia; that Russia was far ahead of the United States in the number of missiles, the accuracy of its missiles, and its ability to fire them. Rather oddly, it was Mr. McNamara himself—when he had been President Kennedy's Defense Secretary for only a few weeks—who exploded this whole Kennedy campaign contention and proved that we were at that time well ahead of Russia in the missile field.

But as time passed on, Mr. McNamara—naturally with presidential approval—steadily has decreased our nuclear armament and our nuclear military development, invariably against the wishes of either all or a majority of the Chiefs of Staff and various other Generals and Admirals holding posts of top responsibility in the Pentagon. The Air Force, for example, is being phased out of existence as manned bomber deliverer of nuclear missiles. Morale in the Pentagon military reportedly is at a very low point. This phasing out—endlessly it seems—of nuclear delivery systems such as the manned bomber that also concerns Senator Goldwater. He is not speaking without considerable knowledge of his subject. He is an Air Force Major General, a qualified military jet pilot, a combat veteran of four years service in War II. Mr. McNamara has been able to crack down on the Generals

The 30-day moratorium on politics, declared by the Republicans after President Kennedy's assassination has expired.

President Johnson and most of his fellow Democratic politicos have been playing politics throughout the 30 days, as was to have been expected; but the Republicans ought to be able to make up for lost time if they are smart enough to do so.

We think one of their first moves could

the administration really should tell the people exactly how undependable they may be.

It is possible that Mr. McNamara has stuck his head in'o a beehive in a manner to create what could be one of the major issues in the next presidential campaign. There is an ever growing demand for the full truth, whatever it is, about our national security under the Washington administration's constant cutting down or eliminating military programs which all or most of the responsible Generals and Admirals of the Pentagon say are essential to our safety from Russia.

It is not likely that a 2-to-1 Democratic Congress will grant a Republican presidential aspirant the kind of investigation Senator Goldwater demands. But more than one congressional committee already has taken investigative steps as to Secretary McNamara's national security decisions. The Congressional Joint Committee on Atomic Energy recently gave him about the toughest raking over any Defense Secretary has had in decades. It denounced his decision against nuclear power for new Navy carriers.

There is, also, the matter of just what meaning is attached to such words as "dependable" and "undependable." We heard Senator Goldwater make his statement on the air and his tone of voice was not one to imply that he meant there was no dependability whatever in our long range missile situation. What he clearly meant was that there is some undependability—to an extent which he thought might be dangerous; and that he felt that the government should be frank about this undependability to whatever degree —large or small—it exists.

It is no secret that our intercontinental nuclear missiles do considerable missing in test shots, some say about 30 to 35 per cent of the time. But this is not "undependability" if it is assumed that we would be able to get a tremendous number of missiles into the air in time of conflict.

What Senator Goldwater really is concerned with is our missile delivery system as a whole rather than the efficiency or accuracy of individual missiles; the possibility that—as a whole—the delivery system could be thrown completely out of gear by Russian achievement in space electronics.

Such noted American scientists as Edward Teller have stated that the big and high altitude nuclear explosions set off by Russia in the past two years are part of efforts to develop a means of putting a complete missile delivery system, such as ours, entirely out of action in a matter of minutes.

In other words, we could cover the horizon with flying missiles and Russia could short circuit all of them and make them totally, or largely, ineffective. In this way our vaunted power to retaliate in a nuclear manner destroying any nation trying to destroy us would be wiped out. That is what is causing Senator Goldwater to say that he doesn't "feel safe" as things

campaign with statements later proven false—namely, that there was a big missile gap between the United States and Russia; that Russia was far ahead of the United States in the number of missiles, the accuracy of its missiles, and its ability to fire them. Rather oddly, it was Mr. McNamara himself—when he had been President Kennedy's Defense Secretary for only a few weeks—who exploded this whole Kennedy campaign contention and proved that we were at that time well ahead of Russia in the missile field.

But as time passed on, Mr. McNamara —naturally with presidential approval— steadily has decreased our nuclear armament and our nuclear military development, invariably against the wishes of either all or a majority of the Chiefs of Staff and various other Generals and Admirals holding posts of top responsibility in the Pentagon. The Air Force, for example, is being phased out of existence as manned bomber deliverer of nuclear missiles. Morale in the Pentagon military reportedly is at a very low point. This phasing out—endlessly it seems—of nuclear delivery systems such as the manned bomber that also concerns Senator Goldwater. He is not speaking without considerable knowledge of his subject. He is an Air Force Major General, a qualified military jet pilot, a combat veteran of four years service in War II. Mr. McNamara has been able to crack down on the Generals and Admirals in the Pentagon, including the Joint Chiefs of Staff. They can't talk back. Mr. Goldwater is a Senator as well as a reserve General and can say what he wants to say.

There is this further fact to be considered in anything Mr. McNamara says: The original advocacy of "managed news" out of government departments in a manner to deceive the public had its inception in the Pentagon through one of Mr. McNamara's Assistant Defense Secretaries. Before and during the Cuba blockade crisis the Pentagon became noted for misleading information it put out, and for putting out information that turned out to be absolutely untrue. For example, a special committee of the American Society of Newspaper Editors and the American Newspaper Publishers Association made a full investigation of Pentagon public information during the Cuban blockade period and bluntly used the word "lie" in reference to certain Navy announcements. It used the phrase "The Government Lie" as an overall heading for general discussions of various Pentagon public information activities.

Further, it is no secret that quite a few members of Congress, particularly some chairmen of committees and subcommittees, have lost faith in Secretary McNamara. The Defense Secretary shot far too quickly from the hip in response to the Senator's charge. He has opened the door for a full scale attack on the whole national security setup—one in which most of the Generals and Admirals as well as quite a few members of the House

The 30-day moratorium on politics, declared by the Republicans after President Kennedy's assassination has expired.

President Johnson and most of his fellow Democratic politicos have been playing politics throughout the 30 days, as was to have been expected; but the Republicans ought to be able to make up for lost time if they are smart enough to do so.

We think one of their first moves could well be an all-out attack on Chief Justice Earl Warren's commission to investigate the Kennedy murder, plus a drive to persuade Congress to give Warren & Co. the heave on this matter and set up a full-dress investigation by a joint Congressional committee.

The Warren outfit, appointed by President Johnson, consists of Warren as chairman, Rep. Hale Boggs (D-La.), Sen. John S. Cooper (R-Ky.), ex-Central Intelligence Agency chief Allen W. Dulles, Rep. Gerald R. Ford (R-Mich.), John J. McCloy and Sen. Richard Russell (D-Ga.).

Their appointment came - surely by coincidence - shortly after the Communist publication The Worker urged formation of such a commission with Warren as chairman.

The appointment, further, was cheered by virtually all the professional "liberals" and anti-anti-Communists in the land - a highly dubious crew at best.

* * * *

The Federal Bureau of Investigation long since put together a five-volume report of its own painstaking probe of the Kennedy murder.

It is a safe bet that the FBI buttoned up its findings so tightly that not a loophole could be discovered.

It is not a bet but a certainty that the FBI is far better qualified to sift the evidence in such a case than is anybody on the Warren commission with the possible exception of Allen Dulles.

Yet the Warren crowd has now set up an elaborate office in Washington, hired an attorney, and put word around that it intends to take its own good time about filing its verdict and about releasing the FBI report.

This delay, plus the Warren commis-

—large in small—is known.

It is no secret that our intercontinental nuclear missiles do considerable missing in test shots, some say about 30 to 35 per cent of the time. But this is not "undependability" if it is assumed that we would be able to get a tremendous number of missiles into the air in time of conflict.

What Senator Goldwater really is concerned with is our missile delivery system as a whole rather than the efficiency or accuracy of individual missiles: the possibility that—as a whole—the delivery system could be thrown completely out of gear by Russian achievement in spare electronics.

Such noted American scientists as Edward Teller have stated that the big and high altitude nuclear explosions set off by Russia in the past two years are part of efforts to develop a means of putting a complete missile delivery system, such as ours, entirely out of action in a matter of minutes.

In other words, we could cover the horizon with flying missiles and Russia could short circuit all of them and make them totally or largely, ineffective. In this way our vaunted power to retaliate in a nuclear manner destroying any nation trying to destroy us would be wiped out. That is what is causing Senator Goldwater to say that he doesn't "feel safe" as things are now. Some of our top scientists as well as some of our top Generals and Admirals

The Defense Secretary shot far too quickly from the hip in response to the Senator's charge. He has opened the door for a full scale attack on the whole national security setup—one in which most of the Generals and Admirals as well as quite a few members of the House and Senate may be at Senator Goldwater's side, even if silently.

Johnson's Misleading Message

By Congressman August E. Johansen

It is entirely premature, both on the basis of his State of the Union message and his performance to date to hail President Johnson as the Great Economizer.

In his message the President promised a $97.9 billion budget request for the Fiscal year starting next July 1.

He described this as "an actual reduction in federal expenditures." It is, of course, nothing of the sort!

By comparing his $97.9 billion budget request with the $98.4 billion budget request of President Kennedy for the current fiscal year, Mr. Johnson claimed an expenditure reduction of "more than $500 million."

This claim does not stand up, either.

What President Johnson has actually done is simply to state that he is going to ASK FOR half a billion dollars less than President Kennedy ASKED FOR. That is all very fine, but it isn't, by the remotest stretch of the imagination, a reduction in federal expenditures or even a proposal to reduce those expenditures.

Congress, in last year's session, voted appropriations totalling $92.4 billion. Therefore President Johnson is asking Congress this year to vote $5.5 billion more in appropriations than last year! That is hardly a proposal to cut federal spending.

On the face of it, the "something for everybody" program proposed by Mr. Johnson in his State of the Union message makes any claim that there is going to be a net reduction in federal expenditures utterly preposterous.

Indeed his proposals for unprecendented expansion of existing federal projects and for initiation of new and immensely costly federal programs, previously proposed by President Kennedy, can only mean substantially increased federal spending year after year, in perpetuity. And it also means vast new accretions of power in the central government.

Any suggestion or claim to the contrary, from whatever source, is an insult to the intelligence of the American people. Even President Johnson isn't going to repeal arithmetic.

Ever bigger central government is going to be ever costlier central government—and President Johnson's State of the Union message is a clear and unmistakable blueprint for mushrooming government.

...dent Johnson, consists of Warren as chairman, Rep. Hale Boggs (D-La.), Sen. John S. Cooper (R-Ky.), ex-Central Intelligence Agency chief Allen W. Dulles, Rep. Gerald R. Ford (R-Mich.), John J. McCloy and Sen. Richard Russell (D-Ga.).

Their appointment came - surely by coincidence - shortly after the Communist publication The Worker urged formation of such a commission with Warren as chairman.

The appointment, further, was cheered by virtually all the professional "liberals" and anti-anti-Communists in the land - a highly dubious crew at best.

The Federal Bureau of Investigation long since put together a five-volume report of its own painstaking probe of the Kennedy murder.

It is a safe bet that the FBI buttoned up its findings so tightly that not a loophole could be discovered.

It is not a bet but a certainty that the FBI is far better qualified to sift the evidence in such a case than is anybody on the Warren commission with the possible exception of Allen Dulles.

Yet the Warren crowd has now set up an elaborate office in Washington, hired an attorney, and put word around that it intends to take its own good time about filing its verdict and about releasing the FBI report.

This delay, plus the Warren commission's arrogant attitude toward the FBI, is giving professional "liberals" and Communists a golden chance to cloud the question of who murdered the President, and to spread the impression that Commie Oswald was somehow inspired to commit this crime by members of the John Birch Society and other right-wing extremists.

In view of the Earl Warren Supreme Court's long-standing tenderness toward Communists, any report this commission may at long last give birth to will be open to suspicion of pro-Communist and anti-conservative bias.

* * * *

The object of any investigation into this vicious crime should be to get the whole truth about it, and nothing but the truth, and to let the American people have that truth as fast as it is confirmed by competent investigators.

There seems to be little likelihood that the Warren commission can come up with an unbiased verdict. And the commission's actions to date indicate strongly that it won't come up with any verdict at all for perhaps a year.

So it looks to us as if the Republicans in Congress would be wise to start agitating for a fast dismissal of the whole Warren commission and the setting up of a joint Congressional investigation of the Kennedy murder.

We believe public opinion would strongly favor such a probe, and the sooner the better.

GOLDWATER'S CANDIDACY PANICS LIBERALS

By Phoebe Courtney, Editor

Senator Barry Goldwater's announcement on January 3 that he is a candidate for the Republican presidential nomination, not only thrilled Conservatives throughout the Nation, but has confounded and badly frightened the Eastern kingmakers of the Republican Party.

On October 4, 1963, THE INDEPENDENT AMERICAN mailed out thousands of cards entitled "I m For Goldwater,... If", in which we stated that we would support Goldwater for President--IF he refused to make any political deals which would result in a Goldwater-Rockefeller or a Rockefeller-Goldwater ticket--IF he publicly denounced the Eastern Liberal Internationalists and their control of all GOP conventions and policies in recent years--IF he took a forthright position against the policies of the Eastern Republicans such as (a) strengthening the Communist-dominated United Nations; (b) Foreign Aid to Communist countries, and (c) Disarmament of the United States.

As you will recall, when Goldwater made his announcement he promised a "dog fight", and he certainly gives every indication of living up to that promise. In all of his recent public statements and campaign speeches he has taken a most forthright position on the leading questions of the day. What is so very encouraging to all anti-Conservative Communists is that come freedom's arch-enemy....our present policy of coexistence has failed to alter Communism's goal of destroying the political and social forms of the non-Communist world."

Goldwater then went on to say that "On every front there is encouragement for further Communist incursion...the present U.S. foreign policy does not encourage - or in some cases even permit - the use of free world power, short of general war, to counter Communist strategy."

Hitting Foreign Aid, one of the main pet schemes of the CFR and the Eastern GOPers, Goldwater charged:

"Foreign Aid is used...to strengthen nations already dominated by Communist power, but has, instead, eased internal difficulties by making up local commodity deficits."

Then nailing down his views and his complete disagreement with the Eastern wing, Goldwater declared:

"The hope that freedom and Communism can live peaceably, side by side, is a vain hope....Merely to echo the Communists slogan of 'peaceful coexistence' is simply to fall in with Communist propaganda."

EASTERN LIBERALS PANIC

By basing his campaign on the slogan "Why not victory over the evils of Communism?"...Goldwater has brought about

Cuban Missiles Aimed At U. S.

By Fulton Lewis, Jr..

WASHINGTON, Jan. 14 -- Nuclear-tipped missiles, sleek and slender, sit on silos at a Soviet base 30 miles west of Havana. They are trained on U.S. targets.

Cuban Missiles Aimed At U. S.

By Fulton Lewis, Jr.

WASHINGTON, Jan. 14 -- Nuclear-tipped missiles, sleek and slender, sit on silos at a Soviet base 30 miles west of Havana. They are trained on U.S. targets.

The report has been relayed from Cuba to members of an exile group with headquarters in Miami. A spokesman for the Cuban Sentinels of Liberty puts the heavily guarded base at a spot 30 miles west of Havana, five miles off Cuba's northern coast.

The account is but one of many reaching the U.S. that details a continuing Soviet build-up. One of the most interesting reports came from Jose Dans Reyes, a resident of Oriente Province who was drafted into a forced labor battalion.

For nearly two years, Dans Reyes worked on an elaborate underground military complex in Holguin. He told the Citizens Committee for a Free Cuba:

"I worked as a mason's helper on the underground levels prepared for the storage of heavy (bomber and fighter bomber) military planes. Those of us who were 'slave laborers' worked on the upper levels of the underground construction while only the Russians were permitted to construct the deeper levels which housed the machinery and more secret details of the construction. Afterward, Russian planes

As you will recall, when Goldwater made his announcement he promised a "dog fight", and he certainly gives every indication of living up to that promise. In all of his recent public statements and campaign speeches he has taken a most forthright position on the leading questions of the day. What is so very encouraging to all anti-Conservative Communists is that Goldwater has made the following statement the cornerstone of his campaign:

Why not victory over the evils of Communism"

GOLDWATER HITS EASTERN KINGMAKERS

During the past few years Barry Goldwater has repeatedly stressed the need for party harmony, and has attempted to work out a plan of coexistence with the Eastern Liberal Republicans whose policies are the exact opposite of Goldwater's Conservative principles.

Because of the tremendous pressure that has been exerted upon him by grass roots Conservatives, Goldwater has apparently seen the light. For instance, when questioned by the press after his announcement on January 3, Goldwater stated,

> "I believe it is time that we gave Republicans a choice other than someone from the Eastern and Western seaboards."

On January 7, Goldwater, speaking in Concord, N.H. said:

> "If we can't nominate a Conservative, then I think we are going to have trouble in the Republican Party because it will mean that a handful of Liberals control one of the major parties."

THE COUNCIL ON FOREIGN RELATIONS- THE COMMON DENOMINATOR

"The "handful of Liberals" whom Goldwater referred to are, of course, Rockefeller, Nixon, Dewey, Aldrich, Lodge and Eisenhower. All are members of the New York-based Council on Foreign Relations. These are the men who, since the nomination of Wendell Wilkie in 1940, have exerted complete control over the policy-making and nominating machinery of the Republican Party. The policies and aims of the Council on Foreign Relations are: (a) Continued and accelerated appeasement of Communist Russia; (b) Disarmament of the United States; (c) Admission of Red China to the United Nations; (d) Continued Foreign Aid to Communist countries; (e) Continued support of the United Nations, which is dominated by Communist power; (f) Establishment of a one-world government; (g) Destruction of U.S. sovereignty; (h) Establishment of a one-world socialistic economy.

Goldwater has stated that Communism has become freedom's arch-enemy....our present policy of coexistence has failed to alter Communism's goal of destroying the political and social forms of the non-Communist world."

Goldwater then went on to say that "On every front there is encouragement for further Communist incursion...the present U.S. foreign policy does not encourage -or in some cases even permit - the use of free world power, short of general war, to counter Communist strategy."

Hitting Foreign Aid, one of the main pet schemes of the CFR and the Eastern GOPers, Goldwater charged:

> "Foreign Aid is used...to strengthen nations already dominated by Communist power, but has, instead, eased internal difficulties by making up local commodity deficits."

Then nailing down his views and his complete disagreement with the Eastern wing, Goldwater declared:

> "The hope that freedom and Communism can live peaceably, side by side, is a vain hope....Merely to echo the Communists slogan of 'peaceful coexistence' is simply to fall in with Communist propaganda."

EASTERN LIBERALS PANIC

By basing his campaign on the slogan "Why not victory over the evils of Communism?", Goldwater has brought about a direct confrontation between the Conservative and Liberal elements of the Republican Party. To the victor at the Republican nominating convention will belong the spoils- that is, control of the Republican Party for the next four years.

The Eastern Liberal kingmakers -- the CFR -- are NOT interested in a Conservative Republican victory in November. As Fulton Lewis, Jr., in his newsletter, EXCLUSIVE, of January 8, put it: "The Liberal Republican kingmakers would rather have the GOP lose in 1964 with a candidate of their choosing than win with Barry Goldwater as the nominee." This view is confirmed by syndicated columnist Ralph de Toledano in his column of January 3 where he stated:

> "What the two factions are fighting over is the ideological control of the GOP; the candidates are incidental.... The Eastern kingmakers are ready to throw the upcoming election, if necessary, in order to retain control of the Party machinery."

Mr. de Toledano then went on to say that if Goldwater were nominated, but defeated, he (Goldwater) "would remain the titular and actual head of his party,...and that he would do his utmost to bring the GOP back to a solid position of constructive Conservatism..."

(Of course the reason why the Council on Foreign Relations is concentrating on control of the Republican Party rather than a victorious GOP candidate in November is that the CFR equally controls the Democrat Party. For example, all of the leading foreign policy positions in the Kennedy Administration and the Johnson Administration are occupied by members of the Council on Foreign Relations. That is why, regardless of which party has been in power in the past several decades, the Communist-accommodating policies of the Council on Foreign Relations have been

build up. One of the most interesting reports came from Jose Dans Reyes, a resident of Oriente Province who was drafted into a forced labor battalion.

For nearly two years, Dans Reyes worked on an elaborate underground military complex in Holguin. He told the Citizens Committee for a Free Cuba:

"I worked as a mason's helper on the underground levels prepared for the storage of heavy (bomber and fighter bomber) military planes. Those of us who were 'slave laborers' worked on the upper levels of the underground construction while only the Russians were permitted to construct the deeper levels which housed the machinery and more secret details of the construction. Afterward, Russian planes

CAUGHT IN OUR OWN HYPOCRISY

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

In typical seeking after money instead of principle, Britain - which earned the name "perfidious Albion" in similar and worse policy of the distant past - has agreed to a more than 11-million-dollar deal involving the sale of British buses and parts to Communist Cuba.

The U.S. State Department is unhappy that our foremost ally is thus violating the political "economic quarantine" that we have been kidding ourselves exists as the "major weapon" toward the downfall of the Cuban Communist regime.

The United States ought to be unhappy. But before the State Department shows too much moral indignation, it might observe that it is caught in its own gross hypocrisy.

Is it worse for Britain to sell buses to Red Cuba (and on credit - ha, ha, the joke may be on the British before the thing is over) than it is for the United States to sell wheat to Russia, for cash or on credit or any other way?

After all, Russia is transshipping wheat to Communist Cuba. So our aid to one Communist dictator is aid to another - the same one Britain is aiding in the bus deal.

As a matter of fact, the Johnson Administration's policy of aiding Reds is as bad or worse than that of the British in their bus deal.

There is no economic blockade of Cuba. There is no sure safeguard against use of Red Cuba as a military base against us. There is clear proof of the use of Red Cuba as the staging ground for Communist subversion and hot guerrilla warfare throughout Latin America in an effort to spread Communist control.

Yet we are unhappy with Britain for dealing with Red Cuba while we support policies which by indirection do the same thing, aiding the Reds in Cuba and elsewhere throughout the world far more than providing buses will aid them.

During the past few years Barry Goldwater has repeatedly stressed the need for party harmony, and has attempted to work out a plan of coexistence with the Eastern Liberal Republicans whose policies are the exact opposite of Goldwater's Conservative principles.

Because of the tremendous pressure that has been exerted upon him by grass roots Conservatives, Goldwater has apparently seen the light. For instance, when questioned by the press after his announcement on January 3, Goldwater stated,

"I believe it is time that we gave Republicans a choice other than someone from the Eastern and Western seaboards."

On January 7, Goldwater, speaking in Concord, N.H. said:

"If we can't nominate a Conservative, then I think we are going to have trouble in the Republican Party because it will mean that a handful of Liberals control one of the major parties."

THE COUNCIL ON FOREIGN RELATIONS- THE COMMON DENOMINATOR

"The "handful of Liberals" whom Goldwater referred to are, of course, Rockefeller, Nixon, Dewey, Aldrich, Lodge and Eisenhower. All are members of the New York-based Council on Foreign Relations. These are the men who, since the nomination of Wendell Wilkie in 1940, have exerted complete control over the policy-making and nominating machinery of the Republican Party. The policies and aims of the Council on Foreign Relations are: (a) Continued and accelerated appeasement of Communist Russia; (b) Disarmament of the United States, even unilaterally if a disarmament agreement cannot be reached with the Soviet Union; (c) Continued and long-term Foreign Aid to Communist countries.

Since his announcement, Goldwater has repeatedly made strong statements denouncing appeasement of Communist Russia, the Nuclear Test Ban Treaty and Foreign Aid to Communist countries.

WHY NOT VICTORY OVER THE EVILS OF COMMUNISM?

Whereas the policies and views of the Eastern GOP kingmakers are based on the totally insupportable theory that the Soviet Union is "mellowing" and that therefore coexistence with Communism is possible, Goldwater in an editorial in the January 17 issue of LIFE magazine emphatically disagrees. Stated Senator Goldwater in that article:

"The major objective of the U.S. foreign policy should be the reduction of Communist power to a level from which it cannot threaten the security of our nation or the peace of the world."

Whereas the Council on Foreign Relations and its spokesmen attempt to treat the Soviet Union as merely another nation in the family of nations, Goldwater in the LIFE article stated:

"Communism demonstrably has be-

The Eastern Liberal kingmakers -- the CFR -- are NOT interested in a Conservative Republican victory in November. As Fulton Lewis, Jr., in his newsletter, EXCLUSIVE, of January 8, put it: "The Liberal Republican kingmakers would rather have the GOP lose in 1964 with a candidate of their choosing than win with Barry Goldwater as the nominee." This view is confirmed by syndicated columnist Ralph de Toledano in his column of January 3 where he stated:

"What the two factions are fighting over is the ideological control of the GOP; the candidates are incidental.... The Eastern kingmakers are ready to throw the upcoming election, if necessary, in order to retain control of the Party machinery."

Mr. de Toledano then went on to say that if Goldwater were nominated, but defeated, he (Goldwater) "would remain the titular and actual head of his party....and that he would do his utmost to bring the GOP back to a solid position of constructive Conservatism..."

(Of course the reason why the Council on Foreign Relations is concentrating on control of the Republican Party rather than a victorious GOP candidate in November is that the CFR equally controls the Democrat Party. For example, all of the leading foreign policy positions in the Kennedy Administration and the Johnson Administration are occupied by members of the Council on Foreign Relations. That is why, regardless of which party has been in power in the past several decades, the Communist-accommodating policies of the Council on Foreign Relations have been, and are, the official policy of the United States.)

LIBERALS GEAR UP "STOP GOLDWATER" MACHINE

The majority of American people are, of course, anti-Communist. In 1952 when the voters had a choice to vote for the anti-Communist platform and statements of Eisenhower (although he later scrapped the anti-Communist platform), he was overwhelmingly elected. In the 1956 and 1960 elections, the Council on Foreign Relations managed to keep anti-Communism from being a major campaign issue.

Now, however, with Goldwater running for the nomination on a platform of "Why not victory over the evils of Communism?" -- with the President having been assassinated by a Communist, with Soviet missiles in Communist Cuba aimed at the heartland of the United States, and with the rising tide of anti-Communist feeling in the Nation, Goldwater's nomination and subsequent election becomes so probable that the Liberals and Communist appeasers of both parties are in a blind panic.

The extreme Liberal, Walter Lippmann (of course a member of the CFR), in a column on January 8, describes Goldwater

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to LOVE OF GOD AND AN INDEPENDENT U.S.A.

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without this regular support, this experiment in patriotic and political journalism would not be possible.

SUPPOSE GOLDWATER IS DENIED THE NOMINATION?

By Kent Courtney, Publisher

What will Conservatives do if Goldwater is denied the nomination at the Republican Convention in July?

Remember what happened to Taft? Nelson Rockefeller and Thomas Dewey and others of the Council on Foreign Relations conspired in 1952 to deny the nomination to Senator Robert A. Taft and gave it to Eisenhower.

THE INDEPENDENT AMERICAN is supporting Goldwater all the way, and we urge that every Conservative work for his nomination. But in case the nomination is stolen from him as it was from Taft, what alternative plan is available?

By establishing a new conservative party on the ballot of your State, with presidential electors of the Conservative Party pledged to Barry Goldwater we can assure that his name will be on the ballot even if the Republicans do not give him the nomination. The mere fact that the Conservative Party is on the ballot may be the most effective kind of political pressure to insure the nomination.

Party on the ballot in your state, just write us a letter giving your background which would qualify you to work in this Conservative Party movement. Political experience and proven leadership ability will help qualify you to participate in Statewide and regional planning sessions during the coming months.

If you are for Goldwater, and if you will not vote for any other Republican, then you should take out "political insurance" now by helping to establish an honest alternative in case Nixon or Rockefeller gets the Republican nomination. Political insurance for Conservatives means establishing a ballot position outside the Republican and Democrat parties.

There will be important meetings in February and March of Conservative leaders to coordinate plans for the establishment of the Conservative Party on a nationwide scale.

If you represent a political organization which has the ability to get a Conservative Party on the ballot in your State, and if

What Lyndon Faces: To Win Election

(Reprinted from SHREVEPORT (La.) TIMES)

Regardless of speculation as to Republican chances to defeat President Johnson next fall if Senator Goldwater captures the GOP nomination, the GOP leader fails to recognize that the incumbent Chief Executive has a natural edge, and that President Johnson is a masterful political tactician who quite obviously is guiding almost each and every step of his own right now in ways which he thinks will most favorably affect his chances in next November's contest.

At the same time, President Johnson could not be a masterful political tactician and fail to recognize that he has a rough road ahead. He has drawn every Kennedy philosophy and plan and minority voting group as close to his breast as he can get them and he doesn't intend to loosen up on his hugging.

But there is this about Mr. Johnson and Mr. Kennedy:

1. Mr. Kennedy at times moved in ways to *force* people to do his will regardless of hard feeling that might thus be created: Mr. Johnson is more inclined to *get* people to do his will in a manner to make them think that, even if he is wrong, it really is a good thing to go along with him.

2. Mr. Kennedy, as some students of his political life have written, could fail to follow political lines set down by powerful voting groups—such as the national Negro organizations and organized labor—and still retain their real affection and solid support. Mr. Johnson is going to have to go farther down the lines drawn by these groups than Mr. Kennedy ever dreamed of going in order to hold them completely. They accepted and assumed Mr. Kennedy's allegiance. Mr. Johnson must prove his—repeatedly, every time some new situation pops up. And Mr. Johnson knows that "the Kennedys" still are powerful in Democratic Party politics and that those who live will not relinquish power easily simply because one has died. Mr. Johnson must hold them, too. They surely will have a strong voice in naming his vice presidential running mate.

President Johnson will face his toughest task in race problems next summer. It will be difficult for him to carry on a campaign for election if Negroes are de-

O. Box 4254 New Orleans 18, Louisiana or Telephone University 1-4083 during business hours for added details.

THE REAL "HATERS"

By Congressman August Johansen

The claim of the Communist press, both foreign and domestic, (for example, Pravda and The Worker) that "the ultra-Right, fascist and racist forces" killed President Kennedy didn't go over with the American people -- despite the generous assist given this "line" by some left-wing elements and commentators in this country.

The overwhelming evidence of Oswald's guilt together with his self-admitted Marxist background and activities, torpedoed this preposterous Communist propaganda.

A second diversionary effort deserves equally short shrift -- the claim that, in some mysterious fashion, the heinous crime of November 22 involves all Americans in a collective, mass guilt. Only the muddled, the maudlin or the malicious will accept this notion.

Marxists and Communists do preach hate and practice violence -- as the means to their ends. An attempt to plead Americans guilty on a collective basis to the same thing amounts to saying that the Communists are little, if any, worse than all the rest of us. That propaganda is false -- and it serves only the Communist cause.

And Mr. Johnson knows that "the Kennedys" still are powerful in Democratic Party politics and that those who live will not relinquish power easily simply because one has died. Mr. Johnson must hold them, too. They surely will have a strong voice in naming his vice presidential running mate.

President Johnson will face his toughest task in race problems next summer. It will be difficult for him to carry on a campaign for election if Negroes are demonstrating violently or in a manner to incite violence on the streets of many American cities in many American states. these demonstrations took place in more than 30 states last summer.

President Johnson could lose in both the South and the North in this field. He was able, by what was reputed to be a series of political deals, to keep a majority of Southern states in line for the Kennedy-Johnson ticket in 1960. But that was not in the face of violent racial street demonstrations, encouraged and sometimes guided from Washington.

It may be a tough job for the President to try to hold Southern states and still be officially indifferent to Negro rioters and demonstrators in the manner of both President Kennedy and Attorney General Kennedy. There is evidence in many directions of widespread disgust *outside the South* with racial street demonstrations.

Somewhere along the line President Johnson could have trouble selling himself to the industrial East and parts of the Middle West as both a friend of labor and of business, and to the South and the Negro groups as a friend of each.

Right now, with the pall of assassination still softening partisan political activities, President Johnson has many things "going for him" that may not be "going for him" once the two parties have held their national conventions and squared off for an election.

Could Senator Goldwater defeat President Johnson?

steps to be taken to get the Conservative tells.

CONSERVATIVE PROGRAMS AVAILABLE FOR LOCAL SPONSORSHIP

If you and your friends, or your business firm, would like to have these programs played over your local radio station, just write to Kent Courtney, P. O. Box 4223, New Orleans 18, Louisiana, for complete details.

The purpose of THE RADIO EDITION OF THE INDEPENDENT AMERICAN is to give the Conservative side of the vital issues concerning this country today.

President Johnson could lose in both the South and the North in this field. He was able, by what was reputed to be a series of political deals, to keep a majority of Southern states in line for the Kennedy-Johnson ticket in 1960. But that was not in the face of violent racial street demonstrations, encouraged and sometimes guided from Washington.

It may be a tough job for the President to try to hold Southern states and still be officially indifferent to Negro rioters and demonstrators in the manner of both President Kennedy and Attorney General Kennedy. There is evidence in many directions of widespread disgust *outside the South* with racial street demonstrations.

Somewhere along the line President Johnson could have trouble selling himself to the industrial East and parts of the Middle West as both a friend of labor and of business, and to the South and the Negro groups as a friend of each.

Right now, with the pall of assassination still softening partisan political activities, President Johnson has many things "going for him" that may not be "going for him" once the two parties have held their national conventions and squared off for an election.

Could Senator Goldwater defeat President Johnson?

Certainly *The Times* does not know and is making no attempt to answer the question. But we have before us a letter—it can be quoted only anonymously because it is a purely personal communication—from the publisher of a sizable Eastern newspaper. He is a Republican, a conservative, supported Nixon in 1960 and has had enough of him, and is strong for Goldwater. These paragraphs in his letter are interesting:

"If Johnson goes as extremely in favor of civil rights as he has for foreign aid, then he could be most vulnerable.

"Up here in the North people are sick of Negro demonstrations and being pushed around by the Negro minority, just about as sick as they are in the South . . . If the North becomes convinced that Johnson is another Negro-firster and the South (becomes convinced) that he's a scalawag, we (the GOP) could win with a candidate not afraid to call this to the voters' attention."

NEUTRALITY

"The hottest places in hell are reserved for those who, in a period of moral crisis, maintain their neutrality."

-- Dante

nedy's top advisor, Walt Rostow:

> There may be times when in order to maintain military positions action must be taken which will conflict with the norms of the American ideological interest, and there may be occasions when it will be proper to take military risks to permit movement toward ideological objectives.

Why should the United States ever undertake any policy which would "conflict" with "American ideological interest"? As for the "military risks" of which Rostow speaks: Any military risk has gladly been accepted by the United States if such a risk will protect and defend the United States. However, the risks Rostow speaks of are "military risks to permit movement toward ideological objectives," and these "ideological objectives" differ sharply from the ideological objectives of this nation to remain independent. The risks he doubtless refers to are the very real risks of disarming the United States in the face of Soviet aggression in order to move toward his ideological objective of "a Federalized world organization under effective international law."

In order to "persuade," as Rostow puts it, the Soviet bloc to enter into such a Federalized World Government, Mr. Rostow is perfectly willing to destroy our national defense, restrict our fighting to Communist-instigated brush wars around the world, and the socialization of our own economy by pouring countless billions of U.S. dollars into Foreign Aid for the benefit of so-called underdeveloped countries throughout the world. With an end to America's nationhood, as Rostow advocates, the Stars and Stripes would be merely a flag on top of a pole stuck in the soil on a mere island off continental Eurasia.

It will be recalled that on June 19, 1962, in Rumania, Khrushchev stated:

> I am convinced that tomorrow the Red flag will fly over the United States. But we will not fly the flag. It will be the American people themselves.

In this regard, Alice Widener commented, "With Professor Walt W. Rostow in our State Department as chairman of its Policy Planning board, it seems that Nikita Khrushchev wasn't so far out of line in his recent comments in Rumania.... When the right time comes, he or his successor can orbit across the seas to attend the ceremonies when the Red flag is flown by Americans over a regional island off the European continent, an island once called the continental United States of America."

Professor Rostow euphemistically refers to his proposals as a "revolutionary foreign policy." It would appear that he is guilty of a gross understatement. Stripped of the fuzzy-minded intellectualisms in which Rostow couches his proposals, what he is advocating is the overthrow of the Constitutional government of the United States.

Rostow's views could easily be relegated to the trash heap as mere rantings were it not for the fact that he occupies the position of a top advisor to President Kennedy. Nor can his preposterous views be casually dismissed as the product of senility. Rostow happens to be a vigorous 47 years old, with presumably a long life ahead of him to plot the demise of the national sovereignty of the United States. It would therefore be a fatal error to underestimate the power that this man is presently able to exert on the destiny of this nation. For that reason it behooves all liberty-loving Americans to become acquainted with the specific steps that Rostow urges as a preliminary means to his ultimate goal, at all times bearing in mind that each such step has been calculated by Rostow to further his aim of "an end to nationhood" of the United States.

THE ROSTOW PAPER

On June 17 and 18, 1962, Willard Edwards, Washington correspondent for the CHICAGO TRIBUNE, wrote two articles which exposed "The Rostow Paper." The first was entitled "Draft Foreign Policy Revision Bowing to Reds - Based on Theory Soviet Union is Mellowing." The second was entitled "Rostow Backs 'Education' on Soft Red Line - Policy Draft Eyes U.S. Conciliation of Russia."

Rostow's paper, exposed by Mr. Edwards, caused a storm of protest in Congress. On June 18, the day after the appearance of Willard Edwards' first article, Senator Everett M. Dirksen

of Illinois stated on the floor of the Senate:

> The core of Mr. Rostow's paper is an assumption that the Soviet Union and its Communist masters are "mellowing"; that Russia is becoming a mature state; that if we are only nice to the Soviets, they will drop all of their suspicions of the Free World, and peace will finally bloom .... But the disconcerting part of the whole picture is this: How does Mr. Rostow explain the recent Russian course of breaking the moratorium on nuclear testing? Does the presence of our Armed Forces in Thailand indicate the Communists are mellowing? Does the presence of our Armed Forces in Vietnam indicate the Communists are mellowing?

On June 20, three days after Willard Edwards' exposé of the Rostow Paper, syndicated columnist Peter Lisagor stated:

> Administration officials decry what they call "Right-Wing attempts" to picture the draft of a policy plan paper as advocating a soft conciliatory line toward Communist aims. Published reports have described the document as recommending a sweeping new foreign policy based on an alleged "mellowing" within the Soviet Union. Officials described these reports as distorted, nonsensical misconceptions....

It will be recalled that on December 6, 1962, Kennedy Administration spokesman, Arthur Sylvester, Assistant Secretary of Defense for Public Affairs, declared that the Federal Government "has the inherent right to lie." His statement naturally presupposes that not only does the Federal Government intend to lie in the future, but that it has lied in the past. That the Administration officials mentioned in Mr. Lisagor's article were lying when they said that the Rostow Paper is not based on a presumed "mellowing" attitude within the Soviet Union was ably refuted by Willard Edwards when he appeared as a guest on the nationwide radio program, the Manion Forum. In this radio broadcast interview, Mr. Edwards stated:

> It took a week of digging; patient questioning of many persons in government and in Congress; one of those fortunate "breaks" which occasionally lighten a newspaperman's heart; a solemn pledge to protect a confidential source -- and I had a copy of the Rostow document in my hands. As I flipped it open, one of the first sentences to leap from its pages was this: "The Soviet Union's domestic and foreign policies have mellowed in the post-Stalin period."

In his two articles, Mr. Edwards said that they were based on typed, verbatim extracts from the Rostow document, and then added:

> There was some paraphrasing, some comparison with the public statements by Mr. Rostow . . . but the final result was a faithful and accurate account of ideas suggested as a basis for a future United States policy.

Before discussing Mr. Edwards' two articles it might be well to point out that the so-called "Rostow Paper" is officially titled "Basic National Security Policy." Compiled under the direct supervision of Walt W. Rostow, this master plan represents the work of a number of officials in the White House, State Department, Treasury and Defense Departments. Although originally comprised of 285 pages, it was edited down to a shorter length.

In discussing the background of the Rostow Paper, Willard Edwards writes that: "Despite a host of contributors, the plans bear the Rostow stamp."

Following are excerpts from Willard Edwards' two articles, which originally appeared in the CHICAGO TRIBUNE:

> Neither Russia nor the United States is going to dominate this century, he (Rostow) contends. To those who speak of a "victory" or "win" policy in the Cold War, Rostow retorts that neither of the great leading nations will win over the other. Capitalism will not triumph over Socialism. Rather, the victory will be one of "men and nations" voluntarily cooperating under the principles of the United Nations Charter.

And then, continuing his analysis, Willard Edwards stated that in the Rostow Paper

> . . . it is suggested that the United States might advance a program (on arms control) not requiring formal negotiations . . . . General and complete disarmament is a goal which must never be obscured . . . . One theme is consis-

> tent in the proposed strategy plan - continuing communication with Russia, informal and formal, direct and indirect, must be maintained in order to dispel its fears of the United States and to give it a clear understanding of our peaceful intentions.

The Rostow Paper thus implements the secret-agreements-secretly-arrived-at theory advanced by CFR member Thomas C. Schelling, as outlined in Chapter III of this book.

In discussing the Rostow Paper recommendations regarding relations with our allies, Willard Edwards says that the paper advocates that:

> Rising tensions, or the pleas of our allies or of the American public must be ignored in any crisis with Russia. The temptation must be avoided to prolong or expand any crisis in an effort to degrade or embarrass the Soviets in the eyes of the world.

The foregoing is possibly one of the most ominous recommendations in the Rostow Paper. Here is seen evidence that Kennedy Administration political appointees such as Rostow intend to arrogate unto themselves total power. Could it be that these unelected rulers are aware that many of their suggestions for the governing of this nation, as well as their foreign policy proposals, are inimical to the best interest of this nation? Do they fear that when the real significance of their activities and plans are clearly understood by the American people, there will be an awesome wave of protest? Is that why the Rostow Paper states that rising tensions and pleas of the American public must be ignored in any crisis with Russia?

That these unelected rulers envisage an accelerated program of accommodation and collaboration with the Soviet Union is evident in the following excerpt from Willard Edwards' expose of the Rostow Paper:

> The Soviet Union, the paper advises, must be granted its status as a great power and induced, by word and deed, to fuller participation and influence in the community of free nations if its leaders show a genuine interest and will for such a constructive consideration. Gentle treatment of the satellite nations is advocated. No official attacks should be made against their regimes whatever the provocation, and even criticism should be softened . . . .Above all, no encouragement or support must be given to determined uprisings in eastern Europe. This is a continuation of policy in existence for several years.

In effect, this means that the United States Government has guaranteed Kremlin control over the satellite nations. What should be particularly noted is that this is a continuation of policy which has existed for several years. It will be recalled that the Eisenhower Administration, in line with this policy, did nothing to help the Hungarian Freedom Fighters who, according to a number of authorities, could have overthrown their Soviet masters if American aid had been furnished.

Particularly dismaying in the foregoing recommendations by Rostow is the section dealing with the fact that criticism of Communist satellite nations should be softened. Clearly, there has been no criticism of satellite nations by either the Eisenhower or the Kennedy Administrations. Therefore it would seem that the Rostow Paper proposes steps to curtail criticism by the American people themselves of the soft-on-Communism policies of the Administration. If the proposals in the Rostow Paper are put into effect, a government edict could prevent publication of a book such as this, which exposes and criticizes government policy vis-a-vis the Soviet Union and its Communist satellite nations.

And, as could be expected, the Rostow Paper also discusses Rostow's pet theory regarding an "end to nationhood," because the Rostow Paper states that the U.S. must expand its participation in institutions and organizations "which transcend the independent powers of the nation-state."

CONGRESSMEN PROTEST ROSTOW PAPERS

On the floor of the U.S. House of Representatives on July 2, 1962, Congressman Robert T. Stafford of Vermont declared:

> If the views of Walt Whitman Rostow do, in fact, become the basis of our Cold-War policy, the odor of defeat will soon fill our nostrils, and darkness will close in around us.

Discussing the fact that the Kennedy Administration has refused to make public the Rostow Paper, Congressman Stafford went on to say:

> Unfortunately, in discussing this subject we must rely upon the voluminous past works of Professor Rostow since the State Department policy-planning document compiled under his direction is being withheld from the Congress by the Administration - surely an ominous fact in itself - since denial of access to the newest Rostow Paper to the Legislative branch and to the American people themselves, is obviously not based on the security of the United States, but, rather, it seems clear enough, upon the political security of the Administration and the personal security of Professor Rostow ....And it is therefore appalling to me that the representatives of the American people should be denied the opportunity of studying this document, significant parts of which may already be under study by the Soviet Union.

And then Congressman Stafford continued:

> He (Rostow) believes that Communism, as a dedicated supra-political force in the affairs of mankind, is beginning to fade from the world arena. There is absolutely no basis of fact for this belief. Communism continues to inflame the minds of the despots of the Kremlin . . . it still holds tight in its grip the butchers and bandits of Peiping. It does not for a moment release its hold on the sadistic little toadies - the modern-day Quislings - whose every action betrays their countrymen in the Captive Nations to the masters of the Soviet Union.

Discussing how the Rostow plan, if carried out, will actually mean a merger with the Soviet Union, Congressman Stafford had this to say:

> And so we will at last come into the Rostow millenium - that wonderful day when Communism has moderated into Democratic Socialism, and Capitalism has faded into Democratic Socialism, and the entire world will live blissfully forever in a bright new dawn of a democratic World Socialist order. What does this all boil down to? It boils down to a World Socialist order, and this is precisely what Marx and Lenin were talking about. We must remember that Communism is only a means whereby Socialism can be achieved on a worldwide scale. Thus, I think it is fair to say that the Rostow strategy for the Cold War is, simply, "If you can't fight them, join them"

Disagreeing with Rostow's view that the Communists are "mellowing," Congressman John B. Anderson of Illinois stated on the floor of the House of Representatives on July 2, 1962:

> I note no lessening of Communist intransigence nor of determination to bury the Free World. In fact, even Premier Khrushchev has said this will come to pass only "when shrimp learn to whistle." I note in Professor Rostow's view a total misconception of the nature of the Communist conspiracy. I note no understanding in his mind of its treachery, as evidenced in a long history of broken treaties and agreements while steadily pursuing the goal of world conquest.

Then Congressman Anderson concluded:

> As Chairman of our State Department Policy Planning Board, Mr. Rostow has violated his trust and his oath of office if he has, in fact, recommended policies leading to the end of nationhood *; to federalized world organization; to a world policed by freely moving inspectors; to remove from all nations - including the United States - the right to use substantial military force to pursue their own interests . . . His belief that we should induce the Communist bloc to release the forces for good by persuasion only, along with his view that there is a process of change going forward slowly and irregularly in the Soviet Union, is both naive and extremely dangerous to America in the Cold War which has been thrust upon us by an enemy sworn to bury us.

OTHER VIEWS OF WALT ROSTOW

On March 15, 1962, presidential advisor Walt Rostow spoke at Purdue University, reiterating his views regarding an accommodation with the Soviet Union. Stated Rostow: **

---

* Mr. Rostow's advocacy of an end to nationhood is detailed on page 549 of his book, "The United States in the World Arena," published by Harper & Brothers, New York, 1960.

** Special Senate Preparedness Subcommittee Hearings, 1962, "Military Cold War Education and Speech Review Policies." (page 2868).

> We should, therefore, be prepared . . . to find limited areas of over-lapping interest with Communist regimes and to work toward a world which increasingly approximates the kind of world we envisaged when the United Nations was set up.

On June 28, 1961, in a speech at Fort Bragg, North Carolina, Rostow told U.S. Army Special Warfare School officers that the U.S. does not want allies, but countries which are neutral. This strange view could well be described as a helping-our-enemies-and-hurting-our-friends policy. That such a policy is now official is evidenced by the fact that the U.S. continues to throttle courageous little anti-Communist Greece, while fattening up Communist Yugoslavia. It will be recalled that during Republican President Eisenhower's regime, the United States not only shipped jet fighter planes to Communist Yugoslavia, but also approved the training of Yugoslav air pilots at a Texas Army air base.

Adlai Stevenson, U.S. Representative to the United Nations, and a member of the Council on Foreign Relations, loses no opportunity to vote in the U.N. against free nations such as South Africa and Portugal on matters concerning their national interests.

The authoritative syndicated columnists, Robert S. Allen and Paul Scott, on May 7, 1962, discussed another paper by Walt Rostow which recommended that the U.S.-supported South Korean Army be reduced by one-third. Allen and Scott stated that the proposed 200,000 reduction would leave that country with a military force of questionable strength to protect its own 155-mile border with Communist North Korea.

Another example of the policy of helping our enemies and hurting our friends was brought out in the Allen-Scott column of April 7, 1963, in which appeared the following quotation from a policy paper co-authored by Walt Rostow and McGeorge Bundy: *

* McGeorge Bundy, described by Allen and Scott as "ambitious foreign policy assistant of the President," is also a member of the Council on Foreign Relations.

> If revolts break out in East Germany or any other Communist satellite in eastern Europe, we should bear in mind that our grand design is to build a community of free nations which will expand by its own inner strength and attractive power when combined with the assertion of increasingly nationalistic trends within the Communist bloc. Accordingly, if turbulence erupts in the area, we should maintain this posture, and urge our allies to do the same. . .
>
> Should a national Communist regime be established, we should make a maximum effort short of military action to permit its survival.

In other words, it could be considered that the Rostow-Bundy theory, in essence, is to facilitate the strengthening and building of Communist power throughout the world.

Further discussing Rostow's proposed accommodation with Soviet regimes, the Allen-Scott column of April 7, 1963, states:

> President Kennedy's harsh crackdown on Cuban exile groups is being broadened to include the activities of the anti-Communist eastern European refugee groups in the U.S. This undercover policy shift calls for hamstringing the efforts of the European refugees . . . The secret crackdown already is compelling Baltic and Russian exile groups to restrict their anti-Communist activities.

As a result of this U.S. crackdown on their efforts, the anti-Russian groups are closing down their assembly hall, the "Baltic House." Allen and Scott describe the Baltic House as having "served as a major exile headquarters for exposing Soviet tyranny, helping defectors escape from the Iron Curtain," etc.

In April, 1963, carrying out the Rostow-Bundy recommendation to "permit the survival" of Communist regimes, Kennedy ordered the use of the United States Coast Guard to intercept and prevent anti-Communist Cuban Freedom Fighters from conducting hit-and-run raids against Soviet ships and forays against Communist Cuba.

ROSTOW URGES "NO-WIN"

In his speech to the U.S. Army Special Warfare School at Fort Bragg, North Carolina, on June 28, 1961, Rostow stated

that victory over Communist Russia is not the goal of the United States.

On May 3, 1962, in a speech before the League of Women Voters at Minneapolis, Minnesota, Rostow reiterated: *

> We do not expect this planet to be forever split between a Communist bloc and a Free World; we expect this planet to organize itself in time on the principles of voluntary co-operation among independent nation-states . . . .We are not looking for a military climax to this historic struggle . . . . It will not be a victory of the United States over the Soviet Union.

When top presidential advisor Walt Rostow makes speeches around the country advocating a "no-win" policy, he does so after having participated in secret negotiations, and having made specific recommendations to the President which, if carried out, would prevent the United States from ever achieving victory over the Soviet Union.

ROSTOW IN MOSCOW

It will be recalled that Chapter V, entitled "Disarmers Fraternize With Soviet Scientists," dealt with the Pugwash Conferences, where American scientists rubbed shoulders and exchanged scientific information with Communist scientists. At the Sixth Pugwash Conference held in Moscow November 27 to December 5, 1960, there took place a meeting between Walt Rostow and General Kuznetsov, which has had a profound effect on U.S. defense policy.

An article by former Congressman John Rousselot of California in the February, 1963, issue of AMERICAN OPINION** reveals:

> On his return, he (Rostow) wrote several policy papers with the general conclusion that "real progress could be achieved in our bogged-down disarmament talks with the Communists if our nation would phase-out our first-strike weapons system and thereby reduce a major irritant to the progress of disarmament talks." According to the Russians, our first-strike military capability gave us too great an ability to destroy Russian military installations and plants within a very short time.

* The Department of State BULLETIN, May 21, 1962.

** AMERICAN OPINION, published monthly at Belmont 78, Mass. $5.00 per year.

THE DAN SMOOT REPORT of December 11, 1961, discussed a memorandum that Rostow wrote to President Kennedy, as follows:

> Rostow reported (that) the Soviets do not think Americans honestly want disarmament because the United States, while talking disarmament, is building a first-strike capability against the Soviet Union. Rostow recommended that we allay Soviet suspicions by de-emphasizing our first-strike defense efforts and by emphasizing a second-strike capability.

In other words, in order to prove to the Soviet Union that the U.S. wants "peace," Walt Rostow advocates that we should voluntarily strip ourselves of an effective means of protection against enemy attack, whether or not the Soviet Union reciprocates by similarly disarming their military offensive capability.

Fantastic though it may seem, Kennedy incorporated Rostow's preposterous recommendations in his first (1961) Defense Message to Congress! Thus began a planned phasing-out or slowing down in production of U.S. first-strike weapons, America's only protection against Soviet attack or threat of attack.

Does Walt W. Rostow urge such drastic changes in U.S. defense policies for the good of this nation? Or are the changes he recommends for the purpose of furthering his political dreams of a merger with the Soviet Union?

CHAPTER VII

EISENHOWER, ROCKEFELLER AND DISARMAMENT

And so let us leave Walter Millis dreaming of his "warless world," and Walt Rostow scheming to bring about "an end to nationhood" - and examine, instead, the specific steps which have already been taken with the aim of disarming the United States and forcing the U.S. into a World Government.

Since the first Hague Peace Conference in 1899 there have been countless multi-nation conferences and meetings in various countries for the purpose of considering various types of disarmament proposals. However, because this book deals with specific disarmament proposals intended to lead to World Government, it would be well to begin a chronology of events with the date October 24, 1945, when the Charter of the United Nations came into force. The charter assigned the U.N. a major role in disarmament.

Then, according to "The Strategy of Disarmament," by Henry W. Forbes,* with an introduction by Quincy Wright (a member of the Council on Foreign Relations):

> ....Late in 1950 President Truman proposed the formation of a combined Disarmament Commission. Such a commission actually went into operation in 1952.

1953 - EISENHOWER's "ATOMS FOR PEACE" PLAN

In 1953, Republican President Dwight Eisenhower, a member of the Council on Foreign Relations, inaugurated a policy of attempting to "convince" the Soviet Union of U.S. sincerity regarding disarmament - a policy which continues to today. On December 8, 1953, Eisenhower told an astonished General Assembly of the United Nations that the U.S. would join with all interested nations, including Communist Russia, that wanted to cooperate in researching the peaceful uses of atomic energy. Out of this proposal came the International Atomic Energy Agency, a subsidiary of the United Nations.*

In tracing the history of the Atoms for Peace program, the RICHMOND (Va.) NEWS LEADER, in an editorial of March 29, 1963, stated:

> The IAEA was meant to establish a stockpile of Uranium 235...Initially the U.S. was to contribute 5,000 kilograms, the USSR 50, and Great Britain 20, a typical arrangement of the State Department....The Soviets are still promising uranium but will not give it, unless it may be used by any nation without control....One of the very first things that became obvious was that any nation could get the very latest technology from the IAEA at the cost of blueprints. American manufacturers of atomic reactors saw British and German manufacturers building designs of the U.S. Atomic Energy Commission at bargain prices, and, needless to say, the Soviets and their satellites had the same access to this peaceful clearinghouse.

THE DAN SMOOT REPORT of May 6, 1963, in discussing the U.S. contribution to the International Atomic Energy Agency, stated:

> On October 26, 1956, Eisenhower pledged the United States to give the new agency (the IAEA), immediately, 5,000 kilograms (11,000 pounds) of Uranium 235; and after that to match combined contributions of all other nations on earth. At the time, the estimated production cost of 11,000 pounds of Uranium 235 was $110 million. Without consulting Congress (indeed, before the International Atomic Energy Agency charter had even been submitted to the Senate for approval of American membership) President Eisenhower promised to start the international atomic bank off with a gift of $110 million worth of Uranium 235, and promised that United States gifts would stay at least that far ahead of the gifts of all other nations put together.

The first chairman of the International Atomic Energy Agency, the man who administered the distribution of the U.S. gift of

---

* Public Affairs Press, Washington, D.C. 1962.

* The original purpose of the IAEA was to provide a clearinghouse for peacetime atomic projects; nuclear-generated power, the study of water isotopes, and agricultural experiments.

U-235, was a Czechoslovakian Communist by the name of Pavel Winckler.

It should be noted that Eisenhower referred to his atom-sharing program as "Atoms for Peace." The same deception is being carried on by the Kennedy Administration. An Associated Press dispatch of April 20, 1963, headlined "Shipment of N-Materials With No Military Value to Russia Okayed," states that on April 19, 1963, the United States Atomic Energy Commission authorized shipments of radioactive material to the Soviet Union for "medical and other research purposes." And then the AP dispatch went on to say:

> The Atomic Energy Commission stressed that the materials - like others authorized for export to the Soviet Union over the past few years - have no strategic or military value.

Exploding the myth that U-235 could be restricted solely to peaceful use, General Leslie R. Groves, the former chief of the Manhattan Atomic Development Project, pointed out in early 1957, before a Senate Subcommittee:*

> Uranium 235, for example, can be put into any form you wish it to be in, but within a few days it can be converted into material suitable for weapons use. In other words, it is just like taking a piece of soap and melting it, and pouring it into a new mold. It is just about that simple.

Previously, THE DAN SMOOT REPORT of December 24, 1956, had revealed that the original U.S. allocation of Uranium 235 to the International Atomic Energy Agency would "be enough to produce cores for 550 atomic bombs." By 1963, disarmament negotiations were proceeding at an accelerated rate; at the same time the U.S. was shipping nuclear materials to the Soviet Union from which it could make atom bombs!

1954 - CONTINUING NEGOTIATIONS

In 1954, during the Eisenhower Administration, the Disarmament Commission (originally set up by Truman) created a Five-

* Senate Subcommittee of the Committee on Foreign Relations, Hearings, "Control and Reduction of Armaments," Part II, 85th Congress, First Session, Jan. 9 and 10, 1957, page 1061.

Power Subcommittee consisting of Canada, France, the United Kingdom, the United States, and the Soviet Union in order to carry on private discussions regarding disarmament.

On June 11, 1954, according to "The Strategy of Disarmament," France, Britain and the Soviet Union submitted comprehensive proposals to the United Nations Subcommittee of the Disarmament Commission. According to author Henry W. Forbes:

> The Franco-British scheme provided for a control organ to go into operation before the two stages of the (disarmament) proposal went into effect. The Soviet plan called for simultaneous prohibition of nuclear weapons and establishment of strict international control.

1955 - THE ROCKEFELLER-EISENHOWER "OPEN SKIES" PROPOSAL

Between July 18 and 23, 1955, there took place the first so-called Summit Conference, at Geneva, between the heads of the governments of France, the United Kingdom, the United States, and the Soviet Union. Although other subjects were on the agenda, the real purpose of this Summit meeting was to discuss disarmament. It was at this Summit meeting that Eisenhower advanced his fantastic "Open Skies" proposal.

Let us, at this point, examine the behind-the-scenes maneuvers leading to Eisenhower's advocacy of this "Open Skies" proposal.

Friendly negotiations with the Soviet Union, despite regular denunciations of the United States by the Soviet Union, have for a long time been the aim of the Council on Foreign Relations. The bringing about of a Summit meeting between President Eisenhower and the then Soviet Premier, Nicolai Bulganin (at which, Nikita Khrushchev was present as Secretary General of the Russian Communist Party) was, therefore, in keeping with the aims of the CFR.

Realizing that Eisenhower was no match for the diplomatic wiles of the ruthless Soviet leaders, the State Department spent long hours drawing up position papers for the purpose of strengthening the President's hand in the hope that the Soviet Union would not merely use this first Summit Conference as a sounding-board for Communist propaganda. The then Secretary of State, John Foster Dulles, under whose purview

the drawing-up of such a position paper would naturally come, had very fixed ideas that what the President should do at the Summit Conference was to identify the issues in the Cold War and then leave it up to the Conference of Foreign Ministers to work out the proper solutions. There was in such a suggestion, however, too much chance of a "slip 'twixt the cup and the lip" to suit the Council on Foreign Relations. Consequently, certain CFR members went into action to work out their own "position paper" as to what action the President should advocate at the Summit Conference.

Not coincidentally, it so happened that by 1955, Nelson A. Rockefeller, a member of the Council on Foreign Relations, was Special Assistant to the President for Foreign Affairs. As such, President Eisenhower invited him to attend meetings of the Cabinet, the National Security Council, the Council on Foreign Economic Policy, and the Operations Coordinating Board. Possibly one of Rockefeller's most important jobs as Eisenhower's Special Assistant was the creating of a Planning Coordination Group (PCG). That Rockefeller had already set up the PCG proved of great use to the disarmament promoters when the time for the Summit meeting arrived, inasmuch as the PCG gave Rockefeller a base from which to work in order to formulate tentative "position papers" for the President's use at the Geneva Conference.

In discussing Nelson Rockefeller's specific activities regarding the Summit meeting, Joe Alex Morris in his book "Nelson Rockefeller - A Biography,"* states:

> To meet the problem, Rockefeller arranged through PCG for a kind of seminar of experts at Quantico, the U.S. Marine Corps base near Washington. Those attending were from college and private groups and government, all of them experts in international affairs, and all of them cleared for top secret information.

Author Joe Alex Morris does not list the names of those attending this Quantico planning session, but he does call the meeting "a considerable success," and then goes on to say:

* Harper and Brothers, New York, 1960.

> Out of the discussions came a proposal that the United States should make a dramatic peace gesture at Geneva by reviving an "Open Skies" plan for international aerial inspection of all lands as a safeguard against secret preparations for atomic warfare. When the Quantico meetings ended, Rockefeller had the proposal outlined in a one-page memorandum, which he took to President Eisenhower. The President was immediately interested; very much interested, Rockefeller thought.

Rockefeller had intended an end-play around Secretary of State John Foster Dulles, who, for a short time strongly opposed the "Open Skies" idea,* maintaining that the President should merely define the issues at the Geneva Summit meeting. Being temporarily blocked by Dulles, Rockefeller then went back to his office to make plans to break through Dulles' resistance. Rockefeller instructed his staff to go ahead with preparation of detailed position papers regarding the "Open Skies" proposal.

Author Morris points out that the State Department, presumably John Foster Dulles, did not want Rockefeller to accompany Eisenhower to Geneva, but then adds: "After some discussion, the President asked Rockefeller."

And, not only was Rockefeller invited; but also Admiral Arthur W. Radford, Deputy Defense Secretary Robert B. Anderson and Harold Stassen, Eisenhower's Special Assistant for Disarmament were included in the invitation. (Anderson and Stassen are, like Rockefeller, members of the Council on Foreign Relations.) However, because of the opposition of John Foster Dulles, Nelson Rockefeller and his CFR colleagues did not get a "through ticket" to Geneva. Instead, they were ordered to journey to Paris and there await further instructions. While in Paris, Rockefeller, Anderson, Radford and Stassen conferred with General Alfred M. Gruenther, the commander of the North Atlantic Treaty Organization (NATO) and, according to "Nelson Rockefeller - A Biography," Gruenther, too, "liked the idea." This is not surprising, inasmuch as General Gruenther is likewise a member of the CFR.

* Although Dulles temporarily opposed CFR member Rockefeller's "Open Skies" idea, Dulles also was a member of the Council on Foreign Relations.

After cooling their heels a few days in Paris, Rockefeller and Stassen were instructed to come on to Geneva. By this time, with the Summit Conference under way, it was obvious that, as could be expected, the United States had lost the initiative to the crafty Communist negotiators. As a consequence, Eisenhower felt that a dramatic gesture was needed to recapture the so-called initiative at this conference. This was easily brought about because Nelson Rockefeller was standing in the wings with his "Open Skies" proposal in hand, all detailed and ready to go.

And thus it came about that on July 21, 1955, at the Geneva Summit Conference, President Eisenhower offered his "Open Skies" proposal, in which he urged: (1) an exchange of "blueprints" of military establishments; (2) an arrangement whereby the Soviet Union and the United States would be free to conduct aerial reconnaissance over each other's territories from bases locally provided; and (3) a systematic study of inspection and report to precede actual disarmament.

In his speech Eisenhower told his audience:

> **I wish to address myself for a moment principally to the delegates from the Soviet Union...I propose, therefore, that we take a practical step; that we begin an arrangement very quickly as between ourselves - immediately.**
>
> **These steps would include: To give to each other a complete blueprint of our military establishments from beginning to end, from one end of our countries to the other; lay out the establishments and provide the blueprints to each other.**

At the close of Eisenhower's address, he made a statement which, in view of recent events, now takes on an ominous tone. Stated Eisenhower:

> **...What I propose, I assure you, would be but a beginning.**

That Eisenhower meant what he said is obvious when on October 31, 1958, Eisenhower unilaterally banned atom testing by the United States. Because of the vital importance of the atom test ban to the whole subject of disarmament, and because of the irreparable damage done to U.S. national defense posture as a result of the test ban, this subject will be thoroughly documented and discussed in a later chapter.

CHAPTER VIII

CHRONOLOGY OF DISARMAMENT PROPOSALS

Intermittent meetings continued to take place between disarmament committees of the Soviet Union and the Free World during the balance of 1955, 1956, 1957 and 1958, with endless discussions regarding reducing nuclear weapons stockpiles and "effective controls."

1959 - BRITISH AND SOVIET DISARMAMENT PROPOSALS TO THE U.N.

The May 13, 1963, issue of THE DAN SMOOT REPORT, entitled "Disarmament - Part II," reviews disarmament negotiations during the year 1959 as follows:*

> Khrushchev was in the United States on September 17, 1959, when Selwyn Lloyd, British Foreign Secretary, spoke to the UN General Assembly, urging total disarmament in three stages:
>
> (1) An international agreement fixing a date for disarmament and size and quality of national forces that would be left after disarmament, and deciding on the quantity and kind of weapons for an international army;
>
> (2) Progressive steps in disarming national and in arming the international army;
>
> (3) Final national disarmament, with re-arming outlawed, and a fully-established international army to enforce the peace, control national military budgets, space exploration, and so on.**
>
> Selwyn Lloyd demanded "effective inspection to insure compliance" at every stage in the plan; yet he proposed that in-

* Three issues of THE DAN SMOOT REPORT, entitled "Disarmament," Parts I, II, and III, dated May 7, 13 and 20, 1963, are available as a set at a price of 50¢. THE DAN SMOOT REPORT, P. O. Box 9538, Lakewood Station, Dallas 14, Texas.

** NEW YORK TIMES, Sept. 18, 1959, pp. 4-5.

spection control would be established after disarmament, so, in effect, Selwyn Lloyd recommended total disarmament without inspection.

The next day, September 18, 1959, Khrushchev also spoke to the UN General Assembly, and recommended total disarmament without inspection. *

1960 GENEVA PROPOSALS

On March 15, 1960, at the East-West Arms Conference in the Palace of Nations in Geneva, five Western nations (Britain, France, Italy, Canada, and the United States) met with their Communist bloc counterparts (Poland, Rumania, Czechoslovakia, Bulgaria, and the Soviet Union) in further disarmament negotiations. According to an Associated Press dispatch by Tom Ochiltree, of March 15, 1960:

> Five Western powers unveiled Tuesday a dramatic disarmament plan to create an international group so powerful it eventually could veto a nation's military budget. In three gradual stages the world would disarm until each nation had only enough armed force to maintain international order. All weapons of mass destruction would be junked .... In the second stage, another disarmament conference would be called to include Red China.... The Western plan is based on disarmament proposals advanced by British Foreign Secretary Selwyn Lloyd at the UN General Assembly last autumn.... In the first phase of the new Western plan, an international disarmament organization would be established with ties to the United Nations.

On March 22, 1960, a later AP article by Tom Ochiltree regarding this same Geneva Five-Nation Disarmament Conference revealed that:

> The last stage of the West's disarmament plan would abolish all bases, general staffs, their military schools such as West Point and the U.S. Naval Academy, the West disclosed Monday (March 21, 1960).

* NEW YORK TIMES, Sept. 19, 1959, "Text of Premier Khrushchev's Address to the United Nations General Assembly," and "Text of Soviet Government Declaration Proposing Complete Disarmament," pp. 8-9, 12.

1961 - U.S.A.-U.S.S.R. JOINT STATEMENT OF PRINCIPLES FOR DISARMAMENT NEGOTIATIONS

On March 30, 1961, at the 15th Session of the United Nations General Assembly, the United States and the U.S.S.R. agreed to exchange views on disarmament and then later submit a joint statement of agreed principles to the 16th Session of the United Nations General Assembly based on the results of their exchange of views. These so-called exchange-of-views meetings took place in Washington from June 19-30; in Moscow from July 17-29; and in New York from September 6-19.

Then, on September 20, the United States and the Soviet Union circulated to all members of the United Nations a document entitled "Joint Statement of Agreed Principles for Disarmament Negotiations." * Excerpts from this document (U.N. doc. A/4879) follow:

> In accordance with their statements of 30 March 1961 at the fifteenth session of the United Nations General Assembly, the Governments of the United States and the U.S.S.R. wish to inform the Members of the General Assembly of their exchange of views on questions relating to disarmament and to the resumption of negotiations in an appropriate body, whose composition is to be agreed upon....
>
> As a result of the exchange of views, the two Governments submit a joint statement of agreed principles which they recommend as guidance for disarmament negotiations when such negotiations are resumed. The text of these agreed principles is attached hereto in the form of a joint statement of the two Governments....

JOINT STATEMENT OF AGREED PRINCIPLES FOR DISARMAMENT NEGOTIATIONS

> ....The United States and the U.S.S.R. have agreed to recommend the following principles as the basis for future multilateral negotiations on disarmament and to call upon other nations to co-operate in reaching early agreement on general and complete disarmament in a peaceful world in accordance

* Department of State BULLETIN, Oct. 9, 1961, pp. 589-590.

with these principles.

....The programme for general and complete disarmament shall ensure that nations will have at their disposal only those non-nuclear armaments, forces, facilities, and establishments as are agreed to be necessary to maintain internal order and protect the personal security of citizens; and that States shall support and provide agreed manpower for a United Nations peace force.

To this end, the programme for general and complete disarmament shall contain the necessary provisions, with respect to the military establishment of every nation, for:

(a) Disbanding of armed forces, dismantling of military establishments, including bases, cessation of the production of armaments as well as their liquidation or conversion to peaceful uses;

(b) Elimination of all stockpiles of nuclear, chemical, bacteriological, and other weapons of mass destruction and cessation of the production of such weapons;

(c) Elimination of all means of delivery of weapons of mass destruction;

(d) Abolishment of the organizations and institutions designed to organize the military effort of States, cessation of military training, and closing of all military training institutions;

(e) Discontinuance of military expenditures.

The disarmament programme should be implemented in an agreed sequence, by stages until it is completed, with each measure and stage carried out within specified time-limits....

To implement control over inspection of disarmament, an International Disarmament Organization including all parties to the agreement should be created within the framework of the United Nations....

Progress in disarmament should be accompanied by measures to strengthen institutions for maintaining peace and the settlement of international disputes by peaceful means. During and after the implementation of the programme of general and complete disarmament, there should be taken, in accordance with the principles of the United Nations Charter, the necessary measures to maintain international peace and security, including the obligation of States to place at the disposal of the United Nations agreed manpower necessary for an international peace force to be equipped with agreed types of armaments. Arrangements for the use of this force should ensure that the United Nations can effectively deter or suppress any threat or use of arms in violation of the purposes and principles of the United Nations....

KENNEDY RUBBERSTAMPS U.S.A.-U.S.S.R. STATEMENT OF AGREED PRINCIPLES

On September 25, 1961, five days after the joint statement by the United States and the Soviet Union regarding disarmament was circulated to the members of the United Nations, President Kennedy addressed the U.N. General Assembly, urging:

> Let us join in dismantling the national capacity to wage war.

In his speech, referring to the U.S.A.-U.S.S.R. joint statement, Kennedy declared:

> ...We (the U.S.) have presented, with the agreement of the Soviet Union, under the label both nations now accept of "general and complete disarmament," a new statement of newly-agreed principles for negotiation.... It is our intention to challenge the Soviet Union, not to an arms race, but to a peace race – to advance together step by step, stage by stage, until general and complete disarmament has been achieved.

Kennedy then went on to state:

> We invite them (the Soviet Union) now to go beyond agreement in principle to reach agreement on actual plans. The program to be presented to this assembly for general and complete disarmament under effective international control.... would create machinery to keep the peace as it destroys the machines of war.

The new program Kennedy referred to is officially entitled "Declaration on Disarmament: A Program for General and Complete Disarmament in a Peaceful World." The full text of this U.S. disarmament proposal to the U.N. is contained on pages 650-654 of the October 16, 1961 issue of the Department of State BULLETIN. The exact same text also appears in Department of State Publication 7277,* a 19-page pamphlet bearing the seal of

---

* Disarmament Series 5, released Sept., 1961.

the United States and entitled "Freedom From War - The United States Program for General and Complete Disarmament in a Peaceful World."

This pamphlet was printed and sold by the Superintendent of Documents, Government Printing Office, Washington 25, D.C. for 15¢ each. However, so overwhelming was the demand for this pamphlet, which revealed the revolutionary disarmament proposals by the Kennedy Administration, that the supply of the Government Printing Office was soon exhausted. To fill this need for educating the American people as to the dangers of this disarmament proposal, the aforementioned 19-page pamphlet was reprinted by AMERICAN OPINION Magazine, Belmont 78, Massachusetts, and may be obtained at a price of seven copies for $1.00.

Because of the similarity between all disarmament proposals, whether originated by the Soviet Union or by the United States, or whether encompassed in a joint statement of agreed principles by the U.S.A. and the U.S.S.R., there is no need to reprint the contents of State Department Publication 7277 on disarmament. Instead, in Chapter X we will discuss in detail "The Outline of Basic Provisions of a Treaty on General and Complete Disarmament" which was submitted by the United States to the Disarmament Conference in Geneva on April 18, 1962. The importance of this treaty outline can be realized when it is seen that it incorporates previous proposals, and will eventually form the basis for a disarmament treaty to be submitted to the U.S. Senate for ratification.

And now let us briefly return to Kennedy's speech before the United Nations on September 25, 1961, as he formally transmitted a program* for "machinery to keep the peace as it destroys the machines of war." Describing the U.S. program for disarmament, Kennedy stated that:

> ....It would place the final responsibility for verification and control where it belongs...in an international organization within the framework of the United Nations....It would achieve, under the eye of an international disarmament organization, a steady reduction in forces, both nuclear and conventional,

* Contained in State Department Publication 7277 (1961).

> until it has abolished all armies and all weapons except those needed for internal order and a new United Nations Peace Force. And it starts that process now, today, even as the (disarmament) talks begin.

In the light of previous statements by members of the Council on Foreign Relations urging unilateral disarmament, it can be wondered what President Kennedy meant when he said "And it starts that process now, today, even as the (disarmament) talks begin."

Describing the disarmament program that Kennedy submitted to the U.N. on September 25, 1961, the NEW YORK DAILY NEWS, in an editorial a year later, September 16, 1962, stated:

> One of the weaknesses of the United Nations as now constituted is that it has a mysterious capacity for inspiring crazy ideas in normally sane people. The craziest of all such notions, so far as we know, was wrapped up in a U.S. State Department publication released in September, 1961, under the hearts-and-flowers title: "Freedom From War - The United States Program for General and Complete Disarmament in a Peaceful World." ....
>
> "Freedom From War" outlines three stages through which President John Fitzgerald Kennedy's State Department - Dean Rusk, Secretary - thinks the nations of the world should pass on the road to total disarmament. They would begin by outlawing nuclear weapons tests, cutting down on bombers, Polaris submarines, etc., and blueprinting a UN world peace force. The second stage would include more of the same - much more. In the third stage, all the nations would cut their own armed forces down to strength needed only to keep internal order... contribute manpower to a UN peace force...destroy or convert to peaceful uses all arms except those possessed by the UN peace force...and surrender to this force all power to prevent or settle armed disputes between nations.
>
> The fact that Americans in responsible government jobs could dream up such a scheme and put it on paper is a testimonial to the out-of-this-world idiocies which the UN can, and does, for some reason or reasons, inspire.

Ken Thompson, editorial staff writer of the DALLAS MORNING NEWS, in a column on January 23, 1962 entitled "One, Two, Three - Surrender," also discussed State Department

Document 7277. Declared Ken Thompson:

> One of the most incredible documents ever to emerge from the foggy corridors of the State Department is a bulletin entitled "Freedom From War: The United States Program for General and Complete Disarmament in a Peaceful World." As skeptical as I have always been of the measure of good sense and loyalty within the State Department, I never would have believed that these people we call our diplomats could so completely and unabashedly advocate the surrender of American rights and sovereignties until this bulletin appeared. What it amounts to, in effect, is the official United States position on the situation of disarmament....It is certainly the most fantastic, harebrained blueprint for surrender on record. Old Nikita himself might just as well have written it, and if more of the American people knew about this scheme there would be a nationwide uproar that would make the reaction to the Alger Hiss scandal look like another era of good feeling by comparison.

Fantastic as was President Kennedy's proposal to the U.N. in September, 1961, it is, however, no fantasy. On March 1, 1962, Senator Joseph Clark, Left-Wing extremist from Pennsylvania, in an attempt to curry favor with the disarmament promoters, took it upon himself to reply to Ken Thompson's editorial (previously entered in the CONGRESSIONAL RECORD by Senator John Tower of Texas). Senator Clark obviously nettled, and apparently feeling compelled to defend the surrender policies of the Kennedy Administration, retorted:

> I submit that both the junior Senator from Texas and Mr. Thompson are pretty far off base in the comments which I have noted. In the first place, the program entitled "Freedom From War: The U.S. Program for General and Complete Disarmament in a Peaceful World," is not some pamphlet dreamed up in what is referred to as the "foggy corridors of the State Department." It is the fixed, determined, and approved policy of the government and of the United States of America. It was laid down by the President of the United States, John Fitzgerald Kennedy, in a speech he made before the United Nations on September 25 of last year...

And then, Senator Clark unwittingly disclosed the devastating

influence that the Council on Foreign Relations exerts on the foreign policy of the United States when he identified one of the principal masterminds of Kennedy's disarmament program. Stated Senator Clark:

> That program, when it was submitted by the President of the United States, had the approval not only of the State Department but of the President's then disarmament advisor, Mr. (John) McCloy, who was its principal author; of the Department of Defense; and of the Atomic Energy Commission. It represents the fixed and determined policy to the Executive arm of the U. S. Government.

John J. McCloy, referred to by Senator Clark, was chairman of the board of the Council on Foreign Relations, 1962-1963.

CHAPTER IX

THE DISARMAMENT AGENCY

One purpose of this chapter is to attempt to straighten out some misconceptions which have arisen in the minds of those opposed to disarmament regarding the bill which established the Arms Control and Disarmament Agency. It will be shown that:

(1) The so-called "disarmament bill" (H.R. 9118) which was passed by Congress in 1961 was not a bill to disarm the United States. Rather, it was a bill to specifically set up the machinery and functions of the Arms Control and Disarmament Agency and outline the powers of its Director, as well as define the relationship between this new agency and the Executive branch.

(2) State Department Publication 7277 entitled "Freedom From War - The United States Program for General and Complete Disarmament in a Peaceful World," which outlines a three-stage disarmament program, has no connection with the bill setting up the Arms Control and Disarmament Agency. This particular pamphlet was prepared by the U.S. State Department and distributed to the U.N. prior to the signing into law of the bill establishing the ACDA.

The only connection between State Department Publication 7277 and the bill establishing the Disarmament Agency is that Republican John J. McCloy, CFR board chairman and disarmament advisor to President Kennedy, was the principal author of both the State Department pamphlet and the bill setting up the Disarmament Agency.

Not only did this Disarmament Agency bill have the full support of the Kennedy Administration, but it also enjoyed similar support from top Republicans. According to THE DAN SMOOT REPORT of October 2, 1961:

> On August 15, 1961, four former high officials in the Eisenhower Administration - Christian A. Herter, Thomas S. Gates, General Alfred M. Gruenther, and Henry Cabot Lodge - testified before a Senate Foreign Relations Subcommittee in support of President Kennedy's disarmament agency.

Gates, Gruenther, and Lodge are all members of the Council on

Foreign Relations.

On August 14, 1961, John J. McCloy read a letter to the Senate Foreign Relations Committee from former President Eisenhower in which Eisenhower stated regarding the establishment of a U.S. Disarmament Agency, "I heartily concur in your purpose."

Although the bill setting up the Arms Control and Disarmament Agency passed Congress by a top-heavy margin, nevertheless there was opposition on the floor of both the House and the Senate to the passage of this bill. Opposing passage of this bill in 1961, Senator Strom Thurmond pointed out:

> So long as any nation or group of nations harbors ambitions of aggrandizement at the expense of other nations, hope is futile for the development of the international good will which is a prerequisite for cessation of the arms race. Unfortunately, national and bloc aggrandizements still exist as the foundation of the political system which holds sway in countries behind the Iron Curtain. Peaceful expressions of intent by the leaders of these countries are belied by their actions....
>
> The Communists at this time are applying to the United States almost every pressure possible.... In view of the many crises which the Communists have manufactured...it would be the same as abolishing the police department in the face of an intense crime wave.

Before discussing provisions actually contained in the bill setting up the Arms Control and Disarmament Agency, and the very real danger presented by this bill which has now become law, here are some pertinent background facts:

CONGRESSIONAL HISTORY OF DISARMAMENT AGENCY BILL

Two bills providing for the establishment of the Arms Control and Disarmament Agency were presented to Congress - H.R. 9118 to the U.S. House of Representatives, and S. 2180 to the U.S. Senate. These bills differed in varying degrees. The Senate version, S. 2180, was passed by the Senate on September 8 by a vote of 73-14. H.R. 9118 was passed by the House of Representatives by a vote of 290-54 on September 19, 1961. Because of the differences between the two bills, as passed by the respective

Houses of Congress, a House-Senate Conference took place from which emerged, on September 23, 1961, a Conference Report to which the House agreed by a vote of 252 yeas with 50 nays and 133 Congressmen not voting.*

This legislation establishing the United States Arms Control and Disarmament Agency** was signed by the President and became Public Law 87-297 on September 26, 1961. Thus was established a permanent, independent government agency devoted soley to the issue of disarmament.

ANALYSIS OF ARMS CONTROL AND DISARMAMENT ACT

The following analysis regarding the establishment of the ACDA is based on the wording of the bill itself as finally approved by Congress and signed into law by the President. (The text of the Act setting up the Arms Control and Disarmament Agency appears on pages 19633-19636 of the CONGRESSIONAL RECORD, September 23, 1961.)

What is the real purpose of this Act? A number of conclusions are possible. For example, an editorial of September 21, 1961, in the CHATTANOOGA NEWS-FREE PRESS prophesies:

> An "arms control" or "disarmament" agency will propagandize to condition the minds of the American people to the idea that disarmament is safely possible when it is not. Thus it will breed an unrealistic viewpoint, appeasement, even pacifism, all weaknesses on which Red aggressors greedily feed.... There can be safe disarmament only when aggressive threats cease. If that day should come, no "agency" will be needed to bring about disarmament.

Regarding the purpose of the Arms Control and Disarmament Agency, Sec. 2 of Title I states:

> ....It is the purpose of this Act to provide impetus toward this goal ("a world which is free from the scourge of war") by creating a new agency of peace to deal with the problem of reduction and control of armaments looking toward ultimate world disarmament....
>
> This organization must have the capacity to provide the essential scientific, economic, political, military, psychological and technical information upon which realistic arms control and disarmament policy must be based.

* CONGRESSIONAL RECORD, Sept. 23, 1961. Pg. 19639-40.

** The address of the U.S. Arms Control and Disarmament Agency is 2201 "C" St., Washington 25, D.C.

By passage of this bill, Congress has given to this new permanent Federal agency the authority to make recommendations regarding all facets of American life, such as "political," "military," "psychological" and "economic" aspects thereof.

Then the Act outlined the specific functions to be carried on by this agency, such as:

> (a) The conduct, support, and coordination of research for arms control and disarmament policy formulation;
>
> (b) The preparation for and management of United States participation in international negotiations in the arms control and disarmament field;
>
> (c) The dissemination and coordination of public information concerning arms control and disarmament; and
>
> (d) The preparation for, operation of, or as appropriate, direction of United States participation in such control systems as may become part of United States arms control and disarmament activities.

Thus it is seen that the Arms Control and Disarmament Agency is, actually, a giant brainwashing factory equipped to do endless research resulting in guide-lines for international negotiations; the "dissemination and coordination of public information," i.e., the brainwashing of the American people into supporting the results of such negotiations; and finally, the direction of any so-called "control systems" which would be set up under world disarmament. It will be recalled that in Chapter IV of this book, in the section entitled "Disarmament Propagandizers," specific information regarding how such control systems could be used against the people is spelled out.

Sec. 22 of the Arms Control and Disarmament Act provides that the Disarmament Agency "shall be headed by a Director who shall serve as the principal advisor to the Secretary of State and the President on arms control and disarmament matters."

One rather mystifying provision of the Disarmament Agency

Act is Sec. 43, which states:

> The President may, in advance, exempt actions of the Director from the provisions of law relating to contracts or expenditures of Government funds whenever he determines that such action is essential in the interest of United States arms control and disarmament and security policy.

Just how could it ever be "in the interest of the United States" to have a Government official exempt, "in advance" from "provisions of law relating to...expenditures of Government funds"? What then is the purpose of laws if they can be abrogated at the caprice of the President? Further, it should be noted that the "Government funds" referred to are actually taxpayer dollars, $10 million of which Congress has, by passage of this bill, given to the Arms Control and Disarmament Agency for one year's operation.

A certain amount of misunderstanding exists concerning Sec. 47 (b) of this bill, which states:

> The President by Executive Order may transfer to the Director any activities or facilities of any Government agency which relates primarily to arms control and disarmament.

This has been erroneously interpreted in two ways: (1) To mean that the President by Executive Order can turn over the Army, Navy and Air Force to the control of the Director of the Arms Control and Disarmament Agency; and (2) That this could be done while Congress was not in session.

However, Sec. 47 (b) of the bill clearly stipulates what may be transferred, to wit:

> In connection with any such transfer, the President may under this Act...provide for appropriate transfers of records, property, civilian personnel, and funds.

Then, the following restriction is contained in the act:

> No transfer shall be made under this section until (1) a full and complete report concerning the nature and effect of such proposed transfer has been transmitted by the President to the Congress; and (2) the first period of 60 calendar days of regular session of the Congress following the date of receipt of such report by the Congress has expired without adoption by either House of the Congress of a resolution stating that such House does not favor such transfer.

Another misunderstanding deals with Sec. 31 (k), which has been erroneously interpreted to mean that the Director may, if it appears desirable, call upon the U. S. Army and/or other branches of the military services to study and use counterinsurgency "methods for maintenance of peace and security".

Sec. 31 (k) of Title II of Public Law 87-297 refers to "methods for the maintenance of peace and security during different stages of arms control and disarmament"; however, this comes under the heading of "RESEARCH." In other words, research and studies are authorized regarding methods for maintaining peace and security, etc.

Sec. 46 deals with contracts by the agency and contractors supplying research services, etc. It then contains this odd provision:

> That nothing in this section shall preclude the earlier (earlier than expiration of three years) disposal of contractor and sub-contractor records in accordance with records disposal schedules agreed upon between the Director and the General Accounting Office.

What would be contained in such records as would warrant their "earlier disposal"? Do they fear possible Congressional investigation?

UNELECTED RULERS MOVE IN ON AGENCY

With ant-like determination and persistence, the disarmament promoters, spearheaded by the Council on Foreign Relations, have worked for decades to bring about a governmental structure through which, beyond the control of the American people, they could fashion and then implement their plans for the disarmament of the United States as a necessary prerequisite for the establishment of a Socialist-dominated World Government.

To be sure, under the Disarmament Agency Act, it is required that the Agency Director, Deputy Director and four assistant directors, as well as the 15 members of the General Advisory Committee, after having been appointed by the President, be confirmed by the U.S. Senate. This, of course, is a mere formality because Senate confirmation is virtually automatic. This is borne out by the fact that the Senate in recent years has confirmed

to high public office a number of political appointees whose questionable backgrounds were discussed in the Senate prior to confirmation but which did not prevent their ultimate confirmation.

When Congress approved the establishment of the Arms Control and Disarmament Agency in 1961, they not only provided the vehicle for the disarmament promoters, but also placed in the hands of the promoters a latchkey to the U.S. Treasury in the form of a $10 million appropriation for the first year of the Agency's operations.

The first director of the Arms Control and Disarmament Agency, William C. Foster, a Republican, is, of course, a member of the Council on Foreign Relations.

The March 8, 1962 hearing of the Senate Subcommittee of the Committee on Foreign Relations, entitled "Review of Operations of the Arms Control and Disarmament Agency," lists (page 12) the following fifteen members of the Arms Control and Disarmament Agency's General Advisory Committee. (Pertinent information regarding the backgrounds of these persons has been added. It will be noted that six, as indicated, are members of the Council on Foreign Relations):

John McCloy (CFR), Chairman of the General Advisory Committee;

Roger Blough (CFR), chairman of the board and president of U.S. Steel Corporation;

Rev. Edward Conway, associate professor of political science at Creighton University;

John Cowles (CFR), chairman of the DES MOINES REGISTER & TRIBUNE and president of the MINNEAPOLIS STAR & TRIBUNE;

Trevor Gardner, former Assistant Secretary of the Air Force, 1953-1956;

Dr. George B. Kistiakowky, former President Eisenhower's science adviser, 1959-1961; professor of chemistry at Harvard University;

Robert Lovett, former Secretary of Defense, 1951-53; chairman, finance committee, Rockefeller Foundation; and director and chairman of the executive committee of the Union Pacific Railroad;

Dean A. McGee of Oklahoma, president, Kerr-McGee Oil Industries;

Ralph McGill, editor, the ATLANTA CONSTITUTION:

George Meany, president, AFL-CIO;

Dr. James Perkins (CFR), vice president, Carnegie Corporation of New York; consultant, RAND Corporation; trustee, Institute for Defense Analysis; and member, Rockefeller Studies on Arms and Disarmament;

Herman Phleger (CFR), Legal Adviser to the State Department;

Dr. Isador Rabi (CFR), professor of physics, Columbia University, former Chairman of the President's Science Committee, 1957.

Gen. Thomas D. White, formerly Chief of Staff of the Air Force, 1958-1961;

Dr. Herbert York, Director of Research and Engineering for the Defense Department, 1958-1961; presently chancellor of the University of California at San Diego.

Sec. 41 of Title IV of the Arms Control and Disarmament Act authorizes the Director to "procure services of experts and consultants, or organizations thereof...at rates not to exceed $100 per diem for individuals and...employ individuals of outstanding ability without compensation..."

Who are some of these individuals who, now acting as consultants to the Arms Control and Disarmament Agency, are thereby able to pursue their disarmament schemes with the added cloak of respectability of being associated with an official Government agency? A 1962 hearing of the Senate Foreign Relations Subcommittee* on page 72 gives a list of 21 consultants now working for the Arms Control and Disarmament Agency.

Among those listed are:

Dr. Henry A. Kissinger, Center of International Affairs, Harvard University; director, Special Studies Project, Rockefeller Foundation, 1956-58;

Dr. Jerome B. Wiesner, special assistant to President Kennedy; and

Dr. Thomas C. Schelling, also of the Center for International Studies, Harvard University; Sr. staff member, RAND Corp., 1958-59;

* Hearing, Senate Subcommittee of the Committee on Foreign Relations, "Review of Operations of the Arms Control and Disarmament Agency," March 8, 1962.

Kissinger, Wiesner and Schelling are members of the Council on Foreign Relations. Schelling's views advocating secret agreements and collaboration with the Soviet Union were previously outlined, on pages 37 and 38 of this book.

In addition, the following members of the Council on Foreign Relations are presently either employed as consultants, or are on one of the advisory boards of the disarmament agency:

> Louis Henken, University of Pennsylvania Law School;
> Shepard Stone of the Ford Foundation;
> Robert R. Bowie, Asst. Secretary of State, 1955-57; Director, Center for International Affairs, Harvard University;
> Paul Doty, professor of chemistry, Harvard University;
> Col. George A. Lincoln, professor and head of the Department of Social Sciences, U.S. Military Academy, West Point.

The Disarmament Advisory Staff develops basic policy recommendations on all aspects of arms control and disarmament. Chief of this staff is Henry A. Byroade, a member of the Council on Foreign Relations. Jacob D. Beam, CFR member, is Assistant Director of the International Relations Bureau of the Disarmament Agency. Arthur Dean, likewise a member of the Council on Foreign Relations, is Chief of the Office of Political Affairs under the Bureau of International Relations of the Disarmament Agency.

Sec. 31 of Title II of the Disarmament Agency Act states that:

> The Director is authorized and directed to exercise his powers, under the direction of the President, (1) to insure the conduct of research, development and other studies in the field of arms control and disarmament; (2) to make arrangements (including contracts, agreements, and grants) for the conduct of research, development and other studies in the field of arms control and disarmament by private or public institutions or persons;....The authority of the Director with respect to research, development and other studies shall be limited to participation in the following insofar as they relate to arms control and disarmament...inspection...limitation, reduction, control, and elimination of armed forces and armaments, including thermonuclear, nuclear, missile, conventional, bacteriological, chemical and radiological weapons.

The Director is also given authority for research and development studies regarding "scientific, economic, political, legal, social, psychological, military, and technological factors related to the prevention of war..." And, as if that is not a sufficiently open-end field of research activity, the Director may also explore "such related problems as (he) may determine to be in need of research."

And the Congress of the United States duly passed this blank-check legislation!

The proposed fiscal 1964 budget for the Arms Control and Disarmament Agency reveals the type of research studies which will be conducted by the agency. A hearing* before the Senate Committee on Foreign Relations on Wednesday, April 10, 1963, lists two disarmament studies to be carried on:

> THE RELATIONSHIP BETWEEN NATIONAL POLITICAL ENVIRONMENTS AND ARMS CONTROL $250,000.
>
> This group of studies deals with the relationship between national political environments and arms control measures. It covers the limitations imposed on arms control agreements by the aspirations and prejudices of local populations and their government.

In other words, 250,000 U.S. taxpayer dollars will be spent by the Disarmament Agency during fiscal year 1964 to "study" the "limitations" under which the disarmers suffer because of the "prejudices" of local populations who may not wish to dismantle their national defense in the face of continuing Soviet aggression.

Another study to be conducted by the Disarmament Agency is for:

> ANALYSES OF NON-GOVERNMENTAL ARMS CONTROL AND DISARMAMENT EFFORTS - $100,000.
>
> This group of studies covers the interactions between public attitudes and arms control policy. In the United States national policy must be consistent with and supported by an in-

* Hearing, Senate Committee on Foreign Relations, "To Amend the Arms Control and Disarmament Act." p. 78.

> formed public opinion. This series of studies is designed both to aid the Arms Control and Disarmament Agency in interpreting public opinion and to indicate in what areas the public may be inadequately informed.

It is heartening to note that the Disarmament Agency recognizes that United States national policy "must be consistent with and supported by an informed public opinion." It is for exactly that reason that this book has been written -- that is, to document for the reader the dangerous threat posed to this nation by the efforts of the disarmament promoters. It is hoped, further, when the American people are sufficiently informed regarding these perilous proposals, that not only will these proposals receive no public support, but in time will not even receive Congressional support for the very necessary appropriations which make possible their destructive work.

That $100,000 of taxpayers' money should be used by the Disarmament Agency to, as they put it, "interpret public opinion" regarding disarmament is preposterous! A full "interpretation" of public opinion could be readily had if the Disarmament Agency conducted a national public opinion poll asking this question of all Americans:

"With Cuba now a Communist satellite nation only 90 miles from U.S. shores, bristling with missiles and Soviet bombers, are you in favor of disarming the United States?"

Actually, what the Disarmament Agency means when it speaks of "interpreting public opinion" is a vast propaganda barrage aimed at the American people via press, radio and television, as a "public service," to soften them up to accept disarmament. This, then, is what the experts and consultants employed by the Disarmament Agency are now preparing.

A HAVEN FOR SECURITY RISKS?

Sec. 45 (a) of the bill establishing the Disarmament Agency states:

> The Director shall establish such security and loyalty requirements, restrictions and safeguards as he deems necessary in the interest of the national security and to carry out the provisions of this Act. The Director shall arrange with the Civil Service Commission for full-field background, security and loyalty investigations of all the agency's officers, employees, consultants, persons detailed from other Government agencies, members of its General Advisory Committee, advisory boards, contractors and subcontractors... In the event the investigation discloses information indicating that the person investigated may be or may become a security risk, or may be of doubtful loyalty, the report of the investigation shall be turned over to the Federal Bureau of Investigation for a full-field investigation. The final results of all such investigations shall be turned over to the Director for final determination. No person shall be permitted to enter on duty as such an officer, employee, consultant, (etc.)... until he shall have been investigated in accordance with this subsection and the report of such investigations made to the Director, and the Director shall have determined that such person is not a security risk or of doubtful loyalty.

This verbose provision of the Disarmament Agency Act is not as air-tight as it is calculated to appear. For example, if the Civil Service Commission (which could not be considered an expert in investigating subversive activities) fails to uncover the fact that an employee is a security risk, the FBI would not even be requested to review the case. And, even if the Civil Service Commission uncovered a security risk and turned the report over to the FBI, as provided in this subsection, and the FBI subsequently confirmed the fact that said person was a security risk, then this sentence of the Act comes into effect, to wit:

> The final results of all such investigations shall be turned over to the Director (of the Disarmament Agency) for final determination.

Therefore, in the hands of the Director himself rests the power to decide whether a person employed in the Disarmament Agency is a security risk, regardless of what may be the findings of the FBI.

ACDA DIRECTOR EMPOWERED TO CONDUCT NEGOTIATIONS

The Act establishing the Disarmament Agency empowers the Director to conduct negotiations concerning arms control and

disarmament with representatives of other nations or international organizations such as the United Nations, with such negotiations being under the direction of the Secretary of State.*

The mere conducting of disarmament negotiations by the Director of the ACDA in itself poses no great threat to the national defense of this nation. During the past decade there have been hundreds of meetings between representatives of the Soviet Union and the United States on the subject of disarmament. Such endless conversations, although dignified by use of the term "negotiations" are, and will continue to be, meaningless unless they result in a disarmament treaty. Any such treaty would then, in accordance with the provisions of the U.S. Constitution, be submitted to the U.S. Senate for ratification, and would, upon ratification, become "the supreme law of the land."

THE UNCONSTITUTIONAL PROVISION

Within Public Law 87-297 which established the Disarmament Agency is a key provision, the importance of which has largely been overlooked. This section opens up a Pandora's box of speculation as to its intent. It thus calls for critical analysis.

Sec. 33 of the Disarmament Agency Act reads:

> The Director is authorized and directed to prepare for the President, the Secretary of State, and the heads of such other Government agencies as the President may determine, recommendations concerning United States arms control and disarmament policy: PROVIDED, HOWEVER, That no action shall be taken under this or any other law that will obligate the United States to disarm or to reduce, or to limit, the armed forces or armaments of the United States, except pursuant to the treaty-making power of the President under the Constitution, OR UNLESS AUTHORIZED BY FURTHER AFFIRMATIVE LEGISLATION BY THE CONGRESS OF THE UNITED STATES. (Emphasis added)

* Upon election to the presidency, Kennedy appointed Dean Rusk as Secretary of State. Rusk is not only a member of the Council on Foreign Relations, but is also the former president of the Rockefeller Foundation.

The foregoing section is referred to by some Congressmen and Senators as a safeguard which would deny to the Director of the Disarmament Agency the power to disarm the United States. In George Orwell's book, "1984,"* the theory of opposites is expounded and sloganized - such as, "War is Peace," "White is Black," "Freedom is Slavery," etc. In this case it could be that a supposed safeguard in this piece of legislation could actually be a foot-in-the-door to amend the Constitution by unconstitutional means.

All disarmament negotiations perforce involve dealings with foreign nations. The Constitution requires that in order to be in effect, such dealings must be formalized by treaty. It will be noted in Sec. 33 quoted heretofore, that recommendations by the Director of the ACDA could disarm the U.S. if such recommendations were incorporated in a treaty, and, according to the "treaty-making power of the President under the Constitution," were ratified by two-thirds of the Senate. What is most noteworthy, however, is that Sec. 33 also sets forth an alternative method by which a recommendation of the Director could disarm the United States, i.e. if such recommendation were "authorized by further affirmative legislation by the Congress of the United States." This could be taken to mean, because of the use of the word "or" in Sec. 33, that those proposing to disarm the United States would have their choice of either (a) the Constitutional means of ratification of such a treaty by two-thirds of the Senate, or (b) "by further affirmative legislation by the Congress."

Would it not appear that the latter phrase could, in effect, amend the Constitutional requirement of two-thirds for ratification by the Senate of all treaties?

Article V of the Constitution provides the legal method for amending the Constitution, to wit:

> The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution....

However, Sec. 33 of the Disarmament Agency Act, when providing that disarmament recommendations could "disarm or

* Harcourt, Brace & Company, New York, 1949.

reduce or limit the Armed Forces or armaments of the United States" if "authorized by further affirmative legislation by the Congress" does not stipulate that this "further affirmative legislation" should require a two-thirds vote.

In various sections of the Constitution there are delineated the areas of legislation in which a two-thirds vote is required for passage. In addition to treaties and Constitutional Amendments, these are: impeachment, overriding a presidential veto, and expelling a fellow member of Congress. With these exceptions, Article I, Section 5, Clause 2 of the Constitution gives great leeway as to whether a simple majority or a two-thirds vote is necessary for passage of general legislation when this Article of the Constitution further states:

> Each House may determine the rules of its proceedings....

(As a consequence of this authority, in 1917 the Senate adopted what is called a "cloture rule" as a part of the Senate rules. As amended in 1949, this rule provides that the Senate may end debate by a two-thirds vote of the entire body. This example is given merely to illustrate how Congress may change the rules in order to require a two-thirds vote in a specific area not previously outlined in the Constitution.)

Regarding treaties, Article II, Sec. 2 of the Constitution states:

> The President shall have power by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur.

Therefore, when Congress in 1961 passed H.R. 9118 establishing the Disarmament Agency, it passed a bill which, in effect, amended the Constitution's treaty ratification requirement by adding the phrase "or unless authorized by further affirmative legislation by Congress" which would not necessarily require a two-thirds vote.

It is not, however, unusual for Congress to pass legislation which is questionable as to its constitutionality. In former days it was the function of the U.S. Supreme Court to rule on the constitutionalty of legislation passed by Congress. Such a function is outlined in Article III, Section 2, Clause 1 of the U. S. Constitution, which defines the duties and powers of the U.S.

Supreme Court, as follows:

> The judicial power shall extend to all cases...arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority....

Therefore, it is seen that should the constitutionality of Sec. 33 of the Disarmament Agency bill be questioned, it would be referred to the U.S. Supreme Court. In view of the fact that from October 1953, when Earl Warren became Chief Justice, until 1961, the Supreme Court voted 66% of the time in favor of the position advocated by the Communists in cases that involved one aspect or another of the Communist conspiracy, the resultant ruling on Sec. 33 might well be a foregone conclusion.

If the "by further affirmative legislation by the Congress" phrase in Sec. 33 remains in effect, Congress could make its own rules, and decide that such disarmament agreements could pass by a simple majority vote. With the present Left-Wing control of Congress, a simple majority vote in both Houses to disarm the United States would be far simpler to obtain than the two-thirds majority of the Senate as the Constitution requires for ratification of a treaty.

The foregoing analysis of the dangers inherent in Sec. 33 of the Arms Control Act are borne out by the following statement of the United States Arms Control and Disarmament Agency which appeared in the March 10, 1963, issue of the AMARILLO (Tex.) NEWS-GLOBE. According to this official ACDA statement:

> As the arms control and disarmament policy of the United States is developed and elaborated in increasing detail by this Agency, the provisions of Sec. 33 of the Act have been, and will continue to be, adhered to in every respect....In the event we agree with foreign governments on a treaty that will obligate the United States to disarm or to reduce or to limit the Armed Forces, or armaments of the United States, we will seek the approval of two-thirds of the membership of the Senate OR OF A MAJORITY OF THE MEMBERS OF BOTH HOUSES OF CONGRESS. (Emphasis supplied)

Further substantiation that a disarmament treaty prepared and negotiated by the Arms Control and Disarmament Agency could actually become law without having complied with the constitu-

tional requirement of two-thirds ratification by the Senate is borne out in a hearing on August 2, 1962, of a subcommittee of the Senate Committee on Foreign Relations.* During the hearing, Senator Russell Long of Louisiana, a member of the Committee on Foreign Relations, stated that the Arms Control and Disarmament Agency Act precludes a disarmament treaty from being put into effect by executive agreement.

At this point, Mr. Adrian Fisher of the Arms Control and Disarmament Agency stated:

> ...One slight amendment there - an executive agreement approved by an act of Congress - since this amendment was put in by the other House.

Mr. Fisher thus clarifies what was intended in Section 33 of the Act when the phrase "or by further affirmative legislation by Congress" was used.

At this point, Senator Hubert Humphrey, also a member of the Committee on Foreign Relations (and a member of the Council on Foreign Relations) stated that such a disarmament agreement "either has to be ratified as a treaty, under the constitutional process, or as an executive agreement, by an act of Congress."

And it can certainly be assumed that, realizing the difficulty of achieving a two-thirds vote for ratification in the Senate (the constitutional method), the disarmament promoters, utilizing Section 33, will choose the alternate, unconstitutional method for passage of disarmament legislation - that is, an executive agreement approved by a majority of both Houses of Congress.

Once this illegal precedent regarding treaties has been established it could apply to all disarmament questions, including the turning of the U.S. Armed Forces over to the United Nations!

* Entitled "Renewed Geneva Disarmament Negotiations."

CHAPTER X

OUTLINE OF KENNEDY'S PROPOSED DISARMAMENT TREATY

On March 14, 1962, a disarmament conference convened in Geneva. All official State Department documents refer to this group as the "18-Nation Disarmament Committee." On the other hand, the Associated Press and United Press International refer to it as the "17-Nation" Conference. The question arises: What nation is missing - and why?

Originally the 18-Nation Disarmament Committee was set up to include five Free World nations (Britain, Canada, France, Italy, and the United States); five Soviet bloc nations (Bulgaria, Czechoslovakia, Poland, Rumania, and the Soviet Union); and eight so-called neutralist nations (Brazil, Burma, Ethiopia, India, Mexico, Nigeria, Sweden and the United Arab Republic). Five of these eight so-called neutralist nations (Burma, Ethiopia, India, Sweden, and the United Arab Republic) recently voted in favor of seating Red China in the United Nations.

Not only do the majority of these eight neutralist nations frequently vote against the interests of the United States in the United Nations, but it now develops that there is a definite imbalance in East-West disarmament negotiations, because actually there are only four Free World nations now being represented as opposed to the five Soviet bloc nations.

The missing Free World member is France. Only on direct questioning of a Mr. N. E. Nordness, Public Affairs Advisor of the Arms Control and Disarmament Agency in Washington, was information elicited regarding the boycott of the disarmament talks by France. Could it be that France has lost all confidence in the leadership and foreign policy of the United States? Or perhaps foreign policy officials in France are familiar with the extremist views of Thomas C. Schelling, a member of the Council on Foreign Relations and one of the advisors of the U.S. Arms Control and Disarmament Agency. It will be recalled that Schelling recommended (see page 35):

> If our definition of arms control is broad enough to include all the possible forms of military collaboration between the United States and its main enemies, there may well be understandings reached or even explicit agreements that must be kept from certain other countries.

Chapter IX revealed the extensive influence the Council on Foreign Relations now exerts on the Arms Control and Disarmament Agency by having placed its members in key positions. The Department of State BULLETIN of April 2, 1962, lists the principal advisors of the U.S. delegation to the so-called 18-Nation Disarmament Committee which convened in Geneva on March 14, 1962, as follows:

> Charles E. Bohlen, Special Assistant to the Secretary of State;
>
> Arthur H. Dean, Ambassador;
>
> William C. Foster, Director, Arms Control and Disarmament Agency;
>
> Foy D. Kohler, then Assistant Secretary of State for European Affairs, later appointed Ambassador to the Soviet Union;
>
> Robert Manning, Assistant Secretary of State-designate for Public Affairs;
>
> Charles C. Stelle, United States Mission, Geneva;
>
> Llewellyn E. Thompson, then Ambassador to the USSR.

Of these seven advisors to the U.S. disarmament delegation at Geneva, Bohlen, Dean, Foster and Kohler are members of the Council on Foreign Relations.

EVEN CONGRESS DIDN'T KNOW!

One of the recommendations of the Council on Foreign Relations* is:

> Concentrate more on developing our own disarmament proposals. Negotiate on these proposals perhaps directly with the USSR, in secret...

Could it be possible that the real meaning of the phrase "in secret" in this CFR recommendation is to keep Congress "in

---

* "Strategy For the 60's," Frederick A. Praeger and Company, New York City, 1961.

the dark" regarding activities in the disarmament field? For example, even though the aforementioned 18-Nation Disarmament Committee convened in Geneva on March 14, 1962, leading members of Congress were apparently unaware of the real purpose of this conference.

On April 5, 1962, more than two weeks after the Disarmament Committee convened in Geneva, Senator Barry Goldwater of Arizona rose to his feet in the Senate with a newspaper clipping in his hand and said:

> I did not see this article in any of the Washington papers although undoubtedly it was there. Nor did I see it in any of the New York papers....However, yesterday afternoon my local paper from Phoenix arrived on my desk. It was the March 31 issue of the ARIZONA REPUBLIC, and carries the UPI byline from Geneva of that date. I want to read this article and ask the Majority Leader if he is aware of it - and if he is, if he knows whether the statement is true or not.

Senator Goldwater then read a UPI article headlined "United States Seeks Elimination of Armies" which began with the following paragraph:

> Geneva (March 31, 1962) -- The United States will submit to the Geneva Disarmament Conference a plan calling for elimination of national armies within nine years and their replacement by a United Nations force, reliable sources said yesterday....

After completing the article, Senator Goldwater continued:

> The query I want to put to the distinguished Majority Leader is just this: Does he have any knowledge of a suggestion being submitted, or a plan to submit such a suggestion to the Geneva Conference, that the United States turn over its military to the United Nations?

In response to Senator Goldwater's question, Senator Mike Mansfield, Kennedy's Majority Leader, responded:

> I want to reply that this is the first indication I have had that a proposal of this nature is being considered, if one is being considered.

Not only was such a proposal then being considered, but said proposal had been painstakingly drafted during the preceding months by the newly established Arms Control and Disarmament

Agency in order to be presented to the 17-Nation Disarmament Conference at Geneva. Further in the debate, Senator Richard Russell, chairman of the Senate Armed Forces Committee, stated:

> This is the first I have heard of such a subject by an official of the Government....I can assure the Senator that, as one member of this body, I shall oppose with all my strength any proposal which would disband the Armed Forces of the United States, which, after all, are what is maintaining world peace.... If ever we were to subscribe to any such theory as that (disbanding U.S. Armed Forces), the world would be quickly taken over by the Communists....I do not believe that the people of the United States would tolerate any such thing as that for five minutes.

Senator Russell, obviously shocked that Congress had been so patently by-passed by the disarmament promoters, added:

> I find it difficult to believe the Executive branch would have embarked on any such scheme as that (disarmament proposal) without at least having told our distinguished Majority Leader something.

There was, however, on the floor of the Senate on April 5, 1962, one member who was not surprised. That member was, of course, Senator Strom Thurmond, who complimented Senator Goldwater for "bringing this story to the attention of the Senate." Senator Thurmond went on to say:

> Last Fall (1961) I made an address in which I said that the State Department had a plan to turn over our nuclear weapons to the United Nations. The State Department denied that they did have such a plan. (However) it is contained in Department of State publication 7277, released in September, 1961.

CRITICISM OF DISARMAMENT PROPOSAL MOUNTS

On April 19, 1962, two weeks after the foregoing remarks on the floor of the Senate, Senator Hubert Humphrey, a member of the Council on Foreign Relations, entered into the CONGRESSIONAL RECORD, pages 6489-6496, the lengthy official text of the "Outline of Basic Provisions of a Treaty on General and Complete Disarmament in a Peaceful World," which the U.S.

delegation had presented at Geneva the previous day.

In a press release of April 23, 1962, Senator Strom Thurmond, lashing out at this U.S. Disarmament Treaty Proposal, declared:

> Since World War II, Communist propaganda beamed at the United States and within the United States by some well-meaning idealists, and some ill-meaning collaborators, has played many themes, but none more heavily than disarmament, realizing how anxious man is to seek this illusive goal. The Communist idea is not to attain peace, as we understand the term "peace," but rather to disarm the only major power standing between the Communist forces and their domination of the world, the United States.
>
> Last week, the United States again danced to the Communist tune - as we have done almost consistently since World War II - by submitting to the Disarmament Conference at Geneva a 3-Stage Disarmament Plan which would create a super armed force for the United Nations "with such power that no single nation can challenge it."
>
> The State Department is playing a game of Russian roulette when it naively proposes to lay down our arms in any type agreement with a nation whose leaders have broken 50 of 52 major agreements since World War II, and who have stated time and again that their goal is to "dethrone God and destroy capitalism."
>
> Until the Communists renounce their goal of world domination by good faith deeds - not just words - we should emphatically declare to the world that we will consider no disarmament proposal. To do otherwise is to gamble with the liberties and lives of 186 million Americans and those of the rest of the Free World....

In an editorial entitled "A Surrender Blueprint," the Charleston, (S.C.) NEWS & COURIER of April 20, 1962, commenting on the U.S. Disarmament Plan presented at Geneva, stated:

> The proposal is so absurd and so filled with danger that one wonders whether the Administration responsible for it is dominated by fools or persons with a twisted understanding of their duty to the American people.
>
> The Constitution of the United States makes the President the "Commander in Chief of the Army and Navy of the United States." He cannot surrender that solemn obligation to the

> United States no matter what his personal desires. The Constitution also was called into being, according to the preamble, to "provide for the common defense" and "secure the blessings of liberty to ourselves and our posterity." In terms of the fundamental law of the land, we regard the Administration's disarmament proposal as contrary to the Constitution.

Congressman John J. Rhodes of Arizona commented on the disarmament treaty proposal as follows:*

> Our disarmament proposal is so fatuous that I am amazed the Russians have not accepted it, for these reasons: (1) The plan provides for complete disarmament of all nations. We will keep our agreement and disarm - the Russians will not; (2) The plan provides that in Stage 3 the only force in the world, other than those designed for internal police work, would belong to the U.N. The Russians will completely infiltrate that force and control it - we will not.

Pointing up the absurdity of any disarmament agreement with the Soviet Union, the INDIANAPOLIS STAR on March 12, 1960, stated that all Communist regimes rest on force, and that all of their policies are based on force. Then the INDIANAPOLIS STAR continued:

> To believe that the Communists will ever agree to disarm, or to allow non-Communist inspection of Communist territories, is to believe the impossible, the absurd, the fantastic. It is to believe that the Communists will, of their own free will, and of their own choosing, decide to abandon Communism and become peaceful reformers and constitutional democrats. You can just as well believe that the tiger will become a lamb overnight.

The ARIZONA REPUBLIC, on April 22, 1962, stated that if this treaty is the basis for serious negotiations (and it most certainly is) then "the disarmament plan is a blueprint for the destruction of American sovereignty. It is a chart leading to World Government dominated by Communist and neutralist nations."

---

* As quoted in the Tucson, Arizona, DAILY CITIZEN, April 30, 1963.

BASIC PROVISIONS OF U. S. DISARMAMENT TREATY PROPOSAL

In an article appearing in the WASHINGTON POST of April 19, 1962, Murrey Marder states that:

> The plan is the product of many months of effort by the new United States Arms Control and Disarmament Agency headed by William C. Foster,* and much consultation inside the Kennedy Administration.

And yet, as has just been pointed out, when Senator Goldwater brought up the subject on the floor of the Senate on April 5, 1962, he found that Senators Mansfield and Russell had no knowledge of this disarmament plan!

A chronology of various disarmament proposals was outlined in Chapter VIII of this book. In that chapter appeared excerpts from the "Joint Statement of Agreed Principles for Disarmament Negotiations" which was presented to the United Nations by the United States and the Soviet Union on September 20, 1961. Then, on page 74 were quoted five specific provisions of the Joint U.S.A.-U.S.S.R. "Statement of Agreed Principles for Disarmament Negotiations."

On April 18, 1962, the U.S. delegation to the Disarmament Conference in Geneva presented what is officially known as the "Outline of Basic Provisions of a Treaty on General and Complete Disarmament in a Peaceful World."**

Under the section entitled "Objectives," the U.S. Disarmament Treaty Outline lists the following:

> (a) Disbanding of armed forces, dismantling of military establishments, including bases, cessation of the production of armaments as well as their liquidation or conversion to peaceful uses;
>
> (b) Elimination of all stockpiles of nuclear, chemical, biological, and other weapons of mass destruction, and cessation of the production of such weapons;
>
> (c) Elimination of all means of delivery of weapons of

* William C. Foster is a member of the Council on Foreign Relations.

** Pages 6489-6496 CONGRESSIONAL RECORD, April 19, 1962.

mass destruction;

(d) Abolition of the organizations and institutions designed to organize the military efforts of states (nations), cessation of military training, and closing of all military training institutions:

(e) Discontinuance of military expenditures.

If these provisions sound familiar, they should, inasmuch as they are, word for word, comma for comma (with the exception of the substitution of the word "biological" for the word "bacteriological" in part "(b)", the exact same objectives as appeared in the joint U.S.A.-U.S.S.R. "Statement of Agreed Principles for Disarmament Negotiations."

In other words, from the general to the specific, the foregoing provisions mean the disbanding of the U.S. Army, the U.S. Air Force and the U.S. Navy; destroying our nuclear stockpiles; shutting down the U.S. Military Academy, the U.S. Naval Academy and the U.S. Air Force Academy; discontinuing all military training, including ROTC units in schools and colleges; and ceasing all production of missiles and weapons of defense.

The Treaty Outline provides for disarmament in three stages. Stage I is to be completed within three years after ratification of a Disarmament Treaty. In addition to reducing the strength of U.S. Armed Forces, Stage I calls for a 30% reduction in such armaments as the B-52 aircraft, jet bombers, and fighter planes, the Atlas missile, the Titan missile, Polaris missiles, Minuteman missiles, including launching pads, submarine-launched missiles, anti-missile missile systems, aircraft carriers, battleships, cruisers, destroyer types, submarines, etc.

Stage I consists of three one-year steps. Of particular significance is the fact that the U.S. armaments to be ultimately destroyed under Kennedy's treaty proposal consist of weapons in which the United States is, or has been, superior to the Soviet Union, not only in quantity, but in quality.

And why should purely defensive weapons, such as anti-missile missile systems, which in no way could be considered to menace the peace of the world, be destroyed?

Also in Stage I, all production of fissionable materials for use in nuclear weapons would cease.

Stage I permits "transfer of fissionable material to purposes other than use in nuclear weapons."

Stage II calls for further reducing armaments and armed forces, to be completed within a three-year period.

Stage III would begin "upon the transition from Stage II," and would be completed "within an agreed period of time, as promptly as possible." According to the Treaty Outline:

> During Stage III, the parties to the treaty would undertake.... to complete the processes of general and complete disarmament....would eliminate all armaments remaining at their disposal at the end of Stage II....would halt all applied research, development, production and testing of armaments....would complete the reduction of their force levels, disband systems of reserve forces, cause to be disbanded organizational areas comprising and supporting their national military establishment....and terminate the employment of civilian personnel associated with the foregoing.

It is under Stage III that the abolition of the U.S. Army, Navy and Air Force would be accomplished, as well, of course, as the abolishment of the U.S. Military Academy at West Point, the U.S. Naval Academy at Annapolis, the U.S. Air Force Academy at Colorado Springs, and all other military training schools.

FASHIONING A COMMUNIST-CONTROLLED WORLD GOVERNMENT

The Foreword to the U.S. Disarmament Treaty Outline states that:

> The United Nations should be progressively strengthened for the preservation of international security and the peaceful settlement of differences.... In the event of disagreement, the matter would be referred to the Security Council of the U.N.

The Soviet Union is a permanent member of the U.N. Security Council, as are the United States, Great Britain, France, and Nationalist China. As of June, 1963, the General Assembly of the United Nations consisted of 111 members, the majority of which are either so-called neutralist nations with strong leanings toward the Soviet bloc, or newly created African jungle nations.

The 111th nation to be admitted was Kuwait, a tiny nation with an estimated population (1961) of only 322,000, which, of course, is smaller than many U.S. cities. And yet, this miniscule country, as well as each of the African members of the United Nations, has one vote in the General Assembly, as does the United States of America. The Soviet Union, on the other hand, has three votes - not only its own, but those of Ukraine and Byelorussia, which are actually mere provinces of Russia. Because the newly-created African countries are, as could be expected, highly impressionable and easily influenced, they lean toward the nation which assumes the most aggressive posture. In view of the continuing retreat by the U.S. in the face of Communist aggression, it is now frequently found that these new nations line up with the Soviet Union on important votes in the U.N. General Assembly.

Stages I, II, and III of the Disarmament Treaty Outline, in addition to prescribing armament reduction, also delineate means for strengthening the power of the United Nations, with a consequent reduction in or destruction of the national sovereignty of all member nations.

Under the section of the Treaty Outline entitled "Objectives" is found a provision "...To establish and provide for the effective operation of an International Disarmament Organization within the framework of the United Nations...." The establishment of the International Disarmament Organization would take place during Stage I. Among its duties would be "to insure the verification in the agreed manner of the obligations undertaken...."

The Treaty Outline states that "The International Disarmament Organization and its inspectors would have unrestricted access, without veto, to all places, as necessary, for the purpose of effective verification (of armament reduction)."

The inability of the United Nations or any of its subsidiaries to provide adequate verification of arms reduction was amply illustrated in the Cuban crisis of October-November, 1962. It will be recalled that the U.N. was called in as a mediator in order to "verify" the dismantling and the return to the Soviet Union of missiles installed there. Because Castro and Khrushchev refused on-the-spot U.N. inspection, as well as refused to allow the U.S. Navy to inspect ships departing from Cuba,

there is no evidence or verification that any missiles have actually been removed from Cuba.

How could it be conceivable that the Soviet Union, as a member of the proposed IDO, would permit that organization to make any meaningful inspections?

An example of the amount of control that the Soviet Union would exert on the International Disarmament Organization is evident from a description of the IDO, which states that it would have "a Control Council consisting of representatives of all the major signatory powers as permanent members..."

One of the functions of this Control Council, of which the Soviet Union would be a permanent member, would be "establishing procedures and standards for the installation and operation of the verification arrangements, and maintaining supervision over such arrangements and the administrator." This would be equivalent to having had Al Capone verify the fact for the Chicago Police Department that the members of his gang had thrown away their machine guns and become law-abiding citizens!

The Disarmament Treaty Proposal provides that:

> The International Disarmament Organization would have access to relevant facilities and activities wherever located in the territory of such parties.

Thus, under the treaty, Soviet members of the IDO would have free access to roam at will through all military installations and national defense industries in the U.S.A.

Another function of the International Disarmament Organization, within the framework of the U.N., would be the supervision of depots in which would be deposited armaments to be eliminated during Stage I. The effectiveness with which Soviet members of the IDO would destroy or confiscate armaments deposited by the U.S. can well be imagined!

Stage I also requires the "Transfer of fissionable materials to purposes other than use in nuclear weapons," and then provides that such transferred materials "would be placed under safeguards and inspection by the International Disarmament Organization." A further section regarding the transfer of

fissionable materials states: "The system of safeguards to be applied for this purpose would be developed in agreement with the International Atomic Energy Agency, and would be set forth in an annex to the treaty."

The August 27, 1962, issue of the Department of State BULLETIN refers to the International Atomic Energy Agency as one of the "technical agencies in the United Nations complex." In an article in the same issue of the State Department BULLETIN appeared an article by Harlan Cleveland, Assistant Secretary for International Organization Affairs, and a member of the Council on Foreign Relations. In that article, Mr. Cleveland gushed:

> We welcome the presence in this international agency of the Soviet Union.

Regarding the supposed safeguard concerning possible misuse of atomic material, Harlan Cleveland's advisor, Ambassador Smyth, in discussing a proposed safeguard system, stated optimistically:

> We believe that such a technical system of control will lessen the possibility of illicit diversion of nuclear material to military purposes, and will increase the probability that any such diversion would become known at an early date.

However, and most importantly, Ambassador Smyth admitted:

> Unfortunately, it is impossible to operate nuclear power plants without making material that could be converted to nuclear weapons.

Possibly one of the most ridiculous provisions of Kennedy's Disarmament Treaty Proposal is that which states:

> The parties to the treaty would refrain from indirect aggression and subversion.

Yes - the Soviet Union will refrain from indirect aggression and subversion when - as Khrushchev put it - "a shrimp learns to whistle"!

Stage I provides that:

> The parties to the treaty would undertake to develop arrangements during Stage I for the establishment in Stage II of a United Nations Peace Force.

In this regard, Stage II states:

> The United Nations Peace Force to be established as the result of the agreement reached during Stage I would come into being during the first year of Stage II and would be progressively strengthened during Stage II.

COMPULSORY JURISDICTION OF WORLD COURT

Stage II also provides:

> The parties to the treaty would undertake to accept without reservation, pursuant to Article 36, paragraph (1) of the Statute of the International Court of Justice, the compulsory jurisdiction of that Court to decide international legal disputes.

The phrase "accept without reservation" which appears in this section should be carefully noted. This is an obvious reference to the Connally Reservation which prevents the World Court from ruling on U.S. domestic matters. Should the Disarmament Treaty be ratified, the foregoing section in Stage II would automatically negate the Connally Reservation. The phrase "to decide international legal disputes" could be a deception calculated to give the impression that rulings of the International Court of Justice would not apply to domestic issues. However, Article 36, paragraph (1) of the Statute of the International Court of Justice states that the jurisdiction of the Court "comprises all cases... and all matters..." in the U.N. Charter "or in treaties and conventions in force."

Therefore, pursuant to Article 36, paragraph (1) of the Statute of the International Court of Justice, the ratification of the Disarmament Treaty would place all matters covered "in treaties" under the jurisdiction of the World Court.

And once the Connally Reservation, prohibiting the World Court from ruling on domestic matters, had been negated by the ratification of the Disarmament Treaty, paragraph (2) of Article 36 could come into force. This paragraph extends the compulsory jurisdiction of the World Court in all legal disputes concerning "....(c) the existence of any fact which if established would constitute a breach of an international obligation."

Inasmuch as the World Court would have supreme jurisdiction, it would be able to interpret any domestic matter as constituting

"a breach of international obligation." For example, the World Court could rule that the United States has an "international obligation" to raise the standard of living of the world by quadrupling the U.S. Foreign Aid program, and that U.S. taxes to finance this must be raised accordingly!

Members of the World Court are elected by the United Nations General Assembly, and by the Security Council. THE DAN SMOOT REPORT of July 25, 1960, pointed out that as of that date, of the twenty-five judges who have served on the World Court, five have been from Communist countries: Czechoslovakia - 1; Poland - 1; USSR - 2; Yugoslavia - 1. The United States is prevented by the U.N. Charter from having more than one member as a judge on the World Court. The Communists, however, may have a representative of the Soviet Union, as well as a member of a Communist satellite nation as judges on the World Court at the same time. For example, as of 1962, the president of the fifteen-man World Court was Bohdan Winiarski of Communist Poland. The judge representing the Soviet Union was Vladimir M. Koretsky.

The sole U.S. member on the World Court is Philip Jessup, whose nine-year term of office on the International Court of Justice will extend until February 5, 1970. Not only is Philip C. Jessup a member of the Council on Foreign Relations, but he also has been affiliated with a number of Communist-front organizations which are listed in the Guide to Subversive Organizations and Publications, published by the House Committee on Un-American Activities.*

* Philip C. Jessup's Communist-front affiliations are documented as follows in "America's Unelected Rulers," by Kent and Phoebe Courtney, pages 148-149:

American-Russian Institute (Appendix IX, p. 1097)
National Emergency Conference, 1939 (Appendix IX, p. 1206)
National Emergency Conference for Democratic Rights, 1940 (ibid., p. 1210)

In addition to the affiliations listed, Jessup was a member of the Faculty Advisory Board of the American Law Students' Association, as shown in Appendix IX, p. 1093. The Communist character of this organization is shown in Appendix IX, p. 1067.

Also, Jessup was an influential member of the Institute of Pacific Relations. The Senate Internal Security Subcommittee concluded in 1951, after a thorough study and exhaustive investigation that: "The IPR was a vehicle used by the Communists to orientate American Far Eastern policies toward Communist objectives" and; "Members of the small core of officials and staff members who controlled IPR were either Communist or pro-Communist." The American Communist Party and Soviet officials considered the organization "an instrument of Communist policy, propaganda and military intelligence," according to the Guide to Subversive Organizations and Publications, published by the House Committee on Un-American Activities (1961), page 87.

When the disarmament promoters speak of "World Peace through World Law" they refer to law interpreted and administered by the U.N. World Court, on which the U.S. is now represented by a man who has had Communist-front affiliations.

If the Disarmament Treaty Proposal is ratified, thereby nullifying the Connally Reservation which prevents the World Court from ruling on domestic matters, not only would the United States be outnumbered on the World Court, but rulings of said court would be final. Paragraph (6) of Article 36 of the Statute of the International Court of Justice provides:

> In the event of a dispute as to whether the Court has jurisdiction, the matter shall be settled by the decision of the Court.

PENALTIES AGAINST INDIVIDUALS FOR NON-COMPLIANCE

Possibly one of the most ominous sections of Kennedy's Disarmament Treaty Proposal is that which appears in Stage II under the heading "National Legislation," and which states:

> Those parties to the treaty which had not already done so would, in accordance with their constitutional processes, enact national legislation in support of the treaty embodying legal obligations on INDIVIDUALS and organizations under their jurisdiction and providing appropriate penalties for non-compliance. (Emphasis added)

Should this particular section of the proposed Disarmament Treaty ever go into effect, it would mean that the once-free United States had become a slave nation, its citizens deprived of all rights previously guaranteed by the U.S. Constitution.

Amendment II of the Bill of Rights guarantees:

> ...The right of the people to keep and bear arms shall not be infringed.

The section of the proposed Disarmament Treaty requiring the imposition of penalties on individuals and organizations for non-compliance could also be interpreted to mean confiscation by the Federal Government of all the guns privately owned by its citizens, inasmuch as the mere possession of such guns could be considered an act of "non-compliance," and therefore subject to "appropriate penalties."

WORLD TAXING POWER

Stage III, in addition to completely dismantling the Armed Forces and military institutions of the United States, would also turn over to the International Disarmament Organization the necessary taxing power to finance the operations of its activities. The section entitled "Completion of Stage III" stipulates:

> ...The parties to the treaty would bear the International Disarmament Organization's expenses as provided in the budget approved by the General Conference and in accordance with the scale of apportionment approved by the General Conference.

Because the United States is the wealthiest nation on earth, it could be expected that the U.S. would bear at least fifty per cent, and possibly far more, of the total operating costs of this super-government which could and would exercise sovereign power over the formerly independent United States.

AND FINALLY - A WORLD GOVERNMENT

That Kennedy's Disarmament Proposal is the vehicle on which will be fashioned an all-powerful One World Government is clearly evident in one of the final sections of the Treaty Proposal, which states regarding the United Nations Peace Force:

> The parties to the treaty would progressively strengthen the United Nations Peace Force established in Stage II until it had sufficient armed forces and armaments so that no state (nation) could challenge it.

The disarmament promoters know full well that liberty-loving Americans, once they are aware of the real meaning of the Disarmament Treaty Proposal, will react vigorously. Therefore,

after submission of the Treaty Proposal on April 18, 1962, subsequent disarmament negotiations took place in Geneva at which was discussed a "Proposal for a Declaration Against War Propaganda."* Negotiations between the U.S. and the U.S.S.R. on this subject culminated in an agreed text which was approved by both governments. The declaration solemnly condemned "appeals for war and for the settlement of disputes between states by the use of force, and also statements to the effect that war is necessary or inevitable."

The NEW YORK TIMES on May 25 quoted several excerpts from the "Declaration Against War Propaganda" proposal, to wit:

> The governments of states participating in the 18-Nation Disarmament Committee in Geneva solemnly affirmed their support for the United Nations General Assembly Resolution II which condemned "all forms of propaganda, in whatever country conducted, which is either designed or likely to provoke or encourage any threat to the peace, breach of the peace, or act of aggression."

Four days later, on May 29, the Soviet Union submitted additional amendments to the text. Among other things, the Soviet amendments called for enactment of laws making any form of war propaganda a criminal offense. Then, according to the Department of State BULLETIN:

> The United States declared the Soviet amendments to be unacceptable, and in view of their abrupt about-face stated that it would not be fruitful to reopen negotiations on war propaganda at this time.

U.S. disarmament negotiators did not, however, close the door on this particular subject. In view of previous back-downs and compromises on the part of U.S. representatives, it is not inconceivable that at some future date the Soviet proposal will be accepted.

The NEW YORK DAILY NEWS, in its usual pithy manner, commented that agreement to such a proposal "would mean, among

---

* Department of State BULLETIN, July 23, 1962. Page 157.

other things, forbidding newspapers to print any item unfriendly to the Red Slave Empire. These could be construed as inciting to war."

And, should such an outrageous proposal ever be agreed to, this book exposing the plans of the disarmament promoters would most certainly be considered "unfriendly" to the Red Slave Empire, and as such would be condemned by a World Government Edict!

CHAPTER XI

AN ALL-POWERFUL U. N. MILITARY FORCE

Robert Morris, former counsel of the Senate Internal Security Subcommittee, in his syndicated column of April 4, 1962, discussed the Disarmament Proposal in the State Department "Freedom From War" pamphlet, No. 7277, as follows:

> It is not really a disarmament program at all. This is because it provides that the international body, the U.N. Peace Force, will end up with all the power in the world to the extent necessary to carry out its will.

Because Kennedy's Disarmament Treaty Proposal frequently reiterates that the treaty would be within the framework of the United Nations, let us examine the existing framework of the United Nations as provided for by the United Nations Charter.

"The Strategy of Disarmament," by Henry W. Forbes* points out that all disarmament efforts since 1945 have been conducted under the aegis of, or in collaboration with the United Nations, in consonance with the U.N. Charter.

Article 26 of the U.N. Charter provides:

> In order to promote the establishment and maintenance of international peace and security...the Security Council shall be responsible for formulating, with the assistance of the Military Staff Committee...plans to be submitted to the members of the United Nations for the establishment of a system for the regulation of armaments.

Mr. Forbes then goes on to quote Article 47 of the U.N. Charter in this regard. However, Mr. Forbes neglects to quote in entirety the section of Article 47 which deals with the powers of the Military Staff Committee.

Frederick G. Dutton, Assistant Secretary, Department of State, Washington, D.C., in a letter dated January 15, 1963, to Senator Russell Long, wrote:

> Thank you for your letter of November 14 in which you en-

* Public Affairs Press, Washington, D.C., 1962.

closed a letter from a constituent, Mrs. Phoebe Courtney. In response to my October 26 letter to you, Mrs. Courtney has asked a number of questions about the United Nations Military Staff Committee (MSC)....The function of the Military Staff Committee as envisaged by the United Nations Charter under Articles 47 and 43 was to advise the Security Council on the creation and composition of a stand-by United Nations peace-keeping force. This force would have been composed of military units assigned by the member states and would have been readily available to the Security Council if needed. The MSC would have also had the responsibility under the Security Council for the actual deployment and employment of this force when used to maintain international peace and security....

Not only does Article 47 of the U.N. Charter provide that the Military Staff Committ e* should "advise" and "assist" the Security Council, but Section 1 of Article 47 additionally states that such advice and assistance would relate to "employment and command of forces placed at its disposal, the regulation of armaments and possible disarmament."

Section 2 of Article 47 describes the composition of the Military Staff Committee:

> The Military Staff Committee shall consist of the Chiefs of Staff of the permanent members of the Security Council or their representatives.**

Thus, under the U.N. Charter the Chief of Staff of the Soviet Union is a member of this Military Staff Committee.

Section 3, Article 47 of the U.N. Charter gives a clearer picture of the duties of the Military Staff Committee, to wit:

> The Military Staff Committee shall be responsible under the Security Council for the strategic direction of any armed forces placed at the disposal of the Security Council.

The final sentence of Section 3 of Article 47 states that:

> Questions relating to the command of such forces shall be worked out subsequently.

* Thus the U.S. representative on the MSC is Gen. Maxwell D. Taylor, chairman of the U.S. Joint Chiefs of Staff, a member of the CFR.

** A letter from Frederick G. Dutton of the Department of State, dated Oct. 26, 1962, states that the Chairmanship of the U.N. Military Staff Committee rotates among its members.

As of June, 1963, these questions had yet to be resolved. Nor has there been any evidence of meaningful activity by the Military Staff Committee, as such.

Mr. Dutton, in his January 15, 1963, letter, also states:

> The accomplishments of the Military Staff Committee have been negligible because it, as well as the Security Council, has never been able to agree on the questions of the over-all strength and composition of a stand-by United Nations force.

In the concluding paragraph of Mr. Dutton's letter, he does reveal, however, that the Military Staff Committee "has met regularly on a pro forma basis, since 1948, in keeping with the spirit of the Charter."

Thus it is seen that the structure has been set up to put the United Nations world military force on an operational basis. The day may not be distant when the dormant U.N. Military Staff Committee will be ready to go into action.

The NEW YORK TIMES of April 27, 1963, carried a story entitled "U.S. Offers Plan To Bolster U.N." which bore the subtitle "High Aide's Speech Suggests Ten Ways To Strengthen Peace-keeping Role." The "high aide" referred to in the article was Richard N. Gardner, Deputy Assistant Secretary of State for International Organization Affairs, and a member of the Council on Foreign Relations. According to the NEW YORK TIMES article:

> Besides enforcement of the Charter, Mr. Gardner proposes "sensible" arrangements for future military or supervisory efforts. Mr. Gardner's other conclusions included the following: encouragement of member nations to train and earmark military forces for future United Nations assignments on the pattern of a recent decision by Denmark, Norway and Sweden to establish a 3,000-man Scandinavian army for international duty.

Then Mr. Gardner recommended "expansion of the Military Staff and headquarters in the office of U Thant, the Secretary General."

COMMUNIST TRADITIONALLY OCCUPIES KEY U.N. POST

Article 24 of the U.N. Charter states that members of the United Nations "confer on the Security Council primary responsibility for the maintenance of international peace and security."

A statement by the Office of Public Services, Bureau of Pub-

lic Affairs, Department of State, May 12, 1961, explains that "ultimate responsibility for the direction of these forces (forces assigned to the U.N. by member nations) would rest with the Security Council." The chief administrative officer of the Security Council is the Secretary General. Article 101 of the U.N. Charter gives the Secretary General power to appoint a staff for the Security Council and other departments of the U.N.

A letter by Frederick G. Dutton of the Department of State dated October 26, 1962, states that there are nineteen Under-Secretary positions or posts of equivalent rank which are attached to the U.N. Secretariat. Of the nineteen, the United States and its formal allies hold thirteen, the Soviet bloc - two, and so-called unaligned nations - four. Some of these posts are important while others are inconsequential.

Without a doubt, the most important of these U.N. cabinet posts is that of Under-Secretary of Political and Security Council Affairs.

A column by Robert Morris which appeared in the DALLAS MORNING NEWS of November 14, 1962, describes an agreement made by the U.S. State Department whereby this vital post was, immediately upon the founding of the U.N., given to a Soviet national. Robert Morris quoted from the book by Trygve Lie, former Secretary General of the United Nations, entitled "In the Cause of Peace."* Wrote Mr. Lie:

> The preservation of international peace and security was the organization's (the U.N.'s) highest responsibility, and it was to entrusting the direction of the secretariat department most concerned with this to a Soviet national that the Americans had agreed. What did the Americans want for themselves? To my surprise, they did not ask for a department concerned with comparable substantive affairs, like the economic or the social. Rather, Mr. Stettinius proposed that an American citizen be appointed Assistant Secretary General for Administrative and Financial Services.

And not only was the first Under-Secretary of Political and Security Council Affairs a Soviet national, but a representative of the Soviet bloc has always held this highly important post. This

* MacMillan Co., 1954. pages 45-46

is verified by a statement in the previously-referred-to Dutton letter of October 26, 1962 as follows:

> The Under-Secretary for the Department of Political and Security Council Affairs has always been a Soviet national, except for a period of three years, when the post was held by a Yugoslav national. This is the result of an agreement...

A statement by the Office of Public Services, Bureau of Public Affairs, Department of State, May 12, 1961, likewise confirms this fact, referring to "the national of the USSR who has traditionally occupied the post of Under-Secretary of Political and Security Council Affairs..."

Following is a list of the names of the Communists who have occupied this position. With the exception of Dragoslav Protitch, of Yugoslavia, all were nationals of the Soviet Union:

(1) Arkady A. Sobolev - April, 1946 to April 28, 1949.
(2) Constantin E. Zinchenko - April, 1949 to May, 1953.
(3) Ilya S. Tchernychev - June 30, 1953 to January, 1955.
(4) Dragoslav Protitch - January, 1955 to June, 1958.
(5) Anatoly F. Dobrynin - July 1, 1958 to May, 1960.
(6) Georgy P. Arkadev - May, 1960 to 1962.
(7) Evgeny D. Kiselev - 1962 to April 17, 1963.
(8) Vladimir Pavlovich Suslov - May 22, 1963

ADDITIONAL EXAMPLES OF CFR INFLUENCE

In passing, it is perhaps worthy of note that one of the aims of the Council on Foreign Relations is to increase the authority or strength of the United Nations. It is not surprising, therefore, that of the five persons nominated* in 1963 as representatives of the United States to the Fourth Special Session of the General Assembly of the United Nations, four are members of the Council on Foreign Relations. The CFR members to represent the U.S. at the U.N. are: Adlai E. Stevenson; Frances T. P. Plimpton; Charles W. Yost, and Jonathan B. Bingham.

Also the CFR managed to promote its internationalist views by

* CONGRESSIONAL RECORD, May 2, 1963.

exerting its influence on the political platforms of both the Democrat and Republican parties in 1960. As a result, the Republican platform, adopted July 27, 1960, in Chicago stated:

> We will continue to support and strengthen the United Nations...

The platform adopted by the Democrat Party at Los Angeles July 12, 1960, declared:

> Through the machinery of the United Nations, we shall work for disarmament, the establishment of an international police force...

WHAT A U.N. WORLD POLICE FORCE WOULD MEAN TO THE U.S.

The syndicated columnist, Thurman Sensing has pointed out that:

> The United Nations today is a motley crew of 111 nations, the overwhelming majority of which are unfriendly to or distrustful of the United States. Many of these countries are Soviet satellites, or allied to Russia. Others, like India, Ghana, Morocco, Ceylon, etc., are neutralists that invariably favor the Soviet Union or Red China when there is a dispute involving the U.S. Only a small bloc of countries in the U.N. are still good friends of the American Republic. So if a U.N. Peace Force were created, that military force unquestionably would be dominated by countries that have no love for the United States.

How can anyone advocate that the U.S. Strategic Air Command, and the Atlantic and Pacific fleet units be turned over to the United Nations under such circumstances? If all nations, as called for under Kennedy's Disarmament Treaty Proposal, relinquish their arms to the United Nations, the U.N. would then have all the world's armaments, and would be the sole judge of what is right or wrong. Any disagreement with decisions of the all-powerful U.N. would be immediately met with force and stamped out.

The prevailing force in the United Nations is atheistic. It has no background in common law, in spiritual heritage or in basic justice. Yet this is the force which the proposed Disarmament

Treaty would elevate to supremacy over the United States of America - all in the purported interest of World Peace.

The SHREVEPORT TIMES, in an editorial on April 21, 1963, points out that if the disarmament scheme is ratified as a treaty, it would turn America into a virtual United Nations zone of occupation. The U.S. would become a mere province of the United Nations. U.N. troops would occupy our ports, railway centers, major highways and air bases. Such U.N. military forces might or might not be made up of Americans - most likely not. The commander himself would undoubtedly not be an American.

An example of the type of treatment which American citizens would suffer at the hands of a U.N. "peace force" was frighteningly illustrated by the barbaric conduct of the U.N. "peace forces" which subdued anti-Communist Katanga. Photographs have revealed the disgraceful atrocities, pillage, wanton murder, and other heinous crimes of this so-called peace force which was turned loose on the hapless citizens of Katanga.

In this connection the INDIANAPOLIS STAR, on April 23, 1962, stressed in an editorial entitled "A Fate Worse Than War":

> The U.N. has not repudiated the uses made of its force in the Congo. On the contrary, these uses have been repeatedly endorsed as logical applications of the decisions and instructions of the United Nations. It gives us cold chills to contemplate that such a force, under such direction and supervision might roam the world supreme - unchecked and uncheckable.

And it is to set up the machinery for just such a world military force that the Kennedy Disarmament Treaty Proposal is intended!

CHAPTER XII

THE TEST BAN: SOVIET STRATEGY FOR DISARMING THE WEST

Chapter X dealt with Kennedy's proposed Disarmament Treaty which was submitted to the 17-Nation Disarmament Conference in Geneva on April 18, 1962.

Speaking on the floor of the Senate on May 17, 1963, Senator William Proxmire of Wisconsin stated that a successful nuclear test ban "could serve as a model for a future disarmament treaty."

Opposing a unilateral nuclear test ban in the face of continuing Soviet aggression, Senator Strom Thurmond of South Carolina, on June 3, 1963, declared:

> United States nuclear superiority is, and has been, the deterrent to nuclear war since the Soviets developed the atomic bomb in 1949. Neither the United States nor the world can afford to risk the loss of that deterrent by being lured into a nuclear ambush or test ban trap.

According to the Library of Congress, as of March 14, 1963, the United States has engaged in more than 400 negotiating sessions over a five-year period with the Kremlin on the subject of a nuclear test ban. In discussing these endless sessions, Congressman John M. Ashbrook of Ohio asserted:

> Without fruit or tangible progress, the only factor visible in studying these muddied waters is the increased tendency of the United States to weaken its position. Khrushchev must sit back and laugh as we soften our approach as the sessions grind on. The negotiators have made so many concessions that I feel our national security is now at stake.

In a speech before the Hawaiian Foundation for American Freedoms in Honolulu on April 8, 1963, Rear Admiral Chester Ward, USN, (Ret.) warned:

> It's a terrible gamble that we are taking. We are going to rely on trusting Russian promises instead of United States strength to insure our security.

Admiral Ward went on to charge:

> The news is being "managed" to cover Soviet gains in strength; and to cover also the diminution of United States military strength. Strategists refer to this in private as the "clandestine unilateral de facto massive nuclear disarmament of the United States."

He pointed out that for many years the United States had enjoyed a monopoly in nuclear power - that even when our nuclear monopoly was broken we still had a lead of many years in nuclear technology. Admiral Ward then asked:

> How could Khrushchev win a race against the United States in that field of competition? There is only one way in which that race could be won. Khrushchev knew he had to trick the United States into stopping, while the Soviets secretly raced ahead.
>
> The method adopted was that of the nuclear test ban agreement. After years of attempts, Khrushchev finally put over the nuclear test moratorium in 1958. It was by trapping the United States into this nuclear moratorium in 1958; it was by inducing us to stop all nuclear, technological development; it was by seducing us to sit supinely on our static stockpiles while Khrushchev's people raced ahead with the development of nuclear technology; it was by breaking the nuclear moratorium in 1961 - that Khrushchev was able to develop the strategic nuclear power which now enables him to threaten the destruction of the United States.

EISENHOWER BANS U.S. ATOM TESTING

On the floor of the U.S. Senate on August 22, 1958, Democrat Senator Hubert H. Humphrey of Minnesota, a member of the Council on Foreign Relations, exulted:

> It is not often that a legislative body, or a legislative committee, can play a significant role in initiating foreign policy.

The legislative committee to which Senator Humphrey referred was the Senate Subcommittee on Disarmament, of which he was and is a member. In the preface to a staff study of the Disarmament Subcommittee, issued in June, 1958, Humphrey wrote:

> A suspension of nuclear weapons tests would constitute a meaningful disarmament measure.

Two months later, on August 22, Republican President Eisenhower* took the advice of Democrat Senator Hubert Humphrey, and declared:

> ....The United States is prepared...to withhold further testing on its part of atomic and hydrogen weapons for a period of one year from the beginning of the negotiations....Our negotiators will be instructed and ready by October 31 this year to open negotiations with other similarly instructed negotiators.

On September 30, 1958, the Soviet Union, which had announced a test suspension on March 31, 1958, resumed its nuclear weapons tests with two new blasts. Nevertheless the State Department said the United States would go ahead with its plans to suspend nuclear tests on October 31. Therefore, undeterred by logic, reason, or facts, at midnight on October 31, 1958, Eisenhower unilaterally halted all U.S. nuclear tests for a declared period of one year, hoping that the Soviet Union would do the same.

On August 26, 1959, President Eisenhower announced a two-month extension of his one-year unilateral ban on nuclear weapons tests, which would otherwise have expired on October 31, thus bringing the test ban suspension up to the end of the year 1959.

According to the Encyclopedia Britannica "Book of the Year" covering events of 1959, the year was notable in regard to atomic energy chiefly because it was the first year since 1950 in which no nuclear weapons tests were known to have taken place anywhere in the world.

At the beginning of 1960, Eisenhower, instead of extending his previous unilateral "no-test" pledge, stated that because no satisfactory solution was yet in sight regarding test ban negotiations "we consider ourselves free to resume nuclear weapons

* Eisenhower is a member of the Council on Foreign Relations.

tests." However, despite this declaration, and despite the continuing lack of so-called success of the Geneva test ban negotiations, both the U.S.S.R. and the U.S.A. continued through 196 to refrain from launching any known atom tests.

CHRONOLOGY OF U.S. AND U.S.S.R. ATOM TESTS

On January 20, 1961, John F. Kennedy was inaugurated President of the United States. Test ban negotiations continued t drag on during the early months of 1961, with Kennedy continuin Eisenhower's policies regarding seeking an atom test ban treat with the Soviet Union. Then on September 1, 1961, the U.S Atomic Energy Commission (AEC) announced that a nuclear explosion "of substantial yield...in the intermediate range" ha been detected on that date in the atmosphere in the Semipalatins area of Central Asia.

Although the Soviet Union on September 1 had resumed atom testing in the atmosphere, when President Kennedy on Septembe 5 announced that he had ordered resumption of nuclear tests, h stated that such tests would be confined to "the laboratory an underground." On September 15, 1961, the Atomic Energy Commission announced* that a nuclear device "of low yield" (less than 20,000 tons of TNT equivalent) had been explode underground on that date in Nevada. By the end of October, three additional underground explosions of low yield also took plac in Nevada. Even though the Soviet Union continued to test in the atmosphere, it was not until November 2 that Kennedy even discussed atmospheric testing. On that date he announced:

> We shall make necessary preparations for such (atmospheric) tests so as to be ready in case it becomes necessary to conduct them.

Meanwhile, in the Arctic regions, the Soviet Union was engaged in massive atom testing operations. In the period Septem ber 1-November 4, 1961**, a total of 31 Soviet explosions wer detected by the AEC, 30 in the atmosphere, and one under water

* Encyclopedia Britannica "Book of the Year - 1962" covering events in 1961.
** ibid.

Of these tests, approximately half were described as having yields in the megaton range; that is - equal to, or larger than the explosive force contained in 1,000,000 tons of TNT (as compared with the relatively small atomic bomb which the U.S. exploded over Hiroshima, Japan, in World War II, which was only equivalent to 20,000 tons of TNT). The major Soviet atmospheric explosions in 1961, plus the underwater tests, were said to have taken place in the vicinity of the Arctic island of Novaya Zemlya; smaller atmospheric detonations took place near Semipalatinsk.

What is of particular importance is the fact that these Soviet tests included the two largest explosions ever detonated. The first, which was exploded on October 23, was estimated by the AEC to be in the range of 25 megatons (compared with an unofficially estimated yield of from 15 to 20 megatons by the largest previous nuclear explosion detonated by the U.S. in 1954). The second Soviet nuclear test, estimated in the range of 50 megatons (twice the size of previous U.S. detonations) took place on October 30, 1961. With these two tests, the Soviet Union took a giant stride toward surpassing U.S. nuclear capability.

Such nuclear explosions as detonated by the Soviet Union in 1961 necessitated extensive preparations, which obviously took place during the previous 34-month test moratorium during which time Eisenhower and Kennedy were busily engaged in dispatching their emissaries to Geneva to talk about test bans.

The beginning of the year 1962 saw more test ban meetings in Geneva while U.S.S.R. scientists digested and analyzed the results of their massive atom tests in the atmosphere during the previous year.

It was not until April 25, 1962, that the United States resumed atmospheric testing with the detonation of a nuclear device of intermediate yield, which was dropped by airplane in the vicinity of Christmas Island in the Pacific. U.S. atom tests of June 4 and June 19, 1962 in the Pacific were failures. On July 9, the United States successfully set off a thermonuclear explosion*

* The 1962 World Almanac, published by the NEW YORK WORLD TELEGRAM and THE SUN.

above Johnston Island in the Pacific Ocean. The U.S. hydrogen device had an explosive force of only about 1.4 megatons, equivalent to 1,400,000 tons of TNT. (It should be particularly noted that this was a relatively small explosion, inasmuch as the 1961 Soviet tests detonated explosions in the range from 25 to 50 megatons.)

On November 4, 1962, Kennedy announced that the U.S. had completed its current series of nuclear tests in the atmosphere, but added that "underground nuclear weapons tests, free from nuclear fallout, are continuing in Nevada." Kennedy added:

> I hope that in the next months we can conclude an effective test ban treaty so that the world can be free from all testing.

Meanwhile, as the U.S.A. was testing small yield explosions of only 1.4 megatons, the U.S. Atomic Energy Commission announced that on August 5, 1962, it had detected an atmospheric nuclear explosion by the Soviet Union over the Soviet Arctic islands test base. This explosion was estimated to have had an explosive force of 30 megatons (equivalent to 30,000,000 tons of TNT) and more than 20 times the size of U.S. explosions during its 1962 test series. During the ensuing months, the U.S.S.R. continued its test explosions, and by November 4, 1962, had conducted 31 test explosions.

On January 26, 1963, Kennedy suspended all U.S. underground nuclear tests, hoping that the move would spur lagging negotiations for a nuclear test ban. On January 31, 1963, the Soviets (having achieved their objective of stopping American nuclear testing) abruptly ended the disarmament conference. The next day, February 1, 1963, Kennedy ordered underground testing resumed.

A UPI dispatch of May 9, 1963, reported that because of deteriorating hopes for a test ban treaty, the Atomic Energy Commission had just announced that an above-ground nuclear blast was scheduled to be detonated at the Nevada test site during May, 1963. Four days later, on May 13, 1963, after preparations had been made for new nuclear testing, the White House, according to an Associated Press dispatch, "abruptly cancelled a trio of explosions at its Nevada nuclear testing site." This action, according to the AP, "followed word that President Kennedy is

studying a new note from Soviet Premier Khrushchev on test ban negotiations." The three small tests which were cancelled were in the subkiloton class - or less than the force of a blast of 1,000 tons of TNT.

Thus it is seen that while the Soviet Union is dealing in nuclear test explosions with an equivalent force of 30,000,000 tons of TNT, by 1963, the U.S. was planning tests involving a paltry 1,000 tons of TNT - and even cancelling those.

Then on June 10, 1963, apparently after receiving another communication from Khrushchev, Kennedy announced that he, Khrushchev, and British Prime Minister Harold MacMillan would send special negotiators to a high level conference in Moscow in July, 1963, in a new effort to conclude a nuclear test ban treaty. At the same time Kennedy declared an immediate ban on all United States nuclear tests in the atmosphere.

It is not surprising that on June 12, 1963, Kennedy appointed, as his chief negotiator to the July Moscow three-power test ban meeting, W. Averell Harriman, a member of the Council on Foreign Relations.

UNPUBLICIZED RESULTS OF SOVIET TESTS

In addition to the Soviet tests in 1962 which were detected and revealed by the U.S. Atomic Energy Commission, it now appears that there have been other Soviet tests which have not been publicized. Syndicated columnists Bob Allen and Paul Scott, in a column which appeared in the SHREVEPORT TIMES January 27, 1963, stated:

> Last fall Premier Khrushchev announced the Soviet would end its long series of atmospheric nuclear tests in November. Despite this widely publicized declaration, there has been no let-up in Russian tests. The latest took place January 5, 1963.
>
> Several weeks ago this column disclosed that these new Soviet tests have been most extraordinary. They include a number of ballistic missile firings, ranging from ICBM's to anti-missile missiles. In one of these tests, three IRBM's were destroyed by a single nuclear blast from the warhead of what U.S. experts believe is the latest Soviet anti-missile missile.
>
> The U.S. has had no comparable tests.

On January 30, 1963, Secretary of Defense Robert S. McNamara enunciated the second-strike defense theory saying that the United States must build a "flexible force" of strategic weapons that can absorb the first blow in a nuclear war and then hit back at Soviet military bases or cities. This strategy was first advanced by Walt W. Rostow, who maintained that a first-strike military capability, such as the U.S. Strategic Air Command, is considered "provocative" by the Soviet Union. Under the McNamara-Rostow second-strike theory America would be defended solely by second-strike forces, that is, intercontinenta' ballistic missiles in dispersed and "hardened" sites, supposedly safe from Soviet atomic attack.

The peril to the national security of the United States by thus placing all of our "defense eggs in one basket" was alarmingly disclosed in a column by Robert S. Allen and Paul Scott on May 26, 1963. Allen and Scott reported on a briefing which had just been given members of the Senate Armed Services Preparedness Subcommittee by Central Intelligence Director John McCone. In their syndicated column Allen and Scott stated:

> McCone revealed that the latest analysis of the Soviet's super-bomb tests in the Arctic last winter clearly showed that their "50 to 100 megaton warheads" are capable of inflicting crippling damage on our second-strike Minuteman and Titan II missiles, even with "near misses." Gigantic shock waves set off by only one of these Russian super-bombs could knock out the electronic connections and equipment of an entire missile complex, making it impossible to fire the missiles in that area.

And then Allen and Scott went on to declare that the CIA chief's startling estimate of Russia's grim nuclear capability punches a shattering hole in the "invulnerability theory" of McNamara's second-strike nuclear strategy.

U.S. AIDS SOVIET NUCLEAR SUPERIORITY

A UPI article of April 2, 1962, quotes chief American disarmament negotiator Arthur H. Dean as stating in Geneva:

> We are willing to overlook this (last) Soviet test series and to forego our own proposed series of tests, but only if our

security is safeguarded. This seems to me to be very reasonable.

The Soviet test series that Arthur Dean referred to was that which took place in 1961, inasmuch as the Soviet test series of 1962 did not take place until after Dean's statement. Let us examine the results of the Soviet test series that Arthur Dean, member of the Council on Foreign Relations, is "willing to overlook."

On February 8, 1963, Congressman Craig Hosmer, chairman of the Republican Conference Committee on Nuclear Testing, released a statement by Rear Admiral Chester C. Ward, USN, (Ret.)* entitled "Soviet Supremacy in Strategic Superweapons." Following are excerpts from Admiral Ward's statement:

> What really happened between 1961 and 1963 to the balance of nuclear power between the Soviet Union and the United States? Why are the results of the Soviet first test-ban-breaking test series being suppressed? Why are the results of the Soviet second series being ignored? Why are "deals" being made, concessions offered, secret sessions held? Are negotiations serving to "cover" the unilateral de facto disarmament of the United States? The press does not ask these questions - let alone answer them. Military experts - who know the answers - are muzzled. Nuclear scientists, who are largely responsible for the answers, are silent.
>
> Triple curtains of classification, complexity and credibility shroud the real answers. Everything the American people need to know somehow becomes too secret to trust you with, too complex for you to understand, or too shocking for you to believe.
>
> In 1961, the U.S. stockpile of nuclear weapons material was twice as big as Russia's. We had twice the number of nuclear warheads they did. Our warheads were more sophisticated than theirs across the entire spectrum of nuclear weaponry. Most important of all, from the strategic viewpoint, our nuclear technology was far more advanced than theirs. From each pound of nuclear material in warheads we could get twice the explosive power. That is, their yield-to-weight ratio was only half as good as ours.
>
> The Soviet test-ban-breaking series of September, 1961, enabled them to improve their nuclear explosive yield-to-weight ratio up to 1,000 per cent in the strategic and superweapon categories. From being able to get only half as much power as the U.S. did from each pound of nuclear material, they leap-frogged over us to obtain over five times more yield per pound than we had in 1961.
>
> The military significance of such a sensational gain in explosive efficiency is staggering. It's like acquiring - virtually without cost - potential nuclear explosive power priced, at U.S. standards, at some $90 billion. Khrushchev obviously is convinced this unprecedented bonanza of additional nuclear power will provide him with the overwhelming military might to conquer the world without undue risk of massive nuclear retaliation....
>
> The Soviets most probably do not have one hundred 30-megaton missiles - yet. They now have, however, the capability of producing that many very fast. This is because of the third great military advantage they secured from their nuclear test series. They can now package a 30-megaton warhead in a smaller casing, having less weight, than that of their old 5-megaton warheads. This simplifies and reduces the cost of the rocket vehicles necessary to carry them. As the missiles get lighter and smaller, it is increasingly easier to move them about and conceal them, and less expensive to protect them with concrete and steel silos. This raises the possibility of Soviet development of the so-called "bantam" missiles - small in size, easy to hide, but powerful of warhead. Persistent reports place numbers of these "bantams" in Cuba now - along with the known presence of leading Soviet missile experts.

* Admiral Ward, in addition to having been a professor of law at Georgetown University, and having served a tour of duty as Judge Advocate General of the Navy, is also an expert in international law, and has participated in numerous international conferences and conventions.

THE NEUTRON BOMB - WHY DOESN'T THE U.S. HAVE ONE?

In a lengthy article inserted in the CONGRESSIONAL RECORD of March 21, 1963, entitled "The Test Ban - An American Strategy of Gradual Self-Mutilation," Professor Stefan T. Possony*

* Professor Possony is director of the international political studies program of the Hoover Institute, Stanford University, California.

stated:

> If the United States were to sign a test ban treaty, it would ipso facto renounce the development of the neutron bomb. As matters stand today, our neutron development proceeds at a pace slower than necessary or prudent.

Professor Possony then goes on to reveal that the Soviet Union has "known about the neutron bomb design principles for at least 11 years." He explains:

> The term "neutron bomb" refers to the fact that unlike fission and fission-fusion bombs, which produce mostly heat and blast, the energy released from the fusion of the heavy hydrogen isotopes will be largely in the form of neutrons.... The neutron weapon kills people and, except in the area of immediate impact, does not destroy equipment, installations, or housing....Let us for a moment suppose that the Soviets have neutron weapons and we do not....The use of neutron devices by the Soviets would allow them to conquer Europe pretty much intact.

Stefan Possony quoted the admonition of Professor Freeman Dyson, who said:

> Any country which renounces for itself the development of nuclear weapons without certain knowledge that its opponents had done the same is likely to find itself in the position of the Polish Army in 1939, fighting tanks with horses.

Some experts believe that one of the purposes of the 1961 atom tests by the Soviet Union was to further develop the neutron bomb. Possony also pointed out that any so-called control system in a test ban "would be entirely ineffective in preventing the Soviets from developing the neutron weapon through clandestine testing."

THE COMMITTEE OF PRINCIPALS

Since 1958 in the course of hundreds of test ban conferences, the United States has backed down on every major point.

Who are the behind-the-scenes masterminds who form the command post which directs the activities of the disarmament negotiators at Geneva and elsewhere? What group gives final clearance to each new concession to be offered to the Soviet

Union? The identity of this shadowy clique which, in effect, could be considered a super-government, was unwittingly revealed by the Left-Wing extremist, Senator Joseph Clark of Pennsylvania, on the floor of the Senate, May 17, 1963. According to Senator Clark, there now exists a Committee of Principals acting on disarmament matters. The Committee of Principals consists of the Secretary of State (Dean Rusk*); the Secretary of Defense; Director of the Central Intelligence Agency (John A. McCone*); chairman of the Atomic Energy Commission; and the Director of the Arms Control and Disarmament Agency (William C. Foster*). The Committee of Principals also includes Mr. Jerome Wiesner*, and Mr. McGeorge Bundy*, the President's two principal advisors in the fields of scientific affairs and foreign affairs.

Senator Clark then went on to state that at the meeting last August to approve further concessions to the Soviet Union at Geneva, there were also in attendance General L. L. Lemnitzer*, then chairman of the Joint Chiefs of Staff, and General Maxwell Taylor*, then the principal military advisor of the President.

U.S. CONCESSIONS DURING TEST BAN NEGOTIATIONS

Following is a breakdown of U.S. concessions to the Soviet Union, the most extreme of which were approved by this inner circle Committee of Principals, dominated by members of the Council on Foreign Relations:

	Number of On-Site Inspections
Initial U.S. Position, Geneva, 1958:	Right to inspect all seismic events of undetermined origin above five kilotons.
February, 1960:	Only 20 on-site inspections per annum of the territory of each of the

* Rusk, McCone, Foster, Bundy, Wiesner, and Generals Lemnitzer and Taylor are members of the Council on Foreign Relations.

	nuclear powers, no matter how many seismic events.
December, 1962:	Only 8 to 10 on-site inspections per annum.
March, 1963:	Only 7 on-site inspections per annum.

As of early June, 1963, the Soviet Union's position was that it would accept the principle of no more than two or three on-site inspections per year. The official U.S. position, as of early June, 1963, was that the U.S. requested seven on-site inspections. However, it was pointed out on the floor of the Senate on February 21 that during the period February 13-19, 1963, leaks to the press indicated that the U.S. was willing to compromise on five on-site inspections per year.

On April 8, 1963, the syndicated columnist, Fulton Lewis, Jr., revealed that Senator Carl Curtis had noticed a dispatch in the BALTIMORE SUN during March, datelined Geneva, in which Semyon Tsarapkin, chief Soviet disarmament negotiator was quoted. According to Mr. Lewis, "Tsarapkin said it was the United States, not the Soviet Union, which originally offered to settle the test ban impasse by agreeing to only three on-site inspections a year. Senator Curtis pointed out that a limit of three on-site inspections would leave us at the mercy of Soviet scientists who could test to their clandestine heart's content."

Wading through the "Second Annual Report" of the Arms Control and Disarmament Agency, Senator Curtis found that Appendix III of that document contained the draft treaty submitted to the Soviet Union by the U.S. at Geneva August 27, 1962 (and approved by the Committee of Principals.) Article 8, page 8 of that proposed treaty contained the following statement:

> The maximum number of inspections which may be requested in territory under the jurisdiction or control of a permanent member of the commission shall be three in each annual period.

And what did the Disarmament Agency do when confronted with

this information which belied the official U.S. position of seven on-site inspections? The Disarmament Agency issued a statement correcting what they claimed was a "misprint," claiming that the paragraph, rather than containing the figure "three," should have contained a blank space! Commenting on this chicanery, the ROCKFORD (Ill.) REGISTER-REPUBLIC of April 10, 1963, commented:

> We don't happen to think it was a typographical error at all. Instead it smacks of a deliberate attempt to mislead the American people, while our leaders are following a path of appeasement in efforts to reach any kind of a test ban treaty. We believe it's time for a full-scale investigation into the kind of deals which the American disarmament team really have offered the Russians.

Although the Disarmanent Agency attempted to gloss over this slip-up, the fact that the United States intends to retreat from its position of seven on-site inspections to (most likely) three on-site inspections, is evident from a statement made by President Kennedy on May 8, 1963, when he commented:

> There doesn't seem to be any sense of movement since December on the offer of two or three (inspections) that the Soviets have made...We have, as you know, reduced our requirements. We have indicated a willingness to negotiate further.

It is obvious, therefore, that when the U.S. makes the final concession of agreeing to three on-site inspections, thereby meeting, to all intents and purposes, the Soviet offer of two to three on-site inspections, a test ban treaty will be signed and submitted to the U.S. Senate for ratification.

Inspection Network

Initial position, Geneva, 1958:	Original American estimate called for a world-wide network of 600 to 650 monitoring stations.

After endless negotiations and concessions, the formula finally agreed upon with Russian scientists at Geneva called for 180 stations world-wide, of which only 19 were to be in the territory

of the Soviet Union.

On January 24, 1963, Congressman Craig Hosmer revealed:

> "Now the international network has been abandoned. Instead, a system whereby cheaters would be expected voluntarily to submit seismic evidence of their crimes is under discussion.

Manning of Inspection Stations

Initial position of the U.S. at Geneva, 1958, was that monitoring stations were to be manned by non-nationals of countries in which they were to be located, i.e., international inspection.

However, according to Congressman Craig Hosmer, on January 24, 1963, this provision has also been abandoned, and now only three un-manned tamper-prone "black box" seismic devices for the entire Soviet Union are within Khrushchev's terms. Even these would be shuttled back and forth by Soviet airplanes and installed by Soviet personnel.

An indication of the enormity of the concessions which have been made to the Soviet Union by the United States was also revealed by Congressman Hosmer on January 24, when he stated:

> Then (1958) the (on-site) inspections were to be at the independent initiative of an international control commission. Now the discussions revolve around a scheme which contemplates inspection only at the "invitation" of the suspected cheater, a highly unlikely occurrence, unless the cheater decides early in the year to use up the maximum allowed inspections on wild-goose chases, then to safely proceed with his perfidy for the remainder of the year.
>
> Then (in 1958) inspections were to be at any suspected location, wheresoever. Now, inspection teams can be restricted or completely denied entry into suspicious areas on grounds of "danger to the security interests" of the U.S.S.R. Teams would travel on Soviet airplanes, piloted by Soviet crews and, according to Khrushchev, further be restricted by "screening of windows in the planes, prohibitions to carrying photo cameras, etc."

Corroborating Congressman Hosmer's statement regarding the abandonment of monitoring stations located within the Soviet Union, a UPI dispatch of March 4, 1963, referring to a new test ban treaty being prepared in Washington at that time, stated:

> U.S. State Department sources said last week the new treaty places "primary reliance" for verifying a test ban treaty on monitoring stations placed outside Russian territory.

DELIBERATE DISTORTIONS AND UNTRUTHS BY THE TEST BAN PROMOTERS

According to Congressman Craig Hosmer, it was presidential assistant McGeorge Bundy* who prevailed upon Deputy Secretary of Defense Roswell Gilpatric* to issue a press release on progress made by scientists of the Advance Research Projects Agency. The press release, dated July 7, 1962, was widely interpreted in the non-scientific press to mean that "new technological data" had been uncovered to indicate that on-site inspection was not needed to police a test ban.

According to a UPI dispatch of March 6, 1963:

> Defense Department scientists Tuesday reported gradual improvement in detection of underground nuclear tests. But they conceded under intensive questioning that there is no certainty of catching a cheater - even with on-site inspection.

The promoters of the test ban treaty, such as William C. Foster,* McGeorge Bundy,* Dean Rusk,* Senator Hubert Humphrey,* Roswell Gilpatric* et al, are apparently having some difficulty lining up reputable scientists to back up their position regarding so-called safeguards in a test ban treaty. Senators Humphrey and Clark, did, however, manage to round up one Dr. Harold Brown, the man presently in charge of all Defense Department research and engineering programs, to disagree with Congressman Hosmer's charges. Dr. Brown, according to a letter sent to all members of the House and Senate by Senators Humphrey and Clark, has stated:

> ...No part of the Soviet Union is unseen by our seismic stations outside the Soviet Union.

---

* Foster, Bundy, Rusk, Humphrey and Gilpatric are CFR members.

Dr. Brown is obviously unaware of the fact that, according to an article by Richard J. Barnet which appeared in "Arms and Arms Control":*

> A.A. Blagonravov, one of the Soviet delegates to the (1960) Pugwash Conference in Moscow, and vice president of the Soviet Committee on Space Research, recently had this to say about devices for detecting missile launchings: "It is not unlikely that at some time it will be possible to detect missile launchings. But it should also be remembered that every new military invention leads to a counter-invention, and it can safely be said that much research is being and will be conducted to paralyze any possible detection system."

PROOF OF IMPOSSIBILITY OF A "SAFE" TEST BAN TREATY

All promoters of a nuclear test ban piously proclaim that they are for a test ban only if effective inspection procedures are a part of the test ban treaty. Following is testimony from scientific authorities proving the impossibility of a truly effective inspection system in view of the concessions the United States has now made to the Soviet Union.

On April 24, 1963, Congressman Craig Hosmer, ranking Republican member of the Joint Committee on Atomic Energy, remarked, in discussing the proposed seven on-site inspections:

> The ridiculous absurdity of this token number of inspections is best grasped when it is realized that the Soviet Union spreads across two continents, contains one-sixteenth of the world's land mass, and occupies eight and one-half million square miles.

The Defense Department's top seismologist, Dr. Carl Romney, testified, according to Congressman Hosmer, that the capability of seismologists to record intelligible data is physically limited by natural earth background noise, which occurs everywhere. The seismic network which will rely on seismic observations outside the Soviet Union will be expected to identify suspicious earth tremors which could become candidates for on-site inspection. However, some 400 such earthquakes occur annually in the U.S.S.R.

* A symposium edited by Ernest W. Lefever. Frederick A. Praeger, Inc., publisher, 1962.

In a statement issued on March 18, 1963, Congressman Hosmer discussed what he termed "the big hole," which he described as being "simply underground tests far enough inside Soviet borders to produce seismic signals outside those borders smaller in size than the three kiloton seismic signal threshhold of nondetectability." Then Congressman Hosmer went on to say:

> This can be done either by limiting actual explosions to less than three kilotons, or, if larger ones are desired, firing them in an underground cavity. This "de-couples" blast from surrounding earth, thereby shrinking the size of the earth signal to a level below the threshhold. Tests under these conditions - just sixteen to twenty miles inside the Soviet border - cannot be detected outside the Iron Curtain.

An editorial dated December 4, 1962, in the DALLAS MORNING NEWS discussed U.S. concessions concerning the number of inspection stations required, as follows:

> It was claimed that we could now distinguish between underground nuclear explosions and natural earthquakes; therefore on-site inspections were unnecessary. The claim, however, proved to be entirely false. Some advances have been made, but nothing conclusive has been achieved. Ambassador Dean was forced to admit as much two months ago. The Associated Press reported him as saying: "So far there is no way for scientists to tell a conventional quake from an underground nuclear shock except by on-site inspection."

Professor Stefan T. Possony of the Hoover Institute, in his previously quoted article points out:

> The capability to detect space shots at present is strictly circumscribed....Space is very large and the probability of detection obviously depends on the distance of the control vehicle from the explosion, the yield of that explosion, and environmental conditions....It is generally admitted that the detection of underground shots is most difficult, and in many ways a matter of chance....
>
> Take, for example, atmosphere shots fired by submarines at sea. Suppose that the exact location of the explosion can be

> determined. If the inspectors were to go to the place of the explosion, it would be impossible for them to find any evidence: they would find the ocean in the same shape that an ocean is always found ....
>
> With respect to the verification of underground shots, the situation is that in order to get at the radioactive debris caused by an underground nuclear explosion, the location of the presumed event must be pinpointed with extraordinary accuracy. All kinds of fascinating calculations can be made to determine the probable number of man-days required digging and drilling until the debris is actually discovered.

On March 7, 1963, Major General A. W. Betts, Director of Military Applications of the Atomic Energy Commission, testified before the Joint Committee on Atomic Energy. General Betts declared that the following could be developed by cheat-testing in low yield ranges below which neither individual tests nor a whole series of them could even be detected by any seismic detection system, let alone identified or located:

(1) Relatively low-yield weapons of the tactical type;

(2) Higher yield tactical weapons up to a much larger yield (by extrapolation) - "almost any tactical weapon one has in mind" - with such confidence that proof testing of the weapon would not be required;

(3) A substantial fraction of required large yield strategic weapons required by a country if the cheater tests clandestinely using "de-coupling" techniques (i.e., tests in an underground cavity.)

Thus, Kennedy's proposed test ban treaty would forego U.S. testing and advances in all such weapons categories, and simply trust the Soviets not to carry on undetectable tests and secretly develop nuclear weapons of vast military significance.

SOVIET ATTITUDE TOWARD TREATIES

Chapter I of the United Nations Charter states that one of the purposes of the United Nations is "to maintain international peace and security...in conformity with the principles of justice and international law."

The U.N. Charter was a treaty and, as such, was signed by the

Soviet Union. Since the signing of that treaty, the U.S.S.R. has violated the U.N. Charter on a number of occasions - most notably, its bloody suppression of the Hungarian Freedom Fighters, and more recently, its take-over of Cuba and the establishment of a Soviet missile base on that island threatening the national security of the United States. Because the Soviet Union has so flagrantly violated the treaty constituting the United Nations, how can President Kennedy and the other disarmament promoters reasonably expect that the U.S.S.R. would abide by any test ban treaty or disarmament treaty which U.S. negotiators may, after countless U.S. concessions, prevail upon the Communists to sign?

On March 18, 1963, Congressman Craig Hosmer, discussing the probability of violation of any test ban treaty which might be signed by the Soviet Union, said:

> Under it, the Soviet government still could keep top-flight Soviet scientists secretly at work in Iron Curtain countries for many years devising the weapons which would give it nuclear superiority. Whereupon that government could wantonly abrogate the treaty and provide those scientists sudden opportunity to test their work.

The cynical attitude of the Soviet Union regarding treaties and/or laws was pointed out by Willard Edwards in his column in the CHICAGO TRIBUNE of June 18, 1962, when he wrote:

> One expert recalled the sardonic comment made by the late Andrei Y. Vishinsky, Soviet delegate to the United Nations. He once told the U.N. "What laws? We make our own. We do not abide by bourgeoisie laws."

Vishinsky was indeed correct. Article 49 of the constitution of the U.S.S.R. delineates the powers of the Presidium of the Supreme Soviet (committee) of the U.S.S.R. Commenting on this article in the Communist constitution, Robert LeFevre, in his book "Constitutional Government Today in Soviet Russia,"* stated:

---

* Exposition Press, Inc., 386 Park Avenue South, New York 16, N.Y. $4.00.

> The Presidium has virtually total power....The Presidium contains thirty-three men: a president, a secretary, sixteen vice-presidents, and fifteen members at large. The president has little more power than any of the other members of the Presidium....Any man in the Presidium able to bring a majority (of the thirty-three men) into line with his thinking and his actions could (and would) dominate the entire Soviet Union.

Section (o) of Article 49 of the constitution of the U.S.S.R. states that the Presidium "ratifies and denounces international treaties of the U.S.S.R." In other words, the constitution of Communist Russia clearly states that the thirty-three men of the Presidium have the power to denounce or abrogate any treaty previously made in the name of the Soviet Union. Such abrogation of a test ban or a disarmament treaty would not necessarily be done publicly. The Soviet Union could merely break the treaty, resume clandestine nuclear testing and neglect to inform the United States that it had taken such action.

Perhaps Lenin summed up the Soviet attitude toward treaties more succinctly than any other Communist when he stated: "Promises are like piecrusts - made to be broken." In March, 1959, Khrushchev reflected the same cynical and degenerate moral code at the Leipzig Fair when he stated: "You should not take too seriously the treaties made with the Imperialists. Lenin, too, signed a treaty after World War I that remained valid only so long as it proved necessary."

And it is this man, Khrushchev, that the Kennedy Administration is beseeching to sign a test ban treaty with the United States! In the hope thereof - on June 10, 1963, Kennedy announced that the United States "does not propose to conduct nuclear tests in the atmosphere, so long as other states (nations) do not do so."

KENNEDY ECHOES THE ROSTOW "ACCOMMODATION" LINE

It will be recalled that Chapter VI, entitled "The Rostow-Moscow Axis," dealt with the Rostow papers. On June 13, 1963, Senator Strom Thurmond of South Carolina, on the floor of the Senate, discussed Kennedy's speech of June 10 in which Kennedy proclaimed another unilateral atom test ban for atmospheric tests. Discussing Kennedy's speech, Senator Thurmond declared:

> There have been many calls in the Congress for the Administration to make known to the Congress and to the public exactly what is the foreign policy of the United States. We have heard demands that the infamous and illusive Rostow policy paper be released to the public. Well, now we have it; for in his speech the President has set forth the U.S. foreign policy, and, for all intents and purposes, he has consistently and articulately pronounced as official the tenets of the Rostow policy paper.

Senator Thurmond then went on to quote the following statement by Kennedy on June 10:

> And if we cannot end our differences (with the Soviet Union), at least we can help to make the world safe for diversity.

To which Senator Thurmond countered:

> I, for one, am not interested in making the world safe for a diversity from Freedom. Communist rule and Communist terror are a diversity which should never be safe, and it is indeed tragic that our foreign policy would be directed toward "making safe" the conquests and dominations by Communist dictators.

Then Senator Thurmond went on to state:

> If Americans wonder why a Communist military bastion has been permitted in Cuba, and under U.S. policy will continue to be tolerated in Cuba, they have only to refer to the President's statement (on June 10): "Above all, while always defending our vital interests, nuclear powers must avert those confrontations which present an adversary with the choice of either a humiliating retreat or a nuclear war."

Amplifying Kennedy's statement Senator Thurmond pointed out:

> The President is contemplating a one-way street. This is precisely the choice the Soviets sought to present to the United States by introducing nuclear ballistic missiles into Cuba.

Senator Thurmond then went on to discuss Kennedy's statement wherein the President said he was declaring a moratorium on nuclear testing in order "to make clear our good faith and solemn convictions on the matter."

In this regard, Senator Thurmond declared:

> We have had experience with a test moratorium with the Soviet Union, and in view of that experience and the Soviet duplicity which resulted, the United States has no reason - nor is it the proper party - to engage in an act to demonstrate "good faith." Indeed a unilateral moratorium at this point does not demonstrate good faith - it demonstrates gross gullibility.

THURMOND URGES RENEWED ATOM TESTING

In his Senate speech of June 13, Senator Thurmond stressed:

> The United States needs to conduct nuclear tests in the atmosphere now, to provide our nation with an effective defense against Soviet intercontinental ballistic missiles; to provide our nation with a certain capability to penetrate a Soviet missile defense employing nuclear warheads;...and to develop specialized nuclear warheads to defend our Nation against satellite bombs and other terror weapons with which the Free World has been threatened.
>
> Real peace can be maintained only if the United States succeeds in keeping a strategic military superiority to the Soviets. This superiority we are in danger of losing; and under the U.S. foreign policy pronounced on June 10, we will surely lose strategic superiority.

Senator Thurmond then quoted Dr. Edward Teller, father of the hydrogen bomb, who has stated that the proposed test ban treaty "would endanger our security and help the Soviet Union in its plan to conquer the world." At this point, Senator Thurmond stated that "all of the members of the Joint Chiefs of Staff are on record as being opposed to the current proposal of the United States for a test ban treaty."

As of June, 1963, the period of paving the way for accommodation to the Soviet Union which, as has been shown, has had the support of both Republican and Democrat administrations, drew to a close. The stage was set for the final assault on the national security of this Nation with the introduction of a resolution in the Senate, the purpose of which was to prepare the way for the ultimate and complete disarmament of the United States.

CHAPTER XIII

CONGRESS MUST PROTECT U. S. NATIONAL SOVEREIGNTY

On May 12, 1960, Senator Thomas J. Dodd of Connecticut, in a speech entitled "The Eight Fallacies of the Nuclear Test Ban," began to build the public image that he opposed a ban on nuclear testing. Maintaining this posture, Senator Dodd, on February 21, 1963, in a speech entitled "The Nuclear Test Ban Negotiations and the Quest for Peace," outlined the numerous concessions that the United States had made to the Soviet negotiators. By his careful documentation, Senator Dodd created the impression in the minds of some Conservative newspaper editors that he was not only an expert on the dangers of signing a test ban with the Soviet Union, but was one of the leading Senatorial opponents of such a test ban.

On March 1, 1963, in a letter to the WASHINGTON POST, Senator Dodd wrote:

> I do contend that the test ban policy pursued in good faith by both administrations has already cost us our nuclear superiority over the Soviets, and will gravely imperil our security unless soon revised.

Having gained the confidence of some Conservatives in the nation that he was an authority on such matters, Senator Dodd was ready for his next move, which was revealed in an Associated Press dispatch on May 28, 1963, which stated:

> Washington (AP) -- Thirty-three senators - virtually one-third of the Senate members - joined Monday in proposing

> (S. Res. 148) that the United States offer Russia a treaty banning nuclear tests in the atmosphere and under water.
>
> The movement to seek a halt to contamination of the atmosphere and the oceans was led by Sens. Thomas J. Dodd of Connecticut and Hubert H. Humphrey of Minnesota, two Democrats who have differed sharply in the past over nuclear test ban proposals. Joining them as co-sponsors of a resolution introduced by Dodd were twenty-five other Democrats and six Republicans.
>
> Sen. Jacob K. Javits, of New York, one of the Republican signers, said he hopes the Senate would close ranks behind the proposal....

According to the AP dispatch, Senator Frank Church of Idaho "said Dodd had completely dispelled any feeling that he opposes a comprehensive test ban treaty."

What brought about this "quick switch" on the part of the erstwhile test ban opponent, Senator Dodd? Could it have been overwhelming pressure exerted by the Council on Foreign Relations? It is significant that of the thirty-four* Senators co-sponsoring Dodd's resolution, Hubert H. Humphrey, of Minnesota, Gale W. McGee of Wyoming, and Jacob K. Javits of New York are members of the Communist-accommodating Council on Foreign Relations.

In opposing the Dodd Resolution, Senator Strom Thurmond of South Carolina stated on May 27:

> I am convinced that under this proposal the Soviets could cheat with impunity to the very substantial detriment of the United States defense posture.

---

* S. Res. 148, sponsored by Senator Dodd was co-sponsored by Democrat Senators Bartlett, Brewster, Burdick, Church, Clark, Douglas, Engle, Gruening, Hart, Humphrey, Inouye, Kefauver, Lausche, McCarthy, McGee, McGovern, Metcalf, Morse, Moss, Muskie, Neuberger, Pell, Randolph, Ribicoff, Sparkman, and Yarborough and by Republican Senators Case, Dominick, Javits, Keating, Prouty and Scott. (Sen. Hartke, a Democrat, also co-sponsored S. Res. 148, but was not included in the AP report.)

On June 11, 1963, the highly reliable syndicated columnists Robert Allen and Paul Scott revealed:

> President Kennedy is ready to announce a UNILATERAL ban on nuclear weapons tests in the air and under water if and when the Senate approves the resolution sponsored by thirty-four Senators calling for such action. (Emphasis added.)

Disarmament promoters frequently reiterate that an official nuclear test ban, whether achieved by unilateral action on the part of the United States or via ratification of a treaty by the Senate, is a first and necessary step toward complete disarmament.

In his June 10, 1963 speech, President Kennedy emphasized:

> Our primary long-range interest in Geneva is general and complete disarmament....It has been urgently sought by the past three administrations.

On March 7, 1963, Senator Hubert Humphrey of Minnesota stated:

> Because disarmament and a test ban treaty are matters of the national interest, they are not an appropriate subject of highly partisan debate....The bi-partisan approach to vital questions of foreign policy is based on our recognition of the fact that when partisan controversies are permitted to divide us in the face of a resolute adversary, only the adversary can profit.

Thus Senator Humphrey proposes, by making disarmament a "bi-partisan issue" to stifle all public opposition. When Humphrey speaks of "dividing us," he reveals his fear that the United States will be "divided" into those who wish to surrender to the Soviet Union, and those who wish to defend the national security of the United States!

Professor Stefan T. Possony of the Hoover Institute has said that "The ultimate victory of Communism necessitates the elimination of the United States as a nuclear power, preferably through surrender, but through nuclear war if otherwise unobtainable."

The Soviet Union is irrevocably committed to world conquest. If the present policies of craven appeasement of Communism

as exemplified in the test ban and disarmament proposals are permitted by the American people to continue, the day may not be far distant when the Soviet Union, having achieved a position of nuclear supremacy, will be ready to hurl the final ultimatum to the United States of America: "Surrender or die!"

SENATOR THURMOND'S RESOLUTION

There is only one way to avoid the collision-course with disaster on which the United States is now headed, and that is to regain our nuclear superiority. Under the Constitution the power to defend this Nation, when such a duty has been relinquished by the President, then rests with Congress.

On June 13, 1963, Senator Strom Thurmond of South Carolina rose to his feet on the floor of the Senate and declared:

> The Senate has a responsibility to the American people to assure, among other things, that our security and rights are not imperiled by a treaty.

Senator Thurmond went on to urge that it be made clear in advance of any negotiations "that the Senate would not under any circumstances ratify a treaty which would jeopardize the security of the Nation." He then introduced his resolution to provide this protection.

The Thurmond Resolution (S.Res. 163)* is worded, in part, as follows:

> WHEREAS, the Union of Soviet Socialist Republics in 1961 unilaterally breached the moratorium on nuclear testing, having made secret preparations for nuclear testing while pretending to negotiate in good faith with the United States and other nations to end nuclear testing; and....
>
> WHEREAS, because of the progress made by the Union of Soviet Socialist Republics in the field of nuclear weaponry, it is vital to the security of the United States and the Free World that the United States engage in nuclear testing in the atmosphere and other mediums, in order: (1) to provide our Nation with an effective defense against Soviet intercontinental and submarine-launched ballistic missiles; (2) to provide our Nation with a certain capability to penetrate a Soviet missile defense employing nuclear warheads; (3) to assure the immunity of our second-strike missile systems to a surprise enemy nuclear attack; (4) to develop specialized nuclear warheads to defend our Nation against satellite bombs and other terror weapons with which the Free World has been threatened; and....
>
> WHEREAS, the present and foreseeable state of the art of detection of clandestine nuclear tests underground, in the atmosphere, and in space is such that it is scientifically impossible to detect and identify clandestine nuclear tests of certain magnitudes;....

* For complete text, see CONGRESSIONAL RECORD, June 13, 1963, pp. 10214-10215, or write Sen. Thurmond's office for a copy.

In view of the foregoing, Senator Thurmond's resolution asks that it be declared the sense of the Senate:

(1) That the U.S. should resume nuclear testing in the atmosphere and in all other mediums at the earliest date at which preparations for such tests can be completed;

(2) That negotiations with other nations seeking an end to nuclear testing be immediately suspended until a new series of nuclear tests have been completed by the United States;

(3) That negotiations not be resumed --

(a) until and unless the United States is assured beyond a reasonable doubt that in the absence of further nuclear testing by any nation, the United States can maintain a clear nuclear superiority, and

(b) until the U.S.S.R. has demonstrated that it has renounced its goal of world domination and its attempts to achieve a superiority in nuclear weaponry with which to implement that goal.

CHAPTER XIV

WHAT YOU CAN DO

The national security of the United States of America will continue to be in great jeopardy until, as outlined in the Thurmond Resolution, the U.S. regains certain nuclear superiority, and all negotiations are broken off regarding a Test Ban or Disarmament Treaty with America's mortal enemy, the Soviet Union.

Abraham Lincoln once said that this is a government "of the people, by the people, and for the people." The United States was established as a nation of laws, not of men, under a duly ratified Constitution. Every citizen of this country has a sacred duty to see to it that this nation remains a Constitutional Republic, with its national sovereignty intact.

The elected members of Congress are the representatives of the people. However, with growing centralization of power in the Executive branch of Government, Congress is under increasing pressure from the White House to implement the legislative aims of the administration in power rather than to represent the people.

At the same time, by 1963 a force in opposition to the increasingly all-powerful Executive branch had come into being. This was and is a groundswell of pressure by voters on their Congressmen demanding that the trend toward a Socialist Welfare State be halted; and that Congress reverse the soft-on-Communism policies established by previous administrations, with the concurrence of previous Congresses.

The year 1960 saw the publication of tne first index in which

the voting records of Congressmen and Senators were analyzed to determine the extent of their Conservatism. In many cases voters, during the next two years, were made aware for the first time of how their Congressmen actually voted on specific issues. As a result, marked changes became apparent in the voting patterns of Congress as Congressmen and Senators reacted to Conservative pressure from the "grass roots."

For example, the CSA Voting Index for 1961 and for 1962*, published by the Conservative Society of America, which considered votes on key issues, revealed the following information:

COMPARATIVE CONSERVATISM OF CONGRESS 1961 - 1962
(Source: CSA Voting Index)

	U. S. SENATE		U. S. HOUSE OF REPRESENTATIVES	
	1961	1962	1961	1962
Members receiving a 100% Conservative Rating	2	4	5	22
Members receiving a 70-100% Conservative Rating	11	20	38	107

If the definite trend toward Conservatism illustrated in the above table is increased through the redoubled efforts of Conservatives throughout the country it can have only one result: eventual control of Congress by those dedicated to Conservative, Constitutional principles.**

* The CSA Voting Index covering key votes in the 1962 Session of Congress, plus analysis and statistical tables, is available from The Conservative Society of America. Price: $2.00.

** For detailed suggestions and organizational plans telling how to elect Conservatives to Congress, see The Conservative Political Action Handbook, published by the Conservative Society of America, P. O. Box 4254, New Orleans 18, La. $2.00.

The plans of the disarmament promoters, spearheaded by members of the Communist-accommodating Council on Foreign Relations in high places in Government can be decisively defeated if you and others who wish to protect and preserve the national security of the United States will let your Congressman and Senators know how you feel on the vital issues of a Nuclear Test Ban and Disarmament.

Here are a few suggestions as to what you can do to help spark a nationwide demand that the Congress assert its constitutional duty to "provide for the common defense" of the United States:

(1) Write or telegraph Senator Strom Thurmond, Senate Office Building, Washington 25, D.C., pledging your support to his resolution, S. Res. 163.

(2) Write or telegraph Senator John Stennis, chairman of the Senate Armed Services Committee, Senate Office Building, Washington 25, D.C., telling him you support Thurmond's resolution.

(3) Write your two Senators giving your views on the proposed Test Ban Treaty and the proposed Disarmament Treaty and urge their support of Thurmond's Resolution (S. Res. 163.)

(4) As you will recall, in Chapter IX it was brought out that an interpretation of Section (33) of the Arms Control and Disarmament Agency Act holds that an executive agreement regarding a Nuclear Test Ban or Disarmament could be put into effect by a mere majority vote of both Houses of Congress. Therefore, write your Congressman demanding that he vote against any such legislation leading to an official Test Ban and/or Disarmament.

(5) On February 7, 1963, Congressman James B. Utt of California introduced a bill to abolish the Arms Control and Disarmament Agency. Write your Congressman and two Senators stating your support for Congressman Utt's bill H. R. 3613. For documented background material on why the Disarmament Agency should be abolished, see Chapter IX.

(6) Urge your friends, neighbors, club members, members of civic clubs, anti-Communist study groups, etc., to write letters and telegrams to their Congressmen and Senators in line with

the above suggestions. You may also wish to have your club or organization draw up a resolution in support of Senator Thurmond's and Congressman Utt's bills.

(7) Write letters to the editors of your local newspaper using the documented facts contained in this book so that thousands of readers in your community will have the facts proving that Disarmament is a Blueprint for Surrender.

* * * * *

As Congressman Craig Hosmer said on March 18, 1963:

> Only demands by an aware, aroused American people can reverse the Administration's sure-lose test ban strategy of gradual nuclear self-mutilation.

Dr. Frederick Brown Harris, chaplain of the U.S. Senate, has said:

> Those who cry "peace, peace" when there is no peace would have us lower our shield even when poisoned arrows of subversive tyranny are being aimed at the heart of Freedom....Those whose deadly sophistries would lead directly either to war or surrender are called peacemakers.
> (However) those who keep America strong for the new D-day now upon us are the real peacemakers, of whom a rescued world will one day say, "Blessed are they."

EXCERPTS FROM THE CONSTITUTION OF THE UNITED STATES OF AMERICA

The Congress shall have power to .... provide for the common defense.

-- Article I, Section 8, Clause 1

Before he (the President) enter on the execution of his office, he shall take the following oath or affirmation: "I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will to the best of my ability preserve, protect and defend the Constitution of the United States."

-- Article II, Section 1, Clause 8

Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort.

-- Article III, Section 3, Clause 1

The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors.

-- Article II, Section 4

AMERICA'S UNELECTED RULERS

176 pages – $2.00 Paperback

This book by Kent and Phoebe Courtney proves that the Council on Foreign Relations is promoting a plan to destroy America's national sovereignty by subverting the U.S. Constitution through international agreements and treaties.

This book proves that the Council on Foreign Relations is trying to destroy the independence of the U.S.A. through the promotion of the ATLANTIC COMMUNITY as a first step to putting America under the control of a Socialist-dominated World Government.

This book proves that the Council on Foreign Relations controls both political parties to such an extent that the CFR places its own members in key policy-making positions regardless of whether a Democrat or a Republican occupies the White House.

Following are the titles of the Chapters of AMERICA'S UNELECTED RULERS:

Chapter I – The Council on Foreign Relations
Chapter II – Interlock Between Giant Tax-Free Foundations and the Council on Foreign Relations
Chapter III – Who's Who in the Council on Foreign Relations
Chapter IV – The Brainwashing Department of the CFR
Chapter V – World Government via Entangling Alliances
Chapter VI – Atlantic Community – The Master Trap
Chapter VII – The Declaration of Paris
Chapter VIII – European Common Market
Chapter IX – Economic Involvement of U.S. Via OECD
Chapter X – World Community – Goal of the CFR

After reading AMERICA'S UNELECTED RULERS you will know the names of those who are advocating a policy of appeasement and accommodation with the International Communist Conspiracy. Order your copy today. Fill out the coupon below.

THE CSA VOTING INDEX

This new Voting Index covers 10 important issues considered by U. S. Senators and Representatives during the 1962 legislative year.

With this Voting Index you can determine how your Senators and Representatives voted to extend more Federal controls over your State, your finances and your personal liberty. The 1962 Voting Index also includes the averages earned by your Senators and Representatives for the years 1960 and 1961.

This 32-page Conservative Voting Index is an invaluable guide when writing letters to the editors or to members of Congress.

Compare how they talk at home with how they vote in Washington.

Use this Index to inform community leaders, politicians, members of your State Legislature concerning the voting records of the men who are supposed to represent you in Washington. Order your copy today. 32 pages, 8" x 10", $2.00.

Appendix I

Members Of
THE COUNCIL ON FOREIGN RELATIONS
As Listed In Its Annual Report
Dated 1962-1963

This membership list is divided into two sections, both alphabetical. The first is composed of Resident Members, that is, members whose residence or place of business is within 50 miles of City Hall, New York. The second portion of this list is composed of Non-Resident Members, that is, those who reside or do business outside that 50-mile radius.

In using this list to check whether a certain person is a member of the CFR, be sure to check BOTH the Resident and Non-Resident sections.

This Membership List of the Council on Foreign Relations is issued by:

The Council on Foreign Relations
The Harold Pratt House
Fifty-Eight East Sixty-Eighth Street
New York, N.Y.

ABOUT THE AUTHORS

Kent and Phoebe Courtney, a husband-and-wife team, are publisher and editor, respectively, of *THE INDEPENDENT AMERICAN*, a national Conservative Political Action Newspaper, which they founded in January, 1955. *THE INDEPENDENT AMERICAN* Newspaper has subscribers in all 50 States.

Other activities of Kent and Phoebe Courtney include the publishing of *TAX FAX* pamphlets advocating the Conservative position on such issues as National Defense, Foreign Aid, Federal Aid to Education, Socialized Medicine, Federal Urban Renewal, etc. More than 4,000,000 copies of these TAX FAX pamphlets have been published and distributed during the past five years.

"Disarmament – A Blueprint for Surrender" is the Courtneys' fourth book. Their earlier books are: *"The Case of General Edwin A. Walker – The Muzzling of the Military Who Warn of the Communist Threat,"* published in 1961, *"The CSA Voting Index,"* and *"America's Unelected Rulers"* (an expose of the Council on Foreign Relations), the latter two books having been published in 1962.

In addition to being in demand as a speaker before civic and patriotic groups discussing vital issues of the day from a Conservative viewpoint, Kent Courtney is the commentator of the Radio Edition of the Independent American, a weekly broadcast of "the Conservative side of the news," which is heard over an ever-increasing number of stations from coast to coast.

Courtney, born in Minnesota, moved to New Orleans in 1929. He is a graduate of the School of Business Administration of Tulane University in New Orleans. Having majored in economics, he later served as an instructor in Tulane's University College. His wife, Phoebe Courtney, attended Newcomb College in New Orleans.

Kent Courtney is also the National Chairman of The Conservative Society of America, the avowed purpose of which is to return the United States of America to Constitutional Government and Fiscal Sanity by electing anti-Communist Conservatives to the U. S. Congress.

Dear Subscriber:

Enclosed please find the latest two TAX FAX pamphlets:

TAX FAX #44 - CIVIL RIGHTS - A Power Grab For Federal Control
TAX FAX #45 - Dear Congressman: STOP USING MY TAXES TO FINANCE COMMUNISM

Karl Marx, the evil genuis who founded modern Communism, said that the Communist program could best be summed up as an attack upon the right to own private property.

The so-called Civil Rights program of the Kennedy Administration is nothing more or less than a complete all-out attack on the right to own and manage your own private property.

The race riots and guerilla warfare in the streets of the United States are a mere smokescreen to help bring about the passage of Kennedy's Civil Rights bill. The enclosed TAX FAX #44 on Civil Rights analyzes what is actually contained in the bill proposed by Kennedy. This Civil Right bill must be defeated in entirety because if passed by Congress, the power-crazed Attorney General, Bobby Kennedy, will have as much power as Hitler's Gestapo. The Civil Rights Commission will become the American version of the Soviet Secret Police, the O.G.P.U. or N.K.V.D.

Widespread distribution of this Civil Rights TAX FAX can bring about the defeat of this "police state" bill.

YOUR TAXES SUPPORT COMMUNIST GOVERNMENTS

EX 104

REC- 43 105- 51811-64

More members of Congress voted against the Foreign Aid appropriations bill in 1962 than ever before. A completely coordinated nationwide pressure campaign exerted on members of Congress to vote against Foreign Aid to Communist countries can bring about a major Conservative victory.

We are concentrating on "the Foreign Aid to Communist countries" aspect of the Foreign Aid bill because: (1) It is hard for any Congressman to defend giving Foreign Aid to Communist countries; (2) The defeat of this portion of the bill is one of the quickest ways to slow down all of the soft-on-Communism policies of the Kennedy Administration; (3) Giving "aid and comfort" to the enemy is the definition of treason according to the Constitution. The elimination of Foreign Aid to Communist countries will be a humiliating defeat for the pro-Communist Kennedy Administration.

(Please see other side.....)

54 SEP 9 1963 1628-00 SPS-JC/TMB 929512

MAXIMUM PRESSURE NEEDED NOW

First, please sit down and mail one of these TAX FAX to your Congressman and the other to one of your Senators together with a letter or note signed by you! Urge them to vote against both of these dangerous pieces of legislation. If every subscriber of THE INDEPENDENT AMERICAN who receives these TAX FAX does this TODAY, within 3 or 4 days more than 40,000 letters and pamphlets will be received by Congress. Even the Communist Party can't get that much mail into the Congress on short notice!

SECOND WAVE OF MAIL

As soon as the first 40,000 letters enclosing TAX FAX have been mailed to Congress, plans for the "second wave" of protest go forward. Here's how: Order TODAY as many of these TAX FAX as you possibly can for distribution to active patriots and to elected officials and to those indicated on the back of each TAX FAX. When you receive your order this will provide the "second wave" of protest whereby you and your friends will be writing individual letters to both of your Senators and to all of the Congressmen from your state. Resolutions can be passed at meetings of civic clubs: ask your friends to mail these TAX FAX along with their own letters. As a result, many of these people will order additional TAX FAX for their own use for a "third wave" of protest letters.

IF YOU CANNOT PERSONALLY DISTRIBUTE - PLEASE CONTRIBUTE!

If because of your job or your health you are not in a position to carry out the aforementioned activities we hope that you will contribute to the TAX FAX Distribution Fund so that we can mail these two TAX FAX pamphlets to important groups. We have hundreds of mailing lists available to us so that if sufficient contributions are received we can, for instance, send TAX FAX #34, CIVIL RIGHTS, to property owners, to police chiefs and sheriffs and to many other groups who would be adversely affected by the passage of Kennedy's obnoxious police-state Civil Rights bill.

There are some 3,000 daily and weekly newspapers throughout the nation which should receive both of these pamphlets. We can reach the editorial writers of these newspapers only if we receive sufficient contributions from you.

On a number of previous occasions TAX FAX pamphlets have helped to defeat legislation proposed by the Kennedys. We believe these are two of the hardest-hitting pamphlets we have ever produced. The defeat of these two measures could positively cripple the Kennedy Administration and the entire Communist conspiracy.

Time is of the essence. These two bills will shortly be coming before Congress for a vote. Please fill out the enclosed coupon for your TAX FAX order, together with your check or Money Order and mail TODAY.

Sincerely yours,

Kent Courtney

PATRIOT ALERT!.....

August 10, 1963

THE TEST BAN TREATY MUST BE DEFEATED

Dear Subscriber:

Socialist Norman Thomas, ADA chieftain John M. Roche and James J. Wadsworth, member of the Communist-appeasing Council on Foreign Relations have just mailed a letter to 75,000 left-wing individuals and organizations asking them to write letters to President Kennedy and all Senators urging approval of the Test Ban Treaty.

We, the patriotic Conservatives must counter this pro-Communist operation with a massive assault of mail directed at the U.S. Senate opposing the ratification of the Test Ban Treaty. All major Conservative organizations are cooperating in this drive.

A "Safe" Test Ban Treaty Is Impossible

So-called middle-of-the-road Senators, on whom the ratification or defeat of the Test Ban Treaty will depend, are telling their constituents that the treaty contains "safeguards". This is a lie! The Russians cannot be trusted.

It is utterly impossible for any such treaty to be "safe" where the national security of this nation is concerned!

Here's What You Can Do

(1) Read the documented articles in this issue of THE INDEPENDENT AMERICAN on pages one, two, and four proving the dangers of a Test Ban Treaty.
(2) Write or telegraph your two Senators TODAY demanding that they vote "NO" when the Nuclear Test Ban Treaty comes up for ratification. Also tell them that -: (a) you are not fooled by this phony line of supposed "safeguards" in the treaty, and (b) you expect them not to be fooled either!

Tell your Senators that if they vote "YES" that you will consider it a vote to disarm the U.S. in the face of Soviet aggression - only 90 miles away - in Cuba!

(3) The Test Ban Treaty is expected to come up in the Senate shortly after August 26.

Write Or Telegraph Your Senators Today

You have nothing to lose - but your country, your freedom and the freedom of your children and grandchildren.

FOR IMMEDIATE RELEASE

Several news wire service stories and syndicated columnists have reported a lack of interest in the Test Ban Treaty and Kennedy's proposed Civil Rights legislation. The Washington reporters say that this apathy is reflected in a lack of mail being received by Senators and Representatives in Washington, D.C.

Kent Courtney, publisher of the national Conservative newspaper, THE INDEPENDENT AMERICAN, predicted that the Members of Congress would soon hear from back home as the result of recent actions taken by his paper. Courtney also noted that the John Birch Society was moving into action, but there had been no prior consultation on these matters between his newspaper and Robert Welch.

Courtney stated: "I am glad that our moves are fortuitously coordinated. It just so happens that Conservatives instinctively know that Kennedy's program for 'accommodation to International Communism' must be opposed by an informed and aroused American public. Here is what we have done to generate more mail into the Senate in opposition to the ratification of the test ban treaty proposed to the Senate by Khrushchev; Kennedy; the 'soft-on-Communism' State Department; the 'no win' civilians in the Defense Department; and the entire entourage of Liberal Left progressives.

"We dropped into the mail on Thursday the 8th and Friday the 9th of August, a copy of our July-August issue of THE INDEPENDENT AMERICAN with a Patriot Alert flyer stapled inside.

"This mailing should reach the bulk of our subscribers by the 14th of August, and the balance by the 16th.

(Continued on page 2.....)

105-65711-2800 SAC-JFM
929512

"In addition, last week we mailed to all 20,000 of our paid subscribers two TAX FAX pamphlets, both of which suggested that letters of protest be sent to members of the Congress. These two TAX FAX were No. 44, CIVIL RIGHTS, and TAX FAX No. 45, DEAR CONGRESSMAN: STOP USING MY TAXES TO FINANCE COMMUNISM. These have already reached all of our subscribers throughout the nation. We have also sent these two TAX FAX and our newspaper to 300 leading Conservative political action organizations.

"These two mailings should result in an avalanche of mail on at least three subjects: The Test Ban Treaty, Civil Rights and Foreign Aid.

"After all of these mailings had gone out, I received on Monday morning, August 12th, an air-mail Interim Bulletin from Robert Welch of the John Birch Society, addressed to all Chapter leaders and Home Chapter members. This bulletin stressed the need for citizen action on the Test Ban Treaty and Kennedy's proposed civil rights legislation. Therefore, you can see that THE INDEPENDENT AMERICAN and the John Birch Society, without prior consultation, have both moved strongly to get people up off their apathy.

"I enclose for your information a copy of our newspaper and a copy of the two TAX FAX along with the sales letter and order coupon."

Courtney suggested that Washington newsmen contact the offices of the members of Congress during the third week of August in order to check on his prediction of an avalanche of mail on the vital issues of the Test Ban Treaty and Civil Rights.

Louisiana Daily Newspapers
Louisiana Weekly Newspapers
Selected Conservative Newspapers

column of Allen and Scott, which states:

President Kennedy has approved the sale to Yugoslavia of several million dollars of spare parts for F86 and PB2 jet interceptors bought from the U.S. in 1960 and 1961.

WHAT YOU CAN DO

From a study of this pamphlet you can see that we, the taxpayers, are actually financing a large portion of the operations of the International Communist Conspiracy through various schemes of Foreign Aid.

Every single Congressman who votes for Foreign Aid to Communist countries should be defeated in 1964. We are not going to be able to stop the onward rush of Communism until we defeat those members of Congress who are voting for pro-Communist causes.

Time is short. The Communist threat to America could not be more serious. Write to your Congressman and put him on notice that if he votes for the Foreign Aid Bill or any other pro-Communist legislation, you and your friends are going to work for his defeat in the next election.

Use the documented facts contained in this pamphlet as a basis for your letters to the editor, resolutions by civic and study clubs, and in your letters to Congress.

Purchase additional copies of this TAX FAX #45 for distribution to your friends, members of Conservative study groups and to all elected officials in your State.

ORDER – TODAY – EXTRA COPIES
OF THIS PAMPHLET

Tax Fax No. 45

HOW FOREIGN AID AIDS REDS

On June 11, 1963, Secretary of State Dean Rusk, pleading for Foreign Aid before the Senate Foreign Relations Committee, stated:

> **There is nothing that the Communists want more than for us to withdraw our support from other independent countries . . .**

THE NEW YORK TIMES magazine section of July 7, 1963, contained an article by Congressman Otto E. Passman in which he wrote:

> **Secretary of State Rusk saw fit recently to accuse Members of Congress and others who favor substantial reductions in this country's spending for Foreign Aid of "cooperating with global Communist strategy." It is regrettable that the Secretary made such an intemperate and groundless statement . . . I am one of those the Secretary was talking about. I am opposed to Foreign Aid; it has been, in my opinion, one of the greatest foreign policy failures in history.**

Apparently Secretary of State Dean Rusk and the other promoters of Foreign Aid are unaware, or hope the American people are unaware, that the late Soviet Dictator Stalin said:

> **It is essential that the advanced countries should render aid--real and prolonged aid--to the backward countries in their cultural and economic development. Otherwise it will be impossible to bring about peaceful coexistence of the various nations and peoples--within a *single economic system, which is so essential for the final triumph of Socialism.***

The official Communist publication, THE WORKER, of Jan. 27, 1963, stated that the United States should "give massive aid, with no strings, to underdeveloped countries."

One of the reasons why the Soviet Union, contrary to the propaganda put out by the Foreign Aid promoters, favors the continuance and expansion of U. S. Foreign Aid is because **a primary objective of the Kremlin is to cause the collapse of the U. S. economy.** It was Nicolai Lenin who stated:

> **We shall force the United States to spend itself into destruction.**

Since most of the Free World economy is tied to the dollar, the wrecking of the economy of the United States could signal the end of this nation as an independent republic and the establishment of a Communist One World.

EXAMPLES OF FANTASTIC FOREIGN AID

Here are a few examples of how U. S. tax dollars are being wantonly squandered around the world. In recent years the Foreign Aid program has financed the following:

(1) The purchase of extra wives for government officials in Kenya, Africa.
(2) A $10 million loan to a textile mill in Sudan; $500 thousand for a textile mill in Ethiopia (while U. S. textile mills are suffering).
(3) A saw mill in the mountains of Taiwan, Nationalist China; then it was learned that the saw mill could not saw the type of logs produced there.
(4) Generators and saw mill equipment in Laos, where fraudulent invoices totaling $207,500 were paid by the U. S., when actual cost was $44 thousand. No recovery was made of the money expended.
(5) $27 million to Ghana to build the Volta River Dam, in addition to other loans. (In Ghana there is a school for the training of Communists.)
(6) U. S. bases worth millions of dollars in Morocco, now being turned over, by agreement, to Morocco. (One base is presently occupied by Russian personnel and Russian MIG planes.)

FACTS ON FOREIGN AID

An article by Congressman Otto E. Passman, especially written for Advance News Service, and inserted in the CONGRESSIONAL RECORD on June 20, 1963, revealed:

(1) Foreign Aid since the end of World War II has cost U. S. taxpayers more than $120 billion (including assistance through international organizations, overseas military construction, and interest on the money borrowed in order to give it away).

(2) Approximately $100 billion has been given away on a unilateral basis, going to 111 foreign nations and entities, including Communist, Communist-leaning and so-called neutralist nations alike.

(3) During 1963, U. S. economic aid is going to 73 countries and seven entities, and military aid to 70 countries.

(4) As a result of Foreign Aid, U. S. gold reserves in the last ten years have been reduced from more than $23 billion to less than $16 billion.

(5) The U. S. now has a national debt of $305 billion. This is $25 billion more than the combined public debts of 112 countries of the world.

FALLACY OF AID TO LATIN AMERICA

The more than $6 billion given to Latin American countries was purportedly for the purpose of stopping the inroads of Communism in the Western Hemisphere. However, in spite of the billions of Foreign Aid, Communism has made greater strides in Latin America in the past few years than ever before in history.

On July 10, 1963, Congressman Thomas M. Pelly of Washington revealed that:

> **Recently four of the most influential Latin nations abstained, and one voted against us, in the Council of the Organization of American States when we urged all American Republics to exercise strict control over Communist activities. Communism's chief target, Venezuela, and also Brazil, Mexico and Haiti, side-stepped this issue, while Chile dissented, thereby nullifying the effectiveness of our campaign to oppose Castro's Soviet beach-head in Cuba.**

The above-named countries who thus refused to join the United States in fighting Communist subversion in this hemisphere have received a total of $3.8 billion in Foreign Aid since 1944.

AID TO PRO-COMMUNIST NATIONS

Disproving the claim that the purpose of Foreign Aid is to fight Communism is the fact that during the period 1945 to 1962 the following Communist-oriented countries received U.S. Foreign Aid in the amounts shown:

Poland	**$ 522,600,000**
Yugoslavia	**2,396,900,000**
Iceland	**70,200,000**
Burma	**95,400,000**
Cambodia	**334,500,000**
Indonesia	**670,900,000**
Iran	**1,310,200,000**
Iraq	**67,700,000**
United Arab Republic	**628,600,000**
Yemen	**22,900,000**
Afghanistan	**219,600,000**
Ceylon	**79,700,000**
India	**3,952,000,000**
Nepal	**48,400,000**
Pakistan	**1,889,600,000**
Argentina	**640,500,000**
Brazil	**1,952,700,000**
Cuba	**52,100,000**
Ethiopia	**185,300,000**
Ghana	**156,500,000**
Guinea	**14,300,000**
Mali Republic	**6,100,000**
Tunisia	**293,300,000**

The first two named countries, Poland and Yugoslavia, are official members of the Soviet bloc. **Every single one of the foregoing countries has, during the period 1955 to 1960, also received Foreign Aid from the Soviet Union!**

According to the Nineteenth Report of the House Committee on Government Operations, issued June 25, 1962, U.S. and Soviet Foreign Aid were pooled to construct a hospital in Cambodia. This Government report concluded:

> **U.S. Foreign Aid has been commingled with Sino-Soviet aid both with and without the knowledge of U.S. aid officials . . . To the extent that U.S. aid dollars are used, either directly or indirectly to promote or carry out projects or programs identified in the minds of the people in the host country as Sino-Soviet, U.S. taxpayers are financing the cause of Communism.**

AIDING PRO-COMMUNIST INDIA

The largest single recipient of U.S. Foreign Aid in recent years, outside of Europe, is India, which through 1962 had received a total of 3.9 billion U.S. taxpayer dollars. At the same time, India, playing both ends against the middle, wheedled almost $1 billion from the Soviet Union. In no way could India be considered a friend of the United States. Whenever a crucial vote comes up in the United Nations, India either votes on the side of the Soviet Union or abstains when its vote would help the U.S.

In June, 1962, pro-Communist Nehru announced that India intended to buy MIG 21 jet fighter planes from the Soviet Union. Thus it is seen that Nehru permits the U.S. to subsidize India on the one hand, paying for things that India otherwise would have to pay for on its own, so that India can take its funds thereby released, and hand them over to Russia for MIG jets. In January, 1963, the Soviet Union announced that it was sending specialists to India to assist in building a plant to manufacture MIG fighter planes.

In June, 1963, India announced a new and and greatly expanded trade agreement with the Soviet Union. Less than a month later, India sent a special request to the U.S. for an additional $1.5 billion in aid to build a steel mill.

PRO-COMMUNIST INDONESIA

Indonesia has received more than $670 million in American economic aid, plus another $206 million in Food for Peace shipments, plus millions in military assistance, which latter

figures, for some strange reason are secret.

Indonesia's dictator, Sukarno, a winner of the Order of Lenin, is often found in other Communist capitals pledging solidarity in the fight against Western Imperialism.

On March 6, 1963, the U.S. Agency for International Development (AID), which dishes out U.S. taxpayer dollars in the form of Foreign Aid, announced that it had agreed to loan Sukarno of Indonesia another $17 million to prop up his sagging economy. On the same day, anti-West, pro-Communist Sukarno bought $20 million worth of luxury jet airliners. Later in 1963, AID stated that it had made a gift to Sukarno of almost $20 million additional in emergency aid.

And while Sukarno of Indonesia was contemptuously accepting U.S. Foreign Aid, he was also on the receiving end of $509 million worth of Soviet aid.

RED POLAND

So extensive was the more than $522 million worth of U.S. Foreign Aid given Communist Poland that during the period 1955 to 1960 the Soviet Union only had to send $77 million worth of Foreign Aid to this satellite nation.

The United States started doling out Foreign Aid to Poland in 1957, during the Eisenhower Administration. Since that time, Dictator Gomulka, according to Michael Padev, foreign editor of the INDIANAPOLIS STAR "has become more and more dependent on Moscow. In foreign policy matters, Gomulka plays the Soviet game 100 per cent."

The chief "game" of Poland is to act as a funnel for transferring U.S. aid to other Red satellite nations. The Oct. 22, 1962, issue of the ROCKFORD (Ill.) REGISTER-REPUBLIC pointed out:

> **U.S. economic assistance to any country behind the Iron Curtain actually ends up in the hands of Russia, Red China or Cuba. Even if Poland does not transship American wheat, that country will now be able to send an equal amount of Polish wheat to other Communist countries.**

Using U.S. Foreign Aid dollars which it has received, Poland has offered its own Foreign Aid in the form of heavy machine tools, complete industrial plants and sugar refineries to Communist China, Yugoslavia, North Korea, North Vietnam, Ghana, and Cuba. These gifts are possible only because U.S. aid has propped up Poland's shaky economy. In mid-1962, Dr. Fernando Penabaz, writing in the FT. LAUDERDALE NEWS, gave another example of Poland's "game" with U.S. Foreign Aid. According to Dr. Penabaz:

> **The U.S. loaned Poland money to build a plant which produces steel. The United States then loaned Brazil dollars to buy steel from Poland.**

And yet the Kennedy Administration pretends to be concerned about unemployment in the U.S. steel industry!

RED YUGOSLAVIA

The Communist satellite nation, Yugoslavia, between the years 1945 and 1962 received a total of almost $2.4 billion in U.S. Foreign Aid. Of this amount, $693,900,000 was in military aid. Not only have Yugoslav pilots, technicians and scientists been trained in the U.S., but U.S.-made planes comprise more than 90 per cent of the Yugoslav Air Force.

Philip Warden, in the Nov. 12, 1961 issue of the CHICAGO TRIBUNE, said:

> ***The United States and its allies now give Communist Yugoslavia "one-half to two-thirds of its annual budget" and it uses these "handouts" to finance a worldwide Red campaign, according to a study made for the Senate Internal Security Subcommittee.***

The November 30, 1961, issue of the INDIANAPOLIS NEWS revealed:

> **The United States is sending a $200,000 nuclear reactor as a gift to Communist Yugoslavia . . . Fourteen Yugoslav scientists now are being trained in U.S. laboratories. Some of these labs are involved in top secret projects of a military nature . . . The agreement involving the gift nuclear reactor was reached in September, 1960, as part of the Eisenhower Administration's "Atoms for Peace" program.**

Although Foreign Aid to Communist Yugoslavia is purported to be for the purpose of wooing Tito away from Moscow, the Yugoslav dictator has, on numerous occasions reavowed his loyalty to Moscow.

During the Cuban "crisis" in October, 1962, Tito sided violently, promptly and completely with Russia. Yet two months later, on December 2, when he left Belgrade for a trip to Moscow, the U.S. gave him another $108 million in Foreign Aid. Concerning Tito's repeated declarations of loyalty to Moscow, THE STATE of Columbia, S.C., on May 27, 1963, commented:

> **Tito has just issued a foreign policy paper in which he says Yugoslavia's relations with the Soviet Union and other Socialist countries are better than ever, and will get more so . . . All the money and trade concessions have not been winning Tito to the West. Tito has merely used our tax dollars to keep the Communist machine in Yugoslavia in operation.**

That the Kennedy Administration intends to keep Tito's Communist machine in operation is evident from the June 18, 1963, syndicated

WHAT YOU CAN DO

If the message contained in this pamphlet exposing the real meaning of the Civil Rights bills in Congress is given the widest possible distribution, the attempt by the power-obsessed politicians in Washington to sell out the individual liberties of the American people via the Civil Rights bill can be defeated.

Write your Congressman telling him that not only should the attack-on-private-property feature of the bill, Title II, be defeated but that the entire Civil Rights bill is so dangerous that it should be defeated in toto!

Alert your friends and neighbors to the fact that when a politician bidding for vote's promises Federal projects for your community, **what he is really promising is that if elected he will bring Federal Control to your community!**

If you wish to help defeat the Civil Rights bill – this latest power-grab by the Kennedy brothers – here is what you can do: (1) Write or telegraph your Congressman and two Senators demanding that they vote against this legislation; (2) write letters to the editor of your local newspaper using the documented facts contained in this pamphlet in order that thousands may be alerted in your area regarding the dangers inherent in this Civil Rights legislation; and (3) buy and distribute as many copies of this pamphlet as you possibly can.

PLANNED DICTATORSHIP!

CIVIL RIGHTS

A POWER GRAB FOR FEDERAL CONTROL OF:

(1) PRIVATE PROPERTY
(2) BUSINESS ESTABLISHMENTS
(3) EDUCATION

Tax Fax No. 44

WHAT THE CIVIL RIGHTS BILL MEA[redacted]

Kennedy's Civil Rights bill is aimed at citizens of the entire nation – not merely those residing in the South. If Kennedy can persuade Congress to write into law a network of privileges for one minority – privileges created at the expense of the freedoms of the majority – then government of the people, by the people, and for the people will vanish.

In commenting on the proposed Civil Rights law, columnist Thurman Sensing stated:

> If the Congress adopts this legislative package, the Federal Government would suddenly take on dictatorial powers. The President, his brother, and top Administration officials would have as much power as the Soviet Politburo.

Kennedy's omnibus Civil Rights bill (S.1731), introduced in the Senate on June 19, 1963, contains eight titles (sections) covering various aspects of "civil rights," such as voting rights; public accommodations; public education; Federal Community Relations Service; Commission on Civil Rights; federally-assisted programs; Federal Commission on Equal Employment Opportunity; and appropriations.

Without a doubt, the most controversial section of Kennedy's Civil Rights package is Title II, which concerns the desegregation of privately-owned public accommodations. Realizing the solid wall of opposition to Title II by businessmen and property owners throughout the country, Senator Mike Mansfield, Kennedy's majority leader, introduced a separate bill (S.1732) which covers desegregation of public accommodations only, and which is – word for word – extracted from the omnibus Civil Rights bill. This second bill, which can be expected to be defeated prior to introduction of the omnibus bill, is clearly intended as a sop to the minority bloc vote so the Kennedy Administration can say, "See, we tried!"

CONGRESSIONAL "SHELL GAME"

It is a time-worn gambit for Congressional leaders to cynically ask for more than they know they can get.

When, as can be expected, Conservative Congressmen manage to strike Title II relating to public accommodations from the Civil Rights bill, it will be presented as a Conservative "victory," and a defeat for the Liberals. With militant Conservative opposition then relaxed to a degree, a so-called compromise bill containing all the other provisions of the omnibus Civil Rights bill will, in all probability, be passed by Congress. As a matter of fact, a compromise bill, known as the Mansfield-Dirksen bill, was also introduced in the Senate on June 19, 1963.

Before discussing the highly dangerous provisions that would remain in a compromise bill, let us review briefly Title II of the omnibus Civil Rights bill.

TITLE II · THE ASSAULT ON PRIVATE PROPERTY

Title II of Kennedy's Civil Rights bill would give the Federal Government the power to tell owners of private businesses whom they must serve and/or sell to.

Article I, Section 8, Clause 3 of the Constitution provides that Congress shall have the right "to regulate commerce ... among the several States ..." Deliberately twisting this clause, Title II asks that Congress give the Federal Government the power to regulate and control any and all businesses which could be considered to be in interstate commerce. Under this broad classification, according to Title II, would be "hotels, motels, motion picture houses, theaters, sports arenas, any retail establishment, department store, market, drug store, gasoline station, lunchroom, lunch counter, soda fountain," etc.

The Civil Rights promoters claim that such arbitrary control over private property comes "within the ambit of the Equal Protection Clause of the Fourteenth Amendment to the U. S. Constitution." However, Justice John M. Harlan, disagreeing with a majority decision of the U. S. Supreme Court, in discussing the application of the Fourteenth Amendment to private property rights, stated:

> An individual's right to restrict the use of his property ... lies beyond the realm of the Fourteenth Amendment. Freedom of the individual to choose his associates or his neighbors; to use and dispose of his property as he sees fit ... are things all entitled to a large measure of protection from government interference.

IS TO YOU

Further reading of the Fourteenth Amendment reveals the stipulation that no person shall be deprived of "life, liberty or property without due process of law."

The Fifth Amendment of the Constitution provides:

> ... nor shall private property be taken for public use without just compensation.

Inasmuch as such Federal control as envisaged in Title II of the Civil Rights omnibus bill would deprive property owners of the right to manage and utilize their property as they see fit, they would, to all intents and purposes, be "deprived" of their property. Also, inasmuch as the Federal Government would be "taking for public use" said property without purchasing same from the owner for "just compensation," the provisions of Title II are patently unconstitutional.

Nor is it a strange coincidence that the abolition of private property is one of the prime tenets of Communism according to the Communist Manifesto of 1848.

In this regard Congressman Bruce Alger stated on June 22, 1963:

> The basis of capitalism, our system of individual Freedom, is founded in the right to the private ownership of property, the right to do what one will with one's own.

So drastic and so obviously unconstitutional are the provisions of Title II of the Civil Rights bill, it can be expected that if Title II is not wholly stricken from the bill, any portion remaining in the final bill will be supposedly watered-down. For example, in a grandstand play for the votes of small businessmen, it can be expected that amendments will be offered exempting owners of small establishments such as drug stores, lunch counters, small theaters, etc. The compromise amendment would state that the provisions of Title II would apply, for instance, only to big businesses such as those doing, say, a $1 million annual business. However, Senator John O. Pastore of Rhode Island has already revealed the tactic to be used by the extreme Left-Wingers. An Associated Press dispatch of July 3 quotes Pastore as stating that the exemption would be stepped down annually: the second year the exemption would apply only to businesses doing more than $750,000 a year business, and eventually all exemptions would cease, at which time all businesses, regardless of size would come under Federal control.

Even if any modification of Title II appears in a Civil Rights bill passed by Congress, it will be a Federal foot-in-the-door for eventual Federal control of all private enterprise, even the corner hot-dog stand!

FEDERAL CONTROL OF EDUCATION

Another prerequisite for the establishment of a Federal dictatorship is Federal Control of Education. Bills for Federal Aid to public schools, when properly titled, have been repeatedly defeated in Congress. For this reason, Kennedy's Civil Rights bill contains a provision, largely unnoticed by the general public, which would, in fact, give the Federal Government control of public education.

According to a column by Thurman Sensing on June 27, 1963:

> Under the proposed program, not the courts but Attorney General Robert F. Kennedy would determine which communities were to integrate their schools, when and under what conditions. In other words, total control over the schools – including teaching personnel – would be vested in the Attorney General.

The promoters of Federal Control of Education, after a number of futile tries have finally dropped the fraudulent tactic of claiming that Federal Aid to Education is necessary because the States are unable to provide sufficient classrooms. The States have indeed provided sufficient facilities, and therefore the Federal control advocates have necessarily been forced to adopt another line of attack. This is described in Title III of the omnibus Civil Rights bill which is entitled "Desegregation of Public Education." In this section the Federal Commissioner of Education is given enormous powers. According to Sec. 303:

> (a) the Commissioner is authorized ... to render technical assistance in the preparation, adoption and implementation of plans for the desegregation of public schools ...
> (b) the Commissioner is authorized to arrange through grants or contracts with institutions of higher education for the operation of short-term or regular session institutes for special training designed to improve the abilities of teachers, supervisors, counselors and other elementary or secondary school personnel to deal effectively with special educational problems occasioned by desegregation ...

In other words, the Federal Government, financed by taxpayer funds, would set up special "institutes" to brainwash America's teachers so they, in turn, could indoctrinate America's youth in the Socialist dogma of the

Kennedy Administration! Sec. 304(a) makes provision for funds which the Federal Commissioner of Education can use to bribe school boards under the guise of helping them in "dealing with problems of racial imbalance."

Sec. 304(b) provides that the Federal Commissioner may make grants for "employing specialists ... to develop understanding of these problems by parents, school children and the general public." **Thus the Federal Commissioner of Education would have large sums of taxpayers' dollars at his disposal to propagandize not only the school child and his parents, but also the general public.**

That such regulation, dictation and funneling of Federal funds into the U. S. educational system would mean Federal Control of Education is verified by the Supreme Court decision of 1942, *Wickard vs. Filburn*, which stated:

> It is hardly a lack of due process for government to regulate that which it subsidizes.

Clearly indicating that the real purpose of Title III of the Civil Rights bill is ultimate control of **all** education, in his message to Congress on June 19, President Kennedy threatened:

> And while this (proposed) act does not include private colleges and schools, I strongly urge them to live up to their responsibilities.

TITLE V - THE COMMISSION ON CIVIL RIGHTS

Up to the present, the duties of the Civil Rights Commission have for the most part been confined to voting rights. However, Sec. 504 of Kennedy's Civil Rights bill expands the area of the Civil Rights Commission to include "voting, education, housing, employment, the use of public facilities, transportation, and the administration of justice."

ARMING THE ATTORNEY GENERAL FOR FORAYS AGAINST U.S. CITIZENS

Kennedy's omnibus Civil Rights bill bristles with authorizations to grant to the President's brother, Bobby, unprecedented power to harass private citizens. For example, Sec. 204(a) of Title II, which would allow the Federal Government to dictate to owners of private businesses as to whom they must serve, states:

> Whenever any person has engaged, or there are reasonable grounds to believe that any person is about to engage in any act or practice prohibited by Sec. 203, a civil action for preventive relief, including ... a restraining order, or other order, may be instituted by the Attorney General and/or in the name of the United States if he certifies that ... in his judgment ... the purposes of this Title shall be materially furthered by filing of an action.

Such unprecedented power in the hands of the Attorney General could turn loose a hundred thousand Federal agents examining into the most intimate sales and employment practices of a million business enterprises. The Attorney General's Justice Department would then, to all intents and purposes, become a Gestapo empowered to impose its will on hapless once-free American citizens.

Title III of the Civil Rights bill, regarding public education, likewise gives unprecedented power to Attorney General Bobby Kennedy. Sec. 307(a) would authorize him "to institute for and in the name of the United States a civil action" against any person or persons who attempt to thwart the carrying-out of Federal Control of Education as outlined in Title III.

FEDERAL AID HOAX EXPOSED

If the Civil Rights bill is passed (even if Title II relating to public accommodations is stricken from it), the American people will awaken too late to realize that every single dollar in so-called Federal Aid carries with it Federal Control. Titles VI and VII provide that all contracts, loans, insurance, guaranty or otherwise, in connection with any Federally-assisted program or activity "shall contain such provisions as the President may prescribe ..." Under this broad umbrella, President Kennedy will be able to wield his power over all facets of American life. Coming under his control via the Civil Rights bill would be such Federally-assisted categories as: (a) *insurance* as for bank deposits, FHA home loans, or farm crops; (b) *guarantees* like VA home loans; (c) *loans* as to small businesses, municipal sewer plants, college scholarships, etc. (d) *grants* such as hospitals, school or college construction, urban renewal, or welfare.

Every businessman who has a contract or subcontract in which the Federal Goverement is involved, whether Federal funds be direct or indirect, will become the victim of Federal dictatorship as to whom he can hire or fire. Employment practices, instead of being based on merit will be based on "racial balance."

THE NUCLEAR TEST BAN TREATY

History's Most Dangerous Step?

(Reprinted from SHREVEPORT TIMES)

"As the Soviet thermonuclear test series in the autumn (of 1961) grimly underlined, Khrushchev's power to devastate the United States as well as Western Europe is growing rapidly. The day could come when in some future test of nerves, given allies less staunch that Adenauer and de Gaulle, that the West would choose a concealed surrender rather than risk the ultimate terror of thermonuclear war."—Stewart Alsop in a *Saturday Evening Post* article March 31, 1962, analyzing and interpreting President Kennedy's thoughts on Russian aggression after a lengthy private interview with the Chief Executive.

The best thing about the nuclear test ban treaty right now—as President Kennedy turns loose the whole federal government propaganda machinery in its behalf—is that it is going to have the most meticulous study possible in the United States Senate before it comes to a vote on ratification, which requires a two-thirds majority of those present.

Examination will not be merely partisan, nor anti-Kennedy in its sources. Among those who are expected to take the closest looks are Conservative Democratic Senator Richard Russell of Georgia, Liberal Democratic Senator Henry Jackson of Washington, formerly Chairman of the Democratic National Committee; and Liberal Democratic Senator Stuart Symington of Missouri.

Each already has expressed doubt as to the treaty's wisdom, especially at this safety, security and peace for Hungary in 1956 even while secretly turning around their supposedly withdrawing tank columns to murder hundreds of men, women and children in the streets of Budapest the next day. Gromyko gave the orders at Budapest; Khrushchev okayed them.

These are the men who sneaked missiles into Cuba 90 miles from our shores, lying all the time. Gromyko engineered the deal with Castro; Khrushchev okayed it.

Gromyko sat in the White House even as U.S. planes photographed the missile bases in Cuba and solemnly pledged to Mr. Kennedy in person that there were "no Russian offensive weapons in Cuba." (The President himself so stated in his October speech announcing the blockade.)

Our own State Department records detail scores of instances of breaking of faith by the Russians.

Further, these men of the Kremlin can break this treaty *even honorably* on 90 days notice; also its provisions as to where the treaty applies are vague, perhaps purposely in order to be open to interpretation by Russia to meet Russia's needs.

President Eisenhower offered Khrushchev very much the same kind of nuclear test ban in 1958-59 that the Red dictator now is accepting joyfully. But it was rejected then.

President Kennedy offered very much the same deal about a year ago and it was rejected. But now it is accepted with

future test of nerves, given allies less staunch that Adenauer and de Gaulle, that the West would choose a concealed surrender rather than risk the ultimate terror of thermonuclear war."—Stewart Alsop in a *Saturday Evening Post* article March 31, 1962, analyzing and interpreting President Kennedy's thoughts on Russian aggression after a lengthy private interview with the Chief Executive.

The best thing about the nuclear test ban treaty right now—as President Kennedy turns loose the whole federal government propaganda machinery in its behalf—is that it is going to have the most meticulous study possible in the United States Senate before it comes to a vote on ratification, which requires a two-thirds majority of those present.

Examination will not be merely partisan, nor anti-Kennedy in its sources. Among those who are expected to take the closest looks are Conservative Democratic Senator Richard Russell of Georgia, Liberal Democratic Senator Henry Jackson of Washington, formerly Chairman of the Democratic National Committee; and Liberal Democratic Senator Stuart Symington of Missouri.

Each already has expressed doubt as to the treaty's wisdom, especially at this time.

United Press International reported in a Washington dispatch published in *The Times* July 14 that the Joint Chiefs of Staff unanimously opposed a test ban treaty of the type it was known was being prepared.

Treaty May Give Reds A Big Missile Lead

The basic fear among these Senators, Admirals and Generals—political office holders of repute and military leaders who earned their stars, along with medals, in bloody combat—is that this treaty will leave Khrushchev and the Soviet supreme in the nuclear field; that Russia's tests in the atmosphere 18 months ago and ever since—referred to by Stewart Alsop in the quotation above—have put her far ahead of the United States; that obviously we cannot catch up under a ban on atmosphere testing; that Khrushchev is so happy over this treaty because he knows it stops the United States from catching up with Russia in ballistic missiles.

It is somewhat awesome now, as a test ban treaty comes into being, to read Mr. Alsop's words—written as reflection of what he looked on as the President's thoughts as far back as March, 1962—and to think of the possibility of conditions arising which would necessitate *"concealed surrender,"* by the United States unless it could be sure of such "staunch allies" as Charles de Gaulle and Konrad Adenauer. De Gaulle has been abandoned—shifted aside—by President Kennedy. Adenauer is being undermined by Kennedy's policies. Khrushchev knows this. Gromyko was in Washington and Budapest the next day. Gromyko gave the orders at Budapest; Khrushchev okayed them.

These are the men who sneaked missiles into Cuba 90 miles from our shores, lying all the time. Gromyko engineered the deal with Castro; Khrushchev okayed it.

Gromyko sat in the White House even as U.S. planes photographed the missile bases in Cuba and solemnly pledged to Mr. Kennedy in person that there were "no Russian offensive weapons in Cuba." (The President himself so stated in his October speech announcing the blockade.)

Our own State Department records detail scores of instances of breaking of faith by the Russians.

Further, these men of the Kremlin can break this treaty *even honorably* on 90 days notice; also its provisions as to where the treaty applies are vague, perhaps purposely in order to be open to interpretation by Russia to meet Russia's needs.

President Eisenhower offered Khrushchev very much the same kind of nuclear test ban in 1958-59 that the Red dictator now is accepting joyfully. But it was rejected then.

President Kennedy offered very much the same deal about a year ago and it was rejected. But now it is accepted with cheers.

May Be Civilization's Most Dangerous Step

There can be only one explanation for this Soviet shift: That Khrushchev has gained all the scientific knowledge he now needs from atmospheric testing, but didn't have it when the test bans were offered in the past; so now he's willing to quit, for awhile at least, knowing that he's ahead. Khrushchev had ample opportunity to forge far ahead during the Eisenhower and Kennedy moratoriums on testing. Dr. Teller says he succeeded.

This simply means that the long gamble the United States will be taking if it finally accepts this treaty may be—could be—perhaps actually is right now—the most dangerous step any nation has taken as to its own security at any time through the whole course of civilization.

For if Khrushchev does have what he wants in atmosphere nuclear science development, and we do not, both we and the Free World will be at his mercy so long as this treaty is in effect. For he also has these advantages:

He has a huge military base in the Caribbean which we willingly let him keep and help protect from Cuban raiders.

He has Laos under his thumb.

He has Berlin in a position which he calls "Kennedy's sore toe—I can step on it any time and make him yell."

He has our ballistic missiles out of [illegible]

"PEACE IS THI.

WHY KEEP AIDIN

(Reprinted from THE WESTERN RESERVE DEMOCRAT, Warren, Ohio)

Recent battles between the Defense Department and Congress have raised again the question, "How can we best defend ourselves against the Communists?"

Obviously, as long as we are threatened by Communist imperialism, we must have the best possible defense. As President Kennedy pointed out in the 1960 campaign, "We should have a one-word defense policy - first!"

Unfortunately, now that he's president, he often seems more interested in disarming us than in arming us.

The fact remains, however, that we must be at maximum strength as long as the Communist menace exists.

But aren't we overlooking an essential point when we argue about defense? That is, we wouldn't have to spend so much time and money on defense if we eliminated the Communist threat.

What is the sense of devoting so much attention to the Communist danger - when we're not even taking steps to end that danger?

Isn't it incredible that we're spending over $50 billion this year to protect ourselves against the Soviets - and at the same time we're selling the Soviets critically-needed wheat at subsidized prices?

How do we explain the fact that we're spending a fortune to arm our allies in Europe to resist Communism - at the same time that we're giving aid and weapons to Communist Yugoslavia?

Isn't it a grotesque joke that we're watching American boys dying in South Vietnam - at the hands of soldiers armed by Communist Poland, another foreign aid recipient?

Is all of this just a bad dream? Will we

of Staff unanimously opposed a test ban treaty of the type it was known was being prepared.

Treaty May Give Reds A Big Missile Lead

The basic fear among these Senators, Admirals and Generals—political office holders of repute and military leaders who earned their stars, along with medals, in bloody combat—is that this treaty will leave Khrushchev and the Soviet supreme in the nuclear field; that Russia's tests in the atmosphere 18 months ago and ever since—referred to by Stewart Alsop in the quotation above—have put her far ahead of the United States; that obviously we cannot catch up under a ban on atmosphere testing; that Khrushchev is so happy over this treaty because he knows it stops the United States from catching up with Russia in ballistic missiles.

De Gaulle has been abandoned—shifted aside—by President Kennedy. Adenauer is on the *way out of office. We have no "staunch allies" of that type now.*

There is no way for *The Times* or any layman to know just where we stand in the field of ballistic missiles science; whether we are far behind Russia, even, or ahead.

But we do know that such great scientists as Edward Teller "father of the H-bomb," have been saying for months that we are far behind Russia in atmospheric progress and that we must not, for our own security and that of the free world, give up atmospheric testing.

We do know that men selected by Presidents Eisenhower and Kennedy as our most capable military leaders have, in general, taken the same position as Dr. Teller in congressional Committee testimony, although they may be muzzled, or permitted to speak only in incomplete manner later.

And we do know that the men who engineered this treaty for the Soviet are proven liars, murderers and treaty breakers. Such a treaty could have values if made with honest leaders of a government of integrity—but not with Khrushchev, Gromyko and their Kremlin gang.

These are the same men who pledged

Most Dangerous Step

There can be only one explanation for this Soviet shift: That Khrushchev has gained all the scientific knowledge he now needs from atmospheric testing, but didn't have it when the test bans were offered in the past; so now he's willing to quit, for awhile at least, knowing that he's ahead. Khrushchev had ample opportunity to forge far ahead during the Eisenhower and Kennedy moratoriums on testing. Dr. Teller says he succeeded.

> This simply means that the long gamble the United States will be taking if it finally accepts this treaty may be—could be—perhaps actually is right now—the most dangerous step any nation has taken as to its own security at any time through the whole course of civilization.

For if Khrushchev does have what he wants in atmosphere nuclear science development, and we do not, both we and the Free World will be at his mercy so long as this treaty is in effect. For he also has these advantages:

He has a huge military base in the Caribbean which we willingly let him keep and help protect from Cuban raiders.

He has Laos under his thumb.

He has Berlin in a position which he calls "Kennedy's sore toe—I can step on it any time and make him yell."

He has our ballistic missiles out of Italy and Turkey and England as he demanded for taking his missiles out of Cuba.

He knows we have dropped the RS-70 type supersonic bomber which he has developed, and that we have dropped the Skybolt missile, of which he is said to have a counterpart.

As for China, the supposed rift could be an ideal camouflage for Khrushchev. China is going ahead with nuclear development. Would Khrushchev quit nuclear development if he really was mad at China? And would China and Russia ever fight each other? They are Communist. World conquest is the objective of each. They disagree only on the immediate path to be followed. They agree that the U.S. is the "enemy" that must be destroyed.

When and if the time comes that Communism can destroy the United States—the only truly powerful bulwark of the Free World—China and the Soviet will stand shoulder to shoulder. That day daily comes closer.

All in all, why shouldn't Khrushchev clap his hands and cheer over this treaty?

(Editor's note: Write or telegraph your two Senators today to vote "NO" when the Nuclear Test Ban Treaty comes up in the U.S. Senate.)

Recent battles between the Defense Department and Congress have raised again the question, "How can we best defend ourselves against the Communists?"

Obviously, as long as we are threatened by Communist imperialism, we must have the best possible defense. As President Kennedy pointed out in the 1960 campaign, "We should have a one-word defense policy - first!"

Unfortunately, now that he's president, he often seems more interested in disarming us than in arming us.

The fact remains, however, that we must be at maximum strength as long as the Communist menace exists.

Criminal

(Reprinted from Charlesto

Someone said to us recently: "Suppose public opinion were to shift this summer, and the American people decided that instead of a so-called civil rights bill, they wanted a crackdown on lawlessness. What could Congress do?"

We have been giving thought to that question, because we detect many signs of nation-wide resentment against the lawlessness of street demonstrators. The answer is not hard to find. Once before—after the shooting of President McKinley by an anarchist—the country struck hard at criminal anarchy.

As we see it, a logical move on the part of concerned members of Congress would be to introduce legislation prohibiting the crossing of state lines for the purpose of inciting riot. Such a law could be fully justified by the preamble

THE GESELL REPORT

Preview Of Police State

By Phoebe Courtney, Editor

It will be recalled that the year 1961 saw the exposing of the notorious Fulbright Memorandum which whined that one of the principal problems of the Kennedy Administration was to "restrain the desire of the people to hit the Communists with everything we've got...." and which recommended the muzzling of military leaders who were then alerting and warning the American people of the Communists threat from within and without.

Comes now the Gesell Report, which bids fair to become even more notorious and menacing than the Fulbright Memorandum, in its implications regarding the very fabric of American life.

The Gesell Report, product of The President's Committee on Equal Opportunities in the Armed Forces, was recently submitted to Kennedy who in turn recommended it to the Secretary of Defense for immediate implementation. Purporting to be a program to end racial discrimination regarding the Armed Forces, the Gesell Report, according to the Charleston, S.C. NEWS AND COURIER, "would turn the Armed Forces of the nation into an organization designed to effect revolutionary social changes in the nation. It would require use of political commissars in the Army, Navy, and Air Force after the pattern of the Soviet system, and control of civilian communities by military commanders."

Appointed as chief "political commissar" for the Defense Department (official title: Deputy Asst. Secretary of Defense for Civil Rights) is a 40-year-old "Whiz Kid" by the name of Alfred B. Fitt, whose only prior claim to fame was that he was legal adviser to ex-Governor "Soapy" Williams who bankrupted the State of Michigan. Fitt's first assignment is to set up a super "informer" system within the military establishment whereby all complaints of discrimination will be funneled to him for action appropriate to a dictatorship.

The New Orleans TIMES-PICAYUNE of July 30 printed a directive by Secretary of Defense McNamara, issued a month ago and "effective immediately," which stated:

discrimination in the Armed Services is blown up out of all proportions is this revealing sentence from the report:

"Discriminatory conditions may exist even where few complaints are made and the commander should be held accountable to discover and remedy such conditions."

The report recommends that one officer be relieved of all military duties and devote himself entirely to "deal with complaints." The report contains provisions that the identity of the complainant remain anonymous and that the accused not be allowed to face the accuser. To make sure that there will be a steady stream of complaints, the Gesell Report states that [illegible]

Our politicians are draining our last dollars to build an invulnerable defense against Communism - while they bestow upon the Communists the means to make them a greater threat!

Our defenders ponder the way to build an impregnable wall - but then invite the Communists to walk through the door to spy, to subvert, and to sabotage our defenses.

Yes, we agree: we should have the best defense possible against the Communists. But all the billions of dollars spent are wasteful and are taken under false pretenses - as long as we continue to help our sworn enemy.

Our strongest possible defense against attack would be to sever all aid, trade and diplomatic relations with the Soviet Union and all Communists countries.

That is the only policy that holds any hope of ending the Communist menace. Because once the Communists can no longer rely on our help, their impractical economic system will destroy them.

But every day that we continue to aid them puts us one day closer to the time when the Soviets really will be able to blackmail us into surrender.

In view of our tremendous defense burden, anything short of a complete break with the Communists is a crime against the American people.

Why not let your government know how you feel about it?

(Editor's note: If you wish to help stop Foreign Aid to Communist countries, order today and distribute copies of TAX FAX No. 45 entitled, "Dear Congressman: Stop Using My Taxes to Finance Communism." Prices of this pamphlet: 25¢ single copy, 20 for $1.00, 100 for $5.00.)

to hit the Communists with everything we've got!" ... recommended the muzzling of military leaders who were then alerting and warning the American people of the Communists threat from within and without.

Comes now the Gesell Report, which bids fair to become even more notorious and menacing than the Fulbright Memorandum, in its implications regarding the very fabric of American life.

The Gesell Report, product of The President's Committee on Equal Opportunities in the Armed Forces, was recently submitted to Kennedy who in turn recommended it to the Secretary of Defense for immediate implementation. Purporting to be a program to end racial discrimination regarding the Armed Forces, the Gesell Report, according to the Charleston, S.C. NEWS AND COURIER, "would turn the Armed Forces of the nation into an organization designed to effect revolutionary social changes in the nation. It would require use of political commissars in the Army, Navy, and Air Force after the pattern of the Soviet system, and control of civilian communities by military commanders."

Appointed as chief "political commissar" for the Defense Department (official title: Deputy Asst. Secretary of Defense for Civil Rights) is a 40-year-old "Whiz Kid" by the name of Alfred B. Fitt, whose only prior claim to fame was that he was legal adviser to ex-Governor "Soapy" Williams who bankrupted the State of Michigan. Fitt's first assignment is to set up a super "informer" system within the military establishment whereby all complaints of discrimination will be funneled to him for action appropriate to a dictatorship.

The New Orleans TIMES-PICAYUNE of July 30 printed a directive by Secretary of Defense McNamara, issued a month ago and "effective immediately," which reads:

> "Every military commander has the responsibility to oppose discriminatory practices...not only in areas under his immediate control, but also in nearby communities..."

Thus, with the stroke of a pen, McNamara dragooned the Armed Forces to carry out the unconstitutional policies of the Kennedy Administration in the field of "civil rights."

MANUFACTURING COMPLAINTS

An indication that the supposed anti-discrimination in the Armed Services is blown up out of all proportions is this revealing sentence from the report:

> "Discriminatory conditions may exist even where few complaints are made and the commander should be held accountable to discover and remedy such conditions."

The report recommends that one officer be relieved of all military duties and devote himself entirely to "deal with complaints." The report contains provisions that the identity of the complainant remain anonymous and that the accused not be allowed to face the accuser. To make sure that there will be a steady stream of complaints, the Gesell Report states that "all base personnel should be repeatedly and periodically advised of their right to present complaints."

Also, to guarantee that commanders are well supervised in their so-called duty to eradicate discrimination, Alfred Fitt, Deputy Assistant Secretary of Defense, said that every base will, under the Gesell Report, operate a "monitor" system. This is described as "periodical field checks from personnel from the Department of Defense... in this way commanders' efforts can be measured." Circumventing the time hon-

Misleading Data on Cuba

(Reprinted from THE STATE, Columbia, S.C.)

STATISTICAL JUGGLING has apparently been developed to an unprecedented degree by the Administration in dealing with the Cuban problem — thereby making truth hard to discover.

The latest example of how deceiving figures can be made occurred last week when an administration spokesman claimed economic pressure mounted by this country was about to wreck the Cuban economy.

For example, said the administration spokesman, free world shipping to Cuba had been drastically curtailed by these economic pressures, for in January, 1963, only 12 free

Administration statement, Columnists Robert S. Allen and Paul Scott, who have been remarkably accurate about what has been going on in Cuba, were quoting Naval Intelligence authorities on the number of ships arriving in Cuba during the first six months of this year.

Naval authorities have counted 429 Russian-satellite ships and 205 "Western" ships docked in Cuba since January 1. This is a total of 634, or an average of 106 per month that we know about. And if only 12 free world ships arrived in January, this means that the average

under terms of the Constitution.

In Article I, the Legislative power is delegated to the Congress - the power to pass laws restricted only by the fact that they must not violate the terms of the Constitution.

In Article II, the Executive powers are delegated to the President; who does not "rule," who has no legal monarchical powers, but who may act only within bounds prescribed by the Constitution in carrying out the specific laws passed by the Congress and performing the other tasks specifically delegated to him.

In Article III, the Judicial powers are delegated to the Supreme Court and such lower courts as may be created. But the Supreme Court and others are not given any power to issue decrees that shall alter the law, or extend the law, or amend the Constitution. The judiciary cannot legally and constitutionally do what the political Supreme Court has sought to do.

THE SPECIFICS

Article IV, Section 4, of the Constitution provides that the States shall be guaranteed "a Republican Form of Government" - that is, government by elected representatives who make specific law. This has been violated.

Article IX of the Bill of Rights declares: "The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people." This removes any doubt whether central government may assume unspecified powers.

Article X of the Bill of Rights asserts: "The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the States respectively, or to the people." This clearly rules out Federal action where specific delegation is lacking, as in the cases currently at issue.

An effort is made by the usurpers to get around all of these Constitutional specifics by citing the 14th Amendment. There are three major fallacies in this effort.

The first is that the 14th Amendment was rejected by the States whose ratification was necessary to breathe legality into it. The Southern States during Reconstruction, approved and ratified the 13th Amendment, abolishing slavery. But they rejected the 14th Amendment. If they had the right to approve the 13th, they had equal right to reject the 14th. But radicals then in power responded to the rejection of the 14th Amendment by imposing an army of occupation on the South, bringing about illegal Legislatures in the South to rubber stamp what the legal Legislatures had rejected. And in face of this, the Legislatures of New Jersey and Ohio rescinded their ratification of the 14th Amendment. Thus it was never legally approved and is not legal today.

The second fallacy is a fact even if the 14th Amendment is treated as legal. The amendment simply does not provide for discard of other clear provisions of the Constitution, and does not permit what is being done in its name.

But even if it should be conceded that the 14th Amendment shall be accepted as legal, even if it should be accepted that it does intend and permit the things wrongfully done with it as an excuse, there is a third and fatal fallacy that negates any claim of legality on the part of courts or President.

The 14th Amendment in Section 5 declares:

"The Congress shall have power to enforce, by appropriate legislation, the provisions of this article."

Congress has enacted no legislation in this respect - and the amendment does not allow courts or President to act instead.

WHAT IS IMPORTANT?

Why is it important that these Constitutional and legal principles

UNICEF and Red Algeria

BY THURMAN SENSING

Within days of the announcement by Algerian leaders that they intended to create a Socialist state with close ties to Red China and Russia, the United Nations Childrens Fund had ordered $670,000 in emergency aid sped to that country. The financial assistance had been requested by the Algerian Provisional Government, the group of pro-Communists that now dominate the strategic North African land. Indeed UNICEF was all set to move quickly to aid the Socialist rulers of Algeria, for as early as July a UNICEF representative was in Algeria to study, according to The NEW YORK TIMES, "the resettlement of displaced persons within the country and those returning from Tunisia and Morocco."

These UNICEF actions should be borne in mind by the American public when domestic advocates of that organization come around this Halloween to collect funds "for children," as they say.

UNICEF is presented as the most innocent of international agencies. "How could you possibly oppose a program that aims at helping children?" ask those who raise money for UNICEF. But that question -- and the built-in approach -- avoids the real issue of UNICEF.

One may say that the Russian or Red Chinese governments "help children" to the extent that they supply food or medical supplies to their own populations. But that doesn't mean the American people should help pay the welfare or medical bills of the Russian or Chinese Communist governments. No one would have had the temerity to argue during World War II that the United States ought to have sent money to Nazi Germany to "help children" in the country ruled by Hitler.

It is no real help to children -- and to the adults that they will become -- to help fasten rulers on them that are dedicated foes

country -- and it has gone to such countries in past years -- the money is distributed by Communist officials for Communist objectives. The UNICEF allotment for Algeria will include soap, vitamin capsules, whole milk powder and emergency medical supplies. One would have to be mighty naive to believe that pro-Communist officials in Algeria will give any of these supplies to the hundreds of thousands of Algerians who cooperated with the French authorities. These supplies, one can be sure, will go to Algerian families that are loyal to their new Socialist bosses -- and to no others. Children of families who are opposed to Communist domination of their countries will be left to suffer and die by the new rules of Algeria. Thus, in giving money to Algeria, UNICEF will be helping discriminate against Algerians who are on the side of freedom.

There are many other actions of UNICEF that provide just cause for responsible citizens opposing its operations. The involvement in the financing of the U.N. war on anti-Communist Katanga is in itself justification for refusing to contribute.

But the Algerian gift is a current development and should open the eyes of those who are willing to see the use to which charitable gifts are put by UNICEF officials.

It is to be hoped, therefore, that this Halloween will not be an occasion for requests for additional contributions to UNICEF in the name of "helping children." UNICEF, it can be seen, is more international politics than international charity. Those citizens who want to make some charitable gift this Halloween need not become involved in the political activities of UNICEF. There are dozens of worthwhile charities in every community. One can help children who are in need (including those overseas) without helping pro-Communist governments

Negro man shall be enrolled in the University of Mississippi. The issue is one of dictatorial power vs. the Constitutional rights of the people.

If these changes can be wrought contrary to the Constitution and law, what is to prevent some appointed court from ruling, for example, that in its "interpretation" of the Constitution Americans may have free speech - only if the freedom is not extended to criticism of whatever rulers may be in power?

As one portion of freedom goes, so all may go, if we let it.

This issue of Federal usurpation is vital to freedom because it is the weapon whereby freedom in America today is most threatened with destruction. No external enemy, Communist or any other, so endangers Americans as does unconstitutional government within.

aid to "Algerian children," the net effect is to help impose a Communist-type rule on Algeria. It would be of far greater lasting assistance to the innocent children of Algeria to deny assistance to the Algerian government. If the Algerian government were to collapse, then the children of that country would be truly aided.

Moreover, when UNICEF money is sent to a Communist

(Editor's note: On Monday, October 15, Ahmed ben Bella, Premier of Algeria, was warmly greeted by President Kennedy on the White House lawn with full military honors. Two days later, Ben Bella was equally warmly welcomed by Fidel Castro of Communist Cuba. Ben Bella and Castro issued a joint statement demanding that the U. S. Naval Base at Guantanamo, Cuba, be removed.)

PERTINENT QUESTIONS:

The manner in which the Kennedy Administration has handled the "Mississippi Affair" as compared with the handling by the Eisenhower Administration of the Communist-inspired student riots in San Francisco on May 13, 1960, raises a number of significant questions:

In the San Francisco case, where the U.S. House Committee on Un-American Activities was holding hearings in the San Francisco City Hall, were troops massed in a nearby State in readiness to control the Communist-directed agitation against these hearings?

Was the National Guard federalized to help control the rioting students?

Were six dozen marshals used to escort the members of the House Committee on Un-American Activities in and out of the San Francisco City Hall during the Communist-directed riot?

Were the known and recognized Communist leaders who incited these students to riot whisked off to a mental institution?

The key to these questions is, of course, provided by analyzing what group or principle was being opposed in each instance. In the case of the San Francisco riots, the use of such Federal force would have been -- but was not -- directed against Communism; whereas in the riots at Ole Miss, Federal force was directed against the principle of Constitutional States Rights.

Next question: Which party, if any, seeks to control Communism and preserve Constitutional States Rights?

Tool Of The Autocrat

No matter what the liberals tell you, bayonet rule is not the democratic way.

Trappings Of Tyranny

(Reprinted from CHARLESTON (S.C.) NEWS & COURIER)

Had the Mississippi rioters been Algerians fighting the French, or Congo savages slaughtering white Europeans, American "liberals" might have cheered them on. But they are free born white Americans. Though their anger erupted with the same senseless violence that sweeps through any mob, their resentment has a deep foundation in the history of the Republic. The bayonets that are mopping up pockets of resistance in Oxford are the same weapons that hold down freedom fighters in Hungary and elsewhere in this troubled world. . . .

No wonder that Fidel Castro has applauded the U.S. Government for calling out soldiers to police Mississippi. Castro would welcome deployment of all the U.S. Armed Forces, including the Navy, to enforce racial mingling in the South. Though Castro expresses contempt for U.S. military capability to expel the Communist stronghold in Cuba, he naturally finds comfort in the knowledge that official U.S. attention is involved more ardently inside the country than with foreign aggression. . . .

THE REAL ISSUE

The issue actually is protection of rights - human rights, property rights and the rights of states as contrasted with the power of central government at Washington. . . .

At the rate that events now are turning, any state or community may be next on the list for civil turmoil. Excuses may be found any day to call out troops and oust elected civilian authority. These are the trappings of tyranny. . . .

Our Constitution:
IS IT JUST A SCRAP OF PAPER?

(From the SAN DIEGO UNION)

President Kennedy says that while the U.S. Constitution is a remarkable document we have to remember that it was designed for an agrarian society which feared the power of central government. In the long history of the presidency there has not been a more casual dismissal of the basic instrument of our system of government and of our freedoms.

Mr. Kennedy's remarks were made off-the-cuff to an assembly of high school students brought to Washington to study the value of government service. The President of the United States, standing on the lawn before the White House, told them the Constitution was written during a period of isolation, that it does not provide an automatic light to the future in that all we have to do is to follow the very clear precepts it lays down for us, and it will have to be made to work in a different world from the day in which it was written, both at home and abroad.

Was this a careless statement of a harassed and troubled President, one which in retrospect might be regretted? We don't think so. It has been said before by spokesmen for an administration that chafes under constitutional restraints and legislative processes. Sen. J. W. Fulbright, D-Ark., chairman of the Senate Foreign Relations Committee, in a speech prepared for a conference at Stanford University, said: "The President is hobbled in his task of leading the American people to concensus and concerted action by the restrictions of power imposed on him by a constitutional system designed for an 18th Century agrarian society."

There has been a tendency to separate Mr. Kennedy from the men who surround him or even speak for him, as if a President was so indifferent to his office that he chose for personal advisers men whose opinions he would not welcome or accept. More than 30 former members of the ADA, Americans for Democratic Action, sit in policy positions in the White House and executive offices. Arthur Schlesinger, Jr., a former ADA chairman, is a presidential speech writer. Schlesinger has described the ADA as the non-Communist organization of the American left and once wrote that Capitalists are cowards and Socialism will come about through a succession of New Deals.

It has been hard, perhaps, to face the reality that Mr. Kennedy came to the White House without real strength of conviction or purpose. He even said he felt uncomfortable in the company of Liberals. The White House was a prize. He is still acutely self-conscious in public. During his campaign he tried to proclaim his position in history in the light of Christopher Columbus and George Washington. He asked us to depart from our past and follow him.

While he was vague then, he now listens to what he obviously wants to hear. He speaks of the "cliches of our forebears," of our economic "myths," of the need to adjust ancient prejudices to new realities, and to look ahead to some international "grand design." The ADA has pointed the way for him - left.

In accepting the presidency, Mr. Kennedy took an oath "to support and defend the Constitution of the United States against all enemies, foreign or domestic." A million men have fallen in its name. Are we now going to say it is only a scrap of paper?

Report from
Anti-Communist French Underground

De Gaulle's Political Prisoners

(Editor's note: General Walker was Kennedy's first political prisoner. Now here is an account of what is happening to political prisoners in France. The cream of France's military leadership have been imprisoned by Charles de Gaulle. Their crime? Opposition to De Gaulle's pro-Communist policies and the delivery of French Algeria to the Communists. Since the defense of Generals Jouhaud and Salan by THE INDEPENDENT AMERICAN early this year, we have been in touch with the anti-Communist underground in France. The following report is from a member of the underground, who for his personal safety in De Gaulle's Police State, must remain anonymous.)

The fight here has reached the deadly stage. Sanguinetti (assistant Minister of the Interior) and a man named Foccart (real name Koch) who occupied a post close to de Gaulle similar to Schlesinger's in America, have teams of agents roaming Switzerland, Italy, Belgium and West Germany on false papers. Local Communist "Anti-Fascist Committees" are aiding them and they have a list of names marked for "suppression". A former Surete officer named Plettner has charge of this operation. Orders are to kidnap Jacques Soustelle and Georges Bidault and spirit them into De Gaulle's hand if possible, if not, liquidate them on the spot.

As part of "Common Market country solidarity" the labor unions, Socialists and Communists have imposed the doctrine that no Common Market country may shelter an opponent of another Common Market country's government. This is an insurance policy against any future opposition to themselves.

Briefly, here is the situation in Tulle prison: It is a grim spot on a hillside. Formerly it was a slaughter house - and may well be again. Mirador at each corner flood it with search lights at night and cover all approaches with machine guns. An army barracks, similar to Quonset huts but more permanent, has been built on the slope approaching the prison. Automobiles are not permitted to stop on the road approaching the gate. Tulle, as you know, is an all-Communist district and it is assumed, inside the prison, that any sort of uprising in France to unseat De Gaulle will touch off a district rush on the prison to eliminate the 12 men likely to and capable of leading the army. They figure that is why they are in Tulle.

Ordinary prisoners have been moved to Limoge and Brive, leaving the former slaughter house in Tulle an exclusive political prison. Top of the list as of this date are: Generals Maurice Challe, Zeller, Nicot, Bigot, Faure and Gouraud. (General Petit was with them but he was transferred to Fresnes prison on September 9 because of failing health)

The colonels are: Masselot, Lecomte and de la Chapelle. De la Chapelle is a new arrival, just brought from Marseilles where he spent 4 months in solitary without light.

The commandants are: Denoix de Saint Marc, Robin and Forhan.

No prominent Frenchman can make a gesture of sympathy for these men without risking retaliation that would hurt himself, his liberty or his business. Therefore, you can imagine the deep wave of gratitude within the prison when H.I.H. Prince Napoleon recently braved the whole de Gaulle machine by sending them a big box of food.

Food is bad and the boredom is worse. Government propaganda often reports that the distinguished inmates are fighting among themselves. It is not true. They spend long hours arguing, for want of anything else to do, but on all important points they are united. General Challe is killing time learning English by linguaphone, called Assimil here.

When they get hold of an American publication a prisoner that reads English holds a reading session for the others.

Anyone wishing to send books, magazines or food packages to the officers in Tulle prison should address them to either General Maurice Challe, Prisonier d'Etat, Maison d'Arret, Tulle (Correze),

Who and What Is Behind Th

By Phoebe C

When Major General Edwin A. Walker announced, on November 3, 1961, in a formal statement, that he was resigning his Army commission, his long statement included this sentence:

"I must be free from the power of little men who, in the name of my country, punish loyal service to it."

Who are these "little men" occupying positions of control and power in this nation, who deride patriotism, national sovereignty, and who counsel appeasement of the Soviet Union?

On October 18, 1961, the NEWS & COURIER of Charleston, South Carolina, stated in an editorial:

"To understand the United States today it is necessary to know something about The Establishment."

THE DAN SMOOT REPORT of July 17, 1961, stated:

"The Council on Foreign Relations is the invisible government of the United States by virtue of the fact that members of the Council occupy key positions in the Executive Branch of government from the presidency downward."

The Establishment has also been referred to as an "intellectual Mafia," a term which would appear to be exquisitely appropriate in view of the railroading of former General Walker to a Federal mental-prison-hospital. Because General Walker is well aware of the un-American policies of the Council on Foreign Relations, which in essence are subverting the United States Constitution, he has, judging from recent events, been placed upon the liquidation list by the "powers that be." Apparently the "intellectual Mafia" is willing to resort to any illegality in order to "get" Walker.

WALKER'S TESTIMONY BEFORE SENATE SUBCOMMITTEE

On April 4-5, 1962, General Walker was invited to testify before the Special Preparedness Subcommittee of the U.S. Senate Committee on Armed Services. The press coverage of his two-day testimony, while voluminous, did not cover the most important phase of his testimony, that is, his answers to questions posed to him by Senate Committee members.

Senator Strom Thurmond has done a great service to his country in managing to schedule these hearings into the muzzling of the military who warn of the Communist threat. The following testimony is excerpted from Part 4 of these published hearings, entitled "Military Cold War Education and Speech Review Policies."

In his opening statement, General Walker said:

"With this nation's survival at stake, our armed forces are paralyzed by our national policy of 'no win' and retreat from victory .... The traditional civilian control of the military has been perverted and extended into a commissar-like system of control at all major echelons of command.

THE REAL CONTROL APPARATUS

Senator Bartlett of Alaska asked this question of Walker in the hearings:

"How serious, General, do you regard the internal threat?"

Walker answered: "Very, very serious, Sir."

And then Walker continued:

"The reason we become closer to war and dire peril is because we have been infiltrated, disunified, and our causes and purposes intentionally headed in many various directions."

Senator Bartlett then referred back to the following sentence which appeared in General Walker's initial statement which declared:

"It is evident that the real control apparatus will not tolerate militant anti-Communist leadership by a division commander."

General Walker was asked by Senator Bartlett to say what he meant by the words "real control apparatus." Here is General Walker's reply:

"The real control apparatus can be identified by its effects and what it is doing, what it did, in Cuba, what it is doing

no prominent Frenchman can make a gesture of sympathy for these men without risking retaliation that would hurt himself, his liberty or his business. Therefore, you can imagine the deep wave of gratitude within the prison when H.I.H. Prince Napoleon recently braved the whole de Gaulle machine by sending them a big box of food.

Food is bad and the boredom is worse. Government propaganda often reports that the distinguished inmates are fighting among themselves. It is not true. They spend long hours arguing, for want of anything else to do, but on all important points they are united. General Challe is killing time learning English by linguaphone, called Assimil here.

When they get hold of an American publication a prisoner that reads English holds a reading session for the others.

Anyone wishing to send books, magazines or food packages to the officers in Tulle prison should address them to either General Maurice Challe, Prisonier d'Etat, Maison d'Arret, Tulle (Correze), France. -- Or to Commandant Denoix de Saint Marc, same address. It is best that all mail not be addressed to the same man, so Challe and de Saint Marc have been more or less chosen as receivers for the lot.

In Sante Prison there are now around 900 political prisoners but only 200 are accorded political prisoner status. This means that they can enjoy a common recreation room together, receive papers, books, food parcels and can even send out for meals (if they have any money). Also, they can receive visitors in a sort of parlor. The other some 700 are there for political reasons but given common criminal status: 4 books a week for 5 men, no papers or outside food, one hour walk a day, alone, in a walled pen. Visitors may come twice a month, must stand up to 2 hours in line outside the prison before being admitted, and then speak through a glass in the presence of guards. There has been no word of the delegation that volunteered, from among the 700, to go on hunger strike for full political prisoner status, since the hunger-strikers were taken to the hospital in Fresnes prison on the 13th day of the strike.

Generals Salan and Jouhaud are still in Fresnes, Salan with another trial hanging over him and Jouhaud in death cell. Madame Salan is confined to a convent where her health is failing rapidly and Madame Jouhaud is in an extremely bad state. De Gaulle is playing with both these men, as Madame Challe put it to me, "like a cat playing with a mouse".

NAILING THE BIG LIE

by Congressman James B. Utt

During the closing days of the 87th Congress, there was an important item under consideration on which I voted in the negative. Mine was the only dissenting vote by the California Delegation, and it therefore seems proper that I should give my constituents the reasons upon which I based my decision.

This bill was a resolution authorizing the President to call up 150,000 Reserves. My reasons for voting "No" are as follows:

(1) It appeared to be a repetition of last year's call-up, which the Pentagon admitted was a mistake that cost the American taxpayers over a half-billion dollars. These Reserves were sent to camps which were unable to house them properly and where they were not needed. It disrupted the lives of more than 150,000 men and their families, even though, during this so-called crisis, hundreds of troops in West Germany were "loaned" as props to Darryl Zanuck to film "The Longest Day," picturing the Normandy landing, and while the Wall of Shame was being built in Berlin.

(2) The President does not know how, when, or where to apply military power, and, if he did know, he does not have the courage to use it, as was indicated in his last minute refusal to support the well-planned Cuban invasion at the Bay of Pigs, thereby consigning thousands of Cuban patriots to a living death.

(3) The Administration continues to be bluffed, bullied and blackmailed by the Kremlin, and the call-up of 150,000 Reserves would not alter this "no win" policy nor cure the "yellow fever" to which the Administration has succumbed.

(4) The regular draft call-up during the build-up of the most recent crisis was dropped from more than 10,000 a month to 4,000 a month, indicating no need for additional men.

(5) Just three days before this resolution was considered, the President made a speech by telephone to the Democratic Convention in Columbus, Ohio, in which he said: "When the Democratic Administration came to office in January of 1961, Khrushchev was on the move in Berlin, the Communist Gizenga was on the move in the Congo, Castro and the Communists had taken over Cuba, the Communists were on the move in Laos and South Vietnam [illegible]

Senator Bartlett of Alaska asked this question of Walker in the hearings:

"How serious, General, do you regard the internal threat?

Walker answered: "Very, very serious, Sir."

And then Walker continued:

"The reason we become closer to war and dire peril is because we have been infiltrated, disunified, and our causes and purposes intentionally headed in many various directions.

Senator Bartlett then referred back to the following sentence which appeared in General Walker's initial statement which declared:

"It is evident that the real control apparatus will not tolerate militant anti-Communist leadership by a division commander."

General Walker was asked by Senator Bartlett to say what he meant by the words "real control apparatus." Here is General Walker's reply:

"The real control apparatus can be identified by its effects and what it is doing, what it did, in Cuba, what it is doing in the Congo, what it did in Korea. All these things were done by people. This country is too great for these things just to happen. The apparatus wanted to see these things happen, and the propaganda front that they are using for this, and the means to do it with, is the United Nations."

Senator Bartlett then asked this question:

"But my inference from this statement would be that there exists in this country in positions of ultimate leadership a group of sinister men, Americans, willing and wanting even to sell this country out, is that the correct inference I should gain from this sentence?"

General Walker replied:

"That is correct. Yes, sir . . . When you refer to 'sellout' as the sellout of our traditions, our Constitution, our sovereignty, our independence, that is correct."

Senator Bartlett then stated:

"General, I think that the general public is entitled to know the names of these men, because, according to this statement, they are traitors, and ready to let this country go over to our enemies. Would you name those people?"

General Walker did not fall into this trap. He refused to name any person as a traitor. Instead Walker stated:

"I will name people that are opposite from my line of thinking with regard to the Constitution, the security and the independence of this nation."

And then Walker went on to say:

"I question the following people with respect to our Constitutional system, our sovereignty, our security, our independence: Mr. Dean Rusk * * * * Walt Rostow.

Although General Walker did not name the Council on Foreign Relations, perhaps it would be well to interject at this point that both Dean Rusk and Walt Rostow are members of the Communist-accommodating Council on Foreign Relations.

THE C.I.A.

Possibly the most important part of Walker's testimony revolved around the mysterious governmental agency, the Central Intelligence Agency -- CIA.

Stated General Walker:

"Our conformance to a 'no win' policy has resulted in an obvious demoralizing and downgrading effect on all military intelligence. A key activity in intelligence work is the preparation of estimates: that is, estimates of the enemy's capabilities and intentions. In a cold war world, national policy must be decided on the basis of such estimates. Thus the CIA is in a position to DETERMINE NATIONAL POLICY (emphasis mine) in the sense that it furnished the supposed facts upon which other agencies of government base their conclusions. Miscalculation or inequity in the CIA causes distortion of policy, even if every other agency were highly competent and patriotic. However, there is reason to fear the CIA and the State Department, as well as key officials in other parts of the government, who understand each other very well.

"There is reason to fear, too, that they have one vital relationship reversed: that is, instead of the State Department planning policy on the basis of estimates from the CIA, the CIA furnishes estimates figured out to fit policy already planned and desired by the State Department in conformance with their collaborating, 'no win' policy.

playing with a mouse".

NAILING THE BIG LIE

by Congressman James B. Utt

During the closing days of the 87th Congress, there was an important item under consideration on which I voted in the negative. Mine was the only dissenting vote by the California Delegation, and it therefore seems proper that I should give my constituents the reasons upon which I based my decision.

This bill was a resolution authorizing the President to call up 150,000 Reserves. My reasons for voting "No" are as follows:

(1) It appeared to be a repetition of last year's call-up, which the Pentagon admitted was a mistake that cost the American taxpayers over a half-billion dollars. These Reserves were sent to camps which were unable to house them properly and where they were not needed. It disrupted the lives of more than 150,000 men and their families, even though, during this so-called crisis, hundreds of troops in West Germany were "loaned" as props to Darryl Zanuck to film "The Longest Day," picturing the Normandy landing, and while the Wall of Shame was being built in Berlin.

(4) The regular draft call-up during the build-up of the most recent crisis was dropped from more than 10,000 a month to 4,000 a month, indicating no need for additional men.

(5) Just three days before this resolution was considered, the President made a speech by telephone to the Democratic Convention in Columbus, Ohio, in which he said: "When the Democratic Administration came to office in January of 1961, Khrushchev was on the move in Berlin, the Communist Gizenga was on the move in the Congo, Castro and the Communists had taken over Cuba, the Communists were on the move in Laos and South Vietnam. In the months since, that tide has been reversed. We have taken initiatives in many parts of the world from Vietnam to Berlin. Castro, reduced to a state of desperation, has invited Soviet help, and thereby sealed his own doom in South America and ultimately in Cuba itself."

Such a statement is utterly ridiculous and falls in the category of "The Big Lie" technique. Khrushchev is still on the move in Berlin; Gizenga followers are still moving in the Congo; the Soviet Union has moved into Cuba with heavy military hardware, including missiles capable of reaching the United States at low level without warning; and now a Russian submarine base is being built in Cuba; the Communist troops are still welcome in Laos as a haven for their operations in South Vietnam; and Castro has not been reduced to a state of desperation, but, on the contrary, has built up, with Communist aid, the strongest military base in the western hemisphere, excluding the United States; and instead of sealing his own doom in South America, he is sealing the doom of South and Central America.

"I will name people that are opposite from my line of thinking with regard to the Constitution, the security and the independence of this nation."

And then Walker went on to say:

"I question the following people with respect to our Constitutional system, our sovereignty, our security, our independence: Mr. Dean Rusk * * * * Walt Rostow.

Although General Walker did not name the Council on Foreign Relations, perhaps it would be well to interject at this point that both Dean Rusk and Walt Rostow are members of the Communist-accommodating Council on Foreign Relations.

THE C.I.A.

Possibly the most important part of Walker's testimony revolved around the mysterious governmental agency, the Central Intelligence Agency -- CIA.

Stated General Walker:

However, there is reason to fear the CIA and the State Department, as well as key officials in other parts of the government, who understand each other very well.

"There is reason to fear, too, that they have one vital relationship reversed: that is, instead of the State Department planning policy on the basis of estimates from the CIA, the CIA furnishes estimates figured out to fit policy already planned and desired by the State Department in conformance with their collaborating, 'no win' policy.

"For example, it makes no sense for our government to be talking about sharing space secrets and nuclear secrets with the Soviets * * * *

"I will say that unless we make sure that our intelligence estimates are free of distortions and misrepresentations, unless we take every precaution to get and take into the intelligence accounts all available facts so that we will be in a position to take advantage of our enemy weakness, instead of remaining in awe of exaggerated enemy power, then we will be unable to change our present 'no win' policy.

"I have said before that not all those who are causing us to lose are Communists.

"The supercilious attitude of the State Department toward the military is unjustified by facts, and causes the State Department to ignore many facts, just because they come from a mi-

The Attempt To "Get" Walker?

Courtney, Editor

litary officer . . . .

"There are untold incidents throughout the world of the military and State Department representatives on country teams where the State Department man is always in charge, and where the military man is actually better informed . . . . I was told by an officer that he informed the Ambassador in Turkey that there would be a coup in Turkey within six weeks. The Ambassador implied that he was imagining things. The coup occurred in four weeks.

"Many military men, as well as 'super patriots' correctly anticipated the Communist take-over of Cuba, but the State Department, or the NEW YORK TIMES, either did not anticipate it, OR ELSE WANTED IT TO HAPPEN (emphasis mine). Everything of this sort goes back to estimates, and these are made in CIA . . . . This is the hidden State Department policy being implemented now by Mr. Rusk, and being withheld from public view. . . .

"General MacArthur, Senator Joseph McCarthy, Secretary James Forrestal, Sigmund Rhee, Chiang kai Shek, Tshombe, myself, and others, with more to come, as well as untold thousands who have not made the headlines, have all been framed by this hidden policy * * * * .

"I have been accused of calling people Communists. This is untrue, because I reserve the right to call them something worse, such as traitors to the American system of Constitutional government, national and State sovereignty, and independence."

Unquote testimony by former General Edwin A. Walker.

* * * * * *

WHY WAS WALKER RAILROADED?

On the surface, the Kennedy Administration's vendetta against former General Edwin A. Walker makes little sense. However, even a quick glance at the underlying factors give ample indication that if the Kennedy Dynasty is to remain in power, and even more importantly, if the powers-that-be behind the appeasement policies of this nation are to continue to direct the destiny of the United States, they must "get" Walker -- and quick!

What is actually Walker's "crime" in the eyes of the Kennedy Brothers and the behind-the-scenes manipulator, the Council on Foreign Relations? The answer is tragically simple: Walker, in his testimony before the Special Preparedness Subcommittee of the Senate Committee on Armed Services, revealed the sinister role now being played in the national affairs of this nation by the super-secret department known as the Central Intelligence Agency -- the CIA. It is no surprise that the nation's press, which is dominated in wide areas by the Communist-accommodating Council on Foreign Relations, made no mention of Walker's testimony exposing the CIA. THE INDEPENDENT AMERICAN feels that the nation owes General Walker a debt of gratitude for so graphically pointing out in his testimony the awesome power now wielded by the Central Intelligence Agency.

The CIA has been sold to the American people as a glamorous cloak-and-dagger outfit whose agents roam the world ferreting out

We Are Being Surrendered

By Tom Anderson

(Reprinted from FARM & RANCH)

Washington, D.C. -- We are being surrendered. Congress has passed a disarmament bill. Doubtless many members passed it the same way they did the bill to take us into the U.N. - without reading it. The disarmament bill sets up a Commission (which reports to the President) to expedite disarmament talks in Geneva. Our agents have met there in a 17-nation conference called to surrender our sovereignty and independence, our property, our way of life to the State Department's "Peace by Law" proposal 7277. This is a blueprint for surrender. This is a treason treaty. The plan of Jack's Jackals, our disarmament clique, is to phase-out our entire Defense establishment in easy steps, merging it into the United Nations by 1977. Then U.N. troops will take over everywhere, the beginning of the end. In a few more years there'll be no threat of U.S. troops in Little Rock. If the immigrant from Oxford, J. William Fulbright, has his way there'll be U.N. troops in Little Rock. He's as incurable as the common cold and far more dangerous.

Write your Senator for Public Law 87-297, "The Arms Control and Disarmament Act." Our leaders promoting this plan should be allowed to state their case in court. Their choice of pleas should be limited to incompetency, insanity or treason. Our problem is not fallout, it's sellout.

Who punished patriots like MacArthur, McCarthy, Walker and others who dared defy the Communist enemy our quislings are trying to shield? Who gave positions of power and trust to Fifth Amendment traitors? Who is making our nation a province of the U.N.? Whose unseen hands continue to yield, piece-by-piece, the entire world to the enemy? Who gave China to the "agrarian reformers"? Who helped depose Batista and install Castro, "the George Washington of Cuba"? Who promoted those who made those "mistakes" instead of trying them for treason? Who broke our patriots who "committed accuracy?" The same old gang of internationalists, collectivists, sentimentalists, halfbrights, and traitors. Some, like laughing boy Stevenson, are ever with us. Some, like Owen Lattimore, have reemerged from the woodwork. Some critics accuse the Administration of bungling. I disagree. It's not bungling. They're doing it right. The program is not stupid - it's sinister. Why are we losing everywhere? Treason is the reason.

LIKE A POISONED CANDY BAR

Our State Department is like a poisoned candy bar: A yummy mixture of nuts, fruits, chocolate and jelly, with artificial coloring and flavoring and a tasteless poison added. The American people must rise up in righteous indignation and demand a Congressional investigation of our State Department. The people who are aiding our enemies are our enemies. Our most dangerous enemy, the United Nations, recently gouged us an extra $11 million and cut the assessments of our Communist "friends," Cuba, Yugoslavia, Poland, Albania, Bulgaria and Romania. (This was to help send more troops to the Congo, where, as is customary, the U.N. is on the wrong side.) Doubtless the U.N. received an urgent wire from the Congo: "Send more troops, they're delicious."

The world stands by in disbelief witnessing the decline and fall of the greatest nation in history, sliding into Socialist oblivion with neither a bomb nor a bum dropped.

partment, of the NEW YORK TIMES, either did not anticipate it, OR ELSE WANTED IT TO HAPPEN (emphasis mine). Everything of this sort goes back to estimates, and these are made in CIA . . . . * * * * * *

WHY WAS WALKER RAILROADED?

On the surface, the Kennedy Administration's vendetta against former General Edwin A. Walker makes little sense. However, even a quick glance at the underlying factors give ample indication that if the Kennedy Dynasty is to remain in power, and even more importantly, if the powers-that-be behind the appeasement policies of this nation are to continue to direct the destiny of the United States, they must "get" Walker -- and quick!

What is actually Walker's "crime" in the eyes of the Kennedy Brothers and the behind-the-scenes manipulator, the Council on Foreign Relations? The answer is tragically simple: Walker, in his testimony before the Special Preparedness Subcommittee of the Senate Committee on Armed Services, revealed the sinister role now being played in the national affairs of this nation by the super-secret department known as the Central Intelligence Agency -- the CIA. It is no surprise that the nation's press, which is dominated in wide areas by the Communist-accommodating Council on Foreign Relations, made no mention of Walker's testimony exposing the CIA. THE INDEPENDENT AMERICAN feels that the nation owes General Walker a debt of gratitude for so graphically pointing out in his testimony the awesome power now wielded by the Central Intelligence Agency.

The CIA has been sold to the American people as a glamorous cloak-and-dagger outfit whose agents roam the world ferreting out the enemy's secrets. This would indeed be a worthy occupation, if it were true!

Not only have the American people been hoodwinked by the CIA, but the U.S. Congress itself has fallen victim to the cloak-and-dagger gambit. Each year Congress unquestioningly votes millions of dollars in appropriations to finance the operations of the CIA, and this in spite of the fact that the CIA is so super-secret that it refuses to give any accounting to Congress of its activities or its expenditures. In effect, Congress has, by the passing of these appropriations, delegated a large portion of authority to the super-secret CIA so that that organization is now in a position, as General Walker pointed out in his testimony: "to determine national policy in the sense that it furnishes the supposed facts upon which other agencies of government base their conclusions."

THE CIA - A CREATURE OF THE CFR?

THE INDEPENDENT AMERICAN believes that General Walker's suspicions of the CIA are well-founded. That the super-secret CIA is a creature of the semi-secret Council on Foreign Relations is obvious. During the Republican Eisenhower Administration, Allen W. Dulles was director of the CIA. In the Kennedy Administration, John A. McCone is director of the CIA. Both Dulles and McCone are members of the Council on Foreign Relations.

Because the CFR has managed to place its men in the top position of the CIA, it can be expected that the political bias of the CIA would reflect the policies advocated by the CFR, which, according to CFR publications, are: Advocating giving Foreign Aid to our enemies (such as Red Yugoslavia and Red Poland), and negotiating with the Soviet Union in secret.

DESTROYING OUR MEANS OF PROTECTION

While a large mass of the American people are slumbering in front

Department's "Peace by Law" proposal [illegible] for surrender. This is a treason treaty. The plan of Jack's Jackals, our disarmament clique, is to phase-out our entire Defense establishment in easy steps, merging it into the United Nations by 1977. Then U.N. troops will take over everywhere, the beginning of the end. In a few more years there'll be no threat of U.S. troops in Little Rock. If the immigrant from Oxford, J. William Fulbright, has his way there'll be U.N. troops in Little Rock. He's as incurable as the common cold and far more dangerous.

Write your Senator for Public Law 87-297, "The Arms Control and Disarmament Act." Our leaders promoting this plan should be allowed to state their case in court. Their choice of pleas should be limited to incompetency, insanity or treason. Our problem is not fallout, it's sellout.

Who punished patriots like MacArthur, McCarthy, Walker and others who dared defy the Communist enemy our quislings are trying to shield? Who gave positions of power and trust to Fifth Amendment traitors? Who is making our nation a province of the U.N.? Whose unseen hands continue to yield, piece-by-piece, the entire world to the enemy? Who gave China to the "agrarian reformers"? Who helped depose Batista and install Castro, "the George Washington of Cuba"? Who promoted those who made those "mistakes" instead of trying them for treason? Who broke our patriots who "committed accuracy?" The same old gang of internationalists, collectivists, sentimentalists, halfbrights, and traitors. Some, like laughing boy Stevenson, are ever with us. Some, like Owen Lattimore, have reemerged from the woodwork. Some critics accuse the Administration of bungling. I disagree. It's not bungling. They're doing it right. The program is not stupid - it's sinister. Why are we losing everywhere? Treason is the reason.

LIKE A POISONED CANDY BAR

Our State Department is like a poisoned candy bar: A yummy mixture of nuts, fruits, chocolate and jelly, with artificial coloring and flavoring and a tasteless poison added. The American people must rise up in righteous indignation and demand a Congressional investigation of our State Department. The people who are aiding our enemies are our enemies. Our most dangerous enemy, the United Nations, recently gouged us an extra $11 million and cut the assessments of our Communist "friends," Cuba, Yugoslavia, Poland, Albania, Bulgaria and Romania. (This was to help send more troops to the Congo, where, as is customary, the U.N. is on the wrong side.) Doubtless the U.N. received an urgent wire from the Congo: "Send more troops, they're delicious."

The world stands by in disbelief witnessing the decline and fall of the greatest nation in history, sliding into Socialist oblivion with neither a bomb nor a bum dropped.

Khrushchev doesn't have to bury us. Our leaders are burying us. Our leaders are not fighting Communism - they are promoting it. The no-win policy of our hidden persuaders calls for improving Communism until we can comfortably merge with it. Some big, tax-free foundations are part of the conspiracy to merge us with Russia, to make Socialism appear inevitable. This conspiracy for strategic surrender is designed to bring about world brotherhood, between Communism and Capitalism in a One-World Socialist State.

Surrender? Our surrender is being planned daily, by some of our press, radio, TV, clergymen, and teachers. In a recent poll at a West Coast university on a choice between war and surrender, 60% of the students voted surrender. They've been brought up on a surrender diet. In many of our schools there are now classes in Communism - taught by Socialists. Having Socialists teach anti-Communism is like employing Elizabeth Taylor to teach a course in chastity.

"The Presbyterian Outlook" comments favorably on a book by a theologian named Booth, who writes that "...The Christian conscience does require us to be ready to surrender the political purposes of our nation if the only alternative is intolerable devastation for humanity." Or, in the plainer words used by Dr. John Bennett, Dean of the Union Theological Seminary, in a choice between war and surrender, we should surrender.

God alone can save the world. But God won't save the world alone. Nor will prayer alone. God helps those who help themselves.

DON'T EVER LET "JOHNNY GET YOUR GUN, GET YOUR GUN..."

Recently Robert Kennedy, Attorney General (the most outrageous appointment since Caligula named his horse a consul - and comparable in other ways), ordered the FBI to rouse a newspaperman out of bed at 4 a.m. to answer questions about statements attributed to a steel official. For some strange reason this reminds me of the proposed bill to force the registration of all citizen firearms. That's

CIA so that that organization is now in a position, as General Walker pointed out in his testimony: "to determine national policy in the sense that it furnishes the supposed facts upon which other agencies of government base their conclusions."

THE CIA - A CREATURE OF THE CFR?

THE INDEPENDENT AMERICAN believes that General Walker's suspicions of the CIA are well-founded. That the super-secret CIA is a creature of the semi-secret Council on Foreign Relations is obvious. During the Republican Eisenhower Administration, Allen W. Dulles was director of the CIA. In the Kennedy Administration, John A. McCone is director of the CIA. Both Dulles and McCone are members of the Council on Foreign Relations.

Because the CFR has managed to place its men in the top position of the CIA, it can be expected that the political bias of the CIA would reflect the policies advocated by the CFR, which, according to CFR publications, are: Advocating giving Foreign Aid to our enemies (such as Red Yugoslavia and Red Poland), and negotiating with the Soviet Union in secret.

DESTROYING OUR MEANS OF PROTECTION

While a large mass of the American people are slumbering in front of their TV sets, believing that the CIA is rooting out espionage agents throughout the world, the Council on Foreign Relations, through ITS agents in the Kennedy Administration, is finalizing plans to put all intelligence work under one head who, it can be assumed, would be a member of the Communist-appeasing CFR. (See article by Edith Kermit Roosevelt on this subject which appears elsewhere in this issue)

In years gone by, U.S. intelligence was the finest in the world. When intelligence matters were in the hands of the military, all Americans could be assured that sincere loyal Americans were spying on the enemy, furnishing this country with factual information regarding possible enemy attack, breaking the secret codes of the enemy, etc.

However, now such intelligence matters, which concern the very survival of this nation, are in the hands of the mysterious CIA, which we charge is controlled by the CFR. Truly it presents a fearful picture!

If the CIA has ever been correct in its estimation of enemy potential, the CFR-controlled press surely would have published such evidence. The fact is, the CIA is so dangerously ill-equipped to cope with, or is unwilling to expose, enemy intelligence, that the CIA informed the President that the recent build-up in Cuba by the Soviets was for defensive purposes only! What a perilous position this nation is now in when a private publication such as THE INDEPENDENT AMERICAN Newspaper receives and publishes information from reliable Cuban underground sources regarding the Soviet OFFENSIVE build-up in Cuba, which information the highly touted cloak-and-daggar CIA does not possess. Or, if it does -- it refuses to so inform the President. Or, if the President knows, he refuses to do anything about it!

DO CIA'S SECRET DOLLARS HELP OUR ENEMIES?

As stated previously, each year the U.S. Congress blindly appropriates millions of dollars for the use of the CIA with "no questions asked" as to how these millions of taxpayer dollars are to be spent.

Doubtless a large number of American taxpayers will be shocked to learn that because of this unconscionable action by our representatives in Congress, it is highly possible that their future tax dollars will be used by the CIA to ransom Cuban Freedom Fighters who became prisoners of Castro because of the cowardly, bungling policies of the U.S. State Department during the Bay of Pigs invasion. The NEW YORK DAILY NEWS reported on October 10, "Speculation mounted here tonight that the U.S. Government will pay a large chunk of the ransom for the Cuban Bay of Pigs prisoners through the Central Intelligence Agency, or the President's Emergency Fund."

The NEW YORK DAILY NEWS, in describing how the U.S. was, in effect, submitting to blackmail by Communist Castro, reported that State Department officials "clammed up on what possible role the government was playing . . . . The clear implication was that the U.S. Government was supplying most or all of the rest" (after families and friends of the prisoners had raised $200,000) . . . . The ransom deal calls for $15 million in cash and $40 million worth of food and medicine."

The so-called humanitarian aspect of "food and medicine" is a deliberate deception of the American people. Carlos Todd, editor of the CUBAN INFORMATION SERVICE, had a quick answer for that. Stated Mr. Todd in his October 6 issue of CUBAN INFORMATION SERVICE: "Estimates of payment range from $30 to $60 million worth of food and medicines, which will be delivered straight into Russian hands."

HOW TO DEFEND AMERICA AGAINST THE CIA

Is it not alarming that in this crucial hour we find only one military man, former General Edwin A. Walker, and the editor and publisher of THE INDEPENDENT AMERICAN, willingly to challenge the CIA?

The American people, however, are not powerless to demand a complete investigation of the actions of this mysterious agency, the CIA, in order to determine whether their activities are hurting or helping the international Communist conspiracy. THE INDEPENDENT AMERICAN urges that the next Congress refuse to appropriate one single dollar to finance the appropriations of the CIA until Congress receives a full accounting of previous expenditures, and whether such expenditures in any way helped to defend America against Communist aggression.

The American people should serve notice on the CFR and the CIA that the issue of the highly questionable activities of the CIA is now, thanks to General Walker's testimony, out in the open! The attempt by the "intellectual Mafia" to silence Walker's warning to this nation will not succeed!

press, radio, TV, clergymen, and teachers. In a recent poll at a West Coast university on a choice between war and surrender, 60% of the students voted surrender. They've been brought up on a surrender diet. In many of our schools there are now classes in Communism - taught by Socialists. Having Socialists teach anti-Communism is like employing Elizabeth Taylor to teach a course in chastity.

"The Presbyterian Outlook" comments favorably on a book by a theologian named Booth, who writes that "...The Christian conscience does require us to be ready to surrender the political purposes of our nation if the only alternative is intolerable devastation for humanity." Or, in the plainer words used by Dr. John Bennett, Dean of the Union Theological Seminary, in a choice between war and surrender, we should surrender.

God alone can save the world. But God won't save the world alone. Nor will prayer alone. God helps those who help themselves.

DON'T EVER LET "JOHNNY GET YOUR GUN, GET YOUR GUN..."

Recently Robert Kennedy, Attorney General (the most outrageous appointment since Caligula named his horse a consul - and comparable in other ways), ordered the FBI to rouse a newspaperman out of bed at 4 a.m. to answer questions about statements attributed to a steel official. For some strange reason this reminds me of the proposed bill to force the registration of all citizen firearms. That's the first step. Once the Establishment knows where all firearms are - except those owned by gangsters - the next step of the "collectivists" is to send "gun collectors" to each home to pick them up. (That's what happened in Czechoslovakia before the Communists took over.) "The right of the people to keep and bear arms" is guaranteed in the Second Amendment to our Constitution. Don't ever give up your firearms, fellas.

As Hiram Mann said:

"No man escapes when freedom fails - the best men rot in filthy jails and those who cried, 'Appease! Appease!' are hanged by those they tried to please."

(Editor's note: Adlai Stevenson, Owen Lattimore, and Dr. John C. Bennett, mentioned in the above article, are members of The Establishment's "presidium" - the Communist-appeasing Council on Foreign Relations. If you wish further details regarding the "Who", "What" and "Why" of the Council on Foreign Relations, author of our disastrous foreign policy, order today a copy of AMERICA'S UNELECTED RULERS by Kent and Phoebe Courtney. Price: $2.00, paperback. This new book is available from THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 18, La.)

An editorial in the Patterson (N.J.) CALL bears this bloodthirsty title: "Barnett, Walker, Et Al, Must Feel Law's Lash." In their editorial appears this charge:

"He (Walker) goaded rioters to clash with Federal troops."

What evidence does the CALL have that this took place? General Walker has denied this charge, and his denial is corroborated by eye witnesses.

The MIAMI (Fla.) NEWS, in an editorial by one Bill Baggs, editor, states:

"The former General is quite close to treason. . ."

How dare this Mr. Baggs make such an unsubstantiated charge?

The LOUISVILLE (Ky.) COURIER JOURNAL, whose publisher is Mark Ethridge, a member of the Communist-accommodating Council on Foreign Relations, editorialized:

"Regardless of the outcome of the struggle, the fact remains that Walker, the pin-up boy of the Birchers, is advocating sedition. . . . Calling for armed insurrection against the United States -- and offering to lead it -- is sedition by any definition."

Could it be possible that the LOUISVILLE COURIER JOURNAL has its own private system of judicial procedure, and perhaps in some underground court has tried General Walker in absentia and found him guilty? What proof does that newspaper have that Walker called for "armed insurrection against the United States?"

The PHILADELPHIA (Pa.) BULLETIN echoes the vituperation of the LOUISVILLE COURIER JOURNAL by stating that Walker "appealed to citizens in Mississippi and elsewhere in the United States to take up arms against their government." Is the BULLETIN prepared to furnish proof of this statement?

The Troy, New York, TIMES RECORD editorialized as follows:

"The former Army Major General is guilty of incitement to riot with his call for armed resistance to Federal officials."

Does the Troy TIMES RECORD also have its private little underground courtroom in which it has rendered a verdict regarding General Walker?

We call to the attention of the TIMES RECORD of Troy, New York, and to any other newspaper in this country to which it should apply, the following information. Black's Law Dictionary, in discussing libel, states:

"... Libels have been classified according to their objectives: (1) Libels which impute to a person the commission of a crime . . . .(Newell, Slan. & L. 67)"

Let us refer back to General Walker's original statement as quoted at the beginning of this article, General Walker mentioned a "flag, a tent, and a skillet." He did not -- repeat NOT -- mention guns or weapons of any kind. Rather than "leading" a riot as he has been accused by these Left-Wing newspapers, he proposed to "stand behind Governor Barnett." How can one "lead" a riot by "standing behind" Governor Barnett, who at no time called for the use of arms!

THE CRIME OF LIBEL

The Left-Wing newspaper empires in this country seemingly present an impregnable fortress from which they spew out their words counseling appeasement of Communism and attacking Conservative anti-Communists. However, the Left-Wing press is not as impregnable as it seems. Its greatest vulnerability is its liability regarding libel.

Black's Law Dictionary defines libel as follows:

"A false and unprivileged publication, which tends ... to deprive him (a man) of the confidence, good will, or esteem of his fellow men (Robinson v. Johnson). Any false or malicious writing published of another, when its tendency is to render the party contemptible or ridiculous in public estimation, or expose him to public hatred or contempt, (Talbot v. Mack); or hinder virtuous men from associating with him, (Colbert v. Journal Publishing Company) ... Any publication ... which accuses him of a crime punishable by law ... (Dexter v. Spear) ... Libels have been classified according to their objectives: (1) Libels which impute to a person the commission of a crime,... (Newell, Slan. & L.67)"

THE INDEPENDENT AMERICAN will not [illegible]

At the Victoria Cooperative in Maximo Gomez they began to make tunnels and installations a year ago last May. Sometimes when the tunnels have been open, though this seldom happens, observers have reported the existence of certain installations consisting of five tubes that point upward at a forty-five degree angle. This apparatus is said to be capable of intercepting all planes that come within a thirty five mile range of this point. The roofs of the buildings that surround Cardenas Bay are equipped with heavy artillery.

LAS VILLAS - UNDERGROUND HANGERS

In this Province, the largest concentration of members of the Air Force can be found at the Santa Clara Airport. This Airport was constructed recently and is the largest in the island. Our intelligence has informed us that it possesses underground installations and hangars with ramps on which the planes can taxi to the surface. This Airport has been taken over and is absolutely controlled by the Russian Troops. Not even the Cuban Air Force Chief, Major Almeida, is permitted to enter or inspect the premises. South of the City of Santa Clara, on a piece of land covering an area of two hundred and thirty one acres, is situated the biggest camps holding the greatest number of Russian Troops, dressed in uniforms that differ from those of the Cuban Force. This land is surrounded by eucalyptus trees that easily hide the installations. It is forbidden for anyone to come closer than one thousand and eighty feet from the outer sentries.

San Jose del Lago, formerly considered a tourist Center, is used as a center of aerial observation. Here, there are Russian helicopters and anti-aircraft batteries hidden among the bushes in the northern part of this zone.

In the county of Mayajigua, and in the proximity of the place cited previously, there are steep slopes through which lateral tunnels have been dug in such a way that from them a large extension of the north coast of the Province can be controlled. These

Demand A Cuban Blockade - Now!

There is widespread support for an immediate naval and air blockade of Cuba.

If you want to do something to fight Communism, send today for extra copies of the "Blockade Cuba" petition sponsored by the Conservative Society of America. Help gather signatures on this petition so that the President will know how patriotic anti-Communist Americans feel about his "No Win" policy regarding Communist Cuba!

ed to get away with printing abusive and unfounded statements regarding those who oppose the Communist-coddling actions of the U.S. Supreme Court and of the Administration. Freedom of the press, as guaranteed by the U.S. Constitution, most certainly does not include the right to defame and vilify with unsubstantiated charges or outright lies any and all those who may disagree with the editorial position of a newspaper.

We urge General Walker to seriously consider the possibility of suing each and every single newspaper in this country which has published defamatory statements concerning him, in order to determine if libel has been committed.

It should be recalled that the charges of [illegible]

[illegible] BULLETIN echoes the vituperation of the LOUISVILLE COURIER JOURNAL by stating that Walker "appealed to citizens in Mississippi and elsewhere in the United States to take up arms against their government." Is the BULLETIN prepared to furnish proof of this statement?

The Troy, New York, TIMES RECORD editorialized as follows:

Libels have been classified according to their objectives: (1) Libels which impute to a person the commission of a crime....(Newell, Slan. & L.67)"

THE INDEPENDENT AMERICAN will not engage in the same tactics as do members of the Left-Wing press. We do not say the above-mentioned newspapers are "guilty" of libel, We do say, however, that based on the above legal definition of libel, the courts should be called upon to determine whether or not libel has been committed.

What is so reprehensible about the conduct of the above-named newspapers is that their editorials indicate that they have violated a basic precept of American jurisprudence, which is -- a man is innocent until proven guilty in a court of law.

Instead of the nation's press being "The Fourth Estate," as it is sometimes called, it would appear that some members of the press have become the "second" Supreme Court!

For too long, certain newspapers in this country have been allowed to get away with printing abusive and unfounded statements regarding those who oppose the Communist-coddling actions of the U.S. Supreme Court and of the Administration. Freedom of the press, as guaranteed by the U.S. Constitution, most certainly does not include the right to defame and vilify with unsubstantiated charges or outright lies any and all those who may disagree with the editorial position of a newspaper.

We urge General Walker to seriously consider the possibility of suing each and every single newspaper in this country which has published defamatory statements concerning him, in order to determine if libel has been committed.

It should be recalled that the chances of winning libel suits are excellent. Not too long ago, Commentator Quentin Reynolds won a law suit against Westbrook Pegler, from which a very large settlement resulted. If just a few Conservative anti-Communists throughout the United States slapped a couple of well-founded $1 million law suits for libel against a few of the leading Left-Wing newspapers, it is highly probable that we would see an immediate reversal in editorial policy. These editors would then be restricted to printing only documented statements -- and the brainwashing of the American people by the Left-Wing establishment would be seriously hampered.

And -- one closing thought -- Just imagine what the Conservative movement could do with a $1 million settlement won in such a libel suit! Think of the television and radio time it would buy to spread the anti-Communist message of the Constitutionalists!

[illegible] observation. Here, there are Russian helicopters and anti-aircraft batteries hidden among the bushes in the northern part of this zone.

defenses strengthened with reinforced concrete are hidden by eucalyptus trees. Because of their inaccessible position it is difficult to detect them from the air.

In Placetas and Sancti Spiritus there are other military objectives of great importance. Some of the military equipment coming from six Soviet ships has been stored in the vicinity of Sagua la Grande.

Throughout the whole Province it is impossible not to observe the constant parade of Russian trucks transporting foreign troops.

CAMAGUEY - SOVIET TANKS

In the City of Camaguey near the tenth mile mark on the road leading to Vertientes, a tunnel has been constructed shaped like a T with three exits and it is used as an arsenal, the largest in the Province.

This base is surrounded by land held by groups of men that are there for the purpose of fighting anti-Communist guerrillas that might try to destroy the arsenal. The name of this place is San Jose de los Jibaros.

The road that goes from Camaguey to Nuevitas, on about the fifth mile starting from Camaguey, branches off toward the right to the Pilon Hills, where tunnels have also been constructed. It is there that has been stored the military equipment transported on trucks from the Port of Nuevitas. Another Russian concentration, a Camp of great importance, is located south of this zone.

On the grounds surrounding the Airport at Camaguey, there are numerous heaps of soil concealing underground hangars. The exact number of planes in existence in these hangars is not known exactly.

On the road leading from Minas to Nuevitas, under dense folfage, the Cuban Army keeps a large number of tanks of great magnitude believed to be "Stalins 84." The instructors, as well as those who direct the operation are of a foreign nationality.

The Military Command that leads the Infantry Divisions fighting anti-Communist guerrillas, resides in Vides, near the city of Camaguey. Trained specially for this type of warfare, these batallions use bullet-proof helmets that not even caliber 45 bullets can penetrate.

ORIENTE - FOREIGN TROOPS NEAR GUANTANAMO BASE

There are numerous camps of foreign troops in this Province. The principal ones can be found in the proximity of Cauto Embarcadero, in Victoria de las Tunas, in Baracca, and in the vicinity of Mayari where the Mountains of Nipe have their beginning. Near the Guantanamo Naval Base there are also concentrations of foreign troops.

The Air Strip of the Holguin town has been extended to the outskirts of the Central Cacocun, where the planes operate from underground hangars.

In the Bay of Santiago de Cuba there is a team of frogmen operating. It is reported that they have planted anti-submarine mines at the entrance to the Bay.

MISSILE BASES AIM AT NEW ORLEANS, HOUSTON, MIAMI, CANAVERAL AND PANAMA CANAL

TWELVE MISSLE SITES ARE UNDER CONSTRUCTION IN CUBA

The missile bases are surrounded by tall strong walls with high sentry boxes heavily armed. On the outside, numerous So-

Wide Support For Blockade Of Cuba

The following are statements which have been made by Members of Congress in support of a blockade of Cuba:

CONGRESSMAN LESLIE ARENDS (R-Ill.):

"This Soviet military outpost in Cuba poses more than an ordinary military threat. It is a potential submarine base to harass our shipping. It is a potential missile base to zero in on our cities. It . . . is an observation post to target our space program at Cape Canaveral. . ."

CONGRESSMAN BASIL L. WHITENER (D-N.C.):

"We have had every right under the terms of the Monroe Doctrine to interfere in Cuba . . . . It is a proven fact that the only thing the Communists fear . . . is our determination to protect our rights by force if necessary . . . . I advocate that the United States take such steps as are necessary to effectively seal off Cuba from further shipments of so-called technicians, military materiel, and anything else that is a serious threat to the peace and security of the United States and the Western Hemisphere. . . . The day for action is long overdue."

CONGRESSMAN JOEL I. BROYHILL (R-VA.):

"This Communist build-up already has gone too far. Every day and every ship adds to the blackmail threat and to the difficulty and cost of occupying Cuba in case of war. Now is the time to apply the Monroe Doctrine . . . The blockade of Cuba should be applied at once before any more ships can arrive, regardless of what the Organization of American States may or may not do. . . ."

CONGRESSMAN WILLIAM C. CRAMER (R-FLA.):

"For the first time our cities and towns, our military and industrial complexes, are within easy reach of enemy weaponry . . . . The President, embracing inaction as a policy, has attempted to imply that action is to be equated with rashness. But I submit that inaction is rashness when action is so urgently required . . . .

"I have proposed a pacific blockade of arms shipments from the Communists to Cuba, the recognition of a free, non-Communist government in exile . . . and withholding of aid to countries that aid Cuba directly or indirectly."

CONGRESSMAN JOE D. WAGGONER (D-LA.):

"Before I came to this Congress I advocated a naval blockade of Cuba, and I stand here before you this afternoon advocating the same now . . . .Cheap talk must be supplanted with positive action now. Tomorrow may be too late. I am willing to take whatever risks are involved and so are all red-blooded Americans."

CONGRESSMAN JAMES E. VAN ZANDT (R-PENNA.):

"I believe that we can hasten the day when Castro is dethroned and the Communists are thrown out of Cuba, by preventing, by every means at our disposal, the importation of military supplies, food, medicine and clothing that are essential to the existence of Communism in Cuba. We must encourage every type of resistance possible in and out of Cuba . . . . How much further will we permit the Soviet Union to go before we openly declare that the actions of the Soviet Union in Cuba constitute an attempt on the part of the Soviet Union to extend its system of government to the Western Hemisphere?"

CONGRESSMAN WILLIAM H. HARSHA, JR., (R-OHIO):

"If America is to remain free from domination by an avowed

mm mile starting from Camaguey, branches off toward the right to the Pilon Hills, where tunnels have also been constructed. MISSILE BASES AIM AT NEW ORLEANS, HOUSTON, MIAMI, CANAVERAL AND PANAMA CANAL

TWELVE MISSLE SITES ARE UNDER CONSTRUCTION IN CUBA

The missile bases are surrounded by tall strong walls with high sentry boxes heavily armed. On the outside, numerous Soviet soldiers armed with "pepechas" - Russian machine-guns - stand guard. There is another sentry manned by Cuban soldiers, approximately three hundred and fifty feet from the latter one. The land that rests between the two lines of soldiers is completely mined. No Cuban soldiers or official is allowed to enter these bases.

We have been informed of the location of the following bases:

. . . Pinar del Rio Province: There is a missile base in the region of Paco-Taco, near Soroa, aiming at New Orleans, Houston and the Redstone Missile Arsenal in Alabama.

. . . Matanzas Province: There is a missile base in Camarioca covering Miami.

. . . Las Villas Province: There is a missile base in the farm Buenavista, located on the road leading from the sugar factory Trinidad to the city of Trinidad on the Southern Coast of Las Villas Province.

The importance of this base consists in that it is geographically located on the nearest and most direct distance from Cuba to the Panama Canal.

. . . Oriente Province: There is a missile base in Punta de Mulas near Banes, set up for the possible destruction of Cape Canaveral.

Law of the Land?

(AN EDITORIAL BASED ON A RADIO BROADCAST By LOUISE EVANS)

BILL OF RIGHTS—*The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.*

(Reprinted from AMARILLO (Tex.) DAILY NEWS)

What is the "law of the land"?
What is the difference between a "court order"

CONGRESSMAN JOEL I. BROYHILL (R-VA.):

CONGRESSMAN WILLIAM H. HARSHA, JR., (R-OHIO):

"If America is to remain free from domination by an avowed enemy which openly seeks to destroy us, Russia must be completely cut off from Cuba by blockade. The need is for action and action now . . . . Vacillation, indecision and irresoluteness will not solve the problem, only prolong and aggravate it."

CONGRESSMAN L. MENDEL RIVERS (D-S.C.):

"We are in a pretty bad fix . . . they're loaded for bear in Cuba. They've got missiles, portable missiles. They have submarines which can launch missiles on targets 350 miles away. They can bomb us from Havana to Norfolk, from Havana to St. Louis . . . .

"I say to you that if you are afraid to die now, you'll be afraid to die three years from now . . . We have no help from our friends in Europe . . . They look on this Cuban situation as a unilateral problem -- our unilateral problem.

"A blockade is what we need. We must let the world know that we will blockade Cuba, and that when we blockade Cuba, we will be prepared to let the chips fall where they may . . . I have been a member of the armed services committee for 22 years and have the information from this and other sources to tell you that we have the power today to blockade Cuba now -- knowing we will win!"

LATIN AMERICAN SUPPORT FOR BLOCKADE

Below is a round-up of opinion from Latin American sources regarding the U.S. and Communist Cuba:

PENSA LIBRE, COSTA RICA:

"One would think that, considering the situation, the United States, applying the Monroe Doctrine, should demand that Cuba repel the foreign invaders or -- should Cuba refuse -- they would have to do it for her. From Berlin as well as from Cuba the same question arises: Where and when is there going to be a stop to the Soviet advance?"

FROM QUITO, ECUADOR:

The Equatorian Confederation of Free Labor Unions stated: "It is imperative that the democratic governments of America fight this imminent danger that represents imperialistic Commun-

covering Miami.

. . . Las Villas Province: There is a missile base in the farm Buenavista, located on the road leading from the sugar factory Trinidad to the city of Trinidad on the Southern Coast of Las Villas Province.

The importance of this base consists in that it is geographically located on the nearest and most direct distance from Cuba to the Panama Canal.

. . . Oriente Province. There is a missile base in Punta de Muas near Banes, set up for the possible destruction of Cape Canaveral.

Law of the Land?

(AN EDITORIAL BASED ON A RADIO BROADCAST
By LOUISE EVANS)

BILL OF RIGHTS—*The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.*

(Reprinted from AMARILLO (Tex.) DAILY NEWS)

What is the "law of the land"?

What is the difference between a "court order" and the "law of the land"?

There is only one law of this land—that which is incorporated in the Constitution of the United States, and that which the Representatives of the people—the Legislatures—write into law. The latter must be found to offer no injury to the Constitution before they, too, become the "law of the land."

There is no provision in the Constitution for the Courts or the Presidents to make law. (At only one point may the President attempt to make law, and that is in the making of treaties. But the President must get the "advice and consent" of the U.S. Senate before the treaty becomes law. The U.S. Senate, too, is a Legislative body, elected by the people.)

The Mississippi situation demands that the people take a long look at the phrase, "law of the land."

For instance, let us consider one "court order" of recent times. The U.S. Supreme Court ordered that all members of the Communist Party United States of America register before Dec. 20, 1961. But this "order" was based on "law." The Representatives of the people had passed the Subversive Activities Control Act of 1950. For more than 10 years, the U.S. Supreme Court evaded the issue, accepting the stratagems of those who used legal devices to hold off the application of the Internal Security Act. But on June 5, 1961, the Supreme Court did hold that, first the CPUSA must register by Nov. 20, 1961, then the officers of the party by Nov. 30, 1961, and finally the members of the party by Dec. 20, 1961.

"Have any Federal troops been called out to enforce this court order?" demanded an irate reader Sunday. "Has one Communist registered? Has the Department of Justice deployed federal marshals and called upon the Army engineers to supply marshals in their work of rounding up, arresting, fining and jailing the officers, much less the members of the CPUSA?"

Of course, the answer is no.

However, in the Mississippi situation there is no "law" to bulwark the "court order." Lacking this predicate, the 10th point in the Bill of Rights still prevails.

"I say to you that if you are afraid to die now, you'll be afraid to die three years from now . . . We have no help from our friends in Europe . . . They look on this Cuban situation as a unilateral problem -- our unilateral problem.

"A blockade is what we need. We must let the world know that we will blockade Cuba, and that when we blockade Cuba, we will be prepared to let the chips fall where they may . . . I have been a member of the armed services committee for 22 years and have the information from this and other sources to tell you that we have the power today to blockade Cuba now -- knowing we will win!"

LATIN AMERICAN SUPPORT FOR BLOCKADE

Below is a round-up of opinion from Latin American sources regarding the U.S. and Communist Cuba:

PENSA LIBRE, COSTA RICA:

"One would think that, considering the situation, the United States, applying the Monroe Doctrine, should demand that Cuba repel the foreign invaders or -- should Cuba refuse -- they would have to do it for her. From Berlin as well as from Cuba the same question arises: Where and when is there going to be a stop to the Soviet advance?"

FROM QUITO, ECUADOR:

The Equatorian Confederation of Free Labor Unions stated: "It is imperative that the democratic governments of America fight this imminent danger that represents imperialistic Communism in this continent. It is necessary that the Americans take moral, economic and tenacious action against the Communist threat.

PERUVIAN AMBASSADOR FERNANDO BERCKEMEYER:

Ambassador Berckemeyer, acting dean of the diplomatic corps in Washington, D.C., told a television audience on September 16 that it could be "presumed" that most Latin American nations would support blockade action.

MILITARY MEN SUPPORT BLOCKADE

. . . . According to the AP, on October 11, the American Legion, at its national convention in Las Vegas, called "for overthrow of the Castro government" by "unilateral military action, if necessary."

. . . . Former General Edwin A. Walker stated on September 26: "If an aggressive economic and military blockade is not now made assuredly successful in its essential offensive quality and determination to free Cuba, a volatile public opinion will reflect its angry mood toward losses to Communism throughout the entire world."

. . . . According to a recent article by the syndicated columnists Bob Allen and Paul Scott: "The Joint Chiefs of Staff, who now favor an immediate military blockade, believe Khrushchev is bluffing."

HELP SPREAD THE WORD

Every month, in order to combat the millions of words spewed out by the left-wing press, THE INDEPENDENT AMERICAN distributes thousands of free sample copies.

These sample copies are paid for by the contributions sent in by our supporters, who wish in this way to fight against the Socialists who have infiltrated every part of our government.

If you believe in the work we are doing, and if you wish to help us spread the message of Americanism contained in THE INDEPENDENT AMERICAN, then please contribute to our "Distribution Fund" to help finance these free sample copies. Just make your check out to The Independent American, P. O. Box 4223, New Orleans 18, La.

Mental Health - A Political Weapon

By Mary Helen Brengel

An Associated Press story in the NEW ORLEANS TIMES-PICAYUNE of October 13, 1962, announced that Dr. Winfred Overholser of Washington, D.C., has been appointed by the government as the psychiatrist they wish to examine Major General Walker, in company with Dr. R. L. Stubblefield of the Southwest Medical Center in Dallas. According to the AP story, Dr. Stubblefield was selected by General Walker's defense; Dr. Overholser was until recently "head of St. Elizabeths Hospital, a government mental facility in Washington, D.C."

Perhaps it would be well to briefly go into the background of this Dr. Overholser. In July, 1949, Dr. Winfred Overholser, then Superintendent of St. Elizabeths Hospital, was appointed to head a committee to study Alaska mental health problems.

The Alaska Mental Health Bill was drafted for the purpose of carrying out the recommendations of the Overholser Committee in 1950. Labelled "A Bill to provide for the hospitalization of the mentally ill of Alaska, and for other purposes," the bill provided that $12-1 2 million and one million acres (approximately 1,562 square miles) of land be granted to the Territory of Alaska by the United States.

Critics of the Alaska Mental Health Bill pointed out that the number of mental patients in Alaska needing care averaged only 345 at any given time. Since the care of 345 mental patients did not seem to justify the appropriation of the entire income to be derived from one million acres of land, and since the bill contained provision for the transport of patients to or from any State its critics termed the bill a plan for a "Siberia - U.S.A."

Dr. Winfred Overholser, driving force behind the Alaska Mental Health bill testified before a subcommittee of the House which studied the bill before it was submitted for vote to the House. It was reported at that time that Dr. Overholser did his best to discourage any change in the Act which would permit an appeal to a jury. At one point Overholser stated that the demand for a jury would come only from "your more paranoid patients, those who have a lot of ideas of persecution." Dr. Overholser enunciated before the committee the strange doctrine of employing the power of the State to force Americans to undergo asylum care and treatment for alleged mental conditions which are in no way dangerous to the safety of the general public. He spoke of the "economy" of getting these persons early, before their alleged illness has progressed to a point where it can be recognized as such by the layman. Dr. Overholser declared that the fate of these individuals is a matter for doctors to decide, and left the impression that he hoped the day might come when physical as well as psychological disorders may become subject to the interest of the government.

At this point, perhaps it would be well to raise the question: Dr. Overholser is a government psychiatrist. Has he been licensed by any State to practice medicine? If not, who, or what group of doctors, has attested to his capabilities to practice medicine? Surely this point should be clearly established.

One of the most outspoken opponents of the Alaska Mental Health Act was the late Congressman Usher L. Burdick, who said:

> "What is the cause of this sudden movement for the cure of the mentally sick? Heretofore the States have pretty well taken care of this subject . . .
>
> "This does not suite the One-Worlders, those who have set out, through UNESCO, a branch of the United Nations to train men's minds to make their thinking and conduct fit into a One World government. Should any individual resist such a move, this mental health program fostered by the United Nations will, they say, gradually influence him to a different course of thinking -- to accept it gradually, or be forced to it by explosive means . . . .
>
> "This Congress, by a slick move, quietly slipped a bill through the House providing that the place to put these 'mentally ill' persons (that is, persons who do not agree with the powers that be) is in Alaska, and $12-1 2 million and one million acres of land in Alaska have been authorized for this pur-

Strange Associations Of Defense Secretary McNamara

By Edith Kermit Roosevelt

The latest report of the President of the Center for Democratic Institutions sheds new light on the continuing mystery of the power wielded by Pentagon aide Adam Yarmolinsky and the related issues of the military muzzling and our "no win" policy.

This report, issued March 31 of this year, lists Defense Secretary Robert S. McNamara as a "founding member" as does the report for 1959-60. Joseph P. Lyford, who handles the Center's public relations in New York, recently told this writer that McNamara had contributed to the Center to the tune of at least $1,000 annually since it was founded in 1959 by the Fund for the Republic.

The Center, which is now the Fund's main activity, was established to divert attention from the Fund's controversial activities which were the subject of a report by the House Un-American Activities Committee. This report was suppressed after pressure was applied.

The Center's power is seen by the fact that Yarmolinsky, who formerly headed the Fund for the Republic's Washington office, is now special assistant to Defense Secretary McNamara. Yarmolinsky's mother, Babette Deutsch, told a reporter last spring that McNamara considered her son the one man who was "indispensable" to him and that the Defense Secretary would accept no other man. Yarmolinsky was the author of a slanted report in August, 1955, "Case Studies in Personnel Security," which attacked our Federal Security system. But an attack on our security system by Center personalities is no departure. On August 6th, W.H. "Ping" Ferry, vice president of the Fund for the Republic, accused FBI Director J. Edgar Hoover of peddling "sententious poppycock" in building a false legend of Communism's strength.

Even after this attack, McNamara still did not dissociate himself publicly with the Fund for the Republic and its creature, the Center for Democratic Institutions in Santa Barbara, California. Indeed, how could he since his Defense policies from the beginning have paralleled the Center's "Study of War & Democratic Institutions" instituted in 1959?

The administration's "no-win" policy is spelled out in a preface to this pamphlet by Reinhold Niebuhr, vice-president emeritus of Union Theological Seminary, stating: "We are involved in a race which neither we nor the Russians can win."

Walter Millis even visualizes surrender. In the Center pamphlet "Permanent Peace," February 1961, he states on page 6:

"If the price of avoiding all-out thermonuclear war should prove to be acquiescence in the 'Communist domination of the world'. . . it seems probable that the price will be paid.'

Other parallels between Defense Department policies and the "educational" studies of the tax-exempt Fund for the Republic are:

(1) McNamara's continuing build-up of the Army's Special Forces to wage guerrilla warfare. In "The Peace Game," a working paper prepared for the Center and published in the Saturday Review of Literature, Sept. 24, 1960, Millis pictures a world in which organized warfare has been eliminated and issues are decided by guerrillas. Are these guerrillas to be used to free Hungary or Cuba, or, more likely, to create Socialist governments in Angola, Katanga and throughout South America?

(2) McNamara's proposed cutback in the National Guard and reserve units. Millis, Center staff member, writes in "Individual Freedom and the Common Defense," a Fund for the Republic pamphlet published in November 1957, that "the ready reserve and its training tend to lose what little realism they ever had." (Page 26)

Civilian armed forces controlled by separate state governments might stand in the way of the planners!

(3) Sweeping changes to centralize power inaugurated by McNamara throughout the Defense Department including a plan to centralize all intelligence agencies into one single agency.

In "The Constitution and the Common Defense," a Fund for the Republic pamphlet published in February, 1959, Millis states on page 35.

"Foreign and military policy must be unitary; this means that in the last analysis it must be dictated by a single government authority

Act was the late Congressman Usher L. Burdick, who said:

"What is the cause of this sudden movement for the cure of the mentally sick? Heretofore the States have pretty well taken care of this subject . . .

"This does not suite the One-Worlders, those who have set out, through UNESCO, a branch of the United Nations to train men's minds to make their thinking and conduct fit into a One World government. Should any individual resist such a move, this mental health program fostered by the United Nations will, they say, gradually influence him to a different course of thinking -- to accept it gradually, or be forced to it by explosive means . . . .

"This Congress, by a slick move, quietly slipped a bill through the House providing that the place to put these 'mentally ill' persons (that is, persons who do not agree with the powers that be) is in Alaska, and $12-1 2 million and one million acres of land in Alaska have been authorized for this purpose. This land is to be sold and the proceeds used in supporting the Alaska Mental Health program handled by the Territory of Alaska . . . .

"The proponents of UNESCO -- and they are entrenched in State and Federal governments -- declare at once that those who disapprove their conspiracy are crazy, or use the sweeter language, that they are suffering from paranoid delusions.'....

"This whole program is a brainwashing procedure borrowed from the Russians . . . , and embraces the same finesse in execution that the Communists in Russia have used and are now using . . . ."

Little has been heard of the Alaska Mental Health program since the passage of this 1956 Act. But with the apparently renewed use by the Kennedy Administration of mental health charges as a political tool against outspoken critics of Administration policies, such as General Walker, many people are caused to wonder if a "Siberia, U.S.A." actually exists today in Alaska.

It should be asked -- why has the government chosen Dr. Winfred Overholser to examine General Edwin A. Walker? Could it be because Dr. Overholser is an advocate of Federal power to induce asylum care and treatment of persons who are not recognizable as mentally ill by anyone other than Dr. Overholser?

Defeat Kennedy's Candidates in November Election

While the long-range aims of the Communist Party and the Kennedy Administration, in the suppression-by-armed-force of the Constitutional rights of free Americans, are frequently in full accord, never before has it been so obvious as in the Federal occupation of Oxford, Mississippi.

Applauding the dictatorial actions of the Kennedy Brothers, spokesmen for the Communist Party U.S.A. released a statement of their position to the Associated Press on October 2:

"We support all acts of federal intervention . . . to suppress this rebellion. We fully support moves by President Kennedy in this direction."

Indeed, our country has traveled far. Now, when a State seeks to stand up for its Constitutionally-guaranteed rights the President and the Communist Party are in complete agreement as to what should be done: crush this "rebellion" with tear gas bombs and bayonets!

Opposing force with force will not, of course, correct the situation. The question is not how to fight Federal troops already in Mississippi, but rather how to fight the kind of political thinking that sanctions the illegal dispatching of armed troops to enforce a judicial violation of the Constitution.

Here is what the Charleston, S.C., NEWS &COURIER had to say, in a recent editorial, about how to keep Kennedy's Congressional accomplices from continuing to aid him in his drive for total power:

"Though political issues are confused today in both parties, the demonstration of military might at Oxford, Mississippi, may help to shock the citizens of all regions into realization of the distance down the road that our free country has traveled in recent years.

(2) McNamara's proposed cutback in the National Guard and reserve units. Millis, Center staff member, writes in "Individual Freedom and the Common Defense," a Fund for the Republic pamphlet published in November 1957, that "the ready reserve and its training tend to lose what little realism they ever had." (Page 26)

DON'T BE DECEIVED BY HIS "BOLD" TALK

Congress has now adjourned, after having passed a weak-worded resolution against Cuba which did nothing more than approve the highly dangerous do-nothing status quo of the Kennedy Administration. However, informed observers feel that in the closing days of this year's Congressional campaign, President Kennedy will come forward on a nationwide television broadcast with some ringing declaration calculated to "sell" the American people on the belief that he now intends to take firm action regarding Cuba.

In his attempt to drum up votes for Democrat candidates, Kennedy just may go so far as to propose a blockade of Cuba. But it will take a lot more than a mere last-minute nationwide broadcast to convince thoughtful Americans that the leopard has changed his spots!

Further, it should be recalled that at the last minute, Kennedy called off air cover for the ill-fated Bay of Pigs invasion by the Cuban freedom fighters. What, then, is to prevent him from making a "bold pronouncement" about a blockade prior to the November elections, and then, as soon as the elections are over, reversing his position and returning to his stance of "do nothing"?

It will be recalled that when Kennedy was campaigning for the presidency, he stated that his Cuban policy was to "let Castro know that we do not intend to be pushed around any longer."

In view of Kennedy's past performance -- or, rather, lack of performance -- only official newsreel photographs of a naval and air blockade around Cuba will now convince the American people that he means business! We believe that the American people have been fooled for the last time by Kennedy's campaign promises.

HOW NEAR?

Cuba is only 750 miles from the Panama Canal, 90 miles from Key West, 200 miles from Miami, 400 miles from Cape Canaveral and 600 miles from the U.S. Naval Station in Puerto Rico.

--Clayton Rand

No Appeasement Then!

In 1849, Spain was believed to be negotiating with England with a view toward ceding Cuba to England. The full impact of the Monroe Doctrine was contained in a message imparted to the Spanish Ambassador by the U.S. State Department. The Spanish Ambassador was told:

"This Government is resolutely determined that the island of Cuba shall never be ceded by Spain to any other power than the United States. The cession of Cuba to any foreign power would, in the United States, be the instant signal for war."

>
> "Since the language the Kennedys best understand is politics, we can best display our feelings by voting against the Kennedy candidates at the polls in November."

Investigate the platforms of your Congressmen and Senators. If you agree with what they say, check the records to see if they VOTE the same way they talk. If they talk and vote Conservatively ... if they oppose the Socialist, Communist-accommodating policies of the Kennedy Brothers, then vote for them on November 6 regardless of their party affiliation.

But if your elected representatives in Congress are merely rubber stamps and boot polishers for the Kennedy administration, voting for every piece of Socialist, welfare legislation in order to preserve their political hides, LET THEM KNOW YOU ARE WORKING TO DEFEAT THEM. Your vote in the November election may be one of your last opportunities to exercise a free choice at the polls.

Deliberate Plan for U S A

(Reprinted from CHARLESTON (S.C.) NEWS & COURIER)

s the mounting disaster that J.S. foreign policy essentialrooted in presidential indeon? Sources as far apart as ie magazine and the conserve National Review have gested this to be the circumce.

our considered opinion, ing could be further from truth. Indeed, it would be for the United States were difficulties so simply exied. Determined patriots might force on a confused executive a policy which ast occasionally put the inits of this nation above all

far from floundering aimy, the Kennedy administrahas worked and is working d a goal all too few have ecognized. This goal is an mmodation with the Comit enemy. The apparent tainty affected by the Pre: from time to time is no than a means of stalling pressure from irate citihas subsided temporarily e next step toward ultireconciliation with interal Socialism can be safe-n.

hant, Red-sympathizing Secretary General of the Nations, put the idea with ible clarity when he pre- the easing of world ten- through a gradual meeting mingling of Commu- Free World concepts, accident that the pre- .S. Government has so ely supported the Burmese candidacy for the post of permanent Secretary General.

The chief method adopted by the President and his coterie to attain accommodation is the "no-win" policy exposed by Sen. Strom Thurmond. Evidence of the policy's implementation is revealed not only in such negative episodes as the Laotian surrender, but also by positive attempts to prove an essential unanimity of purpose with the Red enemy.

Thus, in Algeria, in Ghana, in Indonesia, we strive to outdo Moscow and Peiping in lending aid and support to regimes whose Communist ties and sympathies are undeniable. Similar competition long has been under way for the Communist states of Poland and Yugoslavia.

The aim is not to overthrow the Communists, but rather to surpass them at their own revolutionary game. In the jargon of Marxist ideology, we have entered fully into a contest of "Socialist" competition. Whatever the outcome, Socialism will be the victor, and freedom everywhere the loser.

In short, John Fitzgerald Kennedy & Co., have both a definite program and plans to put it into effect. Whether program and plans would be tolerated by American citizens once they understood is another matter. Deliberate attempts to hide real administration purpose suggest strongly that the Kennedyites have their doubts about consent of the people.

Eyewitness Describes Brutality of Federal Marshals

(Reprinted from New Orleans TIMES-PICAYUNE)

New Orleans - Oct. 9

Mississippi state Sen. John C. McLaurin charged here Tuesday night that federal marshals deliberately incited rioting on the University of Mississippi campus, beat students and invaded domitories a half-mile from the rioting.

The federal marshals, he said, were on the campus "for the purpose of inciting students to riot. For that is what the Kennedy brothers wanted so they could send their mass of troops."

'FIRED INTO BACKS'

Sen. McLaurin said he watched the start of violence from a position immediately behind the line of federal marshals. Nothing larger than an egg was thrown, he said. And the students, at the urging of highway patrolmen, were moving from the marshals, he added.

"Out of a clear blue sky," the senator said, "this man (Chief Marshal James) McShane, who is a guerilla, gave the order 'let 'em have it—gas.' "

Then Sen. McLaurin said the marshals fired gas canisters directly into the backs of the patrolmen and into the students, "not just into the ground to release the gas."

The senator asserted that about 150 students were put into a "dungeon (a storage room)" into which about 15 persons could comfortably stay.

'BEATEN WITH STICKS'

Gas in the room was so intense that marshals kept their masks on, the senator said, but they did not give masks to the students. The students were beaten with sticks "if they made the slightest movement or talked to one another," he charged.

He said the students were not allowed to go to rest rooms for six to seven hours, were given no food or water for 10 to 12 hours, were held 12 to 15 hours, then were released without charge.

Backing his assertion that the federal authorities incited violence, the senator said marshals went a half-mile away from the disturbance and tear-gassed a dormitory in which boys were sleeping and studying.

ACTIONS HELD ILLEGAL

He said a girls' dormitory also was the object of a tear gas attack and that some girls were forced to flee half-dressed and others in night clothes.

Sen. Mc Laurin said the actions of President Kennedy and his brother, Attorney General Robert F. Kennedy, in Mississippi were illegal.

He asked, "Are we, as Americans, willing to sit idly by and allow two power-hungry brothers to assume jurisdiction over a sovereign state?

Earlier, Sen. McLaurin had deviated from his prepared text to note that the pistols carried by U. S. marshals were .38-caliber.

He said Guihard was shot in the back with a .38 caliber bullet. "I leave it to your judgment —he was on our side—as to who shot Paul Guihard," the senator continued.

The recently published book, AMERICA'S UNELECTED RULERS, is indeed one that every single American citizen should read. I am not prepared to state whether or not every single fact

sonally believes that your book, AMERICA'S UNELECTED RULERS, is an accurate presentation and am pleased that the work has been completed. Together with Dan Smoot's book

[illegible] affected by the President from time to time is no more than a means of stalling until pressure from irate citizens has subsided temporarily and the next step toward ultimate reconciliation with international Socialism can be safely taken.

U Thant, Red-sympathizing acting Secretary General of the United Nations, put the idea with admirable clarity when he predicted the easing of world tensions through a gradual meeting and mingling of Communist and Free World concepts. It is no accident that the present U.S. Government has so resolutely supported the Burlatsky thesis. It is no accident that the Kennedyites have their doubts about consent of the people.

surpass them at their own revolutionary game. In the jargon of Marxist ideology, we have entered fully into a contest of "Socialist" competition. Whatever the outcome, Socialism will be the victor, and freedom everywhere the loser.

In short, John Fitzgerald Kennedy & Co., have both a definite program and plans to put it into effect. Whether program and plans would be tolerated by American citizens once they understood is another matter. Deliberate attempts to hide real administration purpose suggest strongly that the Kennedyites have their doubts about consent of the people.

FAREWELL, G. O. P. !

(Reprinted from THE AMERICAN PURPOSE Newsletter, Edward Albertson, Editor)

Somewhere during his wanderings through the ivied walls of Harvard, or possibly the London School of Economics, Mr. Kennedy must have picked up an esoteric Socialist doctrine asserting that one wrong turn deserves another. Having fumbled the ball with "Whizzer" White, he came right back with an equally unqualified man in Arthur Goldberg. Of course, from a Socialist point of view, Arthur is well qualified, having served as an attorney for Big Labor and as a board member of the Carnegie Endowment for International Peace and a Director of the Ford Fund for the Republic, both of which, as we have pointed out before, are affiliated with the vast Foundation empire of Nelson Rockefeller. His elevation to the bench also maintains the seat of the CFR (Council on Foreign Relations), since retiring Justice Frankfurter was a CFR man, as is Goldberg.

One of the more amazing aspects of this appointment was portrayed in newspaper stories under headlines such as this: "GOP Leaders Laud Goldberg Appointment." Among the leaders quoted were Senate Minority Leader Everett Dirksen, Sen. Barry Goldwater and Rep. William Miller, Republican National Chairman. If men of such high standing in the Republican Party can take this me-too attitude about such an obviously bad appointment which will insure the Liberal-left of a large measure of control over all phases of our economic and political life, then the GOP has truly outlived its usefulness, and those patriots who are interested in preserving their freedoms under God and the Constitution must begin to look elsewhere. It has been our hope that we could stay within the GOP and work for a general reform of its leftward swing toward Socialism, but it grieves us to be forced to admit that there seems little likelihood of such reform taking place.

AVE ATQUE VALE

Therefore, and with a heavy heart, we say, "Farewell, GOP. We have fought in your battles and voted for your candidates for 30 years, albeit, the last few with some misgivings. Party loyalty may be highly commendable, but it is also a two-way street. You are no longer serving our purpose, the American purpose, but some mad, Socialist scheme of your own. It is not easy to sever a connection of such long standing, but the time has come to do so. We herewith give you into the loving hands of Nelson Rockefeller, Jacob Javits, Thomas Kuchel, Clifford Case and Richard Nixon. May you and they find comfort in your declining years."

Support Proposition 24 In California

Californians will be afforded [illegible] session. It imposes conditions

from the marshals," he added.

"Out of a clear blue sky," the senator said, "this man (Chief Marshal James) McShane, who is a guerilla, gave the order 'let 'em have it—gas.' "

Then Sen. McLaurin said the marshals fired gas canisters directly into the backs of the patrolmen and into the students, "not just into the ground to release the gas."

The senator asserted that about 150 students were put into a "dungeon (a storage room)" into which about 15 persons could comfortably stay.

'BEATEN WITH STICKS'

Gas in the room wa. so intense that marshals kept their masks on, the senator said, but they did

[illegible] said the actions of President Kennedy and his brother, Attorney General Robert F. Kennedy, in Mississippi were illegal.

He asked, "Are we, as Americans, willing to sit idly by and allow two power-hungry brothers to, assume jurisdiction over a sovereign state?

Earlier, Sen. McLaurin had deviated from his prepared text to note that the pistols carried by U. S. marshals were .38-caliber.

He said Guihard was shot in the back with a .38 caliber bullet. "I leave it to your judgment —he was on our side—as to who shot Paul Guihard," the senator continued.

Congressman John Rousselot Comments On The New Book, "America's Unelected Rulers"

The recently published book, AMERICA'S UNELECTED RULERS, is indeed one that every single American citizen should read. I am not prepared to state whether or not every single fact which you enunciate is absolutely true, but you have certainly bent over backwards to document your case in every possible way.

The fact that you have taken such great pains to thoroughly explore all the activities of the Council on Foreign Relations and its related organizations and personnel is important to our American Constitutional Government. Those who may disagree with your position are now forced to document their case if there is another side to be presented. There are those in our society who would be unwilling to believe that the Council on Foreign Relations has presented such a threat to our free republic.

I am one of those who personally believes that your book, AMERICA'S UNELECTED RULERS, is an accurate presentation and am pleased that the work has been completed. Together with Dan Smoot's book, THE INVISIBLE GOVERNMENT, this should begin to wake up our American citizenry.

As you know, I have introduced a resolution which calls for a complete investigation of the State Department and its policy direction. My investigation contemplates a complete review of the part played by the Council on Foreign Relations in molding our foreign policy.

I wish we had more authors who were willing to investigate such "sensitive" subjects.

(Editor's note: To obtain your copy of AMERICA'S UNELECTED RULERS by Kent and Phoebe Courtney, order from THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 18, La. Price: $2.00

Our Own Ships, Yet!

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

During World War II, the United States handed over to Russia 10.8 billion dollars worth of lend-lease material, including 121 merchant ships.

Russia still has 84 of them. Russia, in fact, has stolen them, refusing to give them back or to pay for them.

Now the State Department has admitted that "five or possibly six" of those Russian-held U.S. ships have been used by the Russians to carry arms to Communist Cuba in the current flagrant violation of the Monroe Doctrine and and threat to American security.

With a shrug, the State Department indicates we are helpless to do anything about this situation. But we are not helpless at all.

These are only "five or possibly six" of the ships that an American naval blockade of Communist Cuba could stop and prevent [illegible]

? seat of the CFR (Council Foreign Relations), since re- ing Justice Frankfurter was a FR man, as is Goldberg.

One of the more amazing as- cts of this appointment was rtrayed in newspaper stories der headlines such as this: GOP Leaders Laud Goldberg ppointment." Among the lead- s quoted were Senate Minori- Leader Everett Dirksen, Sen. arry Goldwater and Rep. Wil- am Miller, Republican Nation- Chairman. If men of such high anding in the Republican Party n take this me-too attitude Party loyalty may be highly commendable, but it is also a two-way street. You are no longer serving our purpose, the American purpose, but some mad, Socialist scheme of your own. It is not easy to sever a connection of such long stand- ing, but the time has come to do so. We herewith give you into the loving hands of Nel- son Rockefeller, Jacob Javits, Thomas Kuchel, Clifford Case and Richard Nixon. May you and they find comfort in your declining years."

ipport Proposition 24 In California

Californians will be afforded rare opportunity in the No- ember elections to cast their otes to outlaw Communists and ubversives in the State by oting "Yes" on Proposition 4. Fifty thousand volunteers btained a million signatures in rder to qualify this initiative easure for inclusion on the alifornia ballot.

According to California State ssemblyman Louis Francis, ho is the author of the bill, "This is the first time in Cali- ornia's history where an ini- iative measure has qualified n the ballot by a volunteer rass roots movement, with- ut any professional assistance, nd without paying for the cir- ulation of petitions or signa- ures."

Proposition 24 denies Com- munist and subversive organi- ations political party status nd any tax exemptions. It fur- her requires teachers and ther employees of public edu- ational institutions to answer ongressional and legislative ommittee inquiries concerning ommunist affiliation and sub- version. It imposes conditions on the use of public buildings and property.

The argument in support of Proposition 24 which will ap- pear in the voter's pamphlet for the California general elec- tion points out "It has been repeatedly proved that the Com- munist Party is especially con- centrating on California, as documented by the 1961 report of the State Senate Fact-Finding Subcommittee on Un-American Activities . . . . Despite the increasing need, there has been no major anti-subversive legi- slation in California for a de- cade. During the 1961 legisla- ture, 18 anti-subversive mea- sures were introduced by eight different legislators, but not one was enacted into law. . . ,"

THE INDEPENDENT AM- ERICAN strongly recommends to its California readers that they vote "Yes" on Proposition 24 in November. And -- other States -- please note! Voters throughout the U.S. would like a chance to cast their votes against Communism!

Patriotism And Presidents

Patriotism means to stand by he country.

It does not mean to stand by the President or any other pub- lic official save exactly to the degree in which he himself stands by the country.

It is patriotic to support him insofar as he efficiently serves the country. It is unpatriotic not to oppose him to the exact extent that by inefficiency or otherwise he fails in his duty to stand by the country.

In either event, it is unpa- triotic not to tell the truth - whether about the President or anyone else - save in the rare cases where this would make known to the enemy information of military value which would otherwise be unknown to him.

--THEODORE ROOSEVELT

Council on Foreign Relations has presented such a threat to our free republic.

Our Own Ships, Yet!

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

During World War II, the United States handed over to Russia 10.8 billion dollars worth of lend-lease material, including 121 mer- chant ships.

Russia still has 84 of them. Russia, in fact, has stolen them, re- fusing to give them back or to pay for them.

Now the State Department has admitted that "five or possibly six" of those Russian-held U.S. ships have been used by the Russians to carry arms to Communist Cuba in the current flagrant violation of the Monroe Doctrine and and threat to American security.

With a shrug, the State Department indicates we are helpless to do anything about this situation. But we are not helpless at all.

These are only "five or possibly six" of the ships that an Ameri- can naval blockade of Communist Cuba could stop and prevent from supplying Reds in Cuba. And, incidentally, while stopping these lend-lease ships, we could see to it that they are returned to their proper owner from the thieving aggressors who are using them against us.

But the Kennedy Administration seems content to let Russia con- tinue to build a Communist satellite 90 miles from our shores, as the "Kennedy Doctrine" of inaction has supplanted the Monroe Doc- trine against outside intervention in the Western Hemisphere.

The violation of the Monroe Doctrine justifies imposition of naval and aerial blockade to seal Castro Cuba off from the rest of the world. It would not be easy to take such action; but failure to take action now may confront us with far more serious problems with far more difficult solutions later.

WAR ON "THE THUNDERBOLT"

By Adras LaBorde

(Reprinted from ALEXANDRIA (La.) DAILY TOWN TALK)

If nothing else, the threat by the States' Rights Party of Louisiana to sue an organization calling itself the "National States' Rights Party" has restored to the limelight a political entity which has not been heard from in quite a while.

And whether or not a suit is actually filed, the threat may put a crimp in the circulation — via the U. S. mails — of one of the most reprehensible hate publications to appear in a long time.

E. Otis Edgerton of Alexandria, chairman of the state central committee of the States' Rights Party of Louisiana, who announced the possibility of a suit last week, describes the publication as "despicable, abhorrent, antisemitic."

The publication, the Thunderbolt, carries a Birmingham, Ala., masthead. But a good many persons in this area received "sample copies" recently in plain envelopes postmarked New Orleans.

SECRET MEETING A-LA-NAZI

There is skulduggery at the crossroads, and Mr. Edgerton wisely emphasizes that there is not now nor has there ever been any connection between the States' Rights Party of Louisiana and the national organization whose name the Thunderbolt uses.

Back in May of 1961 about 30 persons representing themselves to be officials of the National States' Rights Party held a secret meeting in New Orleans. When police officers turned up, with cameras, the delegates made an exit through the back door of the meeting hall.

All were wearing shirt patches with a white lightning bolt symbol, like the one used on the front page of the Thunderbolt.

None of those in attendance would disclose their identity or tell reporters who their leader was. Some shielded their faces with scarves as they scurried out of the building. A reporter recognized one of the delegates as an attorney who once was president of the White Educational Assn., a highly questionable outfit, and the attorney told him: "You'd better get moving, kid." Another delegate, described as a "guard," helped the reporter get moving with physical force.

2. THREATENED WITH SUIT

In the wake of this secret meeting, David C. Treen of New Orleans, who was then chairman of Louisiana States' Righters, issued a statement in which he minced no words in expressing displeasure — and disassociation — with the "National States' Rights Party."

A Dr. Edward R. Fields of Birmingham promptly advised Mr. Treen that if he did not retract parts of the statement he, Dr. Fields, would file suit. He also said he would sue Kent Courtney, who was than a States' Rights leader.

As far as I can ascertain, neither Mr. Treen nor Mr. Courtney was ever sued.

HOW CAN THEY GET BY?

How this sheet called the Thunderbolt can circulate with impunity, through the mail, is difficult to understand.

Conservative Protest

. . . From Page 1

attend and participate in this Thursday afternoon seminar.

J. BRACKEN LEE AND CLAYTON RAND TO SPEAK

The featured speakers at the Thursday banquet will be J. Bracken Lee, Mayor of Salt Lake City, former Governor of the State of Utah, and a member of the board of advisors of the Conservative Society of America; and Clayton Rand, noted humorist, author, columnist, and public speaker.

"BLOCKADE CUBA" EVENTS

The morning of Friday, November 16, will again be devoted to a seminar on conservative political action, in which leaders and members of various Conservative groups throughout the country will participate.

However, beginning at noon on Friday, events will focus on "Blockade Cuba" activities. The luncheon speaker will be Dr. Tirso del Junco, chairman, American Committee to Free Cuba, Inc.

During Friday afternoon there will be reports from the Cuban underground, including eye-witness accounts of the Communist Russian buildup inside Cuba. A prominent feature of the afternoon's activities will be a panel of exiled Cuban business leaders, who will give firsthand accounts of what happens to Free Enterprise when Communism takes over a country.

CONGRESSMAN ROUSSELOT AND DR. PENABAZ, SPEAKERS AT "BLOCKADE CUBA" RALLY

The first order of business at the "Blockade Cuba" Rally Friday night, November 16, will be a roll-call of the States, recognizing participants from the various States which are represented in attendance. Then will come a graphic display of thousands of signed "Blockade Cuba" petitions which have been received by THE INDEPENDENT AMERICAN and the Conservative Society of America.

One of the featured speakers at the "Blockade Cuba" Rally, which is free and open to the public, will be Congressman John Rousselot of California, a member of the anti-Communist John Birch Society, a graduate in Political Science and Business Administration, and one of America's staunchest advocates of a strong and uncompromising anti-Communist foreign policy. The other featured speaker will be Dr. Fernando Penabaz, graduate of Duke University School of Law, who received his Doctor of Laws degree from Havana University, and practiced law for 18 years in Cuba. Now in exile, Dr. Penabaz has a weekly radio broadcast over 114 stations in 11 Latin American countries, and writes a newspaper column for the FORT LAUDERDALE DAILY NEWS. Dr. Penabaz is considered one of the foremost authorities on the extent of Communist aggression in the Western Hemisphere. Because of his connections with the Communist Cuban underground he can be expected to reveal, during his speech, inside information which, heretofore, has not been disclosed.

GENERAL CLYDE J. WATTS, ATTORNEY FOR GENERAL WALKER, SATURDAY LUNCHEON SPEAKER

The subject of General Watts' luncheon talk will deal with the "behind-the-scenes" story of the "kidnapping" of General Edwin A. Walker by Federal authorities, and the fact that General Walker is the Kennedy Administration's First Political Prisoner. Everyone who wants to know the truth about General Walker will want to attend this luncheon.

CONFERENCE OF CONSERVATIVE POLITICAL PARTIES

Harold Poeschel, a member of the Conservative Party of New Jersey, will expose the falsity of pseudo-Conservatives who carry out the plans of the Socialists within the framework of both old parties.

None of those in attendance would disclose their identity or tell reporters who their leader was. Some shielded their faces with scarves as they scurried out of the building. A reporter recognized one of the delegates as an attorney who once was president of the White Educational Assn., a highly questionable outfit, and the attorney told him: "You'd better get moving, kid." Another delegate, described as a "guard," helped the reporter get moving with physical force.

2. THREATENED WITH SUIT

In the wake of this secret meeting, David C. Treen of New Orleans, who was then chairman of Louisiana States' Righters, issued a statement in which he minced no words in expressing displeasure — and disassociation — with the "National States' Rights Party."

A Dr. Edward R. Fields of Birmingham promptly advised Mr. Treen that if he did not retract parts of the statement he, Dr. Fields, would file suit. He also said he would sue Kent Courtney, who was than a States' Rights leader.

As far as I can ascertain, neither Mr. Treen nor Mr. Courtney was ever sued.

HOW CAN THEY GET BY?

How this sheet called the Thunderbolt can circulate with impunity, through the mail, is difficult to understand.

Attn.: N. Y. State Voters

Conservatives in the State of New York will have an opportunity on November 6 to cast their votes in opposition to both the Rockefeller Internationalists and Kennedy's New Frontier Democrats by voting for David H. Jaquith, candidate of The Conservative Party, for the governorship of New York.

Here is an excellent opportunity for Conservatives to prove to the nation as a whole, that Conservatives CAN provide the "balance of power."

THE INDEPENDENT AMERICAN Newspaper strongly recommends that Conservative New Yorkers cast their votes for David H. Jaquith for Governor of New York State in the knowledge that their votes will help to defeat Nelson Rockefeller's 1964 presidential aspirations.

11th Dist.: Marjorie Schwester, Conservative, to replace 100% pro-Socialist Hugh J. Addonizio, Democrat (not running).
12th Dist.: Harrison P. Smith, Jr., Conservative, opposing 85% pro-Socialist Rep. George M. Wallhauser, Republican incumbent.
14th Dist.: Kenneth Walsh, Conservative, opposing 100% pro-Socialist Rep. Dominick V. Daniels, Democrat incumbent.

NEW YORK
SENATE - Kieran O'Doherty, Conservative, opposing Left-Wing Internationalist, 92% pro-Socialist Jacob K. Javits, Republican incumbent. Campaign Headquarters: 350 Lexington Ave., New York City.

of California, a member of the anti-Communist John Birch Society, a graduate in Political Science and Business Administration, and one of America's staunchest advocates of a strong and uncompromising anti-Communist foreign policy. The other featured speaker will be Dr. Fernando Penabaz, graduate of Duke University School of Law, who received his Doctor of Laws degree from Havana University, and practiced law for 18 years in Cuba. Now in exile, Dr. Penabaz has a weekly radio broadcast over 114 stations in 11 Latin American countries, and writes a newspaper column for the FORT LAUDERDALE DAILY NEWS. Dr. Penabaz is considered one of the foremost authorities on the extent of Communist aggression in the Western Hemisphere. Because of his connections with the Communist Cuban underground he can be expected to reveal, during his speech, inside information which, heretofore, has not been disclosed.

GENERAL CLYDE J. WATTS, ATTORNEY FOR GENERAL WALKER, SATURDAY LUNCHEON SPEAKER

The subject of General Watts' luncheon talk will deal with the "behind-the-scenes" story of the "kidnapping" of General Edwin A. Walker by Federal authorities, and the fact that General Walker is the Kennedy Administration's First Political Prisoner. Everyone who wants to know the truth about General Walker will want to attend this luncheon.

CONFERENCE OF CONSERVATIVE POLITICAL PARTIES

Harold Poeschel, a member of the Conservative Party of New Jersey, will expose the falsity of pseudo-Conservatives who carry out the plans of the Socialists within the framework of both old parties. His topic will be "America Needs a New Political Party -- NOW!!"

Following Mr. Poeschel's provocative talk, there will be panel discussions and plans for action aiming at 1964.

MAKE YOUR PLANS TODAY TO ATTEND THE THREE-DAY CONSERVATIVE PROTEST CONFERENCE IN CHICAGO!

Regular subscribers of THE INDEPENDENT AMERICAN will note that an invitation pamphlet, which includes a registration and participation form, is enclosed with their subscription copy of this newspaper. Please fill out the reservation panel and mail to us indicating your plans to attend this three-day meeting.

If you are not a subscriber of THE INDEPENDENT AMERICAN and you wish further details regarding this three-day Conservative Protest Conference, Air Mail or telegraph immediately to Kent Courtney, publisher of THE INDEPENDENT AMERICAN, Post Office Box 4223, New Orleans 18, Louisiana; or telephone UNiversity 5-1613. You will be sent by return mail a copy (or copies) of the Conservative Protest Conference invitation folder containing full information and reservation blanks.

What will it profit mankind to win the space race, gain the moon, and explore the great uncharted sea of space, if we lose the earth to the Communists? -- J. Kesner Kahn

LOONY-GO-ROUND

By Congressman H. R. Gross

Few people realize the magnitude of the financial support the United States has given to United Nations operations in the Congo and the Middle East.

Through June 30, 1962, we have contributed $57,633,673 for the U.N. Emergency Force in the Middle East, $114,489,290 for military operations in the Congo and $98,271,953 in support of the U.N. economic program in the Congo. This comes to a grand total of $270,394,916 --- or well over a quarter of a billion dollars!

Included in the amounts we have spent on the Middle East continues to vanish. For the first time in 17 years some $500 million worth of gold had to be removed from Fort Knox, Kentucky, to meet the foreign demand. This, reportedly, leaves the gold supply at Fort Knox at $12 billion -- less than enough to meet the commitments to foreigners if they demand payment in gold.

It is interesting to note that in 1960-61, the U.S. increased its foreign aid program to Argentina. Yet in those two years, Argentina sent 150 million American dollars to this coun-

votes in opposition to both the Rockefeller Internationalists and Kennedy's New Frontier Democrats by voting for David H. Jaquith, candidate of The Conservative Party, for the governorship of New York.

Here is an excellent opportunity for Conservatives to prove to the nation as a whole, that THE [illegible] AMERICAN Newspaper strongly recommends that Conservative New Yorkers cast their votes for David H. Jaquith for Governor of New York State in the knowledge that their votes will help to defeat Nelson Rockefeller's 1964 presidential aspirations.

LOONY-GO-ROUND

By Congressman H. R. Gross

Few people realize the magnitude of the financial support the United States has given to United Nations operations in the Congo and the Middle East.

Through June 30, 1962, we have contributed $57,633,673 for the U.N. Emergency Force in the Middle East, $114,489,290 for military operations in the Congo and $98,271,953 in support of the U.N. economic program in the Congo. This comes to a grand total of $270,394,916 -- or well over a quarter of a billion dollars!

Included in the amounts we have spent on the Middle East Force and the military force in the Congo are VOLUNTARY contributions totaling $64,856,449. Although the U.N. General Assembly was quick to adopt resolutions calling on the larger member nations to make "sizable additional contributions," over and above their regular assessments, it should come as no surprise that Uncle Sucker was the only one to respond.

The same resolutions provided for reductions in the assessments of a number of member nations by 80 per cent, INCLUDING SEVERAL COMMUNIST COUNTRIES. What all this means, in effect, is that your hard earned tax dollars have been used to meet a substantial share of the financial obligations of several countries in the Soviet bloc. This is an incredible situation.

OUR VANISHING GOLD

The United States gold supply continues to vanish. For the first time in 17 years some $500 million worth of gold had to be removed from Fort Knox, Kentucky, to meet the foreign demand. This, reportedly, leaves the gold supply at Fort Knox at $12 billion -- less than enough to meet the commitments to foreigners if they demand payment in gold.

It is interesting to note that in 1960-61, the U.S. increased its foreign aid program to Argentina. Yet in those two years, Argentina sent 150 million American dollars to this country, demanded gold in exchange, and got it. This kind of financial manipulation is beyond comprehension.

A $75 MILLION PALACE

Now comes a news dispatch that $75,000,000 is to be spent in rebuilding the presidential palace in Saigon, Viet Nam, the southeast Asian country into which the U.S. has poured hundreds of millions of dollars in economic and military assistance.

It isn't clear from the news dispatch how the palace is being financed but one of two things is crystal clear: (1) if American taxpayers are being plucked for $75 million to rebuild this palace then the U. S. officials who gave approval ought to have their heads examined, and (2) if the Viet Nam government has that kind of money for such purpose it doesn't need another dime from the taxpayers of this country.

TO WARN THE NATION

GENERAL EDWIN A. WALKER PLANS NATIONWIDE SPEAKING TOUR

Rev. Hargis and Gen. Walker

Patriots across the nation will have an excellent opportunity to show their admiration for two of America's outstanding anti-Communist leaders - former Major General Edwin A. Walker and the Reverend Billy James Hargis. We urge the readers of THE INDEPENDENT AMERICAN and members of The Conservative Society of America to do everything possible to make this tour of these two outstanding patriots a tremendous success.

In describing his cross-country tour with Edwin A. Walker, Dr. Hargis stated:

"I chose General Walker to make this tour with me, because no man in our day, except the soldier who lies forgotten in a lonely cemetery on a battlefield, has paid a greater price to preserve freedom than Edwin Walker. He has become a symbol of freedom and resistance to the growing tyranny of dictatorial Socialism and Communism.

"With the Justice Department's recent failure to present a shred of evidence to justify their charges against General Walker at Oxford, and his resulting total and complete vindication, there is a greater demand from across the nation for him to appear [illegible] at any time since his return from

Refuting Official Denials

Here's Proof Of Soviet Missiles In Cuba

On February 6, the Kennedy Administration staged a two-hour television show, including the melodramatic use of visual aids, starring Secretary of Defense McNamara and John A. McCone, Director of the Central Intelligence Agency. The purpose of this TV extravaganza was to attempt to convince Congressional critics and a vast segment of the American people that: (1) the Administration is not withholding information from the people regarding the increasing Soviet military build-up in Cuba, and (2) the Administration has the situation well in hand.

On both counts, the TV show failed of its purpose.

Discussing the theatrically staged TV-Press Conference, the SHREVEPORT TIMES stated:

"Why should anyone believe one single solitary word that the Kennedy Administration says about Cuba now, after the long record of falsehood, part truth, and deception last Fall? Is there any reason to believe that the official spokesmen who were 100 per cent wrong then, either through intent to deceive, or through colossal ignorance, now are right?"

It will be recalled that in October-November, 1961, issue of THE INDEPENDENT AMERICAN, in an article entitled "Proof of Communist Jet and Missile Build-Up in Cuba", we revealed the presence of Soviet missilesin Cuba. It was not until approximately one year later, after repeated official denials, that the Kennedy Administration, on October 22, 1962, finally admitted that Red missiles and missile-launching pads had been installed in Cuba.

On the TV "whitewash" show of February 6, John A. McCone, Director of CIA, stated that a "relatively small amount of Soviet military equipment" has reached the island of Cuba since the October crisis. And then McCone added, "We are convinced beyond reasonable doubt that all offensive missiles and weapons known to be in Cuba were withdrawn soon thereafter."

In assessing Mr. McCone's "assessment" of the intelligence situation, it should be recalled that when he was being interrogated by a Senatorial committee as to his qualifications to be head of the CIA, McCone frankly admitted that he had had no previous experience in intelligence matters, a fact which has now become quite obvious. Further, Mr. McCone, who holds this highly sensitive post, as head of CIA, is a member of the Communist-accommodating Council on Foreign Relations

[illegible] to show their admiration for two of America's outstanding anti-Communist leaders - former Major General Edwin A. Walker and the Reverend Billy James Hargis. We urge the readers of THE INDEPENDENT AMERICAN and members of The Conservative Society of America to do everything possible to make this tour of these two outstanding patriots a tremendous success.

In describing his cross-country tour with Edwin A. Walker, Dr. Hargis stated:

"I chose General Walker to make this tour with me, because no man in our day, except the soldier who lies forgotten in a lonely cemetery on a battlefield, has paid a greater price to preserve freedom than Edwin Walker. He has become a symbol of freedom and resistance to the growing tyranny of dictatorial Socialism and Communism.

"With the Justice Department's recent failure to present a shred of evidence to justify their charges against General Walker at Oxford, and his resulting total and complete vindication, there is a greater demand from across the nation for him to appear in patriotic rallies than at any time since his return from Europe.

In a personal interview, we learned from General Walker that he, undoubtedly, will be speaking on the military aspect of our national policies with special emphasis on the Cuban situation. General Walker said that only an on-site inspection in Cuba by United States Army troops would be satisfactory to the majority of the American people. General Walker also stated that he will raise questions concerning the advisability and the constitutionality of turning American Armed Forces over to the United Nations as is outlined in the State Department pamphlet No. 7277.

The Left-wing press must be shown that American patriots everywhere support General Walker in his fight to expose the appeasers in Washington who are trying to disarm the United States. Every auditorium should be filled to overflowing so that this nationwide tour of General Walker's will receive the maximum amount of publicity as he and the Reverend Billy J. Hargis will inspire and electrify audiences across the nation.

TAX CUT GLITTER ONLY FOOL'S GOLD

(Reprinted from ROCKFORD (Ill.) REGISTER-REPUBLIC)

Americans found out today the price they will have to pay for those income tax slashes that sounded so good when first proposed by President Kennedy.

In his 9,000-word tax message to Congress, the President called for sweeping reforms in income tax deductions that would all but wipe out any gains realized by the average American homeowner and family man by an income tax cut.

Hardest hit would be the breadwinner who is trying to whittle away at the mortgage on his house and raise his family in the established American tradition.

New limitations on present allowable deductions for such items as charity contributions, mortgage and other interest, real estate and sales tax, casualty losses and medical costs hit where they hurt the most.

The new plan would permit taxpayers to deduct combined interest, charity, local tax, casualty and medical expenses only to the extent they exceed 5 per cent of gross income, and would sharply reduce tax credits to individuals on dividends received.

Writing of deductions into this nation's tax laws over the years has been done for the most part on an equitable basis. Basic protection against unjust levies against the average taxpayer have been taken into consideration.

Sharp changes in the income tax deduction structure threaten to wreak havoc in the average American family's economic structure.

The incentive of a citizen to own his own home, to take a more responsible role in the community, would be dulled by the knowledge that he no longer could deduct the full amount of interest payments on his mortgage. Sales of homes could drop with a resulting slowup of the entire national housing machinery.

Deductibility of major medical expenses, which otherwise might have erased a family's life savings, has provided millions of Ameri-

INDEPENDENT AMERICAN, in an article entitled "Proof of Communist Jet and Missile Build-Up in Cuba", we revealed the presence of Soviet missiles in Cuba. It was not until approximately one year later, after repeated official denials, that the Kennedy Administration, on October 22, 1962, finally admitted that Red missiles and missile-launching pads had been installed in Cuba.

On the TV "whitewash" show of February 6, John A. McCone, Director of CIA, stated that a "relatively small amount of Soviet military equipment" has reached the island of Cuba since the October crisis. And then McCone added, "We are convinced beyond reasonable doubt that all offensive missiles and weapons known to be in Cuba were withdrawn soon thereafter."

In assessing Mr. McCone's "assessment" of the intelligence situation, it should be recalled that when he was being interrogated by a Senatorial committee as to his qualifications to be head of the CIA, McCone frankly admitted that he had had no previous experience in intelligence matters, a fact which has now become quite obvious. Further, Mr. McCone, who holds this highly sensitive post, as head of CIA, is a member of the Communist-accommodating Council on Foreign Relations.

Secretary of Defense McNamara repeated McCone's statement, by saying that he believed "beyond any reasonable doubt" that Soviet offensive weapons have been removed from Cuba, and have not been brought back. McNamara also stated that the United States considers weapons now in Cuba to be "defensive," because Cuba does not have the "amphibious capability to move large quantities of military equipment suddenly into another Latin American country." Also that the United States has "positive evidence" to knock down rumors that Russia is establishing submarine bases in Cuba. McNamara said he likewise is "satisfied that there are no major elements of an offensive weapons system in the caves of Cuba."

CIA man McCone, in the TV show, stated that Soviet military personnel on the island reached a peak of 22,000 during September and October, but some "5,000 troops associated with the offensive missile system have left."

And then on the following day - Thursday, Feb. 7, President Kennedy, backing up McCone and McNamara, stated "It is our judgment, based on the best intelligence that we can get, that there are no offensive weapons in Cuba."

PROOF THAT CUBA NOW BRISTLES WITH OFFENSIVE WEAPONS

Regarding the "relatively small amount of Soviet military equipment" that has reached Cuba since October, and that "all offensive missiles and bombers, . . were withdrawn soon thereafter," here is what Senator Strom Thurmond, a Major General in the U.S. Reserves, stated on February 4:

"Whether the Soviets did actually remove missiles from Cuba is becoming moot. The question lingers because in no instance were bare missiles revealed to our observers of Soviet ships leaving Cuba. There was no indication that any of the half-dozen missile launch rings and other supporting equipment for the IRBM's were aboard departing Soviet vessels. . . ."

On the TV show, McCone stated that the number of Russian troops now in Cuba is around 17,000. This is disputed by Senator Thurmond, who declared that: "Reliable sources estimate the forces in Cuba under the command of Soviet General C. O. Slazenko to be between 30,000 and 40,000, with supporting air and naval units."

Completely refuting McCone's and McNamara's statements regarding the "relatively small amount of Soviet military equipment," Senator Thurmond stated:

"The value of the Soviet-supplied military equipment exceed $1 billion. This equipment includes approximately 600 tanks, of such late model types as the T-54, T-34 and JS-2, and amphibious tanks; more than 200 armored personnel carriers and scout cars have been observed; more than 2,000 artillery pieces are in the Soviet-Cuban arsenal, including 76 and 122 mm. guns and howitzers, 57 mm. anti-tank guns and assorted anti-aircraft pieces; and more than 1,000 mortars have been counted, some of which are as large as 180 mm. The rocket launcher inventory, a part of which was displayed in the January Havana parade, numbers in the thousands. Conventional artillery is supplemented by nuclear-tipped FROG Missiles, with a 300-mile range. There appear to be four battalions of these missiles. Vehicles to support the combat force are well over the 15,000 figure.

"The 24 sites of surface to air missiles are stocked with only slightly less than 1,000 missiles, mostly SA-2s, but including an increasing number of SA-3s, which are effective against both high altitude and low altitude aircraft."

electrify audiences across the nation.

TAX CUT GLITTER ONLY FOOL'S GOLD

(Reprinted from ROCKFORD (Ill.) REGISTER-REPUBLIC)

Americans found out today the price they will have to pay for those income tax slashes that sounded so good when first proposed by President Kennedy.

In his 9,000-word tax message to Congress, the President called for sweeping reforms in income tax deductions that would all but wipe out any gains realized by the average American homeowner and family man by an income tax cut.

Hardest hit would be the breadwinner who is trying to whittle away at the mortgage on his house and raise his family in the established American tradition.

New limitations on present allowable deductions for such items as charity contributions, mortgage and other interest, real estate and sales tax, casualty losses and medical costs hit where they hurt the most.

The new plan would permit taxpayers to deduct combined interest, charity, local tax, casualty and medical expenses only to the extent they exceed 5 per cent of gross income, and would sharply reduce tax credits to individuals on dividends received.

Writing of deductions into this nation's tax laws over the years has been done for the most part on an equitable basis. Basic protection against unjust levies against the average taxpayer have been taken into consideration.

Sharp changes in the income tax deduction structure threaten to wreak havoc in the average American family's economic structure.

The incentive of a citizen to own his own home, to take a more responsible role in the community, would be dulled by the knowledge that he no longer could deduct the full amount of interest payments on his mortgage. Sales of homes could drop with a resulting slowup of the entire national housing machinery.

Deductibility of major medical expenses, which otherwise might have erased a family's life savings, has provided millions of Americans a route to renewed financial stability.

And what about charitable donations? There is no evidence that this deduction provision has been abused. Our churches, Community Chests and hundreds of other charitable agencies depend upon the donations of American taxpayers, large and small, for survival.

Building programs undertaken by these same churches, schools and universities, based on present and future pledges by large and small taxpayers, would be endangered.

Cuts in deductions for taxes already paid at a local or state source result in double taxation.

President Kennedy has dangled the attractive bait of an income tax slash before the noses of every American, and then replaced it with an odorous tax deduction scheme that undermines the principles of just taxation.

The attitude of the big government boys these days is geared to further elimination of control by the people over how they spend their hard-earned dollars. Americans are too sensible to fall for the false glitter of the Kennedy administration's tax bait.

Kennedy, backing up McCone and McNamara, stated [illegible] judgment, based on the best intelligence that we can get, that there are no offensive weapons in Cuba."

PROOF THAT CUBA NOW BRISTLES WITH OFFENSIVE WEAPONS

Regarding the "relatively small amount of Soviet military equipment" that has reached Cuba since October, and that "all offensive missiles and bombers, . . were withdrawn soon thereafter," here is what Senator Strom Thurmond, a Major General in the U.S. Reserves, stated on February 4:

"Whether the Soviets did actually remove missiles from Cuba is becoming moot. The question lingers because in no instance were bare missiles revealed to our observers of Soviet ships leaving Cuba. Conventional artillery is supplemented by nuclear-tipped FROG Missiles, with a 300-mile range. There appear to be four battalions of these missiles. Vehicles to support the combat force are well over the 15,000 figure.

"The 24 sites of surface to air missiles are stocked with only slightly less than 1,000 missiles, mostly SA-2s, but including an increasing number of SA-3s, which are effective against both high altitude and low altitude aircraft."

NEW LONG-RANGE SOVIET MISSILES ARRIVE

Refuting McNamara's statement that Soviet offensive weapons have not been brought back, Senator Thurmond said:

"More than 100 cruise missiles, some of which arrived within the last three weeks, are on four coastal defense sites. Estimates of ballistic missiles with a 1,100-2,200 mile range in underground facilities run between 100 and 200. These ballistic missiles are supported by the latest in radar and communications equipment. Indeed, the military communications set-up in Cuba is rated as among the best in the world. The strategic importance attached by the Soviet to their missile deployment in Cuba is demonstrated by the continuing assignment in Cuba of Soviet Lt. Gen. Pavil B. Dankevich, prominent Russian expert in strategic missiles. A reported shipment to Cuba recently of atomic warhead materials

E WATCH ON THE POTOMAC

Losing Our Nuclear Shirt

By Fulton Lewis, Jr.

WASHINGTON, Jan. 28 - The diplomats who represent this untry in disarmament negotiations with the Soviet Union have icle Sam in danger of losing his nuclear shirt.

Such is the verdict of Congressman Craig Hosmer, ranking Re- iblican on the Joint Atomic Energy Committee.

"The whipsaw tactics of Soviet negotiators," he says, "have oded away the U.S. determination to achieve an enforceable treaty ith effective machinery" to catch and punish those who violate test in provisions.

Rep. Hosmer points to Jerome Wiesner, the MIT professor who erves as chief science advisor to the President, as a member of hat he calls the-treaty-for-treaty's-sake school.

Five years ago, when U.S.-Soviet talks first opened, American eg"iators held out for a minimum of 20 annual on-site inspections f Soviet soil to investigate seismic signals which could represent lan stine underground tests.

Last week, when Messrs. Khrushchev and Gromyko said the So- iet Union might permit three -- but no more -- such inspections year, Wiesner was joyful. We are, he bubbled, "within shooting istance" of a test ban.

The American concession on inspection is only the latest such tep backward taken by U.S. negotiators in Geneva and Washington. ls secret negotiations take place in the nation's capital, it is im- [illegible] says Rep. Hosmer, that U.S. officials review and compare

Mc NAMARA MUST GO!

By Phoebe Courtney, Editor

The Secretary of Defense is a man by the name of Robert S. McNamara. Appointed by President Kennedy, his job would be considered to be that of directing the defense and the national security of the United States by whatever means are necessary. And yet McNamara has been either unable to cope, or refuses to cope, with the missile threat from Soviet Cuba.

Is it possible that rather than fulfilling the Constitutional requirements of his job, Secretary of Defense McNamara is using his office to destroy the defense capabilities of the United States of America? In the interest of national security, Robert S. McNamara should be forced to resign.

Below is what might be called a "Bill of Particulars" against Defense Secretary McNamara:

(1) In July, 1961, McNamara revised the 1958 National Security Council "cold war" directive which permitted military men to instruct their troops and civilians regarding the dangers of Communism. This resulted in the muzzling of military leaders who were attempting to warn the nation of the Communist threat at home and abroad.

(2) In October, 1962, as Secretary of Defense, McNamara ordered Federal troops to invade and occupy the town of Oxford in the sovereign State of Mississippi.

(3) In spite of a successful test, McNamara has scrapped the Skybolt missile over the strenuous objections of the Joint Chiefs of Staff, and has refused to put the RS-70, reconnaissance strike bomber, into production - this, in the face of the fact that Russia now has a Skybolt-type missile.

(4) Despite repeated demands by Congress that production of manned bombers continue, and despite the appropriation of funds for this purpose, McNamara has defied Congress and ordered that no further manned bombers be put into production.

(5) According to a February 7 column by Ralph de Toledano, McNamara "has told Congress in secret testimony that it is no longer U.S. defense policy to be able to obliterate the Soviet Union if it attacks us."

(6) Although the Kennedy 1963-64 budget calls for $53 billion supposedly for national defense, McNamara has not allocated any funds to start production on the highly developed Nike-Zeus anti-Missile Missile.

(7) Commenting on military capability relative to space, General Curtis E. LeMay, Air Force Chief of Staff, stated on February 1 that "the military implications of space may prove to be even more dangerous, and even more revolutionary than those that have evolved with the aircraft. For our own safety, we must take the lead and remain in the forefront of whatever developments may come. Otherwise, some dark day could witness the space equivalent of the nuclear bomber, except that the target could be in our own country.

During the years 1955-64, an estimated total of $20 billion has been allocated for U.S. space activities. Of this total $6.7 billion was allotted to the Defense Department for space activities. The Feb. 9, 1963, issue of the Army, Navy and Air Force JOURNAL AND REGISTER asks the question: "Is it not astounding that despite the provision of more than $20 billion, approval has not been given to a single project that would provide us with a combat capability in space?"

Losing Our Nuclear Shirt

By Fulton Lewis, Jr.

WASHINGTON, Jan. 28 - The diplomats who represent this country in disarmament negotiations with the Soviet Union have Uncle Sam in danger of losing his nuclear shirt.

Such is the verdict of Congressman Craig Hosmer, ranking Republican on the Joint Atomic Energy Committee.

"The whipsaw tactics of Soviet negotiators," he says, "have eroded away the U.S. determination to achieve an enforceable treaty with effective machinery" to catch and punish those who violate test ban provisions.

Rep. Hosmer points to Jerome Wiesner, the MIT professor who serves as chief science advisor to the President, as a member of what he calls the-treaty-for-treaty's-sake school.

Five years ago, when U.S.-Soviet talks first opened, American negotiators held out for a minimum of 20 annual on-site inspections of Soviet soil to investigate seismic signals which could represent clandestine underground tests.

Last week, when Messrs. Khrushchev and Gromyko said the Soviet Union might permit three -- but no more -- such inspections a year, Wiesner was joyful. We are, he bubbled, "within shooting distance" of a test ban.

The American concession on inspection is only the latest such step backward taken by U.S. negotiators in Geneva and Washington. As secret negotiations take place in the nation's capital, it is imperative, says Rep. Hosmer, that U.S. officials review and compare our position in 1958, when test ban talks first began, with our present position.

(1) Then negotiations opened after the U.S. had completed a comprehensive series of nuclear tests and after sufficient analysis of the last Soviet series by U.S. experts to determine whether or not any weapons break-throughs had been achieved. Negotiations now proceed, however, after an inadequate U.S. test series and without sufficient time for thorough analysis of the last Soviet series, which ended only a month ago.

(2) Then a network of 180 seismic stations around the globe was planned to detect secret nuclear tests. Such a plan has now been abandoned by U.S. advisors. Instead a system whereby cheaters would be expected voluntarily to submit seismic evidence is being discussed.

Then nineteen internationally-manned and controlled detection stations were to be dotted across the Soviet Union. Now, a Soviet proposal for three unmanned "black box" seismic devices in the Soviet Union brings shouts of joy from U.S. officials. The tamper-prone black boxes will be shuttled back and forth by Soviet airplanes and installed by Soviet personnel.

(3) Then, as mentioned earlier, U.S. negotiators held out for 20 annual on-site inspections of mysterious seismic disturbances. President Kennedy has reduced this to ten; Khrushchev wants but three. "Compromise" is possible, say Administration sources.

(4) Then investigators could utilize any method desired - including aerial photography, above -- and underground surveillance, radiation monitoring equipment, and so on -- during on-site inspection. Now, inspection would be hamstrung by Soviet limitations on personnel and equipment.

(5) Then inspections would be held at any suspected location. Now inspection teams could be restricted or completely denied entry into suspicious areas on grounds of "danger to the security interests" of the Soviet Union. Teams would travel on Soviet [illegible] piloted by Russian crews.

Below is what might be called a "Bill of Particulars" against Defense Secretary McNamara:

(1) In July, 1961, McNamara revised the 1958 National Security Council "cold war" directive which permitted military men to instruct their troops and civilians regarding the dangers of Communism. This resulted in the muzzling of military leaders who were attempting to warn the nation of the Communist threat at home and abroad.

(2) In October, 1962, as Secretary of Defense, McNamara ordered Federal troops to invade and occupy the town of Oxford in the sovereign State of Mississippi.

(3) In spite of a successful test, McNamara has scrapped the Skybolt missile over the strenuous objections of the Joint Chiefs of Staff, and has refused to put the RS-70, reconnaissance strike bomber, into production - this, in the face of the fact that Russia now has a Skybolt-type missile.

(4) Despite repeated demands by Congress that production of manned bombers continue, and despite the appropriation of funds for this purpose, McNamara has defied Congress and ordered that no further manned bombers be put into production.

(5) According to a February 7 column by Ralph de Toledano, McNamara "has told Congress in secret testimony that it is no longer U.S. defense policy to be able to obliterate the Soviet Union if it attacks us."

(6) Although the Kennedy 1963-64 budget calls for $53 billion supposedly for national defense, McNamara has not allocated any funds to start production on the highly developed Nike-Zeus anti-Missile Missile.

(7) Commenting on military capability relative to space, General Curtis E. LeMay, Air Force Chief of Staff, stated on February 1 that "the military implications of space may prove to be even more dangerous, and even more revolutionary than those that have evolved with the aircraft. For our own safety, we must take the lead and remain in the forefront of whatever developments may come. Otherwise, some dark day could witness the space equivalent of the nuclear bomber, except that the target could be in our own country.

During the years 1955-64, an estimated total of $20 billion has been allocated for U.S. space activities. Of this total $6.7 billion was allotted to the Defense Department for space activities. The Feb. 9, 1963, issue of the Army, Navy and Air Force JOURNAL AND REGISTER asks the question: "Is it not astounding that despite the provision of more than $20 billion, approval has not been given to a single project that would provide us with a combat capability in space?"

(8) According to the JOURNAL AND REGISTER of Feb. 9, 1963: "Another cutback confronts the attack submarine program . . . Plans call for start of six more(submarines)in 1964, but after that the Secretary of Defense has disclosed, "We now believe that a small number that we had originally planned to build in the period beyond 1964 will meet our most urgent submarine requirements."

(9) Indications are that McNamara intends to phase-out aircraft carriers. States Secretary of Defense McNamara: "Tentatively, one new attack carrier, conventionally powered, will be started every second year. The last carrier was included in the fiscal year 1963 ship-building program and tentatively, the next carrier will be started in fiscal year 1965."

McNamara's use of the word "tentatively" should be carefully noted, because he also declared that although he was aware of the rapidly increasing obsolescence of our fleet, "the right solution ... is not to rush into a crash program of ship construction . . . Rather, we should overcome the problem gradually." Although our aircraft carriers are becoming more obsolete each year, the amount in the fiscal 1964 budget for aircraft carriers is $600 million less than the previous year.

Discussing fleet obsolescence, Congressman Thor C. Tollefson

Next Target: Alabama

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

In September, the Kennedy Administration [illegible]

Last week, when Messrs. Khrushchev and Gromyko said the Soviet Union might permit three -- but no more -- such inspections year, Wiesner was joyful. We are, he bubbled, "within shooting distance" of a test ban.

The American concession on inspection is only the latest such step backward taken by U.S. negotiators in Geneva and Washington. As secret negotiations take place in the nation's capital, it is imperative, says Rep. Hosmer, that U.S. officials review and compare our position in 1958, when test ban talks first began, with our present position.

(1) Then negotiations opened after the U.S. had completed a comprehensive series of nuclear tests and after sufficient analysis of the last Soviet series by U.S. experts to determine whether or not any weapons break-throughs had been achieved. Negotiations now proceed, however, after an inadequate U.S. test series and without sufficient time for thorough analysis of the last Soviet series, which ended only a month ago.

(2) Then a network of 180 seismic stations around the globe was planned to detect secret nuclear tests. Such a plan has now been abandoned by U.S. advisors. Instead a system whereby cheaters would be expected voluntarily to submit seismic evidence is being discussed.

Then nineteen internationally-manned and controlled detection stations were to be dotted across the Soviet Union. Now, a Soviet proposal for three unmanned "black box" seismic devices in the Soviet Union brings shouts of joy from U.S. officials. The tamper-prone black boxes will be shuttled back and forth by Soviet airplanes and installed by Soviet personnel.

(3) Then, as mentioned earlier, U.S. negotiators held out for 20 annual on-site inspections of mysterious seismic disturbances. President Kennedy has reduced this to ten; Khrushchev wants but three. "Compromise" is possible, say Administration sources.

(4) Then investigators could utilize any method desired - including aerial photography, above -- and underground surveillance, radiation monitoring equipment, and so on -- during on-site inspection. Now, inspection would be hamstrung by Soviet limitations on personnel and equipment.

(5) Then inspections would be held at any suspected location. Now inspection teams could be restricted or completely denied entry into suspicious areas on grounds of "danger to the security interests" of the Soviet Union. Teams would travel on Soviet airlines piloted by Russian crews and, according to Premier Khrushchev, be further restricted by "screening of windows in the planes, prohibitions to carrying photo-cameras, etc."

(6) "Then," concludes Rep. Hosmer, "the negotiations started with the objective of posing such serious risks of getting caught to cheaters that cheating would be deterred. Now negotiations are carried on in a frame of reference encouraging cheating because risks of getting caught would be so nominal.

"In short, negotiations began on a relatively safe basis for future United States security. Now they are being carried on from a relatively unsafe basis. Had President Kennedy exhibited the same ruthlessness in imposing his will at the test ban negotiating tables as he has against American businessmen this situation would not have come about."

"Minimum," The Man Says

(Reprinted from RICHMOND (Va.) NEWS LEADER)

Mr. Kennedy yesterday sent to the Congress a budget proposing outlays of $98.8 billion in the coming fiscal year. He accompanied this with a defensive note: The sum, he said, represents "the minimum necessary to meet the essential needs of our complex society."

This is palpable nonsense. Mr. Kennedy's budget is crammed with proposals that are not "essentials" at all.

It is not essential that a new Civilian Conservation Corps be created, with a starting budget of $60 million.

It is not essential that $4.9 billion be appropriated for foreign aid.

It is not essential that 43 new public power and reclamation projects be launched, to the tune of $800 million.

It is not essential that increased sums be poured into middle income housing, a domestic peace corps, aid to education, and medical research.

During the years 1955-64, an estimated total of $20 billion has been allocated for U.S. space activities. Of this total $6.7 billion was allotted to the Defense Department for space activities. The Feb. 9, 1963, issue of the Army, Navy and Air Force JOURNAL AND REGISTER asks the question: "Is it not astounding that despite the provision of more than $20 billion, approval has not been given to a single project that would provide us with a combat capability in space?"

(8) According to the JOURNAL AND REGISTER of Feb. 9, 1963: "Another cutback confronts the attack submarine program ... Plans call for start of six more(submarines)in 1964, but after that the Secretary of Defense has disclosed, "We now believe that a small number that we had originally planned to build in the period beyond 1964 will meet our most urgent submarine requirements."

(9) Indications are that McNamara intends to phase-out aircraft carriers. Next Target: Alabama

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

In September, the Kennedy Administration ordered its army of occupation, eventually numbering some 25,000 men, down on the sovereign state of Mississippi in clear violation of the Constitution of the United States (Article 4, Section 4).

Then in October, the Administration's official force was turned primarily upon Cuba, though there was no direct, determined application such as had been made against Mississippi.

Now that both Mississippi and Cuba have cooled off, some may have wondered where the next "Kennedy war" would come. Already, there is a strong hint.

It has been revealed that military preparations are under way for possible action against - no, not a Communist country - the sovereign state of Alabama.

The Department of Justice has admitted it has requested aerial photographs of the University of Alabama campus. It said that on Dec. 10 - 20 the campus and surrounding areas were photographed in detail by low-flying, supersonic Air Force RF - 101 "Voodoo" jet planes.

Edwin O. Guthman, information director for the Justice Department said: "We wished to have them (the photos) in case they were needed. In our critique of our operation at the University of Mississippi we found it would have been very helpful if we had had aerial photographs, and we did not have them."

Col. Charles Vanliet, Air Force information officer in Washington declared: "Some time ago the Justice Department asked the Air Force for aerial photographs of the Tuscaloosa area. The mission was completed."

These military preparations aimed at Alabama apparently are part of the buildup prompted by the prospective enrollment of a Negro student at the University of Alabama.

It might be asked, now that the Kennedy Administration has turned its aerial reconnaissance on Alabama, whether aerial reconnaissance is being continued against Communist Cuba.

Somehow, the Communists manage to get off lighter than do Southerners when the Kennedy forces act.

THE INDEPENDENT AMERICAN

Published approximately every four to six weeks by FREE MEN SPEAK, INC.

SUBSCRIPTION RATE: One year (or 12 issues): $3.00; two years (or 24 issues): $5.00.

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to LOVE OF GOD AND AN INDEPENDENT U.S.A.

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without this regular support, this experiment in patriotic and political journalism would not be possible.

New Parties ARE Successful!

By Kent Courtney, Publisher

Andrew Jackson did it! He formed a third party - the Democrat Party.

Abraham Lincoln did it! He formed a third party - the Republican Party.

The reason why Jackson and Lincoln were successful in running for office on the platform of a new political party was because the political parties of their times offered no real choice between their platforms and their personalities.

Readers of THE INDEPENDENT AMERICAN, even those who are reading this paper for the first time, can observe for themselves that there is no significant difference between the platforms and the policies being followed by the Republican and Democrat parties today.

In foreign policy both old parties have followed and are following a line of action which, when added all together, spells out appeasement of Communism.

In domestic policy, both parties, over the years, have sponsored and supported legislation which has led our nation into national Socialism and which has allowed the members of the International Communist Conspiracy to operate freely within our Republic.

The trend of events since the end of World War II prove that the Liberal, International-Socialists control the administration, regardless of whether the Democrat or Republican party occupies the White House or controls the Congress.

Grand Design: Civilians Overru On Weapons

(Reprinted from SHREVEPORT TIMES)

For such evaluation and interpretation as each individual reader may wish to give, these facts should be kept in mind in considering President Kennedy's decision to scrap 105 U.S. nuclear missiles and their bases in Europe.

1. In a letter dated last October 28th to President Kennedy, Khrushchev said he would remove his missiles from Cuba if the United States would remove its missiles from Turkey.

2. The White House denied that Khrushchev's later agreement to remove his missiles from Cuba was based on a deal as to Turkey.

3. Ten weeks later, President Kennedy revealed that 15 U.S. Jupiter missiles in Turkey, 30 Jupiter missiles in Italy and 60 Thor missiles in England and their bases would be dismantled, with Polaris submarines replacing them—reportedly 5 to 7 Polaris subs for the British Isles area and 4 to 6 for the Mediterranean Sea.

* * *

90% Nuclear Cut

Dr. Stefan Possony, noted Stanford University nuclear weapons scientist, states in a study of United States nuclear fire power that we have the capacity to deliver 1,000 megatons of nuclear destruction against an enemy through our present missiles. (One megaton equals one million tons of TNT; 1,000 megatons equal one billion tons of TNT.) The U.S. Air Force is given a potential capacity of delivery of nuclear bombs through manned bombers that would bring our total to about 10,000 megatons—10 billion TNT tons.

But, the manned bomber capacity of the Air Force (but not the manned plane activity) now is being phased out under orders of Defense Secretary McNamara, approved by President Kennedy. By 1967-68, we no longer will have manned bomber nuclear striking power. For the first time since a period following World War I, the United States does not have a single bomber under construction.

If Dr. Possony basically is correct, the abandonment of our manned bomber nuclear striking power would reduce the present megatonnage of American nuclear fire power capacity by 90 per cent—9,000 out of 10,000 megatons.

This would mean a net and perm

The trend of events since the end of World War II prove that the Liberal, International-Socialists control the administration, regardless of whether the Democrat or Republican party occupies the White House or controls the Congress.

WHO IS TO BE OUR LEADER?

Because of the foregoing, many Conservative leaders are convinced that America needs a new political party dedicated to fiscal solvency and the preservation of our national independence. Once convinced of the need of a new party dedicated to constitutional principles, Conservatives immediately begin looking for a leader. We have many potential leaders, including former Senator William E. Jenner of Indiana; J. Bracken Lee, former Governor of Utah and presently Mayor of Salt Lake City; U.S. Senator J. Strom Thurmond of South Carolina, who was the candidate for president for the Dixiecrat Party in 1948 and T. Coleman Andrews, the Independent candidate for President in 1956. Dr. Clarence Manion, former Dean of the Law School at Notre Dame University, and Edwin A. Walker of Texas, former Major General, U.S. Army are two other leaders of national stature who are in a position to provide leadership for the new Conservative Party.

AUGUST 1964 WILL BE TOO LATE

The laws of many states require that candidates for the office of President file the names of their presidential electors early in 1964. Organizational work must go forward NOW to establish the Conservative Party and obtain a ballot position in every State so that the people of the United States will have the opportunity to vote for something better than Rockefeller or Kennedy. Goldwater has said repeatedly that he would support Rockefeller for President as the nominee of the Republican Party. We cannot wait until August, 1964 after the Democrats have nominated Kennedy and the Republicans have nominated Rockefeller.

If you are interested NOW in helping to put the Conservative Party on the ballot in your state, contact Kent Courtney, National Chairman of the Conservative Society of America, Post Office Box 4254, New Orleans 18, Louisiana.

REACTIONARIES NEEDED

(Reprinted from PALESTINE (Tex.) HERALD-PRESS)

Young Republicans in Congress have made known their intention to offer and push for alternative legislative pro-

states in a study of United States nuclear fire power that we have the capacity to deliver 1,000 megatons of nuclear destruction against an enemy through our present missiles. (One megaton equals one million tons of TNT; 1,000 megatons equal one billion tons of TNT.) The U.S. Air Force is given a potential capacity of delivery of nuclear bombs through manned bombers that would bring our total to about 10,000 megatons—10 billion TNT tons.

But, the manned bomber capacity of the Air Force (but not the manned plane activity) now is being phased out under orders of Defense Secretary McNamara, approved by President Kennedy. By 1967-68, we no longer will have manned bomber nuclear striking power. For the first time since a period following World War I, the United States does not have a single bomber under construction.

> If Dr. Possony basically is correct, the abandonment of our manned bomber nuclear striking power would reduce the present megatonnage of American nuclear fire power capacity by 90 per cent—9,000 out of 10,000 megatons.

This would mean a net and permanent 90 per cent reduction. Polaris submarines would be placed in ocean areas where nuclear missiles are withdrawn from land areas. Khrushchev would have a huge psychological victory in proclaiming to the world that he forced the United States to abandon many of its missile bases inside European nations.

However, the Polaris submarine construction program is not known to have been increased with scrapping of the Jupiter-Thor missile sites in Europe and presumably the 42 Polaris subs eventually to be in action simply would be spread thinner around the globe. More than half of the proposed Polaris submarines are yet to be constructed and the whole fleet is not expected to be available for action until around the end of 1967. There is also demand in some military quarters that if Polaris is to be the substitute for the missiles being scrapped in Turkey, Polaris submarines should be stationed in the Black Sea—the 350 mile wide area between Turkey and Russia — just as Khrushchev has his atomic and rocket submarines in the Caribbean, off our coasts.

Skybolt, RS-70 Dropped–

In addition to scrapping its nuclear-carrying manned bomber strength, the United States has abandoned the Skybolt —the nuclear missile delivered to within 1,000 miles of its target by long range bombers and then turned loose on its own. We also have abandoned the RS-70 supersonic and robot brain electronic bomber which would seek out targets, aim nuclear missiles and fire them to

Young Republicans in Congress have made known their intention to offer and push for alternative legislative programs rather than merely to oppose Kennedy measures.

That is playing politics on the lowest possible level, if you give a little consideration to what these Republicans intend to offer substitute legislation for.

President Kennedy's legislative program, including federal "aid to education," meaning federal seizure of education, medical care for the aged under Social Security, tax cuts along with a spending increase, and so on, add up to a largely socialistic package that would result in concentrating more power in the executive department of the federal government.

A substitute package, carrying a Republican label, for the same list of legislative actions, would be equally socialistic. It is the plans themselves, not the details of how they are to be handled, that destroy the constitutional balance of powers and carry us farther down the road to socialism.

We have had too much me-tooism in government al

68, we no longer will have manned bomber nuclear striking power. For the first time since a period following World War I, the United States does not have a single bomber under construction.

Young Republicans in Congress have made known their intention to offer and push for alternative legislative programs rather than merely to oppose Kennedy measures.

That is playing politics on the lowest possible level, if you give a little consideration to what these Republicans intend to offer substitute legislation for.

President Kennedy's legislative program, including federal "aid to education," meaning federal seizure of education, medical care for the aged under Social Security, tax cuts along with a spending increase, and so on, add up to a largely socialistic package that would result in concentrating more power in the executive department of the federal government.

A substitute package, carrying a Republican label, for the same list of legislative actions, would be equally socialistic. It is the plans themselves, not the details of how they are to be handled, that destroy the constitutional balance of powers and carry us farther down the road to socialism.

We have had too much me-tooism in government already. To hear that the opposition party this year—or at least a sizeable group of its members—intends to play a me-too role instead of standing up for fundamental Americanism, is discouraging to any person who wants this country to keep its greatness.

What we need are more reactionaries in Congress—men who will react promptly and bitterly against any proposal from any source to dilute the solid freedoms of the states and the people of this country and hand new powers over to the bureaucracy of Washington.

of the proposed Polaris submarines are yet to be constructed and the whole fleet is not expected to be available for action until around the end of 1967. There is also demand in some military quarters that if Polaris is to be the substitute for the missiles being scrapped in Turkey, Polaris submarines should be stationed in the Black Sea—the 350 mile wide area between Turkey and Russia — just as Khrushchev has his atomic and rocket submarines in the Caribbean, off our coasts.

American taxpayers are well aware that they have had to finance the UN army of aggression that has subdued Katanga by military force and supports the unreliable central government of the Congo. But it is likely many taxpayers don't know how some more of their money is being spent in connection with the Congo.

Under a recent "Food for Peace" arrangement (sounds good, doesn't it?), the Agriculture Department worked

out a deal in wh

1,000 bombers available but not on immediate alert.

All of this, Congressman Edward Hebert of Louisiana, ranking Democratic member of the House Armed Forces Committee, says will mean that we have abandoned our multiplicity of *methods of delivery* of nuclear destruction to rely entirely on *only two systems* of delivery; the Polaris submarine, operable only in oceans; and the Minute Man long range missile, fired from concrete underground bins in the United States.

And this, Congressman Hebert told *The Times*, is like a football team with a whole raft of super-star, triple-threat backfield men, informing the other team that it will run no plays except forward passes; that the foe can deploy its entire defense accordingly, with certainty that there never will be a line buck or an end run, a quarterback sneak or a double reverse, or even a quick kick.

In other words, Russia can plan its defenses against only two systems of nuclear attack instead of against several coming from land, air and sea, and from every direction.

Opposed by Joint Chiefs

Testimony before the House Armed Services Committee (now withheld from publication pending security clearance, but with some non-security portions being made known) shows that the Joint Chiefs of Staff previous to the present JCS personnel *unanimously* favored continuation of the RS-70 program over Secretary McNamara's order to scrap it.

Then, President Kennedy made retired General Maxwell Taylor Chairman of the Joint Chiefs. Secretary McNamara at once called for a review of the previous RS-70 Joint Chiefs decision. *(This is the first time a retired general ever has been appointed Chairman of the JCS. In active service, General Taylor was a vigorously outspoken opponent of General Eisenhower's policy of an all-powerful manned-bomber Air Force. He wants the ground Army to be supreme in all phases of the Armed Services.)*

The JCS reviewed the RS-70 and came up with the three active Chiefs of Staff—Army, Navy and Air Force—again *unanimously* in favor of continuation of the RS-70; this despite vigorous opposition from Chairman Taylor. The latter favored scrapping the RS-70.

Then came the Skybolt decision. Again the active Joint Chiefs were *unanimous* ...with the Skybolt. Retired General

WHO ARE THE DISARMERS?

On this page appears an article entitled "Civilians Overrule Military On Weapons for War," which is reprinted from the SHREVEPORT (La.) TIMES of Feb 10, 1963. After reading the aforementioned article, the question immediately arises: Who are the civilians, the political appointees, who are making these decisions to dismantle U. S. defenses? Certainly patriotic U. S. military men could never formulate and carry out such suicidal policies!

Below, THE INDEPENDENT AMERICAN discusses briefly some of the shadowy figures behind this plan to unilaterally disarm the United States in the face of growing Communist aggression:

In another article in this issue entitled "Save Our Skybolt," one WALT W. ROSTOW is described as the instigator of the "no-win-policy" which is now being implemented to the point where our defenses are being systematically scrapped.

In the front page article, GEN. MAXWELL TAYLOR is mentioned as the Chairman of the Joint Chiefs. Gen. Taylor is a vociferous opponent of the U. S. maintaining an all-powerful manned bomber Air Force;

The Deputy Secretary of Defense is a political appointee by the name of ROSWELL L. GILPATRIC. Gilpatric is also a member of the Armed Forces Policy Council;

ADM. GEORGE W. ANDERSON, JR., is Chief of Naval Operations and a member of Joint Chiefs of Staff as well as a member of the Armed Forces Policy Council;

RALPH L. CLARK is Asst. Director of Defense Research and Engineering (Communications and Data Processing);

CHARLES J. HITCH is Asst. Secretary of Defense (Comptroller);

JOHN H. WILLIAMS is Staff Director, Industrial Production Equipment;

PAUL H. NITZE is Asst. Secretary of Defense (International Security Affairs);

WILLIAM P. BUNDY, is Deputy Assistant Secretary to the Asst. Secretary of Defense for International Security Affairs;

EDWARD L. KATZENBACH is Deputy Asst. Secretary (Education and Manpower Resources);

HERBERT LEWIS is Director, Industrial Personnel Access Authorization Division;

NORMAN S. PAUL is Asst. to the Secretary of Defense (Legislative Affairs);

REAR ADM. HARRY SMITH, USN, is Special Assistant for Military Assistance Affairs of the Joint Staff.

(Source of the foregoing information is the "U.S. Government Organization Manual - 1962-1963")

And what do these political appointees, these civilians - and the several military men listed above - have in common? All are members of a semi-secret organization known as the Council on Foreign Relations, the CFR promotes the following:

(1) Building a new international order;

(2) Maintaining, and gradually increasing the authority of the (Communist-dominated) United Nations;

(3) Repealing the Connally Amendment (which prevents the World Court from having jurisdiction over U.S. domestic matters);

(4) Increasing and promoting longer-term Foreign Aid without making such aid contingent upon political commitments to the West; and, MOST IMPORTANTLY,

(5) Negotiating on disarmament proposals directly with the USSR, in secret.

Thus it is seen that the men in the key policy-making positions of our defense establishment are men belonging to an organization, the Council on Foreign Relations, the aims of which are not only to appease Communism, but in many cases to actually accommodate Communist expansion.

Clearly a Congressional investigation is in order to determine whether men in high places in our government, who are members of the Council on Foreign Relations, owe their loyalty to the internationalist, Communist-appeasing policies of the CFR, or whether they owe their allegiance to the United States Constitution!

The JCS reviewed the RS-70 and came up with the three active Chiefs of Staff—Army, Navy and Air Force—again *unanimously* in favor of continuation of the RS-70; this despite vigorous opposition from Chairman Taylor. The latter favored scrapping the RS-70.

Then came the Skybolt decision. Again the active Joint Chiefs were *unanimous* to go on with the Skybolt. Retired General Taylor again opposed. Secretary McNamara ordered the Skybolt abandoned, and RS-70 halted.

Civilians Top the Military

House Armed Services Committee testimony shows that the advisers on whom Secretary McNamara based his own decision were mostly the young civilians with which he has permeated the Defense Department in high posts—men described by retired four-star General Thomas White, former Air Force Chief of Staff, as "junior whiz kids as compared to the "senior" college professors who make up President Kennedy's White House advisory staff.

Recommendations by these often immature Pentagon gentlemen over-rode decisions of four-star Admirals and Generals who gained stars and decorations as combat commanders in War II or Korea or both. And these are decisions on *what weapons* our fighting forces should have to fight wars—not matters of military theory or hypothesis.

Letting civilians overrule Generals on types of weapons with which the Generals and their armies must fight is, Congressman Hebert said, like having the best doctors in the world diagnose a case and then calling in lawyers to prescribe for the patient.

But *that* is the military Grand Design now being carried out in Washington.

Congress created the JCS as the top military advisory body to the President and the Secretary of Defense. In the American tradition, the President and Secretary have authority over the JCS, the constitutional civilian authority being over the military. But the President and the Secretary always are expected to accept decisions of the military on *purely tactical and technical matters*, such as weaponry.

Congress gave this now abused authority to the Secretary of Defense. It is time for Congress to take it back.

What shall it profit mankind, to win the space-race, gain the moon and lose this earth to the advancing Communists?

PATRIOTISM AND PRESIDENTS

"Patriotism means to stand by the country.

"It does NOT mean to stand by the President or any other public official save exactly to the degree in which he, himself, stands by the country.

"It is patriotic to support him insofar as he efficiently serves the country. It is unpatriotic NOT to oppose him to the extent that by inefficiency or otherwise he fails in his duty to stand by the country.

"In either event, it is unpatriotic NOT to tell the TRUTH -- whether about the President or anyone else -- save in the rare cases where this would make known to the enemy information of military value which would otherwise be unknown to him."

MISSISSIPPI MOOD

(Reprinted from the CHATTANOOGA NEWS-FREE PRESS)

Out of the unfortunate and unconstitutional imposition of force upon Mississippi during the past year came a speech by Rabbi Benjamin Schultz of Clarksdale, Miss., which has been widely quoted because it makes a significant point.

The rabbi spoke about the mood that is typical of Mississippi and observed: "What America needs is more Mississippi, not less." He listed five applications of the Mississippi mood that would change things for the better. He said:

"1 - If Mississippi had its way, Castro would not be in Cuba now. Washington would not have installed him there.

"2 - If Mississippi had prevailed, the Berlin wall would have been torn down as soon as it went up. But then, the Russians wouldn't have been there in the first place.

"3 - If Mississippi had prevailed, pro-Communists would be off American college faculties. Corruption of our youth would stop.

"4 - If Mississippi with its states' rights philosophy had its way, Big Government, provocative dictatorship and eventual national bankruptcy would be thrown out the window.

"5 - If Mississippi had its way, traditional patriotism would again sweep the land to strengthen our people inwardly and insure victory in the international crisis. As it is, America is losing. It is losing mostly because of decay among its own intellectuals.

"In other words, what America needs is more Mississippi, not less.

"I call upon the dedicated clergy of our state and the South generally, to demand that our Northern preachers fight the cold war for America, even if it means less time to attack the South.

"After all, if Communism conquers us, do we not all lose - Jew and Gentile, black and white? Religion loses most of all."

Rabbi Schultz made the point that our nation needs more people who will stand up firmly for constitutional government, for patriotic principle, for American interests in the face of Communist challenge.

Rabbi Schultz made the point that our nation needs more people who will stand up firmly for constitutional government, for patriotic principle, for American interests in the face of Communist challenge.

And certainly he is correct. (Editor's note: Rabbi Benjamin Schultz, who is quoted in the above article, will be recognized by many as a long-time anti-Communist who was a strong defender of Senator Joe McCarthy. It is reported that Rabbi Schultz, due to his anti-Communist activities, lost his synagogue in New York, and thereafter moved to Clarksburg, Mississippi)

"The cause of freedom is the cause of God."

CONSERVATIVE PROGRAMS AVAILABLE FOR LOCAL SPONSORSHIP

you and your friends, or your business firm, would like to have these programs over your local radio station, just write to Kent Courtney, P. O. Box 4223, New 18, Louisiana, for complete details.

purpose of THE RADIO EDITION OF THE INDEPENDENT AMERICAN is to e Conservative side of the vital issues concerning this country today.

SAVE OUR SKYBOLT

(Excerpts from TAX FAX pamphlet No. 40, entitled "Save Our Skybolt")

"NO WIN" NOW U.S. POLICY

Behind the scheme to unilaterally disarm the United States, contrary to vigorous opposition from some members of Congress, is the "no win" policy of the State Department. This policy is best summed up by Walt Rostow in an article published

summed up by Walt Rostow in an article published in the STATE DEPARTMENT BULLETIN, August 7, 1962, in which he stated,

> The victory we seek . . . will not be a victory of the United States over the Soviet Union.

On January 30, 1963, Secretary of Defense Robert S. McNamara stated that the United States must build a "flexible force" of strategic weapons that can absorb the first blow in a nuclear war and hit back at Soviet military bases or cities. Apparently Secretary McNamara overlooks the fact that the first blow by Communist Russia might be so successful as to render impossible any retaliation by the United States. Thus the formulators of U.S. national defense policies are willing to gamble the very survival of this nation on the chance that the U.S. could absorb a first blow.

HOLDING BACK THE RS-70

The RS-70 reconnaissance strike bomber was intended to be one of the main weapons of the Strategic Air Command. According to Sen. Strom Thurmond, this nuclear weapons carrier, equipped with air-to-surface missiles and advanced radar and communications systems would fly at more than 2,000 miles per hour at 80,000 feet, over global ranges. It would provide a capability to observe and report on the effectiveness of missile attacks; to seek out and destroy those targets against which missiles could not be employed by virtue of imprecise locational data; and to provide characteristics of flexibility, discrimination, judgment and precision which are readily available only in a manned strategic capability that has proved so successful in preventing enemy aggression.

Although $1.3 billion has been spent on developing this plane, a completed RS-70 does not exist. In view of the current dismantling policy of the Defense Department, it is unlikely that the RS-70 will ever become operational. Kennedy's Defense Budget on January 17, 1963, called for a mere $81 million to continue limited development of the air frame and the engines of this plane which is so vital to strengthen the first-strike power of the U.S. Strategic Air Command. The United States is now in the position of being defended by B-52's which are rapidly becoming obsolete, with no plans to put into production any new manned bombers!

THE DEATH OF SKYBOLT

The Skybolt missile was designed to be launched from a plane at a ground target 1,100 miles away. It was built primarily to be carried by the B-52, but could also be adapted to the newer plane, the RS-70.

On December 21, President Kennedy stated that the Skybolt program was being dropped, claiming that five tests of the Skybolt had been unsuccessful, and that it was too expensive.

The following day, fortunately for the sake of truth, and without prior notice to the White House or the Defense Department, the U.S. Air Force at Cape Canaveral launched the sixth test of the Skybolt missile - and this test was a success! The Associated Press on Dec. 23, 1962, stated:

> The President, according to some reports, was not advised in advance of Saturday's test, and hit the ceiling in rage when advised of it.

ENDLESS RESEARCH - NO PRODUCTION

A brief examination of Kennedy's defense budget reveals some very interesting facts. For example, according to an AP article by

What They Overlooked

By Congressman James B. Utt

The pros and cons of the President's address on the State of the Union have been filling the airways and other communication media, but I have a few comments of my own with reference to the speech, which have been overlooked by most, if not all, of the commentators.

The President again turned his back on our American Independence when he stated near the end of his address, "For we seek not the world-wide victory of one nation or system but a world-wide victory of man." Of course, this is idealistic and may come in the next few hundred centuries, when neighbors have learned to live together under the Golden Rule. We simply are not ready for one-world government, when 90 per cent of the people in the world do not have the slightest concept of true liberty and the dignity of the individual who is endowed by his Creator with many unalienable rights. To me that one sentence is devastating and shattering to one who believes in the principles upon which this Republic was founded.

The President glossed over the gains attained in the past two years by the International Communist conspiracy. He rejoiced that West Berlin was still a free city, but conveniently forgot that the Wall of Shame was built within the past 100 weeks. He referred to our victorious settlement of Laos which is now a Communist haven for the Viet-Cong, who are shooting our men and helicopters in South Viet-Nam and retreating with safety under the protection of a Communist government in Laos.

He referred to the value of the UN in the cause of "peace" for its role in settling the West New Guinea problem. That was an easy settlement. The UN just gave Dutch West New Guinea to Sukarno, the Indonesian Communist dictator. He praised the UN for coming to the rescue of India when invaded by Red China, but made no mention of the fact that the UN did nothing when arrogant and belligerent Nehru invaded and captured Goa as well as another Portuguese enclave along the Indian shores.

He said the UN always comes to the aid of the weak. We are being shot to pieces in South Viet-Nam, and no true report has been given to the American people. He praised the UN for its attempt to unify the Congo by a murderous attack upon Katanga. It appears that by brute force, and hundreds of millions of dollars of American taxpayers' money, Tshombe has been brought to bay. History will give this experiment in mass murder a low grade. Even having reduced Tshombe to a mere vassal of the Congo central government does not end the civil strife in the Congo. There are a hundred separate tribes more loyal to their tribal chieftains than they ever will be to Adoula. Within the last month, 4000 tribesmen were killed in one encounter, and it will take a standing army in the Congo to maintain peace.

You can expect the release of the Communist, Gizenga, very shortly, who was jailed by the central government only as window dressing to persuade the world that Adoula was not pro-Communist, in order to justify the Katanga venture.

For a monolith like the UN, which always prides itself on giving self-determination to any tiny African country, regardless of how small, it has certainly reached the height of inconsistency, so far as self-determination is concerned, in the Congo.

Senator Ellender Is Angry

(Reprinted from ALEXANDRIA (La.) DAILY TOWN TALK)

By Adras LaBorde

After three hours with Sen. Allen J. Ellender I can report that he is not about to retract one iota of his statement to the effect that the "emerging" nations in Africa are incapable of governing themselves.

Further, I can predict with assurance that some ears

advance of Saturday's test, and hit the ceiling in rage when advised of it.

ENDLESS RESEARCH - NO PRODUCTION

A brief examination of Kennedy's defense budget reveals some very interesting facts. For example, according to an AP article by Fred S. Hoffman, dated January 17, 1963, the Nike-Zeus anti-missile missile has been under development for six years but no money is allotted in the new budget to start production. Instead, Kennedy recommended $325 million for continued research on a radically re-designed Nike-Zeus and Nike-X.

Previously, syndicated columnists Robert S. Allen and Paul Scott reported on Jan. 8, 1963, that Jerome Wiesner, the President's special science advisor, has recommended dropping the Nike-Zeus missile program.

PLANNED DECEPTION

Holmes Alexander, in his column of Jan. 30, 1963, described briefly what could be called the "shell game" that the Defense Department is playing on the American people as it methodically, step by step, liquidates our national defenses. Stated Mr. Alexander:

> We have recently seen cancellation of the F-108 advanced fighter-bomber in favor of the B-70, of the B-70 in favor of the B-52 with the Hound Dog airborne missile, of the B-52 with Hound Dog in favor of B-52 with Skybolt, and finally, of Skybolt in favor of Polaris.

Thus it would appear that as soon as a weapons system reaches production status, it is scrapped so that more billions of taxpayers' money can be thrown into research on an entirely new system. This technique delays for precious years, or forever, the time when an effective anti-missile missile system, complete with advanced manned bombers, would be in actual production and assume an operational capability.

REDS NOW HAVE SKYBOLT-TYPE MISSILE

Based on a specially prepared British Royal Airforce missile report, syndicated columnists Allen and Scott revealed on Feb. 2, 1963:

> Russia has an operational air-to-ground missile almost as good as the Skybolt . . . . Even more disconcerting, the range of the Russian AG-3 is double that of Hound Dog, the Air Force's long-range air-to-ground missile being used by the Strategic Air Command.

Thus it is seen that Kennedy and McNamara by scrapping our Skybolt, have deliberately permitted the Soviet Union to become superior in the field of manned bombers carrying air-to-ground missiles.

Write your Congressman and two Senators demanding that production of the Skybolt and the RS-70 begin immediately.

Write Senator Richard B. Russell, Chairman, Senate Armed Services Committee, demanding that the Skybolt and RS-70 be re-instated and put into immediate production.

(Editor's note: THE INDEPENDENT AMERICAN Newspaper has mailed copies of the pamphlet, TAX FAX No 40, entitled "Save Our Skybolt," to all of its subscribers throughout the country, as well as to leading newspapers, radio and television commentators, etc., in order to generate a grass-roots protest against the scrapping of the Skybolt and the RS-70. If you wish to participate in this nationwide movement aimed at deluging Congress with letters and telegrams defending the Skybolt and the RS-70, then order today bulk quantities of TAX FAX No. 40 in order to distribute them to your friends and neighbors who will wish to join you in this vital campaign. Prices for TAX FAX pamphlet No. 40 are: Single copy - 25¢; 20 - $1.00; 100 - $5.00; 250 - $10.00; 1,000 - $35.00. Postage Prepaid. Order from THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 18, La.)

"Some office holders who were elected in 1960 got a mandate but [illegible] like it was a charge-plate. The rule for personal survival

By Adrie LaBorde

After three hours with Sen. Allen J. Ellender I can report that he is not about to retract one iota of his statement to the effect that the "emerging" nations in Africa are incapable of governing themselves.

Further, I can predict with assurance that some ears in and around Washington will ring when the senior senator from Louisiana reports formally on his recent 9-week trek across Africe.

His criticism of U.S. foreign aid in that part of the world will make Rep. Otto Passman of Monroe sound like a cheerleader for the aid program by comparison.

"It made me sick," Mr. Ellender said in summary of what he saw in his travels from Tunisia to South Africa and from the Congo to Madagascar. Obviously, what Mr. Ellender saw also made him angry.

* * * *

A $10 MILLION JOKE

Among the projects that made the senator sick is a port being built in Somalia, newly-independent piece of jungle real estate which used to be a French protectorate. Uncle Sam is spending $10 million on this enterprise. Russia is also building a port in that country.

There is already a seaport serving the country and its capital, but neither the U.S. nor Russia wanted to tamper with that because it would have upset the daily routine of the natives employed there.

So two new ports are a-building. The hitch is what to do with the ports after they are completed. Somalia can never be made to yield anything for export, and certainly its import needs will never justify three ports.

To boot, it is understood that the port your Uncle Sap is spending $10 million on could be built for $3 million.

* * * *

10 YEARS AND MILLIONS TOO LATE

Then there is the "agricultural college" we paid to have built in Ethiopia 10 or 12 years ago.

Senator Ellender found that it has been closed — a decade and several million dollars too late. He warned when the project was launched that it was ridiculous.

But our know-it-alls in Washington back then figured the way to boost the agricultural economy in Haile Selassie's barren empire was to educate farmers. They didn't stop to figure that you can't put people through college unless they have gone through lower levels of schooling in advance; and Ethiopia had no system of schools to feed the college.

It took the American wizards a lot of money and a long time to learn that paying for a college education for a few city-slickers in and around the capital city of Ethiopia was not helping the country's agricultural economy.

* * * *

SOMETHING WE CAN'T BUY

These examples of American folly, of course, have nothing to do with the incapability of Black Africa's leaders to lead. But Mr. Ellender may have intended a connection when he said:

"I have found some, a few, capable leaders, but they have nothing to work with by way of natural resources and human resources . . . the techniques and capable people who could help the leaders."

So apparently we are trying to create natural resources in sterile lands on the African continent, but even American dollars cannot acomplish this.

And you can expect Mr. Ellender to make it clear to everybody in Washington who wants to listen that our "aid" to Africa is, in general, waste that borders on the criminal..

MENTAL HEALTH BILL - A NEW WEAPON FOR THE KENNEDY BROTHERS ?

By Mary Helen Brengel

In a special message to Congress on February 5, President Kennedy proposed that the Federal Government move into the mental health field, providing hundreds of millions of dollars to the States for research into mental health and establishment of comprehensive mental health centers to communities. The Federal Government would pay, under this proposal, from 45 to 75 per cent of the project costs and would provide short-term grants for staffing costs during the first four years. It is claimed that Federal support of the community mental health center program would phase out in four years.

In this connection, Editor Rex L. Karney of the ROCKFORD (Ill.) MORNING STAR has pointed out several pitfalls into which this mental health legislation would lead the citizenry:

1) "By assuming that proportion of the cost, the Federal Government would control the program, as it has in the past with every undertaking in which it has had a substantial financial interest....

2) "(That the program would phase out in four years) would indeed be unprecedented. The record shows that ... temporary programs always acquire permanence and keep growing rather than diminishing.

3) "While the President's mental health plan would begin with a comparatively modest outlay, it is apparent that costs would expand rapidly with the programs ....

4) "The Federal Government is in a poor financial position to undertake such massive efforts."

Then the ROCKFORD MORNING STAR stated: "Problems of mental health can best be met when local responsibility is not diminished by Federal interference in the guise of aid."

Why, it should be asked, is the Kennedy Administration so anxious to embark on this new mental health program? President Kennedy has labeled this plan a "bold new approach" to mobilize new medical, scientific and social tools and insights. House Speaker John W. McCormack has said the President's message "points the way for a compassionate people to extend a helping hand to those who must depend so much on their fellow men."

This is pure hogwash! The Kennedy Administration has proven time and again that each "bold new approach" is a "bold new grab" for dictatorial power. Was it "compassion" that motivated the Administration when it used "mental health" as an Administration tool last October in imprisoning former General Edwin A. Walker in a Federal mental prison hospital? Or was it not, more likely, retaliation for Walker's opposition to Administration policies that caused the Government's Chief Psychiatrist of the Federal Prison Bureau, Dr. Charles E. Smith, to make a study of newspaper clippings, and, from a distance of almost a thousand miles, to set the wheels in motion for Walker's arrest and un-Constitutional incarceration?

Does the Kennedy Administration wish to sprinkle local communities throughout the United States with hordes of Federally-financed psychiatrists and psychiatric researchers so that the next "General Walker" will not have to be "examined" by a psychiatrist from a distance of almost a thousand miles?

Contrary to Dr. Smith's long-distance suspicions and suggestions, a Dallas psychiatrist who examined Walker upon his return to Texas reported, according to the DALLAS TIMES-HERALD, that former Maj. Gen. Edwin A. Walker was "functioning currently at the superior level of intelligence" and that his reasoning and judgment were both above normal.

It can thus be seen that the findings of a Government psychiatrist, using such a "bold new approach" as the Administration now plans, and a civilian psychiatrist who is not influenced by Federal Aid or control, could be at complete variance.

LATEST BOONDOGGLES

BY CONGRESSMAN H. R. GROSS

WASHINGTON - The Kennedy Administration's total disregard for the authority of Congress can best be illustrated by the activities of New Frontier planners who are working on a program which has been tabbed the "Domestic Peace Corps."

This latest New Frontier boondoggle is the brainchild of one Robert Kennedy, brother of the President and supposedly the Attorney General of the United States. Bear in mind that Congress has never authorized the program, but it is already an accomplished fact in the minds of the "youthful planners," as they are called, who are working on the project.

With Congressman Devine of [illegible]

Congressman Adam Clayton Powell and associates, in an outfit known as Associated Community Teams, Inc., for the alleged purpose of developing the nucleus of a domestic peace corps. Of the total grant, $157,080 - or more than one-half - will be spent for personnel and the outfit is to rent space - at $17,000 a year - in a church owned by the Adam Clayton Powell Community Center, Inc. And they have the gall to say that Associated Community Teams, Inc., is a non-profit organization!

Powell, incidentally, is chairman of the House Education and Labor Committee, which will consider domestic peace corps legislation if the

It can thus be seen that the findings of a Government psychiatrist, using such a "bold new approach" as the Administration now plans, and a civilian psychiatrist who is not influenced by Federal Aid or control, could be at complete variance.

Dr. Robert Morris, President of the Defenders of American Liberties, who formerly served as chief counsel for the Senate Internal Security Subcommittee, has written an article entitled "Pre-trial Mental Examination: A Dread Weapon." This article first appeared as a guest editorial in THE WANDERER, a Catholic weekly. Dr. Morris points out that the reason pre-trial psychiatric examination such as that required of General Walker is dangerous is that "there are no generally accepted standards of psychiatric behavior or of 'mental health.' The religious, political and moral views of the individual psychiatrist play a determining role in the outcome. These psychiatrists, who commit, say they are helping the defendant. Actually they may be imposing a punishment far more serious than a prison sentence...."

Continuing, Dr. Morris remarks: "What particularly makes this already dangerous practice even more serious is the fact that Communists are moving into this field to seize some of this power over human beings. One wonders how many people the late Dr. Robert Soblen, a psychiatrist, and convicted Soviet agent who jumped bail, caused to be committed and what were his norms? I have seen not only among practicing psychiatrists but, even more serious, on the councils of some psychiatric groups that are trying to set up norms of behavior, the names of psychiatrists who could not deny the evidence of their participation in the Communist conspiracy before the Senate committee I served, and instead invoked the Fifth Amendment lest they incriminate themselves....

According to Dr. Thomas S. Szasz, Professor of Psychiatry, State University of New York, in his article entitled "Mind Tapping: Psychiatric Subversion of Constitutional Rights": "What constitutes mental illness is conveniently undefined. Its presence is ascertained by reference to the judgment of experts - in this case, psychiatrists. In this respect, mental illness is like witchcraft, which was also never clearly defined, but which experts had little difficulty diagnosing. Given these circumstances, I submit that government psychiatrists (or so-called forensic psychiatrists, generally) - like ecclesiastic witchhunters - will easily find large numbers of mentally sick people ...."

Why should this be so? Dr. Szasz suggests: "If this is doubted, we should only ask ourselves how long the witchhunter who never found witches would have lasted in his job? Similarly, how long

WASHINGTON - The Kennedy Administration's total disregard for the authority of Congress can best be illustrated by the activities of New Frontier planners who are working on a program which has been tabbed the "Domestic Peace Corps."

This latest New Frontier boondoggle is the brainchild of one Robert Kennedy, brother of the President and supposedly the Attorney General of the United States. Bear in mind that Congress has never authorized the program, but it is already an accomplished fact in the minds of the "youthful planners," as they are called, who are working on the project.

With Congressman Devine of Ohio, this writer recently paid a visit to the domestic peace corps nursery - located in top story rooms of a building only a stone's throw from the White House. It was there we learned that some 18 to 22 "youthful planners," on loan from various government agencies, are working to get the show on the road.

They are on duty FULL TIME, which can only mean that the government departments and agencies to which they are regularly assigned must be liberally overstaffed with stenographers and organizers and what-have-you. If there is such a surplus of employees available to move around with the greatest of ease, it is obvious that Congress has a job-cutting task to perform.

Not to be outdone by Bobby Kennedy and his planners, it is revealed that the Department of Health, Education, and Welfare has jumped into the act by granting $250,000 to Congressman Adam Clayton Powell and associates, in an outfit known as Associated Community Teams, Inc., for the alleged purpose of developing the nucleus of a domestic peace corps. Of the total grant, $167,080 - or more than one-half - will be spent for personnel and the outfit is to rent space - at $17,000 a year - in a church owned by the Adam Clayton Powell Community Center, Inc. And they have the gall to say that Associated Community Teams, Inc., is a non-profit organization!

Powell, incidentally, is chairman of the House Education and Labor Committee, which will consider domestic peace corps legislation if the President and the Attorney General condescend to consult Congress about it. From what has transpired thus far, it is obvious that the new frontiersmen could care less that Congress has never specifically authorized the program.

But the legislative branch - through its power to control the purse strings - can still have the last word, regardless of what the administration does to keep the domestic peace corps rolling. It remains to be seen how a majority in Congress will react when the test comes!

TECHNICAL AID; U.S. VERSION --- "The New Frontier will launch a States-side Peace Corps: Such projects as training young technicians to go into the big cities and help the natives fix the voting machines." -- (Fletcher Knebel, in Potomac Fever).

BIRTH CONTROL RESEARCH

(Reprinted from Army, Navy, Air Force JOURNAL and REGISTER - January 19, 1963)

"Birth Control Research has been given Army support. More than $30,000 was made available by Pentagon for studies concentrated on effect of irradiated foods on reproductive processes of beagle dogs and various insects. This is revealed in Department of Health, Education and Welfare report on birth control research.

[illegible] [mental-health] legislation is based on] the [illegible]

psychiatric examination such as that required of General Walker is dangerous is that "there are no generally accepted standards of psychiatric behavior or of 'mental health.' The religious, political and moral views of the individual psychiatrist play a determining role in the outcome. These psychiatrists, who commit, say they are helping the defendant. Actually they may be imposing a punishment far more serious than a prison sentence...."

Continuing, Dr. Morris remarks: "What particularly makes this already dangerous practice even more serious is the fact that Communists are moving into this field to seize some of this power over human beings. One wonders how many people the late Dr. Robert Soblen, a psychiatrist, and convicted Soviet agent who jumped bail, caused to be committed and what were his norms? I have seen not only among practicing psychiatrists but, even more serious, on the councils of some psychiatric groups that are trying to set up norms of behavior, the names of psychiatrists who could not deny the evidence of their participation in the Communist conspiracy before the Senate committee I served, and instead invoked the Fifth Amendment lest they incriminate themselves...."

According to Dr. Thomas S. Szasz, Professor of Psychiatry, State University of New York, in his article entitled "Mind Tapping: Psychiatric Subversion of Constitutional Rights": "What constitutes mental illness is conveniently undefined. Its presence is ascertained by reference to the judgment of experts - in this case, psychiatrists. In this respect, mental illness is like witchcraft, which was also never clearly defined, but which experts had little difficulty diagnosing. Given these circumstances, I submit that government psychiatrists (or so-called forensic psychiatrists, generally) - like ecclesiastic witchhunters - will easily find large numbers of mentally sick people ...."

Why should this be so? Dr. Szasz suggests: "If this is doubted, we should only ask ourselves how long the witchhunter who never found witches would have lasted in his job? Similarly, how long would a court retain a psychiatrist who found most defendants fit to stand trial, and who would never interfere on psychiatric grounds with the trial of a defendant who wanted to be tried. Finally, would such a psychiatrist be as popular as those of his colleagues who find the defendant incompetent to stand trial in virtually every case in which this issue is raised by an important personage, whether judge, defense counsel, or prosecutor?"

The remarks of Dr. Morris and Dr. Szasz are, of course, related to Federal psychiatrists where Federal charges have been lodged against a defendant.

In the light of Kennedy's Mental Health program there are questions which should be answered to the satisfaction of every American. Some of these are: With Federal psychiatrists throughout hamlets and villages all over America, will those charged with mental illness ever come to trial? And - when the Federal Government dominates and controls mental health clinics throughout the country, will not the Federal Government arbitrarily determine the norms of "mental health" to suit its own purposes?

It should be noted that the World Federation for Mental Health which was formed during the International Congress on Mental Health in London, August, 1948, chose as its main objective: "to promote among all peoples and nations the highest possible level of mental health."

What then is the standard accepted by the World Federation for Mental Health which would distinguish "mental health" from "mental illness." An official summary of the statement of the International Preparatory Commission which set up WFMH includes the following: "Man and his society are closely interdependent. Social institutions such as family and school impose their imprint early in the personality development of their members, who in turn tend to perpetuate the traditional pattern to which they have been molded. It is the men and women in whom these patterns of attitude and behaviour have been incorporated who present the immediate resistance to social, economic and political changes. Thus prejudice, hostility or EXCESSIVE NATIONALISM may become deeply embedded in the developing personality without awareness on the part of the individual concerned, and often at great human cost."

The Cardinal Mindszenty Foundation, in an article published in THE WANDERER, July 12, 1962, stated:

"Most 'mental health' legislation is based on (1) the London Conference of 1948, which outlined a plan to bring about a Socialistic world government through an insidious misuse of the slogan 'mental health', and (2) the Draft Act published in 1952 by the Federal Security Agency, for which the preface was written by the director of the National Association for Mental Health, who later described a person as mentally ill who is 'suspicious of others and sees an enemy, perhaps a Communist, lurking behind every acquaintance . . . .' ....

" 'Mental health' is, or can be, a readymade political weapon to suppress, to intimidate, to smear and to brainwash ..... Those who are truly mentally ill cannot be properly cared for by a 'mental health' program whose purpose is to brainwash us for Socialist world government, and the breakdown of moral standards, and to separate psychiatry from religion; and whose tactics include the violation of Constitutional rights and the placing of the stigma of mental illness on anti-Communists ...."

Believing that "charity begins at home," perhaps it would be a good idea for certain spokesmen and high officials of the Kennedy Administration to voluntarily undergo psychiatric treatment with the hope of being cured of compulsive, pathological and chronic prevarication, as well as definite symptoms of megalomania. Inasmuch as such Federal employees would be examined by Federal psychiatrists, there would be no invasion of States Rights in this case!

Considering the foregoing information, it is obvious that the Kennedy Administration's "bold new approach" in the mental health field is not based on "compassion" for those who are truly suffering from mental illness. Under heavy pressure from the Administration to push through this program, your Congressman may be led to believe that his vote will provide humanitarian treatment for the mentally ill!

THE INDEPENDENT AMERICAN recommends to its readers that they write their Congressmen immediately protesting Kennedy's mental health program, and demanding that the Federal Government stay out of the field of mental health!

(Editor's note: The articles by Dr. Morris and Dr. Szasz referred to above have been published in a 16-page pamphlet which may be obtained from AMERICAN OPINION, Belmont 78, Mass. Their cost, in small quantities, is 10 for $1.00).

planners," on loan from various government agencies, are working to get the show on the road.

They are on duty FULL TIME, which can only mean that the government departments and agencies to which they are regularly assigned must be liberally overstaffed with stenographers and organizers and what-have-you. If there is such a surplus of employees available to move around with the greatest of ease, it is obvious that Congress has a job-cutting task to perform.

Not to be outdone by Bobby Kennedy and his planners, it is revealed that the Department of Health, Education, and Welfare has jumped into the act by granting $250,000 to authorized the program.

But the legislative branch - through its power to control the purse strings - can still have the last word, regardless of what the administration does to keep the domestic peace corps rolling. It remains to be seen how a majority in Congress will react when the test comes!

TECHNICAL AID: U.S. VERSION --- "The New Frontier will launch a States-side Peace Corps: Such projects as training young technicians to go into the big cities and help the natives fix the voting machines." -- (Fletcher Knebel, in Potomac Fever).

BIRTH CONTROL RESEARCH

(Reprinted from Army, Navy, Air Force JOURNAL and REGISTER - January 19, 1963)

"Birth Control Research has been given Army support. More than $30,000 was made available by Pentagon for studies concentrated on effect of irradiated foods on reproductive processes of beagle dogs and various insects. This is revealed in Department of Health, Education and Welfare report on birth control research.

holdings in various other major companies, which include the Sequoia Corporation, Trans-World Carriers, San Marino Corporation, and the Joshua Hendy Corporation, Standard Oil of California has extensive reserves in Arabia and Sumatra and Venezuela and elsewhere, and the vessels in the shipping enterprises in which Mr. McCone is interested are engaged in carrying oil for Standard of California....

"I am pleased to note that he has indicated a willingness to establish an irrevocable trust... but, in my mind this would not be an entirely satisfactory solution, because he and his family would continue to have an economic and beneficial interest in the holdings."

The case of John A. McCone is one of the most blatant examples of conflict of interest that has been presented in the U.S. Senate.

Through the hands of the Director of the Central Intelligence Agency pass all types of super-secret information, much dealing with economic aspects of the Cold War. It is inconceivable that Mr. McCone as Director of the CIA would not be privy to information which, through his holdings in a number of international companies could benefit him financially. The policy-makers of these giant international shipping and oil interests, almost without exception, operated on the thesis that they could do business with Hitler, and they are now of the opinion that they can do business with the Communists.

It is interesting to note that Standard Oil is one of the many Rockefeller enterprises, and that three members of the Rockefeller family - Nelson, David, and John III, -- are members of the Council on Foreign Relations.

Overlooked by many is the control that the Communist-accommo-

"THINK" FACTORIES

By Edith Kermit Roosevelt

WASHINGTON, D. C. — In an :a of news management the best ay to learn about Government olicy is at the think factories nanced openly or secretly by overnment funds. Here univerty professors from all over the ountry receive grants which enble them to learn and then proote the Government line. Under ie auspices of these "independnt, scientific research groups," udies and books are published mold "mature" or "informed ublic opinion."

A key think factory is the Intitute for Defense Analysis, 1666 onnecticut Avenue N. W. Seven-ear-old IDA, a non-profit organiation whose contracts are solely ith the Federal Government, as founded by a $500,000 grant rom the Ford Foundation. Its resident is — not unexpectedly – Richard M. Bissel, former Deputy Director of the Central Intelligence Agency.

One of IDA's announced goals "to return an Ambassador (parcularly a young Ph.D. or graduate student) to industrial and rofessional circles, inculcated ith a view of the world's business gleaned at first hand."

IDA presently operates under ix contracts. Five for the Dense Department cover weapons-ystems evaluation, research and ngineering, communications techniques, operations research and raining people in that field for he North Atlantic Treaty Alliance and support for the newly-formed Institute of Naval Studies. The sixth contract, with the State Department, covers studies for tration. It is in these IDA studies the U. S. Disarmament Administhat policy is spelled out. Here are some themes to be promoted over the coming months:

● Red China is to be pictured as the real threat in order to persuade the American people of the necessity for peaceful co-existence with Soviet Russia.

"The specter of China can be an asset in seeking military and political arrangements with the Soviets in Europe and, more significantly, can permit a relatively stable period of peaceful co-existence," writes General "X" in *Reactions To A Nuclear-Armed Communist China: Europe And The United Kingdom*. In the same IDA Study Memorandum, September 15th, 1962, General "X" suggests that the United States compromise with Red China over the fate of Quemoy and Matsu to enlarge what is purposefully as-

EDITH KERMIT ROOSEVELT

Arms Control And Inadvertent War, March 10th, 1962, Dr. Halperin says that in arms-control agreements "it might be stressed that inspection was not absolutely necessary" and that "the United States might, in fact, want to invite the Soviets to design the inspection procedures if they seem to be interested in them."

A man to watch for clues to policy is Dr. Lincoln P. Bloomfield, formerly with the State Department's disarmament staff and now director of the Arms Control Project at the Center for International Studies, Massachusetts Institute of Technology. In IDA Research Memorandum No. 3, *The Politics Of Arms Control: Troika, Veto And International Institutions*, October 6th, 1961, Dr. Bloomfield points out that "short of a major catastrophe the difficulties in obtaining widespread public approval and explicit Senate ratification of a genuine world government are obvious."

How then can Federal Government planners bypass the will of the American people and their elected representatives? Through disarmament negotiations.

In *A World Effectively Controlled By The United Nations*, March 10th, 1962, Dr. Bloomfield explains that "without disarmament such a system (of world government) is probably unobtainable."

And how can the American people be conditioned to accept the State Department plan to eliminate national armies and replace them with a UN police force?

"If it (world government) came about as a series of unnerving trips to or over the brink, it would come about at any time," according to Dr. Bloomfield.

McCone as Director of the CIA would not be privy to information which, through his holdings in a number of international companies could benefit him financially. The policy-makers of these giant international shipping and oil interests, almost without exception, operated on the thesis that they could do business with Hitler, and they are now of the opinion that they can do business with the Communists.

It is interesting to note that Standard Oil is one of the many Rockefeller enterprises, and that three members of the Rockefeller family - Nelson, David, and John III, -- are members of the Council on Foreign Relations.

Overlooked by many is the control that the Communist-accommodating Council on Foreign Relations exercises over the CIA, as evidenced by the fact that the former director of CIA, Republican Allen Dulles, is also a member of the CFR. The record of the CIA in ferreting out enemy secrets is so dismal that in many cases they have not only been taken completely by surprise, but a number of newspapers and private publications in the United States have printed information concerning enemy potentiality which apparently was not even known -- or was being suppressed -- by the CIA.

Here then is just another example of the awesome control exerted on this nation by the Council on Foreign Relations. The CFR has not only been substantially financed by the Rockefeller interests, but to all intents and purposes, can be assumed to actually reflect Nelson Rockefeller's views - the views he tries to conceal from the American people when he campaigns for the presidency as an advocate of "fiscal responsibility" and "the truth about Cuba." (Rockefeller's campaign for the presidency is discussed elsewhere in this issue.)

nificantly, can permit a relatively stable period of peaceful co-existence." writes General "X" in *Reactions To A Nuclear-Armed Communist China: Europe And The United Kingdom.* In the same IDA Study Memorandum, September 15th, 1962, General "X" suggests that the United States compromise with Red China over the fate of Quemoy and Matsu to enlarge what is purposefully assumed to be "the existing fissure between the Soviets and the Chinese."

● **The theme of unilateral disarmament is to be made respectable.** In *A Proposal For A Ban On The Use Of Nuclear Weapons*, October 6th, 1961, Dr. Morton H. Halperin suggests that even if the Russians don't disarm we should do so anyway.

"Some of these steps," says Dr. Halperin, "might be taken unilaterally either with the aim of inducing reciprocation or because they are valuable in themselves independent of the Russian response."

In hi. IDA Study Memorandum.

government) is probably unobtainable."

And how can the American people be conditioned to accept the State Department plan to eliminate national armies and replace them with a UN police force?

"If it (world government) came about as a series of unnerving trips to or over the brink, it would come about at any time," according to Dr. Bloomfield.

World government is to be presented to the American people as the only answer to a war in which they would suffer unacceptable destruction or could not win.

This may explain the President's pledge to Khrushchev not to liberate Cuba; the sending of American strategic materials behind the Iron Curtain and the other "no-win" policies. As Dr. Bloomfield says: "If the Communist dynamic were greatly abated, the West might lose whatever incentive it has for world government." — (Copyright 1962 by EDITH KERMIT ROOSEVELT SYNDICATE, Suite N 824, 800 Fourth Street S. Atlantica Pre-Visited

(Reprinted from THE RICHMOND (Va.) NEWS LEADER)

The intention of the Kennedy Administration to create an Atlantic superstate has long been apparent. In Christian Herter's description of Atlantica, the President's vague generalities about "interdependence" take on concrete shape.

Mr. Herter's summary of the drive for Atlantic Union is doubly important. In the first place, it appears in FOREIGN AFFAIRS, which for 42 years has been the respected house organ for the Council on Foreign Relations; the membership of the Council is hardly distinguishable from those who think international thoughts in the State Department and elsewhere. Secondly, it is the former Secretary of State's first public manifesto as Chief Negotiator under last years's Trade Expansion Act.

When Mr. Herter speaks of Atlantica evolving within ten years, then, he does not speak of the dream of a retired diplomat. The plan is already in action. The first stage, as Mr. Herter points out, was the passage of the Trade Expansion Act.

The second stage, the unification of Europe, began two months ago, and has nearly destroyed the Western alliance. What Mr. Herter calls the pre-requisite of "agreements with regard to the use of nuclear power," explains the shattering controversies with England, France, and Canada, and the withdrawal of missiles from Turkey and Italy. All these countries understand, as the American public does not, that the immediate issue is but a prelude to the merging of sovereignty. As part of this second stage, Mr. Herter outlines four steps for the conversion of NATO and the Common Market mechanisms into a government with executive, legislative, and judicial functions.

Had not Atlantica been set back by General de Gaulle's adamant rejection of Britain, Mr. Herter would not have been far from his goal of "discussing with Canada and the United States the specific constitutional character of any greater Atlantic Community." Mr. Herter does not elaborate on the constitution he envisages, although clearly he is out of sympathy with the French idea "in which each nation remains completely sovereign and there is no recognition of the right of any supra-national body to make binding determinations by a weighted vote." Indeed, "the controversial question of sovereignty would fall into perspective" — no doubt the perspective of the backward look.

A careful reading of his description of Atlantica shows that Mr. Herter is quite prepared to assist in the process of evolution: "The Administration's trade policy must advance substantially beyond where it now stands ... The long term objective must constantly be kept in mind ... the essential cement of political institutions ... A true Atlantic Community within the next decade is a realistic and attainable goal." The person making these

Atlantica Pre-Visited

(Reprinted from THE RICHMOND (Va.) NEWS LEADER)

The intention of the Kennedy Administration to create an Atlantic superstate has long been apparent. In Christian Herter's description of Atlantica, the President's vague generalities about "interdependence" take on concrete shape.

Mr. Herter's summary of the drive for Atlantic Union is doubly important. In the first place, it appears in FOREIGN AFFAIRS which for 42 years has been the respected house organ for the Council on Foreign Relations; the membership of the Council is hardly distinguishable from those who think international thoughts in the State Department and elsewhere. Secondly, it is the former Secretary of State's first public manifesto as Chief Negotiator under last years's Trade Expansion Act.

When Mr. Herter speaks of Atlantica evolving within ten years then, he does not speak of the dream of a retired diplomat. The plan is already in action. The first stage, as Mr. Herter points out, was the passage of the Trade Expansion Act.

The second stage, the unification of Europe, began two months ago, and has nearly destroyed the Western alliance. What Mr. Herter calls the pre-requisite of "agreements with regard to the use of nuclear power," explains the shattering controversies with England France, and Canada, and the withdrawal of missiles from Turkey and Italy. All these countries understand, as the American public does not, that the immediate issue is but a prelude to the merging of sovereignty. As part of this second stage, Mr. Herter outlines four steps for the conversion of NATO and the Common Market mechanisms into a government with executive, legislative, and judicial functions.

Had not Atlantica been set back by General de Gaulle's adamant rejection of Britain, Mr. Herter would not have been far from his goal of "discussing with Canada and the United States the specific constitutional character of any greater Atlantic Community." Mr. Herter does not elaborate on the constitution he envisages although clearly he is out of sympathy with the French idea "in which each nation remains completely sovereign and there is no recognition of the right of any supra-national body to make binding determinations by a weighted vote." Indeed, "the controversial question of sovereignty would fall into perspective" – no doubt the perspective of the backward look.

A careful reading of his description of Atlantica shows that Mr. Herter is quite prepared to assist in the process of evolution. "The Administration's trade policy must advance substantially beyond where it now stands ... The long term objective must constantly be kept in mind ... the essential cement of political institutions ... A true Atlantic Community within the next decade is a realistic and attainable goal." The person making these impersonal statements is the man whose name was sent to the Senate in January for confirmation as the chief instrument of the Administration's trade policy.

Not even a Constitution can stand proof against the relentless momentum of centralism. As Mr. Herter says, public understanding of Atlantica will very much determine whether two-thirds of the Senate will accept the treaties he negotiates.

(Editor's note: For further information regarding Atlantica, Atlantic Union, the Council on Foreign Relations, NATO, the Common Market, the Atlantic Community, etc., and how the one-worlder propose to destroy U. S. national sovereignty, order today a copy of the book "America's Unelected Rulers," by Kent and Phoebe Courtney.

What About Goldwater?

By Kent Courtney, Publisher

According to the Republican newsletter "Battle Line," Senator Barry Goldwater recently stated that he will not decide until January, 1964, whether he will seek the Republican Presidential nomination.

Many responsible Conservatives interpret Goldwater's hesitancy as deliberately planned in order to discourage activity in his behalf. On the other hand, because Goldwater has left the door open just a little bit for a possible draft, many party-loyal Conservative Republicans do not want to look elsewhere for another candidate who might actively work for the nomination.

Presently, the front-runner seeking the Republican nomination is the extreme Liberal, Nelson A. Rockefeller, Governor of New York. Rockefeller represents the International Socialist viewpoint which took over the Republican Party lock, stock and barrel when the nomination was stolen from Senator Robert A. Taft and given to Eisenhower in the nominating convention of 1952.

If Goldwater sincerely intends to seek the Republican nomination for the Presidency in 1964, he should immediately so announce, begin building his campaign organization, and contact State GOP groups seeking support for his nomination. A number of GOP State leaders may take action committing their votes prior to January 1964.

Conservative Republicans are disappointed that Goldwater has now put his decision "on ice." They realize that even though Goldwater might have a difficult time obtaining the Republican nomination, he would, if a candidate for nomination, still be able to go into the 1964 convention with a sizeable bloc of votes, and thus exert great power on behalf of Conservatism, especially in the formulation of the platform.

According to Ralph de Toledano, respected Conservative columnist: "Since 1940 left-of-center Republicans have dominated the Presidential nominating conventions ... Even Richard Nixon, whose major strength was in the Midwest, felt called upon to compromise with the Republican forces in 1960."

If Nixon had run on the platform originally formulated by the Platform Committee, he undoubtedly could have carried several States in the South, which would have given him the necessary electoral votes for election. But because Nixon knuckled under to Nelson Rockefeller, and because the Rockefeller-dictated platform was forced on the Convention, many Conservative Republicans refused to get up off their apathy on behalf of Nixon. The result is history.

It must be remembered that the Chairman of the Republican National Committee is a man who occupies a commanding, if not a determining, position in the selection of a candidate for President. It so happens that Representative William Miller of New York, the Chairman of the Republican Committee is, and has been, in the Rockefeller camp.

Goldwater has consistently, in his speeches throughout the country, stated that there is very little difference between himself and Nelson Rockefeller. In response to questions, Goldwater invariably says that if Nelson Rockefeller is the candidate of the Republican Party in 1964, he will support Rockefeller. (For proof, you may wish to write Senator Goldwater yourself and ask him to re-state his position in a letter.)

The CHICAGO DAILY NEWS on April 18, 1962, reported Senator Barry Goldwater, in a speech before the Tenth Annual Republican Women's Conference, said: "The Party should forget political labels such as Liberal and Conservative within the Republican Party." He further said, "When we organize the House and Senate in the next election, all I want to see is that 51 % of the people who answer their names are Republican, and I do not

Government Backs Down In Walker Case

Below is a round-up of editorial opinion regarding the dismissal of Federal charges against former Major General Edwin A. Walker:

THE SHREVEPORT (La.) TIMES

Dismissal by the Federal Government of its charges of seditious conspiracy and inciting to riot against former Major General Edwin A. Walker in connection with the University of Mississippi desegregation disorders carries factors of vital importance to every American citizen entirely aside from the racial issues which formed a background for the case.

Dismissal came after a Federal grand jury failed to indict General Walker. There can be no logical contention that this was simply prejudiced action by "a Mississippi jury," for the same Mississippi jury indicted three others under various charges in connection with the same racial disorders.

The Walker case involves rights of individuals under three Federal Constitutional amendments embraced in the Bill of Rights; the right of free speech as covered in the First Amendment; the right to a "speedy and public trial" as covered in the Sixth Amendment; the right to be secure from "excessive bail" and "cruel and unusual punishment," as provided in the Eighth Amendment. Those are rights Constitutionally guaranteed to everyone regardless of race, creed or color ....

THE CHATTANOOGA (Tenn.) NEWS-FREE PRESS

Maj. Gen. Edwin A. Walker is a much-decorated national hero of wartime action in our nation's military service. Yet he was made the target of a most high-handed, dictatorial, Hitler-or-Khrushchev-style political police harassment....

The way he was arrested had all the earmarks of a planned campaign of persecution. But the worst was yet to come. He was quickly hauled away from the district in which the alleged crimes took place and was imprisoned in a Federal mental institution in Missouri. At first his bond was set at $100,000 - although the Constitution prohibits unreasonable bond. Furthermore, he was ordered held for psychiatric examination - a device for sowing seeds of doubt in the public mind and for discrediting the defendant. And such an order could have denied him freedom on bond, even if he could have made it, for a period of 60 to 90 days that might be used for psychiatric testing.

A shocked public's outcries cause the Gestapo-like approach to be eased. General Walker was allowed to make $50,000 bond and to return to his home in Texas and undergo psychiatric examination there.

When psychiatric tests were made, it was found that General Walker was mentally sound. Then the Federal Government took the charges against him before a Federal grand jury in Mississippi, where it presumably presepted its "evidence." The grand jury did not find reason to indict the general.

Then - four months after it all began - the Federal Government officially withdrew its charges against General Walker ....

This is how a prominent national figure fared. How do you think you or any other citizen lacking in national prominence would fare if the same forces attacking General Walker should make their attack upon you?

Every American ought to recognize the great danger involved in this example of the Kennedy Administration's police-state approach.

ST LOUIS GLOBE-DEMOCRAT

Withdrawing its charges against Maj. Gen. Edwin Walker - because it could not obtain a grand jury indictment - the Federal Government apparently has closed its books on one of its most

nomination, he would, if a candidate for nomination, still be able to go into the 1964 convention with a sizeable bloc of votes, and thus exert great power on behalf of Conservatism, especially in the formulation of the platform.

According to Ralph de Toledano, respected Conservative columnist: "Since 1940 left-of-center Republicans have dominated the Presidential nominating conventions ... Even Richard Nixon, whose major strength was in the Midwest, felt called upon to compromise with the Republican forces in 1960."

If Nixon had run on the platform originally formulated by the Platform Committee, he undoubtedly could have carried several States in the South, which would have given him the necessary electoral votes for election. But because Nixon knuckled under to Nelson Rockefeller, and because the Rockefeller-dictated platform was forced on the Convention, many Conservative Republicans refused to get up off their apathy on behalf of Nixon. The result is history.

It must be remembered that the Chairman of the Republican National Committee is a man who occupies a commanding, if not a determining, position in the selection of a candidate for President. It so happens that Representative William Miller of New York, the Chairman of the Republican Committee is, and has been, in the Rockefeller camp.

Goldwater has consistently, in his speeches throughout the country, stated that there is very little difference between himself and Nelson Rockefeller. In response to questions, Goldwater invariably says that if Nelson Rockefeller is the candidate of the Republican Party in 1964, he will support Rockefeller. (For proof, you may wish to write Senator Goldwater yourself and ask him to re-state his position in a letter.)

The CHICAGO DAILY NEWS on April 18, 1962, reported Senator Barry Goldwater, in a speech before the Tenth Annual Republican Women's Conference, said: "The Party should forget political labels such as Liberal and Conservative within the Republican Party." He further said, "When we organize the House and Senate in the next election, all I want to see is that 51 % of the people who answer their names are Republican, and I do not care what they think or what their philosophy is."

On June 26, 1962, Senator Goldwater helped raise $250,000 in campaign funds in Milwaukee, to be used for the attempted re-election of Republican Senator Alexander Wiley. Goldwater at this fund-raising dinner gave considerable praise to Wiley, and labeled Wiley "as anti-Communist as any man in this country that I know."

Apparently Goldwater conveniently overlooked the fact that this so-called "anti-Communist," Senator Wiley, had only shortly before that time voted in favor of U. N. bonds which financed United Nations aggression against anti-Communist Katanga; and also that Wiley, only a few weeks prior to Goldwater's speech in Milwaukee, had voted for Foreign Aid which included aid to Communist countries. At this dinner Goldwater reiterated his views by stating, "The alleged difficulties between GOP Liberal and Conservative wings are closer together than Joe Kennedy and John Kennedy."

Comment is not necessary on this statement, which can only be viewed as an error in fact.

THE AMARILLO GLOBE TIMES, on Tuesday, June 5, 1962, quoted Goldwater as saying he was not sorry that he joined the NAACP in 1951. Goldwater said he is morally opposed to segregation and has made no secret of that on his trips throughout the South. Earlier he said he donated four hundred dollars to help finance a successful fight to integrate the high schools in Phoenix.

In the summer of 1962, Thurgood Marshall, Special Counsel of the National Association for the Advancement of Colored People, was nominated by President Kennedy to be a Federal Judge of the United States Second Circuit Court. Thurgood Marshall's Communist-front record was thoroughly discussed on the floor of the U. S. Senate. All knowledgeable anti-Communists will be shocked to learn that on September 11, the Senate of the United States voted 54 to 16, with 30 Senators not voting, to confirm the nomination of Thurgood Marshall. Senator Barry Goldwater of Arizona voted to approve this nomination in spite of his knowledge of Marshall's Communist-front citations.

For approximately four years Goldwater held the post of Chairman of the Republican Senatorial Finance Committee. During this time, Goldwater was repeatedly the key speaker in many money-raising functions throughout the South and, of course, in the rest of the nation. According to personal interviews we have had with two Republican Senatorial candidates in 1962, William D. Workman of South Carolina, and James D. Martin of Alabama, they received

of wartime action in our nation's military service, yet he was made the target of a most high-handed, dictatorial, Hitler-or-Khrushchev-style political police harassment....

The way he was arrested had all the earmarks of a planned campaign of persecution. But the worst was yet to come. He was quickly hauled away from the district in which the alleged crimes took place and was imprisoned in a Federal mental institution in Missouri. At first his bond was set at $100,000 - although the Constitution prohibits unreasonable bond. Furthermore, he was ordered held for psychiatric examination - a device for sowing seeds of doubt in the public mind and for discrediting the defendant. And such an order could have denied him freedom on bond, even if he could have made it, for a period of 60 to 90 days that might be used for psychiatric testing.

A shocked public's outcries cause the Gestapo-like approach to be eased. General Walker was allowed to make $50,000 bond and to return to his home in Texas and undergo psychiatric examination there.

When psychiatric tests were made, it was found that General Walker was mentally sound. Then the Federal Government took the charges against him before a Federal grand jury in Mississippi, where it presumably presented its "evidence." The grand jury did not find reason to indict the general.

Then - four months after it all began - the Federal Government officially withdrew its charges against General Walker ....

This is how a prominent national figure fared. How do you think you or any other citizen lacking in national prominence would fare if the same forces attacking General Walker should make their attack upon you?

Every American ought to recognize the great danger involved in this example of the Kennedy Administration's police-state approach.

ST LOUIS GLOBE-DEMOCRAT

Withdrawing its charges against Maj. Gen. Edwin Walker - because it could not obtain a grand jury indictment - the Federal Government apparently has closed its books on one of its most disgraceful actions ....

Given the troops, given the excuse, an American Attorney General can toss the Bill of Rights away and be just as arbitrary as a Gestapo chief. It was the shocked outcry of the free American press which restored to General Walker the rights the Constitution says he has.

Let's not forget that it can happen here. Let's not forget how it was quickly corrected.

CONGRESSMAN H. R. GROSS (Newsletter of Feb. 6, 1963)

....Except for the action of the Federal jurors, the railroading of former Major General Edwin A. Walker could be a page out of the records of the Communist secret police. What if this had been a citizen without friends or means who had somehow aroused the ire of Attorney General Bobby Kennedy? He could still be incarcerated, perhaps driven to insanity by the injustice of his imprisonment.

It is not enough now to know that the charges against Walker have been dropped. Every citizen of this country is entitled to know whether his or her previous individual rights and liberties can be emasculated at the whim and caprice of an impetuous, inexperienced Attorney General and those who spinelessly do his bidding.

The citizens of this country need to know now whether the Department of Justice is being transformed into the Department of Persecution.

ROCKFORD (Ill.) REGISTER-REPUBLICAN

....If the Administration is allowed to continue to abuse due processes of law, the liberties of every citizen are endangered. Congress should take a deeper look into flagrant misuse of Administration powers to serve personal motives.

CHALLENGE AND CHANCE

(Reprinted from the CHATTANOOGA NEWS-FREE PRESS)

Alabama's Gov. George Wallace marked his inauguration yesterday with a ringing challenge: "From this day, we intend to take the offensive and carry our fight for freedom across the nation, wielding the balance of power we know we possess in the Southland ... We, not the insipid bloc voter sections, will determine in the next election who shall sit in the White House of the United States."

Certainly, the South could and should do just that. Whether it will or not is highly questionable.

this so-called "anti-Communist," Senator Wiley, incidentally stated before that time voted in favor of U. N. bonds which financed United Nations aggression against anti-Communist Katanga, and also that Wiley, only a few weeks prior to Goldwater's speech in Milwaukee, had voted for Foreign Aid which included aid to Communist countries. At this dinner Goldwater reiterated his views by stating, "The alleged difficulties between GOP Liberal and Conservative wings are closer together than Joe Kennedy and John Kennedy."

Comment is not necessary on this statement, which can only be viewed as an error in fact.

THE AMARILLO GLOBE TIMES, in Tuesday, June 5, 1962, quoted Goldwater as saying he was not sorry that he joined the NAACP in 1951. Goldwater said he is morally opposed to segregation and has made no secret of that on his trips throughout the South. Earlier he said he donated four hundred dollars to help finance a successful fight to integrate the high schools in Phoenix.

In the summer of 1962, Thurgood Marshall, Special Counsel of the National Association for the Advancement of Colored People, was nominated by President Kennedy to be a Federal Judge of the United States Second Circuit Court. Thurgood Marshall's Communist-front record was thoroughly discussed on the floor of the U. S. Senate. All knowledgeable anti-Communists will be shocked to learn that on September 11, the Senate of the United States voted 54 to 16, with 30 Senators not voting, to confirm the nomination of Thurgood Marshall. Senator Barry Goldwater of Arizona voted to approve this nomination in spite of his knowledge of Marshall's Communist-front citations.

For approximately four years Goldwater held the post of Chairman of the Republican Senatorial Finance Committee. During this time, Goldwater was repeatedly the key speaker in many money-raising functions throughout the South and, of course, in the rest of the nation. According to personal interviews we have had with two Republican Senatorial candidates in 1962, William D. Workman of South Carolina, and James D. Martin of Alabama, they received little, if any, financial help from Senator Goldwater's Senatorial Finance Committee. We are reliably informed that Republican Dr. Ken Jones, who opposed Democrat Senator J. William Fulbright, likewise received no significant financial help from Goldwater's Committee. James McCartney, of the CHICAGO DAILY NEWS Washington Bureau, reported on November 7, 1962: "Goldwater did not appear in either of the Senatorial races in which the Republicans gave the Democrats real scares in the Deep South. Those were races by James Martin against Senator Lister Hill of Alabama, and by William Workman against Senator Olin Johnston in South Carolina."

In the BORGER (Tex.) NEWS-HERALD for December 5, 1962, an AP story datelined Washington, said: "Goldwater has said over and over again that he wants another term in the Senate and is not interested in seeking the Presidential nomination ....Goldwater feels that any venture into the Presidential primaries on his part would be tantamount to telling the Arizona voters he wasn't interested in another Senate term."

In the NEW ORLEANS STATES-ITEM for December 20, 1962, under a column entitled "Personalities in the News," it was reported: "Asked about differences between himself and New York's Governor Rockefeller, he said that such differences were not as extreme as those dividing some Conservatives and Liberal Democrats and, said Goldwater, he doesn't think Rockefeller is as Liberal as generally believed."

Wishful thinking is no longer a harmless pastime. Wishfully hoping that Goldwater will run for the Republican nomination in 1964 is downright dangerous! Nothing could please the Socialists and the Communists more than to see the Conservatives of this nation sitting on their hands all during 1963, hoping for Goldwater to make up his mind to run! Then if Senator Goldwater declines to run, as THE INDEPENDENT AMERICAN believes he will, the Conservative Republicans will be left with just one candidate - Nelson Rockefeller. And that is the way it's being planned!

It doesn't take too much of a long memory to go back to the 1960 Republican Convention when Senator Goldwater, after denouncing the Rockefeller-dictated platform as a "Republican Munich," and after promising to take the platform fight to the floor of the Convention, did a complete about-face, did not contest the platform on the floor of the Convention, and ended up urging Conservatives to compromise their principles and support the Modern Republican nominee, the tool of Nelson Rockefeller, one Richard Nixon.

The February 1 column of Fulton Lewis, Jr., gives a hint of the pressure that can be expected to be exerted on Senator Barry Goldwater should he ever have any serious ideas of running for the Republican nomination for the presidency. Fulton Lewis reports that Interior Secretary Stewart Udall, who was formerly a Congressman from Arizona, is under heavy Administration pressure to take on Arizona's Senator Barry Goldwater, up for re-election in 1964. Fulton Lewis terms Udall "a proven vote-getter." Needless to say, Udall would be backed by the full financial resources of not only the Kennedy Administration, but also of the AFL/CIO's C.O.P.E., with their hordes of organized precinct workers.

Bearing in mind Goldwater's about-face at the Republican Convention in 1960, anyone contemplating devoting their efforts or their finances during 1963 toward hoping that Goldwater will run for President in 1964 should be prepared for an announcement by Goldwater (at any time up to the deadline for filing to run for re-election as Senator) that he had "changed his mind," and was running only as a Senatorial candidate from Arizona.

Senator Barry Goldwater proved to his dedicated supporters in 1960 that he was very adept at the art of "last-minute rug-pulling." Will he repeat this performance in 1964?

....Except for the action of the Federal jurors, the railroading of former Major General Edwin A. Walker could be a page out of the records of the Communist secret police. What if this had been a citizen without friends or means who had somehow aroused the ire of Attorney General Bobby Kennedy? He could still be incarcerated, perhaps driven to insanity by the injustice of his imprisonment.

It is not enough now to know that the charges against Walker have been dropped. Every citizen of this country is entitled to know whether his or her previous individual rights and liberties can be emasculated at the whim and caprice of an impetuous, inexperienced Attorney General and those who spinelessly do his bidding.

The citizens of this country need to know now whether the Department of Justice is being transformed into the Department of Persecution.

CHALLENGE AND CHANCE

(Reprinted from the CHATTANOOGA NEWS-FREE PRESS)

Alabama's Gov. George Wallace marked his inauguration yesterday with a ringing challenge: "From this day, we intend to take the offensive and carry our fight for freedom across the nation, wielding the balance of power we know we possess in the Southland ... We, not the insipid bloc voter sections, will determine in the next election who shall sit in the White House of the United States."

Certainly, the South could and should do just that. Whether it will or not is highly questionable.

The South can find no philosophical champion of strict constitutional government in President Kennedy or in his now-likely opponent, Gov. Nelson Rockefeller. Both are liberals and neither is dedicated to upholding what the Constitution actually says.

The South, however, can hold the balance of power by withholding its electoral votes from any candidate who does not meet the proper standards. And with Southern electoral votes withheld and the others split rather evenly, no candidate can attain the necessary majority for election as President.

Without organization or concert, the South came close to exercising the balance of power both in 1948 and in 1960. It can do it in 1964.

If the South does not do it, the South will lose by default and its voice in national affairs will continue to diminish, and so will constitutional government.

Aroused Populace Can Halt Administration's Plunge Into Financial Disaster

(Reprinted from FT. LAUDERDALE NEWS)

As President Kennedy made clear in his budget message to the Congress a few days ago, he no longer believes in the philosophy that progress and prosperity for our nation can be achieved through the sound principles of a balanced budget and conservative spending policies.

Instead, he has surrendered to the Keynesian philosophy that real prosperity can only be achieved by spending what we don't have for things we don't truly need in the hope this reckless spending binge will produce an artificial kind of prosperity that will keep us afloat in a sea of red ink.

This is one of the most dangerous fiscal gambles any American president has ever embarked upon. If it fails we will have budget deficits of unparalleled peacetime proportions and of such tremendous magnitude and import that our whole financial and economic structure can be wrecked on the shoals of galloping inflation.

ALONG with this we will have thrust upon us a federal bureaucracy of truly stupendous size and regimentation. And with the "managed news" policy that has already been adopted as official administration policy, we will be increasingly told that all this is for our own good and is necessary to get us moving again in the path of progress and sweet prosperity.

It is amazing how many Americans have already fallen for this line of pure guff. As Steve Stahl, head of the Investor's Union, said recently:

"We have traded the Declaration of Independence for the fetish of interdependence . . . We are transforming the powerful wings of the mighty American eagle into the fluttering feathers of a mother hen—right here at home where we are teaching our children at our own expense that free enterprise has failed and the government is more capable of managing our affairs than we are ourselves."

Dr. Edward R. Annis, president-elect of the American Medical Assn., echoed much the same theme recently when he declared:

"A federal government takeover is like poured cement. If you do not struggle while it is being poured, but wait until it is an accomplished fact, it hardens and you never escape."

THIS is all too true. Right now we have an administration firmly dedicated to vastly increasing the influence of the federal government on our daily lives. In just two years this administration has added 145,342 persons to the federal payroll and the payroll padding technique has just started good. It is an administration which thinks nothing of buying Congres-

Why Have Results of Test Ban No. 1 Been Concealed ?

By Admiral Chester C. Ward

What really happened between 1961 and 1963 to the balance of nuclear power between the Soviet Union and the US? Why are the results of the Soviet first test-ban-breaking test series being suppressed? Why are the results of the Soviet second series being ignored? Why are "deals" being made, concessions offered, secret sessions held, U.S. underground tests halted? What is the relationship of the Cuban crisis to highest level pressures to rush into Test-Ban II before the Public and Congress discover the gains made by the Soviets by Test-Ban I?

Are Test-Ban II negotiations serving to "cover" the unilateral DE FACTO disarmament of the United States?

The press does not ask these questions - let alone answer them. Military experts - who know the answers - are muzzled. Nuclear scientists - who are largely responsible for the answers - are silent.

These answers would reveal - if we end up cinders or slaves, dead or Red, - how Khrushchev got the overwhelming supremacy of strategic military power necessary to do it to us. If, at the time of Khrushchev's next Cuban type missile threat, his weapons turn out to be so fantastically more powerful than ours, that our choice is narrowed to surrender or suicide - here in these answers is how his weapons - and ours - got that way.

These answers aren't easy to get, of course. Nor are they easy to understand. If they were, you would have had them long before now. This is no coincidence - but it does result, from the coincidence that both Khrushchev and the U.S. Administration want Test-Ban II to go through.

Triple curtains of classification, complexity, and credibility shroud the real answers. Everything the American people need to know, somehow becomes too secret to trust you with, too complex for you to understand, or too shocking for you to believe.

In 1961, the U.S. stockpile of nuclear weapons material was twice as big as Russia's. We had twice the number of nuclear warheads they did. Our warheads were more sophisticated than theirs across the entire spectrum of nuclear weaponry.

Most important of all, from the strategic viewpoint, our nuclear technology was far more advanced than theirs. From each pound of nuclear materal in warheads, we could get twice the explosive power. That is, their YIELD-TO-WEIGHT RATIO WAS ONLY HALF as good as ours.

Thus, in 1961, if Khrushchev had not carried out a massive and magnificently researched program of large-scale nuclear tests in the atmosphere, he would have frozen Soviet nuclear technology - and hence Soviet military power - in a position of vast inferiority.

Khrushchev, a dedicated Communist, would not do that to the Soviet Union. To him, any leaders who would fail to order nuclear tests to break their country out of a position of nuclear inferiority, would be "slobbering idiots."

From the beginning of Test-Ban I, in October, 1958, therefore, the Soviets conducted what President Kennedy has described as "prolonged secret preparations for a sudden series of major tests." In September, 1961, Khrushchev - with more than two years of cynical premeditation - betrayed his triple-pledged promises of Test-Ban I.

Those of our scientists who were not so naive as to believe that he would not cheat at all, expected only that he would attempt clandestine underground tests. These would equal at most the explosive force of a few thousand tons of TNT. Instead, he went straight to atmospheric tests of the force of scores of millions of tons. His biggest shot - amounting to 58,000,000 tons of TNT equivalent - made headlines around the world for weeks.

The most momentous news growing out of the Soviet Test-Ban I violation, however, still has made no headlines whatever. On the basis of the influence it will have on the lives and liberty of nearly 190,000,000 Americans, this news should have headlined every newspaper in the nation as follows:

"SOVIET TEST-BAN BREAKING STEALS U.S. STRATEGIC SUPERIORITY. COMMUNISTS NOW FAR AHEAD IN TECH-

THIS is all too true. Right now we have an administration firmly dedicated to vastly increasing the influence of the federal government on our daily lives. In just two years this administration has added 145,342 persons to the federal payroll and the payroll padding technique has just started good. It is an administration which thinks nothing of buying Congressional votes with lush patronage jobs and of twisting arms in every way possible to get what it wants. Its political morals come right from the barnyard and it is a complete stranger to the truth unless telling the truth happens to serve its own ends.

With the kind of politics this administration plays there is only one effective way to keep this administration from getting just what it wants. Congress must be persuaded that the administration program is not the program our people want and the only way that can be done is to mount a letter writing campaign of such effectiveness that our Congressional representatives must listen to the voice of the people.

That means that each and every American who is dedicated to preserving constitutional government and sanity in our taxing and spending programs must plunge into this fight and make his or her voice heard where it will do the most good. Sounding off to a neighbor or a friend isn't going to do any good, but sounding off to a congressman can do a lot of good, and we are going to have to do a lot of that in the months ahead if we are to keep this nation's head above water.

LET no one kid himself that this administration isn't politically smart. It is the most ruthless and the craftiest political machine that has ever come into power in this country, and it is not the least bit averse to using every trick in the book, including downright falsehood, to stay there.

It is time more Americans woke up to what is going to happen to their country if we don't get some sanity back in Washington. The cold, hard truth happens to be that we are riding for a very nasty fall, and it could be a disastrous one, indeed, unless some checkreins are applied while there is still time.

(Editor's Note: If you wish to join a "grass roots" protest against big Federal spending and Kennedy's phony tax cut, buy and distribute copies of the new pocket-size, two color pamphlet, TAX FAX No. 41, entitled "Does Tax Cut Really Mean Tax Increase?" Order from THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 18, La. Single copy - 25¢; 20 - $1.00; 250 - $10.00; 1,000 - $35.00. Postage prepaid.)

LIBERATION FOR CUBA PETITION

The American Committee to Free Cuba, Inc., is an organization of Americans dedicated to the freedom of Cuba and the complete removal of Communism from the Western Hemisphere.

The American Committee to Free Cuba now has available petitions, addressed to the President of the United States, demanding the destruction of the Communist regime in Cuba. The petition warns of a nuclear Pearl Harbor because of the present danger to the security of the United States and because of the presence of modern nuclear weapons based on Cuba. The petition declares that the Soviet Union has built up its armed forces in Cuba for the ultimate purpose of destroying the United States. The petition urges that the President, without delay, undertake all necessary action, including the use of armed forces, to destroy the Communist regime in Cuba.

THE INDEPENDENT AMERICAN recommends that all of its readers obtain these petitions from the American Committee to

atmospheric tests of the force of scores of millions of tons. His biggest shot - amounting to 58,000,000 tons of TNT equivalent - made headlines around the world for weeks.

The most momentous news growing out of the Soviet Test-Ban I violation, however, still has made no headlines whatever. On the basis of the influence it will have on the lives and liberty of nearly 190,000,000 Americans, this news should have headlined every newspaper in the nation as follows:

"SOVIET TEST-BAN BREAKING STEALS U.S. STRATEGIC SUPERIORITY; COMMUNISTS NOW FAR AHEAD IN TECHNOLOGY OF NUCLEAR SUPERWEAPONS"

Thus, in 1963, if Khrushchev traps us into Test-Ban II, he will have completely reversed the 1961 situation. U.S. nuclear technology will be frozen in a position vastly inferior to that of the Soviets.

The specific basis for the headline above is that:

The Soviet test-ban breaking series of September, 1961, enabled them to improve their nuclear explosive yield-to-weight ratio up to 1,000 per cent, in the strategic and superweapon categories.

From being able to get only half as much power as the U.S. did from each pound of nuclear material, they leap-frogged over us to obtain up to five times more yield per pound than we had in 1961.

The military significance of such a sensational gain in explosive efficiency is staggering. It's like acquiring - virtually without cost - potential nuclear explosive power priced, at U.S. standards, at some $90,000,000,000. It's like being able to add to a national arsenal of conventional explosives, additional tons of TNT sufficient to fill a string of box cars stretching to the moon and back some 80 times.

Such figures are not, of course, necessarily meaningful - especially to us. That they have a deep meaning to Khrushchev was demonstrated by his Cuban missile adventure. He obviously is convinced THIS UNPRECEDENTED BONANZA OF ADDITIONAL NUCLEAR POWER WILL PROVIDE HIM WITH THE OVERWHELMING MILITARY MIGHT TO CONQUER THE WORLD WITHOUT UNDUE RISK OF MASSIVE NUCLEAR RETALIATION. His test-ban cheating gains have enabled him to adopt the grimmest of all nuclear strategies: the strategy of the "calculated win."

How can a ten-fold increase in nuclear explosive efficiency so quickly revolutionize the military power which controls the world? The answer lies in the fact that nuclear materials in weapons' stockpiles, can be re-worked in accordance with new techniques. The Soviets acquired, therefore, the immediate potential of multiplying the megatonnage of their stockpile by a factor of up to 10.

The most reliable non-official estimates of the Soviet stockpile put it at about 20 kilomegatons (20 thousand million tons of TNT equivalent) in 1961. It is theoretically possible, therefore, that - without adding any new nuclear material other than to off-set normal deterioration - they could rework the totality of their explosive power toward 200 kilomegatons.

The 1961 U.S. stockpile was un-officially estimated at 40 kilomegatons. It had taken us some 20 years and 20 billion dollars to build it up to that.

The Soviet's spectacular increase in explosive power per pound has some additional military effects even more significant than the capability of multiplying the totality of the explosive power of their nuclear stockpile. The second military asset derived from their test-ban cheating is in the multiplication they can now secure in the "numbers' effect" or the "nuclear destructiveness" of their nuclear weaponry. A simplified formula for this is stated as follows:

"a three-fold increase in the explosive power per pound is the same as doubling the number of weapons."

Thus the Soviet's estimated number of weapons in 1961 - some 10,000 - would, with the ten-fold increase in explosive power per pound of nuclear material in the warheads, become the equivalent in "nuclear destructiveness" of 133,000 weapons of the low power per pound warhead type they had before they trapped us in Test-Ban I.

The re-publication of this formula, in this connection, should raise some shrill voices in elite circles in Washington. It can expose many deceptive half-truths being fed the public. For an outstanding example, the "missile-gap-in-reverse" myth is based entirely on numbers of missiles, and ignores completely the destructive power of missile warheads. Thus it is said, "We have 200 ICBMs. The Soviets have only 100 ICBMs. We have a two-to-one lead." The implication is that our missile force is also twice as powerful. But what about the warheads?

Our newest and soon-to-be most numerous missile, MINUTEMAN, has a warhead of about 1/2 of one megaton now. Assume we can

china that has ever come into power in this country, and it is not the least bit averse to using every trick in the book, including downright falsehood, to stay there.

It is time more Americans woke up to what is going to happen to their country if we don't get some sanity back in Washington. The cold, hard truth happens to be that we are riding for a very nasty fall, and it could be a disastrous one, indeed, unless some checkreins are applied while there is still time.

(Editor's Note: If you wish to join a "grass roots" protest against big Federal spending and Kennedy's phony tax cut, buy and distribute copies of the new pocket-size, two color pamphlet, TAX FAX No. 41, entitled "Does Tax Cut Really Mean Tax Increase?" Order from THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 18, La. Single copy -25¢; 20 - $1.00; 250 - $10.00; 1,000 - $35.00. Postage prepaid.)

LIBERATION FOR CUBA PETITION

The American Committee to Free Cuba, Inc., is an organization of Americans dedicated to the freedom of Cuba and the complete removal of Communism from the Western Hemisphere.

The American Committee to Free Cuba now has available petitions, addressed to the President of the United States, demanding the destruction of the Communist regime in Cuba. The petition warns of a nuclear Pearl Harbor because of the present danger to the security of the United States and because of the presence of modern nuclear weapons based on Cuba. The petition declares that the Soviet Union has built up its armed forces in Cuba for the ultimate purpose of destroying the United States. The petition urges that the President, without delay, undertake all necessary action, including the use of armed forces, to destroy the Communist regime in Cuba.

THE INDEPENDENT AMERICAN recommends that all of its readers obtain these petitions from the American Committee to Free Cuba, Inc., P. O. Box 91, Arcadia, California. Be sure to send at least twenty-five cents (in coin or stamps) when requesting copies of the petition.

Liberation for Cuba should be the rally call of all Americans. We urge every patriotic organization to cooperate in this Liberation For Cuba Petition Drive sponsored by the American Committee to Free Cuba.

Soviets acquired, therefore, the immediate potential of multiplying the megatonnage of their stockpile by a factor of up to 10.

The most reliable non-official estimates of the Soviet stockpile put it at about 20 kilomegatons (20 thousand million tons of TNT equivalent) in 1961. It is theoretically possible, therefore, that - without adding any new nuclear material other than to off-set normal deterioration - they could rework the totality of their explosive power toward 200 kilomegatons.

The 1961 U.S. stockpile was un-officially estimated at 40 kilomegatons. It had taken us some 20 years and 20 billion dollars to build it up to that.

The Soviet's spectacular increase in explosive power per pound has some additional military effects even more significant than the capability of multiplying the totality of the explosive power of their nuclear stockpile. The second military asset derived from their test-ban cheating is in the multiplication they can now secure in the "numbers' effect" or the "nuclear destructiveness" of their nuclear weaponry. A simplified formula for this is stated as follows:

> "a three-fold increase in the explosive power per pound is the same as doubling the number of weapons."

Thus the Soviet's estimated number of weapons in 1961 - some 10,000 - would, with the ten-fold increase in explosive power per pound of nuclear material in the warheads, become the equivalent in "nuclear destructiveness" of 133,000 weapons of the low power per pound warhead type they had before they trapped us in Test-Ban I.

The re-publication of this formula, in this connection, should raise some shrill voices in elite circles in Washington. It can expose many deceptive half-truths being fed the public. For an outstanding example, the "missile-gap-in-reverse" myth is based entirely on numbers of missiles, and ignores completely the destructive power of missile warheads. Thus it is said, "We have 200 ICBMs. The Soviets have only 100 ICBMs. We have a two-to-one lead." The implication is that our missile force is also twice as powerful. But what about the warheads?

Our newest and soon-to-be most numerous missile, MINUTEMAN, has a warhead of about 1/2 of one megaton now. Assume we can double it to 1 megaton. The Soviets - with their test-ban gained greater yield-to-weight ratio, and much more powerful rocket thrust, undoubtedly have operational missiles of 30 megatons. Applying the "destructiveness" formula, the 100 Soviet missiles could equal not merely 200 U.S. MINUTEMAN missiles - but 2,000 of them. So, the "missile-gap-in-reverse" can be reversed again.

The Soviets most probably do not have 100 30-megaton missiles - yet. They now have, however, the capability of producing that many

(Reprinted from CHICAGO TRIBUNE)

NEWS FROM CUBAN UNDERGROUND

Below are excerpts from three bulletins of the Cuban Information Service, Miami, Fla., Carlos Todd, Editor. THE INDEPENDENT AMERICAN has found, judging from past performance, that the reports of Mr. Todd, a Cuban exile, are highly accurate regarding the Soviet build-up in Cuba:

JANUARY 26, 1963

. . . .A report from Cuba says that the two cement factories in the island are working 24 hours a day. The cement block business is also booming, the products destined exclusively for military installations. Recent arrivals in small boats described the enormous increase of armed pillboxes at strategic places throughout the province of Oriente.

FEBRUARY 2, 1963

. . . .An unknown number of Soviet troops is engaged in the construction of submarine bases. Communist Cuba now has 190 MIGs - including many late model MIG 21s, with a range of 700 miles, capable of carrying atomic warheads. The Russian forces are commanded by two, perhaps four Russian generals. Although some 4,000 Russians have left Cuba, 600 came in recently, with more to come.

FEBRUARY 9, 1963

. . . .The Cuban Student Directorate - DRE announced in Mexico City that some 19,000 Soviet troops in Cuba were backed up by 28,000 troops from Communist bloc countries, including some of the so-called neutralist nations. Last September, we reported the presence of Algerians, Ghanaians, Senegalese, Czechs, Poles, East Germans, Chinese and other Communist colonials in the island. They have not been shipped out. The men have been organized into an "international brigade", under the command of Enrique Lister, Spanish Communist, who was active in the Spanish Civil War. Overall commander is Russian General C. O. Slazenko, with Major Gen-

Taxpayers Pockets To Be Picked For "Ransom"

(Reprinted from the SHREVEPORT (La.) JOURNAL)

Heartwarming as is the news that Cuban prisoners captured by Castro forces during the Bay of Pigs invasion have now been released and returned to the United States, there are certain aspects of the transaction which can only be viewed with distaste by the American taxpayer.

The Indianapolis Star and the Nashville Banner have labeled the "ransoming" of the prisoners as outright blackmail and declared the cost eventually will be passed on to the American taxpayer, although ostensibly the contributions of drugs and food by American companies have been on a "voluntary" basis.

Said the Indianapolis Star:

"From what we have been able to gather from behind the paper curtain that is drawn over the truth in Washington, the drug companies were politely blackmailed into supplying the drugs by the Kennedy Administration. They were asked to do this in the long range national interest. They say they were not told they had to do this. They didn't have to be. They know only too well what happens to businesses that refuse to do what the Kennedy Administration asks. They have the lesson of the big steel companies who tried to refuse a Kennedy request. They know that Bobby Kennedy is in charge of the anti-trust division and they know that New Frontiersman Kefauver is itching to destroy their patent protections. And then there is always the Internal Revenue Department to consider. And the Pure Food and Drug Administration. And, they know, if they refused to do their 'patriotic duty' and support the President's request, what they might expect in the way of public attacks upon their devotion to their country.

"From what we can gather, the drug companies themselves will be donating all the drugs. No money is going to change hands. They can deduct at least part of their contribution from their income taxes. This means, of course, that the rest of us taxpayers will have to pay the balance. For, whatever taxes are avoided by the drug companies must be paid by the rest of us.

"Why should the drug companies be forced to pay this ransom to save President Kennedy's conscience? Why should U. S. taxpayers be forced to pay their share of this conscience money to a bloody tyrant who only two months ago was aiming atomic missiles at our homes? Why should we all be forced to help sustain a Communist regime that seeks to destroy the freedom of its own people and threaten ours?"

In substantiation of the Star's view are these paragraphs from the Nashville Banner:

"The government said no federal money was involved but now comes the announcement that the companies furnishing drugs to pay off the $53 million blackmail demands will be given tax deductions for the donated products.

"The Wall Street Journal quotes a drug firm official as saying: 'It's my understanding the taxpayer will foot the whole bill.'

"The only loss then, whatever it is, will accrue to the taxpayer. There will be a hole in the U. S. Treasury and he, sooner or later, will be called upon to fill it."

"This newspaper is not against freedom for the unfortunates behind bars in Havana. But it believes the time is long over-due for those who run the government to tell the whole truth about Cuba, not only concerning the ransom, but the entire situation which involves the security of the United States.

Congress and the public have been deceived long enough.

If the President feels a debt of guilt over the Bay of Pigs fiasco and the victims thereof, it should not be charged to the already overburdened tax account of the American people."

(Reprinted from CHICAGO TRIBUNE)

NEWS FROM CUBAN UNDERGROUND

Below are excerpts from three bulletins of the Cuban Information Service, Miami, Fla., Carlos Todd, Editor. THE INDEPENDENT AMERICAN has found, judging from past performance, that the reports of Mr. Todd, a Cuban exile, are highly accurate regarding the Soviet build-up in Cuba:

JANUARY 26, 1963

. . . .A report from Cuba says that the two cement factories in the island are working 24 hours a day. The cement block business is also booming, the products destined exclusively for military installations. Recent arrivals in small boats described the enormous increase of armed pillboxes at strategic places throughout the province of Oriente.

FEBRUARY 2, 1963

. . . .An unknown number of Soviet troops is engaged in the construction of submarine bases. Communist Cuba now has 190 MIGs - including many late model MIG 21s, with a range of 700 miles, capable of carrying atomic warheads. The Russian forces are commanded by two, perhaps four Russian generals. Although some 4,000 Russians have left Cuba, 600 came in recently, with more to come.

FEBRUARY 9, 1963

. . . .The Cuban Student Directorate - DRE announced in Mexico City that some 19,000 Soviet troops in Cuba were backed up by 28,000 troops from Communist bloc countries, including some of the so-called neutralist nations. Last September, we reported the presence of Algerians, Ghanaians, Senegalese, Czechs, Poles, East Germans, Chinese and other Communist colonials in the island. They have not been shipped out. The men have been organized into an "international brigade", under the command of Enrique Lister, Spanish Communist, who was active in the Spanish Civil War. Overall commander is Russian General C. O. Slazenko, with Major General Peter Mikhailovitch Bendonesko in charge of armored and support units. Lieut. General Ishakov commands SA-2 ground-to-air rockets; and General Pavel B. Dankevich has the strategic missiles under his command.

FEBRUARY 9, 1963

. . . .Very reliable reports from Cuba, tell us that: During the first two weeks in December, 1962, 41 Soviet ships unloaded military equipment, additional Russian personnel and civilian supplies at several Cuban ports. At that time, another 16 Soviet bloc ships were docked in Cuba, and another 18 were on the high seas, enroute to the island. There are an estimated 35,000 Soviet bloc troops in Cuba. The force includes 18,000 crack combat units, centering around 4 tank and 4 missile battalions. Each armored battalion is armed with 15 light, medium and heavy tanks, supported by 1,500-2,500 troops. Missile battalions are equipped with 60 nuclear-tipped FROG rockets, launched from mobile carriers. Range: 300 miles. - Other dispositions: 6,000 rocket experts operating ground-to-air missiles; 2,000 in charge of electronic and radar equipment; 5,000 troops assigned to Cuban port facilities; 2,000-2,300 naval instructors, 2,000 pilots and airforce technicians.

Missiles: an undetermined number of MRBMs and IRBMs, hidden in caves and underground installations; 60 FROG missiles; an undetermined number of Golem II missiles, capable of being launched from a floating position at the bottom of Cuban bays; 650 SA-2 surface-to-air missiles, 144 launchers at 24 bases; undetermined number of new SA-3 surface-to-air missiles, designed to knock out high and low altitude aircraft; 24 short-range surface-to-surface missiles for 12 Komar-class patrol boats. Total tonnage of arms shipped to Cuba since October, 1962 blockade: 150,000 tons.

Soviet technicians have installed electronic counter-equipment, capable of jamming or tracking missiles launched from Cape Canaveral in Florida. Of 190 MIGs in Cuba, 40 are latest type MIG 21s. Soon to be delivered: another 100 MIGs.

South Carolina's Senator Strom Thurmond charged that the Russians have ballistic missiles in Cuba and 30 to 40 thousand troops occupying the country. The Senator's information tallies closely with our own.

companies who tried to refuse a Kennedy request. They know that Bobby Kennedy is in charge of the anti-trust division and they know that New Frontiersman Kefauver is itching to destroy their patent protections. And then there is always the Internal Revenue Department to consider. And the Pure Food and Drug Administration. And, they know, if they refused to do their 'patriotic duty' and support the President's request, what they might expect in the way of public attacks upon their devotion to their country.

"From what we can gather, the drug companies themselves will be donating all the drugs. No money is going to change hands. They can deduct at least part of their contribution from their income taxes. This means, of course, that the rest of us taxpayers will have to pay the balance. For, whatever taxes are avoided by the drug companies must be paid by the rest of us.

"Why should the drug companies be forced to pay this ransom to save President Kennedy's conscience? Why should U. S. taxpayers be forced to pay their share of this conscience money to a bloody tyrant who only two months ago was aiming atomic missiles at our homes? Why should we all be forced to help sustain a Communist regime that seeks to destroy the freedom of its own people and threaten ours?"

In substantiation of the Star's view are these paragraphs from the Nashville Banner:

"The government said no federal money was involved but now comes the announcement that the companies furnishing drugs to pay off the $53 million blackmail demands will be given tax deductions for the donated products.

"The Wall Street Journal quotes a drug firm official as saying: 'It's my understanding the taxpayer will foot the whole bill.'

"The only loss then, whatever it is, will accrue to the taxpayer. There will be a hole in the U. S. Treasury and he, sooner or later, will be called upon to fill it."

"This newspaper is not against freedom for the unfortunates behind bars in Havana. But it believes the time is long over-due for those who run the government to tell the whole truth about Cuba, not only concerning the ransom, but the entire situation which involves the security of the United States.

Congress and the public have been deceived long enough.

If the President feels a debt of guilt over the Bay of Pigs fiasco and the victims thereof, it should not be charged to the already overburdened tax account of the American people."

MILITARY ACTION IF NECESSARY

Liberate Cuba Bill Offered

WASHINGTON - On February 4 Congressman August E. Johansen introduced the following Joint Resolution in the House of Representatives:

JOINT RESOLUTION EXPRESSING THE DETERMINATION OF THE UNITED STATES WITH RESPECT TO THE SITUATION IN CUBA.

RESOLVED by the Senate and House of Representatives of the United States of America in Congress assembled,

That the United States is determined to take, jointly with other free nations or unilaterally, such political, diplomatic, economic, and military action as may be necessary

(1) To secure removal, and thereafter to bar, from Cuba, all Soviet or other foreign Communist military forces, both personnel and equipment;

(2) To liberate Cuba from its present Marxist-Leninist regime;

(3) To neutralize Cuba as a base for Communist subversion, infiltration, sabotage, and aggression in the Western Hemisphere;

(4) To assist the liberated people of Cuba in achieving representative, constitutional government established through free elections; and

(5) To exercise such on-site inspection and supervision as may be required to accomplish these purposes.

BE IT FURTHER RESOLVED, that the President is hereby authorized and empowered to implement and execute the policy set forth in this Joint Resolution.

When introducing his resolution Congressman Johansen stated:

"My hope, in offering this Resolution, is that it will help sharpen awareness of the dimensions of the task we face - a task growing increasingly difficult and dangerous through continuing evasions, postponements

ships were docked in Cuba, and another 16 were on the high seas, enroute to the island. There are an estimated 35,000 Soviet bloc troops in Cuba. The force includes 18,000 crack combat units, centering around 4 tank and 4 missile battalions. Each armored battalion is armed with 15 light, medium and heavy tanks, supported by 1,500-2,500 troops. Missile battalions are equipped with 60 nuclear-tipped FROG rockets, launched from mobile carriers. Range: 300 miles. - Other dispositions: 6,000 rocket experts operating ground-to-air missiles; 2,000 in charge of electronic and radar equipment; 5,000 troops assigned to Cuban port facilities; 2,000-2,300 naval instructors; 2,000 pilots and airforce technicians.

Missiles: an undetermined number of MRBMs and IRBMs, hidden in caves and underground installations; 60 FROG missiles; an undetermined number of Golem II missiles, capable of being launched from a floating position at the bottom of Cuban bays; 650 SA-2 surface-to-air missiles, 144 launchers at 24 bases; undetermined number of new SA-3 surface-to-air missiles, designed to knock out high and low altitude aircraft; 24 short-range surface-to-surface missiles for 12 Komar-class patrol boats. ---

very fast. This is because of the third great military advantage they secured from their nuclear test series which destroyed Test-Ban I. They can now package a 30 megaton warhead in a smaller casing, having less weight, than that of their old 5 megaton warheads. Warheads of the same power as carried by their pre-1961 rockets can be packaged in incredibly smaller and lighter casings.

This simplifies and reduces the cost of the rocket vehicles necessary to carry them. The missiles can be much smaller, need less rocket thrust and fuel and less complex guidance systems. As the missiles get lighter and smaller, it is increasingly easier to move them about and conceal them, and less expensive to protect them with concrete and steel silos. This raises the possibility of Soviet development of the so-called "bantam" missiles - small in size, EASY TO HIDE, but powerful of warhead. Persistent reports place numbers of these "bantams" in Cuba now - along with the known presence of leading Soviet missile experts.

The Soviets undoubtedly secured additional gains out of making and breaking Test-Ban I. The above outline is derived from non-classified sources, and is, of course incomplete. The specific gains described, however, are more than enough to demonstrate that the result of Test-Ban I was a major military disaster for the United States.

(Editor's note: The above are excerpts from a paper by Admiral Ward released on February 8, 1963 by the Republican Conference Committee, which is making a study on Nuclear Testing.

THE INDEPENDENT AMERICAN believes that Admiral Ward's article proves conclusively that the U.S. should:

(1) Continue and step up all types of nuclear testing.

(2) Break off all disarmament negotiations with the Soviet Union.

(3) Abolish the U.S. Arms Control and Disarmament Agency.

(4) Put the Skybolt missile and the RS-70 strike bomber into immediate production.

What is particularly remarkable about Admiral Ward's strong stand in favor of nuclear testing is the fact that he is a member of the organization known as the Council on Foreign Relations. One of the main aims of the CFR, according to their own publications, is disarmament, achieved by secret negotiations with the Soviet Union, if necessary.

It is to be hoped that Admiral Ward, author of the above splendid and revealing article regarding the dangers of a nuclear test ban, will resign from the Communist-appeasing Council on Foreign Relations.)

---

senatives:

JOINT RESOLUTION EXPRESSING THE DETERMINATION OF THE UNITED STATES WITH RESPECT TO THE SITUATION IN CUBA.

RESOLVED by the Senate and House of Representatives of the United States of America in Congress assembled,

That the United States is determined to take, jointly with other free nations or unilaterally, such political, diplomatic, economic, and military action as may be necessary

(1) To secure removal, and thereafter to bar, from Cuba, all Soviet or other foreign Communist military forces, both personnel and equipment;

(2) To liberate Cuba from its present Marxist-Leninist regime;

(3) To neutralize Cuba as a base for Communist subversion, infiltration, sabotage, and aggression in the Western Hemisphere;

MISSILES IN CUBA
. . . . From Page 1

was estimated as quite substantial.

"The Soviet Air Force in Cuba has more than 300 planes and helicopters, of which about 2/3 are MIGs. Approximately 40 of the latter are MIG-21s, which are armed with air to surface missiles. There are at least two U-2 type reconnaisance-type aircraft and some IL-28 bombers in underground revetments.

"The Soviet naval complement in Cuba consists of more than 100 craft, including 12 to 15 Komar-class missile boats armed with four short-range surface-to-surface missiles each, motor torpedo boats, subchasers and patrol boats. Although it is impossible to determine where they are 'based,' Soviet submarines are resupplied in Cuba and call frequently at Cuban ports and bays.

"A check of the weapons complement observed in Cuba against Soviet military tables of equipment indicates the presence of a complete Soviet Army, and the inventory of missiles and aircraft tallies with the equipment normally assigned to a Soviet Air Army. Reliable sources have reported a Soviet Motorized Division, an Armored Division and an Elite Guards Division in Cuba, which bears out the presence of a Soviet Army. Significantly, disposition of Soviet forces are at the vicinity of three identified missile bases and one airfield near Holguin in eastern Cuba -- the exact sites that were pinpointed in October as the principal locations of 'offensive' weapons."

Because there have been no on-site inspections in Cuba, and because McNamara and the CIA rely solely on aerial reconnaisance, McNamara's statement that he is "satisfied" that there are no offensive weapons in caves in Cuba borders on the ridiculous -- that is, unless the Defense Department has invented a reconnaisance airplane which has x-ray capabilities, can see through millions of tons of mountain earth and photograph contents of a cave. Or perhaps there is a new secret airplane camera which operates on the principle of a periscope in reverse and can peer into murky caves!

PROOF OF RED SUBMARINE BASES IN CUBA

Regarding McNamara's statement that the U.S. has "positive evidence" to knock down rumors that Russia is establishing submarine bases in Cuba, we refer you to the article on page 4 of the November-December issue of THE INDEPENDENT AMERICAN entitled "News on Red Submarine Bases from Cuban Underground." The detailed and documented information in that article concerning locations of Soviet submarine bases was received from the highly respected and thoroughly reliable Cuban underground organization known as the Cuban Student Directorate.

TRUTHFULNESS OF PRESIDENT AT ISSUE

And then there was McNamara's statement to the effect that Cuba lacked the "amphibious capability" to ship military equipment to other Latin American countries. Discussing this statement, the Charleston, S.C., NEWS & COURIER, on Feb. 8, editorialized:

"The very day that Mr. McNamara's news conference remarks were printed, the State Department refused to confirm or deny a WASHINGTON STAR report that the first shipload of Soviet arms had been shipped to British Guiana, a South American territory with a pro-Communist regime."

An indication of the position in which the President of the United States has now placed himself, both in the eyes of the world and those of his own people, is a page 1 Washington round-up which appeared in the WALL STREET JOURNAL on February 7. This item bluntly stated that because of Kennedy's failure to tell the people the whole truth: "President Kennedy (now) must face continuing challenges to his 'credibility' from Congressmen and from the public."

In commenting on this statement from the WALL STREET JOURNAL, the SHREVEPORT TIMES SAID: "It is truly heartbreaking to Americanism when reason is found to proclaim publicly that the truthfulness of the President of the United States may be at issue."

LIBERATION OF CUBA ONLY ANSWER

THE STATE, of Columbia, S.C., in discussing the TV whitewash by McNamara and McCone, brought out this interesting point-

WALKER ON TOUR
...from Page 1

them an American flag, and that flags be made available to the audience. A local flag company should be notified of each of the planned meetings so that salesmen can be sent out to sell flags to all those coming in. Walker and Hargis should be greeted by a sea of American flags everywhere they go throughout the country.

We recommend that "Welcome Walker" signs be painted and hung on the outside of every auditorium where he is to appear. We suggest that special welcoming committees be organized and that one person be assigned to contact Christian Crusade headquarters in Tulsa, Oklahoma to find the exact time of arrival in each town, so that a welcoming motorcade may be formed to greet General Walker and Reverend Billy J. Hargis as they will be touring the nation in a specially prepared lend cruiser bus.

Following is the schedule as available to THE INDEPENDENT AMERICAN on February 13, 1963:

WALKER - HARGIS SCHEDULE
(Admission $1.00, except as noted)

Wed., Feb. 27, Miami, Fla. - Dade County Auditorium
Fri., Mar. 1, West Palm Beach, Fla., - George Washington Hotel Ballroom
Mon., Mar. 4, Tampa, Fla. - D. B. McKay Auditorium, University of Tampa
Tues., Mar. 5, Jacksonville, Fla. - Civic Auditorium
Thurs., Mar. 7, Atlanta, Ga. - Dinkler Plaza Hotel Ballroom
Fri., Mar. 8, Birmingham, Ala. - Birmingham City Auditorium (Admission: $1.25)
Sat., Mar. 9, Montgomery, Ala. - City Auditorium
Sun., Mar. 10, Knoxville, Tenn. - Knoxville City Auditorium
Tues., Mar. 12, Greenville, S.C. - Greenville Memorial Auditorium
Wed., Mar. 13, Nashville, Tenn. - (auditorium to be announced)
Thurs., Mar. 14, Louisville, Ky. - (auditorium to be announced)
Sat., Mar. 16, Pittsburgh, Penna. - Carnegie Music Hall
Sun., Mar. 17, Columbus, Ohio - The Hartman Theater
Mon., Mar. 18, Cincinnati, Ohio - Emory Auditorium
Tues., Mar. 19, Indianapolis, Ind. - (auditorium to be announced)
Wed., Mar. 20, St. Louis, Mo. - (auditorium to be announced)
Thurs., Mar. 21, Chicago, Ill. - Flick Reedy Auditorium, Bensenville, Illinois
Fri., Mar. 22, Des Moines, Iowa - Hoyt-Sherman Auditorium
Sun., Mar. 24, Kansas City, Mo. - the Masonic Temple Auditorium
Mon., Mar. 25, Wichita, Kans. - The Forum Arcadia Theater (Admission: $1.25)
Tues., Mar. 26, Denver, Colo. - The East High School Auditorium
Wed., Mar. 27, Oklahoma City, Okla. - Municipal Auditorium
Thurs., Mar. 28, Amarillo, Tex. - City Auditorium
Fri., Mar. 29, Albuquerque, N. M. - The Herndon Ballroom of the Hilton Hotel
Sun., Mar. 31, Phoenix, Ariz. - The Shrine Auditorium
Mon., Apr. 1, San Diego, Calif. - Russ Auditorium
Wed., Apr. 3, Los Angeles, Calif. - The Shrine Auditorium

A BOOK REVIEW

Terrible 1313 Revisited

BY JO HINDMAN

The author of this book, and its publisher, Caxton Printers, have rendered a great service to the American people by presenting an imposing array of facts and figures dealing with welfare) while Metropolitan Government is "an apparatus for abolition of private property" through varied methods.

Miss Hindman exposes the

lacked the "amphibious capability" to ship military equipment to other Latin American countries. Discussing this statement, the Charleston, S.C., NEWS & COURIER, on Feb. 8, editorialized:

"The very day that Mr. McNamara's news conference remarks were printed, the State Department refused to confirm or deny a WASHINGTON STAR report that the first shipload of Soviet arms had been shipped to British Guiana, a South American territory with a pro-Communist regime."

An indication of the position in which the President of the United States has now placed himself, both in the eyes of the world and those of his own people, is a page 1 Washington round-up which appeared in the WALL STREET JOURNAL on February 7. In commenting on this statement from the WALL STREET JOURNAL, the SHREVEPORT TIMES SAID: "It is truly heartbreaking to Americanism when reason is found to proclaim publicly that the truthfulness of the President of the United States may be at issue."

LIBERATION OF CUBA ONLY ANSWER

THE STATE, of Columbia, S.C., in discussing the TV whitewash by McNamara and McCone, brought out this interesting point:

"It may be significant that all such reassurances thus far have come from the civilian echelons of national defense. High though they may be, these are individuals who have, directly or indirectly, a political stake in maintaining public confidence. Why not let the American people hear the real truth, good or bad, from our top men in uniform -- for whom national security is a matter of life or death, as indeed it is for all of us in the final analysis."

There is, of course, only one answer to the Soviet-Cuban threat to America. If the United States is to survive as a free and independent nation, Cuba must be liberated by whatever means are necessary.

Foreign Aid Undermines U. S.

BRIG. GEN. BONNER FELLERS

The Grand Design of U. S. foreign policy contemplates world disarmament and world government supported by an international police force. Our huge foreign handouts are to further the transition. Yet already this dream of interdependent states has inundated the Administration with a wave of unprecedented, global and domestic unpopularity. Canada, Britain and France, traditionally our best friends, are cold toward the Grand Design. At home the fruits of Foreign Aid -- Red Cuba, confiscatory taxes, deficit spending, flight of gold, disarmament and foreign relations -- have become momentous issues. Rather than strengthen, economic aid has undermined U.S. security.

Our economic aid has created keen foreign competition. Industrial Japan and Europe have been handed $57 billion in U.S. economic aid; with it they have purchased mass production machinery more modern than much of ours. Foreign wages and taxes are lower than ours, while depreciation allowances are higher. As a consequence, our industrial security is threatened.

A BOOK REVIEW

Terrible 1313 Revisited

BY JO HINDMAN

The author of this book, and its publisher, Caxton Printers, have rendered a great service to the American people by presenting an imposing array of facts and figures dealing with Metro (Metropolitan Government) and Urban Renewal.

Complete with index, this book will be an indispensable tool for those who wish to know more about the methods and purposes of a new type of government that is being foisted upon the American people which removes control of local governments from the hands of its residents and places it in the hands of appointed, rather than elected, officials controlled by one master organization. As Miss Hindman points out: "The gargoyle face of political Metro appears in many shapes and forms, but the important features - all based upon merging of political bodies to be manged by Metro appointees - appear to be - in number - five: (1) city-county merging, (2) county-district, (3) district-state, (4) state-region, (5) region-internation."

The author goes on to point out that "the sixth step, intra-nation-world government, Metro has not dared to publish, as yet."

Urban Renewal is shown to be a means through which the Metro planners forge deadly city-Federal ties. Miss Hindman states regarding the drive by city politicians, Metro planners and profiteers for Federal Urban Renewal handouts that "these proponents of Federal Aid for American cities are so irked by having to go through Congress for the money that they asked for a cabinet rank Department of Urban Affairs by 1961."

Both Urban Renewal and Metro, this author discloses, follow the Communist theory of abolition of private property: Urban Renewal condemns and seizes private property upon a whim (euphemistically described as "public purpose," or welfare) while Metropolitan Government is "an apparatus for abolition of private property" through varied methods.

Miss Hindman exposes the falsity of claims that Metropolitan Government is "home rule," when she shows that "Metro wars upon elective status, and tries to substitute appointive power." Another fallacious claim of Metro planners is that Metro Government is economical. Miss Hindman states: "Metro is a political trick to seize power and money; it is not an economy move."

This book includes various appendices, one of which lists "Persons Affiliated with Metro 1313." Another appendix enumerates 100 city elections which have rejected the Metro council-manager type plan between March, 1959, and April, 1962.

"Metro," explains Miss Hindman, "is merely a sly twist to an old form of government that has plagued the world from early times -- dictatorship. The pharaohs built pyramids; the Metrocrats build extravagant transit systems, rebuild cities in grandiose style upon citizen sacrifice."

This informative and much-needed book may be ordered from Poor Richard's Book Shop, 5403 Hollywood Blvd., Los Angeles 27, California, for $2.00 per copy, paperback, 174 pages.

(Editor's note: If your community is threatened with either Urban Renewal or Metropolitan Government, you will want to inform others in your area of the dangers involved. For this purpose, THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 16, La., provides handy pamphlets for wide distribution. Order TAX FAX No. 12, entitled "Urban Renewal," and TAX FAX #13, "Metro." Single copy - 25¢; 20 - $1.00; 250 - $10.00; 1,000 - $35.00. Postage prepaid.)

(Editor's note. If your community is threatened with either Urban Renewal or Metropolitan Government, you will want to inform others in your area of the dangers involved. For this purpose, THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 18, La., provides handy pamphlets for wide distribution. Order TAX FAX No. 12, entitled "Urban Renewal," and TAX FAX #13, "Metro." Single copy - 25¢; 20 - $1.00; 250 - $10.00; 1,000 - $35.00. Postage prepaid.)

Also, Remember That 'Yacht'

In Liberia, where there is a great deal of poverty and misery, a $10 million palace is being built for the president of that country despite the fact that the present palace is said to equal the United States White House. Through fiscal year 1962, Liberia received more than $40 million in direct Foreign Aid and about $250 million for development "loans." What is that we have been told about our aid being designed to help needy people in foreign nations?

Rep. H. R. Gross (R.-Iowa)

TAXES ONLY

At a recent auto show a science teacher looked at the price tag of a new model, smiled happily and called over to his wife. But the dealer hastily explained, "Sir, I hope you realize that price tag covers only federal, state, county and city taxes. The price of the car is additional."

-- MISSISSIPPI EDUCATIONAL ADVANCE

McNAMARA MUST GO!

. . . from Page 1

stated on February 4, "While our own fleet deteriorates from obsolescence, the Russians are rapidly moving ahead in building up their sea power. . They are in the midst of a 7-year ship construction program which could possibly make them the major sea power in the world. Already they have 400 submarines. . . ."

Admiral C. V. Ricketts, Vice Chief of Naval Operations, has said, "The U.S. Navy is today heading toward a "block obsolescence" which can have disastrous consequences to this country."

(10) While scrapping the successful Skybolt and the RS-70, McNamara told the House Armed Services Committee that the fiscal 1964 budget provides $522 million for procurement of 1600 Army aircraft. Secretary McNamara said the largest item will be the Bell Iriquois helicopter. These helicopters are for use in fighting "brush wars" against Communist guerillas at spots throughout the globe chosen by the Soviet Union.

(11) Secretary of Defense McNamara apparently is perfectly willing to arm American troops with helicopters to fight and die in the jungles of Viet Nam, but is unwilling to provide the United States with the weapons necessary to defend this nation against the Soviet missiles aimed at the United States from Communist Cuba, 90 miles from our shores. (See documented article elsewhere in this issue which proves that, despite McNamara's protestations on the 2-hour television "whitewash", Soviet Cuba today bristles with offensive weapons.)

* * * * * * *

It will be recalled that in 1954, after exposure by the late Senator Joe McCarthy of the inept handling of his job as Secretary of the Army, Robert T. Stevens resigned his position. Surely the "crimes of omission and commission" by Secretary of Defense Robert S. McNamara, as above outlined, would more than indicate that he is not only incapable of performing the function of Secretary of Defense of the United States, but that his decisions on defense matters now constitute a definite threat to the national safety of this nation.

THE INDEPENDENT AMERICAN urges its readers to write their Congressmen and two Senators demanding that Robert S. McNamara, Secretary of Defense, be forced to resign. McNAMARA MUST GO.

BULLOCKS BACKS DOWN

AGREES NOT TO SELL RED GOODS

On January 9, Bullocks, Inc., of Los Angeles, Calif., filed a $3 million damage suit in Los Angeles Superior Court against an affiliate committee of the Committee to Warn of the Arrival of Communist Merchandise on the Local Business Scene and against persons whom it accused of placing some 900 cards in its stores advising customers to "Buy Your Communist Imports at Bullock's."

Dr. Jerome D. Harold, National Executive Secretary of the Committee to Warn of the Arrival of Communist Merchandise on the Local Business Scene, announced on February 20 that Bullocks department stores have dropped these charges.

Stated Dr. Harold: "The withdrawal of the litigation is a complete victory for our organization, and was accomplished without compromise by our group. In addition, Bullocks firmly announces they have not ordered any more Communist imports and do not plan to do so. The enormous amount of ill will against Bullocks for its Communist imports policy and for its actions against our affiliate committees has generated economic and prestige problems which prompted that store's decision to withdraw Communist imports and to remove itself from legal action against the boycott. This is a total victory for our program."

Ordinances have been enacted in various cities requiring merchants who sell Communist goods to purchase licenses. The National Committee announces continued expansion of its ordinance

WHAT CONSERVATIVES ARE DOING...

(NOTE: All books listed below may be ordered from Poor Richard's Book Shop, 5403 Hollywood Blvd., Los Angeles 27, Calif.)

Conservatives are reading books, such as:

"Youth on a Pendulum," by Sue Vance, published Jan. 15, 1963, by Caxton Printers, Caldwell, Idaho. Carries an excellent foreword by Admiral Chester Ward, USN, Ret., and provides, in conversational style, discussions stressing Americanism and Conservatism as opposed to Socialism and Communism. Paperback - $2.00

"What's the Answer? - plus Robinson and Crusoe," (5th Printing) by Ralph F. Peck. Provides a treasury of logical capsule answers to today's problems. Includes the fable of "Robinson and Crusoe," pointing up the dangers of Welfare Statism which America faces today. Paperback - $1.00; Clothback - $2.50. Publishers: Postal Litho Printing Co., 124 South Washington Ave., Whittier, Calif.

"Message for America," by Robert Dilley. Fulfills the need for a handbook of facts, illustrations and documentation which can enable the most elementary student to clearly explain our American freedom. Paperback - $2.50; full bound edition - $4.00. Published by Independent Press Publishers, Inc., P.O. Box 258, Des Moines 1, Iowa.

Conservatives are subscribing to publications, such as:

THE (New) AMERICAN MERCURY Magazine, now managed and edited by Jason and Marcia Matthews. Military editor - former Maj. Gen. Edwin A. Walker; Religious editor - Rev. T. Robert Ingram. The first (Jan., 1963) issue of the new AMERICAN MERCURY, is largely devoted to historical and legal background surrounding the Constitutional crisis presented by the recent political invasion of Mississippi. Subscription: $7.00 - 1 year.

THROUGH TO VICTORY, the excellent monthly newspaper of Our Savior's Lutheran Church, 731 N. Sanders Ave., Ridgecrest, Calif. Edited by Rev. Paul C. Neipp. $2.00 per year.

Conservatives are protesting Communist imports . . .

by awarding store-door decals ("This store does not sell Communist imports") to merchants who do not carry Communist imports. Send 25¢ to the Committee to Warn of the Arrival of Communist Imports on the Local Business Scene, 106 Thornton Ave., Titusville, Florida, to obtain a sample of the decal being awarded in that area.

by passing local legislation which requires merchants to secure a license in order to sell goods made in Communist-bloc nations. Among cities which are reported to have passed such legislation are Columbus, Georgia; Billings, Montana; Birmingham, Ala.; and Montgomery, Ala.

Conservatives are sending for pamphlets and reprints, such as:

"What's Wrong With The State Department," an excellent series of articles published by the NEW BEDFORD (Mass.) STANDARD TIMES which has been published in pamphlet form. 30¢ each from the publisher.

Congressman John M. Ashbrook's speech on psychological testing in the schools which appeared in the CONGRESSIONAL RECORD, Oct. 10, 1962. Reprints may be ordered from Congressman Ashbrook, House Office Building, Washington, D.C. $4.00 per 100; 40.00 per 1,000.

"The Truth About Great Decisions - 1963," an analysis of eight "Fact Sheets" of the Foreign Policy Association's "Great Decisions - 1963," which includes an outline of presentments issued by 11 grand juries which have refused the Foreign Policy Association a clean bill of health. Order from Americanism Committee, Waldo M. Slaton Post 140, The American Legion, 3905 Powers Ferry Rd., N.W., Atlanta 5, Ga. 3 copies - $1.00; 7 - $2.00; 15 - $4.00.

"The Truth About the Foreign Policy Association," a 128-page booklet exposing the questionable backgrounds of a number of authors whose works have been included in the materials of the Foreign Policy Association. This booklet, published over a year ago, is also available from the Americanism Committee

fense of the United States, but that his decisions on defense matters now constitute a definite threat to the national safety of this nation.

When Is a Church?

(Reprinted from THE STATE, Columbia, S. C.)

It's getting to the point where the fallacies, inconsistencies and stupidities of the federal government are monopolizing the traffic lanes to the extent that they leave nothing else on which an editorial writer might comment.

Now comes The American Coalition of Patriotic Societies citing what it calls "one of the most glaring examples of government harassment that comes to our attention," in "denying income tax deductions on contributions to independent churches or religious groups."

The president of the organization, Milton M. Lory, says certain of these institutions, not identified, have been required to file applications for exemption from the federal income tax on the ground that they are not a bona fide Christian institution.

We believe Mr. Lory has a good question and is apt when he says that such arbitrary decisions seem actually to violate the principle of separation of church and state, while the First Amendment guarantees freedom of religion, and that it is not, never has been and never should be the prerogative of our government to prescribe how Christianity shall be taught or practiced by any religious organization.

Working on down, Mr. Lory says: "Under the present income tax set up, contributions could not have been made to a certain itinerant preacher named Jesus Christ, or the missionary Apostle Paul, be-

When Is a Church?

(Reprinted from THE STATE, Columbia, S. C.)

It's getting to the point where the fallacies, inconsistencies and stupidities of the federal government are monopolizing the traffic lanes to the extent that they leave nothing else on which an editorial writer might comment.

Now comes The American Coalition of Patriotic Societies citing what it calls "one of the most glaring examples of government harassment that comes to our attention," in "denying income tax deductions on contributions to independent churches or religious groups."

The president of the organization, Milton M. Lory, says certain of these institutions, not identified, have been required to file applications for exemption from the federal income tax, which has not been demanded of other church groups, and that the applications were filed and the churches told they did not qualify for exemption under the Internal Revenue Code.

The writer wants to know who the government has in its Aegean stables so all wise, pompous and sanctimonious as to claim the right to say that this or that church is or is not a bona fide Christian institution.

We believe Mr. Lory has a good question and is apt when he says that such arbitrary decisions seem actually to violate the principle of separation of church and state, while the First Amendment guarantees freedom of religion, and that it is not, never has been and never should be the prerogative of our government to prescribe how Christianity shall be taught or practiced by any religious organization.

Working on down, Mr. Lory says: "Under the present income tax set up, contributions could not have been made to a certain itinerant preacher named Jesus Christ, or the missionary Apostle Paul, because they belonged to no large national council and were independents."

So, here we go again with another case against the dictatorial proclivities of the New Frontier. Eventually things might get to the point where the country would rise up in its just indignation to sweep the whole thing into the sea and start off anew.

Cuban Ransom Drugs Disappear

(Reprinted from New Orleans STATES-ITEM)

By BILL STUCKEY

What happened to the more than $60 million in United States drugs and medicine sent to Cuba last month?

Havana doctors still have not seen a trace of the medical supplies, nor has the public seen evidence of them in Havana pharmaceutical or drug stores, a newly arrived refugee said in New Orleans today.

The refugee is Robertson Bosch, an X-ray technician who left Havana 15 days ago.

"We can only guess what Castro has done with the medical supplies," he said. "The doctors I know, who are still in Cuba, believe they have either been sent to the socialist countries, or are being hidden or held in reserve for some reason."

The medical supplies were sent to Cuba in exchange for more than 1100 Bay of Pigs prisoners.

WANDERER Press, 128 E. 10th St., St. Paul 1, Minn.

U Thant Thesis is Marxism

U Thant is now the Secretary General of the United Nations with no fuss or bother; no demand for a troika by the Soviet Union.

It may seem as though the Communist bloc gave in too easily on this matter, but perhaps the following statement by U Thant, from Newsweek of November 13, 1961, may clarify the situation:

"I believe in the philosophy of thesis, antithesis, and synthesis. From its present antithesis I believe the world is moving towards a new synthesis."

The name of this philosophy is dialectical materialism, and it is the theory of Karl Marx.

Mrs. Kent Courtney
Editor
The Independent American
7314 Zimpel Street
New Orleans 18, Louisiana

Dear Mrs. Courtney:

Mr. Hoover received on July 22nd your letter and a copy of your book entitled "Disarmament - A Blueprint For Surrender." He asked me to thank you for making this book available to him.

Sincerely yours,

Helen W. Gandy
Secretary

MAILED 25
JUL 25 1963
COMM-FBI

NOTE: Correspondent and her husband are well-known to Bufiles. Last outgoing 8-14-62 to Mrs. Courtney was an in-absence reply. Both are supporters of General Edwin Walker and are self-admitted right-wingers. In March, 1962, the Domestic Intelligence Division recommended that any correspondence from the Courtneys be answered by in-absence. A copy of their enclosed book is currently being reviewed by the Domestic Intelligence Division. The book is reportedly a documented expose of the plot to: Render the U. S. Defenseless Against Communist Aggression; Make the U. S. a Province in a World Ruled by the Communist-Dominated United Nations.

DISARMAMENT

A BLUEPRINT FOR SURRENDER

By Kent & Phoebe Courtney

A DOCUMENTED EXPOSE of the plot to:

...Render the U. S. Defenseless Against Communist Aggression...

...Make the U. S. a Province in a World Ruled by the Communist-Dominated United Nations.

11-28-
92

BY THE SAME AUTHORS:

THE CASE OF GENERAL EDWIN A. WALKER

This book, published in 1961, helped to generate public demand which resulted in a Senatorial investigation regarding the muzzling of military leaders who warned of the Communist threat.

". . . a valuable contribution. I have read it with interest and approval."
-- Congressman August E. Johansen

". . . every American should read this book . . ."
-- Congressman James B. Utt

THE CSA VOTING INDEX

In this index, published early in 1962, key votes in the 1961 Session of Congress were tabulated and analyzed.

"I am sure it will prove useful here in my office, and I am pleased to know that I scored 100% in the Conservative ratings. You are rendering a fine service to the voters of this country by your research and analysis of key issues in the Congress . . ."
-- Senator Strom Thurmond

"It is obvious that much research, perception, tabulation and judgment has gone into its make-up . . . I would be the first to agree that of all the indexes I have seen, your careful and detailed analysis is the most truly reflective of voting records of the individual Members of the House as a whole . . . . Only Congress can save the representative form of government in a Republic . . ."
-- Congressman Durward G. Hall

AMERICA'S UNELECTED RULERS - The Council on Foreign Relations

Also published in 1962, this book dealt with the influence exerted on the foreign policy of the United States by the Council on Foreign Relations. The aims of the CFR, according to the Courtney's book are: (a) to destroy national sovereignty; (b) to subvert the U. S. Constitution via NATO and the Atlantic Community, and (c) to put the U. S. under control of a Socialist-Dominated World Government.

". . . . It is impressively documented and is well worth reading."

AUTHORS' NOTE

The purpose of this book is to document and present, in many cases from official government sources and direct quotations from governmental spokesmen, the views and plans of those who are advocating and promoting the disarmament of the United States.

Many of these government spokesmen who are formulating and implementing official U.S. Government disarmament policy are members of the Council on Foreign Relations.

The authors believe that the policies advocated by the Council on Foreign Relations are not in the best interests of this nation.

The Council on Foreign Relations, with headquarters in New York City, is composed of approximately 1400 members, persons of high prominence in industry, education and communications. The authors do not mean to imply that the disarmament and foreign policy views of the CFR are shared by all 1400 of its members.

Unfortunately, there have been instances when, for example, a busy industrialist will join an organization or permit his name to be used without first fully investigating the aims and purposes of such an organization.

Perhaps after reading the documented material contained in this book some members of the Council on Foreign Relations who do not agree with the disarmament and foreign policy aims of the CFR may wish to conduct their own investigation.

ACKNOWLEDGMENTS

An extensively documented book such as this was made possible only because of the assistance of a number of persons who aided in its preparation, helping in such vital functions as checking and rechecking source material, and the countless other details necessary for the publication of "Disarmament - A Blueprint for Surrender."

Our most sincere thanks to:

Mary Helen Brengel, assistant editor of THE INDEPENDENT AMERICAN Newspaper, who worked closely with the authors in every phase of the writing of this book, offering invaluable assistance; and to

The Staff of THE INDEPENDENT AMERICAN Newspaper, as well as our printing shop, without whose patience, loyalty and enthusiasm this book could never have been written.

TABLE OF CONTENTS

FOREWORD 1

Chapter I – COMMUNIST PARTY SPEARHEADS PEACE DRIVE 5

"Fronts" - Real Work Horses for the Kremlin, 10; Communist Use of Dupes and Fellow Travelers, 11; SANE, 13; What Peaceful Coexistence Really Means, 15.

Chapter II – WHO ARE THE DISARMERS? 17

The "Grand Designers," 19; What is the Council on Foreign Relations? 21; Study of Surrender Possibilities, 22; Similarity of Presidential Statements, 23; How CFR Members Feel on the Disarmament Question, 24; The Rarefied Air of Geneva, 27.

Chapter III – CURTAIN OF SECRECY 29

The "Warless World" of Walter Millis, 32; Secret Meetings Urged, 34.

Chapter IV – "UNELECTED EXPERTS" NOW MAKE U.S. FOREIGN POLICY 37

Disarmament Propagandizers: (a) Institute for Defense Analysis, (IDA), 40; (b) Institute for International Order (IIO), 40.

Chapter V – DISARMERS FRATERNIZE WITH SOVIET SCIENTISTS 44

The Pugwash Conferences, 44; National Science Foundation Aid to Communist Bloc Scientists, 47.

Chapter VI – THE ROSTOW-MOSCOW AXIS 49

The Rostow Paper, 53; Congressmen Protest Rostow Paper, 57; Other Views of Walt Rostow, 59; Rostow Urges "No-Win," 61; Rostow in Moscow, 62.

TABLE OF CONTENTS (Continued)

Chapter VII – EISENHOWER, ROCKEFELLER AND DISARMAMENT 64

INDEX 174

Peace, indeed, can be obtained at least temporarily by any nation if it is prepared to yield its freedom principles. But peace at any price - peace with appeasement - peace which passes the dreadful finality to future generations - is a peace of sham and shame which can end only in war or slavery.

-- General Douglas MacArthur

FOREWORD

On September 25, 1961, addressing the United Nations General Assembly, President Kennedy stated:

> Let us call a truce to terror . . . . let us join in dismantling the national capacity to wage war . . . . General and complete disarmament must no longer be a slogan . . . . It is now a realistic plan . . . .

Surely peace - a true peace - is devoutly desired by men of integrity throughout the world. However, in the light of history, is disarmament the means of achieving a just and lasting peace? Or, is the proposed disarmament plan a trap to destroy the independence of the United States of America? To even imply such ulterior motives requires the most careful documentation to substantiate.

Disarmament policies have been advocated and implemented under both Republican and Democrat administrations. It can therefore be considered that disarmament is the official policy of the United States Government regardless of which party is in power. Thus it is a "bi-partisan" issue.

This book could also be considered "bi-partisan," in that it presents the viewpoint of opposition to disarmament policies, a viewpoint which is now being shared by an increasing number of citizens throughout the nation whether they be members of the Democrat or the Republican parties.

Because hardly a day passes that the halls of Congress do not ring with impassioned pleas by the hard-core disarmament advocates, copies of this book are being sent upon publication to each Member of Congress. In this way, all U.S. Congressmen and Senators will have available to them in compact book form a documented digest of facts, dates and figures presenting the case against disarmament.

In this book we will outline and document:

(a) How U.S. disarmament policies are furthering the aims of of Communist Russia's conquest of the world;

(b) How the disarmament policy of the United States, if ratified as a treaty by the U.S. Senate, will abolish America's

means of self-defense which fortifies U.S. national sovereignty and independence. The ratification of such a treaty would relegate this nation to the position of a mere satellite in a Socialist-dominated world government.

To draft and carry through plans for the disarmament of the United States requires the existence of a continuing body or group, one which possesses sufficient influence on governmental policies so that its plans go forward regardless of whether a Republican or Democrat administration occupies the White House. Such a group exists and has, in effect, been formulating U.S. foreign policy for several decades. This organization is known as the Council on Foreign Relations, the existence of which few Americans were aware until recently.

Because of the control it exerts on U.S. foreign policy, let us examine the specific goals of the CFR. According to Study No. 7, published by the Council on Foreign Relations on Nov. 25, 1959,* and later submitted to the U.S. Senate Committee on Foreign Relations, the CFR recommends:

(1) Building a new international order;
(2) Maintaining and gradually increasing the authority of the United Nations;
(3) Repealing the Connally Amendment;**
(4) Increasing and promoting longer-term Foreign Aid without making such aid contingent upon political commitments to the West;
(5) Negotiating on disarmament proposals, perhaps directly with the U.S.S.R. in secret...

* CFR Study #7 was synthesized and summarized by the Foreign Policy Clearing House in a book, "Strategy For the 60's," published by Frederick A. Praeger, New York, 1961.

** In 1946 the U.S. Senate passed a resolution giving the World Court (the judicial arm of the United Nations) jurisdiction in international disputes affecting the United States. However, the Senate Resolution contained one vital safeguard of American interests, and this was a provision that the World Court would not have jurisdiction in "matters which are essentially within the domestic jurisdiction of the United States as determined by the United States." These last six words, "as determined by the United States," are known as the Connally Amendment.

In "America's Unelected Rulers," written and published in 1962, we explored and documented the extent to which the first goal, i.e. "building a new international order" was being carried out and accelerated by the Kennedy Administration. The fifth goal, disarmament -- because of its vital importance -- is the sole subject to be covered in this book.

Disarmament is not a mere facet of foreign policy. It is actually a life-and-death question which could affect not only the survival of this nation as a Constitutional Republic, but the survival of every American citizen. Foreign policy, per se, is an abstract. However, in order to clarify the basic issues at stake and to give an added sense of urgency to these issues, this book will name names and quote public statements by those who have taken it upon themselves to tamper with (as a prelude to dismantling) the national defense structure of the United States. Frequently the official statements of the disarmers appear in the DEPARTMENT OF STATE BULLETIN, a publication having the characteristics of an inter-office memo, a means of communication between State Department bureaucrats. As such, it is seldom read by the general public, with the result that few Americans are aware of the intricate workings of the disarmament promoters in high places in the U. S. Government. We call these men "America's unelected rulers" because they are not elected by the American people. Rather, they are political appointees, frequently serving under both Republican and Democrat administrations.

This book will document and show what these self-styled foreign policy experts, our unelected rulers, are planning for you and your children; how they are, in fact, now disarming the United States in the face of increasing Communist aggression - with Soviet missiles now on an operational basis in the Soviet's newest satellite, Cuba, only 90 miles from U.S. shores.

CHAPTER I

COMMUNIST PARTY SPEARHEADS PEACE DRIVE

On April 28, 1963, the Charleston, S.C., NEWS & COURIER, in an editorial entitled "The Phony Peace Drive" stated:

> The perversion of the word "peace" by Communists and those who unwittingly follow the Communist Party's line is one of the shrewdest and most successful maneuvers adopted by the Soviet Union. In Communist terms, a "peace worker" is anyone who opposes the armed strength of the Free World.

In the summer of 1958 a Special Committee of the American Bar Association was appointed to study and report on Communist Tactics, Strategy and Objectives. So revealing was this report that the late Senator Styles Bridges of New Hampshire inserted it in full in the CONGRESSIONAL RECORD of August 22, 1958. Under the heading, "The Peace Offensive," the Special Committee of the American Bar Association reported:

> On April 1, 1951, the House Committee on Un-American Activities issued a report called "The Communist Peace Offensive: A Campaign to Disarm and Defeat the United States." This document showed in detail how intellectuals, professors, writers and others who influence public opinion were sucked into various Communist peace fronts. This report said: "The most dangerous hoax ever devised by the international Communist conspiracy is the current worldwide 'peace' offensive."
>
> Today, under the slogans "peace" and "peaceful coexistence" we are witnessing a revival of this Communist peace offensive. The Czechs and Hungarians found that coexistence with Communism is like getting into a cage with a hungry lion; after the lion has eaten the man, they lie down and coexist in peace.... In his 1956 report to the (Communist) 20th Congress, Khrushchev asserted in Aesopian language that peaceful coexistence would lead to the victory of World Communism.

In 1959, the U.S. Senate Internal Security Subcommittee issued a report on the subject of "Soviet-American Cultural Exchanges."

In the section entitled "The Softening Process," the following statement appears in this Senate Subcommittee report:

> The profusion of Soviet delegations to this country, the lavish propaganda for cultural exchanges and coexistence, is primarily a phase of Soviet psychological warfare. The stepped-up "cultural exchange" drive comes at a time when the Kremlin is particularly anxious to mislead the American people into a belief in the currently pacific aims and desires of the Soviet leaders, with a view to promoting American unpreparedness and disarmament.

REVEALING STATEMENTS BY SOVIET LEADERS ON PEACE AND DISARMAMENT

Long ago the Communists clearly outlined the steps by which they intended to conquer the world. They have pursued and are ruthlessly continuing to pursue this timetable. Perhaps it would be pertinent at this point to list several official Communist Party statements on how they intend to and are using "peace," "peaceful coexistence," and "disarmament" to implement their plans for world conquest.

In a document entitled Theses of the 6th World Congress of the Communist International, 1928, International Press Correspondence, No. 84, Nov. 28, 1928, page 1590, is found the following official Soviet statement:

> Therefore, the primary duty of the proletariat, as the fighter for Socialism is to make all the necessary political, economic, and military preparations for these wars*, to strengthen its Red Army - that mighty weapon of the proletariat - and to train the masses of the toilers in the art of war. There is a glaring contradiction between the imperialists' policy of piling up armaments and their hypocritical talk about peace. There is no contradiction, however, between the Soviet government's preparations for defense and for revolutionary war and a consistent peace policy. Revolutionary war of the proletarian dictatorship is but a continuation of revolutionary peace policy "by other means."

* Reference to "Wars for the emancipation of the world from Capitalism."

In 1919, in a "Report of Central Committee at 8th Party Congress," Lenin stated:

> We are living not merely in a state but in a system of states, and the existence of the Soviet Republic side by side with imperialist states for a long time is unthinkable. One or the other must triumph in the end. And before that end supervenes, a series of frightful collisions between the Soviet Union and the bourgeois states will be inevitable. That means that if the ruling class, the proletariat, wants to hold sway, it must prove its capacity to do so by its military organization.

In a speech to Moscow Party Nuclei Secretaries on November 26, 1920, Lenin stated:

> As long as Capitalism and Socialism exist, we cannot live in peace. In the end one or the other will triumph. - A funeral dirge will be sung over the Soviet Republic or over World Capitalism.

A resolution of the 6th World Congress of the Communist International, November 28, 1928, outlines the uses to which the Soviet Union intends to put disarmament proposals. States this Soviet resolution:

> The aim of the Soviet (disarmament) proposals is . . . to propagate the fundamental Marxian postulate that disarmament and the abolition of war are possible only with the fall of Capitalism.

And then this Soviet resolution goes on to state:

> . . .The disarmament policy of the Soviet Government must be utilized for purposes of agitation much more energetically and to a wider extent than has been done heretofore . . . .(1) for recruiting sympathizers for the Soviet Union - the champion of peace and Socialism; (2) for utilizing the results of the Soviet disarmament policy and its exposure of the imperialists in the effort to eradicate all pacifist illusions, and to carry on propaganda among the masses in support of the only way towards disarmament and the abolition of war, viz., arming of the proletariat, overthrowing the bourgeoisie, and establishing the proletarian dictatorship.

In November, 1960, the Statement of 81 Communist Parties in Moscow discussed the issue of peaceful coexistence, as follows:

> This (peaceful coexistence) policy strengthens the positions of Socialism . . . and promotes the prestige and influence of the Communist Parties in the Capitalist countries. Peace is a loyal ally of Socialism, for time is working for Socialism against Capitalism . . . . It (peaceful coexistence) implies intensification of the struggle of the working class, of all the Communist Parties, for the triumph of Socialist ideas.

Thus it is seen that official Communist statements amply illustrate that when the Kremlin speaks of "peaceful coexistence," it is not speaking of the expression of an ideal. Rather, the Soviet view is that peaceful coexistence is one of numerous means by which they intend to ultimately destroy the Free World.

In a summary prepared for the U.S. Senate Internal Security Subcommittee, Dr. Stefan T. Possony, then international politics professor at Georgetown University Graduate School, Washington, D.C., gave his analysis and interpretation of Khrushchev's speech to the Communist Parties of the world in November, 1960. Following are excerpts from Dr. Possony's analysis of Soviet aims and strategy, based on Khrushchev's speech:

(a) A global thermonuclear war is not entirely inevitable. If the Free World, and especially the strongest democratic countries like the United States, capitulate, then such a war may be avoided.

(b) The Soviet Union and the Soviet bloc must not leave any stone unturned to increase their military power in order to fight the probable (albeit, not inevitable) world war, and to win a global thermonuclear conflict.

(c) For the time being, such conflict must be avoided. The turning point in history will come when the Soviet Union overtakes the United States some time between 1965 and 1970 .... The great turning point in history will come when the Soviet Union, irrespective of per capita production in industrial goods, achieves technologically superior armaments and attains a military force which qualitatively and quantitatively will be superior to the military forces of the United States....

(d) In the first phase, the armed struggle will mostly take the

form of liberation wars* and uprisings, plus deterrence by nuclear blackmail on the part of the Soviets of any military initiative taken by the Free World.

(e) Also in the first phase, the struggle must be intensified on the "active fronts in the underdeveloped areas." In particular, it must be pushed in Latin America.**

(f) The achievement of a military, political and psychological paralysis of the Free World is a paramount objective of Soviet strategy. This objective can be obtained by such means as peace propaganda, Pavlovian conditioning, infiltration, threats and diplomatic negotiations. Propaganda on disarmament, specifically nuclear disarmament, and disarmament negotiations are an integral part of the Soviet strategy aimed at paralyzing the Free World and strengthening the power of Communism.

Despite the zigzags of Communist policy through the years, there is, however, one constant, and that is the Soviet drive to conquer the world. When Khrushchev made his speech to the world's Communist Parties in Moscow in 1960, which Dr. Possony analyzed in the foregoing passages, Khrushchev was merely reiterating the Party line as enunciated by Dimitri Z. Manuilsky before the Lenin School of Political Warfare in 1931. Stated Manuilsky:***

> War to the hilt between Communism and Capitalism is inevitable. Today, of course, we are not strong enough to attack. Our time will come in 20 or 30 years. To win we shall need the element of surprise. The bourgeoisie will have to be put to sleep. So we shall begin by launching the most spectacular peace movement on record. There will be electrifying overtures and unheard-of concessions. The capitalist countries, stupid and decadent, will rejoice to cooperate in their own destruction. They will leap at another chance to be friends. As soon as their guard is down, we shall smash them with our clenched fist.

* South Vietnam, Algeria, the Congo, Laos, Indonesia, are a few examples.

** By the Spring of 1963 the Soviet Union's newest satellite, Cuba, had become a training ground for Communist saboteurs recruited from all over Central and South America, as well as a marshalling area for shipment of arms and ammunition to support Communist subversion in Latin America.

*** Mr. Manuilsky was Presiding Officer of the U.N. Security Council in 1949.

COMMUNIST PARTY, U.S.A., PUSHES PARTY LINE ON PEACE

One of the main purposes of the Communist world congresses held periodically in Moscow is to lay down the current Party line on specific issues to be implemented by Communist Parties throughout the world.

One of the principal activities of the Communist Party, U.S.A., in line with instructions from Moscow, is the promoting of peace campaigns in the United States. For the past decade or so, THE WORKER, official publication of CPUSA has been shrilly urging peaceful coexistence, banning the A-bomb, and disarmament of the United States. For example, here is a quotation from the April 4, 1954, issue of the Communist organ, THE WORKER, which appeared in an article directed to Party members:

> Urge the end of the Cold War, and its replacement with the policy of peaceful negotiations, East-West trade, and the outlawing of all atomic and H-bomb war . . . . Join with your neighbors in urging a peace policy in Washington, with reduced armaments . . .

A memorandum distributed to members of the Communist Party, U.S.A., in 1963 outlined the propaganda activities not only for May Day celebrations, but also for the future. Communist Party members were told: to press demands for universal disarmament, for a policy of "hands off Cuba," an end to the Cold War, and immediate cessation of nuclear tests.

Communist Party members were also instructed in this Party directive to "expose" the "provocatively aggressive" policies of the "ultra-Right" forces and the "Goldwater wing" of the Republican Party. It is, of course, not surprising that this Commu-

nist Party memorandum also told its members to arrange meetings on a "united front" basis - another way of saying that Communist Party members should join with non-Communist groups in order to influence the policies of such groups.

"FRONTS" - REAL WORK HORSES FOR THE KREMLIN

Who are the individuals and groups in the United States who are carrying the ball for the Soviets in the spurious "peace" and disarmament drive?

Peace advocates are a motley crew. In addition to declared members of the Communist Party, U.S.A., the avowed purpose of which is the overthrow of the U.S. Government by force and violence, there are knowing collaborators who are not members, per se, of the Communist Party. Most of these collaborators are known as "Communist fronters," because they belong, or have belonged, to organizations declared to be fronts for the propagation of Communism in the United States. While not actually members of the CPUSA, they do the bidding and work of the Communists.

Then there are the witless dupes of the Communists, many of whom actually believe they are working for peace and the survival of humanity. These are called pacifists. This ragtag group is out of touch with reality. They are impervious to logic, apparently unable to reason or learn the lessons of history. Lacking such capabilities, it is small wonder that they suffer from several obsessions, the main one being a psychopathic fear of dying as a result of nuclear warfare. This attitude was ably exemplified by one of the characters in the best-selling novel "Advise and Consent," by Allen Drury*, wherein a certain fictional character stated: "As for me, I had rather crawl on my knees to Moscow than die under an atom bomb!"

An editorial in the MANCHESTER (N.H.) UNION LEADER of April 22, 1960, described pacifists as follows:

> The pacifist believes that war is so horrible that no fate which can befall his neighbors can be so bad as that which will result from taking up arms to defend himself. He believes it is better that one's friends should be assaulted and murdered, one's pastors and teachers tortured and thrown into dungeons, one's children indoctrinated with vile and cruel philosophies, than that they should possibly lose their lives in an atomic war. The non-pacifist, on the other hand, believes that some fates are worse than death.

* Doubleday & Co., 1959.

Rather than berating the sincere pacifists, let us leave them to their own terror-ridden private worlds and discuss the real work-horses in the Communist "peace drive" in the United States.

COMMUNIST USE OF DUPES AND FELLOW TRAVELERS

The final page of the 11th Report of the California Senate Investigating Committee on Education, in a section entitled "Appraisal of Value of Non-Communists to Soviet Conspiracy," discusses the substance of discussions which took place at the Soviet Comintern meeting of 1938 by referring to an account of Eudocio Ravines, a former Comintern agent, which appears on pages 265-268 of his book, "The Yenan Way,"* Describing what took place at the Comintern meeting, Ravines stated:

> Then Dimitrov began to discuss the tactics and type of work that lay before us (Communists). Our program must be to gain ends through our friends, sympathizers and allies, while keeping ourselves in the background: ". . . .Never appear in the foreground. Let our friends do the work. We must always remember that one sympathizer is generally worth more than a dozen militant Communists. A university professor, who without being a Party member lends himself to the interests of the Soviet Union is worth more than a hundred men with Party cards. A writer of reputation, or a retired general, are worth more than 500 poor devils who don't know any better than to get themselves beaten up by the police. . . . The writer who, without being a Party member defends the Soviet Union . . . is worth more than a thousand Party members .... Those who are not Party members or marked as Communists enjoy greater freedom of action. This dissimulated activity which

* Charles Scribner Sons, New York, 1951.

> awakes no resistance is much more effective than a frontal attack by the Communists."

The "Guide to Subversive Organizations and Publications," revised and published December 1, 1961, by the U.S. House of Representatives Committee on Un-American Activities, gives excerpts (page 5) from testimony of J. Edgar Hoover, Director of the Federal Bureau of Investigation on March 26, 1947, describing Communist fronts:

> Literally hundreds of groups and organizations have either been infiltrated or organized primarily to accomplish the purposes of promoting the interests of the Soviet Union in the United States, the promotion of Soviet war and peace aims ...

Page 6 of this Guide quotes from Mr. Hoover's book, "Masters of Deceit,"* as follows:

> A front is an organization which the Communists openly or secretly control . . . . Fronts become transmission belts between the Party and the non-Communist world.

J. Edgar Hoover then goes on to say that one of the first requisites for a front organization is an idealistic-sounding title and a letterhead glittering with non-Communist names.

Space does not permit the listing of the numerous peace organizations in the United States which have in one way or another served Communist interests. However, here are just a few examples:

In March, 1958, according to FIRING LINE, a newsletter prepared and distributed by the National Americanism Commission of the American Legion, the Walk for Peace Committee was established in New York. A leaflet of the organization appealed "to men everywhere to oppose the nuclear weapons tests now going on in the Pacific, and to work for the abolition of the testing, production and stockpiling of nuclear weapons by all nations."

The "Walk for Peace" campaign embodied a series of demonstrations and protest marches in several Eastern States, culminating in the picketing of the White House on June 1, 1958. And who was the chairman of the Walk for Peace Committee? A

* Henry Holt and Co., New York, 1958.

man by the name of A. J. Muste who has long fronted for Communists.

The American Legion FIRING LINE then lists several other organizations affiliated with the Walk for Peace Committee, such as American Friends Service Committee (Middle Atlantic, New England, and Southwest regions), Fellowship of Reconciliation, Peacemakers, War Resisters' League, and the Women's International League for Peace and Freedom.

The "peace" activities of the foregoing organizations are, of course, in line with a directive by Lenin in 1923 in which he stated:*

> We must secure the good will of teachers and professors in schools and universities, of liberal ministers of religion, and of the pacifists and reformers of the world in order to create a mental barrage in the minds of the capitalist youth which shall forever bar them from participating in a carnal conflict with the Communist order.

SANE

Striving for ascendancy in the Red-contrived peace movement, but bruised by public exposures by Fulton Lewis, Jr., and others, is an organization called The Committee for a Sane Nuclear Policy, generally known as "SANE." This particular group was described in 1959 by Jack Lotto in a column entitled "Nuclear Munich Advocates." Mr. Lotto revealed that a small group of scientists, educators, editors and clergymen were "pushing a nationwide, pro-Communist propaganda program to force the U.S. into a deadly 'nuclear Munich'." Mr. Lotto then went on to state that behind the drive is a group called The National Committee for a Sane Nuclear Policy.

The June 4, 1960, issue of THE TABLET carried an article entitled "Reds Infiltrate SANE Committee," which quotes a Senate speech by Senator Thomas J. Dodd to the effect that there is evidence "of serious Communist infiltration at chapter level throughout the Committee for a Sane Nuclear Policy." Senator

* 14th Report of the California Senate Investigating Committee on Education, entitled "Patriotism or Pacifism - Which?"

Dodd then referred to a May 19, 1960, Madison Square Garden Rally held by the Committee for a Sane Nuclear Policy, and declared:

> The Communist Party and its front organizations did their utmost to promote the meeting; the Communists provided much of the organizing machinery for the meeting because they planned to use it as a pressure instrument in support of Soviet nuclear diplomacy.

Some of the more active sponsors and signers of full-page ads in behalf of the Sane Nuclear Policy Committee are:

(1) Carey McWilliams, editor of THE NATION: Appendix IX, 1944, of the Special Committee on Un-American Activities of the House of Representatives lists over 60 subversive affiliations for Carey McWilliams.

(2) Dr. Linus Pauling: An editorial in the MANCHESTER (N.H.) UNION LEADER in 1959 stated: "Dr. Pauling, recently elected member of the Soviet Academy of Sciences - a reward received for his espousal of atom test banning in the United States - has a record of affiliation with Communist front organizations as long as your arm."

According to the American Legion FIRING LINE of October 1, 1957:

> In 1951 the House Committee on Un-American Activities said "a leading role in the Communist 'peace' movement in the United States is played by Linus Carl Pauling... Despite his eminence in scientific circles, his associations with subversive organizations and individuals are numerous . . . His whole record . . . indicates . . . Pauling is primarily engrossed in placing his scientific attainments at the service of a host of organizations which have in common their complete subservience to the Communist Party, U.S.A., and the Soviet Union." (See HCUA, Report on the Communist Peace Offensive, 1951, pages 85 and 86; and Select Committee To Investigate Tax-Exempt Foundations, Hearings, 1952, page 723.)

One of the newest peace organizations is called Citizens Appeal For a Test Ban. This organization is led by Norman Cousins and Norman Thomas.

According to a news item appearing in the CHICAGO TRIBUNE, November 27, 1962, Norman Thomas was at that time chairman

of the Committee for a Sane Nuclear Policy.

Norman Cousins is editor of THE SATURDAY REVIEW OF LITERATURE.

WHAT PEACEFUL COEXISTENCE REALLY MEANS

On June 18, 1959, Lt. Gen. Arthur Trudeau pointed out before the House Committee on Science and Astronautics:

> The Communist intention is very clearly stated in their own words - and that is to destroy us . . . . yet there is still that segment of our population who would try to tell us otherwise, who through ignorance or intent would try to lull us to sleep and suggest that we lie down as the lamb with the wolf and expect to wake up in the morning. This is the kind of cohabitation called "peaceful coexistence" that is undermining our national will and readiness to meet the challenge.

General Trudeau was once Chief of Army Intelligence, and is a long-time student of the dangers of Communism.

In commenting on Khrushchev's speech before the 81 Communist Parties at the Conference in Moscow, November, 1960, Admiral Arthur W. Radford, USN (Ret.), former chairman of the Joint Chiefs of Staff, said:

> He (Khrushchev) wants to live in peace all right - but on his terms. And what are his terms? Why, submission, of course . . . . He holds open the door to all those in the Free World who want to surrender peacefully. They can pass unmolested into Communistic slavery.

THE IRREFUTABLE FACTS

There are a number of irrefutable facts which the disarmament promoters either refuse to face, or are attempting to minimize, such as the following:

(1) Communism is the antithesis of the spirit and ideals that inspired our forefathers to found this nation - a nation under God, with a Constitution guaranteeing the God-given rights of the individual. Communism, on the other hand, is a godless society, a militantly atheistic world movement which seeks to enslave all men and all nations.

(2) The Communists, while content to make a show of being willing to negotiate, have never made a meaningful concession to the United States at any of the countless conferences and summit meetings.

(3) The Communists have the dubious distinction of having violated more written agreements or treaties than any nation in the history of the modern world. Therefore, what confidence can the American people place in any so-called treaty or agreement that U.S. diplomats may make now or in the future with the Soviet Union?*

(4) Every war - and the conflict between the Free World and the Soviet Union is, and will continue to be "war" -- whether it be of the "cold" variety or a "hot," shooting-type war, is ultimately won by one side or the other. A defensive strategy has never in the history of the world won a war.

(5) The United States of America is, and has always been, a peace-loving nation. It does not make unprovoked war on its neighbors; it has never had, and does not now have, megalomaniacal dreams of world conquest. But, at the same time, the United States, until recent times, was prepared to mobilize its entire military might to defend itself and the principles of Freedom, no matter from which quarter such a challenge came. Only in this way has the United States of America been able up to now to maintain its leadership in the world.

Senator Strom Thurmond put it this way in a statement on May 2, 1963: "Armaments do not cause wars. It is the lust of men for power that causes wars, and military weakness, not strength, invites attack. The only sure road to peace is superior military strength. The only hope for Freedom lies in total victory over Communism."

* According to Senate Document No. 85, 1955, published by the Senate Internal Security Subcommittee, "the staff found that in the 38 short years since the Soviet Union came into existence, its Government had broken its word to virtually every country to which it ever gave a signed promise . . . . it keeps no international promises at all unless doing so is clearly advantageous to the Soviet Union."

CHAPTER II

WHO ARE THE DISARMERS?

To be prepared for war is one of the most effectual means of preserving the peace.
- Gen. George Washington

On January 6, 1941, President Franklin D. Roosevelt, in an address before Congress, gave his famous Four Freedoms speech. Although the phrase "Freedom from Fear" will be recalled by many, just how Roosevelt intended to achieve this so-called freedom from fear was not generally publicized at that time. This was spelled out, however, in the phrase immediately following, to wit:

> The Fourth (Freedom) is Freedom from Fear -- which, translated into world terms, means a worldwide reduction of armaments . . .

Doubtless Roosevelt's speech advocating disarmament caused great jubilation in certain world capitals, because eleven months later, almost to the day, the Japanese bombed Pearl Harbor.

In a speech on April 28, 1963, U.S. Senator Hiram L. Fong of Hawaii, before an American Legion group, briefly reviewed the dreadful cost of unpreparedness:

> We should have learned the folly of military weakness in World War I when we were caught militarily unprepared. We should have learned the folly of military weakness in World War II when we were again militarily unprepared. We should have learned the folly of military weakness in the Korean war when we were for the third time ill-equipped to fight.
>
> Gen. Omar N. Bradley, then Chairman of the Joint Chiefs of Staff, declared in 1952: "If we had had the necessary military power at that time, and in the right place, Korea may never have occurred - and certainly would have been short-lived as a crisis. Our weakness only invited attack."

> At the end of World War II, 5 years before Korea, the United States was the most powerful military force in the world. We had the biggest and best Army, the greatest Navy, and the mightiest Air Force. In just 5 short years, our Air Force was drastically reduced, our Navy was nearly scuttled, our Army was vastly understrength, and our Marine Corps was whittled down to a home-based force. It was impossible to furnish General MacArthur a single war-strength Marine Corps division which he requested when the fight began in Korea . . . .
>
> We Americans are willing to pay whatever price is necessary for our defenses. As long as the peace is threatened by those who boast they will bury us, we must never abandon our posture of superior military strength.

Tom Anderson, editor-in-chief of FARM AND RANCH Magazine puts it this way:

> We are being surrendered . . . . The world stands by in disbelief witnessing the decline and fall of the greatest nation in history, sliding into Socialist oblivion. . . . Khrushchev doesn't have to bury us, our leaders are burying us!

In the Foreword the five basic aims of a private, non-governmental organization, the Council on Foreign Relations were outlined. Of the five, the two most important are: "building a new international order," and "negotiating on disarmament proposals, perhaps directly with the U.S.S.R. in secret." What is not generally realized is that the subjects of a new international order (or World Government) and disarmament are inextricably entwined. The Communists know this, and the world planners know this. Unfortunately, only a few Americans are aware of this relationship.

In 1932, William Z. Foster, national chairman of the Communist Party, U.S.A., in his book "Toward a Soviet America,"* wrote:

> A Communist world will be a unified, organized world. The economic system will be one great organization . . . . The American-Soviet Government will be an important section in this world organization, and one of the revolutionary achievements of victorious world Communism will be the ending of war.

* Elgin Publications, Box 162, Balboa Island, Calif., 1961, $4.75.

Thus spoke a leading Communist regarding the ultimate aim of the so-called "peace offensive" by the Soviet Union: to disarm the United States so that this nation will be powerless to impede the establishment of a Soviet World Government.

THE "GRAND DESIGNERS"

The dreamers, the schemers, the promoters in the United States who are seeking to establish regional world governments, supposedly of Free World countries, pompously refer to their plans as a "Grand Design." As a matter of fact, Joseph Kraft, a member of the Council on Foreign Relations, has recently written a book entitled "The Grand Design - From Common Market to Atlantic Partnership."*

Under this so-called "Grand Design," the United States would become a member of the Atlantic Community, a regional government which would destroy U.S. national sovereignty and place in the hands of the High Council of the Atlantic Community the power to "concert and plan, and in agreed cases to decide, policy on matters of concern to the (Atlantic) Community as a whole."**

"America's Unelected Rulers,"*** by Kent and Phoebe Courtney, published in 1962, gives in detail the Council on Foreign Relation's "grand design" to destroy America's national sovereignty, subvert the U.S. Constitution via NATO and the Atlantic Community, and put the U.S. under control of a Socialist-dominated World Government.

In the official program of the 1936 Communist International is found the following statement:

> . . .Dictatorship can be established only by a victory of Socialism in different countries or groups of countries, after which the proletarian republics would unite on federal lines

* Harper & Brothers, New York, 1962.

** Summary of recommendations, Item 2, Declaration of Paris, which resulted from the Atlantic Convention of NATO Nations held in Paris, Jan., 1962.

*** Published by the Conservative Society of America, P. O. Box 4254, New Orleans 18, La. 177 pages. Indexed. Paperback. $2.00

> with those already in existence, and this system of federal unions would expand . . . at length forming the World Union of Socialist Soviet Republics.

On February 20, 1963, in the House of Lords, London, England, the Rt. Hon. The Earl of Home, a radical Left-Wing Internationalist, made a speech on the subject of the United Nations International Police Force. The Earl of Home remarked that Lord McNair (one of his colleagues) had just said that "a World Government served by armies of its own..." was "the major and ultimate objective." And then the Earl of Home went on to state: "I think everybody recognizes that the ultimate objective is not obtainable until we have a measure of disarmament."

Just as the Common Market and the Atlantic Community are the economic "Grand Design," so there exists a military "Grand Design," the purpose of which is the ultimate disarming of the United States. That these two aims, promoted by the Council on Foreign Relations, are now official U.S. policy is evident from the pamphlet* released by the State Department in October, 1962, which is a transcript of a television program produced cooperatively by the Department of State and the National Educational Television Network. Under the general title of "Our Foreign Policy," are listed five principal components. Item 2 is sloganized as "Progress through partnership" - that is, partnership with the Atlantic nations. Item 5 is sloganized as "Peace through perseverance." In this item it is set forth that one of the aims of U.S. foreign policy is "to strive tirelessly to end the arms race."

Of the six top governmental officials who participated on the aforementioned television program which was broadcast in 1962, five are members of the Council on Foreign Relations. These are: Dean Rusk, Secretary of State; George Ball, Undersecretary of State; Fowler Hamilton, then Foreign Aid administrator; Adlai Stevenson, U.S. Representative to the U.N.; and Walt Rostow, Special Advisor to the President and Chairman of the Policy Planning Council. The sixth participant was Secretary of Defense Robert S. McNamara.

WHAT IS THE COUNCIL ON FOREIGN RELATIONS?

In tracing the origin of the Council on Foreign Relations, THE DAN SMOOT REPORT* of June 12, 1961, states that it was incorporated in 1921, and then goes on to say:

> The Council did not amount to a great deal until 1927, when the Rockefeller family (through the various Rockefeller foundations and funds) began to pour money into it. Before long, the Carnegie Foundation (and later, Ford) began to finance the Council. In 1929 the Council (largely with Rockefeller gifts) acquired its present heaquarters property, the Harold Pratt House, 58 E. 68th St., New York City.

Members of the Council on Foreign Relations not only represent all religious faiths, Catholic, Protestant, and Jewish, but also the following fields: finance, government, business, labor, military, education, and mass media communications.

In order to add authenticity to its foreign policy recommendations, the Council on Foreign Relations has managed to corral a stable of big names, well-known to the majority of the American people. For example, here are just a few men of national prominence who are members of the CFR:

Nelson A. Rockefeller, Governor of the State of New York
Dwight D. Eisenhower, former President of the United States
Senator Jacob Javits, Republican, New York
Senator Hubert Humphrey, Democrat, Minnesota
Adlai Stevenson, U.S. Representative to the United Nations
Dean Acheson, former Secretary of State in the Truman Administration
James B. Conant, former President of Harvard University
David Dubinsky, President, International Ladies' Garment Workers Union
Arthur Hays Sulzberger, Chairman of the Board, NEW YORK TIMES
William S. Paley, Chairman and Director, Columbia Broad-

casting System (CBS)

Henry R. Luce, Editor-in-Chief: TIME Magazine, LIFE Magazine

In addition to being financed by a number of the largest tax-exempt foundations, the Council on Foreign Relations also teceives contributions from various corporations throughout the country, such as Standard Oil Company of California; Time, Inc.; the Chase Manhattan Bank; Ford Motor Company, International Division; and the RAND Corporation.

STUDY OF SURRENDER POSSIBILITIES

The CONGRESSIONAL RECORD of August 8, 1958, page 15288, reprints an article which appeared in the ST. LOUIS POST-DISPATCH under the heading "Question of When United States Should Surrender in All-Out Nuclear Attack Studied by Pentagon." The sub-head read, "Scientists are Proceeding on Assumption Russia Has Achieved, or Is Rapidly Gaining, Intercontinental Superiority With Missiles." The article, datelined August 5, 1958, stated that three non-profit scientific agencies working for the Defense Department were engaged in making studies as to whether the United States could survive after an all-out nuclear attack. The article also revealed that one of these scientific agencies was studying the conditions when surrender would be advisable. Listed in the CONGRESSIONAL RECORD were two of the three scientific organizations making the studies. One was the Operations Research Office of Johns Hopkins University, and the other was the RAND Corporation, a non-profit scientific organization. The Rand Corporation Research study was later published as a book, entitled "Strategic Surrender," by Paul Kecskemeti, and was produced by the Stanford University Press in 1958.

Two sentences by author Kecskemeti clearly illustrate the thesis propounded in his book, "Strategic Surrender." These sentences are:

> One may safely say that the maxim that "in war there is no substitute for victory" is totally erroneous.

On the last page, the author declares:

> We shall have to revise some of our deeply-rooted traditional attitudes, such as our rejection of compromise, and our faith in extreme, ideal solutions.

Thus author Kecskemeti disposes of the "ideal solution" that the only way to maintain peace is to maintain military supremacy.

The book, "Strategic Surrender," published in 1958, raised a storm of protest in both Houses of Congress. The result was that the disarmament planners for a year or so relinquished their blatant posture, and reverted to the technique of holding a series of furtive private meetings with representatives of the Soviet Union. The proceedings and agreements arrived at were, in most cases, not released to the nation's press.

SIMILARITY OF PRESIDENTIAL STATEMENTS

Approximately two years later, however, a rash of disarmament-type public statements by leading government officials again broke into the headlines. In his farewell speech on January 17, 1961, former President Dwight D. Eisenhower, a member of the Council on Foreign Relations, warned of the dangers of a "military-industrial complex" which he said could lobby the nation into wasteful, provocative weapons.

When those who advocate disarmament use the adjective "provocative" preceding the word "weapons," the intended meaning is that such weapons are, at the time, superior to those in the possession of the Soviet Union, and therefore provoke concern and fear within the Kremlin.

President Kennedy, soon after, endorsed the disarmament views of former President Eisenhower by declaring in his first defense message in 1961:

> We are not creating forces for a first strike against any nation. . .

Kennedy's statement gave considerable comfort to the Soviet Union because first-strike weapons are considered "provocative" by the Communists. But Mr. Kennedy went even further in attempting to ingratiate himself with Communist Russia when he followed the recommendation of Charles E. Bohlen, a member

of the Council on Foreign Relations, and inserted certain Communist phraseology in his defense message. Note the Communist word "dialectical" in the following excerpt from Kennedy's speech:

> We note that, in the public position of both sides in recent years, the determination to be strong has been coupled with announced willingness to negotiate. For our part, we know there can be dialectical truth in such a position, and we shall do all we can to prove it in action.

What can this portend - when the President of the United States, in a defense message to the U.S. Congress employs Communist jargon in order to express his views?

HOW CFR MEMBERS FEEL ON THE DISARMAMENT QUESTION

Kennedy's Secretary of State, Dean Rusk, formerly president of the Rockefeller Foundation, and a member of the Council on Foreign Relations, gave his definition of "victory" in a speech on August 13, 1962. Asserted Mr. Rusk:

> . . .What is the worldwide victory we work for? Not the victory of one nation over another, or of one people over another, but a worldwide victory for freedom.

Frank J. Johnson, editor of WASHINGTON REPORT, published by the American Security Council, agreeing that "victory for freedom" represents man's eternal hope for the establishment of a political Utopia on earth, nevertheless rejected Rusk's "no-win" solution. Stated Mr. Johnson:

> As a definition of Cold War victory, however, it is meaningless in terms of practical policy. The specific and urgent problem which faces the United States is the defeat of the Soviet drive for world power.

One of the top movers in the hierarchy of the Council on Foreign Relations is John J. McCloy. HUMAN EVENTS Newsletter* gives a thumbnail sketch of the background of John J. McCloy, as follows:

* HUMAN EVENTS Newsletter, published weekly at 410 First St., S.E., Washington 3, D.C.

> McCloy, now Kennedy's chief disarmament adviser . . . thinks the Soviets are mellowing. For 15 years - from 1925 to 1940 - he was a member of the law firm Cravath, de Gersdorff, Swain, and Wood, which helped manipulate US recognition of Soviet Russia in 1933; in 1944, as Assistant Secretary of War, he approved an order permitting Communists to be officers in the US Army; he strongly supported J. Robert Oppenheimer after Oppenheimer had been denied top security clearance. In 1958, McCloy, according to liberal columnist Marquis Childs, sought to persuade Secretary of State John Foster Dulles to pressure the Nationalist Chinese into relinquishing their offshore islands.

John J. McCloy, Chairman, General Advisory Committee of the United States Arms Control and Disarmament Agency, is apparently a man obsessed by the terrors of nuclear warfare. In a speech* before a group of industrialists in 1962, McCloy referred to "the consequences of a thermonuclear war..." Then Mr. McCloy went on to state: "The combination of blast, conflagration, fall-out and the disruption of the services by which human beings have come to live is so incalculable that I doubt if any finite mind can grasp either the fact or the import of such an event."

Mr. McCloy's statement doubtless caused great satisfaction in the Kremlin as he, knowingly or unknowingly, aided the Kremlin's propaganda drive which seeks to play up the terrors of nuclear warfare in order to demoralize the American people into submission. The Communist terror-tactic was obviously patterned after that employed by the Nazis at the beginning of World War II, when advance Nazi agents in a country scheduled to be overrun, showed films of advancing Panzer divisions and Nazi Stuka dive bombers raining death and destruction on hapless inhabitants. In some cases, the audiences viewing these films were so panicked by such sights as to offer little or no resistance when the actual Nazi invasion of their area began.

In his speech, while deploring that he and other U.S. negotiators feel they have been unable to convince the Communist Russians of America's "sincerity" regarding disarmament, Mr.

* Reprinted in United States Arms Control and Disarmament Agency Publication 8, entitled "Disarmament: The New U.S. Initiative," General Series 5, released Sept., 1962.

McCloy, wittingly or unwittingly, gave some interesting facts regarding the actual disarmament that has taken place in the United States. Said McCloy:

> I know of no more striking example in history of a determination to lay aside the implements of war than was contained in the Baruch Plan where, after alone achieving the invention of the atom bomb, we sought immediately after the war to subject it and all the materials which could aid in its production to strict and clearly defined international control.

And then giving further disarmament details, John J. McCloy stated:

> We demobilized over 11 million men in a little over a year after World War II, while the Red Army was maintained at a level so high that in relation to ours it simply did not disarm.

Another prime mover in the CFR is Christian A. Herter, Secretary of State in the Eisenhower Administration. In a speech before the National Press Club in Washington, D.C., on February 18, 1960, Christian A. Herter outlined official U.S. goals regarding disarmament as follows:

> . . .To cut national armed forces and armaments further, and to build up international peace-keeping machinery, to the point where aggression will be deterred by international rather than national forces . . . . To reduce national armed forces, under safeguarded and verified arrangements, to the point where no single nation or group of nations could effectively oppose this enforcement of international law by international machinery . . . .We need not – and should not – wait, however, to make a start in taking more limited measures that would have independent value in promoting the growth of institutions for keeping the peace and that would facilitate progress toward disarmament. I have in mind such actions as enhancing the usefulness of the United Nations International Law Commission and supporting Secretary General Hammarskjold's efforts to develop standby arrangements for a United Nations Force, and other forms of U.N. presence in places where there is danger of a resort to force.

A tragic example of United Nations Forces in operation, and a

"U.N. presence in places where there is danger" is the brutal and disgraceful war of aggression waged in the Congo by the United Nations where anti-Communist Katanga was brought to its knees.

THE RAREFIED AIR OF GENEVA

Many times the disarmament promoters, engrossed in weaving their "grand designs," become so enchanted with their own positions of power that they begin to see themselves as the sole representatives of the people of the United States. Conveniently overlooked in such a masquerade, of course, is the fact that these men, with the exception of the President, were not elected by the people. They have no mandate from the American people. And yet you find them issuing lofty statements which would be more fitting in the mouths of dictators or emperors. Consider, for example, the two following assertions by Secretary of State Dean Rusk. In melifluous tones, Secretary Rusk pronounced, at the 60th Plenary Session of the Conference of the 18-Nation Committee on Disarmament at Geneva, Switzerland, June 24, 1962:

> I can assure you that no government is more anxious than the government of the United States, from President Kennedy on down, to assume the responsibilites which go with the drafting, the signature, and the execution of a sound and safeguarded treaty on general and complete disarmament.

And then there is this brief dictum laid down by Secretary Rusk in a speech in New Hampshire:*

> The United States wants disarmament.

The balloon of Secretary Rusk's delusion that he speaks for the majority of the American people on the subject of disarmament could be quickly punctured if there were a genuine two-party system in the United States. Because the Republican Party offers no opposition to Kennedy's disarmament policies, the people of this nation have been denied the means of effectively expressing their objections. Nevertheless, Mr. Rusk is indeed presumptuous

* Made before the New Hampshire Council on World Affairs, at Concord, New Hampshire, June 16, 1962.

when he publicly declares "The United States wants disarmament."

It is interesting to note, however, that the super-confidence of the political appointees in the State Department, America's unelected rulers, is not shared by more realistic-minded disarmament planners, who frequently issue words of caution regarding the accelerating pace at which the State Department disarmers are now proceeding. For example, the United World Federalists, a Left-Wing internationalist organization, at its 15th General Assembly in Chicago, May, 1961, urged additional funds to the U.S. Arms Control and Disarmament Agency so that it can "expand its programs for . . . education of the American people as to the necessary attributes of an acceptable plan for general and complete disarmament."

For the word "education," of course the proper word, "brainwashing," should be substituted.

The March 18, 1961, issue of BUSINESS WEEK, in an article entitled "The New Language of Arms Control," gave this interesting definition of disarmament:

> DISARMAMENT: The particular form of arms control that aims specifically at reduction or elimination of weapons. However, the word (that is, disarmament) is still avoided in some circles in favor of discussion of what handling of armament contributes most to a stable international situation.

In the book "Arms and Arms Control - A Symposium edited by Ernest W. Lefever," there appears a chapter written by Jerome B. Wiesner, Special Assistant to the President for Science and Technology. Apparently Mr. Wiesner is more pragmatic regarding public opinion than are his fellow CFR members in high places in government. In a paragraph entitled "People Are Skeptical About Disarmament," Mr. Wiesner admits:

> Yet most people do not quite believe in disarmament. In fact, some people view with suspicion any attempt to impose restrictions on military activities, and many more are skeptical of the possibility of actually achieving a meaningful agreement on arms control. Such cynicism is strongly supported by historical proceedings.

CHAPTER III

CURTAIN OF SECRECY

If it were not for the fact that certain leaders in the disarmament clique, who may not necessarily be governmental officials, frequently feel a compulsion to write books on the subject, it would not be possible to write a critical analysis such as this of the actual aims of the disarmers. In such books, articles, or essays, the disarmament promoters frequently get carried away with their own words as they delineate their versions of the "Grand Design."

Although governmental disarmament spokesmen, when pontificating on the subject of disarmament, always piously add the phrase "with adequate safeguards and controls," it is evident that such phrases are for public consumption only.

In 1962 there was published a book entitled "Arms and Arms Control, A Symposium edited by Ernest W. Lefever."* The prefatory note to this symposium was written by Arnold Wolfers, director of the Washington Center of Foreign Policy Research, and a member of the Council on Foreign Relations.

In his first chapter, entitled "The New Arms-Control Consensus," Mr. Lefever states that he was a consultant to the International Affairs Program of the Ford Foundation, and during 1960-61 served as a consultant to the United States Disarmament Administration. His first chapter summed up the various approaches to disarmament presently being advocated.

The following are excerpts from Mr. Lefever's first chapter:

> The immediate objective is to achieve stability, even if it must be based on a balance of terror. The long-range objective

* Frederick A. Praeger, Inc., 64 University Place, New York 3, N.Y., $1.95 (Paperback).

> is to maintain stability at decreasing levels of destructive capacity.... The new arms-control consensus recognizes three major paths to greater security. First, significant measures can be taken unilaterally by the United States or the Soviet Union to develop a less menacing military posture and thus reduce the danger of war .... If we emphasize defensive and second-strike weapons, the Soviets can safely follow suit. There are numerous possibilities in unilateral action that, if acted upon, would make a safer world for ourselves. . .
>
> The second path is closely related to the first - the area of tacit agreements between the major nuclear powers. By self-restraint, one side can sometimes induce restraint on the part of its adversary. This mutual restraint can lead to tacit understandings that are in many ways as effective as formal agreements . . . .
>
> The third path is the traditional disarmament approach - the formal negotiated agreement.

Mr. Lefever then goes on to admit that "there is always an element of collaboration with the adversary involved. This collaboration, which enhances mutual security through mutual restraint, is the essence of arms control."

According to the first chapter in his book, Mr. Lefever believes that the foregoing three steps are "the prevailing approach today among independent scholars and researchers concerned with national security and arms control," and adds: "It (this consensus) has been gaining increasing acceptance within the U.S. Government."

Thus it is seen that the policy which is now becoming the official policy of the United States Government is one under which the United States would apparently be willing to disarm "unilaterally" - that is, regardless of whether the Soviet Union reciprocates.

Mr. Lefever's reference to tacit agreements is indeed interesting. There is, of course, no need for any tacit or secret agreement with a foreign country on any subject unless those representing the United States know that what they are negotiating is completely contrary to the will of the American people.

It is somewhat surprising that Mr. Lefever realizes, and candidly states, that negotiations such as are recommended in "The New Arms-Control Consensus" represent actual "collaboration

with the adversary," and that this collaboration with the enemy is the "essence of arms control."*

One of the essays in Mr. Lefever's book, "Arms and Arms Control," is written by James E. King, Jr., a member of the Council on Foreign Relations. Mr. Lefever describes the ideas advanced by Mr. King as "reflecting the dominant theme in American current thinking on arms control." And what is this dominant theme? Mr. King clearly outlines this theme in his paragraph entitled "We Must Abandon the Goal of Military Dominance," in which he states:

> What is it we have to concede? The answer is that we can abandon our intention, or hope, of achieving a position of predominance that would enable us to impose stability. It is well that this be stated bluntly, and without qualification, to avoid misunderstanding.

In the book "The Liberal Papers,"** with an introduction by the Left-Wing extremist James Roosevelt, is found a lengthy thesis by James Warburg entitled "A Re-examination of American Foreign Policy." Mr. Warburg, who is described in "The Liberal Papers" as "an expert in Foreign Policy," is, of course, a member of the Council on Foreign Relations. Since there is no indication as to whether Mr. Warburg's article is written on behalf of any organization, it is difficult to understand his continuous use of the words "we" and "our" in his essay, unless he is employing the Imperial "we."

Mr. Warburg is very perturbed over the fact that the Joint Chiefs of Staff, relying on their years of military experience, have been able in the past to have a voice in military decisions of this nation. States Mr. Warburg:

> It is our opinion that the decisions of the Executive have in recent years been too strongly influenced by the Joint Chiefs of Staff...and the Bureau of the Budget. We believe that Foreign Policy should not be dictated by the military; that,

---

* One of the definitions of the verb "collaborate," as shown in Webster's "New Collegiate Dictionary," is "To willingly comply with, cooperate with, or assist enemy forces occupying one's country; - usually with an implication of traitorous dealing."

** Doubleday & Co., Garden City, New York, 1962.

> on the contrary, military policy should be subservient to political aims.

In other words, what Mr. Warburg is saying is that if the "political aims" of the United States include unilateral disarmament of this nation in the face of Soviet aggression, our Joint Chiefs of Staff, who have dedicated their lives to protecting this nation, should have no say-so.

Mr. Warburg might possibly be considered one of the early advocates of "news management," the thesis publicly advocated by Arthur Sylvester, Kennedy Administration spokesman, regarding the Government's "inherent right to lie," because, in "The Liberal Papers," Warburg declares:

> We believe...that the decision as to what information may legitimately be withheld in the interest of national security should not be left to the military.

Speciously throwing the cloak of national security over facts already known to the Soviet Union is nothing more than a crude attempt at censorship, and a direct violation of the First Amendment of the U.S. Constitution.

THE "WARLESS WORLD" of WALTER MILLIS

It can be expected that any movement has its extremists, and although disarmament is a grim subject indeed, a light touch can be furnished when examining the fantastic extremes to which some of the disarmament promoters are willing to go in their attempts to play God and make over the world. A book entitled "A World Without War"* contains a foreword by Reinhold Niebuhr. Dr. Niebuhr, a member of the Council on Foreign Relations, has gained a notoriety of sorts through his participation in numerous organizations and activities which have been cited by government sources as having aided the cause of Communism.**

More than half of the book, "A World Without War," is devoted

* Washington Square Press, Inc., New York, 1961.

** Sixteen such organizations and activities with which Dr. Reinhold Niebuhr has been affiliated are shown in "America's Unelected Rulers," by Kent and Phoebe Courtney. Pages 149-150.

to essays by Walter Millis, likewise a member of the Council on Foreign Relations. Mr. Millis has a myriad of ideas regarding how a "warless world," as he refers to it, can be reorganized. For example, states Mr. Millis (p.72):

> It has been suggested that we might reconvert the military officer corps into university and high school teachers...

The subject of manpower use and industrial development in a "warless world" holds great interest for Mr. Millis, who recommends ".... development of more rational and perhaps more authoritarian agencies for the allocation of capital investment, material supplies and manpower than we now possess...." And then Millis goes on to say:

> One may well doubt the adequacy of our existing democratic institutions and processes to deal with them; one must therefore contemplate the possibility of institutional changes in both the economic and political fields, in directions that to many today would seem highly undesirable. One would anticipate a further expansion in the planning and regulatory powers of the governmental bureaucracy. One would expect a further decline in both the legislative and representational functions of Congress, the political parties and the electoral process in general in favor of a rise in administration as the major center of political life.

It is apparent that Mr. Millis has an inkling that his extreme views will not be docilely accepted by the people of the United States who have lived in the climate of Freedom for many generations, because further in his essay, he recommends that:

> Each state (nation) must be allowed the means to enforce its laws, to suppress riot and local rebellion...

It is obvious that the "riot and local rebellion" anticipated by Mr. Millis would not be of a criminal character which, of course, could be easily handled by local police departments. Rather, the rebellion that he envisages would be a rebellion by the American people against the tyrannical type of Federal Government of which Mr. Millis dreams.

In his conclusion, Mr. Millis candidly states:

> This paper itself could not have been written a quarter of a century ago; most of such ideas as it contains could not have

occurred to the author under the conditions of 1935 and, if they had, would have seemed too patently fantastic to put to paper.

Perhaps it is well that Mr. Millis did put his fantastic ideas on paper, as they give a clear insight into the warped thinking of some of the masterminds who are promoting disarmament in the United States.

SECRET MEETINGS URGED

In the book "Arms and Arms Control" appears an essay entitled "Negotiation and Agreement," by Thomas C. Schelling, a member of the Council on Foreign Relations. In Mr. Schelling's essay, originally published by Twentieth Century Fund in 1961 under the title "Strategy and Arms Control," he states:

> Even in the case of formal diplomatic negotiations, culminating in a treaty, communicating with the partner (potential enemy) country is a complex matter. In addition to the deliberate formal and informal communications (public and private) coordinated by the head of government, there is a good deal of activity designed to impress the other side with the firmness of one's own position...and the areas in which one is willing to make concessions.

In the foregoing quotation, the parenthetical phrases are those of Mr. Schelling himself.

What a strange type of reasoning it is which lumps together the words "partner" and "potential enemy"! With such twisted thinking playing a prominent part in formulating U.S. foreign policy, how long will it be before Mr. Schelling and like-minded colleagues openly advocate partnership between the U.S.S.R. and the U.S.A.? For the present, however, Mr. Schelling advocates private meetings between the United States and the Soviet Union when, in his essay, he states:

> A special aspect of negotiation, and even of the understandings reached, is the matter of secrecy or publicity. Perhaps "privacy" vs. publicity is a better expression in some cases. Certainly, there may be advantages in reducing the propaganda significance of negotiations, by prior agreement on privacy, on not making a record of negotiations public, on not holding separate press conferences to give away one's own view of what is going on.... Secrecy may eliminate some of the obstacles to plain speaking and to drastic proposals. Secrecy may also be involved in negotiating matters that one or both participants prefer not to acknowledge in public.
>
> Finally, there is the possibility of secret agreements as well as of secret negotiations... If our definition of arms control is broad enough to include all the possible forms of military collaboration between the United States and its main enemies, there may well be understandings reached, or even explicit agreements, that must be kept from certain other countries.

Whereas the extremist views of Walter Millis, which were discussed earlier in this chapter, could be relegated to the never-never-land of hallucination, it would seem that Mr. Schelling, on the other hand, is dead serious in his recommendations. Casting aside all precepts such as national honor and national integrity, Schelling blatantly advocates (1) selling out our allies, when he speaks of "military collaboration between the United States and its main enemies ... that must be kept from certain other countries"; and (2) selling out the American people, when he speaks of "secret agreements as well as secret negotiations." That Mr. Schelling is well aware that such secret agreements as he recommends would be bitterly opposed by the American people is apparent when he states that both participants in such negotiations would prefer not to acknowledge them in public.

The book "Arms and Arms Control," in which Mr. Schelling's statements appear, has been in print since 1962, and is in general circulation. Why has not some statesman risen to his feet in the Senate or the House of Representatives and denounced such proposed secret negotiations and agreements as a shocking violation of the U.S. Constitution?

Schelling, of course, is not alone in promoting secret meetings between the U.S. and Communist Russia. It will be recalled that one of the aims* of the Council on Foreign Relations is:

> Concentrate more on developing our own disarmament proposals. Negotiate on these proposals perhaps directly with the USSR in secret...

* Page 97, "Strategy for the 60's," Frederick A. Praeger, Inc., publisher, New York, 1961.

Showing how this CFR goal is being carried into actual practice, THE STATE, of Columbia, South Carolina, editorialized on February 28, 1963:

> Secret agreements, secretly arrived at, are urged as a way of dealing with Khrushchev in a National Security Council policy paper authored by close presidential advisers McGeorge Bundy and Walt Rostow. Rostow heads the State Department's Policy Planning Council and Bundy is the President's special foreign policy adviser.... The Rostow-Bundy paper says: "We should welcome temporary and partial accommodations or detentes with the USSR. We should seek to develop the basis for these agreements by further expanded contacts and exchanges between President Kennedy and the top Soviet leadership which would, unlike formal summit meetings, be viewed by the public as a form of communications while actually involving negotiations."
>
> ....Rostow and Bundy openly advocate that the public be misled into believing the telephone talks are just harmless chatter, when in reality Kennedy and Khrushchev could be dividing up the world -- or trading away the vital security of our nation....

McGeorge Bundy and Walt Rostow are, of course, members of the Council on Foreign Relations.

CHAPTER IV

"UNELECTED EXPERTS" NOW MAKE U.S. FOREIGN POLICY

The Council on Foreign Relations, as an organization, does not go as far in its official recommendations as do some of its individual members, a few of whom are quoted in the preceding chapter. The CFR prefers at the present time to work through private committees of individuals meeting with their counterparts in foreign nations. In this way such private committees are free of the restraints usually imposed upon those supposed to officially represent the United States.

One of the prime functions of these so-called citizen committees is to formulate foreign policy plans which, strangely enough, it has been found, later become official U.S. foreign policy. The actions and recommendations of these private groups, the most influential of which are the Council on Foreign Relations and its subsidiaries, frequently become a sort of "trial balloon" for the advancing of precedent-shattering policies. If the roof does not fall in - that is, if there is not a public outcry - then these proposals become a part of official U.S. foreign policy, with the President putting the full weight of the White House behind such proposals as he rams them through Congress - i.e., through the House in order to obtain appropriations to finance them, and later through the Senate for "advice and consent."

One of the favorite techniques employed is for these private-citizen groups to meet with their European counterparts and draw up agreements. Then, abiding by Constitutional requirements, these agreements, already a fait accompli, are presented to the Senate for ratification. The Senators, however, are informed by the White House that a rejection would greatly humiliate the United States. Thus, backed up by Executive Department pressure,

such groups of private citizens are actually able to formulate U.S. foreign policy."*

One of the "fronts" for the Council on Foreign Relations is known as the American Assembly. From May 4 to 7, 1961, 63 American citizens met at Arden House, a 50-room French Renaissance-style mansion located at Harriman, New York. The participants at this seminar were so-called experts in foreign policy matters, the field of disarmament, the academic community and news media. Among the participants were a total of 24 members of the Council on Foreign Relations, a few of whom were:

William Benton, Publisher & Chairman, Encyclopedia Britannica, Connecticut.

Lincoln P. Bloomfield, Center for International Studies, Massachusetts Institute of Technology

John Cowles, President, THE MINNEAPOLIS STAR & TRIBUNE, Minnesota

Lawrence S. Finkelstein, Vice President, Carnegie Endowment for International Peace, New York

Edmund A. Gullion, Deputy Director of the U.S. Disarmament Administration, Department of State, Washington, D.C.

Hubert Humphrey, United States Senator from Minnesota

Colonel G. A. Lincoln, Head, Department of Social Sciences, U.S. Military Academy, West Point, N.Y.

Walter Millis, Center for the Study of Democratic Institutions, New York

Robert Oppenheimer, Institute for Advanced Study, Princeton, New Jersey.

Shepard Stone, The Ford Foundation, New York

An indication of the power exerted by this so-called citizen group which met at Arden House in May, 1961, is the fact that one of its recommendations was that

> A United States Disarmament Agency should be established.

* A detailed description of how this technique, masterminded by the CFR, was employed by the U.S. Citizens' Commission for NATO in 1959 is contained in Chapter VI, "Atlantic Community - The Master Trap," (pages 65-66) of "America's Unelected Rulers."

It was just four months later that, spearheaded by Senator Hubert Humphrey, a member of the CFR, a bill establishing the U.S. Disarmament Agency was passed by both Houses of Congress.

Another recommendation of the American Assembly was that:

> The United States...should strengthen conventional forces and paramilitary capabilities and avoid any apparent reliance on nuclear weapons.

Strengthening "conventional forces" means building up commando-type units equipped with small arms and helicopters to fight in Communist-generated brush wars around the world.

The American Assembly also recommended an effort to "develop better means of detection" of missile-launchings by the Soviet Union. Apparently the members of the American Assembly were unaware of a statement made by a Soviet delegate to the 1960 Pugwash Conference in Moscow. At that conference, A. A. Blagonravov, vice president of the Soviet Committee on Space Research, had this to say:

> It should be remembered that every new military invention leads to a counter-invention, and it can safely be said that much research is being and will be conducted (by the Soviet Union) to paralyze any possible detection system.

And yet the CFR-controlled American Assembly in 1961 urged: (1) the banning of nuclear tests, and (2) halting production of fissionable materials for use in weapons.

In addition, the American Assembly urged that:

> The United States should press for agreement on comprehensive disarmament - reduction of all kinds of armament and armed forces to substantially lower levels in controlled stages.

and

> Comprehensive reduction of armaments to low levels which ....also require enlarged and strengthened international institutions equipped with substantial power to help maintain the peace.

That these conclusions of the American Assembly are in most cases a warning of what to expect, is amply illustrated by the fact that the immediately foregoing recommendations formed the

framework for the "Outline of Basic Provisions of a Treaty on General and Complete Disarmament in a Peaceful World," prepared by the U.S. Arms Control and Disarmament Agency, and presented by the U.S. delegation to the Disarmament Conference in Geneva less than one year later, on April 18, 1962.

DISARMAMENT PROPAGANDIZERS

Articles by the syndicated columnist Edith Kermit Roosevelt* in early 1963 furnished valuable documented information concerning other organizations which push the disarmament line. One such organization is the Institute for Defense Analysis (IDA) at 1666 Connecticut Avenue, N.W., Washington, D.C. Seven-year-old IDA is a non-profit organization whose contracts are solely with the Federal Government. It was founded by a $500,000 grant from the Ford Foundation. Not strangely, its president is Richard M. Bissell, a member of the Council on Foreign Relations.

One of the Government contracts under which the Institute for Defense Analysis is presently operating is with the State Department, covering studies for the U.S. Disarmament Administration. In many cases, it is in these IDA studies that policy is spelled out. Edith Kermit Roosevelt, in her column, points out some themes to be promoted over the coming months. One of these is:

> Red China is to be pictured as the real threat in order to persuade the American people of the necessity for peaceful coexistence with Soviet Russia.

In an IDA Study Memorandum of September 15, 1962, General "X" writes, in "Reactions to a Nuclear-Armed Communist China: Europe and the United Kingdom":

> The specter of China can be an asset in seeking military and political arrangements with the Soviets in Europe, and, more significantly, can permit a relatively stable period of peaceful coexistence.

In another IDA Study Memorandum entitled "A Proposal for a

* Edith Kermit Roosevelt Syndicate, Suite N-824, 800-4th St., S.W., Washington 24, D.C.

Ban on the Use of Nuclear Weapons," October 6, 1961, Dr. Morton H. Halperin suggests that even if the Russians do not disarm, we should do so anyway. Says Dr. Halperin:

> Some of these steps might be taken unilaterally, either with the aim of inducing reciprocation or because they are valuable in themselves independent of the Russian response.

In his IDA Study Memorandum, "Arms Control and Inadvertent War," March 10, 1962, Dr. Halperin says that in arms control agreements it might be stressed that inspection was not absolutely necessary "and that the United States might, in fact, want to invite the Soviets to design the inspection procedures if they seem to be interested in them."

And to think that U.S. taxpayers' dollars, via government contracts, are used to finance such dangerous recommendations!

In IDA Research Memorandum No. 3 entitled "The Policies of Arms Control: Troika, Veto and International Institutions," October 6, 1961, Dr. Lincoln P. Bloomfield*, a member of the Council on Foreign Relations, points out that:

> Short of a major catastrophe, the difficulties in obtaining widespread public approval and explicit Senate ratification of a genuine World Government are obvious.

How then can Federal Government planners bypass the will of the American people and their elected representatives? The answer is simple: through disarmament negotiations. This is borne out by Dr. Bloomfield, who explains in "A World Effectively Controlled by the United Nations," March 10, 1962, that "without disarmament such a system (of World Government) is probably unattainable."

In discussing the views of Dr. Bloomfield, Edith Kermit Roosevelt, in her syndicated column, asks:

> And how can the American people be conditioned to accept the State Department plan to eliminate national armies and replace them with a UN Police Force? According to Dr. Bloomfield, "If it (World Government) came about as a series of

* Dr. Bloomfield, formerly with the State Department's Disarmament staff, is now Director of the Arms Control Project at the Center for International Studies, Massachusetts Institute of Technology.

> unnerving trips to, or over, the brink, it would come about any time."

Therefore it is seen that World Government is to be presented to the American people as the only alternative to a war in which, they are told, they would suffer unacceptable destruction or could not win.

Another disarmament propagandizing outfit is known as the Institute for International Order (IIO), located at 11 West 42nd Street, New York City. A study for the IIO by Jerome Wiesner, top White House aide on science, and a panel of scientists, deals with the question of how to insure compliance with a disarmament agreement. (Mr. Wiesner is a member of the Council on Foreign Relations.) An example of the extremes to which the disarmers are willing to go in order to carry out their "Grand Design" is clearly illustrated in this IIO study. According to Edith Kermit Roosevelt's column, Jerome Wiesner and the panel of scientists urge "an international intelligence network" which could "recruit and train competent secret agents" to police a disarmament agreement. These experts propose to set up an international "control system" with "cooperating countries" - including the Soviet Union and Red China. They call for "new data" on "the effectiveness of special techniques (depth interviews, polygraphs, drugs, hypnosis)..."

This columnist then goes on to state:

> Among aspects of "psychological inspection" considered to merit further study is detection of diversion of scientists or other key specialists from special activities into weapons development or maintenance. The IIO study suggests that key specialists be watched by systematic compilation of college records, society membership lists, published literature, and other means. "Paramilitary systems" could also be watched for data collected on "how the control system might be broadened to monitor 'dangerous' activities."

With all power concentrated in the hands of a centralized government, the definition of "dangerous" activities could be made to apply to any activities on the part of the citizenry which attempted to thwart or oppose a tyrannical government.

Government-subsidized propagandizing organizations have, since 1956, been conducting secret studies of this nature aimed at formulating ways by which to crush popular resistance to World Government, toward which the first step is disarmament. In a May 11, 1963 column, Edith Kermit Roosevelt states that physicist Lewis C. Bohn has prepared several such studies for the semi-official RAND Corporation. Mr. Bohn writes of what are actually witch-hunting techniques in a book entitled "Arms Control and National Security."* Regarding Bohn's views, columnist Roosevelt states:

> In outlining ways to force the population to join this informer system, Bohn says there should be a provision in any arms control agreement making failure to report violations a crime, as well as the violations themselves. He suggests that persons giving information - the spies set loose among us for the international control system - could be rewarded by political office and large sums of money. Dr. Jerome Wiesner hails the Bohn proposal "to 'inspect' people" as an "important inspection technique" in an essay which appears in this same book. The text of the Sixth Pugwash Conference, held November 29, 1960, reveals that Wiesner discussed the plan with General T. A. Talensky, Admiral I. S. Isakov, and other Soviet officials experienced in police-state methods.

It would appear that the mild-mannered professors and intellectuals who now make policy for the United States advocate methods which differ in only slight degree from those practiced by Hitler's Gestapo.

---

CHAPTER V

DISARMERS FRATERNIZE WITH SOVIET SCIENTISTS

Since 1957 there have been numerous so-called Pugwash Conferences, the tenth of which was held in London in September, 1962. These conferences have included at one time or another nuclear scientists from the United States, Great Britain, Australia, Austria, Canada, France, the Netherlands, Japan, Sweden, India, Denmark, the Federal Republic of Germany, and the following members of the Soviet bloc: the Soviet Union, East Germany, Czechoslovakia, Communist China, Hungary and Poland.

It was at the Tenth Pugwash Conference in London in 1962 that the suggestion was put forth that nuclear explosions could be detected by unmanned nuclear detection stations. These would be small portable sealed boxes containing seismic equipment. This scheme is referred to as the "little black boxes" means of detection, and will be further discussed in Chapter XII.

The First Pugwash Conference was held in the home of Cyrus S. Eaton, wealthy American industrialist and banker, in Pugwash, Nova Scotia, from July 6 to 11, 1957. Cyrus Eaton, winner of the Lenin Peace Prize, has the dubious distinction of being considered by many as one of the foremost Soviet collaborators in the United States.

The purpose of the Pugwash Conferences was to bring together scientists of the Free World and Communist scientists. Dr. Eugene Rabinowitch, editor of the Left-Wing extremist BULLETIN OF THE ATOMIC SCIENTISTS, in a November, 1957, issue of that publication wrote:

> The Soviet Academy (of Sciences) not only endorses and publicizes the statements of the Pugwash Conference...but also

> calls upon Soviet scientists to seek new and more representative meetings with foreign scientists.

An indication of the thinking of Mr. Rabinowitch appears in his editorial in the March 3, 1961, issue of BULLETIN OF THE ATOMIC SCIENTISTS, in which he stated:

> In many articles in the Bulletin, I have argued that the only hope of mankind to avoid, in the long run, a military showdown between the two powerful camps into which the world is now divided, is to break with the age-old tradition of national policies dictated by national interests, and subordinate the interests of separate nations to the common interest of mankind.

Further on, Rabinowitch deplores "the ideological prejudices which make people blind to the existence of common interests of the Communist and the libertarian societies..."

The February, 1963, issue of editor Rabinowitch's magazine contains a lead editorial by him in which he states:

> The present foreign policy, based on reluctance to consider the Soviet Union an equal partner in the political field, logically permits no other military policy but that of an unrestrained arms race.

Rabinowitch then goes on to urge a doctrine which he says "must be based on acceptance of equal interest of the Soviet Union, not only in the avoidance of a nuclear war, but also in the political stabilization of the world."

Thus Mr. Rabinowitch joins other members of the disarmament clique who foresee an eventual merging or partnership between the United States and the atheistic forces of the international Communist conspiracy headquartered in Moscow. To prepare the way for such an eventual merger was one of the functions of the series of Pugwash Conferences, which began in 1957.

In 1961, the Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws of the U.S. Senate Committee on the Judiciary published a staff analysis entitled "The Pugwash Conferences." The following are some of the conclusions contained in this Government document:

> (a) The Pugwash Conferences were initiated, in part, by individuals with significant records of support of Communist

causes, including one leading member of the Communist Party in France. The Pugwash Conferences were approved by the Soviet Government, and the Soviet delegates were chosen by the Soviet Academy of Sciences, which operates under the discipline of the Communist Party of the Soviet Union.

(b) From the viewpoint of Soviet interests, the Pugwash Conferences served as an organic part of their Cold-War design to discredit American nuclear policy and accredit Soviet nuclear policy within the United States and throughout the world.

(c) The general tenor of the Pugwash Conferences as set by Lord Bertrand Russell and the Soviet delegation, was to weaken the will of American scientists to resist Soviet aggression.

(d) The Pugwash Conferences were utilized politically to open the doors to delegations from Communist countries which have not been recognized by the United States.

(e) A veil of secrecy surrounded the proceedings of the Pugwash Conferences. The full proceedings have never been made public in the United States, although they have been sent to Soviet Premier Nikita S. Khrushchev.

Among the participants at the Sixth Pugwash Conference, formally known as the Sixth International Conference of Scientists, which was held in Moscow from November 27 to December 5, 1960, were U.S. citizens Professor T. C. Schelling, Jerome Wiesner, and Walt Rostow. All three are members of the Council on Foreign Relations.

It would be a great mistake to underestimate the eventual effects of these international pow-wows, since, as has been pointed out, the recommendations of such meetings soon become either U.S. official policy, or - if government funds are needed for financing - become the basis for legislation to be presented to Congress.

For example, in the CHICAGO DAILY NEWS of February 6, 1963, there appeared an article by Charles Nicodemus entitled "Finds World Support for Science Center." In this article, Congressman Roman Pucinski (D-Ill.) is quoted as stating that reports from the meeting of two thousand scientists in Geneva, Switzerland, showed that "a powerful body of opinion emerged"

in favor of setting up a world pool of scientific information. Pucinski noted that several of the top speakers at the 87-nation U.N. Conference on Science and Technology called for creation of such a facility.* The University of Chicago has offered to donate 10 acres on its south campus for the proposed center, and on January 17, 1963, Congressman Pucinski introduced a bill in Congress to set up the center in Chicago, with the compiled information to be stored on magnetic tape, available for playback to U.S. and visiting scientists through the use of electronic computers.

Under Pucinski's bill, the Federally-financed National Science Foundation would construct and operate the center. Some of the activities of the National Science Foundation, which would operate this "world pool" of scientific information, are not, however, generally known to the American people. According to an article by syndicated columnist Fulton Lewis, Jr., Congressman Richard L. Roudebush discovered that recent grants totaling more than a half-million dollars were disbursed by the tax-supported National Science Foundation to Communist-bloc scientists. The grants in question, as revealed by Congressman Roudebush, are:

(1) June 25, 1962 - $61,000, Nolit Publishing House, Belgrade, Yugoslavia. A contract for translating and printing in English language scientific and technical journals, series, books, monographs, and such other materials.

(2) June 8, 1962 - $45,675, National Academy of Science, National Research Council. Exchange of scientists between U.S. and the USSR.

(3) June 14, 1962 - $7,500, University of California. Soviet-American exchange of scientists and travel to meetings in USSR, Italy and Hungary.

(4) April 19, 1962 - $373,000, Nolit Publishing House, Belgrade, Yugoslavia. Contract for translation and publication of scientific journals, books and monographs.

Congressman Roudebush strongly opposed this exchange of U.S. and Soviet scientists. Stated Roudebush:

We give and they take. Our scientists see only what the Rus-

* Among the speakers at the Geneva Conference who endorsed the "data center" idea was CFR-member Dr. Jerome Wiesner.

sians want us to see; their scientists are shown through top secret laboratories and research centers.

Roudebush last year exposed the fact that National Science Foundation officials had squired Soviet scientists on a 19-day tour of leading American laboratories in April, 1961.

This fraternizing of Free World scientists with Communist scientists is nothing less than palpable deception. The Russians do not even pretend to reciprocate in any way as far as sharing any scientific know-how they may acquire on their own. On the other hand, Communist-toadying Free World scientists continue to woo the Soviet Union, beseeching them to accept U.S. scientific findings, thus hoping to "convince" the Soviets of U.S. friendship.

It is obvious that the Communists have utter contempt for the slavering posture of fawning U.S. State Department planners and scientists, because in speaking of U.S. "good will" attempts toward the Soviet Union, Khrushchev stated: "We spit in their face, and they call it dew."

CHAPTER VI

THE ROSTOW-MOSCOW AXIS

In previous chapters we have documented the views of a number of planners in high places in government and the effect of their activities on the foreign policy of the United States. Foremost among the planners is Walt Whitman Rostow, a member of the Council on Foreign Relations, and possibly one of the most influential policy-makers in the Kennedy Administration. Rostow officially holds the position of Counselor and Chairman, Policy Planning Council of the U.S. State Department.

As has been pointed out, disarmament is not, as viewed by the planners, an end in itself. It is merely a means to an end. Therefore, rather than first discuss Rostow's views regarding disarmament, let us instead examine Rostow's opinions, or "judgments" as he modestly refers to his opinions in his writings, regarding what he considers to be the ultimate goal of U.S. foreign policy.

Walt Rostow qualifies nicely as a member of the intellectual clique which has infiltrated the Kennedy Administration, inasmuch as he has logged time both as a Rhodes scholar and as a professor at Massachusetts Institute of Technology, one of the foremost "policy-making factories" in the nation.

The June 29-July 13, 1962 issue of the authoritative newsletter U.S.A.* contained a thoroughly documented review by publisher Alice Widener, of Walt Whitman Rostow's book, "The United States in the World Arena."** According to Alice Widener, the goal of top advisor Walt Whitman Rostow as set forth in his book is "an end to our nationhood," which actually means "abolition of the United States of America."

---

* U.S.A., semi-monthly newsletter, 829 Park Ave., New York 21, N.Y. $20.00 per year.

** Harper & Brothers, New York, 1960.

Here is how Rostow, on page 549 of his book, spells out his views regarding the decline of nationhood:

> ...It is a legitimate American national objective to see removed from all nations - including the United States - the right to use substantial military force to pursue their own interests. Since this residual right is the root of national sovereignty, and the basis for the existence of an international arena of power, it is, therefore, an American interest to see an end to nationhood as it has been historically defined.

How can a governmental official holding such revolutionary views take the oath required of every official of the United States Government, which is: "I do solemnly swear or affirm that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to same; that I take the obligation freely without any mental reservation or purpose of evasion, and that I will well and faithfully discharge the duties of the office on which I am about to enter, so help me God."

It would appear that Mr. Rostow's "mental reservation" to the oath of office is so extensive that he incorporated it in a lengthy 550-page book!

On pages 436-442 of his book, Professor Rostow outlines what he considers the range of American choice:

> **First**, a policy of unilateral disarmament and passive resistance...
>
> **Second**, a policy of armed withdrawal to the American continent.
>
> **Third**, a policy of limited withdrawal to the level of alliance with Western Europe and Japan.

Alice Widener then goes on to state, "Thereafter his long and tortuous argument as to the best means of persuasion for inducing the Communist bloc and all other nations to join with us in a plan for a peaceful, Federalized World Government leads to his conviction that we must work towards 'an end to nationhood as it has been historically defined'."

According to Alice Widener: "For such conversion of America, there must be a great change in what Professor Rostow describes as our 'domestic base.' To change it - he asserts - America must 'shift the balance of its common life in moral, philosophic, administrative, political, and economic dimensions' (page 476). In other words, we must revolutionize our entire existence."

An idea of how Rostow, after destroying U.S. sovereignty, that is, the nationhood of the United States, would run the country is indicated on page 524 of his book, where he states:

> The issue for the American agenda is then how to shift the focus of national politics from the problems which have obsessed the nation since the Civil War...to the issues of communal survival and communal development which are, in fact, now and foreseeably, central to the nation's life and its welfare.

Then on page 525, Rostow asks the rhetorical question: "Does this whole argument come merely to a plea for higher taxes?" He answers "Not necessarily, but increased taxation may well be required."

Naturally, to impose the type of tyranny that Professor Rostow envisages would call for a plethora of additional Federal controls, which prompted Alice Widener to ask the very pertinent question: "Given such Federal controls, what would be the essential difference between a Rostow and a Moscow economy?"

Basic to Rostow's philosophy is his vision of America, which he views (p. 543) as essentially "a continental island off the great land mass of Eurasia." He defines Eurasia to include Asia, the Middle East, and Africa, as well as Europe, and then goes on to declare that:

> The combined resources of Eurasia, including its military potential have been, and remain, superior to those of the United States.

Although Professor Rostow is reported to have been at one time a professor of history at Columbia, Oxford and Cambridge in England, and at Massachusetts Institute of Technology (MIT), it can be wondered if possibly Rostow worked from books which neglected to record the fact that in World War II the United States fought a war on two fronts half a world apart and decisively defeated both Nazi Germany and the Japanese.

Here is another illustration of the thinking of President Ken-

victory in the Cold War is building up a community of interest between ourselves and our principal European allies so that we can capitalize on the great technical, industrial, political and spiritual strength that exists there .... We must move toward greater political cooperation with our principal allies."

This is the Atlantic Community, or Atlantic "partnership," scheme advocated by President Kennedy on July 4, 1962, under which the United States would lose its national sovereignty and become a mere satellite in an eventual World Socialist government.

Then stated Kintner: "I think the Alliance for Progress is a very important single step in Latin America."

This, it will be recalled, is the Foreign Aid giveaway to Latin America under which a Castro-ite by the name of Dr. Felipe Pazos is in charge of giving away U.S. dollars.

On the subject of continuing Foreign Aid, Kintner echoed the CFR "line" by stating: "Our efforts to help underdeveloped countries come into the modern world have to be far more than economic assistance. That is only one part of the game. We have to help create a political and psychological climate which will help these people to accept assistance."

In the question-and-answer period, in response to a question regarding NATO, Kintner stated that "NATO is organized in concert with Article 51 of the United Nations Charter which permits regional organizations. It is not antagonistic to the United Nations."

Kintner neglected to inform the audience that NATO, as presently organized, is set up to become a regional World Government of Communism at home and abroad, these so-called anti-Communists who actually preach appeasement no longer face naive, gullible audiences.

Men such as Kintner and Strausz-Hupe, because of the aura of prestige that they have built up, are difficult to "nail down." Patriotic, anti-Communist Americans do, however, have a potent weapon in combatting these pretenders -- and that is the question-and-answer period. If a seminar is scheduled to be held in your city at which Col. William Kintner or Robert Strausz-Hupe will speak, organize a group of your friends, draw up a list of incisive questions, and scatter your friends throughout the audience. They can then, with their written questions in hand, ask such questions so that Kintner and Strausz-Hupe will, by their very answers, expose their true mission. When you "nail" them with a pertinent question -- watch them squirm as they try to dodge giving the answer -- an answer which they realize will reveal to the entire audience the speciousness of their claims to be anti-Communists!

An anti-Communist study program may be in operation or scheduled soon in the schools in your community. If so, be sure to check the textbooks or printed matter being used to see whether they are authored by such persons as Col. Kintner, or other members of the semi-secret Council on Foreign Relations, who echo the appeasement line. A list of the members of the Council on Foreign Relations, as well as an analysis of the aims and policies of the Council on Foreign Relations, is contained in our book, "America's Unelected Rulers.

Adlai's $400,000,000 Boo-Boo

(Reprinted from ST. LOUIS GLOBE-DEMOCRAT)

Once more, our ill-advised decision to jilt old friends and curry favor with the new "neutralist" nations of Africa has backfired.

Secretary of State Dean Rusk just returned from Portugal -- where he got the coolest reception accorded him anywhere during his 10-day visit to our NATO allies. He spent an hour and 40 minutes with Premier Antonio Salazar and an hour and a half with Foreign Minister Franco Nogueira. He left both meetings with his face wreathed in gloom.

Our allies, the Portuguese, are incensed because we have failed to back them in the UN.

Last January, we voted for a resolution, pushed by the noisy mob of African states, condemning Portuguese "repression" in Angola and demanding its immediate independence.

Last December, we wrung our hands when Indian troops seized Goa, which has been Portuguese since 1510. But we took no effective counter-measures, like cutting off Indian foreign aid.

Mr. Rusk was in Portugal to try and persuade the government to extend our five-year lease on the invaluable air bases in the Azores. Up to now, Portugal has made the bases available to us, cost free, as an act of friendship to a fellow NATO ally.

Lisbon's reply was chilly. It will cost you $80,000,000 a year for the Azores bases, Mr. Rusk was reportedly told.

For five years, that comes to $400,000,000. Of course, the bases are worth it because they are essential to control of the Atlantic.

However, if we get them at all, we will have to pay through the nose for what was once a gift.

Americans can chalk it up to the foolish policies pursued in the UN by Ambassador Adlai Stevenson and his entourage.

(Editor's note: Adlai Stevenson and Dean Rusk are members of the Council on Foreign Relations.)

What's Going On?

(Reprinted from NEW YORK MIRROR)

The Ford Foundation, which has to get rid of hundreds of millions of dollars each year or pay taxes, has set aside $900,000 for The Council on Foreign Relations to make a three-year study of Communist China and certain situations in what is called the Atlantic area.

Neither the Ford Foundation nor The Council on Foreign Relations is a governmental organization. At great cost, the people of the United States maintain the State Department and the CIA to keep up-to-date on international relations throughout the world. We send ambassadors, ministers, military, naval and air intelligence officers everywhere.

George S. Franklin of the Council of Foreign Relations said of Communist China:

"Only through understanding its domestic strengths and weaknesses is it possible properly to appraise the alternative courses possible for its foreign policy and its possible effect on other nations."

But it is the function of the President and the Secretary of State to conduct the foreign policy of the United States. Both Houses of Congress maintain permanent committees to monitor what the President and the State Department do.

Private citizens, have, of course, a right to a point of view, but when a private foundation hands a private society $900,000 to study "alternate courses," we have a right to suspect that this is another scheme to do a public relations job for the recognition of Red China.

We shall watch closely the names of those appointed to do the job, and, if necessary, to publish their record of prior activities.

Architects of Disaster

By Thurman Sensing

Conservatives who expect to take over in 1965 from a one-term Kennedy administration are wondering what will be left in the world when that day comes. If the New Frontiersmen continue in the next two years in the way they have thus far, the Western position of strength will be eroded to a degree horrible to contemplate.

Now is a good time to take a look at the world and size up the losses under the Kennedy administration.

The first instance of disastrous handling of foreign affairs was the Cuban fiasco. When the U. S. moved to support a free Cuban landing in 1961, the expedition could have been carried through with ease but Mr. Kennedy lost his nerve at the last moment, and air cover was removed from the liberation force—with tragic results. It would be far more difficult today to remove this cancer from the body of the Western hemisphere.

Then the Kennedy administration supported and financed the war of the U. N. "peace force" against anti-communist Katanga. For months, the U. S. State Department, in cooperation with pro-communist officials of the U. N., have been urging new measures against the one black government in Africa—Katanga—that wants to resist the Reds. At the same time, "Soapy" Williams, the AFL-CIO's former pet governor of Michigan, has been busy buttering up leftist extremists in Africa and condemning anti-communist Europeans. He has been outspoken in criticizing the Republic of South Africa, the Western bulwark at the strategic southern tip of Africa—a land of free enterprise and Christian culture. He also has been pressuring the anti-communist government of the Rhodesias, a British commonwealth country. The Rhodesians have protested that State Department aides took part in political parades and otherwise encouraged leftwing extremist groups.

In North Africa, the Kennedy administration has hailed the emergence of the Algerian rebels. It now turns out—though no liberal spokesman saw fit to mention it six months ago—that the rebels are armed with Soviet weapons and are admirers of Red China. So now the anti-communist countries of Europe are flanked by a Red Algeria ruled by a politbureau on the Soviet model. How long will it be before Russian missiles are emplaced in Algeria—and in Cuba for that matter?

In South America, the Kennedy administration has made a mess of affairs. The anti-communist government of Gustemala has been given the cold-shoulder. And when anti-communist Peruvians acted to prevent rule of their country by a notorious leftwing party (with a long record of crooked election practices), the Kennedy administration cut off all assistance. Meanwhile, the administration pulled out all the stops in urging financial support

State's Own

(Reprinted from RICHMOND (Va.) NEWS LEADER)

Within a few days the Senate will be asked for its advice and consent on President Kennedy's nomination of Foy D. Kohler as our ambassador to Moscow. The appointment fits a new familiar pattern. Until Llewellyn E. Thompson, an exceptional man, was appointed five years ago, the post had been filled by a succession of what are now known as "sophisticated" men -- Charles E. Bohlen, Averell Harriman, George Kennan.

What of Mr. Kohler? He is "sophisticated" too. He was coordinator for Khrushchev's American tour, and for Mr. Kennedy's ill-fated trip to Geneva. As Assistant Secretary of State for European affairs he was the architect of the dilatory policy that the Reds had a de facto right to build the Wall in Berlin. He was also in charge of keeping the Netherlands and Portugal under control while we divested them of their overseas territories. He served as a U.S. delegate to the UN planning conference in San Francisco in 1945; First Secretary in our Moscow Embassy in 1947; Director of the Voice of America, 1949.

But unhappily, the only time Mr. Kohler really broke into print was in 1952, when he was a member of Dean Acheson's top-level policy planning staff. On the night of December 8, Mr. Kohler and his wife attended a party in Alexandria. It was not a tea party, and as occasionally happens after parties which are not tea parties, the Kohlers tried vainly to climb a telephone pole with their automobile. The Kohlers were undamaged, and so were the top-secret documents that he had taken to the party.

There was nothing especially sinister in the event. Secret documents may not be removed from the State Department building except for conferences, and then only when they are signed out. Nevertheless officials frequently sneak them home for study, at their own risk. Mr. Kohler went partying with papers on the developing Moroccan crisis -- the riots fomented that December by the Irving Brown-George Meany Union of Moroccan Workers. The fact that nothing happened to the documents while he was intoxicated and when the car crashed was not his fault.

For his indiscretion, Mr. Kohler was suspended (for a month) and banished to the American embassy in Turkey by the new Secretary of State, John Foster Dulles. He has now percolated to the top again. We have seen it happen before with the Rubottoms and the Wielands; the State Department takes care of its own.

(Editor's note: Mr. Kohler's appointment as Ambassador to the Union of Soviet Socialist Republics was confirmed by the Senate on August 17. Mr. Foy D. Kohler is a member of the semi-secret organization, the Council on Foreign Relations.)

Talk of the Town

By Adras LaBorde

(Reprinted from ALEXANDRIA (La.) DAILY TOWN TALK)

THE HARD TRUTH OF HISTORY

Spurred by an editorial here some time back in which we concluded that the Socialist Party saw no need to continue as a political force because the Democrats were doing the work of the socialists, Whit W. Davis of Pineville dug up a "statement of principles" adopted at the national Socialist Party convention 50 years ago.

Here is how the statement began: "The Socialist Party of the United States declares that the capitalist system has outgrown its historical function and has become utterly incapable of meeting the problems now confronting society. We denounce this outgrown system as incompetent and corrupt and the source of unspeakable misery and suffering to the whole working class."

shoulder. And when anti-communist Peruvians acted to prevent rule of their country by a notorious leftwing party (with a long record of crooked election practices), the Kennedy administration cut off all assistance. Meanwhile, the administration pulled out all the stops in urging financial support for communist Yugoslavia and Poland. *Apparently, it is all right for a Red Algeria to be run by a military junta, but it is not all right for an anti-communist military junta to prevent Red control in Peru.*

In Laos, the Kennedy administration has agreed to rule by neutralists who front for communists. Across the border in South Vietnam, the administration is making a great show of resistance by spending vast sums of money. But U. S. forces sent to South Vietnam are not allowed to follow the Viet Cong enemy to the sources of supply. Again, as in Korea, the communists are enjoying a privileged sanctuary. Is it surprising that the Chinese Reds regard America as a paper tiger?

The latest Kennedy administration betrayal is in West New Guinea. The Dutch—a NATO ally of the United States—were pressured by the State Department into accepting surrender of that territory to the pro-communist Indonesian government. The face-saving device of a temporary turnover of authority to the U. N. was permitted. The Papuans, natives of the island, are simply handed over to the Indonesians the way Neville Chamberlain handed over the innocent Czechs to Hitler in 1938.

The New Frontier has written an ugly record of appeasement, withdrawal and betrayal across the face of the globe. Anti-communists everywhere have been abandoned or openly attacked. But the really tragic betrayal is the betrayal of American interests. The retreat ordered by the Kennedy administration is turning into a rout. It is bringing terrible danger to the American people; the administration must be held responsible.

Supreme Court Logic

(Reprinted from LA CROSSE TIMES REVIEW)

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. In this cause we beg the blessings of Divine Providence upon us and upon our Country."

That is the "new" prayer approved by the Lindenhurst, L.I., Board of Education, which prayer will be used by Lindenhurst public schools to replace the Regents-composed, nonsectarian prayer that was banned from New York State schools by the U.S. Supreme Court.

School board officials said the passage had been proposed as a substitute several months ago "in the event the prayer was abolished."

A legal aide of the State Department of Education said he thought the board's action was "within the provision of what the Supreme Court says."

"However," he added, "the wording comes awfully close to that in the Regents' prayer, and I would hesitate to rule on the particular question (its constitutionality)."

Incidentally, what of this prayer? It is the two sentences taken from he beginning of the Declaration of Independence - composed by the Founders of our Constitution! But some of the "nine old men" on the Supreme Court may be able to do the "twist" somehow and declare the Declaration of Independence unconstitutional!

Parity with Reds

If our nation wanted to achieve a miserable sort of economic pari-

Here is how the statement began: "The Socialist Party of the United States declares that the capitalist system has outgrown its historical function and has become utterly incapable of meeting the problems now confronting society. We denounce this outgrown system as incompetent and corrupt and the source of unspeakable misery and suffering to the whole working class."

Those who argue, with full propriety, that socialism is the next step to communism will find grist for their point of view in such a statement. Certainly this socialist declaration is almost verbatim the line being spewed by communists today.

Then there is this sentence, which in 1912 may have sounded up-to-date but which unquestionably is truer today: "The high cost of living is felt in every home. Millions of workers have seen the purchasing power of their wages decrease until life has become a desperate battle for mere existence."

* * * *

THEY CAN'T BLAME 'CAPITALISM'

The socialists who attended the 1912 convention and are still around find much about which to crow in this morsel from the party's declaration:

"The farmers in every state are plundered by the increasing prices exacted for tools and machinery, and by extortionate rents, freight rates, and storage charges."

The farmers may still be "plundered" today by these high costs, but there has been a major change — and one which should fit the socialist pattern to a T: The government has intervened, so that the high storage costs, at least, are paid by all Americans. Agriculture is now a regimented business, with the government controlling acreages and subsidizing prices.

But it is the drift toward socialism — and not the "decadent capitalism" which the socialists decried in 1912 — that has put the farmer into a strait-jacket.

* * * *

GROWTH OF THE PLUTOCRACY

Further down, the Socialist Party declared half a century ago: "Nor has this plutocracy been seriously restrained or even threatened by any Republican or Democratic executive. It has continued to grow in power and insolence alike under the administrations of Cleveland, McKinley, Roosevelt and Taft."

What would the socialists say today about the growth of the plutocracy under Roosevelt and Truman and Eisenhower and Kennedy?

Only they would have to admit that the plutocracy has become a bureaucracy whose growth was the greatest — and the most alarming — under presidents who wore the label of Democrat but who yet administered the affairs of the nation almost entirely in consonance with the views of the socialists of 1912.

* * * *

'COLLECTIVE OWNERSHIP'

Let us look now at the Socialist Party platform of 50 years ago. It will not be necessary to point out to what extent both Democratic and Republican administrations since then have implimented it:

1. Collective ownership and management of railroads, communications . . .

2. Immediate acquirement by municipalities, states, or the federal government of grain elevators, stockyards, storage warehouses . . .

3. Extension of the public domain to include mines, quarries, oil wells, forests and water power.

4. Collective ownership of land wherever practicable . . .

5. Collective ownership of the banking and currency system.

"Collective ownership" as such has not been consummated, except in the case of certain "grain elevators, storage warehouses" and some "oil wells" and land. But the rapid growth of government control of virtually every enterprise enumerated above has achieved much of the socialists' goal.

Supreme Court Logic

(Reprinted from LA CROSSE TIMES REVIEW)

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. In this cause we beg the blessings of Divine Providence upon us and upon our Country."

That is the "new" prayer approved by the Lindenhurst, L.I., Board of Education, which prayer will be used by Lindenhurst public schools to replace the Regents-composed, nonsectarian prayer that was banned from New York State schools by the U.S. Supreme Court.

School board officials said the passage had been proposed as a substitute several months ago "in the event the prayer was abolished."

A legal aide of the State Department of Education said he thought the board's action was "within the provision of what the Supreme Court says."

"However," he added, "the wording comes awfully close to that in the Regents' prayer, and I would hesitate to rule on the particular question (its constitutionality)."

Incidentally, what of this prayer? It is the two sentences taken from he beginning of the Declaration of Independence - composed by the Founders of our Constitution! But some of the "nine old men" on the Supreme Court may be able to do the "twist" somehow and declare the Declaration of Independence unconstitutional!

Parity with Reds

If our nation wanted to achieve a miserable sort of economic parity with the Soviet system, it would be necessary to dismantle over half our steel capacity, abandon two-thirds of our petroleum capacity, destroy two of every three hydro-electric plants, rip up 14 of every 15 miles of our paved highways and two of every three miles of mainline railroad tracks. And we'd have to scrap 19 out of every 20 cars and trucks, put about 60 million of our people back on the farm, tear out nine of every 10 telephones, pull down seven out of every 10 houses and cut our general standard of living by three-fourths. Oh, yes, and destroy 40 million TV sets.

....In Moscow the motto is "Better Red then fed". In Washington, where there is so much pressure to supply food to Communist governments, Yugoslavia, Poland, etc., their motto seems to be "Better Fed Reds".

by extortionate rents, freight rates, and storage charges."

The farmers may still be "plundered" today by these high costs, but there has been a major change — and one which should fit the socialist pattern to a T: The government has intervened, so that the high storage costs, at least, are paid by all Americans. Agriculture is now a regimented business, with the government controlling acreages and subsidizing prices.

But it is the drift toward socialism — and not the "decadent capitalism" which the socialists decried in 1912 — that has put the farmer into a strait-jacket.

"Collective ownership" as such has not been consummated, except in the case of certain "grain elevators, storage warehouses" and some "oil wells" and land. But the rapid growth of government control of virtually every enterprise enumerated above has achieved much of the socialists' goal.

WORLD OPINION

World opinion is invoked by political paltroons and hedgers in this country whenever it is suggested that the United States should actively and effectively resent insult and affront to its sovereignty and dignity abroad or protect its investments from confiscation by the revolutionary practice of thuggee in adjacent banana republics. World opinion is the bogey constantly raised to intimidate the United States and prevent it from conduct becoming an independent, powerful and resolute nation with rights and privileges of its own in a world that has largely succumbed to barbarism.

How the House Voted on Aid to Communist Countries

On July 24, the House of Representatives, by a roll call vote of 221-162, gave final Congressional approval to Kennedy's $4.6 billion Foreign Aid Authorization Bill. The vote was on adoption of the Senate-House Conference Report.

After a great deal of backing and filling, the House bowed meekly to White House pressure and voted to give the President discretionary authority to give Foreign Aid to Communist countries.

Speaking on the floor of the House, Congressman Bruce Alger of Texas, in opposing adoption of the Foreign Aid Conference Report, stated in regard to sending Foreign Aid to Communist countries:

> "The people of the satellite countries did not accept Communist domination by popular vote in a free election of choice. The money we give them is used by their Communist governments to tighten the noose about the necks of the people -- to strengthen the dictatorship, respectively, and reduce the people's opportunity or possibility to revolt and throw out the oppressors -- the Communist Party and its dictatorial leaders. Shame on us for aiding the dictators and Communism -- our deadly enemies!"

In discussing the discretionary authority given the President regarding aid to Communist countries, Congressman John Rousselot of California stated:

> "There has been a great deal of talk in the House and in the Senate concerning discretionary power for the President to give aid to Communist countries. I am absolutely opposed to this concept. I do not believe we can buy the friendship of Communist countries, or make them less Communist by giving them money. All the Foreign Aid money that we have poured into Yugoslavia and Poland has not made those countries any less dependent on the Communist motherland, Russia, or drawn them any closer to the free world, especially the United States."

And then Congressman Rousselot continued:

> "It has been pointed out in the debate by the distinguished gentleman from Indiana (Mr. Adair) that the State Department and the Agency for International Development already anticipates giving some $10 million to Yugoslavia. Thus the discretionary power that S. 2996 (as embodied in the Conference Report) gives to the Executive branch will probably be misused."

In opposing the Foreign Aid Conference Report, Congressman Bruce Alger also stated:

> "The Constitution defines treason as aid to the enemy, and prohibits treason. How tragic that some Members of Congress do not correctly construe the Constitution. We are aiding the enemy and giving aid to Communists."

As stated above, the 1962 Foreign Aid Conference Report was adopted by a vote of 221-162. It is interesting to note that adoption of a similar Foreign Aid Conference Report containing provisions for aid to Communist countries passed by a vote of 260-132 in 1961. Thus it is seen that although Congress again "aided the enemy" by adopting this Conference Report, the ranks of the proponents of such aid in 1962 were reduced by 29 votes; whereas opponents of such aid gained 30 votes. This, then, presents a clear reflection of the fact that at least 30 additional Congressmen are beginning to listen to "the folks back home." Should such increasing opposition to Foreign Aid be manifest each year, the America-destroying Foreign Aid program could be defeated in the near future.

Although the Right Wing of the Republican Party loudly proclaims how Conservative it is, an analysis of the vote on adoption of the Foreign Aid Conference Report shows that not only was the battle on the House floor in favor of aid to Red countries led by such prominent Republicans as Minority Leader Charles Halleck and Walter Judd, self-proclaimed anti-Communist, but 59 Republicans meekly bowed to presidential pressure and rubber-stamped the Kennedy Administration bill.

On the other hand, 65 Democrats and 97 Republicans opposed aid to Red countries.

If the 58 Republicans who voted for the bill had, instead, voted against the bill, the Foreign Aid bill including aid to Communist countries would have been DEFEATED by a vote of 220-163! Therefore, in essence, it was the Republicans who gave Kennedy his

Although the Right Wing of the Republican Party loudly proclaims how Conservative it is, an analysis of the vote on adoption of the Foreign Aid Conference Report shows that not only was the battle on the House floor in favor of aid to Red countries led by such prominent Republicans as Minority Leader Charles Halleck and Walter Judd, self-proclaimed anti-Communist, but 59 Republicans meekly bowed to presidential pressure and rubber-stamped the Kennedy Administration bill.

On the other hand, 65 Democrats and 97 Republicans opposed aid to Red countries.

If the 58 Republicans who voted for the bill had, instead, voted against the bill, the Foreign Aid bill including aid to Communist countries would have been DEFEATED by a vote of 220-163! Therefore, in essence, it was the Republicans who gave Kennedy his "aid-the-enemy" victory.

Below, as taken from the CONGRESSIONAL RECORD of July 24, is the roll call vote on adoption of the Foreign Aid Conference Report. Every Congressman who voted in favor of this bill, which permits the sending of Foreign Aid to Communist countries, should be defeated for re-election in November, 1962.

(See tabulation of votes in next column.)

Until further notice:

Mr. St. Germain with Mr. Dominick.

Mr. Loser with Mr. Norblad.

Mr. King of Utah with Mr. Scherer.

Mr. Yates with Mr. Moorehead of Ohio.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

TOP BRAZILIAN OFFICIALS ENJOY RED HONEYMOON

By DR. FERNANDO PENABAZ

(Reprinted from FT. LAUDERDALE NEWS)

WHILE ENJOYING the benefits of huge donations of American dollars from the "Alliance for Progress Program" and other United States credit institutions, top Brazilian officials are enjoying a veritable honeymoon with Red Poland.

At a brilliant reception offered by the Polish government in Warsaw, Brazilian Foreign Affairs Minister Santiago Dantas glowingly said, "Brazil and Poland are united because they firmly believe in the victory of peaceful co-existence," then humbly added, "Brazil has a debt with Poland because of the many Poles who emigrated to our country and helped build it."

Observers in Warsaw claim the reception given to the visiting Brazilian minister far outshone those accorded in recent years to representatives of other foreign countries.

Dantas was received at the airport by his Polish counterpart, Adam Rapacki. Among those gathered to greet Dantas was Red China's ambassador to Poland, Wang Pin Nang. This was rather unusual, since Brazil still maintains diplomatic relations with Chiang Kai-shek's

One of the neatest deals of this sort is an arrangement which has been made for the purchase of steel goods. The United States loaned Poland money to build the plant which produces the steel. The United States loans Brazil dollars to buy the steel from Poland. The United States taxpayer gets nothing and communism continues to wax fat and powerful.

★ ★ ★

Transactions of this kind simply cannot be understood by non-Americans. Trying to understand such arrangements is beyond the scope of the average Latin American mind.

Anti-United States propagandists claim it is part of "capitalism's sinister plot to enslave the world." Naturally, their reasoning doesn't hold water, but neither do the many other obvious lies they constantly mouth with great success throughout the world.

Those who fear for the integrity of the United States believe the constant giving away of its wealth to its avowed enemies will bring about its inevitable downfall. No other nation in the history of mankind has

WHILE ENJOYING the benefits of huge donations of American dollars from the "Alliance for Progress Program" and other United States credit institutions, top Brazilian officials are enjoying a veritable honeymoon with Red Poland.

At a brilliant reception offered by the Polish government in Warsaw, Brazilian Foreign Affairs Minister Santiago Dantas glowingly said, "Brazil and Poland are united because they firmly believe in the victory of peaceful co-existence," then humbly added, "Brazil has a debt with Poland because of the many Poles who emigrated to our country and helped build it."

Observers in Warsaw claim the reception given to the visiting Brazilian minister far outshone those accorded in recent years to representatives of other foreign countries.

Dantas was received at the airport by his Polish counterpart, Adam Rapacki. Among those gathered to greet Dantas was Red China's ambassador to Poland, Wang Pin Nang. This was rather unusual, since Brazil still maintains diplomatic relations with Chiang Kai-shek's Nationalist China regime.

During Janio Quadro's short term of office arrangements were made for Brazil to purchase millions of dollars worth of goods from Poland.

Incidentally, these goods include steel plates, airplane parts and many other items easily acquired in the United States, but the Brazilians prefer using their American dollars in non-American markets. It is felt that in this manner they will please the Polish Communist regime and that United States opinion will maintain its usual dormant state.

One of the neatest deals of this sort is an arrangement which has been made for the purchase of steel goods. The United States loaned Poland money to build the plant which produces the steel. The United States loans Brazil dollars to buy the steel from Poland. The United States taxpayer gets nothing and communism continues to wax fat and powerful.

★ ★ ★

Transactions of this kind simply cannot be understood by non-Americans. Trying to understand such arrangements is beyond the scope of the average Latin American mind.

Anti-United States propagandists claim it is part of "capitalism's sinister plot to enslave the world." Naturally, their reasoning doesn't hold water, but neither do the many other obvious lies they constantly mouth with great success throughout the world.

Those who fear for the integrity of the United States believe the constant giving away of its wealth to its avowed enemies will bring about its inevitable downfall. No other nation in the history of mankind has ever wasted its substance the way the United States has during the last, 20 years.

To anyone with just a minute grain of sense it must be obvious that during this period, that is, the period in which the largest amount of United States funds have been handed out to unfriendly nations, communism has managed to take over almost two-thirds of the world's population.

It is interesting to observe the founding fathers of the United States defined treason as giving "aid and comfort to the enemy."

Dominick [illegible] St. Germain

So the conference report was agreed to.

The Clerk announced the following pairs:

Just make your check out to The Independent American, P. O. Box 4223, New Orleans 18, La.

Feathers

Last year the Federal Government was billed $81,272 for storing tons of goose and duck feathers in its stockpile.

You may think that $81,272 is not a very sizable sum of money when measured in terms of other government spending. However, ponder the fact that the sum is equivalent to Federal income taxes taken from 246 married men with two children earning $4,500 a year.

That's where your money goes -- not to buy the babies' clothes.

WHO'S NEGATIVE?

Occasionally, friends ask me if it is frustrating or tiresome to vote 'No' on so many of the administration's spending requests. My answer to this is that it is not a negative approach to be in favor of fiscal responsibility, to ask for a balanced budget, to protect the people's money. I believe the persons who are truly negative in their thinking are those who would be wildly liberal and radical with someone else's money.

--Congressman Richard Roudebush

SUPPORT THESE CONSE

Florida | Arkansas | Washington | South Carolina | U

Fred Kibbe

Frederic A. Kibbe of Fort Lauderdale, Florida, is running as a Conservative Republican in the 6th Congressional District of Florida. This sprawling district covers seven large counties containing 750,000 people, one of the largest districts in the United States.

Fred Kibbe says, "Unless we elect Conservatives to the House of Representatives in sufficient number in 1962 in order to prevent the New Frontier from bringing our economy into a Socialist pattern, our form of Constitutional representative government, as we now know it, has little chance of survival."

Kibbe is a retired Colonel and reports that he has set up his own Congressional District organization. His literature reflects a high degree of professionalism, including credentials for campaign workers, newsletters to his organizational leaders and aggressive promotion at all levels.

Kibbe is opposing Democrat incumbent Paul G. Rogers, who has a 60% pro-Communist, pro-Socialist voting record, according to the CSA Voting Index.

Rogers voted for Disarmament, for the Peace Corps and for Cultural Exchange with the Russians. Rogers also voted to finance the criminal war in the

Dr. Ken Jones

The amazing amount of opposition to Fulbright expressed in the recent Democrat primary, has given the Republican candidate for Senator Fulbright's seat a reason to believe that the growing Conservative strength in Arkansas can result in his election to the U. S. Senate. Dr. Kenneth G. Jones of Little Rock is the Republican nominee. The Little Rock doctor is the son of District Judge Gus W. Jones.

Fulbright has occupied the Senate seat from Arkansas since 1944. Doctor Jones is an articulate spokesman for the principles of Conservatism. He says, "There is a definite resurgence throughout the nation for government under the Constitution of the United States, and for a return to economically sound financial policies." Dr. Jones calls Fulbright a "devotee of global welfare."

Conservatives are urged to volunteer their services to Dr. Jones, who lives at 38 Wingate Drive, Little Rock, Arkansas.

enslaved by the Communist Russians. Kibbe is opposed to Foreign Aid and suggests that we withdraw from the United Nations because it endangers our national sovereignty. He is for reduction of the national debt and a tax reform program, which would get the government out of tax subsidized com-

Bill Stinson

In the State of Washington, THE INDEPENDENT AMERICAN is supporting two outstanding Americans. Bill Stinson in the 7th Congressional District is running a strong race based on a platform of Conservative principles. Stinson says: "Let's stop the Foreign Aid Giveaway," and be very selective in the field of technical assistance. Stinson says: "Our goal should be victory over Communism" and that freedom and sovereignty must return to those nations enslaved by the Communist conspiracy. He also believes that we should stop trading with the Communist enemy. Stinson is for local control of education, a balanced budget and reduced taxes by getting the Government out of competition with private enterprise.

THE INDEPENDENT AMERICAN suggests that you volunteer your services to Stinson for Congress Committee at the Securities Building in Seattle. Telephone number MUtual 2-5377.

W.D. Workman

W. D. Workman, the author of the definitive book, "CASE FOR THE SOUTH", a nationally syndicated columnist in 43 newspapers, and one of South Carolina's best known newspaper men, stands an excellent chance of winning the seat in the U.S. Senate in South Carolina in the November elections. His campaign literature reflects that he is a consistent, full-time Conservative and has been for 25 years.

Workman is running against Senator Olin D. Johnston, who has a 67% pro-Socialist voting record according to the CSA Voting Index. In one area, Johnston showed a remarkable lack of judgment when he voted for the Disarmament bill. On the basis of this vote alone, Sen. Johnston shows a softness toward Communism, which if it is properly exploited, can become a major campaign issue. The rest of his voting record indicates that he is a thoroughgoing New Dealer when he votes for such things as Area Redevelopment, Federal Educational TV, Federal Housing and Urban Renewal.

We urge our Conservative friends in South Carolina to volunteer their time and efforts to Bill Workman, the consistent Conservative. The "Workman for Senator Committee" has an office at 2303 Devine

dentials for campaign workers, newsletters to his organizational leaders and aggressive promotion at all levels.

Kibbe is opposing Democrat incumbent Paul G. Rogers, who has a 60% pro-Communist, pro-Socialist voting record, according to the CSA Voting Index.

Rogers voted for Disarmament, for the Peace Corps and for Cultural Exchange with the Russians. Rogers also voted to finance the criminal war in the Congo against anti-Communist Tshombe, and indicated his anti-business attitude by voting to extend the Transportation and Telephone Tax. Rogers also voted for a variety of domestic Socialist measures in line with the wishes of the New Frontier.

Fred Kibbe wishes to enforce the Monroe Doctrine in order to get the Communists out of Cuba, and is pledged to work for the freedom of other nations enslaved by the Communist Russians. Kibbe is opposed to Foreign Aid and suggests that we withdraw from the United Nations because it endangers our national sovereignty. He is for reduction of the national debt and a tax reform program which would get the government out of tax subsidized competition with private business. He is for States Rights and favors less federal Government at all levels.

We urge all Conservatives in Florida, regardless of party affiliation, to contact your nearest Kibbe headquarters, or volunteer your services by writing to P. O. Box 4066, Fort Lauderdale, Florida. Telephone: 566-7479

Conservatives are urged to volunteer their services to Dr. Jones, who lives at 38 Wingate Drive, Little Rock, Arkansas.

Support These California Conservatives

Of course, THE INDEPENDENT AMERICAN and the Conservative Society of America are supporting the following incumbent Conservative Republicans in California:

		Conservative Rating
Congressman	Edgard W. Hiestand	97%
Congressman	Glenard P. Lipscomb	74%
Congressman	John H. Rousselot	89%
Congressman	H. Allen Smith	95%
Congressman	James B. Utt	100%

The percentage following each name indicates their Conservative voting rating according to the CSA Voting Index. We are not exactly proud of Lipscomb's voting record, which is slightly tainted with Socialism but perhaps California Conservatives will let Lipscomb know how they feel about his 26% pro-Socialist voting record.

....Beware of the fellow who says, "I'm against Communism, but. . ." Trust the man who says, "I'm against Communism, therefore. . ."

R.G. Christensen

The leading contender for the Republican nomination in Washington State to the U.S. Senate is Richard G. Christensen. Christensen is an ordained minister of the United Lutheran Church, and has shown great talent as an organizer.

Dick Christensen contends that the Federal Government should not interfere with State and local problems. He is for sound economy, a balanced budget and a free enterprise system. He says that excessive taxes are the result of a burdensome bureaucracy.

"The system of free enterprise places the economic strength of our nation in the hands of the people, and thus becomes a bastion against Socialism and the threat of Communism," according to Christensen.

Contact your nearest "Christensen for U.S. Senator Headquarters," or 308 Orpheum Building, Seattle, Washington.

come a major campaign issue. The rest of his voting record indicates that he is a thoroughgoing New Dealer when he votes for such things as Area Redevelopment, Federal Educational TV, Federal Housing and Urban Renewal.

We urge our Conservative friends in South Carolina to volunteer their time and efforts to Bill Workman, the consistent Conservative. The "Workman for Senator Committee" has an office at 2303 Devine Street, Columbia, South Carolina. Telephone number AL 2-8255.

Florida

ROBERT PETERSON OPPOSES PEPPER

The specter of Claude Pepper being again offered a nationwide platform from which to promote his soft-on-communism line, is serving to bring all Conservatives in Miami, Florida, to the realization that they must elect anti-Communist Robert Peterson to the Congress.

Peterson is president of the Greater Miami Crime Commission, a director of the Miami Beach Taxpayers Association, and was a former FBI special agent during World War II.

We urge all of our Conservative friends in Miami to support Robert Peterson in his race against Claude Pepper.

4 Ex-Governors Run for Senate

J. Bracken Lee, Mayor of Salt Lake City, told THE INDEPENDENT AMERICAN in a recent telephone interview that the Western States have an opportunity to send four former Governors to the U.S. Senate. Bracken Lee mentioned that all of these men were Governors of their respective States when he was Governor of Utah.

Upon the recommendation of former Governor Lee, who is himself a candidate for the U. S. Senate, THE INDEPENDENT AMERICAN recommends that the Conservatives in Nevada support Bill Wright for the U. S. Senate. Millard Simpson of

The Defeatism Gambit

POLITICS being politics, it is not surprising that Sen. Johnston's supporters are pressing hard along the line that W. D. Workman hasn't a chance to win the senatorial election next November.

Variations on the "can't win" theme are heard throughout the ranks of the party faithful. Even some individuals and newspapers that should know better are echoing Sen. Johnston's campaign managers.

THE OBJECTIVE of the "can't win" chorus is to induce a feeling of defeatism among conservative voters and get them to the point where they say, "Oh, what's the use of working—Olin has it wrapped up."

WELL, OLIN Johnston has the general election wrapped up as much as State Sen. Edgar Brown had in 1954 against Strom Thurmond.

The same crowd that thought Edgar Brown was going to the U. S. Senate now is insisting that Olin Johnston will be returned to office.

The same people who said Strom Thurmond couldn't win in a write-in campaign, who laughed at the idea of such a thing, are now saying that Bill Workman won't get more than 25 or 30 per cent of the vote.

THOSE WHO SAID it couldn't be done in the Thurmond write-in campaign are hoping to kill the Workman campaign before it even begins. But their chances of doing that are no better than were their chances of squashing a conservative vote in the Thurmond - Brown election.

ACTUALLY, instead of facing an impossible situation, Workman has an ideal situation. If Gov. Hollings had been his Democratic opponent, the conservative vote would have been split. But now the voters have a clear-cut choice between a liberal and a conservative, between pro-Kennedy and anti-Kennedy candidates.

MAKE NO MISTAKE what is the central issue of the general election. It is the Kennedy administration.

For the first time since the presidential election, South Carolinians will have an opportunity to register a protest against the New Frontier.

A vote for Johnston will be a vote for the New Frontier—for Bobby Kennedy, Arthur Schlesinger Jr., Walt Rostow, "Soapy" Williams, Dean Rusk, McGeorge Bundy, Averell Harriman — the entire crew that's wrecking the country.

IF ANYONE IMAGINES that there isn't a whopping vote waiting for a conservative who vows to fight the Kennedy New Frontier, then he hasn't spent much time recently in South Carolina.

The real political miracle will be if Olin D. Johnston can overcome the opposition of South Carolinians who hold that the Kennedy administration is bad news for America.

Thousands of conservatives are ready to work night and day to defeat Olin Johnston, symbol and spokesman of the Kennedy administration in this state.

There will be at least one more issue of THE INDEPENDENT AMERICAN prior to November. Conservative candidates are urged to send their picture, platform and other campaign literature to THE INDEPENDENT AMERICAN if they wish to be included in future issues of this newspaper.

ERVATIVE CANDIDATES

Utah

Massachusetts

CALIFORNIA

J. Bracken Lee

J. Bracken Lee, former Governor of Utah and mayor of Utah's largest municipality, Salt Lake City, is one of the two Republicans nominated for the U.S. Senate.

On September 11, voters in Utah will go to the polls in a primary election to select the Democrat and the Republican nominees for the U.S. Senate. In the Republican Party in Utah there are two candidates, the incumbent Senator, Wallace Bennett, and J. Bracken Lee, Mayor of Salt Lake City.

Senator Bennett professes to be a Conservative and, indeed, his rating in the CSA Voting Index covering the 1961 Session of Congress is 75% Conservative. However, the character of the legislation on which he voted Liberal in 1961 points up the fact that Senator Bennett could easily revert to his voting pattern of 1960, for which he received a rating of only 38% Conservative - or 62% Liberal-Socialist -- as tabulated in THE INDEPENDENT AMERICAN of September-October, 1960. It would appear that Senator Wallace Bennett becomes quite Conservative as the time for re-election approaches.

During the 1961 Session of Congress, Senator Bennett voted to establish the Organ-

Stanley Wallant

Stanley Wallant of Brockton, Massachusetts is an independent candidate for Congress in the 11th Congressional District. He is opposing incumbent James A. Burke, Democrat, who has a 100% pro-Socialist, pro-Communist voting record according to the CSA Voting Index. If Mr. Stanely Wallant could merely bring the voting record of Congressman Burke to the attention of the people of the Eleventh Congressional District, he should be able to win the election.

Mr. Wallant says that he fully endorses the principles of the Conservative Society of America, and is running his campaign based on these principles.

California

Arthur Young

Arthur L. Young is running for Congress in California's

Steve Foote

Steve Foote, who is running for Congress from the 2nd Congressional District of California, has put out a colorful tabloid newspaper entitled "CONGRESS DIGEST."

It is an excellent piece of campaign material giving full coverage to Steve Foote's campaign, showing pictures of the crowds in his headquarters, another picture showing Steve Foote and his campaign chairman, Walter Brennan, the movie star, looking over some literature.

Foote is a past commander of the California American Legion, and has participated for several years in civic and community activites. He saw service with the Seabees in Okinawa, Saipan and the North Atlantic.

Steve Foote is opposing a Democrat, James Corman, who has a 100% pro-Socialist, pro-Communist voting record, according to the CSA Voting Index.

We urge all conservatives in the 22nd District of California to volunteer their services to Charles S. (Steve) Foote. His headquarters is at 7044 Reseda Blvd., Reseda, California. Telephone: DI 5-1397

BILL RICHARDSON

As we pointed out in the May issue of THE INDEPENDENT AMERICAN, H. L. (Bill) Richardson, is an outstanding Conservative, who won the Republican Party nomination in the 29th Congressional District of California.

Bill Richardson is running on a platform, which closely parallels that of the Conservative Society of America.

We trust that all Conservatives in California will do what they can to help elect H.L. (Bill) Richardson to the Congress. Please volunteer your services to H.L. (Bill) Richardson at his headquarters, 5354 Huntington Drive, Los Angeles, California.

Calif. Senate Race Features

Howard Jarvis Write-In

Howard Jarvis is continuing his fight to give the voters of California a significant choice

the American workers. By voting for OECD, Kuchel in fact turned over the control of the

would appear that Senator Wallace Bennett becomes quite Conservative as the time for re-election approaches.

During the 1961 Session of Congress, Senator Bennett voted to establish the Organization for Economic Cooperation and Development (OECD), which was a basic, preliminary step to put America's trade policy in the hands of foreigners and make Foreign Aid a permanent part of America's foreign policy. Bennett voted Liberal on the Federal Unemployment Compensation Act. He voted for Cultural Exchange with the Soviet Union, which J. Edgar Hoover has characterized as free U.S.-paid tours of America for the benefit of Russian spies.

On the other hand, Bracken Lee is known throughout the country as an uncompromising Conservative whose fearless stand for Americanism has included the entire span of his years in public office, both as Former Governor of the State of Utah, and in his present position as Mayor of Salt Lake City.

The CSA is honored to have J. Bracken Lee, fighting American, on its National Advisory Board.

Should Bracken Lee defeat Senator Bennett for the Republican nomination for the Senate in the September 11 primaries, Bracken Lee, as the Republican nominee, will face the Democrat nominee for the Senate, probably David S. King, who is presently serving as a Congressman from Utah. Bracken Lee's defeat of Senator Wallace Bennett for the Republican nomination to the Senate on September 11 will be a tremendous victory for the non-compromising type of Conservatism that Bracken Lee so ably represents.

"Lee for Senator Headquarters" are located at 350 South Main Street, Salt Lake City. Those who wish to contribute to J. Bracken Lee's campaign may send checks to P.O. Box 32, Salt Lake City 10, Utah.

Arthur Young

Arthur L. Young is running for Congress in California's 15th Congressional District. He is for outlawing Communism, drastic reductions in Foreign Aid, reduced federal spending, elimination of deficit spending, for liberated agriculture, and he supports the Connally Amendment.

Art Young is a successful businessman and past State Vice-Commander of the American Legion in California. He is for a dynamic free economy instead of the Socialistic controls of the New Frontier. He is for local medical care, local control of the schools and reduction of the national debt.

Every Conservative should support Candidate Art Young in his race against the incumbent, John J. McFall, who has a 100% pro-Socialist, pro-Communist voting record, according to the CSA Voting Index. THE INDEPENDENT AMERICAN is informed by Conservatives in Stockton that Congressman John J. McFall and his family have built a home and spend most of their time in Maryland. This looks to us as if McFall expects to get defeated and receive a plush appointive job in the Kennedy New Frontier, which has become a haven for all Liberal politicians, who have been repudiated by their constituents.

The Conservatives in California's 15th Congressional District are urged to support Art Young, who can be reached by mail at Box 297, Oakdale, California. His campaign telephone number is 847-2313.

What a Red Said

"From Capitalism to Communism, through the intermediary stage of Socialism that is the way American society, like society in general, is headed.

--William Z. Foster

CONSERVATIVE CANDIDATES WANTED!

THE INDEPENDENT AMERICAN supports all those Congressmen who have voting records of at least 70% Conservative, and we are opposing incumbent Congressmen regardless of party, who have not earned a passing grade in the CSA Voting Index.

We also suggest that the readers of THE INDEPENDENT AMERICAN refer to our previous issue in order to obtain additional information about candidates we are supporting.

A good general rule to follow is to compare the candidate's

Howard Jarvis Write-In

Howard Jarvis is continuing his fight to give the voters of California a significant choice when they go to the polls to vote for U. S. Senator in California in November. Howard Jarvis is appealing to Conservatives, both Democrats and Republicans, to write in his name for U. S. Senate. His campaign literature emphasizes that write-in votes are legal and they will be counted.

In this crucial Senatorial race the Democrats are offering an extreme Left-Wing Liberal, Richard Richards.

The Republican nominee is incumbent, Senator Thomas H. Kuchel, who has a 75% pro-Socialist, pro-Communist voting record according to The CSA Voting Index. In 1961 Kuchel voted for Foreign Aid to Communist countries, for disarming the United States and for Cultural Exchange with the Russians, which J. Edgar Hoover has indicated provides all expense paid tours of the United States to roving gangs of Russian espionage agents.

Demonstrating that he is not only an International Socialist, but that he is in favor of domestic Socialism as well, Kuchel voted to extend government activities in the field of Housing and Urban Renewal, Federal Aid to Education, Federal Educational TV, and extending the power of the Government in the field of unemployment compensation, which had previously been reserved to the States.

When Kuchel voted for the Organization for Economic and Co-operation Development (OECD), he showed that he had no regard for the welfare of the American workers. By voting for OECD, Kuchel in fact turned over the control of the American import and export trade to an international organization where we have but one vote. For more details concerning the dangers of OECD see Chapter 9 in the new book, AMERICA'S UNELECTED RULERS. For a more complete understanding of Kuchel's voting record, we refer you to The CSA Voting Index.

Howard Jarvis plainly states that he is against Communism, Socialism and One-worldism. Jarvis is for the independence and sovereignty of the U.S.A. Howard Jarvis is campaigning hard throughout California, and is attending breakfast, luncheon and supper meetings where each person present agrees to sign up two additional people with a pledge of $3.00 per month to the Jarvis Campaign. It takes a lot of money and a determined organization to win a campaign in California. We urge every subscriber of THE INDEPENDENT AMERICAN and every Conservative who reads this paper to volunteer his service to Howard Jarvis.

If there is not a local "Howard Jarvis for Senator Committee" in your town, why not start one today. Telephone Victory 7-1930 in Huntington Beach, California, for additional details. If you wish to send a donation to his campaign, make out your check to Howard Jarvis for Senator Committee and mail to 18381 Beach Blvd., Huntington Beach, California.

Conservatives should make it a point to write in the name of Howard Jarvis for U.S. Senator on Tuesday, November 6th.

Quiz 'Em on Basic Principles

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

The summer political season in Tennessee has gotten up a full head of steam now and candidates are setting out in earnest to gather the votes of the people for offices ranging from state legislator to Congressman.

Running through the campaign themes of many candidates for the offices are promises to give the people "more" at millions of dollars' higher costs - but few if any of the candidates have

money. Whatever government spends comes from the people. If "more" spending is provided, then the people are going to have more in taxes - sometime, somewhere, somehow.

Some of the programs for "more" may be justified and needed. Some may be just campaign come-ons. But let's ask each and every candidate two basic questions:

1. How much will what you plan to give cost above present costs?

2. Where and how will you

and make Foreign Aid a permanent part of America's foreign policy. Bennett voted Liberal on the Federal Unemployment Compensation Act. He voted for Cultural Exchange with the Soviet Union, which J. Edgar Hoover has characterized as free U.S.-paid tours of America for the benefit of Russian spies.

On the other hand, Bracken Lee is known throughout the country as an uncompromising Conservative whose fearless stand for Americanism has included the entire span of his years in public office, both as Former Governor of the State of Utah, and in his present position as Mayor of Salt Lake City.

The CSA is honored to have J. Bracken Lee, fighting American, on its National Advisory Board.

Should Bracken Lee defeat Senator Bennett for the Republican nomination for the Senate in the September 11 primaries, Bracken Lee, as the Republican nominee, will face the Democrat nominee for the Senate, probably David S. King, who is presently serving as a Congressman from Utah. Bracken Lee's defeat of Senator Wallace Bennett for the Republican nomination to the Senate on September 11 will be a tremendous victory for the non-compromising type of Conservatism that Bracken Lee so ably represents.

"Lee for Senator Headquarters" are located at 350 South Main Street, Salt Lake City. Those who wish to contribute to J. Bracken Lee's campaign may send checks to P.O. Box 32, Salt Lake City 10, Utah.

There may be many other Conservative candidates who deserve support and mention, but we either do not have knowledge of their campaign literature or we are holding their story for our next issue.

Quiz 'Em on Basic Principles

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

The summer political season in Tennessee has gotten up a full head of steam now and candidates are setting out in earnest to gather the votes of the people for offices ranging from state legislator to Congressman.

Running through the campaign themes of many candidates for the offices are promises to give the people "more" at millions of dollars' higher costs - but few if any of the candidates have suggested exactly how much more they propose to spend or where the money is coming from.

You may be sure that anything any politician offers and gives will not come out of his pocket or from some magical source of painlessly derived money. Whatever government spends comes from the people. If "more" spending is provided, then the people are going to have more in taxes - sometime, somewhere, somehow.

Some of the programs for "more" may be justified and needed. Some may be just campaign come-ons. But let's ask each and every candidate two basic questions:

1. How much will what you plan to give cost above present costs?

2. Where and how will you get the money?

Let's not let any candidate merely make handout promises and stop there; let's ask him the two big questions about "how much" and "where" the new taxes will be levied.

Only when we know those answers may we decide whether the politicians' promises are worthy or not.

Mr. Eisenhower Abroad

(Reprinted from CHARLESTON (S.C.) NEWS & COURIER)

Arriving in Sweden, former esident Eisenhower was ick to apologize to his hosts r critical remarks he once rected at the social side-fects of the Swedish welfare ate. He had not known what was talking about, he admitted. His retraction was sed on hearsay from friends" who presumably ew what they were talking out. Let's not bother with idence.

This socially embarrassing atter out of the way, the man ho once was President of the nited States turned his attenon to the subject of an interational university. The faculof the projected institution ould be concerned with "obective truth, purged of nationand regional bias, hatred and rejudices."

So easily do great minds solve roblems that have plagued ankind through the centuries. uman weaknesses would be left ehind by those staffing the new itadel of true learning. A man ho would distort history or soology or political science at arvard or Oxford or Heidelerg or the Sorbonne never ould do so under the auspices of a world organization. ust for power and recognion never affect the thinking these free men, nor hatred mere patriots, nor bias gainst those whose attachents remained local.

Professors everywhere must e busy applauding the former hief executive. Most American cholars probably had not reaized that their national backrounds so severely handicapped their researches. Many ust have imagined themselves ree of all petty love of country, as witness their published diatribes against American institutions and their wholehearted espousal of the United Nations and the like.

Laymen also will be surprised by implication from an educator (once president of Columbia University) that U.S. centers of higher learning are corrupted by patriotic excess. Most of us lack the academic experience and erudition that make Mr. Eisenhower perceptive in these matters. One recalls his admitted difficulty in defending the American system against the criticisim of his Soviet friend, Gen. Zhukov, a difficulty undoubtedly stemming from all too great familiarity with the shortcomings of our society as compared with that of the USSR.

Again Dwight David Eisenhower has revealed the essence of his convictions. He has pointed out the international path to truth. The same way was taken by Rosenberg, Hiss and other minions of international socialism. It was followed by the United Nations in Korea and Hungary, and now in the Katanga aggression. This also is the way of cultural relativists. They equate jungle folkway with civilized custom. To enthusiasts for world law, universal order is a goal overshadowing mere questions of liberty and individual right.

Surely U.S. citizens will not doubt the wisdom of the Conqueror of Little Rock, the Peacemaker of Korea, the U-2 Source of Sooth.

(Editor's note: Former President Eisenhower is a member in good standing of the Communist-accommodating Council on Foreign Relations.)

Is CIA Hamstringing Cuban Liberation ?

By Edith Kermit Roosevelt

The Central Intelligence Agency has set up a "controlled opposition" movement to Fidel Castro. The purpose? To insure that no genuinely effective action against Communism in Cuba ever occurs. This charge is made by Alex Rorke, Jr., New York documentary film producer and lecturer, who coordinates daring "free lance"

FOREIGN AID AIDS AFL-CIO

"The Bulletin Board of THE CONSERVATIVES," published in Savannah, Georgia, reports that Foreign Aid funds are now being used, according to the U.S. Chamber of Commerce, to help the AFL-CIO train "new type" union officers in Latin America.

A U.S. Chamber of Commerce report states:

"President Kennedy's South American program, Alliance for Progress, has granted $250,000 to the American Institute for Free Labor Development" which is described as a corporation established by the AFL-CIO two years ago when the big labor federation appropriated $20,000 from dues money to create this institute.

"The first intensive course for union professionals in American techniques of union organization and administration began in Washington last month when 42 unionists started a 3-months course. The institute plans to train up to 120 foreign union leaders a year, and hopes to establish labor centers abroad...centers in Venezuela and Jamaica have been given initial approval.

"If more American dollars are provided, the institute expects to create a department of social projects to assist Latin unions in the establishment of low-cost housing, credit unions, cooperatives and 'workers clinics'."

How "free" such AFL-CIO sponsored "labor development" will be, or how truly clinical is their approach can best be judged in the light of Hilaire duBerrier's booklet, "Labor's International Network," published by the Conservative Society of America. This booklet reveals how U.S. labor bosses use union dues to finance Socialist revolts abroad. According to the foregoing report of the U.S. Chamber of Commerce, not only union dues, but now U.S. taxpayer funds through "Alliance for Progress" Foreign Aid will be at the disposal of the AFL-CIO for such purposes.

Congressman James B. Utt of California has written the publishers commenting on the booklet "Labor's International Network," as follows:

"I read 'Labor's International Network' with a great deal of interest as well as concern. It appears to me that we are beginning to reap the harvest. Worldwide revolution seems to be centering around the international labor movement, which has a strong foothold in the so-called emerging nations. A conspiracy was planted there many years ago, and our State Department has been busy bringing the labor leaders of these new countries to America for a closer study of the labor movement.

"I am certain that most of the dues-paying members would resent this misapplication of funds as they find their way into these foreign labor unions ....

"There was so much good information in the book that I want to keep it for further reference."

Congressman Edgar W. Hiestand of California says of duBerrier's booklet:

"Mr. duBerrier is a keen observer of the international scene. He has assembled previously unrelated facts about labor unionism and the results are enlightening.

"Every American, particularly those workers in our labor movement should read this book. 'Labor's International Network' is startling -- and most revealing. It is 'must' reading for the informed American."

(Editor's note: "Labor's International Network," by Hilaire du Berrier, may be ordered from the Conservative Society of America, P. O. Box 4254, New Orleans 18, Louisiana at the following postpaid prices. 1 to 9 copies, 50¢ each; 10 to 24 copies, 45¢ each; 25 to 49 copies, 40¢ each; 50 to 99 copies, 35¢ each; 100 copies or more, 30¢ each.)

WHIZ KIDS IN THE PENTAGON

grounds so severely ... ped their researches. Many must have imagined themselves free of all petty love of country in good standing of the Communist-accommodating Council on Foreign Relations.)

Is CIA Hamstringing Cuban Liberation ?

By Edith Kermit Roosevelt

The Central Intelligence Agency has set up a "controlled opposition" movement to Fidel Castro. The purpose? To insure that no genuinely effective action against Communism in Cuba ever occurs.

This charge is made by Alex Rorke, Jr., New York documentary film producer and lecturer, who coordinates daring "free lance" raids against Cuba with Oscar Mastre, Rod Portuondo and other Cubans who took part in last year's abortive Cuban invasion.

Rorke's group, the U.S. Freedom Fighters (P.O.Box 1812, Grand Central Station, New York City) has information that out of 400 Cubans sent by CIA to Cuba in the last six months about 320 men or 80 percent have been captured and killed by Castro's police.

"These men who are being sent to an almost certain death are a trained, educated elite of potential leaders," says Rorke, a former U.S. military intelligence specialist.

Government funds are going to a few discredited Cuban exile politicians purely for "study" and "propaganda", he adds, but at the same time the CIA is planting agents in all Cuban exile groups to see to it that no military action is organized to liberate Cuba. Arms are confiscated and some of the more militant Cubans have been recruited supposedly for action in Cuba. But these Cuban patriots are forced to remain idle and isolated in military camps while every day their countrymen are murdered and the young children of Cuba deported to Soviet Russia.

The Freedom Fighters oppose the CIA policy of attempting to organize a large underground in Cuba. Large undergrounds are easily infiltrated and betrayed in a total police state. Furthermore, the CIA is giving its Cuban agents so much money compared to the average Cuban that it is little wonder that they are so easily detected by Castro's G2 when they are infiltrated into Cuba.

U.S. Freedom Fighters, on the other hand, organize "phantom cells" in Cuba, cells of from one to five persons, who carry out sabotage. Only last week, Cuban guerrillas were infiltrated in 40-foot boats by U.S. Freedom Fighters to aid rebels in the Matanzas Province.

They were sent to exploit last Fall's phantom cell operation within the province which resulted from leaflet raids by Rorke and Bill Johnson, Bill Wall, and Frank Fiorini, all of Miami.

As a result, reported Dan Brigham, Aviation Editor of the NEW YORK JOURNAL AMERICAN, Castro ordered an extra 25,000 soldiers into the Matanzas to help stamp out resistance.

(Terse radio reports from the rebels claimed a quarter of Castro's troops were wiped out en route.)

But in the last few weeks Cuban patriots and their American helpers -- many of whom are ex-military officers and college students - have been subjected to repeated harassment by our government. Boatloads of freedom fighters have been halted far out at sea turned back by the U.S. Coast Guard under State Department and CIA orders.

Angry Freedom Fighters point out that even while their boats are confiscated the Cuban ships, Fundador and Bahia de Nipe cruise the coast of Central and South America delivering weapons and Communist literature from the FLN in North Africa.

Freedom fighters don't ask for help from the United States government. They only want to be left alone to do the job of overthrowing Castro themselves. It is natural that Cuban fighters do not wish interference from Washington after the CIA's bungled invasion attempt which needlessly cost so many Cuban lives. Furthermore, the State Department only supports those Cubans they believe will accept dictation by Washington planners on the political future of Cuba.

Among the Cubans now on our government payroll are Jose Miro Cardona, who heads the State Department-backed Revolutionary Council. The State Department has also dispatched Sergio Rojas, ex-Castro Ambassador to Great Britain, on a one-year jaunt to Berlin and Israel "to study economic reconstruction."

Will State Department money and power succeed in wrecking the anti-Communist Cuban movement the way it has helped to wreck anti-Communist resistance all over the world? Typical of this ... is Don Cardwell of the Boston College Law

He has assembled previously ... ism and the results are enlightening.

"Every American, particularly those workers in our labor movement should read this book, 'Labor's International Network' is startling -- and most revealing. It is 'must' reading for the informed American."

(Editor's note: "Labor's International Network," by Hilaire du Berrier, may be ordered from the Conservative Society of America, P. O. WHIZ KIDS IN THE PENTAGON

(Reprinted from CHARLESTON (S.C.) NEWS & COURIER)

The Kennedy administration's fondness for selecting inexperienced men and giving them tremendous authority is manifested in many government departments.

When President Kennedy decided that he was going to reform Latin America, he selected Richard Goodwin, age 29, with no experience in Latin countries and no knowledge of Spanish or Portuguese. Mr. Kennedy's ambassador to Peru is James Loeb, likewise without knowledge of Latin America. The reason Mr. Loeb got the job was that he was executive secretary of Americans for Democratic Action.

It's bad enough that the State Department should be filled with men devoid of practical experience. But what Mr. Kennedy has done in the Defense Department isn't routine New Frontier folly; it is a threat to the safety of the nation.

The current issue of Time magazine contains a laudatory article on five young Defense Department officials whom it dubs, the "Whiz Kids," One of these men is 31, one is 34, two are 36, and the old man in the group is 40. The posts they hold are Deputy Controller for Systems Analyses, Principal Technical Adviser to the Secretary of Defense, Aassistant Deputy Controller for Systems Analyses, Assistant Secretary of Defense, and Deputy Secretary of Defense. The latter is Adam Yarmolinsky, a former official of the Fund For The Republic and reputed mastermind of the muzzling of anti-Communist senior officers.

These are the men -- and others like them -- who are making big decisions in U.S. defense policy. Uniformed officers, with experience in combat, have been downgraded. Harold Brown, 34, Secretary to McNamara's principal Technical Advisor, played a major role in rejecting the RS-70 reconnaissance bomber. As members of the Senate Armed Services Committee developed in hearings, Dr. Brown has no experience whatsoever in aircraft development or manufacture.

But then the entire group of "Whiz Kids" is lacking in military experience. This is no hindrance to them, however, as President Kennedy and Secretary McNamara regard their judgment as superior to the recommendations of generals and admirals who have devoted their lives to combat and professional studies.

What is happening in the Defense Department is part of the general tragedy of American government under the Kennedys. The executive branch of our government has been filled with arrogant theorists who come straight from the classroom with contempt for men of experience and tested ability.

"America's Unelected Rulers" A New Book Reviewed by E. Merrill Root

(NOTE: Professor Root is the author of "Collectivism on the Campus" and "Brainwashing in the High Schools," published by The Devin-Adair Company, 23 East 26th St., New York 10, N.Y.)

* * * * * * *

"America's Unelected Rulers" by Kent and Phoebe Courtney is one of the most important books of our day. It clarifies, with documentation and lucid objective realism, the "secret government" and explains our present stealthy descent into Socialism at home and our present stealthy surrender to Socialism abroad. Here the strange amalgam of witting agents and witless tools that is softening us up for the easy kill, is made clear and understandable.

The role of the Council on Foreign Relations in undermining America's national sovereignty, in evading the U.S. Constitution, in submerging our Constitutional Republic into a "People's Democracy" via NATO and the Atlantic Community, in making us only an adjunct or a function of a Socialist-dominated World Government, is made obvious by the words of its friends and members. Here we see that our greatest danger is not outward military attack but inward cultural subversion. Here we see that our "liberals" may deplore (or sometimes only pretend to deplore) the modes and manners of Communism, but share with the enemy the goal of collectivism.

As we read this hard-hitting yet carefully restrained and objective book, we can understand the things that are happening to us. As Virgil said, "Felix qui potuit rerum cognoscere causas" - "Happy is he who understand the causes of things" - for he can "hear unmoved the roaring of the rivers of Hell." This book enables us to understand the causes of things, and to prepare ourselves, unafraid, to hear and avoid the roaring of the rivers of Hell.

"The Establishment" - the crooked orthodoxy of "liberalism" - the prevailing conformity to the "liberal" line - seeks to coerce us both intellectually today and physically tomorrow toward a collectivist "one world" that is the substance of that terrible shadow of George Orwell's "1984." If we are finally submerged in that total nightmare, we can never say that we were not warned. Just as Hitler in "Mein Kampf" told the world his plans for collectivizing it, so here the "liberals," out of their own mouths, blue-print their political engineering. The planners who resolutely intend to reduce us to the hive and the heap are here revealed as what they are.

Every true intellectual, every genuine American, every man who would understand "the causes of things," should read this book. Like a clear inexorable alarm-clock it strikes the political hour. God grant that it may awaken all who sleep before it is too late! - for otherwise they will awaken only as chained slaves.

EDITOR'S NOTE: For a detailed outline and analysis of the key role played by the Council on Foreign Relations, buy today AMERICA'S UNELECTED RULERS by Kent and Phoebe Courtney. Price: $2.00, paperback, 177 pages, indexed. Send your order to: THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 18, La.)

Remember Pearl Harbor?

In 1941, Gen. Minoru Genda of Japan, who was then an air fleet staff officer, helped draw up the Japanese plan for the attack on Pearl Harbor.

On April 6, 1962, General Ly-man [illegible] presented the piers in Pearl Harbor Navy Yard - waters which, it is said, even to this day refuse to yield many of the burned and broken bodies and ships Gen. Genda helped to put there only twenty years earlier

Repeal the Declaration of Independence?

By Kurt Glaser

(Reprinted from THE WANDERER)

"What a weird idea," you protest. "Who in God's Country ever heard such a plan?"

The fact is: You heard it, if you listened carefully to what John F. Kennedy said at Independence Hall on July 4th. As Congressman Utt has written, the President stabbed our Nation in the back so skillfully that the patient scarcely felt it.

In words which Mr. Utt rightly calls a "cold steel shaft plunged into the heart of this Republic," Mr. Kennedy said that:

". . .the United States will be ready for a declaration of interdependence, that we will be prepared to discuss with a united Europe the ways and means of forming a concrete Atlantic partnership. . . ."

But the Grand Plan concocted by Leftist intellectuals such as Rostow, Rusk and Schlesinger and bought lock, stock and barrel by the President, goes much further than just an Atlantic partnership - however disastrous to American Labor the latter might be. Read carefully what Mr. Kennedy next said:

"Acting on our own, by ourselves, we cannot establish justice throughout the world; we cannot insure its domestic tranquility, or provide for its common defense, or promote its general welfare, or secure the blessings of liberty to ourselves and our posterity.

"But joined with other free nations, we can do all this and more... We can assist the developing nations to throw off the yoke of poverty."

The key to President Kennedy's intentions lies in the fact that his list of goals to be achieved "joined with other free nations" is copied word for word from the Preamble of the U.S. Constitution, the document which set up our National government. This is his roundabout way of saying that he plans to lead the United States into a world government, in which the American Nation will be shorn of sovereignty and reduced to a political subdivision.

The President's remarks about abolishing poverty and stimulating economic growth leave little doubt that he envisions a World Welfare State.

Professor Walt W. Rostow, who sometimes lets the cat further out of the bag than his boss, wrote in 1960 that "it is an American interest to see an end to nationhood as it has been historically defined." Rostow would substitute "federalized world organization under effective international law."

Rostow, the President's top foreign-affairs advisor, has written a policy paper so "far out" that the White House won't let Congress see it. Leaks to the press indicate that it is a blueprint for surrender - that it proposes abandoning the nations of Eastern Europe to permanent Red enslavement, letting the tyrannical Peiping dictatorship into the United Nations, and cuddling up to a "mellowed" Soviet Union.

It is clear that the United Nations, headed by the "neutralist" U Thant - now seeking Russian support for re-election as Secretary General - is to be the starting point for the new World Government. While the Kremlin openly and unabashedly uses the United Nations as a tool for gaining Communist ends, the UN policy of the United States has become one of submission to others. At Seattle last November, President Kennedy said explicitly:

"We can neither abandon nor control the international organization in which we now cast less than one percent of the General Assembly votes."

Department of State Publication 7277, containing the official disarmament plan of the Kennedy Administration, proposes disbanding the U.S. Army, Navy, and Air Force. All weapons beyond those needed for local police operations are to be transferred to the "UN Peace Force" which would be strong enough to bludgeon any member State, including our own, into absolute submission.

These public statements of the "New Frontier" reveal a plan to repeal the Declaration.

a clear inexorable alarm-clock it strikes the political hour. God grant that it may awaken all who sleep before it is too late! - for otherwise they will awaken only as chained slaves.

Uncle Sap and U N Bonds

Editorial from the Chicago Tribune

State department testimony in support of Mr. Kennedy's appeal for authority to buy 100 million dollars in United Nations bonds to tide the organization over a financial crisis arising from its military intervention in the Congo discloses this:

Without waiting for any authorization to buy bonds, the United States government has voluntarily given UN 215 million dollars from foreign aid appropriations to keep it out of bankruptcy.

Upon pocketing these American funds, the UN then voted remission of a major share of assessments against a large number of member nations for support of the Congo operation.

The effect of this was to use the American handout to subsidize numerous UN members which are either hostile to the United States or indifferent to its foreign policy goals.

The total kicked back to these nations at the expense of the American taxpayer was $11,400,800. Thus Castro's Communist Cuba was provided with a gift of $140,800 at American expense; Poland, a Soviet satellite, with $512,000; Communist Yugoslavia with $243,000, and "neutralist" India with $140,800.

Some of the beneficiaries were deadbeats which had failed to pay their assessments for [illegible] forces" in the Congo and the Gaza strip. Among them were Poland and India. Thus, in effect, they were rewarded for dodging their share of the burden.

This all but unbelievable story was confirmed in testimony before a panel of the House foreign affairs committee by Harlan Cleveland, assistant secretary of state for international affairs, who appeared in support of Mr. Kennedy's bond buying scheme. Cleveland did not volunteer the information. It was dragged out of him.

Even Democratic supporters of the Kennedy proposal were stunned. "That's enough to kill the bill right now," said Rep. Hays of Ohio. "How can we vote for this bill now?" asked Rep. Zablocki of Wisconsin.

Practices of this kind, which are on their face the height of irresponsibility, certainly should put Congress on guard not only against the bond buying device but against the whole reckless dissipation of tax money in foreign aid, for it is from this source that the money paid out by UN in gratuities to its delinquents came.

Cleveland's bland admission that the government cheerfully allows itself to be played for a patsy puts in a stranger light than ever the charade enacted last week before the World court. The United States had pressed this tribunal for an advisory opinion whether UN special assessments for the Congo were as binding upon the membership as the contributions for ordinary expenses of UN. The court decreed that they were.

This ruling was sought by the Kennedy administration as evidence that, with all members required to pay, the investment in bonds would be safe. But now we know that the UN has rewarded its deadbeats for not paying, so that the court's opinion is reduced to mere window dressing. In addition, Cleveland kept referring to the bonds as "stopgap aid." What that means is that the state department regards the bond purchase as the first drop in the bucket in a never-ending process to keep UN going, which will require, not buckets, but barrels of American cash.

(Editor's note: Harlan Cleveland, Assistant Secretary of State for International Affairs, is a member of the Council on Foreign Relations.)

Republican Formula: All Things to All Men

(Reprinted from ST. ALBANS (Vt.) MESSENGER)

Sen. Barry. Goldwater's recent visit to Burlington served to emphasize the reasons for the failures of the Republican Party during the past three decades.

Even before the Arizona conservative had set foot on the Land of Ethan Allen, the state GOP let it be known that they would arrange a visit later in the year by a liberal Republican to "offset" the Goldwater tour.

The precaution was hardly necessary. Goldwater, in addition to being the most articulate and respected voice of conservatism in the Republican Party, is also an astute politician. Recognizing the need for a display of party solidarity in the face of the upcoming elections, he spent much of his Vermont visit graciously pooh-poohing talk of a liberal-conversative split in the GOP ranks.

"The division in the Republican Party is a natural one," he declared. "We agree 100 per cent on two basic ideas—freedom and fiscal responsibility!"

Goldwater told reporters (who must have been hard-pressed to stifle a smile) that "there is not enough difference to note" between his own voting record and that of Vermont senators George D. Aiken and Winston L. Prouty.

From the political standpoint, Goldwater's middle-of-the-road air may have stamped his visit with the seal of success. But for those who had expected a firm, sensible appraisal of the conservative concept of government, the affair was a dismal disappointment.

The Republican Party has not won a presidential election on principle since 1932. Although the GOP succeeded in getting a man in the White House in 1952, it

it out of bankruptcy.

Upon pocketing these American funds, the UN then voted remission of a major share of assessments against a large number of member nations for support of the Congo operation.

The effect of this was to use the American handout to subsidize numerous UN members which are either hostile to the United States or indifferent to its foreign policy goals.

The total kicked back to these nations at the expense of the American taxpayer was $11,400,800. Thus Castro's Communist Cuba was provided with a gift of $140,800 at American expense; Poland, a Soviet satellite, with $512,000; Communist Yugoslavia with $243,000, and "neutralist" India with $140,800.

Some of the beneficiaries were deadbeats which had failed to pay their assessments for maintaining the UN "peace keeping forces" in the Congo and the Gaza strip. Among them were Poland and India. Thus, in effect, they were rewarded for dodging their share of the burden.

This all but unbelievable story was confirmed in testimony before a panel of the House foreign affairs committee by Harlan Cleveland, assistant secretary of state for international affairs, who appeared in support of Mr. Kennedy's bond buying face the height of irresponsibility, certainly should put Congress on guard not only against the bond buying device but against the whole reckless dissipation of tax money in foreign aid, for it is from this source that the money paid out by UN in gratuities to its delinquents came.

Cleveland's bland admission that the government cheerfully allows itself to be played for a patsy puts in a stranger light than ever the charade enacted last week before the World court. By 2058 A.D. . . . .

Every year, it seems, the number of Federal employes increases, bringing more bureaucracy, more red tape and more expenditure of taxpayers' money. In view of this, Rep. Robert J. Dole, R-Kan., has come up with some interesting figures:

"If the number of Federal employes continues to grow at the rate of the last 30 years, by 2058 everyone will be working for the Government. Many taxpayers, who in effect work for the Government one or two days out of five, probably figure that time has already arrived."

Can't Cut It?

You won't find anything in the Constitution to permit it, but the Federal Government is competing with taxpayers, operating thousands of non-tax-paying businesses in 47 different lines of enterprise, including 150 ice cream plants.

Who says it's impossible to cut the Federal budget?

had set foot on the Land of Ethan Allen, the state GOP let it be known that they would arrange a visit later in the year by a liberal Republican to "offset" the Goldwater tour.

The precaution was hardly necessary. Goldwater, in addition to being the most articulate and respected voice of conservatism in the Republican Party, is also an astute politician. Recognizing the need for a display of party solidarity in the face of the upcoming elections, he spent much of his Vermont visit graciously pooh-poohing talk of a liberal-conversative split in the GOP ranks.

"The division in the Republican Party is a natural one," he declared. "We agree 100 per cent on two basic ideas—freedom and fiscal responsibility!"

Goldwater told reporters (who must have been hard-pressed to stifle a smile) that "there is not enough difference to note" between his own voting record and that of Vermont senators George D. Aiken and Winston L. Prouty.

From the political standpoint, Goldwater's middle-of-the-road air may have stamped his visit with the seal of success. But for those who had expected a firm, sensible appraisal of the conservative concept of government, the affair was a dismal disappointment.

The Republican Party has not won a presidential election on principle since 1932. Although the GOP succeeded in getting a man in the White House in 1952, it was Gen. Dwight D. Eisenhower's tremendous personal popularity that turned the trick, rather than a firm Republican formula for government. With Ike now gone from the scene, the GOP seems doomed to return to the frustrating role of being second best in the two-man presidential sweepstakes.

Goldwater's visit points up the fact that the Republicans are still determined to be all things to all men—and consequently, nothing to anybody. The bland GOP insistence that the party must avoid any firm identification with either liberalism or conservatism is, in effect, willingness to accept a political vacuum as a format for the future.

Thirty years of sad experience have apparently failed to bring about any realization that a party without principles is really no party at all.

GOLDWATER . . . . From Pg. 1

Conservative voting record, and is thoroughly identified with the Conservative cause, there were some in the audience who feared that because of his close relationship with Senator Goldwater, Senator Tower might echo some of Goldwater's party-loyal sentiments. Such fears were needless. Senator Tower entered with confidence, a genuine smile, and immediately warmed the audience by his manner and sincerity.

Here was a man who did not preach "party loyalty." Senator Tower seldom mentioned the word "Republican." Instead, he referred to Conservatives and Conservative principles. His speech, which was an inspiration to all present, was geared to victory over Communism. As Tower proceeded, interrupted frequently with applause, a tremor of excitement swept through the audience.

Stated Senator Tower: "We have the strength to defeat the Soviet Union . . . and any other country that wants to get into the act . . . It is folly to negotiate. We know the Soviet Union is weak, but we let a bunch of intellectual snobs tell us what to do."

The enthusiasm of those in attendance mounted. What a far cry from Goldwater's speech which urged compromise of Conservative principles! The audience, electrified by Senator Tower, rose to its feet at the conclusion of his speech with tumultuous applause.

And then a strange thing happened. Spontaneously, from various sections of the banquet hall the chant started -- "We want Tower! We want Tower!"

Everyone was cheering and clapping their appreciation of Senator John Tower of Texas.

The Conservative audience at the HUMAN EVENTS Conference thus plainly indicated to Senator Barry Goldwater that any victory achieved by compromising Conservative principles would be a victory without honor. True, sincere Conservatives refuse to accept the defeatist philosophy of compromise.

ANTI-RED UNDERGROUND REPORT FROM FRANCE

(Editor's note: ,Below are excerpts from "Appel De La France", dated July 10, 1962, an information bulletin of the National Council of the Resistance, (CNR) which is the anti-Communist underground in France. The founder of this Resistance group is former Premier of France, Georges Bidault. Awkward phrases which may appear below are attributable to our lack of knowledge of French idiom. The bulletin, intended for French consumption, was printed in French and translated by us. This underground bulletin graphically points out the tragic and menacing events which resulted from De Gaulle's dastardly act of turning French Algeria over to the Communist-dominated FLN.)

The Executive Committee of the National Council of the Resistance met somewhere in Europe the fifth of July. They took cognizance of the developments of the situation in Algeria and Metropolitan France and reached decisions regarding future plans.

THE CRESCENT AND THE CROSS

On July 6 a Mohammedan mob, including Communist elements and the FLN, penetrated by force the cathedral of Algiers, profaned religious objects and broke the statue of Joan of Arc. An Imam (Mohammedan priest) then mounted the pulpit and preached in Arabic. Then an officer of the FLN chanted verses of the Koran. This attack on the cathedral came a month after the pillage and destruction of the synagogue in Algiers by a gigantic Mohammedan mob who hung a giant swastika flag on the front door of the synagogue.

ECONOMIC COLLAPSE IN ALGERIA

On the Red Road to Madrid

(Excerpts from Issue No. 6207, June 14, 1962, of INFORM Newsletter, 3 West 23rd St., Baltimore 18, Maryland)

INTRODUCTORY COMMENT

One of the most dangerous developments in the cold war - and one of the least noticed - is the accelerating Communist drive against Europe's back door: the Iberian Peninsula. Communist domination of Portugal and Spain, Europe's military rear area, would render almost untenable NATO's Central European defense system. The Communist thrust at the Iberian Peninsula would make the North Atlantic itself the next, and perhaps last, battlefield.

Thus, it is vital that citizens of the West see through the superficial welter of confusion and contradictions shrouding this Red push. Make no mistake - if we lost the Iberian Peninsula it will be due in no small part to our own action - and inaction.

Basically, this is the situation: The Spanish and Portuguese Communist and Communist-aligned revolutionary movements have long been united into a single front. This united front is dominated by Spaniards, many of them tough, battle-hardened Red veterans of the Spanish Civil War.

Main target of the Iberian revolutionary movement is Spain. To strike at Spain, the front is first striking at Portugal, the weaker partner. To attack Portugal, the front is hitting hardest at her most vulnerable point: the Portuguese colonies in Africa. The most vulnerable of Portugal's two large African colonies is Angola. Hence the Angolan war. The road to Madrid begins at Luanda.

BACKGROUND

Two years ago few Americans had ever heard of Angola. Today, its security is vital to the security of us all. Understanding this very real fact is not helped by the presence of a great many non-Red sheep among the Communist goats in the Angolan, Portuguese and Spanish revolutionary movements. But individually and collectively, these movements are oriented by the iron will, sophisticated political machinery and vast resources of international Communism.

Soviet interest in Angola goes back many years. As far back as 1951, ISI received and published reports describing Soviet activity in and around Angola. Espionage operations were traced to the Soviet Consulate in Pretoria, South Africa. The Consulate was subsequently ordered closed by the South African Government.

The activities of Soviet trawlers off the Angolan coast have continued over the years - and have been reported by ISI. In April 1961, the Portuguese navy strongly reinforced its offshore patrols. It was a belated action: for years the Soviet trawlers had been discharging agents, arms, propaganda, and taking aboard young Angolans for training in Soviet political warfare centers.

By 1955 Angolan Communism had begun to take organizational shape. In 1958, Moscow sharply expanded its African training program. And early in 1959, the Communists initiated final preparations for joint operations against Portugal and Angola. At that time the nerve center was the Hotel Carlos in Tangiers. The hotel is operated by Portuguese exile Carlos Cruz Ciprano, who was to be a key figure in the unfolding conspiracy.

Early in 1959, Cruz Ciprano began a trip which took him to Spanish "Republican" headquarters in Rabat, Morocco, then to Guinea, Ghana, the Belgian Congo. Finally, into Angola itself. Cruz Ciprano patiently wove together the far-flung strands of international revolutionary conspiracy. The target was Angola.

THE DUAL ASSAULT

On March 15, 1961, guerrilla raiders swarmed over the Congolese-Angolan border and slaughtered an estimated 1,500 Angolans in little more than a week. Fighting has continued intermittently ever since. There is now reason to believe that within a year similar action will be initiated against Portugal's other large African colony, Mozambique. Communist agents are already active in neighboring Tanganyika preparing a base of operations.

France, of the developments of the situation in Algeria and metropolitan France and reached decisions regarding future plans.

THE CRESCENT AND THE CROSS

On July 6 a Mohammedan mob, including Communist elements and the FLN, penetrated by force the cathedral of Algiers, profaned religious objects and broke the statue of Joan of Arc. An imam (Mohammedan priest) then mounted the pulpit and preached in Arabic. Then an officer of the FLN chanted verses of the Koran. This attack on the cathedral came a month after the pillage and destruction of the synagogue in Algiers by a gigantic Mohammedan mob who hung a giant swastika flag on the front door of the synagogue.

ECONOMIC COLLAPSE IN ALGERIA

The economic collapse of Algeria is practically total. All important enterprises are closed. An important factory which used to make (or assemble) 180 trucks per month did not manufacture more than 5 last month, and it appears that it will not be long before the doors are closed for an indefinite period.

JET BASES AND LAUNCHING PADS IN ALGERIA.

A Czechoslovakian mission is in charge of preparing a jet aircraft base and submarine base as well as launching pads for atomic missiles which will be situated on the east coast of Algeria between Bougie and Djidjelli. This base, in most part underground, will be entirely equipped by Soviet bloc industries.

THE PARTITIONING OF THE SAHARA

According to the terms of the secret agreement concluded last April by Bourguiba and Ben Khedda, Tunisia is going to annex a large band of Sahara territory, the length of the pipeline linking Edjeleh and Skhirra, chiefly the oil fields of Edjeleh. In another area the Moroccan troops have entered Algerian territory in the region of Tindouf and Colomb-Bechar, as a prelude to annexing the coal mines of these areas. Thus we see the dismantling and the pillage of the natural resources of Algeria.

CONCENTRATION CAMPS IN FRANCE

Senator Rene Dubois, an independent from Loire Atlantique, declared that there are actually more than eleven thousand political prisoners in the prisons or concentration camps in France. This is the same proportion as is in Cuba.

time the nerve center was the [illegible] is operated by Portuguese exile Carlos Cruz Ciprano, who was to be a key figure in the unfolding conspiracy.

Early in 1959, Cruz Ciprano began a trip which took him to Spanish "Republican" headquarters in Rabat, Morocco, then to Guinea, Ghana, the Belgian Congo. Finally, into Angola itself. Cruz Ciprano patiently wove together the far-flung strands of international revolutionary conspiracy. The target was Angola.

THE DUAL ASSAULT

On March 15, 1961, guerrilla raiders swarmed over the Congolese-Angolan border and slaughtered an estimated 1,500 Angolans in little more than a week. Fighting has continued intermittently ever since. There is now reason to believe that within a year similar action will be initiated against Portugal's other large African colony, Mozambique. Communist agents are already active in neighboring Tanganyika preparing a base of operations.

Meanwhile, a series of internal shock waves has been shaking mainland Portugal. It would be foolish to contend that all or even most anti-Salazar oppositionists are Reds. Nevertheless, that the growing organized resistance stems mainly from a highly efficient Communist underground is beyond discussion. The text of the propaganda being secretly distributed clearly reveals its Communist authorship. ISI observers in Lisbon report that the wave of unrest there early in May was precipitated by a smoothly-operating underground apparat.

COMMUNIST STRATEGY

As the Reds themselves bluntly state, their strategy is simple. They are launching a dual assault. In Portugal, Red agents are fomenting mounting unrest. It is intended to embarrass the regime in the eyes of other Western nations, rock the economy, discourage tourism, and generally undermine the state at a time that it is heavily committed, militarily, financially and psychologically, in Angola.

The Communists do not believe the Salazar regime could survive the loss of Angola. They believe that even the present drain on Portugal's resources will be enough eventually to bring down the government. Thus their present tactics in Angola: a war of attrition. The Portuguese Government is to be nibbled to death.

BEHIND THE GUERRILLAS

The situation becomes even more complex when the sponsors and supporters of the Angolan rebels are reviewed. They include such obvious listings as Ghana, Guinea, Mali, Egypt, Morocco, Tunisia, the Algerian FLN. Somewhat more startling is the fact that the rebels have enlisted support from denizens of both Moscow and Washington, from Poland and Brazil, from veteran American Party-liners and from American church groups.

Three relatively small guerrilla units, Union of the People of Angola (UPA), Popular Liberation Movement of Angola (MPLA) and Army of National Liberation of Angola (ALNA), can count on a fantastically elaborate "back-up" machinery which includes: a guerrilla supply base in the town of Boma on the north shore of the Congo river; a guerrilla training area near Thysville in the Congo; a terrorist training school in Conakry, Guinea; Radio Conakry; arms depots in Ghana; FLN training camps in Tunisia; African training centers in the Soviet Union, Czechoslovakia, East Germany, Hungary, Poland and China.

The guerrillas can also count on the support of a New York public relations firm; powerful committees of American Liberals; four American churchmen serving as full-time propagandists; the Board of Missions of a leading denomination. And, most important, a smoothly-operated fund-raising apparatus which channels many thousands of U.S. dollars a month into Angolan revolutionary headquarters in the Congolese capital of Leopoldville.

Major recipient of this money is the UPA and its leader, Holden Roberto: As near as can be determined, the latter has no real ideology. Roberto was born in Angola but has spent his whole adult life in the Congo. There he worked hand in glove with Patrice Lumumba and, originally at least, received considerable Communist support. American groups are now paying Roberto's bills.

UPA's power and range of action is sharply limited. Roberto's followers are almost entirely from the Bakongo tribe of northern Angola. Within the Bakongos, Roberto's agents have managed to exploit the fanatical N'Zamba M'Papa religious cult. This is a Black Supremacy sect led by prophets called "Simons" who predict the coming of a Black Christ and the destruction of the white race. Members of the sect also believe they cannot be harmed by

in Angola.

The Communists do not believe the Salazar regime could survive the loss of Angola. They believe that even the present drain on Portugal's resources will be enough eventually to bring down the government. Thus their present tactics in Angola: a war of attrition. The Portuguese Government is to be nibbled to death.

BEHIND THE GUERRILLAS

The situation becomes even more complex when the sponsors and supporters of the Angolan rebels are reviewed. They include such obvious listings as Ghana, Guinea, Mali, Egypt, Morocco, Tunisia, the Algerian FLN. Somewhat more startling is the fact that the rebels have enlisted support from denizens of both Moscow and Washington, from Poland and Brazil, from veteran American Party-liners and from American church groups.

Three relatively small guerrilla units, Union of the People of Angola (UPA), Popular Liberation Movement of Angola (MPLA) and Army of National Liberation of Angola (ALNA), can count on a fantastically elaborate "back-up" machinery which includes: a guerrilla supply base in the town of Boma on the north shore of the Congo river; a guerrilla training area near Thysville in the Congo; a terrorist training school in Conakry, Guinea; Radio Conakry; arms depots in Ghana; FLN training camps in Tunisia; African training centers in the Soviet Union, Czechoslovakia, East Germany, Hungary, Poland and China.

The guerrillas can also count on the support of a New York public relations firm; powerful committees of American Liberals; four American churchmen serving as full-time propagandists; the Board of Missions of a leading denomination. And, most important, a smoothly-operated fund-raising apparatus which channels many thousands of U.S. dollars a month into Angolan revolutionary headquarters in the Congolese capital of Leopoldville.

Major recipient of this money is the UPA and its leader, Holden Roberto: As near as can be determined, the latter has no real ideology. Roberto was born in Angola but has spent his whole adult life in the Congo. There he worked hand in glove with Patrice Lumumba and, originally at least, received considerable Communist support. American groups are now paying Roberto's bills.

UPA's power and range of action is sharply limited. Roberto's followers are almost entirely from the Bakongo tribe of northern Angola. Within the Bakongos, Roberto's agents have managed to exploit the fanatical N'Zamba M'Papa religious cult. This is a Black Supremacy sect led by prophets called "Simons" who predict the coming of a Black Christ and the destruction of the white race. Members of the sect also believe they cannot be harmed by enemy bullets.

Ironically Holden Roberto and his group - the proteges of American Liberals - are considered by both Communist and non-Communist Angolan rebels to be quite a bit too bloodstained to be useful allies. There is strong suspicion that the UPA was duped into violent excesses. The UPA set the border region aflame, slaughtering whites and blacks with utter impartiality. Meanwhile, the Red-led MPLA watched the struggle, and gathered its strength in preparation for more decisive action south of the Bakongo region.

THE U.S. ROLE

The political warfare process against the Portuguese Government is now well advanced - due in no small measure to American intercession, direct and tacit, official and private, on behalf of the revolutionary movement. The end result of their action is dimly

bership in the United Nations and each of its specialized agencies such as UNesco, ILO, WHO, etc. The mere "word" or "promise"- such as now being given by the Executive and his State Department - that the Convention will not be submitted for ratification, and the empty mouthings of the identical "Down, Fido!" line by the present Senate members will not do! Too much is now at stake!

This UN-UNesco Convention defines the rights of individuals! This is the legal break-through the UN planners have waited 17 years to achieve. They have moved carefully, step-by-step, employing the tactic that Senator Jenner called "revolution by the assembly line."

First these UNers installed the concept into the UN Charter that observance of human rights is a proper subject of international concern. This was direct uprooting of all legal history, since the relationship of the individual to his government has always been considered strictly a matter of domestic concern. Next, as provided by the UN Charter the UN Commission on Human Rights was set up.

By 1948 the UN had drafted and adopted its UN Declaration of Human Rights. This was offered to the public as an innocuous "statement" with no legal significance to worry about. But, as soon as this "innocent" statement was on the books, the UN immediately began the work of putting their "Declaration" into treaty form!

It was about this time the people and some in Congress began to wake up. Court decisions, based on the UN Charter, and not domestic laws, began to appear, repealing domestic laws. Thus was the red flag of danger of UN-international interference -- in and tampering with our domestic affairs -- raised. The result was the Bricker Amendment attempt.

The Bricker Amendment debate centered in great part on the "human rights" schemes of the UN, exposing, for instance, that after over 400 meetings, the UNers still were unable to decide that property is a human right. The people learned some of the dangers of UN and all treaty-law.

The people learned that treaties could take powers from Congress and give them to the President; that treaties could take powers from the States and give them to the Federal Government, or to some international organization. The people learned that treaties could chop down U. S. Constitutional guarantees of Creator-bestowed rights of citizens, and force individual Americans under international laws and subject to trial and punishment by UN Courts.

While the Bricker Amendment was defeated, the UNers knew that for a while the Congress and people would remember the warnings about UN Covenants on "Human Rights." So they went to work quietly in 1954 -- on another treaty -- defining the rights of individuals. You know that treaty as the "UNesco" Convention Against Discrimination in Education!

Ban CFR Says Legion

FRESNO, Calif. — The California Department of the American Legion reportedly approved a resolution on July 2nd, urging that the Council on Foreign Relations be declared a subversive organization. The Legion pointed to CFR activities as influencing much of our domestic and foreign policy. These policies, implied the Legion, have led the United States to a point of serious deterioration and loss of leadership in the world.

Once Is Enough

What this country needs is a one-term Presidency for John F. Kennedy.

Preserve Your Constitution

Hold on, my friends to the Constitution of the United States of America and to the Republic for which it stands. Miracles do not cluster, what has happened once in six thousand years may never happen again. Hold on to your Constitution, *for if the American Constitution should fall there will be anarchy throughout the world.* — Daniel Webster

TWO MISSIONARIES

Have you heard the one about the church Ladies Aid Society who held a bazaar and raised enough money to sponsor two missionaries -- one to Nigeria and one to the Supreme Court?

MCEF, 146 Grand Ave., St. Louis 22, Mo. (YU 6-6616; TA - 1412)

Conservatives are making arrangements for

The 1963 Essay Contest of the American Association of Physicians and Surgeons. Actual writing competition need not start until Jan. 1, 1963, but State and County committees should be appointed now to insure that local schools program this contest. $2,675 will be given for winning essays on "The Advantages of Private Medical Care," or "The Advantages of the American Free Enterprise System Over Communism." For further information: Dr. Thomas Parker, Chairman, AAPS Essay Contest Committee, Suite 319, 185 N. Wabash Ave., Chicago 1, Ill.

Conservatives are sending for

Petitions calling for amendment of the U.S. Constitution to guarantee every American the right to worship God at times and places he may desire, and to impeach Supreme Court Justices whose recent decision outlawed the free practice of voluntary worship in the New York State schools. Petitions may be obtained from Mayor Milton A. Gibbons, Village of Tuckahoe, N.Y. Enclose large stamped, self-addressed envelope.

Bumper stickers: "Repeal the Income Tax! - Support the Liberty Amendment." 25¢ each. Poor Richard's Book Shop, 5403 Hollywood Blvd., Los Angeles, Calif.

Lapel buttons - 1-1/2": "I'm proud to be a SOB Business Man." 10¢ each. Ross E. Jensen, Spokane Stamp Works, 1st at Washington, Spokane 4, Wn.

Leaflet: "Embarrassing Questions -- What Will You Tell Your Children? - Here's the Answer!" - ideally suited for distribution as first step in awakening a community to need for Conservative political action. Based on widely-acclaimed MONTROSE (Calif.) LEDGER editorial and tells what each individual can and must do to avoid complete surrender of this nation. Borger Printers and Publishers, Box 591, Borger, Tex. 10¢ ea.; 25 - $1.00; 50 - $1.50.

"Greetings" memo paper: "Please Don't Send Me a UNICEF Card." Reverse side lists questionable affiliations of certain UNICEF greeting card artists. Use for notes now, - distribute prior to Hallowe'en and Christmas. Request sample and prices from "Conservative Americans," 4433 El Cajon Blvd., San Diego 15, Calif. (Enclose stamped, self-addressed envelope).

Conservatives are spreading their message, by

Sending anti-Communist publications to foreign heads of state who have been misled regarding attitudes of U.S. citizens by our State Department. Also to prime ministers, key officials, editors of newspapers and other foreign publications in an attempt to change the color of their editorials to the advantage of anti-Communism. Bill R. Neel, Lubbock, Texas, (State Chmn., Subversive Activities, American Legion) suggests, "I think we have overlooked and largely neglected the foreign field in our anti-Communist efforts."

Using a new system of calendared post-cards in behalf of Conservative candidates in the November election. A plan of action whereby each individual can make 256 contacts in behalf of Conservative candidates between Sept. 1 and Nov. 3 at little cost. Highly adaptable for later use to local school board elections, bond issues, etc. For further informations, send stamped self-addressed envelope to "Conservative Action," P. O. Box 768, Los Angeles 28, Calif.

The fact is, Roberto has collaborated with the Communists - just as he has willingly accepted Czech weapons from Nkrumah and Nasser, training facilities from the Algerian FLN, military instructors provided by Warsaw from Polish settlements in Brazil; money and political protection from American "liberals" and church groups.

The record is also clear: the Communists know how to handle the Holden Robertos of this world, Washington does not. As ISI's observer in Angola points out:

> "The U.S. should beware of supporting people like Roberto. He could return to the Red stable at any time."

It should be noted that despite his apparent discarding by the Reds, Roberto himself has not verbally shut the door on that stable.

It is not likely, however, that the Communists will have further need of Roberto. He and his American money were used to power the Communists' guided missile of conquest. They have now achieved their breakthrough.

* - Editor's Note: Regarding the American Committee on Africa mentioned in the foregoing article, among the members of its National Committee are four members of the Council on Foreign Relations. They are: Lewis S. Gannett, Hubert H. Humphrey, Reinhold Niebuhr and William E. Stevenson.

UNESCO Power Grab for Our Schools

By Florence Fowler Lyons

(Reprinted from MONTROSE (Calif.) LEDGER)

It took the UN conspirators 17 years, but the legal chips counted out at the UN San Francisco Conference in 1945 are down on the table now -- and with them ride your individual Creator-bestowed and Constitutionally-guaranteed rights, and the rights of the 50 States of the Union in several vital fields -- such as education.

The UN-UNesco "Convention Against Discrimination in Education" will attain full legal-status as a treaty three months from the day the government of the third nation to ratify it, the Central African Republic, deposits its instrument of ratification with the Director-General of UNesco. While the State Dept. is telling friends of mine in Congress a fourth nation -- the United Kingdom -- has ratified it, they are still keeping the vital date the treaty enters into force a secret!

From that day on, however, this vicious Communist-Socialist drafted and approved treaty will constantly threaten your individual rights, certain States Rights, and along with these, -- the entire educational system of the USA. Any Senate, this one, or a Senate ten years from now, can ratify this monstrous power-grab created by the UN System.

There are only two possible ways now to remove this permanent threat from the American individual, the 50 States, and the educational machine. One is by Constitutional amendment -- legislation similar to, but preferably much-stronger than the Bricker Amendment. The other is total withdrawal of the United States from membership in the United Nations and each of its Specialized Agencies such as UNesco, ILO, WHO, etc. The mere "word" or "promise" - such as now being given by the Executive and his State Department - that the Convention will not be submitted for ratification, and the empty mouthings of the identical "Down, Fido!" line by the present Senate members will not do! Too much is now at stake!

seen, if at all by these Americans.

American Liberals seem to have a tragic penchant unerringly to select their champions from the twilight zone of politics. In Cuba, Castro. In Angola, Holden Roberto. In terms of the master design against Angola and Portugal, Roberto is of minor stature. Yet, for many influential Americans Roberto has come to symbolize the Angolan revolution.

Strongest Pro-Roberto pressure group in the U.S. is the American Committee on Africa.* Its National Committee includes many familiar warhorses of Communist front causes. The Committee also includes a number of powerful national figures, the most notable being Arthur Schlesinger, Jr. of the White House advisory staff. The Committee on Africa boasts of its channels to U.S. officials in Washington and the United Nations. There is little doubt that the organization manages to shape American policy regarding Africa and Iberia.

These policies are defended by the State Department on the grounds that Roberto is no Communist. The degree to which Roberto "is not a Communist" has perhaps been most eloquently expressed by himself. In December 1961, Roberto was asked if he were a Communist. His reply: "To be a Communist means to belong to one of the Communist Parties and hold a card. I do not possess a Party card and I am a member of the UPA".

The fact is, Roberto has collaborated with the Communists - just as he has willingly accepted Czech weapons from Nkrumah and Nasser, training facilities from the Algerian FLN, military instructors provided by Warsaw from Polish settlements in Brazil; money and political protection from American "liberals" and church groups.

The record is also clear: the Communists know how to handle the Holden Robertos of this world. Washington does not. As ISI's observer in Angola points out:

Dear Subscriber:

Enclosed herewith is our latest TAX FAX pamphlet, TAX FAX No. 39, entitled:

"DISARMAMENT — An Invitation to Soviet Take-Over"

You will note that its companion pamphlet is TAX FAX No. 26, entitled "The United Nations - A Smokescreen for Communist Aggression." TAX FAX No. 26 has just been revised and brought up to date as of November, 1962. The reason we revised this TAX FAX was because the subject of Disarmament is inextricably entwined with the Communist-dominated United Nations.

DOES THE KREMLIN NOW INITIATE AND PROMULGATE U.S. FOREIGN POLICY?

Here is a chronology of collaboration* between the U.S. and the U.S.S.R. on the subject of Disarmament:

May 10, 1955 - Soviet Russia suggested a permanent ban on all testing and other nuclear activity.

July 21, 1955 - Republican President Eisenhower proclaimed his "Open Skies" proposal, in which he stated: "I propose .... to give to each other (the U.S. and the Soviet Union) a complete blueprint of our military establishments from beginning to end..."

September 18, 1959 - Khrushchev went before the United Nations and recommended a three-phase program for total world disarmament, suggesting that all military forces in the world be put under control of the United Nations.

March 30, 1961 - The government of the United States and the Soviet Union filed with the United Nations "A Joint Statement of Agreed Principles for Disarmament Negotiations."

September 23, 1961 - The U.S. Senate, by a voice vote, and the U.S. House of Representatives by a vote of 253-50, passed a bill (H.R. 9118) establishing a U.S. Arms Control and Disarmament Agency to prepare the ground to put the Disarmament plan into effect.

September 25, 1961 - Democrat President Kennedy addressed the United Nations and offered on behalf of the United States "A Program for General and Complete Disarmament in a Peaceful World." Kennedy's proposal apparently was patterned on the Soviet Union three-phase disarmament plan offered by Khrushchev in 1959.

The proposed Disarmament Treaty which the U.N. delegation presented to the Disarmament Conference in Geneva on April 18, 1962, embodies almost all of the provisions originally suggested by the Soviet Union. Thus the question arises: Is U.S. foreign policy now being made in the Kremlin?

The enclosed TAX FAX No. 39 discusses in detail this Disarmament Program supported by the spokesmen of both the Democrat and the Republican parties, which program, if carried out, will mean that the United States, as a nation, will have voluntarily committed suicide.

On Monday, November 26, 1962, the Disarmament Conference reopened its negotiations in Geneva. Out of these negotiations is expected to come a Disarmament Treaty which will be presented to the United States Senate for ratification. This treaty must not be ratified!

---

* Webster's "New Collegiate Dictionary" gives as one of the definitions of the word "collaborate" the following: "To willingly comply with, cooperate with, or assist enemy forces occupying one's country, usually with an implication of traitorous dealing in distinction from passive acquiescence; also, sometimes, to give an enemy nation aid of non-military kind."

YOUR HELP IS URGENTLY NEEDED

I am sure that as soon as you read the two enclosed pamphlets, you, as a liberty-loving American, will want to do everything possible to prevent the ratification of this frightening Disarmament Treaty. What is so particularly alarming is the fact that the majority of the American people do not even know that such a treaty is "in the works." And remember, the U.S. Constitution says (Art. 2, Sec. 2, Cl. 2) that the President "shall have power by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur." Note carefully the use of the word "present." For example, if six Senators were on the floor of the Senate - say at midnight some night - and four of the Senators were such Left-Wing extremists as Clark, Javits, Morse, Fulbright, etc., the United States could be unilaterally disarmed in a matter of minutes by the actions of such men! The cowardly appeasers in both parties know that the Disarmament Treaty would never pass if the American people became aware of its import and impact. It is, therefore, not inconceivable that such a dastardly parliamentary maneuver might, even now, be planned.

HELP WARN THE AMERICAN PEOPLE!

Please order immediately as many copies of the enclosed pamphlets as you possibly can. Send them to your two Senators. You may also wish to attach a letter or note expressing your personal views on the subject of Disarmament.

Buy extra copies of these pamphlets and distribute them to your friends urging them to also send copies to their Senators. Send copies to your Congressman, the editors of your local newspapers, friends, neighbors, civic club leaders, teachers, anti-Communist study groups, etc. Use the facts contained in this pamphlet as a basis for letters to the editors of your local newspapers. If you belong to a study group, club or organization, use the facts in this pamphlet to draw up a resolution opposing Disarmament; have it signed by the members present; and forward to your Senators.

You may wish to take advertisements in your local newspapers exposing the dangers of Disarmament and urging all readers to write their Senators opposing Disarmament. Also you may wish the readers to write you for further information, in which case you could then send them a copy of this pamphlet, thereby bringing new recruits into the anti-Communist cause.

Of course, suggestions as to "getting the word out" about the dangers of Disarmament are endless, and I am sure you will probably have many good ideas of your own.

HELP US TO SPREAD THE WORD

If for any reason you cannot actively participate in this campaign to warn Americans of the dangers of Disarmament, then please send us a contribution in as large an amount as you can afford so that we may send copies of these pamphlets to influential persons from lists which are available to us. You will find appropriate space on the enclosed coupon to indicate your wishes in this regard.

WARNING THE MILITARY

It is highly possible that many members of the military forces have no idea that this Disarmament proposal actually intends to abolish the Army, Navy and Air Force! They undoubtedly think the U.S. Disarmament program calls for a mere cutting back on offensive weapons, and possibly "mothballing" a portion of the fleet. We believe it is absolutely vital that members of the Armed Forces be acquainted with the frightening details of the Disarmament Treaty, and therefore we propose to place an advertisement in publications reaching Army, Navy, and Air Force personnel. If you wish to contribute to this project, please fill out the position of the coupon marked "Contribution."

Because time is of the essence, please read the enclosed pamphlets as soon as possible, and rush your order to us in the enclosed self-addressed envelope, remembering that "Eternal vigilance is the price of Liberty."

For God and Country,

Kent Courtney

WHAT YOU CAN DO

It is the responsibility of all Americans to counter the propaganda of the One-Worlders who promote the United Nations. In 1962, Congressman James B. Utt of California introduced a bill to rescind and revoke membership of the United States in the United Nations and the specialized agencies thereof.

If you wish to join in this fight to preserve America's national sovereignty by withdrawing from the Communist-dominated United Nations, then buy and distribute as many copies of this pamphlet as you can. This pamphlet can be used as a tool to rally support for Congressman Utt's resolution calling for the withdrawal of the U. S. from the U.N.

Also use this pamphlet as a basis for letters to the editor of your local newspaper. Send copies of this TAX FAX pamphlet to your friends, neighbors, teachers, student leaders of high schools and colleges, newspaper editors, radio commentators, Chambers of Commerce, members of patriotic and civic clubs – and, of course, to your Congressmen and Senators, urging their support of Congressman Utt's bill to get the U. S. out of the U. N.

(Revised November, 1962)

—NATIONAL SOVEREIGNTY OF U.S. IS AT STAKE—

AGGRESSION IN THE CONGO

In August, 1961, United Nations forces in the Congo abandoned their role as a force for peace and in the name of preventing civil war and restoring order, the UN launched a civil war and destroyed public order in Katanga, the most peaceful and best-ruled area in the Congo.

Senator Thomas J. Dodd of Connecticut, in a speech on the floor of the Senate on September 22, 1961, said, "The UN command in Katanga acted in a wanton and brutal manner against the spirit of the UN, and without authorization under the charter."

The United Nations attack against Tshombe's government was in support of the Communist-dominated government of Gizenga. Authoritative sources indicate that one-third to one-half of Gizenga's government were either Russian-trained Communists or men who have been appointed by Gizenga. Gizenga has been identified at least as a willing tool of International Communism. Fierce and cruel, mercenary Ghurka soldiers from India were used by the United Nations in their aggressive attack and attempted conquest of Katanga. These Ghurka troops were "guilty of brutalities that will forever stain the name of the United Nations," according to Senator Dodd.

Senator Dodd continued, "I would ask those who defend the United Nations action in Katanga whether they believe that the proper way of preventing civil war is to intervene against the intended victim and not against the aggressor."

If United Nations armed forces, originally organized to preserve peace, are used instead for aggression, then where can we expect another attack by United Nations "peace forces" against small independent nations?

WHAT WAS THE PRELIMINARY PURPOSE OF THE U.N.?

In 1945, when the U.N. was formed, the prestige, strength, and influence of the United States overshadowed all other nations of the world. **The United Nations was devised as a means of shifting the balance of world power from the United States to the Soviet Union.** A preliminary aim of the U.N. Charter was to achieve total control over American foreign policy. Because of clever manipulation of the U.N. by the Soviet bloc, American foreign policy is today paralyzed.

The basic foreign policy of the United States should be the defense of the free world against Soviet aggression. Today we find that so entangled has the United States become with the Soviet-dominated U.N. that instead of an independent foreign policy, the United Nations has now been substituted as the cornerstone of U.S. foreign policy. This subservience to the U.N. completely hamstrings all effective U.S. efforts to halt Communist aggression throughout the world.

"PEACE-LOVING" AGGRESSION BY THE REDS

Since the formation of the United Nations in 1945, (whose membership, according to the U.N. Charter is limited to "peace-loving" nations) Soviet and Chinese Communists have murdered millions of people. At the time of the signing of the U.N. Charter, 200 million people were behind the Iron Curtain. Today, 17 years later, by methods of "peaceful aggression," and using the U.N. as a screen for operations, the Soviet Union controls 900 million people throughout the world.

CUBA - A COMMUNIST SANCTUARY

The U.N. refuses to halt the complete Communist take-over of Cuba, only 90 miles from America's mainland. President Kennedy, in November, 1962, guaranteed Cuba to the Soviets as an invasion-free sanctuary. From Cuba, the Communists can launch subversive activities against the entire Western Hemisphere.

Clearly, the United Nations does not and cannot keep the peace. **The U.N. merely preserves and solidifies Russia's conquest of the world by preventing the free world from taking any action whatsoever except to "debate" each new aggression in the U.N. General Assembly.**

THE U.N. RECORD IN WAR

Although at the time of the Korean War there were 60 nations in the United Nations, 93% of the U.N. forces in Korea were American, and 95% of the total cost of the Korean War was borne by American taxpayers. Significant-

ly, former Sen. William E. Jenner has pointed out:

> "The United Nations policy during the Korean War was to prevent American military leaders and American fighting men from winning a victory over the Communist forces. Our commanders were not permitted the right of hot pursuit against attacking Red planes . . . . American forces were not permitted to carry the war to the soil of our enemy, but were compelled to limit all fighting to devastation of the territory of our ally. That was the U.N. plan in Asia . . ."

U.N. "supervision" of the Korean War resulted in the United States losing the only war in our history and at the tragic toll of 137,000 American casualties.

BEHIND THE KOREAN DEBACLE

The Communist conspirators who organized the United Nations were very clever, inasmuch as the **control of the military forces of the U.N. has always been in the hands of the Soviet Union.** The Under Secretary of Political and Security Council Affairs has always been a representative of the Soviet Union or Communist bloc, according to a letter written by Frederick G. Dutton, U. S. Department of State, dated October 26, 1962.

Article 47, Par. 3, of the U.N. Charter states:

> "The Military Staff Committee shall be responsible through the Security Council for the strategic direction of any armed forces placed at the disposal of the Security Council."

Because during the Korean War, the Under Secretary for Political and Security Council Affairs was a Communist, all directives to Gen. MacArthur and reports from MacArthur regarding the Korean War passed through Communist hands. U. S. troops were prevented from taking any action against the Communist Chinese in the Korean War which did not meet with the approval of the Communist Under Secretary for Political and Security Council Affairs.

Any future wars or police actions fought by the U.N. or carried on by a U.N. World Police Force would be fought under the exact same incredible handicap because any such military operations would be controlled by the U.N. Security Council, operating under its anti-American rules and regulations.

BEWARE NATO TRAP

There are some who feel that NATO is a "shield" against Communist aggression. This, however, is refuted by the fact that although NATO purports to be a regional organization composed of Free World nations opposed to Communism, NATO is actually under the control of the Soviet-dominated United Nations. Article 53 of the U.N. Charter states that no regional organization can take any enforcement action (as a deterrent against aggression) "without the authorization of the (U.N.) Security Council . . ."

Article 54 of the U.N. Charter states that the U.N. Security Council "shall at all times be kept fully informed of activities undertaken . . . by regional agencies . . ." (such as NATO). The Soviet Union, a member of the all-powerful Security Council, exercises veto power.

SPIES IN THE UNITED NATIONS

J. Edgar Hoover, Director of the Federal Bureau of Investigation, has confirmed the charge frequently made that the United Nations provides a protective "front" for Soviet spies to operate freely in the United States under the cloak of "diplomatic status." In May, 1960, the Senate Internal Security Subcommittee issued a report prepared by J. Edgar Hoover entitled "Expose' of Soviet Espionage."

> "Attention is called to the fact that many of the incidents and causes previously cited involved Soviet employees of the United Nations. They are guests of the United States and are supposedly dedicated in the cause of international peace. BUT they are, in fact, carefully selected envoys of the international Communist conspiracy, trained in trickery and deceit and dedicated to the concept of fully exploiting the freedoms of the countries they seek to destroy. It is too much to expect that they would not subvert the United Nations."

SOVIET CONTROL IN THE UNITED NATIONS

In October 1960, nationally known U.N. authority, Alice Widener, wrote in her syndicated newspaper column:

"The UN Personnel directory (document A/C. 5/L.564) lists the following UN Secretariat appointments at Headquarters in New York City:

Political Affairs Division, Senior Political Affairs Officer, Mr. Vladimir Jelinek, Czechoslovakia.

Disarmament Affairs Group, Atomic Energy Section, Chief, Mr. Otto Frey, Czechoslovakia.

Atomic Energy Section, Political Affairs Officer, Mr. Pavel Lukianov, USSR.

Department of Trusteeship and Information from Non-Self-Governing Territories, Under-Secretary, Mr. Dragoslav Protitch, Yugoslavia.

Trusteeship Agreements Section, Chief, Mr. Fedor Popov, USSR.

Economic and Social Council Secretariat, Secretary of the Council, Mr. Wladyslaw R. Malinowski, Poland.

Office for Europe, Middle East and Africa, Acting Chief, Mr. Svetislav Orlic, Yugoslavia.

Fellowship Placement Office, Placement Officer, Mrs. Dorit Kamil, Poland.

Office of Public Information, Principal Officer, Mr. Boris V. Karpov, USSR."

OUTNUMBERED MORE THAN 100 TO 1

In 1945, when the United Nations was formed, it was composed of 51 nations. One vote was allowed the United States, but the Soviet Union managed to obtain 3 votes – its own, plus a vote each for Byelorussia and the Ukraine, which are mere provinces of Russia.

Over the years a large number of new nations have been admitted to membership in the United Nations, so that the United States is now outnumbered and outvoted by more than 100 to 1.

U.N. BECOMING ANTI-U.S.

Included in recent admissions were newly-created African nations, most as primitive as the Congo, with strong leanings toward the Soviet bloc. **Each of these new African nations has an equal voice with the United States in the U.N. General Assembly.** Their combined vote, along with that of present members who oppose the United States, will, in the not-too-distant future, be enough to admit Red China to the United Nations. When that happens, **the dominating influence in the United Nations will be the Soviet Union, seconded by its Red Chinese partners. This Soviet-Red China axis will be aided by Afro-Asian peoples** unschooled in the philosophies of government or the principles of freedom, nations which have no concept of the laws of civilization.

When these new African nations begin to vote on the side of the Soviet Union, instead of abstaining from voting, **the balance of power in the United Nations will swing to the Soviet Union.** The United States will then be outnumbered and out-voted on every crucial issue!

U.S. FOOTS BILL FOR UNITED NATIONS

The United States actually finances the operations of the United Nations, which is becoming increasingly anti-American. We are committed to pay 1/3 of the costs of the UN, but because of our Foreign Aid program to some 70 countries around the world, we give away sufficient money to allow all of them to pay their dues to the United Nations. Thus directly and indirectly, the United States is paying practically the entire cost of the United Nations.

Since the formation of the United Nations in 1945, the Soviet Union has refused to pay its portion of some special U.N. assessments. Communist Russia has refused to pay its share of a special appropriation needed to finance U. N. intervention in the Congo.

Under the U.N. setup, United States taxpayers have been forced to make up the U.N. treasury deficit of millions of dollars, caused by Russia's refusal to pay her share.

In the final analysis, U.S. taxpayers are forced to pay for the financing of the Soviet-dominated United Nations, whose principal aim is the DESTRUCTION OF THE NATIONAL SOVEREIGNTY OF THE UNITED STATES.

VIEWS ON U.N.

Below are pro-American quotations regarding the purposes of the United Nations, NATO, world government, and the tremendous threat to the national sovereignty of the United States that any of these internationalist organizations pose:

"'Strengthening' the United Nations would have the same effect as transforming NATO into a federal government, except that it would hasten the communization of the world rather than of merely the NATO powers. We should remember that the U.N. bureaucracy was set up by socialists for socialist purposes, and that it is largely dominated by the Soviet socialists and their fellow travelers."

– V. Orval Watts, author of "United Nations: Planned Tyranny," Published by Devin-Adair Co.

"NATO has already proved its incompetence and impotence. Furthermore, to involve ourselves in a federal group with a socialist or semi-socialist state would be the ruination of this country. The United Nations has already done such grievous harm to this country as to warrant its being thrown out of the United States and the United States getting out of it. To cite but one example, it was the cause of our losing the war in Korea . . . ."

– Spruille Braden, former ambassador to Cuba, Colombia, and Argentina

"The U.N. as it stands is not only useless to us, it is positively harmful. It ties the hands of the free world . . . We will someday be outnumbered there, and then the U.N. could be turned against us by people who share none of our value systems, deliberately pervert the meaning of words, and deal in the cold cynicism of the Communist drive for world power. We should get the U.S. out of the U.N. and the U.N. out of the U.S."

– George F. Carter, Professor of Geography, Johns Hopkins University

— WHAT THE DISARMAMENT TREATY REALLY MEANS —

On October 22, 1962, President Kennedy thrilled the free world by ordering a naval and air blockade of Communist Cuba. The American people, rejoicing that the United States was at long last taking unilateral action against this Communist beachhead in the Western Hemisphere, little noted the following passage in Kennedy's blockade announcement:

> Under the Charter of the United Nations we are asking tonight that an emergency meeting of the Security Council be convoked without delay to take action against this latest Soviet threat to world peace.

Thus is it seen that while pretending that the United States was taking action against Communist Cuba, actually Kennedy was turning over to the United Nations the initiative in a crisis involving the national defense of the United States.

At the same time Kennedy stated, in part:

> I call upon him (Khrushchev) to join in an historic effort to end the perilous arms race.

On October 28, Khrushchev offered to dismantle the Cuban missile bases, and then stated:

> I also wish to continue an exchange of opinions on the prohibition of atomic and thermonuclear weapons and on general disarmament.

If the promoters of Disarmament prevail, the naval and air blockade ordered by Kennedy on October 22, 1962, may be **the last military action carried on by the United States as a free and independent nation.** Unknown to the majority of the American people, concrete plans have been made to strip the United States of its Army, Navy and Air Force, thus rendering this nation defenseless against continuing Communist aggression.

KENNEDY'S PLAN TO DISARM U.S.

On April 18, 1962, the U.S. State Department presented a new disarmament plan to the Disarmament Conference in Geneva. Commenting on this proposal, Senator Strom Thurmond, speaking on the floor of the Senate, April 24, 1962, warned:

> This disarmament plan should be of concern to all Americans because it proposes not only the creation of a super United Nations armed force . . . but also that we lay down our arms in an agreement with a nation which is controlled by an ideology - Communism - whose leaders have sworn to bury us, and whose leaders have broken 50 of 52 major agreements they have entered into since World War II.

The ARIZONA REPUBLIC, in an editorial entitled "Blueprint for Disaster," April 22, pointed out:

> . . . The disarmament plan is a blueprint for the destruction of American sovereignty. It is a chart leading to World Government dominated by Communist and neutralist nations.

BASIC PROVISIONS OF DISARMAMENT TREATY

Following are highlights of the Outline of Basic Provisions of a Treaty on General and Complete Disarmament in a Peaceful World prepared by the U. S. Arms Control and Disarmament Agency and presented by the U. S. delegation to the Disarmament Conference in Geneva on April 18, 1962.*

Destroying U. S. Defenses

The objectives of the proposed Disarmament Treaty according to the Outline, are to provide for:

> (a) Disbanding of armed forces, dismantling of military establishments, including bases, cessation of the production of armaments. . .;
> (b) Elimination of all stockpiles of nuclear, chemical, biological, and other weapons;
> (c) Elimination of all means of delivery of weapons of mass destruction;
> (d) Abolition of the organizations and institutions designed to organize the military efforts of states (i.e. nations), cessation of military training, and closing of all military training institutions; and
> (e) Discontinuation of military expenditures.

In other words, from the general to the specific, the above provisions mean disbanding the U. S. Army, the U. S. Air Force and the U. S. Navy; destroying our nuclear stockpiles; shutting down the U. S. Military Academy, the U. S. Naval Academy and the U. S. Air Force Academy; discontinuing all military training, including ROTC units in schools and colleges; and ceasing all production of missiles and weapons of defense.

United Nations World Army

According to the Outline, another provision of the proposed Disarmament Treaty is:

> To insure that during and after implementation of general and complete disarmament, states also would support and provide agreed manpower for a United Nations Peace Force. . .

Three-Stage Disarmament

Stage I is to be completed within three years after ratification of the Disarmament Treaty. In addition to reducing the strength of U. S. armed forces, Stage I calls for a 30% reduction in

* *Congressional Record, pp. 6489-6496.*

such armaments as the B-52 aircraft, jet bombers and fighter planes, the Atlas missile, the Titan missile, Polaris missiles, including launching pads, submarine-launched missiles, anti-missile missile systems, aircraft carriers, battleships, cruisers, submarines, etc.

Stage I consists of three one-year steps. In the first step, according to the Disarmament Proposal:

> Armaments to be eliminated during Stage I would be placed in deposit under supervision of the International Disarmament Organization. During the second part of each step, the deposited armaments would be destroyed . . .

Of particular significance is the fact that the U. S. armaments to be ultimately destroyed under Kennedy's proposal consist of weapons in which the United States is superior to the Soviet Union, not only in quantity, but in quality. And **why should purely defensive weapons, such as anti-missile missile systems, which in no way menace the peace of the world, be destroyed?**

Stage II calls for further reducing armaments and armed forces, and the setting up of the United Nations Peace Force.

Under Stage III, complete disarmament will be accomplished within "an agreed period of time as promptly as possible." Under Stage III, **the abolition of the U. S. Army, Navy and Air Force, as well as military training establishments would be accomplished.**

The Disarmament Treaty under Stage I, proposes the establishment within the framework of the United Nations of an International Disarmament Organization (IDO) to supervise verification of the Disarmament Program.

COMMUNIST-DOMINATED U. N. WOULD RULE U. S.

According to the Basic Outline, under Stage II:

> The parties to the treaty would undertake to **accept without reservation**, pursuant to Article 36, Paragraph (1) of the Statute of the International Court of Justice, the **compulsory jurisdiction** of that court to decide international legal disputes.

As of November, 1962, the United States was outnumbered 109-1 in the United Nations, with the balance of power resting with Soviet bloc nations, Soviet-leaning nations, and so-called neutralist nations, plus representatives of newly-created jungle republics. Therefore it is to this Communist-controlled, anti-U. S. world organization that the promoters of Disarmament would give the power of life and death over the United States and its citizens.

An example of what could be expected from the proposed U. N. International Disarmament Organization (IDO) is the fact that the Disarmament Conference in Geneva to which the U. S. made its Disarmament Proposal consisted of 18 nations: 5 Soviet bloc nations (Bulgaria, Czechoslovakia, Poland, Roumania, and the Soviet Union); 5 Western nations (Britain, Canada, France, Italy, and the United States), and 8 so-called neutral nations (Burma, India, Nigeria, Ethiopia, Mexico, Brazil, the United Arab Republic, and Sweden). Five of these so-called neutralist nations (Burma, the United Arab Republic, Ethiopia, India, and Sweden) – a clear majority – recently voted in favor of seating Red China in the United Nations.

Because of the present composition of the U. N., the proposed International Disarmament Organization, which will "verify" disarmament, will undoubtedly consist of similar Soviet bloc or pro-Soviet nations who will set themselves upon the task of disarming and destroying the United States of America.

DESTRUCTION OF NATIONAL SOVEREIGNTY

This Disarmament Treaty, if ratified by the U. S. Senate, would automatically destroy the national sovereignty of the United States, because the treaty would:

(a) Destroy U. S. Armed Forces and armaments which are the only means by which any nation is able to maintain its national sovereignty; and

(b) Turn over to the International Court of Justic (World Court), of which the Soviet Union and its satellites are members, **the right to rule and make law on international and domestic matters affecting the United States.**

UNITED NATIONS WORLD ARMY

Under Stage II, the United Nations Peace Force would be established. It would be mandatory that all signers of the treaty contribute a specific quota of manpower and armaments to the U. N. Peace Force. Thus the so-called "Peace Force" would actually become the United Nations World Army, and the sole possessor of nuclear weapons.

Under Stage III, the U.N. World Army would be progressively strengthened until, according to the Disarmament Proposal **"it had sufficient armed forces and armaments so that no state (nation) could challenge it."**

UNIVERSAL SLAVERY

The Disarmament Proposal states that at the end of Stage III, parties to the treaty "would have at their disposal only those forces and organizational arrangements necessary for agreed forces to **maintain internal order . . .**"

That slavery of the individual is the ultimate aim of Kennedy's Disarmament Proposal is clearly evident in the section entitled "National Legislation" in Stage II which stipulates:

> Those parties to the treaty which had not already done so would . . . enact national legislation in support of the treaty, imposing legal obligations on individuals and organizations under their jurisdiction and providing appropriate penalties for non-compliance.

Shocking as the above revelation may be, evidence is at hand that the U. S. Defense Department is already gearing up to maintain "internal order" under the foregoing provisions. The following official notice appeared in OCTAGON, a publication of Headquarters VIII U. S. Army Corps, Austin, Texas, April, 1962:

> Special emphasis will be placed by the Army on counterinsurgency . . . .

General Herbert B. Powell, Commanding General of the U. S. Army Continental Army Command, defined "counterinsurgency" as:

> An action including all military, political, economic, psychological and sociological activities directed toward preventing and suppressing resistance groups whose actions range in degrees of violence and scope, from subversive political activity to violent actions by large guerrilla elements . . .

Because "counterinsurgency" is aimed at suppressing citizen resistance in such diverse areas as "political," "economic," "psychological," and "sociological," the question arises as to whether the Federal troops sent to the Ole Miss campus at Oxford, Mississippi had received "counterinsurgency" training.

Another aspect of the use of troops against citizens was brought out by Congressman James B. Utt of California, who recently declared:

> Under the Administration's program of Unilateral Disarmament, and the transfer of our military might to a United Nations-One World command, there would have been U.N. troops in Oxford, Mississippi.

WHAT YOU CAN DO

The U. S. Constitution (Art. II, Sec. 2, Clause 2) provides that the President "shall have power, by and with the advice and consent of the Senate, to make treaties providing two-thirds of the Senators **present** concur." This Disarmament Treaty, which will disarm and surrender the United States to the forces of international Communism, has not as yet been enacted into law. Liberty-loving Americans can and must take action now to prevent the Disarmament Treaty from ever being ratified by the Senate.

Write your two Senators today demanding that they vote against all Disarmament proposals. Tell them that their absence during such a crucial vote will be considered as a vote in favor of selling out this nation to International Communism.

Support Congressman James B. Utt's resolution calling for the withdrawal of the United States from the Communist-dominated United Nations.

Help spread the word exposing the dangers of Disarmament. Buy and distribute as many copies as you can of this pamphlet (TAX FAX No. 39). **The Disarmament proposal can and will be defeated if the American people are informed regarding its dangerous provisions.**

Write letters to the editor of your local newspaper using the documented facts in this pamphlet in order to warn the citizens in your community of this threat to the very survival of this nation as a Constitutional Republic.

Dear Editor:

Here is the October issue of THE INDEPENDENT AMERICAN, which was first published (but sent only to subscribers) on October 19, three days before President Kennedy's "quarantine Cuba" announcement. This issue was then revised on October 29.

May I call your particular attention to the following articles which you may find of interest:

"Specific Violations of U. S. Constitution by Kennedy" (the Oxford, Mississippi, incident) -- Page 2

"Who and What is Behind the Attempt to "Get" Walker?" -- Page 3

"Let a Libel Suit Decide," regarding editorial comments on General Walker's presence on the Ole Miss campus -- Page 4

"Walker Files Suit Against News Service" -- Page 4

If you should decide to make editorial comment on any of the above-mentioned articles, we would appreciate receiving a tear sheet.

Yours very truly,

Phoebe Courtney

THE TRUTH ABOUT GEN. WALKER

By Kent Courtney, Publisher

Elsewhere in this issue are discussed the violations of the Bill of Rights of the U.S. Constitution when General "Ted" Walker was, to all intents and purposes, kidnapped by Federal officials and spirited away to a Federal mental hospital in Springfield, Mo. Former Major General Edwin A. Walker thus became the Kennedy Administration's first political prisoner.

On October 2, Walker's attorney, Clyde Watts, retired Army General, stated after talking to Walker in the Federal prison hospital:

> "He at no time led any assault, charge, or overt act against any State or Federal officer, including U.S. marshals. He at no time incited anyone to riot or disorder."

Clyde Watts then went on to say that on Sunday night at the Ole Miss campus, Walker was standing near a Confederate monument, about 300 yards from the Administration Building, when several persons asked him to make a statement. Then, according to Watts:

> "General Walker made a statement that participants should avoid any semblance of violence, that the real war was in Cuba, not in Mississippi."

Watts then went on to say that Walker had "no missile, weapons, or rocks," and that he counseled the participants to avoid violence. This is borne out by a number of eye-witness accounts. Here's one that appeared in THE LION'S ROAR, a campus newspaper of the Southeastern Louisiana College. This eye witness, John David Lobue, who is presently studying at Ole Miss stated:

> "I returned to the Ole Miss campus at about 8 p.m. Sunday. The place was in an uproar . . . . The first barrage of tear gas had been shot. Someone flipped a cigarette at a marshal. Then pebbles, rocks and bricks. Early that evening Walker had yelled to the crowd that this was not the way to do it, but had been yelled down."

General Walker has been charged with inciting an insurrection and seditious conspiracy. Upon Walker's release, October 6, on $50,000 bail, Walker told a press conference:

> "There is no doubt in my mind that I am guilty of none of these charges."

At another press conference upon his return to Dallas, where he was cheered by a welcoming committee of 200, Walker replied sharply, "Certainly not," when asked if he was guilty of the charges against him. Supporters who had crowded into the conference room shouted their approval.

An Associated Press dispatch [illegible]

LOONY-GO-ROUND

By Congressman H. R. Gross

Few people realize the magnitude of the financial support the United States has given to United Nations operations in the Congo and the Middle East.

Through June 30, 1962, we have contributed $57,633,673 for the U.N. Emergency Force in the Middle East, $114,489,290 for military operations in the Congo and $98,271,953 in support of the U.N. economic program in the Congo. This comes to a grand total of $270,394,916 --- or well over a quarter of a billion dollars!

Included in the amounts we have spent on the Middle East Force and the military force in the Congo are VOLUNTARY contributions totaling $84,856,440. Although the U.N. General Assembly was quick to adopt resolutions calling on the larger member nations to make "sizable additional contributions," over and above their regular assessments, it should come as no surprise that Uncle Sucker was the only one to respond.

The same resolutions provided for reductions in the assessments of a number of member nations by 80 per cent, INCLUDING SEVERAL COMMUNIST COUNTRIES. What all this means, in effect, is that your hard earned tax dollars have been used to meet a substantial continues to vanish. For the first time in 17 years some $500 million worth of gold had to be removed from Fort Knox, Kentucky, to meet the foreign demand. This, reportedly, leaves the gold supply at Fort Knox at $12 billion -- less than enough to meet the commitments to foreigners if they demand payment in gold.

It is interesting to note that in 1960-61, the U.S. increased its foreign aid program to Argentina. Yet in those two years, Argentina sent 150 million American dollars to this country, demanded gold in exchange, and got it. This kind of financial manipulation is beyond comprehension.

A $75 MILLION PALACE

Now comes a news dispatch that $75,000,000 is to be spent in rebuilding the presidential palace in Saigon, Viet Nam, the southeast Asian country into which the U.S. has poured hundreds of millions of dollars in economic and military assistance.

It isn't clear from the news dispatch how the palace is being financed but one of two things is crystal clear: (1) if American taxpayers are being plucked for $75 million to rebuild this

who is presently studying at Ole Miss stated:

> "I returned to the Ole Miss campus at about 8 p.m. Sunday. The place was in an uproar . . . . The first barrage of tear gas had been shot. Someone flipped a cigarette at a marshal. Then pebbles, rocks and bricks. Early that evening Walker had yelled to the crowd that this was not the way to do it, but had been yelled down."

General Walker has been charged with inciting an insurrection and seditious conspiracy. Upon Walker's release, October 6, on $50,000 bail, Walker told a press conference:

> "There is no doubt in my mind that I am guilty of none of these charges."

At another press conference upon his return to Dallas, where he was cheered by a welcoming committee of 200, Walker replied sharply, "Certainly not," when asked if he was guilty of the charges against him. Supporters who had crowded into the conference room shouted their approval.

An Associated Press dispatch concerning this same press conference quoted Walker as saying:

> "Some of the most fantastic stories have been printed, which at the trial will be proved false."

The activities of a man by the name of Claud F. Clayton on the day of October 2 should certainly be subjected to scrutiny. Claud Clayton is a Brigadier General in the Mississippi National Guard, which was federalized by President Kennedy in the Mississippi crisis. But -- this same man, Clayton, is also U.S. District Judge for Northern Mississippi. On Tuesday, October 2, the Defense Department released Brigadier General Clayton from U.S. duty and returned him to the Federal bench. One of his first acts when resuming his judicial duties was to order psychiatric treatment for General Walker who, by Tuesday, had been shipped, disregarding all Constitutional safeguards, to the Springfield mental hospital. It was Clayton's order for psychiatric treatment that prevented General Walker from being immediately released under bond.

Judge Clayton's order was issued on the basis of testimony by one Dr. Charles E. Smith, a Bureau of Prisons psychiatrist who had never even seen Walker, and who based his conclusions of the need for psychiatric treatment of Walker on news accounts of Walker's activities at Ole Miss and allegedly on a short examination of Walker's medical history.

Fantastic? - Yes! Proposterous? - Yes! But it happened!

WALKER'S MEDICAL RECORD

In order to keep the record straight, let us go back and examine previous reports on Walker's health, both physical and mental. In view of all the obvious illegalities of the railroading of Walker to a mental hospital, it is not beyond the realm of possibility that his medical records might have been tampered with by persons unknown. However, such tampering would avail the perpetrators little, because there is an official record of Walker's mental health in the public records.

In January, 1961, Major General Edwin A. Walker filed a complaint in Germany charging a reporter by the name of Siegfried Naujocks with slandering him (Walker) by telling two soldiers that the General behaved erratically because he had a brain tumor. At the time of this complaint Major General Walker was in command of the 24th Infantry Division in Germany. A U.S. Army doctor, Captain Herbert Caplan, was called as a witness in the slander trial on September 21, 1961. Dr. Caplan, who had examined General Walker in November, 1960, told the German court:

> "I am satisfied General Walker was in good health."

A German court convicted Siegfried Naujocks, a reporter for the OVERSEAS WEEKLY, of slandering Major General Edwin A. Walker by spreading reports that he had a brain tumor. Naujocks, a German citizen, was ordered to pay a fine of about $300 or go to jail for 30 days.

WALKER RESIGNED FOLLOWING PROMOTION

It is interesting to note in national news stories concerning Walker and Ole Miss, that the events of his Army career during the year 1961 are usually summarized very briefly as follows:

> "Walker resigned his commission on November 4, 1961. His resignation came after he had been relieved of command of the 24th Division in Germany, following investigation of complaints about his troop indoctrination program."

However, it is most definitely worthy of note that such capsule summaries, deliberately or not, leave out several very important aspects of the termination of Walker's Army career. For example,

General Assembly was quick to adopt resolutions calling on the larger member nations to make "sizable additional contributions," over and above their regular assessments, it should come as no surprise that Uncle Sucker was the only one to respond.

The same resolutions provided for reductions in the assessments of a number of member nations by 80 per cent, INCLUDING SEVERAL COMMUNIST COUNTRIES. What all this means, in effect, is that your hard earned tax dollars have been used to meet a substantial share of the financial obligations of several countries in the Soviet bloc. This is an incredible situation.

OUR VANISHING GOLD

The United States gold supply

A $75 MILLION PALACE

Now comes a news dispatch that $75,000,000 is to be spent in rebuilding the presidential palace in Saigon, Viet Nam, the southeast Asian country into which the U.S. has poured hundreds of millions of dollars in economic and military assistance.

It isn't clear from the news dispatch how the palace is being financed but one of two things is crystal clear: (1) if American taxpayers are being plucked for $75 million to rebuild this palace then the U. S. officials who gave approval ought to have their heads examined, and (2) if the Viet Nam government has that kind of money for such purpose it doesn't need another dime from the taxpayers of this country.

What will it profit mankind to win the space race, gain the moon, and explore the great uncharted sea of space, if we lose the earth to the Communists? -- J. Kesner Kahn

Substitute For The Dungeon?

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

There was a time when tyrants in power handled their opponents and critics easily by simply having them seized and thrown in a dungeon. But that is old-fashioned and would be generally frowned upon in better circles today. Is there a new technique for the same old thing?

Take the case of Gen. Edwin A. Walker, for example. There are two things about controversial Gen. Walker that should be noted in the beginning. One is that he is a much-decorated and undoubted hero of dangers military service for our country, which he loves. The other is that when trouble was brewing in Mississippi he would have been wiser to stay at home in Texas rather than to go to the Ole Miss campus. But he went. What he did there is open to conflicting testimony these days. In any event, he was charged with grave Federal crimes.

But after his arrest, he was hauled off far from Mississippi to Missouri, where he was put into a Federal hospital for confinement, with the implication freely put out by his captors that it was for psychiatric reasons. What better way can reflection be cast on a man than to suggest he may be nuts?

At least, Gen. Walker is to be presumed innocent until proved guilty. While he was held on $100,000 bond - which brought to mind the Constitution's requirements that a man has a right to be tried in the state where the alleged crime has been committed, and that he has a right to reasonable bail - steps were taken to subject Gen. Walker to a psychiatric examination against his will. This process would have rendered it impossible for him to obtain freedom on bail during the course of the 60-to-90-day examination, even if he could raise the $100,000.

And the kind of examination he was likely to get was clearly shown when a Government psychiatrist at the hospital was quoted as saying Gen. Walker's past actions indicated "paranoid mental disorders" and "functional and psychosomatic disorders."

Now, we don't pretend to know just what Gen. Walker's psychological condition is - but the Government psychiatrist who made those statements, and presumably would have made the "examination" that would have held Gen. Walker in captivity up to three months without his having been convicted of ahy crime, doesn't know either.

For the psychiatrist who thus smeared Gen. Walker was not going on first-hand evidence. He admitted he was judging by reports he had read in the press.

This is fine - psychiatric examination by newspaper clippings! Maybe the psychiatrist is in need of examination, if the climate

WALKER'S MEDICAL RECORD

In order to keep the record straight, let us go back and examine previous reports on Walker's health, both physical and mental. In view of all the obvious illegalities of the railroading of Walker to a mental hospital, it is not beyond the realm of possibility that his medical records might have been tampered with by persons unknown. However, such tampering would avail the perpetrators little, because there is an official record of Walker's mental health in the public records.

In January, 1961, Major General Edwin A. Walker filed a complaint in Germany charging a reporter by the name of Siegfried Naujocks with slandering him (Walker) by telling two soldiers that the General behaved erratically because he had a brain tumor. At the time of this complaint Major General Walker was in command of the 24th Infantry Division in Germany. "I am satisfied General Walker was in good health."

A German court convicted Siegfried Naujocks, a reporter for the OVERSEAS WEEKLY, of slandering Major General Edwin A. Walker by spreading reports that he had a brain tumor. Naujocks, a German citizen, was ordered to pay a fine of about $300 or go to jail for 30 days.

WALKER RESIGNED FOLLOWING PROMOTION

It is interesting to note in national news stories concerning Walker and Ole Miss, that the events of his Army career during the year 1961 are usually summarized very briefly as follows:

> "Walker resigned his commission on November 4, 1961. His resignation came after he had been relieved of command of the 24th Division in Germany, following investigation of complaints about his troop indoctrination program."

However, it is most definitely worthy of note that such capsule summaries, deliberately or not, leave out several very important aspects of the termination of Walker's Army career. For example, no explanation is made of the type of troop indoctrination program which Walker had instituted for his troops. It was an anti-Communist indoctrination program.

It is not strange that even though General Walker was given an offical reprimand, nevertheless because of Congressional pressure on the part of Representatives who supported Walker's anti-Communist troop training program, the Army announced on October 13, 1961, that orders had just been issued to Walker to go to Pacific Headquarters in Hawaii to be Assistant Chief of Staff for Operations, Plans and Training? The assignment of General Walker to such a responsible position was clearly a vindication of the unsubstantiated charges which had previously been made against him by the Kennedy Administration.

It could be that those who conspired to railroad General Walker to a Federal mental hospital are unaware of the fact that before he resigned from the Army, General Walker was given a physical examination prior to being assigned to Hawaii. After receiving a "clean bill of health," he resigned, not to avoid trouble or criticism, but to carry his fight against those in our government who are following a "no win" policy of appeasement.

soon. But that is old-fashioned and would be generally frowned upon in better circles today. Is there a new technique for the same old thing?

Take the case of Gen. Edwin A. Walker, for example. There are two things about controversial Gen. Walker that should be noted in the beginning. One is that he is a much-decorated and undoubted hero of dangers military service for our country, which he loves. The other is that when trouble was brewing in Mississippi he would have been wiser to stay at home in Texas rather than to go to the Ole Miss campus. But he went. What he did there is open to conflicting testimony these days. In any event, he was charged with grave Federal crimes.

But after his arrest, he was hauled off far from Mississippi to Missouri, where he was put into a Federal hospital for confinement, with the implication freely put out by his captors that it was for psychiatric reasons. What better way can reflection be cast on a man than to suggest he may be nuts?

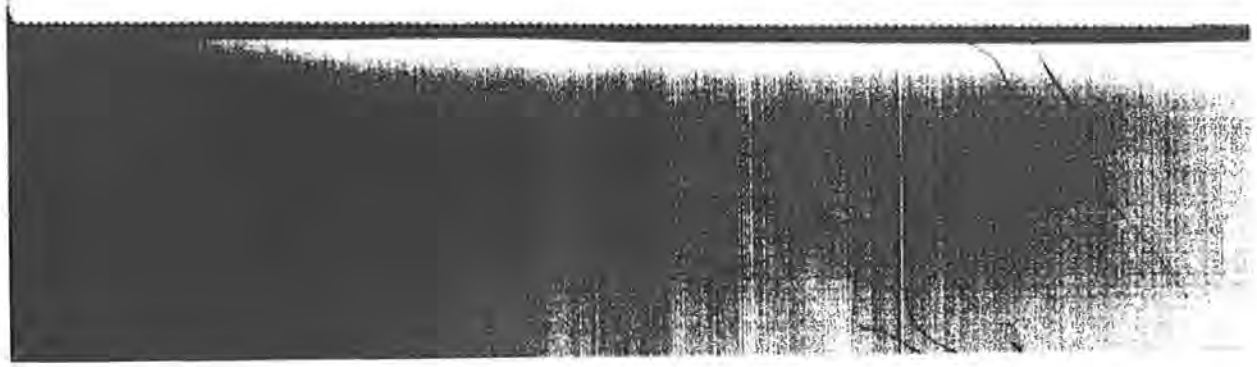
At least, Gen. Walker is to be presumed innocent until proved guilty. While he was held on $100,000 bond - which brought to mind the Constitution's requirements that a man has a right to be tried in the state where the alleged crime has been committed, and that he has a right to reasonable bail - steps were taken to subject Gen. Walker to a psychiatric examination against his will. This process would have rendered it impossible for him to obtain freedom on bail during the course of the 60-to-90-day examination, even if he could raise the $100,000.

And the kind of examination he was likely to get was clearly shown when a Government psychiatrist at the hospital was quoted as saying Gen. Walker's past actions indicated "paranoid mental disorders" and "functional and psychosomatic disorders."

Now, we don't pretend to know just what Gen. Walker's psychological condition is - but the Government psychiatrist who made those statements, and presumably would have made the "examination" that would have held Gen. Walker in captivity up to three months without his having been convicted of any crime, doesn't know either.

For the psychiatrist who thus smeared Gen. Walker was not going on first-hand evidence. He admitted he was judging by reports he had read in the press.

This is fine - psychiatric examination by newspaper clippings!



Maybe the psychiatrist is in need of examination, if the clippings about his diagnosis in absence of the patient are correct.

With public attention having been called to this situation, somebody apparently thought it was too much, for Gen. Walker's bail was reduced to $50,000 and he was allowed to make it and go free. Under the court order that freed him, however, Gen. Walker must undergo a psychiatric examination at Dallas.

If we are not careful, in this enlightened age we might find psychiatric restraint has become a modern substitute for the medieval dungeon, to provide tyrants a convenient riddance of troublesome critics. This case is by no means the first to raise such a point.

Therefore, would it not appear that this Dr. Charles E. Smith, Medical Director and Chief Psychiatrist of the Federal Bureau of Prisons, in recommending psychiatric treatment for General Walker, relied solely on newspaper clippings and not on General Walker's Army medical records?

(NOTE: If you wish to help General Walker, you may send a contribution to Walker Defense Fund, Box 2428, Dallas 21, Texas.)

and then Japan was released to government by its own people.

In Mississippi, the Federal authorities have announced they plan to continue for 18 months the military occupation they have imposed without Constitutional authority to carry out unconstitutional decrees.

U.S. officials say James Meredith, the 29-year-old Negro who has been forced into the University of Mississippi with military power after the governor of the state rejected his application, will require 18 months to complete the course of study he has outlined for himself.

So, say Federal officials, U. S. marshals and U.S. troops will remain with him as an army of occupation in Mississippi.

It would be most interesting and informative if the Kennedy Administration would point out the section of the Constitution

In fact, the Constitution provides in Article IV, Section 4, that the Federal Government is obligated to guarantee the states "a Republican Form of Government" - that is a representative government by local officials of the people's choice. By imposing an army of occupation, the Federal authorities are violating that constitutional provision. The same section provides for the use of Federal troops in a state on two conditions: 1. Request for their presence by the Legislature of the state. 2. Request by the governor of the state in event the Legislature is not in session and cannot be convened with the speed necessary for the situation.

If the Mississippi Legislature or the Mississippi governor has asked for a Federal army of occupation for the present or for the next 18 months, surely the news has escaped the notice of the American people.

ON THE MARSHALS' HANDS

(Reprinted from RICHMOND (Va.) NEWS LEADER)

More than eight years of frustration, resentment and suppressed emotions burst like a festering boil at Oxford, Mississippi, September 30; and such is the prejudice of most Northern publications that the Ole Miss students - and the State as such - are certain to be charged with blame for the rioting. The charge is unfair. Whatever Mississippi's faults may be, the riot itself was touched off by the Federal marshals.

It is important that this fact be understood, out of fairness to a great many sober and decent persons in Governor Barnett's administration. Perhaps because they are Southerners, and hence foredoomed to a sense of failure, they were psychologically prepared to yield to superior forces in the Meredith crisis. Their entire planning Saturday and Sunday had been based upon the most dramatic way of yielding, and they had worked diligently to maintain an atmosphere of dignity and non-violence. All these plans vanished with the wind a little after 8 o'clock last night.

Eyewitnesses at Oxford, including reporters and radio-television men from several States, agree that the first student demonstrations were high-spirited, but peaceful in tone. The young men and women were shouting, booing, and raising some Ole Miss yells. As their group moved closer to the administration building, where helmeted marshals had formed a cordon, the marshals asked help from State highway patrolmen. These officers joined hands, with their backs to the surging students and began to press the mob backward. At this juncture, a trigger-happy marshal lobbed a tear gas shell. Other shells followed swiftly. Ironically, one of the first casualties was a Mississippi officer, Wibley Brunt, struck full in the chest by a tear gas shell as he attempted to hold the students back. Two other Mississippi officers suffered less serious injuries from the marshals' fire.

The tear gas "set the students mad," according to a Jackson cameraman, who witnessed the riot's beginning. In his review, the marshals "simply had no experience in handling this sort of thing - they were jittery, and they panicked." A Jackson newspaper reporter who returned from the scene about 6 A.M. was bitter in his denunciation of the Federal agents. Until the moment they arrived by airlift Sunday afternoon, there had been no violence of any sort in Mississippi. "They precipitated the whole thing," he said. "Once they started the tear gas barrage, outsiders began to flood onto the campus. The situation got out of hand so fast you wouldn't believe it, it could have been prevented if the marshals had kept their heads."

unilaterally.

But the Conservative editors who rushed into print praising Ken-

BULLETIN

This is a revised edition of the October issue. The original edition, which went to press October 19, - three days before President Kennedy ordered a "quarantine" of Communist Cuba, carried an announcement of a 3-day Conservative Protest Conference and "Blockade Cuba" Rally. This conference and rally, sponsored by THE INDEPENDENT AMERICAN and The Conservative Society of America was to have been held in Chicago, November 15, 16 and 17.

However, in view of the 7-day Cuban Crisis and the so-called dismantling of the Cuban missile bases, this previously-scheduled Conservative Protest Conference in Chicago has now been postponed until the early part of 1963.

nedy's quarantine pronouncement should have first read -- and in its entirety -- his speech on October 22. If they had, this is what they would have found:

MONROE DOCTRINE NOT MENTIONED

One Conservative newspaper on October 24 editorialized by stating:

> "The seven 'initial steps' -- the President's own phrase -- set forth by Mr. Kennedy, constitute the strongest and most sweeping use and exposition of the Monroe Doctrine since its principles were set forth in a State of the Union message to Congress by President James Monroe on December 2, 1823."

We disagree! The Monroe Doctrine was intended to be a shield to make it impossible for any foreign power to "extend their political system to any portion" of the Western Hemisphere. It is obvious that the reason why Kennedy did NOT mention the Monroe Doctrine anywhere in his speech is that HE DID NOT INTEND FOR HIS QUARANTINE TO INTERFERE IN ANY WAY WITH THE COMMUNIST POLITICAL SYSTEM WHICH HAS TAKEN OVER CUBA AND IS NOW INFILTRATING OTHER LATIN AMERICAN GOVERNMENTS!

Kennedy's "quarantine" of Cuba is restricted solely to offensive weapons. Further, an Associated Press dispatch of October 23 quotes a Defense Department spokesman as saying that in carrying out the quarantine, if offensive weapons are found on the intruding ship, the captain of the ship will be told he can head for any port other than Cuba! It can thus be seen that rather than curtailing Communism in the Western Hemisphere, Kennedy's quarantine could, under the terms outlined above, actually aid in spreading Communism throughout the Western Hemisphere because such Soviet offensive weapons can be unloaded in some other Latin American port.

WHY THE LID ON MILITARY INTELLIGENCE?

One of the most astounding statements in Kennedy's speech on Monday, October 22, was the following:

> "Within the past week, unmistakable evidence has established the fact that a series of offensive missile sites is now in preparation on the imprisoned island. The purpose of these bases can be none other than to provide a nuclear strike capability against the Western Hemisphere."

It is indeed a pity that Mr. Kennedy is not a subscriber of THE INDEPENDENT AMERICAN. If he had been, he would have received a special letter we wrote to our subscribers on September 15 containing an excerpt from Senator Strom Thurmond's newsletter, as follows:

> "There is substantial evidence that there are now at least four intermediate range ballistic missile bases in Cuba."

In another special letter to our subscribers of October 9, we went into additional detail regarding ballistic missiles of intermediate range and their specific location in Cuba according to information received from the underground division of the Cuban Student Directorate. As a matter of fact, this newspaper has been warning of Soviet missile bases in Cuba since our October-November, 1961, issue, one year ago! We do not believe it possible that the President of the United States would only have received this

Army of Occupation

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

After World War II, defeated Nazi Germany was occupied until civil government acceptable to the conquerors could be resumed, and then American occupation and control ended.

Following the defeat of Japan, military occupation was imposed for a number of years, and then Japan was released to government by its own people.

In Mississippi, the Federal authorities have announced they plan to continue for 18 months the military occupation they have imposed without Constitutional authority to carry out unconstitutional decrees.

U.S. officials say James Meredith, the 29-year-old Negro who has been forced into the University of Mississippi with military power after the governor of the state rejected his application, will require 18 months to complete the course of study he has outlined for himself.

So, say Federal officials, U. S. marshals and U.S. troops will remain with him as an army of occupation in Mississippi.

It would be most interesting and informative if the Kennedy Administration would point out the section of the Constitution that provides for a Federal army of occupation to be imposed on any state.

The States created the Constitution and the Federal Government, and did not delegate to the central government the power to send [illegible] its creators.

In fact, the Constitution provides in Article IV, Section 4, that the Federal Government is obligated to guarantee the states "a Republican Form of Government" - that is a representative government by local officials of the people's choice. By imposing an army of occupation, the Federal authorities are violating that constitutional provision. The same section provides for the use of Federal troops in a state on two conditions: 1. Request for their presence by the Legislature of the state. 2. Request by the governor of the state in event the Legislature is not in session and cannot be convened with the speed necessary for the situation.

If the Mississippi Legislature or the Mississippi governor has asked for a Federal army of occupation for the present or for the next 18 months, surely the news has escaped the notice of the American people.

By Phoebe Courtney, Editor

Faced with daily growing indications of his fast-waning popularity, and after having been briefed by leading members of the Democrat Party machine that the Democrat Party in all probability faced disastrous losses in the November Congressional elections, Kennedy announced what appears to be a carefully contrived device to regain public confidence. Relying on the "hope-springs-eternal-in-the-human-breast" instinct of man, and also on the instinct to defend oneself against one's enemies, Kennedy knew that his announcement of a quarantine of Cuba would receive overwhelming support throughout the nation. As a matter of fact, on October 26, the White House announced that as of that time more than 48,000 telegrams had been received, and that 95% supported the quarantine announcement.

Conservative newspapers throughout the country, long-time critics of Kennedy's Communist-accommodating foreign policy, rushed into print paeans of praise of Kennedy's actions. Many of these hasty praisers, as well as the overwhelming majority of the American people, chose to rely on assumption and wishful thinking, rather than on fact. It was assumed by all and sundry that a quarantine meant that a ring of steel would be thrown around Cuba, and that to all intents and purposes the invading Soviet technicians and Soviet troops in Cuba would become prisoners on the island; and that such a situation would prevail until all Soviet troops were either captured by Cuban freedom fighters, or given safe conduct back to the Soviet Union.

It would appear that Kennedy's speech writers are becoming increasingly aware of certain terminology which they know will gain wide acceptance by Conservative anti-Communist patriotic Americans. Witness this phrase in Kennedy's "fireside chat" with the nation on Monday night:

> "Acting, therefore, in the defense of our own security, and that of the entire Western Hemisphere, and under the authority entrusted to me by the Constitution as endorsed by the resolution of the Congress, I have directed that the following initial steps be taken immediately."

THE INDEPENDENT AMERICAN frankly confesses that Kennedy's reference to the Constitution came as a distinct shock. We did not know that Kennedy had even a speaking acquaintance with the Constitution in view of his recent actions in sending Federal troops to the sovereign State of Mississippi!

Kennedy's speech was obviously intended to create the impression that the United States was, at long last, throwing off the chains of [illegible] to the Soviet Union, and was once more standing forth as the leader of the free world, with the courage to act unilaterally.

But the Conservative editors who rushed into print praising Kennedy's quarantine pronouncement should have first read -- and in its entirety -- his speech on October 22. If they had, this is what they would have found:

MONROE DOCTRINE NOT MENTIONED

One Conservative newspaper on October 24 editorialized by stating:

By Phoebe Courtney, Editor

Faced with daily growing indications of his fast-waning popularity, and after having been briefed by leading members of the Democrat Party machine that the Democrat Party in all probability faced disastrous losses in the November Congressional elections, Kennedy announced what appears to be a carefully contrived device to regain public confidence. Relying on the "hope-springs-eternal-in-the-human-breast" instinct of man, and also on the instinct to defend oneself against one's enemies, Kennedy knew that his announcement of a quarantine of Cuba would receive overwhelming support throughout the nation. As a matter of fact, on October 25, the White House announced that as of that time more than 48,000 telegrams had been received, and that 95% supported the quarantine announcement.

Conservative newspapers throughout the country, long-time critics of Kennedy's Communist-accommodating foreign policy, rushed into print paeans of praise of Kennedy's actions. Many of these hasty praisers, as well as the overwhelming majority of the American people, chose to rely on assumption and wishful thinking, rather than on fact. It was assumed by all and sundry that a quarantine meant that a ring of steel would be thrown around Cuba, and that to all intents and purposes the invading Soviet technicians and Soviet troops in Cuba would become prisoners on the island; and that such a situation would prevail until all Soviet troops were either captured by Cuban freedom fighters, or given safe conduct back to the Soviet Union.

It would appear that Kennedy's speech writers are becoming increasingly aware of certain terminology which they know will gain wide acceptance by Conservative anti-Communist patriotic Americans. Witness this phrase in Kennedy's "fireside chat" with the nation on Monday night:

> "Acting, therefore, in the defense of our own security, and that of the entire Western Hemisphere, and under the authority entrusted to me by the Constitution as endorsed by the resolution of the Congress, I have directed that the following initial steps be taken immediately."

THE INDEPENDENT AMERICAN frankly confesses that Kenne-

SUBSCRIPTION RATE: One year (or 12 issues): $3.00; two years (or 24 issues): $5.00.

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to *LOVE OF GOD AND AN INDEPENDENT U.S.A.*

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without this regular support, this experiment in patriotic and political journalism would not be possible.

Questions About Walker Case

(Reprinted from ROCKFORD (Ill.) MORNING STAR)

When former Maj. Gen. Edwin A. Walker decided to go to Mississippi and participate personally in the protest against federal troop intervention in the issue of registration of a Negro student at the state university, he used exceedingly bad judgment.

Whether he is guilty of anything else is yet to be proved. Attorney General Robert Kennedy has charged Walker with assorted crimes, ranging from assaulting a U.S. marshal to rebellion, insurrection, and seditious conspiracy. Walker may be guilty, or he may not. That is a matter for a judge and jury to decide.

But there are some other issues here that demand public discussion, and official explanation.

Why was Gen. Walker's bond set at $100,000, which by coincidence happens to be the same bond set for the late Robert Soblen, the convicted Soviet spy who jumped his bond and under curious circumstances escaped to Israel? Was there any question but that Walker, a retired army general, would be available for future trial? Why the necessity for the exorbitant bond?

Second, why was Walker rushed off to a government mental hospital on the basis of a "diagnosis" by a government psychiatrist who had never seen Walker but who based his opinions on news accounts of Walker's behavior? The government psychiatrist - Dr. Charles E. Smith of the federal bureau of prisons - in a period of less than 24 hours after the Oxford riots read all the news reports, studied extensive reports of Walker's previous activities as well as Walker's army medical records, and dictated and signed an affidavit which resulted in a federal judge's assigning the former general to a mental hospital. Dr. Smith must have been a busy man.

SPECIFIC VIOLATIONS OF U. S. COI

(Reprinted from CHATTANOOGA NEV

With an application of force against Mississippi unequaled by application of force against Communist Cuba, the Warren Supreme Court and President Kennedy have sowed the wind and the nation has reaped the whirlwind, as two lie dead and others bear wounds triggered by dictatorial and illegal actions to which the response was unconscionable violence.

Despite pious protestations to the contrary, the Federal action against Mississippi violated the Constitution in a number of ways and therefore those who dictated it must bear responsibility for the horrible results.

VIOLENCE UNJUSTIFIED

Even though Federal force has crushed the Constitution and law, the proper response for Americans is protest with loud voices and clear reason, citation of the Constitution to alert their fellow citizens to what it means - so that by marshaling public opinion the rights the Constitution clearly defines may be recovered and preserved.

These are neither the times nor the issues to resort to the revolution that Thomas Jefferson spoke of as man's right. These are times for proof that though truth be crushed to earth, dedicated men and women displaying the loftiest and most forebearing sort of good citizenship can bring the issues into the forum of public debate that may yet awaken our people to the dangers of unconstitutional and usurped centralized power, so truth may rise again.

BEYOND THE SHOCK

So shocked and saddened is our nation today by the reprehensible rioting that has been sparked by Federal force in Mississippi, it is difficult for calm and reasoned debate of the issues.

President Kennedy has never demonstrated himself to have a heart bleeding for minorities or a spirit wracked with pain over alleged injustice. Rather, he has shown himself to be an arrogant, spoiled, vindictive and coldly calculating seeker of political power based on votes garnered by whatever scheme may best at the time serve his purposes. So his action in the Mississippi case has been more political than principled.

This author of a book called Profiles in Courage, hailing men who stood for principle at the cost to them of popularity and votes such as he so avidly seeks, has displayed a profile of cowardice in refusing to face the international issues such as Communist Cuba while asserting authority contrary to the Constitution against his own countrymen in Mississippi. As he gathered force to apply against Mississippi, he federalized the Mississippi National Guard so he might make it do his will against the guardsmen's own people.

WHAT LAW?

All of this he has clouded in protestations that he is acting "to uphold the lawr," as he pronounces it. And here the case of those who uphold the central dictatorship falls flat on its face.

What law?

What law do they uphold? They have never yet cited any real law to justify their position, relying only on decrees by appointed men which are not "the law" in our Republic.

THE LAW OF THE LAND

The Constitution of the United States clearly defines in Article VI what "the law of the land" is: "This Constitution and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made under the authority of the United States, shall be the supreme Law of the Land."

Those who speak of the Federal aggression in terms of "law" cannot cite a single section of the Constitution, a single act pass-

circumstances escaped to Israel? Was there any question but that Walker, a retired army general, would be available for future trial? Why the necessity for the exorbitant bond?

Second, why was Walker rushed off to a government mental hospital on the basis of a "diagnosis" by a government psychiatrist who had never seen Walker but who based his opinions on news accounts of Walker's behavior? The government psychiatrist - Dr. Charles E. Smith of the federal bureau of prisons - in a period of less than 24 hours after the Oxford riots read all the news reports, studied extensive reports of Walker's previous activities as well as Walker's army medical records, and dictated and signed an affidavit which resulted in a federal judge's assigning the former general to a mental hospital. Dr. Smith must have been a busy man. How did it happen that Walker's army medical reports were instantly available to him? What was his interest in the case? Who assigned him to his task? Is it standard psychiatric procedure to diagnose patients without ever having seen them? Dr. Smith even had time to read Walker's testimony last April before a Senate committee.

There is logical reason for suspicion in this case that the skids were all greased to railroad Walker into a mental hospital before he ever reached Oxford.

Third, there is the issue of a federal district judge's obvious delay in action on a writ of habeas corpus. Walker was arrested Monday night.

It was not until late Saturday that the federal judge reduced Walker's bond to $50,000 and signed an order releasing Walker on bond, with a proviso that Walker is to report within five days for psychiatric examination. This action came after Walker's attorneys on Thursday had filed a habeas corpus writ.

Can any opponent of federal government policy now be tucked away in a mental hospital for a week before even getting a hearing on the question of whether he is entitled to bail?

This is not the first time the Kennedy administration has used a mental hospital as a lockup for real or imagined enemies. Last spring a Mary Jones, an Agriculture Department secretary with the records in the Billie Sol Estes case, suddenly was taken to a mental institution. Her attorneys fought for 12 days to get her out. She later was found completely sane.

What law?

What law do they uphold? They have never yet cited any real law to justify their position, relying only on decrees by appointed men which are not "the law" in our Republic.

THE LAW OF THE LAND

The Constitution of the United States clearly defines in Article VI what "the law of the land" is: "This Constitution and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made under the authority of the United States, shall be the supreme Law of the Land."

Those who speak of the Federal aggression in terms of "law" cannot cite a single section of the Constitution, a single act passed by Congress, or a single treaty that provides them any basis for their emotional, vote-buying, revolutionary position. The Constitution does not say that a decree by a court is "the law of the land." If it were, Americans would live in a dictatorship, for our Federal judiciary is appointed and unresponsive to the people. We would be at the unmerciful mercy of a panel of nine dictators on the Supreme Court who could rule as they willed, and demand Federal force to carry out their orders against an enslaved populace.

CONSTITUTIONAL GOVERNMENT

The United States of America was created by the States, not the States by the national government. The creation was accomplished

A "KENNEDY BROTHERS" TICKET IN 1964?

According to a recent column of Walter Trohan, syndicated columnist, Mrs. Eunice Kennedy Shriver, sister of the President and wife of the commander in chief of the Peace Corps, reportedly asked a newsman what he thought of a Kennedy-Kennedy ticket in 1964 -- brother John and brother Robert, the Attorney General.

Even though, as Trohan put it, the newsman had "stars in his new frontier eyes," he exclaimed "You wouldn't dare!"

"What's wrong with that?" Mrs. Shriver challenged. "Nothing that I can think of."

Aiding Enemies

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

Hardly anybody will disagree that it would be incredibly foolish to give your enemy a gun to shoot you with. Why, then, wouldn't it be just as foolish to give your enemy money to buy a gun to shoot you with? Or to give him money or goods which would make it possible for him to use his own money to buy a gun to shoot you with?

The compromise agreement reached by Senate and House conferees on the foreign aid appropriations bill includes a distressing example of this type of foolishness. It was agreed, properly, that foreign aid handouts would be banned to any country which allows its ships to transport to Communist Cuba either military or strategic materials, and it was also agreed that President Kennedy would be forbidden to provide any military equipment of any nature to Communist governments, including Yugoslavia and Poland.

But the whole purpose of stopping our government from helping our enemies with the money

It was not until ... Walker's bond to $50,000 and signed an order releasing Walker on bond, with a proviso that Walker is to report within five days for psychiatric examination. This action came after Walker's attorneys on Thursday had filed a habeas corpus writ.

CONSERVATIVE PROGRAMS AVAILABLE FOR LOCAL SPONSORSHIP

If you and your friends, or your business firm, would like to have these programs played over your local radio station, just write to Kent Courtney, P. O. Box 4223, New Orleans 18, Louisiana, for complete details.

The purpose of THE RADIO EDITION OF THE INDEPENDENT AMERICAN is to give the Conservative side of the vital issues concerning this country today.

Aiding Enemies

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

Hardly anybody will disagree that it would be incredibly foolish to give your enemy a gun to shoot you with. Why, then, wouldn't it be just as foolish to give your enemy money to buy a gun to shoot you with? Or to give him money or goods which would make it possible for him to use his own money to buy a gun to shoot you with?

The compromise agreement reached by Senate and House conferees on the foreign aid appropriations bill includes a distressing example of this type of foolishness. It was agreed, properly, that foreign aid handouts would be banned to any country which allows its ships to transport to Communist Cuba either military or strategic materials, and it was also agreed that President Kennedy would be forbidden to provide any military equipment of any nature to Communist governments, including Yugoslavia and Poland.

But the whole purpose of stopping our government from helping our enemies with the money of American taxpayers was defeated when the conferees agreed to allow the President to hand over "economic" assistance to the Communist governments of Poland and Yugoslavia. The House had seen the danger in this and voted against it. But under the compromise reached yesterday, Mr. Kennedy would still have the power to hand over American foreign aid directly to two of our Red enemies.

under terms of the Constitution.

In Article I, the Legislative power is delegated to the Congress - the power to pass laws restricted only by the fact that they must not violate the terms of the Constitution.

In Article II, the Executive powers are delegated to the President; who does not "rule," who has no legal monarchical powers, but who may act only within bounds prescribed by the Constitution in carrying out the specific laws passed by the Congress and performing the other tasks specifically delegated to him.

In Article III, the Judicial powers are delegated to the Supreme Court and such lower courts as may be created. But the Supreme Court and others are not given any power to issue decrees that shall alter the law, or extend the law, or amend the Constitution. The judiciary cannot legally and constitutionally do what the political Supreme Court has sought to do.

THE SPECIFICS

Article IV, Section 4, of the Constitution provides that the States shall be guaranteed "a Republican Form of Government" - that is, government by elected representatives who make specific law. This has been violated.

Article IX of the Bill of Rights declares: "The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people." This removes any doubt whether central government may assume unspecified powers.

Article X of the Bill of Rights asserts: "The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the States respectively, or to the people." This clearly rules out Federal action where specific delegation is lacking, as in the cases currently at issue.

An effort is made by the usurpers to get around all of these Constitutional specifics by citing the 14th Amendment. There are three major fallacies in this effort.

The first is that the 14th Amendment was rejected by the States whose ratification was necessary to breathe legality into it. The Southern States during Reconstruction, approved and ratified the 13th Amendment, abolishing slavery. But they rejected the 14th Amendment. If they had the right to approve the 13th, they had equal right to reject the 14th. But radicals then in power responded to the rejection of the 14th Amendment by imposing an army of occupation on the South, bringing about illegal Legislatures in the South to rubber stamp what the legal Legislatures had rejected. And in face of this, the Legislatures of New Jersey and Ohio rescinded their ratification of the 14th Amendment. Thus it was never legally approved and is not legal today.

The second fallacy is a fact even if the 14th Amendment is treated as legal. The amendment simply does not provide for discard of other clear provisions of the Constitution, and does not permit what is being done in its name.

But even if it should be conceded that the 14th Amendment shall be accepted as legal, even if it should be accepted that it does intend and permit the things wrongfully done with it as an excuse, there is a third and fatal fallacy that negates any claim of legality on the part of courts or President.

The 14th Amendment in Section 5 declares:

"The Congress shall have power to enforce, by appropriate legislation, the provisions of this article."

Congress has enacted no legislation in this respect - and the amendment does not allow courts or President to act instead.

WHAT IS IMPORTANT?

Why is it important that these Constitutional and legal principles be so scrupulously upheld? The real issue is not one of whether a Negro man shall be enrolled in the University of Mississippi. The issue is one of dictatorial power vs. the Constitutional rights of the people.

If these changes can be wrought contrary to the Constitution and law, what is to prevent some appointed court from ruling, for ex-

UNICEF and Red Algeria

BY THURMAN SENSING

Within days of the announcement by Algerian leaders that they intended to create a Socialist state with close ties to Red China and Russia, the United Nations Childrens Fund had ordered $670,000 in emergency aid sped to that country. The financial assistance had been requested by the Algerian Provisional Government, the group of pro-Communists that now dominate the strategic North African land. Indeed UNICEF was all set to move quickly to aid the Socialist rulers of Algeria, for as early as July a UNICEF representative was in Algeria to study, according to The NEW YORK TIMES, "the resettlement of displaced persons within the country and those returning from Tunisia and Morocco."

These UNICEF actions should be borne in mind by the American public when domestic advocates of that organization come around this Halloween to collect funds "for children," as they say.

UNICEF is presented as the most innocent of international agencies. "How could you possibly oppose a program that aims at helping children?" ask those who raise money for UNICEF. But that question -- and the built-in approach -- avoids the real issue of UNICEF.

One may say that the Russian or Red Chinese governments "help children" to the extent that they supply food or medical supplies to their own populations. But that doesn't mean the American people should help pay the welfare or medical bills of the Russian or Chinese Communist governments. No one would have had the temerity to argue during World War II that the United States ought to have sent money to Nazi Germany to "help children" in the country ruled by Hitler.

It is no real help to children -- and to the adults that they will become -- to help fasten rulers on them that are dedicated foes of freedom. When UNICEF gives aid to "Algerian children," the net effect is to help impose a Communist-type rule on Algeria. It would be of far greater lasting assistance to the innocent children of Algeria to deny country -- and it has gone to such countries in past years -- the money is distributed by Communist officials for Communist objectives. The UNICEF allotment for Algeria will include soap, vitamin capsules, whole milk powder and emergency medical supplies. One would have to be mighty naive to believe that pro-Communist officials in Algeria will give any of these supplies to the hundreds of thousands of Algerians who cooperated with the French authorities. These supplies, one can be sure, will go to Algerian families that are loyal to their new Socialist bosses -- and to no others. Children of families who are opposed to Communist domination of their countries will be left to suffer and die by the new rules of Algeria. Thus, in giving money to Algeria, UNICEF will be helping discriminate against Algerians who are on the side of freedom.

There are many other actions of UNICEF that provide just cause for responsible citizens opposing its operations. The involvement in the financing of the U.N. war on anti-Communist Katanga is in itself justification for refusing to contribute.

But the Algerian gift is a current development and should open the eyes of those who are willing to see the use to which charitable gifts are put by UNICEF officials.

It is to be hoped, therefore, that this Halloween will not be an occasion for requests for additional contributions to UNICEF in the name of "helping children." UNICEF, it can be seen, is more international politics than international charity. Those citizens who want to make some charitable gift this Halloween need not become involved in the political activities of UNICEF. There are dozens of worthwhile charities in every community. One can help children who are in need (including those overseas) without helping pro-Communist governments build new bases of strength. (Editor's note: On Monday, October 15, Ahmed ben Bella, Premier of Algeria, was warmly greeted by President Kennedy on the White House lawn with full military honors. Two days

of courts or President.

The 14th Amendment in Section 5 declares:

"The Congress shall have power to enforce, by appropriate legislation, the provisions of this article."

Congress has enacted no legislation in this respect - and the amendment does not allow courts or President to act instead.

WHAT IS IMPORTANT?

Why is it important that these Constitutional and legal principles be so scrupulously upheld? The real issue is not one of whether a Negro man shall be enrolled in the University of Mississippi. The issue is one of dictatorial power vs. the Constitutional rights of the people.

If these changes can be wrought contrary to the Constitution and law, what is to prevent some appointed court from ruling, for example, that in its "interpretation" of the Constitution Americans may have free speech - only if the freedom is not extended to criticism of whatever rulers may be in power?

As one portion of freedom goes, so all may go, if we let it.

This issue of Federal usurpation is vital to freedom because it is the weapon whereby freedom in America today is most threatened with destruction. No external enemy, Communist or any other, so endangers Americans as does unconstitutional government within.

PERTINENT QUESTIONS:

The manner in which the Kennedy Administration has handled the "Mississippi Affair" as compared with the handling by the Eisenhower Administration of the Communist-inspired student riots in San Francisco on May 13, 1960, raises a number of significant questions:

In the San Francisco case, where the U.S. House Committee on Un-American Activities was holding hearings in the San Francisco City Hall, were troops massed in a nearby State in readiness to control the Communist-directed agitation against these hearings?

Was the National Guard federalized to help control the rioting students?

Were six dozen marshals used to escort the members of the House Committee on Un-American Activities in and out of the San Francisco City Hall during the Communist-directed riot?

Were the known and recognized Communist leaders who incited these students to riot whisked off to a mental institution?

The key to these questions is, of course, provided by analyzing what group or principle was being opposed in each instance. In the case of the San Francisco riots, the use of such Federal force would have been -- but was not -- directed against Communism; whereas in the riots at Ole Miss, Federal force was directed against the principle of Constitutional States Rights.

Next question: Which party, if any, seeks to control Communism and preserve Constitutional States Rights?

Tool Of The Autocrat

No matter what the liberals tell you, bayonet rule is not the democratic way.

Trappings Of Tyranny

(Reprinted from CHARLESTON (S.C.) NEWS & COURIER)

Had the Mississippi rioters been Algerians fighting the French, or Congo savages slaughtering white Europeans, American "liberals" might have cheered them on. But they are free born white Americans. Though their anger erupted with the same senseless violence that sweeps through any mob, their resentment has a deep foundation in the history of the Republic. The bayonets that are mopping up pockets of resistance in Oxford are the same weapons that hold down freedom fighters in Hungary and elsewhere in this troubled world. . . .

No wonder that Fidel Castro has applauded the U.S. Government for calling out soldiers to police Mississippi. Castro would welcome deployment of all the U.S. Armed Forces, including the Navy, to enforce racial mingling in the South. Though Castro expresses contempt for U.S. military capability to expel the Communist stronghold in Cuba, he naturally finds comfort in the knowledge that official U.S. attention is involved more ardently inside the country than with foreign aggression. . . .

World War II that the United States ought to have sent money to Nazi Germany to "help children" in the country ruled by Hitler.

It is no real help to children -- and to the adults that they will become -- to help fasten rulers on them that are dedicated foes of freedom. When UNICEF gives aid to "Algerian children," the net effect is to help impose a Communist-type rule on Algeria. It would be of far greater lasting assistance to the innocent children of Algeria to deny assistance to the Algerian government. If the Algerian government were to collapse, then the children of that country would be truly aided.

Moreover, when UNICEF money is sent to a Communist

some charitable gift this Halloween need not become involved in the political activities of UNICEF. There are dozens of worthwhile charities in every community. One can help children who are in need (including those overseas) without helping pro-Communist governments build new bases of strength. (Editor's note: On Monday, October 15, Ahmed ben Bella, Premier of Algeria, was warmly greeted by President Kennedy on the White House [illegible] military honors. Two days later, Ben Bella was equally warmly welcomed by Fidel Castro of Communist Cuba. Ben Bella and Castro issued a joint statement demanding that the U. S. Naval Base at Guantanamo, Cuba, be removed.)

Our Constitution:

IS IT JUST A SCRAP OF PAPER?

(From the SAN DIEGO UNION)

President Kennedy says that while the U.S. Constitution is a remarkable document we have to remember that it was designed for an agrarian society which feared the power of central government. In the long history of the presidency there has not been a more casual dismissal of the basic instrument of our system of government and of our freedoms.

Mr. Kennedy's remarks were made off-the-cuff to an assembly of high school students brought to Washington to study the value of government service. The President of the United States, standing on the lawn before the White House, told them the Constitution was written during a period of isolation, that it does not provide an automatic light to the future in that all we have to do is to follow the very clear precepts it lays down for us, and it will have to be made to work in a different world from the day in which it was written, both at home and abroad.

Was this a careless statement of a harassed and troubled President, one which in retrospect might be regretted? We don't think so. It has been said before by spokesmen for an administration that chafes under constitutional restraints and legislative processes. Sen. J. W. Fulbright, D-Ark., chairman of the Senate Foreign Relations Committee, in a speech prepared for a conference at Stanford University, said: "The President is hobbled in his task of leading the American people to concensus and concerted action by the restrictions of power imposed on him by a constitutional system designed for an 18th Century agrarian society."

There has been a tendency to separate Mr. Kennedy from the men who surround him, or even speak for him, as if a President was so indifferent to his office that he chose for personal advisers men whose opinions he would not welcome or accept. More than 30 former members of the ADA, Americans for Democratic Action, [illegible] in policy positions in the White House and executive offices. Arthur Schlesinger, Jr., a former ADA chairman, is a presidential speech writer. Schlesinger has described the ADA as the non-Communist organization of the American left and once wrote that Capitalists are cowards and Socialism will come about through a succession of New Deals.

It has been hard, perhaps, to face the reality that Mr. Kennedy came to the White House without real strength of conviction or purpose. He even said he felt uncomfortable in the company of Liberals. The White House was a prize. He is still acutely self-conscious in public. During his campaign he tried to proclaim his position in history in the light of Christopher Columbus and George Washington. He asked us to depart from our past and follow him.

While he was vague then, he now listens to what he obviously wants to hear. He speaks of the "cliches of our forebears," of our economic "myths," of the need to adjust ancient prejudices to new realities, and to look ahead to some international "grand design." The ADA has pointed the way for him - left.

In accepting the presidency, Mr. Kennedy took an oath "to support and defend the Constitution of the United States against all ene[illegible]

may have free speech - only if the freedom is not extended to criticism of whatever rulers may be in power?

As one portion of freedom goes, so all may go, if we let it.

This issue of Federal usurpation is vital to freedom because it is the weapon whereby freedom in America today is most threatened with destruction. No external enemy, Communist or any other, so endangers Americans as does unconstitutional government within.

PERTINENT QUESTIONS:

The manner in which the Kennedy Administration has handled the "Mississippi Affair" as compared with the handling by the Eisenhower Administration of the Communist-inspired student riots in San Francisco on May 13, 1960, raises a number of significant questions:

In the San Francisco case, where the U.S. House Committee on Un-American Activities was holding hearings in the San Francisco City Hall, were troops massed in a nearby State in readiness to control the Communist-directed agitation against these hearings?

Was the National Guard federalized to help control the rioting students?

Were six dozen marshals used to escort the members of the House Committee on Un-American Activities in and out of the San Francisco City Hall during the Communist-directed riot?

Were the known and recognized Communist leaders who incited these students to riot whisked off to a mental institution?

The key to these questions is, of course, provided by analyzing what group or principle was being opposed in each instance. In the case of the San Francisco riots, the use of such Federal force would have been -- but was not -- directed against Communism; whereas in the riots at Ole Miss, Federal force was directed against the principle of Constitutional States Rights.

Next question: Which party, if any, seeks to control Communism and preserve Constitutional States Rights?

Tool Of The Autocrat

No matter what the liberals tell you, bayonet rule is not the democratic way.

Trappings Of Tyranny

Though Castro expresses contempt for U.S. military capability to expel the Communist stronghold in Cuba, he naturally finds comfort in the knowledge that official U.S. attention is involved more ardently inside the country than with foreign aggression. . . .

THE REAL ISSUE

The issue actually is protection of rights - human rights, property rights and the rights of states as contrasted with the power of central government at Washington. . . .

At the rate that events now are turning, any state or community may be next on the list for civil turmoil. Excuses may be found any day to call out troops and oust elected civilian authority. These are the trappings of tyranny. . . .

Americans everywhere can understand the meaning of a bayonet. Some of the last remnants of the Republic died Sunday at Oxford along with victims of the mob.

assistance to the Algerian government. If the Algerian government were to collapse, then the children of that country would be truly aided.

Patriots, please send us right-wing, patriotic editorials which may appear in your local newspapers. However, please do not mark on them with pencil or crayon, as all newspaper editorials are reproduced in THE INDEPENDENT AMERICAN by a photographic process. Thank you.

Report from
Anti-Communist French Underground

De Gaulle's Political Prisoners

(Editor's note: General Walker was Kennedy's first political prisoner. Now here is an account of what is happening to political prisoners in France. The cream of France's military leadership have been imprisoned by Charles de Gaulle. Their crime? Opposition to De Gaulle's pro-Communist policies and the delivery of French Algeria to the Communists. Since the defense of Generals Jouhaud and Salan by THE INDEPENDENT AMERICAN early this year, we have been in touch with the anti-Communist underground in France. The following report is from a member of the underground, who for his personal safety in De Gaulle's Police State, must remain anonymous.)

The fight here has reached the deadly stage. Sanguinetti (assistant Minister of the Interior) and a man named Foccart (real name Koch) who occupied a post close to de Gaulle similar to Schlesinger's in America, have teams of agents roaming Switzerland, Italy, Belgium and West Germany on false papers. Local Communist "Anti-Fascist Committees" are aiding them and they have a list of names marked for "suppression". A former Surete officer named Plettner has charge of this operation. Orders are to kidnap Jacques Soustelle and Georges Bidault and spirit them into De Gaulle's hand if possible, if not, liquidate them on the spot.

As part of "Common Market country solidarity" the labor unions, Socialists and Communists have imposed the doctrine that no Common Market country may shelter an opponent of another Common Market country's government. This is an insurance policy against any future opposition to themselves.

Briefly, here is the situation in Tulle prison: It is a grim spot on a hillside. Formerly it was a slaughter house - and may well be again. Mirador at each corner flood it with search lights at night and cover all approaches with machine guns. An army barracks, similar to Quonset huts but more permanent, has been built on the slope approaching the prison. Automobiles are not permitted to stop on the road approaching the gate. Tulle, as you know, is an all-Communist district and it is assumed, inside the prison, that any sort of uprising in France to unseat De Gaulle will touch off a district rush on the prison to eliminate the 12 men likely to and capable of leading the army. They figure that is why they are in Tulle.

Ordinary prisoners have been moved to Limoge and Brive, leaving the former slaughter house in Tulle an exclusive political prison. Top of the list as of this date are: Generals Maurice Challe, Zeller, Nicot, Bigot, Faure and Gouraud. (General Petit was with them but he was transferred to Fresnes prison on September 9 because of failing health)

The colonels are: Masselot, Lecomte and de la Chapelle. De la Chapelle is a new arrival, just brought from Marseilles where he spent 4 months in solitary without light.

The commandants are: Denoix de Saint Marc, Robin and Forhan.

No prominent Frenchman can make a gesture of sympathy for these men without risking retaliation that would hurt himself, his liberty or his business. Therefore, you can imagine the deep wave of gratitude within the prison when H,I,H. Prince Napoleon recently braved the whole de Gaulle machine by sending them a big box of food.

Food is bad and the boredom is worse. Government propaganda often reports that the distinguished inmates are fighting among themselves. It is not true. They spend long hours arguing, for want of anything else to do, but on all important points they are united. General Challe is killing time learning English by linguaphone, called Assimil here.

When they get hold of an American publication a prisoner that reads English holds a reading session for the others.

Anyone wishing to send books, magazines or food packages to the [illegible] them to either General

Who and What Is Behind The At

By Phoebe Courtr

When Major General Edwin A. Walker announced, on November 3, 1961, in a formal statement, that he was resigning his Army commission, his long statement included this sentence:

> "I must be free from the power of little men who, in the name of my country, punish loyal service to it."

Who are these "little men" occupying positions of control and power in this nation, who deride patriotism, national sovereignty, and who counsel appeasement of the Soviet Union?

On October 18, 1961, the NEWS & COURIER of Charleston, South Carolina, stated in an editorial:

> "To understand the United States today it is necessary to know something about The Establishment."

THE DAN SMOOT REPORT of July 17, 1961, stated:

> "The Council on Foreign Relations is the invisible government of the United States by virtue of the fact that members of the Council occupy key positions in the Executive Branch of government from the presidency downward."

The Establishment has also been referred to as an "intellectual Mafia," a term which would appear to be exquisitely appropriate in view of the railroading of former General Walker to a Federal mental-prison-hospital. Because General Walker is well aware of the un-American policies of the Council on Foreign Relations, which in essence are subverting the United States Constitution, he has, judging from recent events, been placed upon the liquidation list by the "powers that be." Apparently the "intellectual Mafia" is willing to resort to any illegality in order to "get" Walker.

WALKER'S TESTIMONY BEFORE SENATE SUBCOMMITTEE

On April 4-5, 1962, General Walker was invited to testify before the Special Preparedness Subcommittee of the U.S. Senate Committee on Armed Services. The press coverage of his two-day testimony, while voluminous, did not cover the most important phase of his testimony, that is, his answers to questions posed to him by Senate Committee members.

Senator Strom Thurmond has done a great service to his country in managing to schedule these hearings into the muzzling of the military who warn of the Communist threat. The following testimony is excerpted from Part 4 of these published hearings, entitled "Military Cold War Education and Speech Review Policies."

In his opening statement, General Walker said:

> "With this nation's survival at stake, our armed forces are paralyzed by our national policy of 'no win' and retreat from victory .... The traditional civilian control of the military has been perverted and extended into a commissar-like system of control at all major echelons of command.

THE REAL CONTROL APPARATUS

Senator Bartlett of Alaska asked this question of Walker in the hearings:

> "How serious, General, do you regard the internal threat?"

Walker answered: "Very, very serious, Sir."

And then Walker continued:

> "The reason we become closer to war and dire peril is because we have been infiltrated, disunified, and our causes and purposes intentionally headed in many various directions."

Senator Bartlett then referred back to the following sentence which appeared in General Walker's initial statement which declared:

> "It is evident that the real control apparatus will not tolerate militant anti-Communist leadership by a division commander."

General Walker was asked by Senator Bartlett to say what he meant by the words "real control apparatus." Here is General Walker's reply:

> "[illegible] can be identified by its effects,

on the road approaching the gate. Tulle, as you know, is an anti-Communist district and it is assumed, inside the prison, that any sort of uprising in France to unseat De Gaulle will touch off a district rush on the prison to eliminate the 12 men likely to and capable of leading the army. They figure that is why they are in Tulle.

Ordinary prisoners have been moved to Limoge and Brive, leaving the former slaughter house in Tulle an exclusive political prison. Top of the list as of this date are: Generals Maurice Challe, Zeller, Nicot, Bigot, Faure and Gouraud. (General Petit was with them but he was transferred to Fresnes prison on September 9 because of failing health)

The colonels are: Masselot, Lecomte and de la Chapelle. De la Chapelle is a new arrival, just brought from Marseilles where he spent 4 months in solitary without light.

The commandants are: Denoix de Saint Marc, Robin and Forhan.

No prominent Frenchman can make a gesture of sympathy for these men without risking retaliation that would hurt himself, his liberty or his business. Therefore, you can imagine the deep wave of gratitude within the prison when H.I.H. Prince Napoleon recently braved the whole de Gaulle machine by sending them a big box of food.

Food is bad and the boredom is worse. Government propaganda often reports that the distinguished inmates are fighting among themselves. It is not true. They spend long hours arguing, for want of anything else to do, but on all important points they are united. General Challe is killing time learning English by linguaphone, called Assimil here.

When they get hold of an American publication a prisoner that reads English holds a reading session for the others.

Anyone wishing to send books, magazines or food packages to the officers in Tulle prison should address them to either General Maurice Challe, Prisonier d'Etat, Maison d'Arret, Tulle (Correze), France. -- Or to Commandant Denoix de Saint Marc, same address. It is best that all mail not be addressed to the same man, so Challe and de Saint Marc have been more or less chosen as receivers for the lot.

In Sante Prison there are now around 900 political prisoners but only 200 are accorded political prisoner status. This means that they can enjoy a common recreation room together, receive papers, books, food parcels and can even send out for meals (if they have any money). Also, they can receive visitors in a sort of parlor. The other some 700 are there for political reasons but given common criminal status: 4 books a week for 5 men, no papers or outside food, one hour walk a day, alone, in a walled pen. Visitors may come twice a month, must stand up to 2 hours in line outside the prison before being admitted, and then speak through a glass in the presence of guards. There has been no word of the delegation that volunteered, from among the 700, to go on hunger strike for full political prisoner status, since the hunger-strikers were taken to the hospital in Fresnes prison on the 13th day of the strike.

Generals Salan and Jouhaud are still in Fresnes, Salan with another trial hanging over him and Jouhaud in death cell. Madame Salan is confined to a convent where her health is failing rapidly and Madame Jouhaud is in an extremely bad state. De Gaulle is playing with both these men, as Madame Challe put it to me, "like a cat playing with a mouse".

NAILING THE BIG LIE

by Congressman James B. Utt

During the closing days of the 87th Congress, there was an important item under consideration on which I voted in the negative. Mine was the only dissenting vote by the California Delegation, and it therefore seems proper that I should give my constituents the reasons upon which I based my decision.

This bill was a resolution authorizing the President to call up 150,000 Reserves. My reasons for voting "No" are as follows:

(1) It appeared to be a repetition of last year's call-up, which the Pentagon admitted was a mistake that cost the American taxpayers over a half-billion dollars. These Reserves were sent to camps which were unable to house them properly and where they were not needed. It disrupted the lives of more than 150,000 men and their families, even though, during this so-called crisis, hundreds of troops in West Germany were "loaned" as props to Darryl Zanuck to film "The Longest Day," picturing the Normandy landing, and while the Wall of Shame was being built in Berlin.

(2) The President does not know how, when, or where to apply military power, and, if he did know, he does not have the courage to use it, as was indicated in his last minute refusal to support the well-planned Cuban invasion at the Bay of Pigs, thereby consigning

Committee members.

Senator Strom Thurmond has done a great service to his country in managing to schedule these hearings into the muzzling of the military who warn of the Communist threat. The following testimony is excerpted from Part 4 of these published hearings, entitled "Military Cold War Education and Speech Review Policies."

In his opening statement, General Walker said:

"With this nation's survival at stake, our armed forces are paralyzed by our national policy of 'no win' and retreat from victory .... The traditional civilian control of the military has been perverted and extended into a commissar-like system of control at all major echelons of command.

THE REAL CONTROL APPARATUS

Senator Bartlett of Alaska asked this question of Walker in the hearings:

"How serious, General, do you regard the internal threat?"

Walker answered: "Very, very serious, Sir."

And then Walker continued:

"The reason we become closer to war and dire peril is because we have been infiltrated, disunified, and our causes and purposes intentionally headed in many various directions."

Senator Bartlett then referred back to the following sentence which appeared in General Walker's initial statement which declared:

"It is evident that the real control apparatus will not tolerate militant anti-Communist leadership by a division commander."

General Walker was asked by Senator Bartlett to say what he meant by the words "real control apparatus." Here is General Walker's reply:

"The real control apparatus can be identified by its effects, and what it is doing, what it did, in Cuba, what it is doing in the Congo, what it did in Korea. All these things were done by people. This country is too great for these things just to happen. The apparatus wanted to see these things happen, and the propaganda front that they are using for this, and the means to do it with, is the United Nations."

Senator Bartlett then asked this question:

"But my inference from this statement would be that there exists in this country in positions of ultimate leadership a group of sinister men, Americans, willing and wanting even to sell this country out. Is that the correct inference I should gain from this sentence?"

General Walker replied:

"That is correct. Yes, sir . . . When you refer to 'sellout' as the sellout of our traditions, our Constitution, our sovereignty, our independence, that is correct."

Senator Bartlett then stated:

"General, I think that the general public is entitled to know the names of these men, because, according to this statement, they are traitors, and ready to let this country go over to our enemies. Would you name those people?"

General Walker did not fall into this trap. He refused to name any person as a traitor. Instead Walker stated:

"I will name people that are opposite from my line of thinking with regard to the Constitution, the security and the independence of this nation."

And then Walker went on to say:

"I question the following people with respect to our Constitutional system, our sovereignty, our security, our independence: Mr. Dean Rusk * * * * Walt Rostow.

Although General Walker did not name the Council on Foreign Relations, perhaps it would be well to interject at this point that both Dean Rusk and Walt Rostow are members of the Communist-accommodating Council on Foreign Relations.

THE C.I.A.

Possibly the most important part of Walker's testimony revolved around the mysterious governmental agency, the Central Intelligence Agency -- CIA.

Stated General Walker:

"Our conformance to a 'no win' policy has resulted in an obvious demoralizing and downgrading effect on all military intelligence. A key activity in intelligence work is the preparation of estimates: that is, estimates of the enemy's capabilities and intentions. In a cold war world, national policy must be decided on the basis of such estimates. Thus the CIA is in a position to DETERMINE NATIONAL POLICY (emphasis mine) in the sense that it furnished the supposed facts upon

other some 700 are there for political reasons but given common criminal status: 4 books a week for 5 men, no papers or outside food, one hour walk a day, alone, in a walled pen. NAILING THE BIG LIE

by Congressman James B. Utt

During the closing days of the 87th Congress, there was an important item under consideration on which I voted in the negative. Mine was the only dissenting vote by the California Delegation, and it therefore seems proper that I should give my constituents the reasons upon which I based my decision.

This bill was a resolution authorizing the President to call up 150,000 Reserves. My reasons for voting "No" are as follows:

(1) It appeared to be a repetition of last year's call-up, which the Pentagon admitted was a mistake that cost the American taxpayers over a half-billion dollars. These Reserves were sent to camps which were unable to house them properly and where they were not needed. It disrupted the lives of more than 150,000 men and their families, even though, during this so-called crisis, hundreds of troops in West Germany were "loaned" as props to Darryl Zanuck to film "The Longest Day," picturing the Normandy landing, and while the Wall of Shame was being built in Berlin.

(2) The President does not know how, when, or where to apply military power, and, if he did know, he does not have the courage to use it, as was indicated in his last minute refusal to support the well-planned Cuban invasion at the Bay of Pigs, thereby consigning thousands of Cuban patriots to a living death.

(3) The Administration continues to be bluffed, bullied and blackmailed by the Kremlin, and the call-up of 150,000 Reserves could not alter this "no win" policy nor cure the "yellow fever" which the Administration has succumbed.

(4) The regular draft call-up during the build-up of the most recent crisis was dropped from more than 10,000 a month to 4,000 a month, indicating no need for additional men.

(5) Just three days before this resolution was considered, the President made a speech by telephone to the Democratic Convention in Columbus, Ohio, in which he said: "When the Democratic Administration came to office in January of 1961, Khrushchev was on the move in Berlin, the Communist Gizenga was on the move in the Congo, Castro and the Communists had taken over Cuba, the Communists were on the move in Laos and South Vietnam. In the months since, that tide has been reversed. We have taken initiatives in many parts of the world from Vietnam to Berlin. Castro, reduced to a state of desperation, has invited Soviet help, and thereby sealed his own doom in South America and ultimately in Cuba itself."

Such a statement is utterly ridiculous and falls in the category of "The Big Lie" technique. Khrushchev is still on the move in Berlin; Gizenga followers are still moving in the Congo; the Soviet Union has moved into Cuba with heavy military hardware, including missiles capable of reaching the United States at low level without warning; and now a Russian submarine base is being built in Cuba; the Communist troops are still welcome in Laos as a haven for their operations in South Vietnam; and Castro has not been reduced to a state of desperation, but, on the contrary, has built up, with Communist aid, the strongest military base in the western hemisphere, excluding the United States; and instead of sealing his own doom in South America, he is sealing the doom of South and Central America.

group of sinister men, Americans, willing and waiting even to sell this country out, is that the correct inference I should gain from this sentence?"

General Walker replied:

"That is correct. Yes, sir . . . When you refer to 'sellout' as the sellout of our traditions, our Constitution, our sovereignty, our independence, that is correct."

Senator Bartlett then stated:

"General, I think that the general public is entitled to know the names of these men, because, according to this statement, they are traitors, and ready to let this country go over to our enemies. Would you name those people?"

General Walker did not fall into this trap. He refused to name any person as a traitor. Instead Walker stated:

"I will name people that are opposite from my line of thinking with regard to the Constitution, the security and the independence of this nation."

And then Walker went on to say:

"I question the following people with respect to our Constitutional system, our sovereignty, our security, our independence: Mr. Dean Rusk * * * * Walt Rostow.

Although General Walker did not name the Council on Foreign Relations, perhaps it would be well to interject at this point that both Dean Rusk and Walt Rostow are members of the Communist-accommodating Council on Foreign Relations.

THE C.I.A.

Possibly the most important part of Walker's testimony revolved around the mysterious governmental agency, the Central Intelligence Agency -- CIA.

Stated General Walker:

"Our conformance to a 'no win' policy has resulted in an obvious demoralizing and downgrading effect on all military intelligence. A key activity in intelligence work is the preparation of estimates; that is, estimates of the enemy's capabilities and intentions. In a cold war world, national policy must be decided on the basis of such estimates. Thus the CIA is in a position to DETERMINE NATIONAL POLICY (emphasis mine) in the sense that it furnished the supposed facts upon which other agencies of government base their conclusions. Miscalculation or inequity in the CIA causes distortion of policy, even if every other agency were highly competent and patriotic. However, there is reason to fear the CIA and the State Department, as well as key officials in other parts of the government, who understand each other very well.

"There is reason to fear, too, that they have one vital relationship reversed; that is, instead of the State Department planning policy on the basis of estimates from the CIA, the CIA furnishes estimates figured out to fit policy already planned and desired by the State Department in conformance with their collaborating, 'no win' policy.

"For example, it makes no sense for our government to be talking about sharing space secrets and nuclear secrets with the Soviets * * * *

"I will say that unless we make sure that our intelligence estimates are free of distortions and misrepresentations, unless we take every precaution to get and take into the intelligence accounts all available facts so that we will be in a position to take advantage of our enemy weakness, instead of remaining in awe of exaggerated enemy power, then we will be unable to change our present 'no win' policy.

"I have said before that not all those who are causing us to lose are Communists.

"The supercilious attitude of the State Department toward the military is unjustified by facts, and causes the State Department to ignore many facts, just because they come from a mi-

ırtney, Editor

litary officer . . . .

"There are untold incidents throughout the world of the military and State Department representatives on country teams where the State Department man is always in charge, and where the military man is actually better informed . . . . I was told by an officer that he informed the Ambassador in Turkey that there would be a coup in Turkey within six weeks. The Ambassador implied that he was imagining things. The coup occurred in four weeks.

"Many military men, as well as 'super patriots' correctly anticipated the Communist take-over of Cuba, but the State Department, or the NEW YORK TIMES, either did not anticipate it, OR ELSE WANTED IT TO HAPPEN (emphasis mine). Everything of this sort goes back to estimates, and these are made in CIA . . . . This is the hidden State Department policy being implemented now by Mr. Rusk, and being withheld from public view. . . .

"General MacArthur, Senator Joseph McCarthy, Secretary James Forrestal, Sigmund Rhee, Chiang kai Shek, Tshombe, myself, and others, with more to come, as well as untold thousands who have not made the headlines, have all been framed by this hidden policy * * * * .

"I have been accused of calling people Communists. This is untrue, because I reserve the right to call them something worse, such as traitors to the American system of Constitutional government, national and State sovereignty, and independence."

Unquote testimony by former General Edwin A. Walker.

* * * * * *

WHY WAS WALKER RAILROADED?

On the surface, the Kennedy Administration's vendetta against former General Edwin A. Walker makes little sense. However, even a quick glance at the underlying factors give ample indication that if the Kennedy Dynasty is to remain in power, and even more importantly, if the powers-that-be behind the appeasement policies of this nation are to continue to direct the destiny of the United States, they must "get" Walker -- and quick!

What is actually Walker's "crime" in the eyes of the Kennedy Brothers and the behind-the-scenes manipulator, the Council on Foreign Relations? The answer is tragically simple: Walker, in his testimony before the Special Preparedness Subcommittee of the Senate Committee on Armed Services, revealed the sinister role now being played in the national affairs of this nation by the super-secret department known as the Central Intelligence Agency -- the CIA. It is no surprise that the nation's press, which is dominated in wide areas by the Communist-accommodating Council on Foreign Relations, made no mention of Walker's testimony exposing the CIA. THE INDEPENDENT AMERICAN feels that the nation owes General Walker a debt of gratitude for so graphically pointing out in his testimony the awesome power now wielded by the Central Intelligence Agency.

We Are Being Surrendered

By Tom Anderson

(Reprinted from FARM & RANCH)

Washington, D.C. -- We are being surrendered. Congress has passed a disarmament bill. Doubtless many members passed it the same way they did the bill to take us into the U.N. - without reading it. The disarmament bill sets up a Commission (which reports to the President) to expedite disarmament talks in Geneva. Our agents have met there in a 17-nation conference called to surrender our sovereignty and independence, our property, our way of life to the State Department's "Peace by Law" proposal 7277. This is a blueprint for surrender. This is a treason treaty. The plan of Jack's Jackals, our disarmament clique, is to phase-out our entire Defense establishment in easy steps, merging it into the United Nations by 1977. Then U.N. troops will take over everywhere, the beginning of the end. In a few more years there'll be no threat of U.S. troops in Little Rock. If the immigrant from Oxford, J. William Fulbright, has his way there'll be U.N. troops in Little Rock. He's as incurable as the common cold and far more dangerous.

Write your Senator for Public Law 87-297, "The Arms Control and Disarmament Act." Our leaders promoting this plan should be allowed to state their case in court. Their choice of pleas should be limited to incompetency, insanity or treason. Our problem is not fallout, it's sellout.

Who punished patriots like MacArthur, McCarthy, Walker and others who dared defy the Communist enemy our quislings are trying to shield? Who gave positions of power and trust to Fifth Amendment traitors? Who is making our nation a province of the U.N.? Whose unseen hands continue to yield, piece-by-piece, the entire world to the enemy? Who gave China to the "agrarian reformers"? Who helped depose Batista and install Castro, "the George Washington of Cuba"? Who promoted those who made those "mistakes" instead of trying them for treason? Who broke our patriots who "committed accuracy?" The same old gang of internationalists, collectivists, sentimentalists, halfbrights, and traitors. Some, like laughing boy Stevenson, are ever with us. Some, like Owen Lattimore, have reemerged from the woodwork. Some critics accuse the Administration of bungling. I disagree. It's not bungling. They're doing it right. The program is not stupid - it's sinister. Why are we losing everywhere? Treason is the reason.

LIKE A POISONED CANDY BAR

Our State Department is like a poisoned candy bar: A yummy mixture of nuts, fruits, chocolate and jelly, with artificial coloring and flavoring and a tasteless poison added. The American people must rise up in righteous indignation and demand a Congressional investigation of our State Department. The people who are aiding our enemies are our enemies. Our most dangerous enemy, the United Nations, recently gouged us an extra $11 million and cut the assessments of our Communist "friends," Cuba, Yugoslavia, Poland, Albania, Bulgaria and Romania. (This was to help send more troops to the Congo, where, as is customary, the U.N. is on the wrong side.) Doubtless the U.N. received an urgent wire from the Congo: "Send more troops, they're delicious."

The world stands by in disbelief witnessing the decline and fall of the greatest nation in history, sliding into Socialist oblivion with

[illegible], myself, and others, with more to come, as well as untold thousands who have not made the headlines, have all been framed by this hidden policy * * * * .

* * * * * *

WHY WAS WALKER RAILROADED?

On the surface, the Kennedy Administration's vendetta against former General Edwin A. Walker makes little sense. However, even a quick glance at the underlying factors give ample indication that if the Kennedy Dynasty is to remain in power, and even more importantly, if the powers-that-be behind the appeasement policies of this nation are to continue to direct the destiny of the United States, they must "get" Walker -- and quick!

What is actually Walker's "crime" in the eyes of the Kennedy Brothers and the behind-the-scenes manipulator, the Council on Foreign Relations? The answer is tragically simple: Walker, in his testimony before the Special Preparedness Subcommittee of the Senate Committee on Armed Services, revealed the sinister role now being played in the national affairs of this nation by the super-secret department known as the Central Intelligence Agency -- the CIA. It is no surprise that the nation's press, which is dominated in wide areas by the Communist-accommodating Council on Foreign Relations, made no mention of Walker's testimony exposing the CIA. THE INDEPENDENT AMERICAN feels that the nation owes General Walker a debt of gratitude for so graphically pointing out in his testimony the awesome power now wielded by the Central Intelligence Agency.

The CIA has been sold to the American people as a glamorous cloak-and-daggar outfit whose agents roam the world ferreting out the enemy's secrets. This would indeed be a worthy occupation, if it were true!

Not only have the American people been hoodwinked by the CIA, but the U.S. Congress itself has fallen victim to the cloak-and-daggar gambit. Each year Congress unquestioningly votes millions of dollars in appropriations to finance the operations of the CIA, and this in spite of the fact that the CIA is so super-secret that it refuses to give any accounting to Congress of its activities or its expenditures. In effect, Congress has, by the passing of these appropriations, delegated a large portion of authority to the super-secret CIA so that that organization is now in a position, as General Walker pointed out in his testimony: "to determine national policy in the sense that it furnishes the supposed facts upon which other agencies of government base their conclusions."

THE CIA - A CREATURE OF THE CFR?

THE INDEPENDENT AMERICAN believes that General Walker's suspicions of the CIA are well-founded. That the super-secret CIA is a creature of the semi-secret Council on Foreign Relations is obvious. During the Republican Eisenhower Administration, Allen W. Dulles was director of the CIA. In the Kennedy Administration, John A. McCone is director of the CIA. Both Dulles and McCone are members of the Council on Foreign Relations.

Because the CFR has managed to place its men in the top position of the CIA, it can be expected that the political bias of the CIA would reflect the policies advocated by the CFR, which, according to CFR publications, are: Advocating giving Foreign Aid to our enemies (such as Red Yugoslavia and Red Poland), and negotiating with the Soviet Union in secret.

DESTROYING OUR MEANS OF PROTECTION

While a large mass of the American people are slumbering in front of their TV sets, believing that the CIA is rooting out espionage agents throughout the world, the Council on Foreign Relations, through ITS agents in the Kennedy Administration, is finalizing plans to put all intelligence work under one head who, it can be assumed, would be a member of the Communist-appeasing CFR. (See article by Edith Kermit Roosevelt on this subject which appears elsewhere in this issue)

[illegible] U.S. intelligence [illegible] the world

common cold and far more dangerous.

Write your Senator for Public Law 87-297, "The Arms Control and Disarmament Act." Our leaders promoting this plan should be allowed to state their case in court. Their choice of pleas should be limited to incompetency, insanity or treason. Our problem is not fallout, it's sellout.

Who punished patriots like MacArthur, McCarthy, Walker and others who dared defy the Communist enemy our quislings are trying to shield? Who gave positions of power and trust to Fifth Amendment traitors? Who is making our nation a province of the U.N.? Whose unseen hands continue to yield, piece-by-piece, the entire world to the enemy? Who gave China to the "agrarian reformers"? LIKE A POISONED CANDY BAR

Our State Department is like a poisoned candy bar: A yummy mixture of nuts, fruits, chocolate and jelly, with artificial coloring and flavoring and a tasteless poison added. The American people must rise up in righteous indignation and demand a Congressional investigation of our State Department. The people who are aiding our enemies are our enemies. Our most dangerous enemy, the United Nations, recently gouged us an extra $11 million and cut the assessments of our Communist "friends," Cuba, Yugoslavia, Poland, Albania, Bulgaria and Romania. (This was to help send more troops to the Congo, where, as is customary, the U.N. is on the wrong side.) Doubtless the U.N. received an urgent wire from the Congo: "Send more troops, they're delicious."

The world stands by in disbelief witnessing the decline and fall of the greatest nation in history, sliding into Socialist oblivion with neither a bomb nor a bum dropped.

Khrushchev doesn't have to bury us. Our leaders are burying us. Our leaders are not fighting Communism - they are promoting it. The no-win policy of our hidden persuaders calls for improving Communism until we can comfortably merge with it. Some big, tax-free foundations are part of the conspiracy to merge us with Russia, to make Socialism appear inevitable. This conspiracy for strategic surrender is designed to bring about world brotherhood, between Communism and Capitalism in a One-World Socialist State.

Surrender? Our surrender is being planned daily, by some of our press, radio, TV, clergymen, and teachers. In a recent poll at a West Coast university on a choice between war and surrender, 60% of the students voted surrender. They've been brought up on a surrender diet. In many of our schools there are now classes in Communism - taught by Socialists. Having Socialists teach anti-Communism is like employing Elizabeth Taylor to teach a course in chastity.

"The Presbyterian Outlook" comments favorably on a book by a theologian named Booth, who writes that "...The Christian conscience does require us to be ready to surrender the political purposes of our nation if the only alternative is intolerable devastation for humanity." Or, in the plainer words used by Dr. John Bennett, Dean of the Union Theological Seminary, in a choice between war and surrender, we should surrender.

God alone can save the world. But God won't save the world alone. Nor will prayer alone. God helps those who help themselves.

DON'T EVER LET "JOHNNY GET YOUR GUN, GET YOUR GUN..."

Recently Robert Kennedy, Attorney General (the most outrageous appointment since Caligula named his horse a consul - and comparable in other ways), ordered the FBI to rouse a newspaperman out of bed at 4 a.m. to answer questions about statements attributed to a steel official. For some strange reason this reminds me of the proposed bill to force the registration of all citizen firearms. That's the first step. Once the Establishment knows where all firearms are - except those owned by gangsters - the next step of the "collectivists" is to send "gun collectors" to each home to pick them up. (That's what happened in Czechoslovakia before the Communists took over.) "The right of the people to keep and bear arms" is guaranteed in the Second Amendment to our Constitution. Don't ever give up your firearms, fellas.

of government base their conclusions."

THE CIA - A CREATURE OF THE CFR?

THE INDEPENDENT AMERICAN believes that General Walker's suspicions of the CIA are well-founded. That the super-secret CIA is a creature of the semi-secret Council on Foreign Relations is obvious. During the Republican Eisenhower Administration, Allen W. Dulles was director of the CIA. In the Kennedy Administration, John A. McCone is director of the CIA. Both Dulles and McCone are members of the Council on Foreign Relations.

Because the CFR has managed to place its men in the top position of the CIA, it can be expected that the political bias of the CIA would reflect the policies advocated by the CFR, which, according to CFR publications, are: Advocating giving Foreign Aid to our enemies (such as Red Yugoslavia and Red Poland), and negotiating with the Soviet Union in secret.

DESTROYING OUR MEANS OF PROTECTION

While a large mass of the American people are slumbering in front of their TV sets, believing that the CIA is rooting out espionage agents throughout the world, the Council on Foreign Relations, through ITS agents in the Kennedy Administration, is finalizing plans to put all intelligence work under one head who, it can be assumed, would be a member of the Communist-appeasing CFR. (See article by Edith Kermit Roosevelt on this subject which appears elsewhere in this issue)

In years gone by, U.S. intelligence was the finest in the world. When intelligence matters were in the hands of the military, all Americans could be assured that sincere loyal Americans were spying on the enemy, furnishing this country with factual information regarding possible enemy attack, breaking the secret codes of the enemy, etc.

However, now such intelligence matters, which concern the very survival of this nation, are in the hands of the mysterious CIA, which we charge is controlled by the CFR. Truly it presents a fearful picture!

If the CIA has ever been correct in its estimation of enemy potential, the CFR-controlled press surely would have published such evidence. The fact is, the CIA is so dangerously ill-equipped to cope with, or is unwilling to expose, enemy intelligence, that the CIA informed the President that the recent build-up in Cuba by the Soviets was for defensive purposes only! What a perilous position this nation is now in when a private publication such as THE INDEPENDENT AMERICAN Newspaper receives and publishes information from reliable Cuban underground sources regarding the Soviet OFFENSIVE build-up in Cuba, which information the highly touted cloak-and-daggar CIA does not possess. Or, if it does -- it refuses to so inform the President. Or, if the President knows, he refuses to do anything about it!

DO CIA'S SECRET DOLLARS HELP OUR ENEMIES?

As stated previously, each year the U.S. Congress blindly appropriates millions of dollars for the use of the CIA with "no questions asked" as to how these millions of taxpayer dollars are to be spent.

Doubtless a large number of American taxpayers will be shocked to learn that because of this unconscionable action by our representatives in Congress, it is highly possible that their future tax dollars will be used by the CIA to ransom Cuban Freedom Fighters who became prisoners of Castro because of the cowardly, bungling policies of the U.S. State Department during the Bay of Pigs invasion. The NEW YORK DAILY NEWS reported on October 10, "Speculation mounted here tonight that the U.S. Government will pay a large chunk of the ransom for the Cuban Bay of Pigs prisoners through the Central Intelligence Agency, or the President's Emergency Fund."

The NEW YORK DAILY NEWS, in describing how the U.S. was, in effect, submitting to blackmail by Communist Castro, reported that State Department officials "clammed up on what possible role the government was playing . . . . The clear implication was that the U.S. Government was supplying most or all of the rest" (after families and friends of the prisoners had raised $200,000) . . . . The ransom deal calls for $15 million in cash and $40 million worth of food and medicine."

The so-called humanitarian aspect of "food and medicine" is a deliberate deception of the American people. Carlos Todd, editor of the CUBAN INFORMATION SERVICE, had a quick answer for that. Stated Mr. Todd in his October 6 issue of CUBAN INFORMATION SERVICE: "Estimates of payment range from $30 to $60 million worth of food and medicines, which will be delivered straight into Russian hands."

HOW TO DEFEND AMERICA AGAINST THE CIA

Is it not alarming that in this crucial hour we find only one military man, former General Edwin A. Walker, and the editor and publisher of THE INDEPENDENT AMERICAN, willingly to challenge the CIA?

The American people, however, are not powerless to demand a complete investigation of the actions of this mysterious agency, the CIA, in order to determine whether their activities are hurting or helping the international Communist conspiracy. THE INDEPENDENT AMERICAN urges that the next Congress refuse to appropriate one single dollar to finance the appropriations of the CIA until Congress receives a full accounting of previous expenditures, and whether such expenditures in any way helped to defend America against Communist aggression.

The American people should serve notice on the CFR and the CIA that the issue of the highly questionable activities of the CIA is now, thanks to General Walker's testimony, out in the open! The attempt by the "intellectual Mafia" to silence Walker's warning to this nation will not succeed!

munism - taught by Socialists. Having Socialists teach anti-Communism is like employing Elizabeth Taylor to teach a course in chastity.

"The Presbyterian Outlook" comments favorably on a book by a theologian named Booth, who writes that "...The Christian conscience does require us to be ready to surrender the political purposes of our nation if the only alternative is intolerable devastation for humanity." Or, in the plainer words used by Dr. John Bennett, Dean of the Union Theological Seminary, in a choice between war and surrender, we should surrender.

God alone can save the world. But God won't save the world alone. Nor will prayer alone. God helps those who help themselves.

DON'T EVER LET "JOHNNY GET YOUR GUN, GET YOUR GUN..."

Recently Robert Kennedy, Attorney General (the most outrageous appointment since Caligula named his horse a consul - and comparable in other ways), ordered the FBI to rouse a newspaperman out of bed at 4 a.m. to answer questions about statements attributed to a steel official. For some strange reason this reminds me of the proposed bill to force the registration of all citizen firearms. That's the first step. Once the Establishment knows where all firearms are - except those owned by gangsters - the next step of the "collectivists" is to send "gun collectors" to each home to pick them up. (That's what happened in Czechoslovakia before the Communists took over.) "The right of the people to keep and bear arms" is guaranteed in the Second Amendment to our Constitution. Don't ever give up your firearms, fellas.

As Hiram Mann said:

"No man escapes when freedom fails - the best men rot in filthy jails and those who cried, 'Appease! Appease!' are hanged by those they tried to please."

(Editor's note: Adlai Stevenson, Owen Lattimore, and Dr. John C. Bennett, mentioned in the above article, are members of The Establishment's "presidium" - the Communist-appeasing Council on Foreign Relations. If you wish further details regarding the "Who", "What" and "Why" of the Council on Foreign Relations, author of our disastrous foreign policy, order today a copy of AMERICA'S UNELECTED RULERS by Kent and Phoebe Courtney. Price: $2.00, paperback. This new book is available from THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans 18, La.)

Let A Libel Suit Decide

By Phoebe Courtney, Editor

This is a free country. At least, 49 of the 50 States are still free. And any newspaper editor has, of course, the right, as long as the First Amendment of the U.S. Constitution remains in force, to express his opinion on any subject.

However, the First Amendment does not offer license to newspaper editors, while expressing an opinion, to engage in libel. Civil law provides stiff penalties for the purveyors of unfounded charges. Witness the scrupulousness with which the daily press handles editorials and news reports regarding the acts of criminals. Always the hedging word "alleged" is employed. For example: "John Doe, alleged murderer of Jim Smith," or "alleged to have knifed Jim Smith." Only when courts of law have, according to American jurisprudence, convicted said criminal can the criminal be called a "murderer," etc. Until such conviction, should any newspaper editor publish his own conclusions as to the guilt of the prisoner, he would lay himself wide open to a libel suit.

Former General Edwin A. Walker made the following statement on television:

> "The Administration has indicated it will do whatever is necessary to enforce this un-Constitutional action (forcing the enrollment of Meredith at Ole Miss). I have stated that whatever is necessary to oppose that enforcement and stand behind Governor Barnett should be done .... It is now or never. Bring your flag, your tent and your skillet."

The LOUISVILLE (Ky.) TIMES, on September 29, published an editorial entitled "Walker Sounds Like a Seditionist." In this editorial the LOUISVILLE TIMES stated:

> "Our dictionary defines sedition as 'a commotion, or the raising of a commotion in a State, not amounting to insurrection; conduct tending to treason, but without an overt act; excitement of discontent against the government, or a resistance to lawful authority.' "

And then the LOUISVILLE TIMES continued:

> "If this is a fair and proper definition of sedition, Edwin A. Walker, onetime Major General in the United States Army, seems to us guilty of sedition against the United States. **** Although Walker did not call for the use of force . . . his intent was unmistakable."

How dare this newspaper, the LOUISVILLE TIMES, arrogate unto itself the role of judge and jury in declaring General Walker guilty on any count? How dare they take it upon themselves to crawl into his mind and render a verdict as to what General Walker's "intent" was!

Note the phrase "resistance to lawful authority" in the definition. Editorials condemning Walker in the Left Wing press are very careful to omit all mention of the U.S. Constitution. They speak instead of "lawful authority," or "obey the law," but they cannot prove that Kennedy's invasion of Mississippi was lawful. And so what law are they upholding?

Elsewhere in this issue are a number of articles proving indisputably the un-Constitutionality of the Kennedy Administration's actions in Mississippi. Therefore, it is seen that when Walker opposed the un-Constitutional actions of the Kennedy Administration, he could in no way be considered as "resisting lawful authority."

An editorial in the Patterson (N.J.) CALL bears this bloodthirsty title: "Barnett, Walker, Et Al, Must Feel Law's Lash." In their editorial appears this charge:

> "He (Walker) goaded rioters to clash with Federal troops."

What evidence does the CALL have that this took place? General Walker has denied this charge, and his denial is corroborated by eye witnesses.

The MIAMI (Fla.) NEWS, in an editorial by one Bill Baggs, editor, states:

Red Missile Bases In Cuba A

(Reprinted from THE CUBAN REPOR

Miami, September 28, 1962

We are dedicating this number of "The Cuban Report" to give our interested readers very detailed information of the Russian installations on Cuban soil. All the data here revealed has been compiled and submitted by the Intelligence Section of the Cuban Student Directorate that operates within the underground movement in Cuba.

MATANZAS - TUNNELS HOUSE IRBM'S

One of the principal Soviet strongholds in this province is located in the Yumuri Valley, about one mile inward from the North Coast of Cuba and about five miles from Matanzas City. This base is one of the largest in the island. Its construction was begun about a year and a half ago; entry into the Base is forbidden to all Cuban Personnel not duly authorized; however, one of the members of the Directorate's Underground was able to filter through and has sent the following report:

In the extreme Northern part of the Valley there are various runways camouflaged by thick foliage and vegetation. At the end of these runways there is a tunnel, the mouth of which is about thirty five feet in height and seventy in width. The longitude is not known but it is believed that the tunnel passes under the famous "Via Blanca", a road that runs between the Valley and the sea and that it ends near the Ocean. In the extreme southeastern portion can be found the new inactive Margot Mines. In these Mines, the tunnels have been enlarged and the new ones constructed now, all have been strengthened with reinforced concrete. They have been properly ventilated with modern equipment and have their own electric plant. In these tunnels are stored enormous quantities of arms and war equipment also some food and different products as some of the troops actually use them as living quarters. The armaments are usually unloaded at night in the free Port of Matanzas and transported to the Valley on a road specially built for these purposes. In some of these tunnels can be found some equipment about seventy feet long and eight or ten feet in height. Their description forces us to believe that they are ballistic missiles of intermediate range (IRBM) of great destructive power, for a comment was made in the inner circle of the Air Force, that if one should explode, the City of Matanzas, five miles away, would be wiped out. On about the mile and a half marker on the road leading from Matanzas to Limonar there are military installations designed and set up by Russian engineers in the month of September of this year. The installations consist of more than fifty cannons with a range of approximately ten miles. From these installations Matanzas Bay can be easily sighted and defended should it be necessary.

In other installations placed in the proximity of Matanzas City there are posts of Czech anti-aircraft "four mouth" machine guns disseminated in spiral form.

On the road that goes to the Central Triunfo there is a large settlement where can be seen bullet-proof trucks, cannons, tanks and some equipment previously unseen in Cuba. Russian troops have been transferred to this place that is carefully guarded by Russian and Chinese sentries not permitting any Cubans to enter the Base.

At the Victoria Cooperative in Maximo Gomez they began to make tunnels and installations a year ago last May. Sometimes when the tunnels have been open, though this seldom happens, observers have reported the existence of certain installations consisting of five tubes that point upward at a forty-five degree angle. This apparatus is said to be capable of intercepting all planes that come within a thirty five mile range of this point. The roofs of the buildings that surround Cardenas Bay are equipped with heavy artillery.

LAS VILLAS - UNDERGROUND HANGERS

[illegible] in this issue are a number of articles proving indisputably the un-Constitutionality of the Kennedy Administration's actions in Mississippi. Therefore, it is seen that when Walker opposed the un-Constitutional actions of the Kennedy Administration, he could in no way be considered as "resisting lawful authority."

An editorial in the Patterson (N.J.) CALL bears this bloodthirsty title: "Barnett, Walker, Et Al, Must Feel Law's Lash." In their editorial appears this charge:

"He (Walker) goaded rioters to clash with Federal troops."

What evidence does the CALL have that this took place? General Walker has denied this charge, and his denial is corroborated by eye witnesses.

The MIAMI (Fla.) NEWS, in an editorial by one Bill Baggs, editor, states:

"The former General is quite close to treason. . ."

How dare this Mr. Baggs make such an unsubstantiated charge?

The LOUISVILLE (Ky.) COURIER JOURNAL, whose publisher is Mark Ethridge, a member of the Communist-accommodating Council on Foreign Relations, editorialized:

"Regardless of the outcome of the struggle, the fact remains that Walker, the pin-up boy of the Birchers, is advocating sedition. . . . Calling for armed insurrection against the United States -- and offering to lead it -- is sedition by any definition."

Could it be possible that the LOUISVILLE COURIER JOURNAL has its own private system of judicial procedure, and perhaps in some underground court has tried General Walker in absentia and found him guilty? What proof does that newspaper have that Walker called for "armed insurrection against the United States?"

The PHILADELPHIA (Pa.) BULLETIN echoes the vituperation of the LOUISVILLE COURIER JOURNAL by stating that Walker "appealed to citizens in Mississippi and elsewhere in the United States to take up arms against their government." Is the BULLETIN prepared to furnish proof of this statement?

The Troy, New York, TIMES RECORD editorialized as follows:

"The former Army Major General is guilty of incitement to riot with his call for armed resistance to Federal officials."

Does the Troy TIMES RECORD also have its private little underground courtroom in which it has rendered a verdict regarding General Walker?

We call to the attention of the TIMES RECORD of Troy, New York, and to any other newspaper in this country to which it should apply, the following information. Black's Law Dictionary, in discussing libel, states:

"... Libels have been classified according to their objectives: (1) Libels which impute to a person the commission of a crime . . . . (Newell, Slan. & L. 67)"

Let us refer back to General Walker's original statement as quoted at the beginning of this article. General Walker mentioned a "flag, a tent, and a skillet." He did not -- repeat NOT -- mention guns or weapons of any kind. Rather than "leading" a riot as he has been accused by these Left-Wing newspapers, he proposed to "stand behind Governor Barnett." How can one "lead" a riot by "standing behind" Governor Barnett, who at no time called for the use of arms!

THE CRIME OF LIBEL

The Left-Wing newspaper empires in this country seemingly present an impregnable fortress from which they spew out their words counseling appeasement of Communism and attacking Conservative anti-Communists. However, the Left-Wing press is not as impregnable as it seems. Its greatest vulnerability is its liability regarding libel.

Black's Law Dictionary defines libel as follows:

"A false and unprivileged publication, which tends ... to deprive him (a man) of the confidence, good will, or esteem of his fellow men (Robinson v. Johnson). Any false or malicious writing published of another, when its tendency is to render the party contemptible or ridiculous in public estimation, or expose him to public hatred or contempt, (Talbot v. Mack); or hinder virtuous men from associating with him, (Colbert v. Journal Publishing Company) ... Any publication ... which accuses him of a crime punishable by law ... (Dexter v. Spear) ... Libels have been

riement where can be seen bullet-proof trucks, cannons, tanks and some equipment previously unseen in Cuba. Russian troops have been transferred to this place that is carefully guarded by Russian and Chinese sentries not permitting any Cubans to enter the Base.

At the Victoria Cooperative in Maximo Gomez they began to make tunnels and installations a year ago last May. Sometimes when the tunnels have been open, though this seldom happens, observers have reported the existence of certain installations consisting of five tubes that point upward at a forty-five degree angle. This apparatus is said to be capable of intercepting all planes that come within a thirty five mile range of this point. The roofs of the buildings that surround Cardenas Bay are equipped with heavy artillery.

LAS VILLAS - UNDERGROUND HANGERS

In this Province, the largest concentration of members of the Air Force can be found at the Santa Clara Airport. This Airport was constructed recently and is the largest in the Island. Our Intelligence has informed us that it possesses underground installations and hangars with ramps on which the planes can taxi to the surface. This Airport has been taken over and is absolutely controlled by the Russian Troops. Not even the Cuban Air Force Chief, Major Almeida, is permitted to enter or inspect the premises. South of the City of Santa Clara, on a piece of land covering an area of two hundred and thirty one acres, is situated the biggest camps holding the greatest number of Russian Troops, dressed in uniforms that differ from those of the Cuban Force. This land is surrounded by eucalyptus trees that easily hide the installations. It is forbidden for anyone to come closer than one thousand and eighty feet from the outer sentries.

San Jose del Lago, formerly considered a tourist Center, is used as a center of aerial observation. Here, there are Russian helicopters and anti-aircraft batteries hidden among the bushes in the northern part of this zone.

In the county of Mayajigua, and in the proximity of the place cited previously, there are steep slopes through which lateral tunnels have been dug in such a way that from them a large extension of the north coast of the Province can be controlled. These

SPECIAL NOTE

This issue of THE INDEPENDENT AMERICAN was published October 19. In the article to the left, entitled "Let A Libel Suit Decide", you will note that we urge Gen. Walker to sue those newspapers which it appears had libelled him.

Inasmuch as this copy of THE INDEPENDENT AMERICAN was revised on October 29, you will note a new article immediately below which contains the latest news on Gen. Walker.

Walker Files Suit Against News Service

OXFORD, Miss - Oct. 23 - Former Maj. Gen. Edwin A. Walker filed a libel suit against the Associated Press Monday for $2 million, claiming he was damaged in stories about rioting at the University of Mississippi.

Walker, in the suit filed in Lafayette County Circuit Court here, asked $1 million actual and $1 million punitive damages.

The stories dealt with Walker's role in the night of rioting that followed the arrival of James H. Meredith, a Negro, on the "Ole Miss" campus, Sept. 30.

Associated Press headquarters said there would be no comment on the filing of the suit.

ed to get away with printing abusive and unfounded statements regarding those who oppose the Communist-coddling actions of the U.S. Supreme Court and of the Administration. Freedom of the press, as guaranteed by the U.S. Constitution, most certainly does not include the right to defame and vilify with unsubstantiated charges or outright lies any and all those who may disagree with the editorial position of a newspaper.

We urge General Walker to seriously consider the possibility of suing each and every single newspaper in this country which

the LOUISVILLE COURIER JOURNAL by stating that Walker ... pealed to citizens in Mississippi and elsewhere in the United States to take up arms against their government." Is the BULLETIN prepared to furnish proof of this statement?

The Troy, New York, TIMES RECORD editorialized as follows:

"The former Army Major General is guilty of incitement to riot with his call for armed resistance to Federal officials."

Does the Troy TIMES RECORD also have its private little underground courtroom in which it has rendered a verdict regarding General Walker?

We call to the attention of the TIMES RECORD of Troy, New York, and to any other newspaper in this country to which it should apply, the following information. Black's Law Dictionary, in discussing libel, states:

"... Libels have been classified according to their objectives: (1) Libels which impute to a person the commission of a crime . . . . (Newell, Slan. & L. 67)"

Let us refer back to General Walker's original statement as quoted at the beginning of this article, General Walker mentioned a "flag, a tent, and a skillet." He did not -- repeat NOT -- mention guns or weapons of any kind. Rather than "leading" a riot as he has been accused by these Left-Wing newspapers, he proposed to "stand behind Governor Barnett." How can one "lead" a riot by "standing behind" Governor Barnett, who at no time called for the use of arms!

THE CRIME OF LIBEL

The Left-Wing newspaper empires in this country seemingly present an impregnable fortress from which they spew out their words counseling appeasement of Communism and attacking Conservative anti-Communists. However, the Left-Wing press is not as impregnable as it seems. Its greatest vulnerability is its liability regarding libel.

Black's Law Dictionary defines libel as follows:

"A false and unprivileged publication, which tends ... to deprive him (a man) of the confidence, good will, or esteem of his fellow men (Robinson v. Johnson). Any false or malicious writing published of another, when its tendency is to render the party contemptible or ridiculous in public estimation, or expose him to public hatred or contempt. (Talbot v. Mack); or hinder virtuous men from associating with him. (Colbert v. Journal Publishing Company) ... Any publication ... which accuses him of a crime punishable by law ... (Dexter v. Spear) ... Libels have been classified according to their objectives: (1) Libels which impute to a person the commission of a crime.... (Newell, Slan. & L.67)"

THE INDEPENDENT AMERICAN will not engage in the same tactics as do members of the Left-Wing press. We do not say the above-mentioned newspapers are "guilty" of libel. We do say, however, that based on the above legal definition of libel, the courts should be called upon to determine whether or not libel has been committed.

What is so reprehensible about the conduct of the above-named newspapers is that their editorials indicate that they have violated a basic precept of American jurisprudence, which is -- a man is innocent until proven guilty in a court of law.

Instead of the nation's press being "The Fourth Estate," as it is sometimes called, it would appear that some members of the press have become the "second" Supreme Court!

For too long, certain newspapers in this country have been allowed to get away with printing abusive and unfounded statements regarding those who oppose the Communist-coddling actions of the U.S. Supreme Court and of the Administration. Freedom of the press, as guaranteed by the U.S. Constitution, most certainly does not include the right to defame and vilify with unsubstantiated charges or outright lies any and all those who may disagree with the editorial position of a newspaper.

We urge General Walker to seriously consider the possibility of suing each and every single newspaper in this country which has published defamatory statements concerning him, in order to determine if libel has been committed.

It should be recalled that the chances of winning libel suits are excellent. Not too long ago, Commentator Quentin Reynolds won a law suit against Westbrook Pegler, from which a very large settlement resulted. If just a few Conservative anti-Communists throughout the United States slapped a couple of well-founded $1 million law suits for libel against a few of the leading Left-Wing newspapers, it is highly probable that we would see an immediate reversal in editorial policy. These editors would then be restricted to printing only documented statements -- and the brainwashing of the American people by the Left-Wing establishment would be seriously hampered.

And -- one closing thought -- Just imagine what the Conservative movement could do with a $1 million settlement won in such a libel suit! Think of the television and radio time it would buy to spread the anti-Communist message of the Constitutionalists!

In the county of Mayajigua, and in the proximity of the place cited previously, there are steep slopes through which lateral tunnels have been dug in such a way that from them a large extension of the north coast of the Province can be controlled. These

SPECIAL NOTE

This issue of THE INDEPENDENT AMERICAN was published October 19. In the article to the left, entitled "Let A Libel Suit Decide", you will note that we urge Gen. Walker to sue those newspapers which it appears had libelled him.

Inasmuch as this copy of THE INDEPENDENT AMERICAN was revised on October 29, you will note a new article immediately below which contains the latest news on Gen. Walker.

Walker Files Suit Against News Service

OXFORD, Miss - Oct. 23 - Former Maj. Gen. Edwin A. Walker filed a libel suit against the Associated Press Monday for $2 million, claiming he was damaged in stories about rioting at the University of Mississippi.

Walker, in the suit filed in Lafayette County Circuit Court here, asked $1 million actual and $1 million punitive damages.

The stories dealt with Walker's role in the night of rioting that followed the arrival of James H. Meredith, a Negro, on the "Ole Miss" campus, Sept. 30.

Associated Press headquarters said there would be no comment on the filing of the suit.

Aim At U.S. And Panama Canal

(REPORT published by The Cuban Student Directorate)

defenses strengthened with reinforced concrete are hidden by eucalyptus trees. Because of their inaccessible position it is difficult to detect them from the air.

In Placetas and Sancti Spiritus there are other military objectives of great importance. Some of the military equipment coming from six Soviet ships has been stored in the vicinity of Sagua la Grande.

Throughout the whole Province it is impossible not to observe the constant parade of Russian trucks transporting foreign troops.

CAMAGUEY - SOVIET TANKS

In the City of Camaguey near the tenth mile mark on the road leading to Vertientes, a tunnel has been constructed shaped like a T with three exits and it is used as an arsenal, the largest in the Province.

This base is surrounded by land held by groups of men that are there for the purpose of fighting anti-Communist guerrillas that might try to destroy the arsenal. The name of this place is San Jose de los Jibaros.

The road that goes from Camaguey to Nuevitas, on about the fifth mile starting from Camaguey, branches off toward the right to the Pilon Hills, where tunnels have also been constructed. It is there that has been stored the military equipment transported on trucks from the Port of Nuevitas. Another Russian concentration, a Camp of great importance, is located south of this zone.

On the grounds surrounding the Airport at Camaguey, there are numerous heaps of soil concealing underground hangars. The exact number of planes in existence in these hangars is not known exactly.

On the road leading from Minas to Nuevitas, under dense foliage, the Cuban Army keeps a large number of tanks of great magnitude believed to be "Stalins 84." The instructors, as well as those who direct the operation are of a foreign nationality.

The Military Command that leads the Infantry Divisions fighting anti-Communist guerrillas, resides in Vides, near the city of Camaguey. Trained specially for this type of warfare, these batallions use bullet-proof helmets that not even caliber 45 bullets can penetrate.

ORIENTE - FOREIGN TROOPS NEAR GUANTANAMO BASE

There are numerous camps of foreign troops in this Province. The principal ones can be found in the proximity of Cauto Embarcadero, in Victoria de las Tunas, in Baracca, and in the vicinity of Mayari where the Mountains of Nipe have their beginning. Near the Guantanamo Naval Base there are also concentrations of foreign troops.

The Air Strip of the Holguin town has been extended to the outskirts of the Central Cacocun, where the planes operate from underground hangars.

In the Bay of Santiago de Cuba there is a team of frogmen operating. It is reported that they have planted anti-submarine mines at the entrance to the Bay.

MISSILE BASES AIM AT NEW ORLEANS, HOUSTON, MIAMI, CANAVERAL AND PANAMA CANAL

information, as he said, "last Tuesday morning (October 16, 1962) at 9 A.M."

ADMINISTRATION DESPERATION

What triggered Kennedy's quarantine pronouncement? Only a spectacular move such as ordering out the United States Navy could erase from the front pages, and attempt to erase from the minds of American voters, the disgraceful, illegal, and un-Constitutional action by the Kennedy Brothers when they ordered Federal troops to invade the sovereign State of Mississippi. Further, even the Liberals were shocked when the Kennedy brothers kidnapped and spirited away General Edwin A. Walker to a Federal prison-hospital, thus making General Walker the Kennedy Administration's first political prisoner.

It has been reported that thousands of postcards, letters and telegrams have been sent to the White House stating "Troops in Mississippi -- No! Troops to Cuba -- Yes!"

Public indignation at the recent actions of the Kennedy Administration were starkly dramatized when Kennedy was greeted with picket signs during his recent campaign for Democrat Congressional candidates. Certainly it must have been psychological blow of no small proportions to have been met at various airports by pickets carrying signs such as those at a Missouri airport which read:

"LESS PROFILE -- MORE COURAGE!"
"LET'S RESCUE CUBA!"
"LESS ROCKING AND MORE BLOCKING!"
"WHY NOT VICTORY?"
"WIN THE COLD WAR WITH COLD FEET?"

In view of such public demonstrations, coupled with anguished handwringing from Democrat Congressional candidates having a tough time running for re-election on Kennedy's appeasement policies, clearly Kennedy and his advisors realized that the time had come for a spectacular move.

Planned with exquisite timing, utilizing the full facilities of the communications media, the curtain lifted on the "Blockade Cuba Extravaganza" on Monday, October 22, at 7p.m. Eastern daylight saying time, with Kennedy's speech to the nation. This was followed by breathless announcements on the hour and on the half-hour, and frequent interruptions of regularly-scheduled programs, all geared to whipping the American people into a state of hysteria because of the Cuban threat. The purpose was to convince the American people that in such a state of emergency it would be most unwise to "change horses in the middle of the stream" by electing Conservative Republicans or Conservative independents to Congress. The air waves crackled with instructions about radiation burns, fallout shelters, estimates of the number of minutes or seconds it would take a missile to be launched and devastate American cities, etc. As a result, some "Chicken Little" housewives dashed madly to the supermarkets, stripping the shelves of canned goods and distilled water.

To the calm observer, all of these Administration-directed gyrations were as phony as a three dollar bill. As the cliche so aptly puts it, "the leopard does not change its spots" -- nor does the White House, which has been under the firm grip of the Communist-accommodating Council on Foreign Relations for the past several decades, suddenly jettison the policy of appeasement and surrender, although at times it may go to great lengths to create the impression in the public mind that it has veered from the certain disaster such policies guarantee.

COMMUNIST-DOMINATED U. N. CONTROLS U. S. FOREIGN POLICY

Wistfully hoping that the leopard had indeed changed his spots,

TWELVE MISSLE SITES ARE UNDER CONSTRUCTION IN CUBA

The missile bases are surrounded by tall strong walls with high sentry boxes heavily armed. On the outside, numerous Soviet soldiers armed with "pepechas" - Russian machine-guns - stand guard. There is another sentry manned by Cuban soldiers, approximately three hundred and fifty feet from the latter one. The land that rests between the two lines of soldiers is completely mined. No Cuban soldiers or official is allowed to enter these bases.

We have been informed of the location of the following bases:

. . . Pinar del Rio Province: There is a missile base in the region of Paco-Taco, near Soroa, aiming at New Orleans, Houston and the Redstone Missile Arsenal in Alabama.

. . . Matanzas Province: There is a missile base in Camarioca covering Miami.

. . . Las Villas Province: There is a missile base in the farm Buenavista, located on the road leading from the sugar factory Trinidad to the city of Trinidad on the Southern Coast of Las Villas Province.

The importance of this base consists in that it is geographically located on the nearest and most direct distance from Cuba to the Panama Canal.

. . . Oriente Province: There is a missile base in Punta de Mulas near Banes, set up for the possible destruction of Cape Canaveral.

Law of the Land?

COMMUNIST-DOMINATED U. N. CONTROLS U. S. FOREIGN POLICY

Wistfully hoping that the leopard had indeed changed his spots, some Conservative editors, after listening to Kennedy's dramatic speech, wrote statements such as the following:

"For too long a time we have been too content to put our trust in such organizations as the UN and the Organization of American States (OAS), and depending upon them to do things we knew full well they would not do. Now it seems President Kennedy has finally come to the realization that there can be no substitute for acting on our own in the defense of our own interests. . . ."

Another Conservative editor wrote:

"There can be no turning back from our stated intention to meet this threat with whatever force is necessary to overcome it . . ."

These two editors should have filed their hopes in their desk drawer, and instead carefully read, word for word, exactly what Kennedy said in his speech of October 22. Particularly should they have noted the following passages of Kennedy's speech:

"Under the Charter of the United Nations we are asking tonight that an emergency meeting of the Security Council be convoked without delay to take action against this latest Soviet threat to world peace."

How -- pray tell -- can the UN Security Council be expected to take any action against this "Soviet threat to world peace" when the Soviet Union itself is a member of the UN Security Council and can exercise a veto? Also, it should be remembered that in a showdown, should the Cuban blockade issue be brought to the General Assembly, 55 of the 110 votes belong to the Afro-Asian

. . . Matanzas Province: There is a missile base in Camarioca covering Miami.

Law of the Land?

(AN EDITORIAL BASED ON A RADIO BROADCAST By LOUISE EVANS)

BILL OF RIGHTS—*The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.*

(Reprinted from AMARILLO (Tex.) DAILY NEWS)

What is the "law of the land"?

What is the difference between a "court order" and the "law of the land"?

There is only one law of this land—that which is incorporated in the Constitution of the United States, and that which the Representatives of the people—the Legislatures—write into law. The latter must be found to offer no injury to the Constitution before they, too, become the "law of the land."

There is no provision in the Constitution for the Courts or the Presidents to make law. (At only one point may the President attempt to make law, and that is in the making of treaties. But the President must get the "advice and consent" of the U.S. Senate before the treaty becomes law. The U.S. Senate, too, is a Legislative body, elected by the people.)

The Mississippi situation demands that the people take a long look at the phrase, "law of the land."

For instance, let us consider one "court order" of recent times. The U.S. Supreme Court ordered that all members of the Communist Party United States of America register before Dec. 20, 1961. But this "order" was based on "law." The Representatives of the people had passed the Subversive Activities Control Act of 1950. For more than 10 years, the U.S. Supreme Court evaded the issue, accepting the stratagems of those who used legal devices to hold off the application of the Internal Security Act. But on June 5, 1961, the Supreme Court did hold that, first the CPUSA must register by Nov. 20, 1961, then the officers of the party by Nov. 30, 1961, and finally the members of the party by Dec. 20, 1961.

"Have any Federal troops been called out to enforce this court order?" demanded an irate reader Sunday. "Has one Communist registered? Has the Department of Justice deployed federal marshals and called upon the Army engineers to supply marshals in their work of rounding up, arresting, fining and jailing the officers, much less the members of the CPUSA?"

Of course, the answer is no.

However, in the Mississippi situation there is no "law" to bulwark the "court order." Lacking this predicate, the 10th point in the Bill of Rights still prevails.

. . . .

Another Conservative editor wrote:

"There can be no turning back from our stated intention to meet this threat with whatever force is necessary to overcome it . . . ."

These two editors should have filed their hopes in their desk drawer, and instead carefully read, word for word, exactly what Kennedy said in his speech of October 22. Particularly should they have noted the following passages of Kennedy's speech:

"Under the Charter of the United Nations we are asking tonight that an emergency meeting of the Security Council be convoked without delay to take action against this latest Soviet threat to world peace."

How -- pray tell -- can the UN Security Council be expected to take any action against this "Soviet threat to world peace" when the Soviet Union itself is a member of the UN Security Council and can exercise a veto? Also, it should be remembered that in a showdown, should the Cuban blockade issue be brought to the General Assembly, 55 of the 110 votes belong to the Asian-African bloc which is more than sympathetic to the Soviet Union.

Under Point 7, Kennedy stated, in part:

"I call upon him (Khrushchev) ... to join in an historic effort to end the perilous arms race .... We have in the past made strenuous efforts to limit the spread of nuclear weapons. We have proposed the elimination of all arms and military bases in a fair and effective treaty. We are prepared to discuss new proposals for the removal of tensions on both sides . . . ."

How unfortunate that the vast majority of the American people and the nation's press preferred to be selective in their listening to Kennedy's speech and to "tune out" all discordant notes which, to the careful listener, gave a clue of things to come. Actually, it would appear that Kennedy was using the Cuban crisis to put in a plug for disarmament!

ARE THE COMMUNISTS CALLING THE TUNE ON U. S. BLOCKADE OF CUBA?

The American public and Conservative newspaper editors would have done well to have noted carefully the Associated Press dispatch, datelined New York, which stated that the Communist Party, U.S.A., on October 23, "urged President Kennedy to meet immediately with Soviet Premier Khrushchev on the Cuban crisis." The telegram was signed Gus Hall, official head of the Communist Party, U.S.A.

To analytical observers of the Cuban Extravaganza, it therefore came as no surprise when one day later, on October 24, Khrushchev sent a letter to his atheistic acolyte, Bertrand Russell, suggesting a summit meeting with Kennedy on the subject of the U.S. "quarantine" of Cuba. Khrushchev also stated that the Cuban "quarantine" would not provoke him to take reckless action.

Of course Khrushchev will not make any reckless decisions! Why should he? Why should Khrushchev resort to military might when he is, and has been, gaining every single one of his objectives throughout the world by the stealthy and difficult-to-detect method of infiltration of high policy-making positions in the governments of countries which the Kremlin has marked for ultimate destruction?

For example, witness the apparent smooth and calculated cooperation between the U.S., the UN and the Kremlin. It came as little surprise that later during the same day, October 24, Acting Secretary General of the United Nations, U Thant, who is considered by some to be a lackey of the Kremlin, according to the Associated Press "appealed Wednesday night to President Kennedy to suspend the naval arms quarantine on Cuba and to Premier Khrushchev to halt Soviet ships bearing arms to that country." U Thant further urged, according to the AP, "a freeze of two or three weeks that would permit U.S.-Soviet negotiations."

Is it not interesting how conversant with U.S. election dates is Mr. U Thant of Burma? His so-called moratorium would extend beyond the November 6 Congressional elections. Thus, during such a moratorium the entire United States would be in a state of suspended animation, listening breathlessly to the latest

Mental Health - A Political Weapon

By Mary Helen Brengel

An Associated Press story in the NEW ORLEANS TIMES-PICAYUNE of October 13, 1962, announced that Dr. Winfred Overholser of Washington, D.C., has been appointed by the government as the psychiatrist they wish to examine Major General Walker, in company with Dr. R. L. Stubblefield of the Southwest Medical Center in Dallas. According to the AP story, Dr. Stubblefield was selected by General Walker's defense; Dr. Overholser was until recently "head of St. Elizabeths Hospital, a government mental facility in Washington, D.C."

Perhaps it would be well to briefly go into the background of this Dr. Overholser. In July, 1949, Dr. Winfred Overholser, then Superintendent of St. Elizabeths Hospital, was appointed to head a committee to study Alaska mental health problems.

The Alaska Mental Health Bill was drafted for the purpose of carrying out the recommendations of the Overholser Committee in 1950. Labelled "A Bill to provide for the hospitalization of the mentally ill of Alaska, and for other purposes," the bill provided that $12-1 2 million and one million acres (approximately 1,562 square miles) of land be granted to the Territory of Alaska by the United States.

Critics of the Alaska Mental Health Bill pointed out that the number of mental patients in Alaska needing care averaged only 345 at any given time. Since the care of 345 mental patients did not seem to justify the appropriation of the entire income to be derived from one million acres of land, and since the bill contained provision for the transport of patients to or from any State its critics termed the bill a plan for a "Siberia - U.S.A."

Dr. Winfred Overholser, driving force behind the Alaska Mental Health bill testified before a subcommittee of the House which studied the bill before it was submitted for vote to the House. It was reported at that time that Dr. Overholser did his best to discourage any change in the Act which would permit an appeal to a jury. At one point Overholser stated that the demand for a jury would come only from "your more paranoid patients, those who have a lot of ideas of persecution." Dr. Overholser enunciated before the committee the strange doctrine of employing the power of the State to force Americans to undergo asylum care and treatment for alleged mental conditions which are in no way dangerous to the safety of the general public. He spoke of the "economy" of getting these persons early, before their alleged illness has progressed to a point where it can be recognized as such by the layman. Dr. Overholser declared that the fate of these individuals is a matter for doctors to decide, and left the impression that he hoped the day might come when physical as well as psychological disorders may become subject to the interest of the government.

At this point, perhaps it would be well to raise the question: Dr. Overholser is a government psychiatrist. Has he been licensed by any State to practice medicine? If not, who, or what group of doctors, has attested to his capabilities to practice medicine? Surely this point should be clearly established.

One of the most outspoken opponents of the Alaska Mental Health Act was the late Congressman Usher L. Burdick, who said:

> "What is the cause of this sudden movement for the cure of the mentally sick? Heretofore the States have pretty well taken care of this subject . . .
>
> "This does not suite the One-Worlders, those who have set out, through UNESCO, a branch of the United Nations to train men's minds to make their thinking and conduct fit into a One World government. Should any individual resist such a move, this mental health program fostered by the United Nations will, they say, gradually influence him to a different course of thinking -- to accept it gradually, or be forced to it by explosive means . . . .
>
> "This Congress, by a slick move, quietly slipped a bill through the House providing that the place to put these 'mentally ill' persons (that is, persons who do not agree with the powers that be) is in Alaska, and $10-1 2 million and one mil-

Strange Associations Of Defense Secretary McNamara

By Edith Kermit Roosevelt

The latest report of the President of the Center for Democratic Institutions sheds new light on the continuing mystery of the power wielded by Pentagon aide Adam Yarmolinsky and the related issues of the military muzzling and our "no win" policy.

This report, issued March 31 of this year, lists Defense Secretary Robert S. McNamara as a "founding member" as does the report for 1959-60. Joseph P. Lyford, who handles the Center's public relations in New York, recently told this writer that McNamara had contributed to the Center to the tune of at least $1,000 annually since it was founded in 1959 by the Fund for the Republic.

The Center, which is now the Fund's main activity, was established to divert attention from the Fund's controversial activities which were the subject of a report by the House Un-American Activities Committee. This report was suppressed after pressure was applied.

The Center's power is seen by the fact that Yarmolinsky, who formerly headed the Fund for the Republic's Washington office, is now special assistant to Defense Secretary McNamara. Yarmolinsky's mother, Babette Deutsch, told a reporter last spring that McNamara considered her son the one man who was "indispensable" to him and that the Defense Secretary would accept no other man. Yarmolinsky was the author of a slanted report in August, 1955, "Case Studies in Personnel Security," which attacked our Federal Security system. But an attack on our security system by Center personalities is no departure. On August 6th, W.H. "Ping" Ferry, vice president of the Fund for the Republic, accused FBI Director J. Edgar Hoover of peddling "sententious poppycock" in building a false legend of Communism's strength.

Even after this attack, McNamara still did not dissociate himself publicly with the Fund for the Republic and its creature, the Center for Democratic Institutions in Santa Barbara, California. Indeed, how could he since his Defense policies from the beginning have paralleled the Center's "Study of War & Democratic Institutions" instituted in 1959?

The administration's "no-win" policy is spelled out in a preface to this pamphlet by Reinhold Niebuhr, vice-president emeritus of Union Theological Seminary, stating: "We are involved in a race which neither we nor the Russians can win."

Walter Millis even visualizes surrender. In the Center pamphlet "Permanent Peace," February 1961, he states on page 6:

"If the price of avoiding all-out thermonuclear war should prove to be acquiescence in the 'Communist domination of the world'. . . it seems probable that the price will be paid.'

Other parallels between Defense Department policies and the "educational" studies of the tax-exempt Fund for the Republic are:

(1) McNamara's continuing build-up of the Army's Special Forces to wage guerrilla warfare. In "The Peace Game," a working paper prepared for the Center and published in the Saturday Review of Literature, Sept. 24, 1960, Millis pictures a world in which organized warfare has been eliminated and issues are decided by guerrillas. Are these guerrillas to be used to free Hungary or Cuba, or, more likely, to create Socialist governments in Angola, Katanga and throughout South America?

(2) McNamara's proposed cutback in the National Guard and reserve units. Millis, Center staff member, writes in "Individual Freedom and the Common Defense," a Fund for the Republic pamphlet published in November 1957, that "the ready reserve and its training tend to lose what little realism they ever had." (Page 26)

Civilian armed forces controlled by separate state governments might stand in the way of the planners!

(3) Sweeping changes to centralize power inaugurated by McNamara throughout the Defense Department including a plan to centralize all intelligence agencies into one single agency.

In "The Constitution and the Common Defense," a Fund for the Republic pamphlet published in February, 1959, Millis states on page 35:

"Foreign and military policy must be unitary; this means that in

this point should be clearly established.

One of the most outspoken opponents of the Alaska Mental Health Act was the late Congressman Usher L. Burdick, who said:

"What is the cause of this sudden movement for the cure of the mentally sick? Heretofore the States have pretty well taken care of this subject . . .

"This does not suite the One-Worlders, those who have set out, through UNESCO, a branch of the United Nations to train men's minds to make their thinking and conduct fit into a One World government. Should any individual resist such a move, this mental health program fostered by the United Nations will, they say, gradually influence him to a different course of thinking -- to accept it gradually, or be forced to it by explosive means . . . .

"This Congress, by a slick move, quietly slipped a bill through the House providing that the place to put these 'mentally ill' persons (that is, persons who do not agree with the powers that be) is in Alaska, and $12-1/2 million and one million acres of land in Alaska have been authorized for this purpose. This land is to be sold and the proceeds used in supporting the Alaska Mental Health program handled by the Territory of Alaska . . . .

"The proponents of UNESCO -- and they are entrenched in State and Federal governments -- declare at once that those who disapprove their conspiracy are crazy, or use the sweeter language, that 'they are suffering from paranoid delusions.'....

"This whole program is a brainwashing procedure borrowed from the Russians . . . . and embraces the same finesse in execution that the Communists in Russia have used and are now using . . . ."

Little has been heard of the Alaska Mental Health program since the passage of this 1956 Act. But with the apparently renewed use by the Kennedy Administration of mental health charges as a political tool against outspoken critics of Administration policies, such as General Walker, many people are caused to wonder if a "Siberia, U.S.A." actually exists today in Alaska.

It should be asked -- why has the government chosen Dr. Winfred Overholser to examine General Edwin A. Walker? Could it be because Dr. Overholser is an advocate of Federal power to induce asylum care and treatment of persons who are not recognizable as mentally ill by anyone other than Dr. Overholser?

Defeat Kennedy's Candidates in November Election

While the long-range aims of the Communist Party and the Kennedy Administration, in the suppression-by-armed-force of the Constitutional rights of free Americans, are frequently in full accord, never before has it been so obvious as in the Federal occupation of Oxford, Mississippi.

Applauding the dictatorial actions of the Kennedy Brothers, spokesmen for the Communist Party U.S.A. released a statement of their position to the Associated Press on October 2:

"We support all acts of federal intervention . . . to suppress this rebellion. We fully support moves by President Kennedy in this direction."

Indeed, our country has traveled far. Now, when a State seeks to stand up for its Constitutionally-guaranteed rights the President and the Communist Party are in complete agreement as to what should be done: crush this "rebellion" with tear gas bombs and bayonets!

Opposing force with force will not, of course, correct the situation. The question is not how to fight Federal troops already in Mississippi, but rather how to fight the kind of political thinking that sanctions the illegal dispatching of armed troops to enforce a judicial violation of the Constitution.

Here is what the Charleston, S.C., NEWS &COURIER had to say, in a recent editorial, about how to keep Kennedy's Congressional accomplices from continuing to aid him in his drive for total power:

"Though political issues are confused today in both parties, the demonstration of military might at Oxford, Mississippi, may help to shock the citizens of all regions into realization

organized warfare has been eliminated and issues are decided by guerrillas. Are these guerrillas to be used to free Hungary or Cuba, or, more likely, to create Socialist governments in Angola, Katanga and throughout South America?

(2) McNamara's proposed cutback in the National Guard and reserve units. Millis, Center staff member, writes in "Individual Freedom and the Common Defense," a Fund for the Republic pamphlet published in November 1957, that "the ready reserve and its training tend to lose what little realism they ever had." DON'T BE DECEIVED BY HIS "BOLD" TALK

Congress has now adjourned, after having passed a weak-worded resolution against Cuba which did nothing more than approve the highly dangerous do-nothing status quo of the Kennedy Administration. However, informed observers feel that in the closing days of this year's Congressional campaign, President Kennedy will come forward on a nationwide television broadcast with some ringing declaration calculated to "sell" the American people on the belief that he now intends to take firm action regarding Cuba.

In his attempt to drum up votes for Democrat candidates, Kennedy just may go so far as to propose a blockade of Cuba. But it will take a lot more than a mere last-minute nationwide broadcast to convince thoughtful Americans that the leopard has changed his spots!

Further, it should be recalled that at the last minute, Kennedy called off air cover for the ill-fated Bay of Pigs invasion by the Cuban freedom fighters. What, then, is to prevent him from making a "bold pronouncement" about a blockade prior to the November elections, and then, as soon as the elections are over, reversing his position and returning to his stance of "do nothing"?

It will be recalled that when Kennedy was campaigning for the presidency, he stated that his Cuban policy was to "let Castro know that we do not intend to be pushed around any longer."

In view of Kennedy's past performance -- or, rather, lack of performance -- only official newsreel photographs of a naval and air blockade around Cuba will now convince the American people that he means business! We believe that the American people have been fooled for the last time by Kennedy's campaign promises.

HOW NEAR?

Cuba is only 750 miles from the Panama Canal, 90 miles from Key West, 200 miles from Miami, 400 miles from Cape Canaveral and 600 miles from the U.S. Naval Station in Puerto Rico.

Defeat Kennedy's Candidates in November Election

While the long-range aims of the Communist Party and the Kennedy Administration, in the suppression-by-armed-force of the Constitutional rights of free Americans, are frequently in full accord, never before has it been so obvious as in the Federal occupation of Oxford, Mississippi.

Applauding the dictatorial actions of the Kennedy Brothers, spokesmen for the Communist Party U.S.A. released a statement of their position to the Associated Press on October 2:

> "We support all acts of federal intervention . . . to suppress this rebellion. We fully support moves by President Kennedy in this direction."

Indeed, our country has traveled far. Now, when a State seeks to stand up for its Constitutionally-guaranteed rights the President and the Communist Party are in complete agreement as to what should be done: crush this "rebellion" with tear gas bombs and bayonets!

Opposing force with force will not, of course, correct the situation. The question is not how to fight Federal troops already in Mississippi, but rather how to fight the kind of political thinking that sanctions the illegal dispatching of armed troops to enforce a judicial violation of the Constitution.

Here is what the Charleston, S.C., NEWS &COURIER had to say, in a recent editorial, about how to keep Kennedy's Congressional accomplices from continuing to aid him in his drive for total power:

> "Though political issues are confused today in both parties, the demonstration of military might at Oxford, Mississippi, may help to shock the citizens of all regions into realization of the distance down the road that our free country has traveled in recent years.
>
> "Since the language the Kennedys best understand is politics, we can best display our feelings by voting against the Kennedy candidates at the polls in November."

Investigate the platforms of your Congressmen and Senators. If you agree with what they say, check the records to see if they VOTE the same way they talk. If they talk and vote Conservatively ... if they oppose the Socialist, Communist-accommodating policies of the Kennedy Brothers, then vote for them on November 6 regardless of their party affiliation.

But if your elected representatives in Congress are merely rubber stamps and boot polishers for the Kennedy administration, voting for every piece of Socialist, welfare legislation in order to preserve their political hides, LET THEM KNOW YOU ARE WORKING TO DEFEAT THEM. Your vote in the November election may be one of your last opportunities to exercise a free choice at the polls.

In his attempt to drum up votes for Democrat candidates, Kennedy just may go so far as to propose a blockade of Cuba. But it will take a lot more than a mere last-minute nationwide broadcast to convince thoughtful Americans that the leopard has changed his spots!

Further, it should be recalled that at the last minute, Kennedy called off air cover for the ill-fated Bay of Pigs invasion by the Cuban freedom fighters. What, then, is to prevent him from making a "bold pronouncement" about a blockade prior to the November elections, and then, as soon as the elections are over, reversing his position and returning to his stance of "do nothing"?

It will be recalled that when Kennedy was campaigning for the presidency, he stated that his Cuban policy was to "let Castro know that we do not intend to be pushed around any longer."

Deliberate Plan for U S A

(Reprinted from CHARLESTON (S.C.) NEWS & COURIER)

Is the mounting disaster that is U.S. foreign policy essentially rooted in presidential indecision? Sources as far apart as Time magazine and the conservative National Review have suggested this to be the circumstance.

In our considered opinion, nothing could be further from the truth. Indeed, it would be well for the United States were our difficulties so simply explained. Determined patriots then might force on a confused chief executive a policy which at least occasionally put the interests of this nation above all else.

So far from floundering aimlessly, the Kennedy administration has worked and is working toward a goal all too few have yet recognized. This goal is an accommodation with the Communist enemy. The apparent uncertainty affected by the President from time to time is no more than a means of stalling until pressure from irate citizens has subsided temporarily and the next step toward ultimate reconciliation with international Socialism can be safely taken.

U Thant, Red-sympathizing acting Secretary General of the United Nations, put the idea with admirable clarity when he predicted the easing of world tensions through a gradual meeting and mingling of Communist and Free World concepts. It is no accident that the present U.S. Government has so resolutely supported the Burmese candidacy for the post of permanent Secretary General.

The chief method adopted by the President and his coterie to attain accommodation is the "no-win" policy exposed by Sen. Strom Thurmond. Evidence of the policy's implementation is revealed not only in such negative episodes as the Laotian surrender, but also by positive attempts to prove an essential unanimity of purpose with the Red enemy.

Thus, in Algeria, in Ghana, in Indonesia, we strive to outdo Moscow and Peiping in lending aid and support to regimes whose Communist ties and sympathies are undeniable. Similar competition long has been under way for the Communist states of Poland and Yugoslavia.

The aim is not to overthrow the Communists, but rather to surpass them at their own revolutionary game. In the jargon of Marxist ideology, we have entered fully into a contest of "Socialist" competition. Whatever the outcome, Socialism will be the victor, and freedom everywhere the loser.

In short, John Fitzgerald Kennedy & Co., have both a definite program and plans to put it into effect. Whether program and plans would be tolerated by American citizens once they understood is another matter. Deliberate attempts to hide real administration purpose suggest strongly that the Kennedyites have their doubts about consent of the people.

Eyewitness Describes Brutality of Federal Marshals

(Reprinted from New Orleans TIMES-PICAYUNE)

New Orleans - Oct. 9

Mississippi state Sen. John C. McLaurin charged here Tuesday night that federal marshals deliberately incited rioting on the University of Mississippi campus, beat students and invaded domitories a half-mile from the rioting.

The federal marshals, he said, were on the campus "for the purpose of inciting students to riot. For that is what the Kennedy brothers wanted so they could send their mass of troops."

'FIRED INTO BACKS'

Sen. McLaurin said he watched the start of violence from a position immediately behind the line of federal marshals. Nothing larger than an egg was thrown, he said. And the students, at the urging of highway patrolmen, were moving from the marshals, he added.

"Out of a clear blue sky," the senator said, "this man (Chief Marshal James) McShane, who is a guerilla, gave the order 'let 'em have it—gas.' "

Then Sen. McLaurin said the marshals fired gas canisters directly into the backs of the patrolmen and into the students, "not just into the ground to release the gas."

The senator asserted that about 150 students were put into a "dungeon (a storage room)" into which about 15 persons could comfortably stay.

'BEATEN WITH STICKS'

Gas in the room was so intense that marshals kept their masks on, the senator said, but they did not give masks to the students. The students were beaten with sticks "if they made the slightest movement or talked to one another," he charged.

He said the students were not allowed to go to rest rooms for six to seven hours, were given no food or water for 10 to 12 hours, were held 12 to 15 hours, then were released without charge.

Backing his assertion that the federal authorities incited violence, the senator said marshals went a half-mile away from the disturbance and tear-gassed a dormitory in which boys were sleeping and studying.

ACTIONS HELD ILLEGAL

He said a girls' dormitory also was the object of a tear gas attack and that some girls were forced to flee half-dressed and others in night clothes.

Sen. Mc Laurin said the actions of President Kennedy and his brother, Attorney General Robert F. Kennedy, in Mississippi were illegal.

He asked, "Are we, as Americans, willing to sit idly by and allow two power-hungry brothers to assume jurisdiction over a sovereign state?

Earlier, Sen. McLaurin had deviated from his prepared text to note that the pistols carried by U. S. marshals were .38-caliber.

He said Guihard was shot in the back with a .38 caliber bullet. "I leave it to your judgment —he was on our side—as to who shot Paul Guihard," the senator continued.

FAREWELL, G. O. P. !

(Reprinted from THE AMERICAN PURPOSE Newsletter, Edward Albertson, Editor)

Somewhere during his wanderings through the ivied walls of Harvard, or possibly the London School of Economics, Mr. Kennedy must have picked up an esoteric Socialist doctrine asserting that one wrong turn deserves another. Having fumbled the ball with "Whizzer" White, he came right back with an equally unqualified man in Arthur Goldberg. Of course, from a Socialist point of view, Arthur is well qualified, having served as an attorney for Big Labor and as a board member of the Carnegie Endowment for International Peace and a Director of

about such an obviously bad appointment which will insure the Liberal-left of a large measure of control over all phases of our economic and political life, then the GOP has truly outlived its usefulness, and those patriots who are interested in preserving their freedoms under God and the Constitution must begin to look elsewhere. It has been our hope that we could stay within the GOP and work for a general reform of its leftward swing toward Socialism, but it grieves us to be forced to admit that there seems little likelihood of such reform taking place.

Congressman John Rousselot Comments On The New Book, "America's Unelected Rulers"

The recently published book, AMERICA'S UNELECTED RULERS, is indeed one that every single American citizen should read. I am not prepared to state whether or not every single fact which you enunciate is absolutely true, but you have certainly bent over backwards to document your case in every possible way.

The fact that you have taken such great pains to thoroughly explore all the activities of the Council on Foreign Relations and its related organizations and personnel is important to our American Constitutional

sonally believes that your book, AMERICA'S UNELECTED RULERS, is an accurate presentation and am pleased that the work has been completed. Together with Dan Smoot's book, THE INVISIBLE GOVERNMENT, this should begin to wake up our American citizenry.

As you know, I have introduced a resolution which calls for a complete investigation of the State Department and its policy direction. My investigation contemplates a complete review of the part played by the Council on Foreign Relations in molding our foreign

yet recognized. This goal is an accommodation with the Communist enemy. FAREWELL, G. O. P. !

(Reprinted from THE AMERICAN PURPOSE Newsletter, Edward Albertson, Editor)

Somewhere during his wanderings through the ivied walls of Harvard, or possibly the London School of Economics, Mr. Kennedy must have picked up an esoteric Socialist doctrine asserting that one wrong turn deserves another. Having fumbled the ball with "Whizzer" White, he came right back with an equally unqualified man in Arthur Goldberg. Of course, from a Socialist point of view, Arthur is well qualified, having served as an attorney for Big Labor and as a board member of the Carnegie Endowment for International Peace and a Director of the Ford Fund for the Republic, both of which, as we have pointed out before, are affiliated with the vast Foundation empire of Nelson Rockefeller. His elevation to the bench also maintains the seat of the CFR (Council on Foreign Relations), since retiring Justice Frankfurter was a CFR man, as is Goldberg.

One of the more amazing aspects of this appointment was portrayed in newspaper stories under headlines such as this: "GOP Leaders Laud Goldberg Appointment." Among the leaders quoted were Senate Minority Leader Everett Dirksen, Sen. Barry Goldwater and Rep. William Miller, Republican National Chairman. If men of such high standing in the Republican Party can take this me-too attitude about such an obviously bad appointment which will insure the Liberal-left of a large measure of control over all phases of our economic and political life, then the GOP has truly outlived its usefulness, and those patriots who are interested in preserving their freedoms under God and the Constitution must begin to look elsewhere. It has been our hope that we could stay within the GOP and work for a general reform of its leftward swing toward Socialism, but it grieves us to be forced to admit that there seems little likelihood of such reform taking place.

AVE ATQUE VALE

Therefore, and with a heavy heart, we say, "Farewell, GOP. We have fought in your battles and voted for your candidates for 30 years, albeit, the last few with some misgivings. Party loyalty may be highly commendable, but it is also a two-way street. You are no longer serving our purpose, the American purpose, but some mad, Socialist scheme of your own. It is not easy to sever a connection of such long standing, but the time has come to do so. We herewith give you into the loving hands of Nelson Rockefeller, Jacob Javits, Thomas Kuchel, Clifford Case and Richard Nixon. May you and they find comfort in your declining years."

Support Proposition 24 In California

Californians will be afforded a rare opportunity in the November elections to cast their votes to outlaw Communists and

version. It imposes conditions on the use of public buildings and property.

The argument in support of

thrown, he said. And the students, at the urging of highway patrolmen, were moving from the marshals, he added.

Our Own Ships, Yet!

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

During World War II, the United States handed over to Russia 10.8 billion dollars worth of lend-lease material, including 121 merchant ships.

Russia still has 84 of them. Russia, in fact, has stolen them, refusing to give them back or to pay for them.

Now the State Department has admitted that "five or possibly six" of those Russian-held U.S. ships have been used by the Russians to carry arms to Communist Cuba in the current flagrant violation of the Monroe Doctrine and and threat to American security.

With a shrug, the State Department indicates we are helpless to do anything about this situation. But we are not helpless at all.

These are only "five or possibly six" of the ships that an American naval blockade of Communist Cuba could stop and prevent from supplying Reds in Cuba. And, incidentally, while stopping these lend-lease ships, we could see to it that they are returned to their proper owner from the thieving aggressors who are using them against us.

ed out before, are affiliated with the vast Foundation empire of Nelson Rockefeller. His elevation to the bench also maintains the seat of the CFR (Council on Foreign Relations), since retiring Justice Frankfurter was a CFR man, as is Goldberg.

We herewith give you into the loving hands of Nelson Rockefeller, Jacob Javits, Thomas Kuchel, Clifford Case and Richard Nixon. May you and they find comfort in your declining years."

Support Proposition 24 In California

Californians will be afforded a rare opportunity in the November elections to cast their votes to outlaw Communists and subversives in the State by voting "Yes" on Proposition 24. Fifty thousand volunteers obtained a million signatures in order to qualify this initiative measure for inclusion on the California ballot.

According to California State Assemblyman Louis Francis, who is the author of the bill, "This is the first time in California's history where an initiative measure has qualified on the ballot by a volunteer grass roots movement, without any professional assistance, and without paying for the circulation of petitions or signatures."

Proposition 24 denies Communist and subversive organizations political party status and any tax exemptions. It further requires teachers and other employees of public educational institutions to answer Congressional and legislative committee inquiries concerning Communist affiliation and subversion. It imposes conditions on the use of public buildings and property.

The argument in support of Proposition 24 which will appear in the voter's pamphlet for the California general election points out "It has been repeatedly proved that the Communist Party is especially concentrating on California, as documented by the 1961 report of the State Senate Fact-Finding Subcommittee on Un-American Activities . . . . Despite the increasing need, there has been no major anti-subversive legislation in California for a decade. During the 1961 legislature, 18 anti-subversive measures were introduced by eight different legislators, but not one was enacted into law. . . ."

THE INDEPENDENT AMERICAN strongly recommends to its California readers that they vote "Yes" on Proposition 24 in November. And -- other States -- please note! Voters throughout the U.S. would like a chance to cast their votes against Communism!

Patriotism And Presidents

Patriotism means to stand by the country.

It does not mean to stand by the President or any other public official save exactly to the degree in which he himself stands by the country.

It is patriotic to support him insofar as he efficiently serves the country. It is unpatriotic not to oppose him to the exact extent that by inefficiency or otherwise he fails in his duty to stand by the country.

In either event, it is unpatriotic not to tell the truth - whether about the President or anyone else - save in the rare cases where this would make known to the enemy information of military value which would otherwise be unknown to him.

--THEODORE ROOSEVELT

now forced to document their case if there is another side to be presented. There are those in our society who would be unwilling to believe that the Council on Foreign Relations has presented such a threat to our free republic.

I am one of those who persons who were willing to investigate such "sensitive" subjects.

These are only "five or possibly six" of the ships that an American naval blockade of Communist Cuba could stop and prevent from supplying Reds in Cuba. And, incidentally, while stopping these lend-lease ships, we could see to it that they are returned to their proper owner from the thieving aggressors who are using them against us.

But the Kennedy Administration seems content to let Russia continue to build a Communist satellite 90 miles from our shores, as the "Kennedy Doctrine" of inaction has supplanted the Monroe Doctrine against outside intervention in the Western Hemisphere.

The violation of the Monroe Doctrine justifies imposition of naval and aerial blockade to seal Castro Cuba off from the rest of the world. It would not be easy to take such action; but failure to take action now may confront us with far more serious problems with far more difficult solutions later.

Conservatives are being informed when and how to take action on vital legislation by "reminder" services, such as. . .

"Right-to-Write" Committee, Maisie Turner Waters, Executive Secretary. P. O. Box 722, Waco, Tex. Also furnishes offi-

Directory of Conservative Candidates In Nov. Election

Space does not permit the listing of the platform of each of the following candidates for election either to the House of Representatives or to the U.S. Senate. Suffice to say that the listing of such candidates as Conservatives is based on their campaign literature, which THE INDEPENDENT AMERICAN has received, or in the case of the incumbent Congressmen seeking re-election, on their previous voting record in Congress.

(SPECIAL NOTE - Attention Southern voters: The Congressional Election on November 6 is a general election. This means that if you are a registered voter you may vote for the candidate you please regardless of your party affiliation or his party label. There is no law that says that Southern Democrats must vote for the Democrat candidate. In most cases the Conservative candidate in the South is a Republican who is opposing a Kennedy Democrat. In such cases, vote Conservative by voting for the Republican candidate, who opposes the Socialist, Communist-appeasement of the Kennedy Administration.)

ALABAMA

SENATE - James D. Martin, Republican, opposing 100% pro-Socialist Sen. Lister Hill, Democrat incumbent. State Headquarters: Thomas Jefferson Hotel, Birmingham.

ARIZONA

SENATE - Evan Mecham, Conservative, opposing 100% pro-Socialist Sen. Carl Hayden, Democrat incumbent. State Headquarters: Box 636, Glendale.

ARKANSAS

SENATE - Dr. Ken Jones, Republican, opposing Ultra-Liberal, 75% pro-Socialist Sen. J. William Fulbright, Democrat incumbent. State Headquarters: 4314 W. Markham, Little Rock.

CALIFORNIA

SENATE - Howard Jarvis, Write-in Candidate, Conservative, opposing 75% pro-Socialist Sen. Thomas H. Kuchel, Republican incumbent. State Headquarters: Alexandria Hotel, 210 West 5th St., Los Angeles.

HOUSE

15th Dist.: Arthur Young, Conservative, opposing 100% pro-Socialist Rep. John J. McFall, Democrat incumbent.

19th Dist.: Robert T. Ramsay, Independent, opposing 100% pro-Socialist Rep. Chet Holifield, Democrat incumbent.

20th Dist.: Rep. H. Allen Smith, Republican incumbent.

21st Dist.: Rep. Edgar W. Hiestand, Republican incumbent.

22nd Dist.: Steve Foote, Republican, opposing 100% pro-Socialist Rep. James C. Corman, Democrat incumbent.

24th Dist.: Rep. Glenard P. Lipscomb, Republican incumbent.

25th Dist.: Rep. John H. Rousselot, Republican incumbent.

26th Dist.: Dr. Daniel Beltz, Republican, opposing "extreme Leftist," 100% pro-Socialist Rep. James Roosevelt, Democrat incumbent.

28th Dist.: Rep. James B. Utt, Republican incumbent.

29th Dist.: Bill Richardson, Conservative Republican, opposing 100% pro-Socialist Rep. D. S. Saund, Democrat incumbent.

FLORIDA

SENATE - Emerson Rupert, Republican Conservative, (opposing 70% pro-Socialist Sen. George A. Smathers, Democrat incumbent). Campaign Headquarters: P. O. Box 600, St. Petersburg.

HOUSE

3rd Dist.: Robert Peterson, opposing "extreme Leftist" (former Sen.) Claude E. "Red" Pepper.

4th Dist.: Jay McGlon, Independent Conservative, opposing 95% pro-Socialist Rep. Dante B. Fascell, Democrat incumbent.

6th Dist.: Fred Kibbe, Republican, opposing 60% pro-Socialist

vital legislation by "reminder" services, such as. . .

IT AMERICAN And Distribute To Your Friends

WAR ON "THE THUNDERBOLT"

By Adras LaBorde

(Reprinted from ALEXANDRIA (La.) DAILY TOWN TALK)

If nothing else, the threat by the States' Rights Party of Louisiana to sue an organization calling itself the "National States' Rights Party" has restored to the limelight a political entity which has not been heard from in quite a while.

And whether or not a suit is actually filed, the threat may put a crimp in the circulation — via the U. S. mails — of one of the most reprehensible hate publications to appear in a long time.

E. Otis Edgerton of Alexandria, chairman of the state central committee of the States' Rights Party of Louisiana, who announced the possibility of a suit last week, describes the publication as "despicable, abhorrent, anti-semitic."

The publication, the Thunderbolt, carries a Birmingham, Ala., masthead. But a good many persons in this area received "sample copies" recently in plain envelopes postmarked New Orleans.

SECRET MEETING A-LA-NAZI

There is skulduggery at the crossroads, and Mr. Edgerton wisely emphasizes that there is not now nor has there ever been any connection between the States' Rights Party of Louisiana and the national organization whose name the Thunderbolt uses.

Back in May of 1961 about 30 persons representing themselves to be officials of the National States' Rights Party held a secret meeting in New Orleans. When police officers turned up, with cameras, the delegates made an exit through the back door of the meeting hall.

All were wearing shirt patches with a white lightning bolt symbol, like the one used on the front page of the Thunderbolt.

None of those in attendance would disclose their identity or tell reporters who their leader was. Some shielded their faces with scarves as they scurried out of the building. A reporter recognized one of the delegates as an attorney who once was president of the White Educational Assn., a highly questionable outfit, and the attorney told him: "You'd better get moving, kid." Another delegate, described as a "guard," helped the reporter get moving with physical force.

2. THREATENED WITH SUIT

In the wake of this secret meeting, David C. Treen of New Orleans, who was then chairman of Louisiana States' Righters, issued a statement in which he minced no words in expressing displeasure — and disassociation — with the "National States' Rights Party."

A Dr. Edward R. Fields of Birmingham promptly advised Mr. Treen that if he did not retract parts of the statement he, Dr. Fields, would file suit. He also said he would sue Kent Courtney, who was than a States' Rights leader.

As far as I can ascertain, neither Mr. Treen nor Mr. Courtney was ever sued.

HOW CAN THEY GET BY?

BLOCKADE EXTRAVAGANZA

FROM PAGE 4

threats, all aimed to create the impression that only Kennedy and his Democrat Congressmen are able to cope with the Cuban crisis!

The apparent cooperation between the Kennedy Administration and the Kremlin -- all in the interest of world peace, you understand -- was made obvious to all those who wished to see, when, on the following day, October 25, the Defense Department announced that 12 Soviet ships bound for Cuba had turned around or veered off their direct course for Cuba. The announcement also stated that one Soviet ship had been questioned by U.S. blockade forces, which found that it did not contain "offensive weapons" and therefore allowed it to proceed to Cuba. What cargo did the Soviet ship carry? - Oil!

Since when is oil not one of the most vital ingredients of a war machine? Why was the U.S. Navy ordered to allow this Soviet ship to proceed to Cuba with its war potential cargo?

Of course the 12 Soviet ships laden with offensive weapons voluntarily veered away from the island of Cuba. The question is - where in the Western Hemisphere will they land these cargoes of offensive weapons?

On October 26 it was announced that the U.S. had boarded, inspected, and then allowed another ship to proceed to Cuba. This ship contained trucks and chemicals. Are these trucks to be used to transport Soviet technicians to the missile bases in Cuba? Are these chemicals an integral part of Cuba's war-making machine?

Is this the type of Cuban blockade that the American people consider in consonance with the Monroe Doctrine?

And so, despite the press pageantry and "hoop-la" of the Blockade Cuba Extravaganza, one clear fact now stands out against this phony backdrop: Kennedy, whom this newspaper believes is the "front man" for the Communist-accommodating Council on Foreign Relations, played the game true to form when, on October 25, he gave his answer to the Kremlin-inspired suggestion of mediation made by Acting Secretary General U Thant of the United Nations. Stated Kennedy in his letter to U Thant:

> "I deeply appreciate the spirit which prompted your message of yesterday .... Ambassador Stevenson is ready to discuss promptly these arrangements. I can assure you of our desire to reach a satisfactory and peaceful solution of this matter."

How well it fits into the Kremlin's plans to see Kennedy voluntarily strip himself of the role of leader of the free world -- and, in prize-fighter parlance, agree to "throw the fight" -- letting the Communist-dominated UN be the referee!

It should be carefully noted that the United States Ambassador to the United Nations, Adlai Stevenson, whom Kennedy empowered to deal away control of our foreign policy to the UN, is a member of the Communist-accommodating Council on Foreign Relations. It should further be noted according to a radio broadcast of United Nations proceedings on October 25, that sitting next to Stevenson was none other than Arthur Dean, a fellow member of the Council on Foreign Relations and head of the United States Disarmament Commission at Geneva. Stevenson's adviser at the UN is none other than John J. McCloy, one of the top policy-makers of the CFR.

AMERICAN PEOPLE USED AS MERE PAWNS

The United Nations is a major factor in the plans of the One World megalomaniacs to destroy the national sovereignty of all nations, and place all power of government in the hands of a few self-appointed experts. Because of the disgraceful record of the United Nations when it waged war against anti-Communist Tshombe of Katanga, public opinion in the United States has turned against the United Nations -- and justly so. This has greatly

Back in May of 1961 about 30 persons representing themselves to be officials of the National States' Rights Party held a secret meeting in New Orleans. When police officers turned up, with cameras, the delegates made an exit through the back door of the meeting hall.

All were wearing shirt patches with a white lightning bolt symbol, like the one used on the front page of the Thunderbolt.

None of those in attendance would disclose their identity or tell reporters who their leader was. Some shielded their faces with scarves as they scurried out of the building. A reporter recognized one of the delegates as an attorney who once was president of the White Educational Assn., a highly questionable outfit, and the attorney told him: "You'd better get moving, kid." Another delegate, described as a "guard," helped the reporter get moving with physical force.

2. THREATENED WITH SUIT

In the wake of this secret meeting, David C. Treen of New Orleans, who was then chairman of Louisiana States' Righters, issued a statement in which he minced no words in expressing displeasure — and disassociation — with the "National States'-Rights Party."

A Dr. Edward R. Fields of Birmingham promptly advised Mr. Treen that if he did not retract parts of the statement he, Dr. Fields, would file suit. He also said he would sue Kent Courtney, who was than a States' Rights leader.

As far as I can ascertain, neither Mr. Treen nor Mr. Courtney was ever sued.

HOW CAN THEY GET BY?

How this sheet called the Thunderbolt can circulate with impunity, through the mail, is difficult to understand.

Attn.: N. Y. State Voters

Conservatives in the State of New York will have an opportunity on November 6 to cast their votes in opposition to both the Rockefeller Internationalists and Kennedy's New Frontier Democrats by voting for David H. Jaquith, candidate of The Conservative Party, for the governorship of New York.

Here is an excellent opportunity for Conservatives to prove to the nation as a whole, that Conservatives CAN provide the "balance of power."

THE INDEPENDENT AMERICAN Newspaper strongly recommends that Conservative New Yorkers cast their votes for David H. Jaquith for Governor of New York State in the knowledge that their votes will help to defeat Nelson Rockefeller's 1964 presidential aspirations.

11th Dist.: Marjorie Schwester, Conservative, to replace 100% pro-Socialist Hugh J. Addonizio, Democrat (not running).
12th Dist.: Harrison P. Smith, Jr., Conservative, opposing 85% pro-Socialist Rep. George M. Wallhauser, Republican incumbent.
14th Dist.: Kenneth Walsh, Conservative, opposing 100% pro-Socialist Rep. Dominick V. Daniels, Democrat incumbent.

NEW YORK
SENATE - Kieran O'Doherty, Conservative, opposing Left-Wing Internationalist, 92% pro-Socialist Jacob K. Javits, Republican incumbent. Campaign Headquarters: 350 Lexington Ave., New York City.
HOUSE
15th Dist.: Rep. John H. Ray, Republican incumbent.
28th Dist.: Rep. Katherine St. George, Republican incumbent.
29th Dist.: Rep. J. Ernest Wharton, Republican incumbent.
33rd dist.: Rep. Clarence E. Kilburn, Republican incumbent.
42nd Dist.: Rep. John R. Pillion, Republican incumbent.

NORTH CAROLINA
HOUSE
10th Dist.: Rep. Charles Raper Jonas, Republican incumbent.

NORTH DAKOTA

reign Relations, played the game true to form when, on October 26, he gave his answer to the Kremlin-inspired suggestion of mediation made by Acting Secretary General U Thant of the United Nations. Stated Kennedy in his letter to U Thant:

> "I deeply appreciate the spirit which prompted your message of yesterday .... Ambassador Stevenson is ready to discuss promptly these arrangements. I can assure you of our desire to reach a satisfactory and peaceful solution of this matter."

How well it fits into the Kremlin's plans to see Kennedy voluntarily strip himself of the role of leader of the free world -- and, in prize-fighter parlance, agree to "throw the fight" -- letting the Communist-dominated UN be the referee!

It should be carefully noted that the United States Ambassador to the United Nations, Adlai Stevenson, whom Kennedy empowered to deal away control of our foreign policy to the UN, is a member of the Communist-accommodating Council on Foreign Relations. It should further be noted according to a radio broadcast of United Nations proceedings on October 25, that sitting next to Stevenson was none other than Arthur Dean, a fellow member of the Council on Foreign Relations and head of the United States Disarmament Commission at Geneva. Stevenson's adviser at the UN is none other than John J. McCloy, one of the top policy-makers of the CFR.

AMERICAN PEOPLE USED AS MERE PAWNS

The United Nations is a major factor in the plans of the One World megalomaniacs to destroy the national sovereignty of all nations, and place all power of government in the hands of a few self-appointed experts. Because of the disgraceful record of the United Nations when it waged war against anti-Communist Tshombe of Katanga, public opinion in the United States has turned against the United Nations -- and justly so. This has greatly frightened the One Worlders, because without the United Nations their plans for a Socialist-Communist world government will come to a dead end. For example, note this statement by Acting Secretary General U Thant of the United Nations on October 24 regarding the Cuban quarantine:

> "If today the United Nations should prove itself ineffective, it may have proved itself so for all time."

Why did Kennedy call for a Cuban quarantine? The previous quotation from U Thant could and should be considered a confession of the weakness, ineffectiveness, and lack of acceptance by the American people of the United Nations. Khrushchev's offer of mediation was plainly and simply, an attempt to "bail out" the thoroughly discredited United Nations and reconstitute it in the eyes of the American people as an effective force. Also, Khrushchev's action clearly reveals that he wishes to see the United Nations continue as a smokescreen for Communist aggression.

WHAT IS THE NET RESULT OF THE BLOCKADE EXTRAVAGANZA?

The above portion of this article was written Friday, November 26. On Sunday, October 28, according to an Associated Press Dispatch, datelined Moscow: "Premier Khrushchev announced Sunday he has ordered Soviet officers in Cuba to stop work on rocket bases there and crate up their missiles and ship them home. . . . The Soviet installations are no longer necessary, Khrushchev said, because of President Kennedy's offer of assurance Saturday against an invasion of Cuba. . . ."

Also on Sunday, October 28, Acting Secretary General of the United Nations U Thant named the three aides who will accompany him to Cuba. U Thant is a self-avowed Marxist. The three UN inspectors who will accompany him to Cuba come from pro-Communist India, the pro-Communist United Arab Republic, and Leftist-leaning Brazil. Just what type of verification of the dismantling of the missile bases in Cuba can be expected from such anti-American UN inspectors as these!

Summing up the net results of the seven-day Cuban crisis, we find the following:

(1) To unthinking Americans, Kennedy now presents a "strong" posture;

(2) The U. S. has agreed not to invade Cuba;

(3) Khrushchev, not Castro, is now the master of Cuba;

(4) Because of the Communist-oriented UN inspectors who have been chosen, there is absolutely no assurance that the "crates" to be shipped back to Russia will actually contain missiles and missile components;

(5) Soviet technicians and Soviet troops still occupy Communist Cuba; Cuba, now safe from U. S. invasion, still bristles with Soviet tanks, smaller weapons, smaller rockets; bombers, and other war-

nity on November 6 to cast their votes in opposition to both the Rockefeller internationalists and Kennedy's New Frontier Democrats by voting for David H. Jaquith, candidate of The Conservative Party, for the governorship of New York.

Here is an excellent opportunity for Conservatives to prove to the nation as a whole, that

7th Dist.: Bill Stinson, Conservative, opposing 95% pro-Socialist Rep. Don Magnuson, Democrat incumbent.

WISCONSIN
HOUSE
1st Dist.: Rep. Henry Carl Schadeberg, Republican incumbent.

credited United Nations and reconstitute it in the eyes of the free world can people as an effective force. Also, Khrushchev's action clearly reveals that he wishes to see the United Nations continue as a smokescreen for Communist aggression.

WHAT IS THE NET RESULT OF THE BLOCKADE EXTRAVAGANZA?

The above portion of this article was written Friday, November 26. On Sunday, October 28, according to an Associated Press Dispatch, datelined Moscow: "Premier Khrushchev announced Sunday he has ordered Soviet officers in Cuba to stop work on rocket bases there and crate up their missiles and ship them home. . . . The Soviet installations are no longer necessary, Khrushchev said, because of President Kennedy's offer of assurance Saturday against an invasion of Cuba. . . ."

Also on Sunday, October 28, Acting Secretary General of the United Nations U Thant named the three aides who will accompany him to Cuba. U Thant is a self-avowed Marxist. The three UN inspectors who will accompany him to Cuba come from pro-Communist India, the pro-Communist United Arab Republic, and Leftist-leaning Brazil. Just what type of verification of the dismantling of the missile bases in Cuba can be expected from such anti-American UN inspectors as these!

Summing up the net results of the seven-day Cuban crisis, we find the following:

(1) To unthinking Americans, Kennedy now presents a "strong" posture;

(2) The U. S. has agreed not to invade Cuba;

(3) Khrushchev, not Castro, is now the master of Cuba;

(4) Because of the Communist-oriented UN inspectors who have been chosen, there is absolutely no assurance that the "crates" to be shipped back to Russia will actually contain missiles and missile components;

(5) Soviet technicians and Soviet troops still occupy Communist Cuba; Cuba, now safe from U. S. invasion, still bristles with Soviet tanks, smaller weapons, smaller rockets, bombers, and other war-making machinery;

(6) Kennedy has, in effect, given his approval and a green light to Khrushchev to intensify Communist infiltration of all Latin American countries, operating from his invasion-free island of Cuba;

(7) As soon as the smoke dies down, Latin American nations will realize that the threat to them posed by Khrushchev's Cuba is now greater than ever, and that they have been "sold out" by the Kennedy Administration;

(8) In Khrushchev's note of October 28 offering to dismantle the missile bases, he also states, "I also wish to continue an exchange of opinions on the prohibition of atomic and thermonuclear weapons and on general disarmament." THE INDEPENDENT AMERICAN believes that the entire Cuban crisis was manufactured for two reasons: (a) To elect Democrats in the November Congressional election, and (b) To conduct such a mass brainwashing of the American people regarding the terrors of war that they will be "softened up" to accept total disarmament, which will place this nation under the control of the Communist-dominated UN.

(9) Collusion between the Democrat and Republican parties was clearly revealed when former Republican Presidents Herbert Hoover and Dwight Eisenhower, and former Vice President Richard Nixon (all members of the COmmunist-accommodating Council on Foreign Relations) announced in unison their support of Kennedy's sell-out of Cuba and urged that foreign policy not be a subject of the November Congressional election. By their actions they have, to all intents and purposes, disenfranchised that increasingly large portion of the American people who realize that continuing appeasement will destroy the United States as a sovereign nation and who know that the only hope for the free world is the complete destruction of the international Communist conspiracy.

Because of this final proof that the Communist-accommodating Council on Foreign Relations now controls both the Democrat and the Republican parties, THE INDEPENDENT AMERICAN believes that a NEW PARTY is the only hope for this nation -- a NEW PARTY devoted to the principles of the Constitution, the national defense of this nation, and eradication of Communism from the face of the earth.

REGISTRATION AND PARTICIPATION FORM

If you plan to attend THE CONSERVATIVE PROTEST CONFERENCE meetings and banquets, please fill out this coupon and mail to us immediately so that we may inform the Morrison Hotel in Chicago how many to expect for the luncheons, banquets and the "Blockade Cuba" Rally.

Mail to: **THE INDEPENDENT AMERICAN**
Post Office Box 4223, New Orleans, La.

I plan to attend:

(1) Conservative Protest Conference, November 15, 16 and 17. . . Registration Fee: $5.00. Luncheons and banquets extra .....$5.00 ☐

THURSDAY

(2) Kick-off Luncheon – "America's Unelected Rulers" – Kent Courtney .....$5.00 ☐

(3) Conservative Protest Banquet, featuring J. Bracken Lee, Mayor of Salt Lake City, and the noted humorist and philosopher, Clayton Rand .....$7.50 ☐

FRIDAY

(4) Freedom for Cuba Luncheon, featuring Dr. Tirso del Junco, Chairman, American Committee to Free Cuba, Inc. .....$5.00 ☐

(5) "Blockade Cuba" Rally – Featuring Congressman John H. Rousselot and Dr. Fernando Penabaz.....FREE ☐

SATURDAY

(6) Constitutional Rights Luncheon. General Clyde J. Watts reports on General Walker at Oxford .....$5.00 ☐

TOTAL..... ☐

(NOTE: Total Registration fee for all events is $27.50 per person; $50 per couple)

Enclosed please find my check in the amount of

$_____to cover my advance registration for the events checked above. It is understood that if I am unable to attend these events that my money will be refunded.

Name _____

Address _____

City and State _____

Please send me _____copies of this invitation folder (free) for my friends.

NOTE: Make reservations for your hotel accommodations direct with the Morrison Hotel in Chicago.

CONSERVATIVE PROTEST

Sponsored by THE INDEPENDENT

Morrison Hotel, Chicago, Illin

All activities will be held in the Constit Terrace Casino (basement) of the Morriso

Thursday, November 15

9:00 – 12:00 Noon
Registration and new patriotic movies

12:00 Noon
Kick-off luncheon

C.S.A. Progress Report by Ward Poag, National Field Organizer of The Conservative Society of America.

"America's Unelected Rulers" – Kent Courtney, National Chairman of The Conservative Society of America.

Kent Courtney

Kent Courtney is the Publisher of THE INDEPENDENT AMERICAN Newspaper and National Chairman of The Conservative Society of America. He is news analyst of The Radio Edition of THE INDEPENDENT AMERICAN and is heard over 35 stations in 17 States each week. Mr. Courtney will speak on "America's Unelected Rulers" and how they can be deposed.

Appointment of Resolutions Committee for The Conservative Society of America

Introduction of Political Action Unit Chairmen of The Conservative Society of America

2:00 – 5:00 P.M.
SEMINAR – Political Action Organizational Problems, Membership, Financing, Inter-group Cooperation, Headquarters, Book Stores, Publicity and Public Relations. (Speakers to be announced)

MAKE YC

ST CONFERENCE and "BLOC... CUBA" RALLY

NT AMERICAN Newspaper and The Conservative Society of America

...is **November 15, 16 and 17, 1962**

...tion Room of the Morrison Hotel except the "Blockade Cuba" Rally which will be held in the ...n Hotel.

7:00 P.M.
Conservative Protest Banquet
Featuring J. Bracken Lee, Mayor of Salt Lake City, Utah, and member of the Board of Advisors of The Conservative Society of America, and Clayton Rand, noted American humorist and philosopher

J. Bracken Lee

Honorable J. Bracken Lee, Mayor of Salt Lake City and former Governor of Utah and publisher of THE AMERICAN STATESMAN newspaper, was elected as Mayor of Salt Lake City as an Independent against candidates offered by both the Democrat and Republican parties. His continued campaign for fiscal sanity in government has brought about favorable legislative reforms both at the State and city levels. He will speak on the subject: "Let's Stop Financing Our Own Destruction."

Clayton Rand

Clayton Rand, noted American philosopher, author, columnist, historian and humorist, publishes THE DIXIE PRESS in Gulfport, Mississippi. He packs a powerful punch as he punctures pompous political personalities.

Friday, November 16

9:00 – 12:00 Noon
SEMINAR
How Conservatives Win
Organizing the Precinct
The Use of Voting Records
Challenging The Vote
Conservative Candidates' Reports

12:00 Noon
Freedom for Cuba luncheon

Dr. Tirso del Junco, Chairman, American Committee to Free Cuba, Inc.

2:00 – 3:00 P.M.
Reports from the Cuban underground. Eye-witness accounts of the Russian build-up inside Cuba.

3:00 – 5:00 P.M.
Panel of exiled Cuban business leaders

Subject: What will happen to American businessmen if Communism comes to the U.S.

8:00 P.M.
"BLOCKADE CUBA" RALLY

Roll Call of the States

Presentation of "Blockade Cuba" Petitions

Speakers: Congressman John H. Rousselot
Dr. Fernando Penabaz

John H. Rousselot

Congressman John H. Rousselot is U. S. Representative from the 25th Congressional District of California and member of the John Birch Society. He received his degree in Political Science and Business Administration from Principia College, and is the owner of a Los Angeles public relations firm. He is one of America's staunchest defenders of Conservative principles. His subject will be "The U.S. Can and Must Defeat Communism At Home and Abroad."

(continued on back panel)

3

B

Dr. Fernando Penabaz, graduate of Duke University School of Law, received his Doctor of Laws degree from Havana University and practiced law in Cuba for 18 years. Now in exile, he has a weekly radio program over 114 stations in eleven Latin American countries, and writes a newspaper column for the Fort Lauderdale NEWS. His subject will be "Planning for Victory Over Communism in Cuba."

Dr. Fernando Penabaz

Saturday, November 17

9:00 – 12:00 Noon
SEMINAR
Cooperation of all Conservative groups for victory in 1964.

Report of Resolutions Committee

12:00 Noon
Luncheon – Constitution Room

Eye-Witness report from Oxford, Miss.

General Clyde J. Watts, attorney for General Walker.

Topic: General Walker's Fight to Preserve the Constitutional Rights of all Americans

2:00 – 5:00 P.M.
Conference of Conservative Political Parties – Constitution Room
Harold Poeschel – Chairman

Harold P. Poeschel, New Jersey insurance executive, and member of the Board of Advisers of The Conservative Society of America, has carried the banner for the Conservative Party of New Jersey as a former candidate for Congress. Mr. Poeschel delights in exposing the falsity of pseudo-Conservatives who carry out the plans of the Socialists within the framework of both old Parties. His topic will be "America Needs a New Political Party NOW!"

Harold P. Poeschel

Panel discussions by spokesmen from Conservative political parties which have established a ballot position.

5:00 P.M.
Adoption of a resolution on coordination between established Conservative political parties.

MAKE YOUR PLANS NOW!

Vol. VIII - No. 6 OCTO

THE TRUTH ABOUT GEN. WALKER

By Kent Courtney, Publisher

Elsewhere in this issue are discussed the violations of the Bill of Rights of the U.S. Constitution when General "Ted" Walker was, to all intents and purposes, kidnapped by Federal officials and spirited away to a Federal mental hospital in Springfield, Mo. Former Major General Edwin A. Walker thus became the Kennedy Administration's first political prisoner.

On October 2, Walker's attorney, Clyde Watts, retired Army General, stated after talking to Walker in the Federal prison hospital:

> "He at no time led any assault, charge, or overt act against any State or Federal officer, including U.S. marshals. He at no time incited anyone to riot or disorder."

Clyde Watts then went on to say that on Sunday night at the Ole Miss campus, Walker was standing near a Confederate monument, about 300 yards from the Administration Building, when several persons asked him to make a statement. Then, according to Watts:

> "General Walker made a statement that participants should avoid any semblance of violence, that the real war was in Cuba, not in Mississippi."

Watts then went on to say that Walker had "no missile, weapons, or rocks," and that he counseled the participants to avoid violence. This is borne out by a number of eye-witness accounts. Here's one that appeared in THE LION'S ROAR, a campus newspaper of the Southeastern Louisiana College. This eye witness, John David Lobue, who is presently studying at Ole Miss stated:

> "I returned to the Ole Miss campus at about 8 p.m. Sunday. The place was in an uproar . . . . The first barrage of tear gas had been shot. Someone flipped a cigarette at a marshal. Then pebbles, rocks and bricks. Early that evening Walker had yelled to the crowd that this was not the way to do it, but had been yelled down."

General Walker has been charged with inciting an insurrection and seditious conspiracy. Upon Walker's release, October 6, on $50,000 bail, Walker told a press conference:

> "There is no doubt in my mind that I am guilty of none of these charges."

At another press conference upon his return to Dallas, where he was cheered by a welcoming committee of 200, Walker replied sharply, "Certainly not," when asked if he was guilty of the charges against him. Supporters who had crowded into the conference room shouted their approval.

An Associated Press dispatch concerning this same press conference quoted Walker as saying:

105-36811 —

Time To Blockade Cuba

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

The United States waited too long to prevent the rise of Communist Castro to power in Cuba.

The United States then failed to make the military intervention that was justified when Castro stole American investments in mining and petroleum and other companies in Cuba without just reparations.

In Southeast Asia where the United States has recently made many surrenders to Communism, the excuse has been that the field of action was too far from the United States and we had waited too late and allowed the situation to deteriorate too much, and so there was no other alternative.

But will we wait too late to deal with Cuba here on our doorstep?

The Monroe Doctrine challenges any outside intervention in the Western Hemishphere. Russia has flouted the Monroe Doctrine and so far we have done nothing. It is time to do something.

Some counsel military invasion of Cuba. At this time, however, that does not seem to be the best available course. It is difficult to justify a military invasion unless it is in answer to a specific provocation. The seizure of American property was such a provocation, but we did not react. Castro is now cautious to avoid such a provocation that might trigger effective American retaliation.

But there is a provocation today that calls for an American reaction in direct proportion to it.

The provocation is the arrival in Cuba of Russians and Russian supplies. The proper reaction to that is an air and naval blockade to cut off not only these shipments but all shipments to Cuba.

There is no question that the United States could with ease ring Cuba with ships and planes so tightly that nothing could go in and nothing could come out. Such a squeeze is justified, would be productive, and might hasten the downfall of Castro at the hands of his victimized countrymen.

Some of our leaders shrink from a justified air and naval blockade for some of the same reasons they have failed in the past to take appropriate action. They fear some Latin American countries will not think well of us if we act against Cuban Communism. But the threat is more serious than the possibility of someone's adverse thought toward us. And there is nothing like effective action on our part to justify the confidence of others.

Some of our leaders fear that forthright action against Cuba would promot strong Russian retaliation in some form on Berlin. It might. But we should be willing to face that. We have a right to be in Berlin and we must stay there. We must permit no Russian pressure to cut us, or block our access along the routes to which we have a

first political prisoner.

On October 2, Walker's attorney, Clyde Watts, retired Army General, stated after talking to Walker in the Federal prison hospital:

> "He at no time led any assault, charge, or overt act against any State or Federal officer, including U.S. marshals. He at no time incited anyone to riot or disorder."

Clyde Watts then went on to say that on Sunday night at the Ole Miss campus, Walker was standing near a Confederate monument, about 300 yards from the Administration Building, when several persons asked him to make a statement. Then, according to Watts:

> "General Walker made a statement that participants should avoid any semblance of violence, that the real war was in Cuba, not in Mississippi."

Watts then went on to say that Walker had "no missile, weapons, or rocks," and that he counseled the participants to avoid violence. This is borne out by a number of eye-witness accounts. Here's one that appeared in THE LION'S ROAR, a campus newspaper of the Southeastern Louisiana College. This eye witness, John David Lobue, who is presently studying at Ole Miss stated:

> "I returned to the Ole Miss campus at about 8 p.m. Sunday. The place was in an uproar . . . . The first barrage of tear gas had been shot. Someone flipped a cigarette at a marshal. Then pebbles, rocks and bricks. Early that evening Walker had yelled to the crowd that this was not the way to do it, but had been yelled down."

General Walker has been charged with inciting an insurrection and seditious conspiracy. Upon Walker's release, October 6, on $50,000 bail, Walker told a press conference:

> "There is no doubt in my mind that I am guilty of none of these charges."

At another press conference upon his return to Dallas, where he was cheered by a welcoming committee of 200, Walker replied sharply, "Certainly not," when asked if he was guilty of the charges against him. Supporters who had crowded into the conference room shouted their approval.

An Associated Press dispatch concerning this same press conference quoted Walker as saying:

> "Some of the most fantastic stories have been printed, which at the trial will be proved false."

The activities of a man by the name of Claud F. Clayton on the day of October 2 should certainly be subjected to scrutiny. Claud Clayton is a Brigadier General in the Mississippi National Guard, which was federalized by President Kennedy in the Mississippi crisis. But -- this same man, Clayton, is also U.S. District Judge for Northern Mississippi. On Tuesday, October 2, the Defense Department released Brigadier General Clayton from U.S. duty and returned him to the Federal bench. One of his first acts when resuming his judicial duties was to order psychiatric treatment for General Walker who, by Tuesday, had been shipped, disregarding all Constitutional safeguards, to the Springfield mental hospital. It was Clayton's order for psychiatric treatment that prevented General Walker from being immediately released under bond.

Judge Clayton's order was issued on the basis of testimony by one Dr. Charles E. Smith, a Bureau of Prisons psychiatrist who had never even seen Walker, and who based his conclusions of the need for psychiatric treatment of Walker on news accounts of Walker's activities at Ole Miss and allegedly on a short examination of Walker's medical history.

Fantastic? - Yes! Proposterous" - Yes! But it happened!

WALKER'S MEDICAL RECORD

In order to keep the record straight, let us go back and examine previous reports on Walker's health, both physical and mental. In view of all the obvious illegalities of the railroading of Walker to a mental hospital, it is not beyond the realm of possibility that his medical records might have been tampered with by persons unknown. However, such tampering would avail the perpetrators little, because there is an official record of Walker's mental health in the public records.

In January, 1961, Major General Edwin A. Walker filed a complaint in Germany charging a reporter by the name of Siegfried Naujocks with slandering him (Walker) by telling two soldiers that the General behaved erratically because he had a brain tumor. At the time of this complaint Major General Walker was in command of the 24th Infantry Division in Germany. A U.S. Army doctor, Captain Herbert Caplan, was called as a witness in the slander trial on September 21, 1961. Dr. Caplan, who had examined General Walker in November, 1960, told the German court:

> "I am satisfied General Walker was in good health."

parations.

In Southeast Asia where the United States has recently made many surrenders to Communism, the excuse has been that the field of action was too far from the United States and we had waited too late and allowed the situation to deteriorate too much, and so there was no other alternative.

But will we wait too late to deal with Cuba here on our doorstep?

The Monroe Doctrine challenges any outside intervention in the Western Hemishphere. Russia has flouted the Monroe Doctrine and so far we have done nothing. It is time to do something.

Some counsel military invasion of Cuba. At this time, however, that does not seem to be the best available course. It is difficult to justify a military invasion unless it is in answer to a specific provocation. The seizure of American property was such a provocation, but we did not react. Castro is now cautious to avoid such a provocation that might trigger effective American retaliation.

But there is a provocation today that calls for an American reaction in direct proportion to it.

The provocation is the arrival in Cuba of Russians and Russian supplies. The proper reaction to that is an air and naval blockade to cut off not only these shipments but all shipments to Cuba.

There is no question that the United States could with ease ring Cuba with ships and planes so tightly that nothing could go in and nothing could come out. Such a squeeze is justified, would be productive, and might hasten the downfall of Castro at the hands of his victimized countrymen.

Some of our leaders shrink from a justified air and naval blockade for some of the same reasons they have failed in the past to take appropriate action. They fear some Latin American countries will not think well of us if we act against Cuban Communism. But the threat is more serious than the possibility of someone' adverse thought toward us. And there is nothing like effective action on our part to justify the confidence of others.

Some of our leaders fear that forthright action against Cuba would prompt strong Russian retaliation in some form on Berlin. It might. But we should be willing to face that. We have a right to be in Berlin and we must stay there. We must permit no Russian pressure to rout us, or block our access along the routes to which we have a right. There is a threat in Berlin now because of our appeasement tactics. More appeasement will only increase rather than lessen the threat. We must not let Communist threats on Berlin dictate our policy.

Are we going to surrender to a Russian threat? What will Communist Cuba have to do to prompt remedial American action? Must Castro launch missiles against Florida?

The time has arrived for us to answer Communist provocation with an effective air and naval blockade of Red Cuba.

Let us discard appeasement surrender and act in response to the provocation.

Substitute For The Dungeon ?

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

There was a time when tyrants in power handled their opponents and critics easily by simply having them seized and thrown in a dungeon. But that is old-fashioned and would be generally frowned upon in better circles today. Is there a new technique for the same old thing?

Take the case of Gen. Edwin A. Walker, for example. There are two things about controversial Gen. Walker that should be noted in the beginning. One is that he is a much-decorated and undoubted hero of dangers military service for our country, which he loves. The other is that when trouble was brewing in Mississippi he would have been wiser to stay at home in Texas rather than to go to the Ole Miss campus. But he went. What he did there is open to conflicting testimony these days. In any event, he was charged with grave Federal crimes.

But after his arrest, he was hauled off far from Mississippi to Missouri, where he was put into a Federal hospital for confinement, with the implication freely put out by his captors that it was for psychiatric reasons. What better way can reflection be cast on a man than to suggest he may be nuts?

At least, Gen. Walker is to be presumed innocent until proved guilty. While he was held on $100,000 bond - which brought to mind the Constitution's requirements that a man has a right to be tried in the state where the alleged crime has been committed, and that he has a right to reasonable bail - steps were taken to subject Gen.

federalized by President Kennedy in the Mississippi crisis. But -- this same man, Clayton, is also U.S. District Judge for Northern Mississippi. On Tuesday, October 2, the Defense Department released Brigadier General Clayton from U.S. duty and returned him to the Federal bench. One of his first acts when resuming his judicial duties was to order psychiatric treatment for General Walker who, by Tuesday, had been shipped, disregarding all Constitutional safeguards, to the Springfield mental hospital. It was Clayton's order for psychiatric treatment that prevented General Walker from being immediately released under bond.

Judge Clayton's order was issued on the basis of testimony by one Dr. Charles E. Smith, a Bureau of Prisons psychiatrist who had never even seen Walker, and who based his conclusions of the need for psychiatric treatment of Walker on news accounts of Walker's activities at Ole Miss and allegedly on a short examination of Walker's medical history.

Fantastic? - Yes! Proposterous? - Yes! But it happened!

WALKER'S MEDICAL RECORD

In order to keep the record straight, let us go back and examine previous reports on Walker's health, both physical and mental. In view of all the obvious illegalities of the railroading of Walker to a mental hospital, it is not beyond the realm of possibility that his medical records might have been tampered with by persons unknown. However, such tampering would avail the perpetrators little, because there is an official record of Walker's mental health in the public records.

In January, 1961, Major General Edwin A. Walker filed a complaint in Germany charging a reporter by the name of Siegfried Naujocks with slandering him (Walker) by telling two soldiers that the General behaved erratically because he had a brain tumor. At the time of this complaint Major General Walker was in command of the 24th Infantry Division in Germany. A U.S. Army doctor, Captain Herbert Caplan, was called as a witness in the slander trial on September 21, 1961. Dr. Caplan, who had examined General Walker in November, 1960, told the German court:

"I am satisfied General Walker was in good health."

A German court convicted Siegfried Naujocks, a reporter for the OVERSEAS WEEKLY, of slandering Major General Edwin A. Walker by spreading reports that he had a brain tumor. Naujocks, a German citizen, was ordered to pay a fine of about $300 or go to jail for 30 days.

WALKER RESIGNED FOLLOWING PROMOTION

It is interesting to note in national news stories concerning Walker and Ole Miss, that the events of his Army career during the year 1961 are usually summarized very briefly as follows:

> "Walker resigned his commission on November 4, 1961. His resignation came after he had been relieved of command of the 24th Division in Germany, following investigation of complaints about his troop indoctrination program."

However, it is most definitely worthy of note that such capsule summaries, deliberately or not, leave out several very important aspects of the termination of Walker's Army career. For example, no explanation is made of the type of troop indoctrination program which Walker had instituted for his troops. It was an anti-Communist indoctrination program.

It is not strange that even though General Walker was given an offical reprimand, nevertheless because of Congressional pressure on the part of Representatives who supported Walker's anti-Communist troop training program, the Army announced on October 13, 1961, that orders had just been issued to Walker to go to Pacific Headquarters in Hawaii to be Assistant Chief of Staff for Operations, Plans and Training? The assignment of General Walker to such a responsible position was clearly a vindication of the unsubstantiated charges which had previously been made against him by the Kennedy Administration.

It could be that those who conspired to railroad General Walker to a Federal mental hospital are unaware of the fact that before he resigned from the Army, General Walker was given a physical examination prior to being assigned to Hawaii. After receiving a "clean bill of health," he resigned, not to avoid trouble or criticism, but to carry his fight against those in our government who are following a "no win" policy of appeasement.

Therefore, would it not appear that this Dr. Charles E. Smith, Medical Director and Chief Psychiatrist of the Federal Bureau of Prisons, in recommending psychiatric treatment for General Walker, relied solely on newspaper clippings and not on General Walker's Army medical records?

(NOTE: If you wish to help General Walker, you may send a contribution to Walker Defense Fund, Box 2428, Dallas 21, Texas.)

Are we going to surrender to a Russian threat? What will Communist Cuba have to do to prompt remedial American action? Must Castro launch missiles against Florida?

The time has arrived for us to answer Communist provocation with an effective air and naval blockade of Red Cuba.

Let us discard appeasement surrender and act in response to the provocation.

Substitute For The Dungeon?

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

There was a time when tyrants in power handled their opponents and critics easily by simply having them seized and thrown in a dungeon. But that is old-fashioned and would be generally frowned upon in better circles today. Is there a new technique for the same old thing?

Take the case of Gen. Edwin A. Walker, for example. There are two things about controversial Gen. Walker that should be noted in the beginning. One is that he is a much-decorated and undoubted hero of dangers military service for our country, which he loves. The other is that when trouble was brewing in Mississippi he would have been wiser to stay at home in Texas rather than to go to the Ole Miss campus. But he went. What he did there is open to conflicting testimony these days. In any event, he was charged with grave Federal crimes.

But after his arrest, he was hauled off far from Mississippi to Missouri, where he was put into a Federal hospital for confinement, with the implication freely put out by his captors that it was for psychiatric reasons. What better way can reflection be cast on a man than to suggest he may be nuts?

At least, Gen. Walker is to be presumed innocent until proved guilty. While he was held on $100,000 bond - which brought to mind the Constitution's requirements that a man has a right to be tried in the state where the alleged crime has been committed, and that he has a right to reasonable bail - steps were taken to subject Gen. Walker to a psychiatric examination against his will. This process would have rendered it impossible for him to obtain freedom on bail during the course of the 60-to-90-day examination, even if he could raise the $100,000.

And the kind of examination he was likely to get was clearly shown when a Government psychiatrist at the hospital was quoted as saying Gen. Walker's past actions indicated "paranoid mental disorders" and "functional and psychosomatic disorders."

Now, we don't pretend to know just what Gen. Walker's psychological condition is - but the Government psychiatrist who made those statements, and presumably would have made the "examination" that would have held Gen. Walker in captivity up to three months without his having been convicted of any crime, doesn't know either.

For the psychiatrist who thus smeared Gen. Walker was not going on first-hand evidence. He admitted he was judging by reports he had read in the press.

This is fine - psychiatric examination by newspaper clippings!

Maybe the psychiatrist is in need of examination, if the clippings about his diagnosis in absence of the patient are correct.

With public attention having been called to this situation, somebody apparently thought it was too much, for Gen. Walker's bail was reduced to $50,000 and he was allowed to make it and go free. Under the court order that freed him, however, Gen. Walker must undergo a psychiatric examination at Dallas.

If we are not careful, in this enlightened age we might find psychiatric restraint has become a modern substitute for the medieval dungeon, to provide tyrants a convenient riddance of troublesome critics. This case is by no means the first to raise such a point.

Conservative Protest Conference And "Blockade Cuba" Rally To Be Held In Chicago

Army of Occupation

NEW ORLEANS, October 18 -- THE INDEPENDENT AMERICAN, a national Conservative political action newspaper, and The Conservative Society of America, announced today that they will co-sponsor a national Conservative protest conference in Chicago at the Morrison Hotel, November 15, 16 and 17. A feature of this three-day meeting will be a "Blockade Cuba" Rally.

Kent Courtney, National Chairman of the Conservative Society of America, and publisher of THE INDEPENDENT AMERICAN, in outlining the general aims of the convention, stated, "The purpose of this Chicago conference is to bring together Conservatives of both political parties to discuss and take action on the three major issues facing the American people today.

Specifically, I am talking about: (1) The state of undeclared war that exists between the United States and the military forces of Communism now stationed in Cuba; (2) the calculated destruction of States Rights which took place when Federal troops invaded and occupied Oxford, Mississippi, and; (3) the un-Constitutional trampling on individual rights when General Edwin A. Walker was illegally seized and imprisoned in a Federal mental prison-hospital by order of the Attorney General of the United States.

"Both political parties," Courtney went on to say, "have ignored the threat to our national security posed by the build-up of Soviet missile bases in Cuba." Courtney stated that one of the highlights of the convention would be the gathering together and ...display of the thousands of "Blockade Cuba" petitions which are

Army of Occupation

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

After World War II, defeated Nazi Germany was occupied until civil government acceptable to the conquerors could be resumed, and then American occupation and control ended.

Following the defeat of Japan, military occupation was imposed for a number of years, and then Japan was released to government by its own people.

In Mississippi, the Federal authorities have announced they plan to continue for 18 months the military occupation they have imposed without Constitutional authority to carry out unconstitutional decrees.

U.S. officials say James Meredith, the 29-year-old Negro who has been forced into the University of Mississippi with military power after the governor of the state rejected his application, will require 18 months to complete the course of study he has outlined for himself.

So, say Federal officials, U. S. marshals and U.S. troops will remain with him as an army of occupation in Mississippi.

It would be most interesting and informative if the Kennedy Administration would point out the section of the Constitution that provides for a Federal army of occupation to be imposed on any state.

The States created the Constitution and the Federal Government, and did not delegate to the central government the power to send armies to crush its creators.

In fact, the Constitution provides in Article IV, Section 4, that the Federal Government is obligated to guarantee the states "a Republican Form of Government" - that is a representative government by local officials of the people's choice. By imposing an army of occupation, the Federal authorities are violating that constitutional provision. The same section provides for the use of Federal troops in a state on two conditions: 1. Request for their presence by the Legislature of the state. 2. Request by the governor of the state in event the Legislature is not in session and cannot be convened with the speed necessary for the situation.

If the Mississippi Legislature or the Mississippi governor has asked for a Federal army of occupation for the present or for the next 18 months, surely the news has escaped the notice of the American people.

ON THE MARSHALS' HANDS

(Reprinted from RICHMOND (Va.) NEWS LEADER)

More than eight years of frustration, resentment and suppressed emotions burst like a festering boil at Oxford, Mississippi, September 30; and such is the prejudice of most Northern publications that the Ole Miss students - and the State as such - are certain to be [illegible] with blame for the riot-helmeted marshals had formed a cordon, the marshals asked help from State highway patrolmen. These officers joined hands, with their backs to the surging students and began to press the mob backward. At this juncture, a trigger-happy marshal lobbed a tear gas shell. Other shells followed swiftly.

To Be Held in Chicago

NEW ORLEANS, October 18 -- THE INDEPENDENT AMERICAN, a national Conservative political action newspaper, and The Conservative Society of America, announced today that they will co-sponsor a national Conservative protest conference in Chicago at the Morrison Hotel, November 15, 16 and 17. A feature of this three-day meeting will be a "Blockade Cuba" Rally.

Kent Courtney, National Chairman of the Conservative Society of America, and publisher of THE INDEPENDENT AMERICAN, in outlining the general aims of the convention, stated, "The purpose of this Chicago conference is to bring together Conservatives of both political parties to discuss and take action on the three major issues facing the American people today.

Specifically, I am talking about: (1) The state of undeclared war that exists between the United States and the military forces of Communism now stationed in Cuba; (2) the calculated destruction of States Rights which took place when Federal troops invaded and occupied Oxford, Mississippi, and, (3) the un-Constitutional trampling on individual rights when General Edwin A. Walker was illegally seized and imprisoned in a Federal mental prison-hospital by order of the Attorney General of the United States.

"Both political parties," Courtney went on to say, "have ignored the threat to our national security posed by the build-up of Soviet missile bases in Cuba." Courtney stated that one of the highlights of the convention would be the gathering together and display of the thousands of "Blockade Cuba" petitions which are now being circulated throughout the country in a drive sparked by THE INDEPENDENT AMERICAN Newspaper and the Conservative Society of America. In discussing this, Courtney said, "We believe that such a display will be graphic proof to all concerned that the American people will no longer tolerate the frightening appeasement of Castro which began in the Eisenhower Administration and has been continued by the Kennedy Administration to such an extent that the very survival of this nation is now at stake."

"No official spokesman of either party," continued Courtney, "is defending the rights of the States or of the individual in the Constitutional crisis generated by Federal marshals in Mississippi.

"It is time," said Courtney, "that people of the United States who detest Communism and who revere the Constitution get together and make plans to save this nation from the threat from abroad and within."

Chairman Courtney then stated, "At this three-day convention, we will bring together the following: (a) Authorities on Communist Cuba, the Federal occupation of Mississippi, and the 'kidnapping' of General Edwin A. Walker, and; (b) leaders, organizers, and members of Conservative and anti-Communist groups throughout the country. In this way, concrete plans can be made to DO SOMETHING about the external and internal menace this country now faces."

In concluding his statement, Kent Courtney urged all those who feel that the time for action is now to attend the three-day Conservative conference, which Courtney stated he believes will be "history making."

"It's now or never," concluded Courtney.

Below are specific details and a schedule of events for the three-day Conservative conference to be held at the Morrison Hotel, Chicago, Illinois, November 15, 16 and 17:

"KICK-OFF" AT THURSDAY NOON

The three-day Conservative Protest Conference will be kicked off by a noon luncheon on Thursday, November 15, where the speaker will be Kent Courtney, National Chairman of the Conservative Society of America, Courtney, co-author of the new book, "America's Unelected Rulers," will discuss the insidious effect on U.S. foreign policy of the semi-secret organization known as the Council on Foreign Relations, the members of which Courtney refers to as "America's Unelected Rulers."

At this luncheon, political action unit chairmen of the CSA will be introduced and a resolutions committee for the CSA will be appointed.

The afternoon session will be devoted to political action organizational problems, aimed at a Conservative victory in 1964. All members of Conservative and political action organizations are urged to

ON THE MARSHALS' HANDS

(Reprinted from RICHMOND (Va.) NEWS LEADER)

More than eight years of frustration, resentment and suppressed emotions burst like a festering boil at Oxford, Mississippi, September 30; and such is the prejudice of most Northern publications that the Ole Miss students - and the State as such - are certain to be charged with blame for the rioting. The charge is unfair. Whatever Mississippi's faults may be, the riot itself was touched off by the Federal marshals.

It is important that this fact be understood, out of fairness to a great many sober and decent persons in Governor Barnett's administration. Perhaps because they are Southerners, and hence foredoomed to a sense of failure, they were psychologically prepared to yield to superior forces in the Meredith crisis. Their entire planning Saturday and Sunday had been based upon the most dramatic way of yielding, and they had worked diligently to maintain an atmosphere of dignity and non-violence. All these plans vanished with the wind a little after 8 o'clock last night.

Eyewitnesses at Oxford, including reporters and radio-television men from several States, agree that the first student demonstrations were high-spirited, but peaceful in tone. The young men and women were shouting, booing, and raising some Ole Miss yells. As their group moved closer to the administration building, where helmeted marshals had formed a cordon, the marshals asked help from State highway patrolmen. These officers joined hands, with their backs to the surging students and began to press the mob backward. At this juncture, a trigger-happy marshal lobbed a tear gas shell. Other shells followed swiftly. Ironically, one of the first casualties was a Mississippi officer, Wibley Brunt, struck full in the chest by a tear gas shell as he attempted to hold the students back. Two other Mississippi officers suffered less serious injuries from the marshals' fire.

The tear gas "set the students mad," according to a Jackson cameraman, who witnessed the riot's beginning. In his review, the marshals "simply had no experience in handling this sort of thing - they were jittery, and they panicked." A Jackson newspaper reporter who returned from the scene about 6 A.M. was bitter in his denunciation of the Federal agents. Until the moment they arrived by airlift Sunday afternoon, there had been no violence of any sort in Mississippi. "They precipitated the whole thing," he said. "Once they started the tear gas barrage, outsiders began to flood onto the campus. The situation got out of hand so fast you wouldn't believe it. It could have been prevented if the marshals had kept their heads."

"It is time," said Courtney, "that people of the United States who detest Communism and who revere the Constitution get together and make plans to save this nation from the threat from abroad and within."

Chairman Courtney then stated, "At this three-day convention, we will bring together the following: (a) Authorities on Communist Cuba, the Federal occupation of Mississippi, and the 'kidnapping' of General Edwin A. Our "Allies" Help Our Enemy

(Reprinted from FT. LAUDERDALE (Fla.) NEWS)

Despite the urgent necessity for stringent action to make it more difficult for Russia to maintain its supply lines to Cuba, it should be noted that some of our allies in Europe aren't overly anxious to cooperate with us in carrying out this objective.

Great Britain, for instance, has already served notice it cannot stop its shipowners from employing their vessels on the profitable Cuban-Communist bloc run short of passing new laws which it probably won't do. Others of our Allies are also reported to feel that Cuba is primarily our problem and not theirs and while they are willing to pay lip service to the cause of stopping the Communist buildup in Cuba, they are unwilling to take positive action which might hurt them in the pocketbook.

It seems inconceivable that in the face of the stubbornness being displayed by many of our Allies in regard to curtailing the activities of their flagships in the Cuban-Communist trade, we shouldn't display some of the same sort of stubbornness in the disposition of our Foreign Aid money to uncooperative Allies.

If they won't assist us in meeting the Communist threat in Cuba it doesn't make much sense for us to go shelling out billions of our dollars to help them lick some of their own problems under the guise of combatting Communism.

Somewhere along the line we have to be more realistic. If Russia isn't stopped in Cuba, which is right in our backyard, what chance do we have of stopping the inexorable advance of Communism elsewhere. And if we and our Allies are unwilling to draw a hard and fast line now just when and where will we draw one?

To term what is now happening in Cuba not a threat to our own security is naivete at its worst. It is a threat and a very distinct one and the longer we remain inactive against it the worse it will grow.

In our opinion the people of this country are more aware of this threat than our diplomats in Washington...

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to LOVE OF GOD AND AN INDEPENDENT U.S.A.

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without this regular support, this experiment in patriotic and political journalism would not be possible.

Questions About Walker Case

(Reprinted from ROCKFORD (Ill.) MORNING STAR)

When former Maj. Gen. Edwin A. Walker decided to go to Mississippi and participate personally in the protest against federal troop intervention in the issue of registration of a Negro student at the state university, he used exceedingly bad judgment.

Whether he is guilty of anything else is yet to be proved. Attorney General Robert Kennedy has charged Walker with assorted crimes, ranging from assaulting a U.S. marshal to rebellion, insurrection, and seditious conspiracy. Walker may be guilty, or he may not. That is a matter for a judge and jury to decide.

But there are some other issues here that demand public discussion, and official explanation.

Why was Gen. Walker's bond set at $100,000, which by coincidence happens to be the same bond set for the late Robert Soblen, the convicted Soviet spy who jumped his bond and under curious circumstances escaped to Israel? Was there any question but that Walker, a retired army general, would be available for future trial? Why the necessity for the exorbitant bond?

Second, why was Walker rushed off to a government mental hospital on the basis of a "diagnosis" by a government psychiatrist who had never seen Walker but who based his opinions on news accounts of Walker's behavior? The government psychiatrist - Dr. Charles E. Smith of the federal bureau of prisons - in a period of less than 24 hours after the Oxford riots read all the news reports, studied extensive reports of Walker's previous activities as well as Walker's army medical records, and dictated and signed an affidavit which resulted in a federal judge's assigning the former general to a mental hospital. Dr. Smith must have been a busy man. How did it happen that Walker's army medical reports were in- [illegible] What was his interest in the case? Who

SPECIFIC VIOLATIONS OF U. S

(Reprinted from CHATTA

With an application of force against Mississippi unequaled by application of force against Communist Cuba, the Warren Supreme Court and President Kennedy have sowed the wind and the nation has reaped the whirlwind, as two lie dead and others bear wounds triggered by dictatorial and illegal actions to which the response was unconscionable violence.

Despite pious protestations to the contrary, the Federal action against Mississippi violated the Constitution in a number of ways and therefore those who dictated it must bear responsibility for the horrible results.

VIOLENCE UNJUSTIFIED

Even though Federal force has crushed the Constitution and law, the proper response for Americans is protest with loud voices and clear reason, citation of the Constitution to alert their fellow citizens to what it means - so that by marshaling public opinion the rights the Constitution clearly defines may be recovered and preserved.

These are neither the times nor the issues to resort to the revolution that Thomas Jefferson spoke of as man's right. These are times for proof that though truth be crushed to earth, dedicated men and women displaying the loftiest and most forebearing sort of good citizenship can bring the issues into the forum of public debate that may yet awaken our people to the dangers of unconstitutional and usurped centralized power, so truth may rise again.

BEYOND THE SHOCK

So shocked and saddened is our nation today by the reprehensible rioting that has been sparked by Federal force in Mississippi, it is difficult for calm and reasoned debate of the issues.

President Kennedy has never demonstrated himself to have a heart bleeding for minorities or a spirit wracked with pain over alleged injustice. Rather, he has shown himself to be an arrogant, spoiled, vindictive and coldly calculating seeker of political power based on votes garnered by whatever scheme may best at the time serve his purposes. So his action in the Mississippi case has been more political than principled.

This author of a book called Profiles in Courage, hailing men who stood for principle at the cost to them of popularity and votes such as he so avidly seeks, has displayed a profile of cowardice in refusing to face the international issues such as Communist Cuba while asserting authority contrary to the Constitution against his own countrymen in Mississippi. As he gathered force to apply against Mississippi, he federalized the Mississippi National Guard so he might make it do his will against the guardsmen's own people.

WHAT LAW?

All of this he has clouded in protestations that he is acting "to uphold the lawr," as he pronounces it. And here the case of those who uphold the central dictatorship falls flat on its face.

What law?

What law do they uphold? They have never yet cited any real law to justify their position, relying only on decrees by appointed men which are not "the law" in our Republic.

THE LAW OF THE LAND

The Constitution of the United States clearly defines in Article VI what "the law of the land" is: "This Constitution and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made under the authority of the United States, shall be the supreme Law of the Land."

Those who speak of the Federal aggression in terms of "law" cannot cite a single section of the Constitution, a single act passed by Congress, or a single treaty that provides them any basis

pital on the basis of a "diagnosis" by a government psychiatrist who had never seen Walker but who based his opinions on news accounts of Walker's behavior? The government psychiatrist - Dr. Charles E. Smith of the federal bureau of prisons - in a period of less than 24 hours after the Oxford riots read all the news reports, studied extensive reports of Walker's previous activities as well as Walker's army medical records, and dictated and signed an affidavit which resulted in a federal judge's assigning the former general to a mental hospital. Dr. Smith must have been a busy man. How did it happen that Walker's army medical reports were instantly available to him? What was his interest in the case? Who assigned him to his task? Is it standard psychiatric procedure to diagnose patients without ever having seen them? Dr. Smith even had time to read Walker's testimony last April before a Senate committee.

There is logical reason for suspicion in this case that the skids were all greased to railroad Walker into a mental hospital before he ever reached Oxford.

Third, there is the issue of a federal district judge's obvious delay in action on a writ of habeas corpus. Walker was arrested Monday night.

It was not until late Saturday that the federal judge reduced Walker's bond to $50,000 and signed an order releasing Walker on bond, with a proviso that Walker is to report within five days for psychiatric examination. This action came after Walker's attorneys on Thursday had filed a habeas corpus writ.

Can any opponent of federal government policy now be tucked away in a mental hospital for a week before even getting a hearing on the question of whether he is entitled to bail?

This is not the first time the Kennedy administration has used a mental hospital as a lockup for real or imagined enemies. Last spring a Mary Jones, an Agriculture Department secretary with the records in the Billie Sol Estes case, suddenly was taken to a mental institution. Her attorneys fought for 12 days to get her out. She later was found completely sane.

THE LAW OF THE LAND

The Constitution of the United States clearly defines in Article VI what "the law of the land" is: "This Constitution and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made under the authority of the United States, shall be the supreme Law of the Land."

Those who speak of the Federal aggression in terms of "law" cannot cite a single section of the Constitution, a single act passed by Congress, or a single treaty that provides them any basis for their emotional, vote-buying, revolutionary position. The Constitution does not say that a decree by a court is "the law of the land." If it were, Americans would live in a dictatorship, for our Federal judiciary is appointed and unresponsive to the people. We would be at the unmerciful mercy of a panel of nine dictators on the Supreme Court who could rule as they willed, and demand Federal force to carry out their orders against an enslaved populace.

CONSTITUTIONAL GOVERNMENT

The United States of America was created by the States, not the States by the national government. The creation was accomplished

A "KENNEDY BROTHERS" TICKET IN 1964?

According to a recent column of Walter Trohan, syndicated columnist, Mrs. Eunice Kennedy Shriver, sister of the President and wife of the commander in chief of the Peace Corps, reportedly asked a newsman what he thought of a Kennedy-Kennedy ticket in 1964 -- brother John and brother Robert, the Attorney General.

Even though, as Trohan put it, the newsman had "stars in his new frontier eyes," he exclaimed "You wouldn't dare!"

"What's wrong with that?" Mrs. Shriver challenged. "Nothing that I can think of."

Aiding Enemies

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

Hardly anybody will disagree that it would be incredibly foolish to give your enemy a gun to shoot you with. Why, then, wouldn't it be just as foolish to give your enemy money to buy a gun to shoot you with? Or to give him money or goods which would make it possible for him to use his own money to buy a gun to shoot you with?

The compromise agreement reached by Senate and House conferees on the foreign aid appropriations bill includes a distressing example of this type of foolishness. It was agreed, properly, that foreign aid handouts would be banned to any country which allows its ships to transport to Communist Cuba either military or strategic materials, and it was also agreed that President Kennedy would be forbidden to provide any military equipment of any nature to Communist governments, including Yugoslavia and Poland.

But the whole purpose of stopping our government from helping our enemies with the money of American taxpayers was defeated when the conferees agreed to allow the President to hand over "economic" as-

the records in the Billie Sol Estes case, [illegible] mental institution. Her attorneys fought for 12 days to get her out. She later was found completely sane.

"What's wron[illegible] that I can think of."

CONSERVATIVE PROGRAMS AVAILABLE FOR LOCAL SPONSORSHIP

If you and your friends, or your business firm, would like to have these programs played over your local radio station, just write to Kent Courtney, P. O. Box 4223, New Orleans 18, Louisiana, for complete details.

The purpose of THE RADIO EDITION OF THE INDEPENDENT AMERICAN is to give the Conservative side of the vital issues concerning this country today.

Aiding Enemies

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

Hardly anybody will disagree that it would be incredibly foolish to give your enemy a gun to shoot you with. Why, then, wouldn't it be just as foolish to give your enemy money to buy a gun to shoot you with? Or to give him money or goods which would make it possible for him to use his own money to buy a gun to shoot you with?

The compromise agreement reached by Senate and House conferees on the foreign aid appropriations bill includes a distressing example of this type of foolishness. It was agreed, properly, that foreign aid handouts would be banned to any country which allows its ships to transport to Communist Cuba either military or strategic materials, and it was also agreed that President Kennedy would be forbidden to provide any military equipment of any nature to Communist governments, including Yugoslavia and Poland.

But the whole purpose of stopping our government from helping our enemies with the money of American taxpayers was defeated when the conferees agreed to allow the President to hand over "economic" assistance to the Communist governments of Poland and Yugoslavia. The House had seen the danger in this and voted against it. But under the compromise reached yesterday, Mr. Kennedy would still have the power to hand over American foreign aid directly to two of our Red enemies.

PART IV

DESCRIPTION OF ISSUES

TABULATED IN PART III

In the description of bills contained in this Section, the number in parentheses shown in the left-hand margin corresponds with the numbers which head the columns of tabulated votes shown in Part III.

Following the number in parentheses, the official identification of each bill is given – such as "HR 127 (House Resolution 127), or "S. 1," (Senate Bill No. 1), etc. This is followed by the title of the bill, and a sentence stating whether the vote was on the passage of the bill, on the adoption of the House-Senate Conference Report, etc.

All votes have been taken directly from the CONGRESSIONAL RECORD. Included in the description of each bill is the number of the page in the CONGRESSIONAL RECORD on which the particular vote was recorded. The date of each vote is also indicated in the bill description.

PART IV

DESCRIPTION OF HOUSE BILLS

PACK RULES COMMITTEE

(1) HR 127 - TO ENLARGE HOUSE RULES COMMITTEE. Vote on passage of bill. Bill passed 217-212. CR* page 1518 of 1/31/61. (Yea -; Nay +)

Commenting on this bill, Congressman Clarence J. Brown of Ohio stated, "This resolution was designed and introduced for one purpose, to pack the Rules Committee so as to give either one individual, or a limited few, the power to completely control all of its decisions and actions."

Also commenting on this bill, Congressman August E. Johansen of Michigan stated, "The single issue before the House today is the issue of power - power to push the program of the new Administration through the House with a minimum of effective resistance and with a maximum of speed and conformity to the wishes of the Executive branch."

Congressman Clarence J. Brown of Ohio further stated, "If the Rules Committee can be packed to obtain political decisions, other committees of the House can likewise be packed."

Here is a case where a bill was passed by a margin of only 5 votes. All those who voted to pack the Rules Committee indicated in advance that they supported the ruthless political tactics of the Kennedy Administration and that they supported the Socialist, New Frontier policies of the Democratic Party.

FEDERAL UNEMPLOYMENT COMPENSATION

(2) HR 4806 - FEDERAL UNEMPLOYMENT COMPENSATION BILL. Vote on passage of bill. Bill passed 392-30. CR page 2759 of 3/1/61. (Yea - ; Nay +)

This bill provided for the establishment of a "temporary" program of extended Federal Unemployment Compensation and a "temporary" increase in the rate of the Federal Unemployment Tax.

Congressman James B. Utt of California, in commenting on this bill stated, "It is a brand new attempt to socialize, to federalize, and to nationalize unemployment insurance. We are taking an unemployment insurance program and converting it -- or perverting it, I should say -- into a welfare program, because in every respect it has the earmarks of permanency, and it has the earmarks of Socialism****I can say to you that the State of California can administer its unemployment insurance program better than the Secretary of Labor."

Congressmen who voted for this bill indicated that they are for bigger and bigger Federal Government and more interference with the rights and responsibilities of the States.

FEED GRAINS

(3) HR 4510 - FEED GRAINS BILL. Vote on passage of bill. Bill passed 209-202. CR page 3437 of 3/9/61. (Yea - ; Nay +)

This was a bill providing for a rise in price supports for feed grains, payments in cash and in kind for farmers who agreed to reduce acreage, and loss of price support eligibility for farmers who did not participate in the acreage reduction plan.

In commenting on the Feed Grains Bill, Congressman Leslie C. Arends of Illinois stated, "This is a temporary one-year mea-

sure. What we do here may well set the pattern when permanent legislation is later considered. In other words, we here and now are movimg toward later-to-be-imposed, absolute and strict controls and a regimented agriculture."

Congressman Paul Findley of Illinois commented, "Actually, the segments of U.S. agriculture not receiving so-called help from government are healthier than the rest.... There is considerable evidence that most of our present-day ills in agriculture can be laid at the door of the Federal Government "

A vote for this bill means a vote for Socialized, Federally-controlled agriculture.

RAISE MINIMUM WAGE

(4) HR 3935 - RAISE MINIMUM WAGE. Vote on passage of bill. Bill passed 340-78. CR page 4529 of 3/24/61. (Yea - ; (Nay +)

Commenting on this bill, Congressman John J. Rhodes of Arizona stated, "To increase the cost of labor by any amount at all will not add a single job to a payroll, but it may force employers all along the line of marginal operations to curtail or go out of business."

Every individual employer is a better judge of the value of an employee's services than is the Federal Government in Washington. When the employer is forced by the Federal Government to pay a higher wage rate, he will seek younger, more vigorous employees to justify the increased overhead, and thus will be forced to fire less efficient and elderly workers whose services do not warrant a higher wage. The bill not only would increase unemployment, but as Congressman J. Ernest Wharton of New York stated, "This proposal is a foot-in-the-door and camel's-nose-under-the-tent to regulate and increase all wages."

Federal control of all wages and all manpower is the goal of the Socialists in the bureaucracy and the Kennedy Administration. If your Congressman voted for this bill, he showed a lack of knowledge concerning the benefits of the Free Enterprise system.

AREA REDEVELOPMENT

(5) S. 1 - AREA REDEVELOPMENT BILL. Vote on passage of bill. Bill passed 251-167. CR page 4954 of 3/29/61. (Yea - ; Nay +)

The Reciprocal Trade Program, which is flooding America with cheap imports, is one of the prime reasons for factory shut-downs causing unemployment in certain areas of the country. Under the Area Redevelopment Bill, the Federal Government will aid these areas by Federal handouts in an attempt to stimulate business and employment.

Congressman Bruce Alger of Texas states that the bill "Prescribes complete government planning and regimentation" and would give the Secretary of Commerce "more and larger powers, as though he were the absolute dictator of American industry."

The extension of Federal authority in the field of industrial planning and development is a direct attack on Free Enterprise.

OMNIBUS JUDGESHIPS

(6) S. 912 - OMNIBUS JUDGESHIP BILL. Vote on passage of bill. Bill passed 336-76. CR page 5938 of 4/19/61. (Yea - ; Nay +)

This was a bill to provide for the appointment of 70 additional Federal judges by President Kennedy, due to a backlog of Federal cases pending in court.

Commenting on the above bill, Congressman H. R. Gross of Iowa stated, "I regret that the present Administration has made an out-and-out political deal of the additional Federal judgeships."

With an increasing population, it is to be expected that a need for a few additional Federal judges might be necessary. It is because of the rapidly increasing Federal

interference in formerly domestic matters that the dockets in Federal Courts are now so overloaded. Federal judges are appointed for life. Now that Federal judgeships have become tools of political patronage, the judges appointed by President Kennedy will be reflecting the New Frontier, Socialist philosophy in their Federal Court decisions for years to come.

TRAVEL & TOURISM

(7) HR 4614 - ESTABLISHMENT OF A NEW OFFICE OF INTERNATIONAL TRAVEL AND TOURISM IN THE COMMERCE DEPARTMENT. Vote on passage of bill. Bill passed 305-104. CR page 7683 of 5/17/61. (Yea - ; Nay +)

This bill put the Federal Government in direct competition with privately-owned airlines, steamship companies, travel agencies and others in the field of tourism.

Commenting on the above bill, Congressman Clarence J. Brown of Ohio stated, "We are told by the sponsors of this legislation that we have to have a Federal Agency to encourage the citizens of foreign countries to visit the United States. Yet we have a great many American airlines and shiplines busily engaged now in promoting such travel. It is being proposed that Uncle Sam do the same thing, all on borrowed money."

Congressmen who voted for this bill indicated that they are for Socialism and against private enterprise.

NATO & UNESCO

(8) HR 7371 - APPROPRIATIONS FOR THE DEPARTMENTS OF STATE AND JUSTICE, THE JUDICIARY AND RELATED AGENCIES. Vote on passage of bill. Bill passed 256-71. CR page 8727 of 6/1/61. (Yea - ; Nay +)

This catch-all appropriations bill, purporting to finance domestic operations, actually included funds for the following: $125,000 to the U.S. Citizens' Commission on NATO, which Committee is now planning to merge the United States into a regional organization as a first step toward eventual World Government; $61.5 million for U.S. contributions to international organizations such as the Communist-dominated United Nations; and $302,000 for the Civil Rights Commission. Also covered in this bill were expenses of the National Commission on Educational, Scientific and Cultural Cooperation which coordinates its activities with UNESCO. UNESCO is heavily staffed by Communist bloc personnel, and provides a pipeline for World Government propaganda into the U. S. educational system.

Only 71 Congressmen opposed this bill. 256 Congressmen indicated they were for all of the appropriations in this catch-all legislation. We suggest that you demand that your Congressman refuse to vote on appropriation bills which include such destructive contributions as the support of the Communist-dominated UNESCO. The financing of such activities should be considered in separate legislation so that they can be defeated.

FEDERAL SUPPORT OF AGRICULTURE

(9) HR 7444 - FEDERAL SUPPORT AND CONTROL OF AGRICULTURE. Vote on passage of bill. Bill passed 318-65. CR page 8960 of 6/6/61. (Yea - ; Nay +)

This is an appropriation bill for the support of the Department of Agriculture and related agencies. According to Congressman Leslie C. Arends of Illinois, the appropriation covered by the bill totaled around $6 billion.

Although the voting public is led to believe that the Agricultural Bill is solely for the support of the domestic agricultural program, Congressman Bruce Alger of Texas, in discussing this bill, stated, "at a time of worldwide economic competition...we here today are asked to provide $3.6 billion in food giveaway to foreign nations under Public Law

480." (This agricultural appropriation bill provides appropriations for the financing of Public Law 480.)

Congressman Alger then pointed out, "This is in addition to $4.5 billion in Foreign Aid... I am heartily opposed to this ridiculous agricultural bill."

If your Congressman voted for this bill, he proved that he is in favor of subsidizing and controling farming operations, and thus he shows that he is against Free Enterprise and the Free Market System.

EXTENDING TRANSPORTATION & TELEPHONE TAX

(10) HR 7446 - EXTENDING TRANSPORTATION AND TELEPHONE TAX. Vote on passage of bill. Bill passed 295-88. CR page 9120 of 6/8/61. (Yea - ; Nay +)

This bill provided for a one-year extension of certain excise tax rates. Federal transportation and telephone taxes were originally passed on an "emergency" basis during the Korean War. Now that the wartime transportation crisis no longer exists, these taxes are no longer justified.

Congressman Richard H. Poff of Virginia, denouncing these excise taxes stated, "Many of these taxes were imposed not so much as revenue measures, but as regulatory devices...."

A vote for this bill is a vote in favor of the continuation of Federal excise taxes which permit the government to regulate the transportation and telephone industries.

APPROPRIATION INCLUDING CONGO

(11) HR 7712 - FOURTH SUPPLEMENTAL APPROPRIATION BILL (including Congo.) Vote on passage of bill. Bill passed 291-63. CR page 9934 of 6/19/61. (Yea - ; Nay +)

Among other items, this bill included $32. million as a supplemental appropriation to the State Department to donate to the United Nations to meet a special assessment for the U. N. Congo operations.

Congressman Frank T. Bow of Ohio, commenting on this bill, stated, "If you will turn to the hearings at page 16, you will find there the list of nations in the Communist bloc that are not paying their contribution to the Congo operation. They just refuse to pay. Their total is about $26 million. So if this bill is going to be paid, you can rest assured that out of the funds of the United Nations, to which we contribute 32%, we are to that extent contributing 32% of the cost of the Communist bloc for the Congo operation."

A vote for HR 7712 was a vote to appropriate U. S. taxpayer dollars to help finance the Communist take-over of the Congo under the auspices of the United Nations and to help the UN make war against the anti-Communist, independent nation of Katanga.

HOUSING BILL

(12) HR 6028 - FEDERAL HOUSING BILL Vote on passage of bill. Bill passed 235-178. CR page 10351 of 6/22/61. (Yea - ; Nay +)

The purpose of this legislation was to enable the Federal Government to enter the field of housing for moderate and low income families and to promote Urban Renewal.

Commenting on this bill, Congressman Bruce Alger of Texas stated, "As a former land developer, realtor and builder, I am aware that this bill will not help the building industry. It is a tool for the destruction of private enterprise. This bill will not help people secure better homes. Rather it will make them dependent upon Government, assure slum living conditions and, in time, respectable and respectful home ownership, the backbone of American family life, will be destroyed."

A vote for this bill is a vote in favor of

Socialist legislation to extend Federal control over Housing.

INCREASE DEBT CEILING

(13) HR 7677 - TEMPORARY INCREASE IN DEBT CEILING. Vote on passage of bill. Bill passed 231-148. CR page 10410 of 6/26/61. (Yea - ; Nay +)

This bill proposed to increase the debt limit by $13 billion, thus making a "temporary" ceiling of $298 billion. Congressman Howard Smith of Virginia commented: "Every year you have had to have a bill in here to increase the debt limit because we were spending more money than we were collecting."

This will not be temporary, because the Big Spenders will continue to spend deficits and ask that U.S. taxpayers pick up the tab. Private industry, which alone can create new wealth, and ultimately individual taxpayers, will have to face heavier tax burdens as a result.

SPACE AGENCY FUNDS

(14) HR 6874 - SPACE AGENCY APPROPRIATION (NASA). Adoption of House-Senate Conference Report. Agreed to 354-59. CR page 12125 of 7/20/61. (Yea - ; Nay +)

This conference report called for an expenditure of roughly $1.3 billion to be spent in the major phases of the space research and development program, such as the man-to-the-moon project, space communications, etc.

Congressman Perkins Bass of New Hampshire stated: "We have had a distinguished array of military witnesses before the Space Committee, and not one of the military experts told us going to the moon had any military value."

Proving that the appropriation called for in this bill was unnecessary, Congressman James G. Fulton of Pennsylvania stated: "We have the proposal of the American Telephone and Telegraph Company to construct the satellites and put them in orbit without cost to the U. S. Government."

The American public is told that it is necessary for the United States to win the "space race" with the Soviet Union. However, the voter is now asking: "Why compete with the Soviet Union in outer space when our government, under both Republican and Democratic Administrations, has been unable to prevent the Communist take-over of Cuba?"

FEDERAL AID TO EDUCATION

(15) HR 8890 - FEDERAL AID TO EDUCATION. Vote on consideration of bill. Bill refused 170-242. CR page 16452 of 8/30/61. (Yea - ; Nay +)

This bill would have authorized payments for school construction under a Federal program. The Liberal-Socialists who promote Federal Aid to Education have always denied that the Federal Government intended to exert any control over education or any control over that which is taught in U. S. schools. The elaborate plan of the Liberal-Socialists to control education was revealed in the Spring of 1961 when a few members of the Congress discovered that the U. S. Office of Education had issued a document entitled "A Federal Education Agency for the Future." One of the items of anticipated expanding Federal activity is described in this document as "broadening of Federal interest in curriculum and improvement of instruction."

In discussing this document, Congressman August E. Johansen of Michigan stated that this publication of the Office of Education "is a clear notice to every Member of Congress that a vote for Federal Aid to Education is a vote for Federal control of education."

Fortunately for the preservation of the American system of education, the U. S.

House of Representatives on August 30 voted to refuse to consider the Federal Aid to Education Bill. The United States Senate, however, passed a Federal Aid to Education bill on May 25 by a vote of 49-34.

FOREIGN AID

(16) S. 1983 - FOREIGN AID AUTHORIZATION. Vote on adoption of House-Senate Conference Report. Conference Report agreed to 260-132. CR page 16727 of 8/31/61. (Yea - ; Nay +)

In commenting on this bill, Congressman James Harvey of Michigan stated, "When the Foreign Aid Bill, H.R. 8400, passed the House, Section 619(a) of the House amendments specifically provided that no assistance should be furnished to any country or area dominated or controlled by the international Communist conspiracy, and some 17 countries, including Yugoslavia and Poland, were enumerated...The language in the bill as it now reads leaves the determination of furnishing aid to Communist countries to the President. Under the State Department view, we can expect aid to continue to Yugoslavia and Poland, both Communist nations."

Congressman John M. Ashbrook of Ohio stated, "What we are doing here is granting the Executive Department the right to make the authorizations and to commit us to Foreign Aid ad infinitum....The record clearly discloses that the State Department, the ICA, and other non-elected agencies of the Executive Department clearly do not warrant the good faith and trust of the Legislative Branch in making such a delegation, and I whole-heartedly oppose this compromise Foreign Aid Bill."

A vote to approve the House-Senate Conference Report on Foreign Aid Authorization is a vote in favor of feeding, financing and supplying the enemies of the United States, such as Poland, Yugoslavia and other countries which are part of the Soviet empire of slave nations.

CULTURAL EXCHANGE

(17) HR 8666 - CULTURAL EXCHANGE PROGRAM. Vote on passage of bill. Bill passed 329-66. CR page 17131 of 9/6/61. (Yea - ; Nay +)

This bill provided for Educational and Cultural Exchange with other nations, including the Soviet Union.

The American Bar Association Special Committee on Communist Tactics and Objectives stated that Soviet dictator Khrushchev's report of 1956 listed Cultural and Business Exchanges as one of those developments which will bring about the growing weakness of the United States and advance World Socialism.

E. H. Cookridge, former British Secret Service agent and an authority on Soviet espionage, has stated, "Every Soviet football team, every athlete competing at an international sport event, Soviet scientists attending a Congress abroad, the Moscow Ballet performing in a Western capital, or a group of Soviet artists at a film festival, are invariably accompanied by special agents of the Soviet secret police."

The 1959 Report of Congressman Walter's House Committee on Un-American Activities, entitled "Patterns of Communist Espionage", contains testimony that Soviet visitors admitted to the United States under diplomatic, military, trade or cultural exchange are carrying on espionage activities within the United States.

PUBLIC WORKS

(18) HR 9076 - PUBLIC WORKS BILL. Vote on passage of bill. Bill passed 377-31. CR page 18035 of 9/13/61. (Yea - ; Nay +)

This was a giant pork-barrel bill which contained Federal hand-outs of every imaginable kind, so that Congressmen could say to their unthinking constituents, "See how much

I managed to get for you out of the Federal Government!"

This type of Big Spending will continue until the American voter wakes up to the fact that he is being bribed with his own tax dollars to re-elect Congressmen whose main occupation appears to be spending this nation into bankruptcy.

PEACE CORPS

(19) HR 7500 - PEACE CORPS. Vote on passage of bill. Bill passed 287-97. CR page 18354 of 9/14/61. (Yea - ; Nay +)

Congressman August E. Johansen of Michigan commented in connection with this bill, "I am completely opposed to it. I believe that it represents a mistaken effort to secularize and socialize the type of humanitarian activity abroad long and successfully promoted by missionary movements and non-governmental philanthropists. In my opinion, the Peace Corps will prove the bureaucrats' dream and the taxpayers' nightmare****There can be no question that the Peace Corps, if perpetuated by the Congress, will be an ideal target for penetration and infiltration by members of the Communist conspiracy."

DISARMAMENT

(20) HR 9118 - DISARMAMENT BILL. Vote on passage of bill. Bill passed 290-54. CR page 19104 of 9/19/61. (Yea - ; Nay +)

Congressman John H. Rousselot of California in the floor debate on the above bill stated, "I rise in opposition to this bill, which would establish a U.S. Disarmament and Arms Control Agency....My reasons are based on the conviction that we cannot afford to even consider disarmament when our mortal enemy, the international Communist conspiracy, devotes full time to massing armaments and armed forces for our ultimate destruction****We are presently spending nearly a million dollars annually on disarmament studies in the present Division of Arms Control. There is no sense to this proposal that we increase these expenditures by creating an agency with broad power to deal away our sovereignty and ability to protect ourselves **** It is my belief that under Title IV, the Director of the Agency is delegated far too broad a scope of power, which he could utilize without the concurrence of the President and the Secretary of State ...This Title gives him the authority to move in the direction of disarmament without proper checking from either the Congress or the President."

Congressman John M. Ashbrook of Ohio stated that worldwide disarmament "would be a long step toward World Government.... A World Government at this time would be a Socialist-Communist government....Do you realize that World Government could be the end of our Constitutional rights?....This would be no step forward, but retrogression to slavery and absolute control of our lives."

PART IV

DESCRIPTION OF SENATE BILLS

AREA REDEVELOPMENT

(1) S. 1 - AREA REDEVELOPMENT BILL. Vote on passage of bill. Bill passed 63-27. CR page 3796 of 3/15/61. (Yea - ; Nay +) (Description of this bill appears under House vote No. 5.)

O.E.C.D. (ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOYMENT.)

(2) EXECUTIVE "E," 87th CONGRESS - ORGANIZATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT (OECD). Treaty ratified 72-18. CR page 3950 of 3/16/61. (Yea - ; Nay +)

Before ratifying the OECD Treaty, the Senate inserted a clause which purported to protect the authority of Congress. Nevertheless the OECD still poses a grave threat to the national sovereignty of the United States, as it gives an international organization un-Constitutional power over U.S. Foreign Aid and U.S. tariff laws. A vote in favor of the OECD Treaty demonstrates support for the political philosophy of internationalism, the ultimate aim of which is the destruction of U.S. national sovereignty.

FEDERAL UNEMPLOYMENT COMPENSATION

(3) HR 4806 - FEDERAL UNEMPLOYMENT COMPENSATION. Vote on passage of bill. Bill passed 84-4. CR page 3987 of 3/16/61. (Yea - ; Nay +). (Description of this bill appears under House vote No. 2.)

FEDERAL EDUCATIONAL TV

(4) S. 205 - FEDERAL SUBSIDIES FOR EDUCATIONAL TV. Vote on passage of bill. Bill passed 67-13. CR page 4105 of 3/21/61. (Yea - ; Nay +)

This bill authorizes the use of Federal funds to State agencies for educational television facilities. The U.S. Commissioner of Education will administer the program thereby achieving another foot-in-the-door for eventual complete Federal control of education.

Senators voting for the Federal subsidies for educational TV indicated that they are in favor of un-Constitutional invasion by the Federal Government in the field of education.

FEED GRAINS

(5) HR 4510 - CONFERENCE REPORT ON FEED GRAINS. Vote on passage of House-Senate Conference Report. Conference Report agreed to 58-31. CR page 4238 of 3/22/61. (Yea - ; Nay +) (Description of this bill appears under House vote No. 3.)

RAISE MINIMUM WAGE

(6) HR 3935 - RAISE MINIMUM WAGE. Vote on passage of bill. Bill passed 65-28. CR page 5987 of 4/20/61. (Yea-; Nay +) (Description of this bill appears under House vote No. 4.)

AID TO COMMUNIST COUNTRIES

(7) S. 1215 - FOREIGN AID TO COMMUNIST BLOC NATIONS. Vote on passage

of bill. Bill passed 43-36. CR page 7314 of 5/11/61. (Yea - ; Nay +)

This bill amended the Battle Act to give the President discretionary authority to provide economic and military aid to any Red satellite nation except the Soviet Union and Communist-held areas in the Far East.

Commenting on the above bill, Senator Strom Thurmond of South Carolina stated, "It is most difficult for me to conceive how anyone can expect to beat Communist dictatorships by helping them."

The late Senator Styles Bridges of New Hampshire stated, "If we extend aid to a Communist satellite, even though the bill excludes Communist Russia, we are doing the same thing as if we were extending the aid to Russia."

Senator Frank J. Lausche of Ohio commented, "The travesty of the bill is that it provides that even though a government is selling ammunition, equipment of war, or fissionable material to be used in atomic bombs to Red China or Red Russia, we still will give it financial and economic aid if the President determines it will be in the interest of our country to do so."

The United States Constitution defines treason as giving aid and comfort to the enemy. Senators who voted for this bill should be defeated at the next election.

FEDERAL AID TO EDUCATION

(8) S. 1021 - FEDERAL AID TO EDUCATION BILL. Vote on passage of bill. Bill passed 49-34. CR page 8446 of 5/25/61. (Yea - ; Nay +) (See House vote No. 15 for description of related legislation in the field of Federal Aid to Education).

HOUSING & URBAN RENEWAL

(9) S. 1922 - TO EXPAND FEDERAL HOUSING AND URBAN RENEWAL. Vote on passage of bill. Bill passed 64-25. CR page 9319 of 6/12/61. (Yea - ; Nay +) (See House vote No. 12 for description of related legislation in the field of Federal Housing.)

CULTURAL EXCHANGE

(10) S. 1154 - CULTURAL EXCHANGE BILL. Vote on passage of bill. Bill passed 79-5. CR page 11669 of 7/14/61. (Yea - ; Nay +). (See House vote No. 17 for description of parallel legislation which was passed in the House on September 6, 1961.)

FEDERAL JOB RE-TRAINING

(11) S. 1991 - FEDERAL PROGRAM FOR JOB RE-TRAINING. Vote on passage of bill. Bill passed 60-31. CR page 15709 of 8/23/61. (Yea - ; Nay +)

A basic aspect of this bill is found in the directive to the Secretary of Labor to develop, compile, and make available information regarding skill requirements, occupational outlook, job opportunities, labor supply in various skills, and employment trends on a national, State or area basis which shall be used in the educational, training, counseling, and placement activities performed under this act.

A vote for this bill is a vote to give the Federal Government practically unlimited power to control vast segments of manpower within this nation.

DISARMAMENT

(12) S. 2180 - ESTABLISHING A DISARMAMENT AGENCY. Vote on passage of bill. Bill passed 73-14. CR page 17590 of 9/8/61. (Yea - ; Nay +). (See House vote No. 20 covering parallel legislation.)

FOREIGN AID

(13) HR 9033 - FOREIGN AID APPROPRIATIONS BILL. Vote on passage of bill.

Bill passed 62-17. CR page 18460 of 9/15/61. (Yea - ; Nay +). (See House vote 16 covering authorization of Foreign Aid for which HR 9033 provides appropriations.)

PEACE CORPS

(14) HR 7500 - PEACE CORPS. Vote on passage of bill. Passed by voice vote (no roll call taken.) CR page 18477 of 9/15/61 Later House-Senate Conference Report was also passed by voice vote in the Senate, as indicated CR page 19381 of 9/21/61. (Please see House vote No. 19 for commentary on this bill.

PART V

SUMMARY ANALYSES

AND

COMPARATIVE TABLES

BY STATES AND REGIONS

PART V

Analyses Based on the CSA Voting Index

LEADING CONSERVATIVES IN THE U.S. SENATE

Based on the tabulation of voting records appearing in Part III, it is found that there are only two members of the U.S. Senate who receive a 100% Conservative Rating. These are Senator Strom Thurmond, Democrat of South Carolina, and Senator John Tower, Republican of Texas.

The comparative ratings of those Senators who voted from 70% to 100% Conservative are as follows:

	% CONSERVATIVE	% LIABERAL-SOCIALIST
THURMOND, Strom (D-S.C.)	100%	0%
TOWER, John (R-Tex.)	100	0
BYRD, Harry Flood (D-Va.)	91	9
GOLDWATER, Barry (R-Ariz.)	88	12
RUSSELL, Richard B. (D-Ga.)	83	17
CURTIS, Carl T. (R-Neb.)	82	18
EASTLAND, James O. (D-Miss.)	80	20
ALLOTT, Gordon (R-Colo.)	75	25
BUTLER, John Marshall (R-Md.)	75	25
BENNETT, Wallace F. (R-Utah)	75	25
McCLELLAN, John L. (D-Ark.)	73	27

It is thus seen that out of 100 United States Senators, only 11 voted 70% to 100% Conservative.

ANALYZING THE LIBERAL VOTES OF CONSERVATIVE SENATORS

The CSA Voting Index rates only one Senator in the 90% to 99% Conservative bracket. He is Senator Harry Flood Byrd, Democrat of Virginia, who is rated 91% Conservative. Senator Byrd voted Liberal on Senate Issue #10 in the CSA Voting Index - the bill providing for Cultural Exchange with the Soviet Union. Senator Byrd's one Liberal vote deducted 9% from the total of 100%, because he did not vote on Senate Issue #4, Federal Aid to Educational TV, and Senate Issue #7, to amend the Battle Act and give the President authority to aid Red satellite nations.

In the 80% to 89% bracket is Senator Barry Goldwater, Republican of Arizona, with an 88% Conservative rating. Senator Goldwater voted

Liberal on Senate Issue #3, Federal Unemployment Compensation. Although Senator Goldwater "paired"* Conservative on five of the 20 key votes, his paired votes are not counted, inasmuch as the CONGRESSIONAL RECORD, on which the CSA index is based, does not officially count paired votes in the final tally for the bill. Senator Goldwater paired Conservative, but did not actually vote on the following Senate issues: #1 - Area Redevelopment; #4 - Federal Subsidy for Educational TV; #7 - to give the President authority to aid Red satellite nations; #11 - Federal Program for Job Re-training; #13 - Foreign Aid Appropriations bill.

Following Senator Goldwater is Senator Richard B. Russell, Democrat of Georgia, with an 83% Conservative rating. Senator Russell voted Liberal on Senate Issues #5 - Feed Grains bill, and #10 - Cultural Exchange with the Soviet Union. Senator Russell was paired Liberal, but did not actually vote on Senate Issue #3.

Senator Carl T. Curtis, Republican of Nebraska, is rated 82% Conservative. Senator Curtis voted Liberal on Senate Issues #5 - Feed Grains, and #10 - Cultural Exchange On two votes, Senate Issues #4 and #13, Educational TV and Foreign Aid appropriations, Senator Curtis is recorded as "not voting."

Senator James O. Eastland, Democrat of Mississippi earns an 80% Conservative rating. Senator Eastland voted Liberal on Senate Issue #2, Ratification of the Treaty establishing the Organization for Economic Cooperation and Development, designed to implement policies giving an international organization un-Constitutional power over U.S. Foreign Aid and U.S. trade and tariff regulations. Senator Eastland also voted Liberal on Senate Issue #3, Federal Unemployment Compensation. He is paired Liberal on Senate Issue #5, the Feed Grains bill, and is listed in the CONGRESSIONAL RECORD as "not voting" on Senate Issues #4 and #10, Federal Aid to Educational TV and Cultural Exchange.

In the 70% to 79% bracket are Senators Gordon Allott, Republican of Colorado, John Marshall Butler, Republican of Maryland, and Wallace F. Bennett, Republican of Utah, each with a 75% Conservative rating, and Senator John L. McClellan, Democrat of Arkansas, whose votes on the issues selected for tabulation were 73% Conservative.

As an example of the votes cast by Senators in this 70% to 79% bracket, Senator Bennett of Utah voted Liberal on ratifying the treaty establishing the Organization for Economic Cooperation and Development; he voted Liberal on Federal Unemployment Compensation; and he voted Liberal on Cultural Exchange with the Soviet Union. Senator Bennett is paired Liberal, but did not actually vote on establishing the Disarmament Agency.

Compared to the ratings of the remaining members of the Senate who voted from 0% to 69% Conservative, the voting records of the four Senators who voted from 70% to 79% Conservative give an appearance of "Conservatism." However, it should be realized that a Senator or Congressman who votes for Constitutional-American-Conservatism 75% of the time, is also casting 25% - or one-fourth - of his votes for Liberal-Socialist-Communism.

---

* For an explanation of the procedure of "pairing" votes, see page 17, Part III.

LEADING CONSERVATIVES IN THE U.S. HOUSE OF REPRESENTATIVES

Five members of the House of Representatives receive a Conservative Rating of 100% on the issues tabulated in Part III. These Congressmen are James B. Utt, Republican of California, Elmer J. Hoffman, Republican of Illinois, Clare E. Hoffman, Republican of Michigan, Clarence E. Kilburn, Republican of New York, and Bruce Alger, Republican of Texas.

It will be noted that only 38 members of the House of Representatives voted from 70% to 100% Conservative, as follows:

	% CONSERVATIVE	% LIBERAL-SOCIALIST
UTT, James B. (R-Calif.)	100%	0%
HOFFMAN, Elmer J. (R-Ill.)	100	0
HOFFMAN, Clare E. (R-Mich.)	100	0
KILBURN, Clarence E. (R-N.Y.)	100	0
ALGER, Bruce (R-Tex.)	100	0
HIESTAND, Edgar W. (R-Calif.)	95	5
SMITH, H. Allen (R-Calif.)	95	5
JOHANSEN, August E. (R-Mich.)	95	5
RAY, John H. (R-N.Y.)	95	5
TABER, John (R-N.Y.)	95	5
MASON, Noah (R-Ill.)	92	8
GROSS, H. R. (R-Iowa)	90	10
DEVINE, Samuel L. (R-Ohio)	90	10
ROUSSELOT, John H. (R-Calif.)	89	11
BRUCE, Donald C. (R-Ind.)	89	11
SHORT, Don L. (R-N.D.)	89	11
BEERMANN, Ralph F. (R-Neb.)	88	12
WHARTON, J. Ernest (R-N.Y.)	88	12
HALL, Durward G. (R-Mo.)	86	14
ASHBROOK, John M. (R-Ohio)	85	15
FINDLEY, Paul (R-Ill.)	84	16
SCHERER, Gordon H. (R-Ohio)	84	16
BERRY, E. Y. (R-S.D.)	84	16
MARTIN, David T. (R-Neb.)	83	17
ST. GEORGE, Katharine (R-N.Y.)	82	18
ANDERSON, John B. (R-Ill.)	80	20
DOLE, Bob (R-Kans.)	80	20
DORN, W. J. Bryan (D-S.C.)	80	20
WILLIAMS, John Bell (D-Miss.)	78	22
WILSON, Earl (R-Ind.)	75	25
PILLION, John R. (R-N.Y.)	75	25
LIPSCOMB, Glenard P. (R-N.Y.)	74	26
DERWINSKI, Edward J. (R-Ill.)	74	26
WINSTEAD, Arthur (D-Miss.)	74	26
SCHADEBERG, Henry C. (R-Wisc.)	74	26
SILER, Eugene (R-Ky.)	73	27
MINSHALL, William E. (R-Ohio)	72	28
JONAS, Charles Raper (R-N.C.)	70	30

CONSERVATIVE RATINGS BY STATE
U.S. SENATE

Below is shown the Conservative voting average for each State, based upon votes cast in the U. S. Senate. These are listed in descending order, with the highest voting average being shown first, and graduating to those States whose Conservative voting average in the U. S. Senate is 0% Conservative (or 100% Liberal-Socialist):

	STATE	CONSERVATIVE	LIBERAL-SOCIALIST
1	Virginia	76%	24%
2	Mississippi	74	26
3	Nebraska	71	29
4	South Carolina	67	33
5	Georgia	63	37
6	South Dakota	63	37
7	New Hampshire	57	43
8	Texas	50	50
9	Arkansas	49	51
10	Maryland	49	51
11	Delaware	47	53
12	Florida	46	54
13	Iowa	45	55
14	Arizona	44	56
15	Louisiana	42	58
16	Kansas	39	61
17	Colorado	38	62
18	Utah	38	62
19	Illinois	32	68
20	North Carolina	32	68
21	Idaho	31	69
22	Indiana	29	71
23	Massachusetts	25	75
24	North Dakota	25	75
25	Ohio	21	79
26	Connecticut	16	84
27	Kentucky	15	85
28	California	13	87
29	Nevada	12	88
30	New York	12	88
31	Pennsylvania	12	88
32	West Virginia	12	88
33	Wyoming	9	91
34	Maine	8	92
35	New Jersey	8	92
36	Rhode Island	8	92
37	Alaska	6	94
38	New Mexico	5	95
39	Vermont	5	95
40	Hawaii	4	96
41	Oklahoma	4	96
42	Alabama	0	100
43	Michigan	0	100
44	Minnesota	0	100
45	Missouri	0	100
46	Montana	0	100
47	Oregon	0	100
48	Tennessee	0	100
49	Washington	0	100
50	Wisconsin	0	100

CONSERVATIVE RATINGS BY STATE
U.S. HOUSE OF REPRESENTATIVES

In order to give a picture as to which States are more Conservative, below is a tabulation of the Conservative voting average of each State delegation to the U. S. House of Representatives. This tabulation lists first those States having the highest Conservative ratings, and descends in graduated order to those States whose Congressional delegations are rated as 0% Conservative (or 100% Liberal-Socialist):

	STATE	CONSERVATIVE	LIBERAL-SOCIALIST
1	Nebraska	70%	30%
2	North Dakota	68	32
3	Wyoming	65	35
4	Mississippi	61	39
5	South Dakota	61	39
6	South Carolina	52	48
7	Iowa	46	54
8	Ohio	43	57
9	Kansas	39	61
10	Kentucky	39	61
11	Indiana	38	62
12	Virginia	38	62
13	Maine	37	63
14	Wisconsin	35	65
15	Nevada	33	67
16	Arizona	32	68
17	Michigan	32	68
18	Texas	32	68
19	Georgia	31	69
20	Montana	31	69
21	Washington	31	69
22	Florida	30	70
23	Illinois	30	70
24	Arkansas	28	72
25	Minnesota	28	72
26	California	27	73
27	New York	26	74
28	North Carolina	26	74
29	Vermont	25	75
30	Tennessee	24	76
31	Louisiana	23	77
32	New Hampshire	22	78
33	Missouri	19	81
34	New Jersey	18	82
35	Colorado	17	83
36	Oregon	17	83
37	Pennsylvania	17	83
38	Alabama	15	85
39	Massachusetts	14	86
40	Oklahoma	14	86
41	West Virginia	10	90
42	New Mexico	8	92
43	Maryland	7	93
44	Rhode Island	6	94
45	Connecticut	5	95
46	Idaho	3	97
47	Alaska	0	100
48	Delaware	0	100
49	Hawaii	0	100
50	Utah	0	100

REGIONAL CONSERVATIVE RATINGS FOR HOUSE AND SENATE

Based on the foregoing Conservative ratings assigned to each States' Congressional delegation, the following figures emerge:

U.S. SENATE

EASTERN STATES
(Conn., Del., Me., Md., Mass., N.H., N.J., N.Y., Penna., R. I., Vt., and W. Va.)

22% Conservative 78% Liberal-Socialist

MIDWESTERN STATES
(Ill., Ind., Iowa, Kans., Mich., Minn., Mo., Mont., Neb., N. D., Ohio, Okla., S.D. and Wisc.)

24% Conservative 76% Liberal-Socialist

SOUTHERN STATES
(Ala., Ark., Fla., Ga., Ky., La., Miss., N.C., Tenn., Tex., S.C., and Va.)

42% Conservative 58% Liberal-Socialist

FAR WESTERN STATES
(Alaska, Ariz., Calif., Colo., Hawaii, Idaho, Nev., N. Mex., Ore., Utah, Wash., and Wyo.)

17% Conservative 83% Liberal-Socialist

Accordingly, when these regional ratings are averaged, it is disclosed that THE U. S. SENATE, IN THE 1961 SESSION OF CONGRESS, VOTED 74% LIBERAL-SOCIALIST, AND ONLY 26% CONSERVATIVE!

U.S. HOUSE OF REPRESENTATIVES

EASTERN STATES
16% Conservative 84% Liberal-Socialist

MIDWESTERN STATES
40% Conservative 60% Liberal-Socialist

SOUTHERN STATES
33% Conservative 67% Liberal-Socialist

FAR WESTERN STATES
19% Conservative 81% Liberal-Socialist

Averaging together the above regional ratings, it is found that THE 1961 SESSION OF CONGRESS, THE U.S. HOUSE OF REPRESENTATIVES VOTED 73% LIBERAL-SOCIALIST, AND ONLY 27% CONSERVATIVE!*

---

* These percentages, as noted, are based on Regional Conservative Ratings. If based on Average Conservative Ratings for Individual States, the U.S. House of Representatives in the 1961 session of Congress voted 77% Liberal-Socialist, and only 23% Conservative!

47 Congressmen Who Vote 90-100% Pro-Socialist and Who Come From Big Cities Where Minority Bloc Votes Swing Elections

KEY: 0% means 100% Socialist; 6% means 94% Socialist.

100% Pro-Socialist Voting Congressmen

Here are Members of the House from areas not usually termed "Big City, minority-bloc," who cast Liberal votes on the 20 key issues recorded in this index, and therefore earned a 0% Conservative (or 100% Liberal) rating. Efforts to defeat these 100% pro-Socialist Congressmen should prove more productive than attempting to defeat machine-backed, Big City, minority-bloc Congressmen.

WHAT PERCENTAGE OF CONGRESS VOTES CONSERVATIVE MORE THAN 50% OF THE TIME?

To answer this question, let us consider separately the average Conservative votes cast in the various percentage brackets from "0%" to "100%", based on the total of 437 members of the House of Representatives whose votes are recorded in Part III, and on the total of 100 members of the Senate:

U. S. SENATE

2	Senators,	or	2%	of	the	Senate,	voted	Conservative	100%	of	the	time.
1	"	"	1%	"	"	"	"	"	90-99%	"	"	"
4	"	"	4%	"	"	"	"	"	80-89%	"	"	"
4	"	"	4%	"	"	"	"	"	70-79%	"	"	"
10	"	"	10%	"	"	"	"	"	60-69%	"	"	"
7	"	"	7%	"	"	"	"	"	50-59%	"	"	"
2	"	"	2%	"	"	"	"	"	40-49%	"	"	"
5	"	"	5%	"	"	"	"	"	30-39%	"	"	"
8	"	"	8%	"	"	"	"	"	20-29%	"	"	"
10	"	"	10%	"	"	"	"	"	10-19%	"	"	"
10	"	"	10%	"	"	"	"	"	1- 9%	"	"	"
37	"	"	37%	"	"	"	"	"	0%	"	"	"

Only 28 Senators, or 28% of the U. S. Senate, voted Conservative more than half the time.

The balance of the Senate, 72 Senators out of the total of 100, cast Liberal-Socialist votes more than half the time.

U. S. HOUSE OF REPRESENTATIVES*

5	Congressmen,	or	1%	of	the	House,	voted	Conservative	100%	of	the	time.
8	"	"	2%	"	"	"	"	"	90-99%	"	"	"
15	"	"	3%	"	"	"	"	"	80-89%	"	"	"
10	"	"	2%	"	"	"	"	"	70-79%	"	"	"
26	"	"	6%	"	"	"	"	"	60-69%	"	"	"
40	"	"	9%	"	"	"	"	"	50-59%	"	"	"
34	"	"	8%	"	"	"	"	"	40-49%	"	"	"
48	"	"	11%	"	"	"	"	"	30-39%	"	"	"
35	"	"	8%	"	"	"	"	"	20-29%	"	"	"
50	"	"	12%	"	"	"	"	"	10-19%	"	"	"
39	"	"	9%	"	"	"	"	"	1- 9%	"	"	"
126	"	"	29%	"	"	"	"	"	0%	"	"	"

Thus it can be seen that only 104 of the 437 members of the U.S. House of Representatives, or 23% of the House, voted Conservative more than half the time.

By reverse process, it then becomes evident that 332 members of the House of Representatives, or 67% of the House, voted Liberal-Socialist more than half the time.

---

* Note: The late Congressman Sam Rayburn is excluded from this tabulation, since, as Speaker of the House he does not ordinarily cast a vote. Accordingly, the House percentages shown are based on a total of 436 Congressmen.

"All truth is safe and nothing else is safe; and he who keeps back the truth, or withholds it from men, from motives of expedience, is either a coward or a criminal, or both."

-- Max Muller

* * *

"The people never gave up their liberties but under some delusion. When bad men combine, the good must associate; else they will fall, one by one, an unpitied sacrifice in a contemptible struggle."

--Edmund Burke

PART VI

WHAT YOU CAN DO

TO HELP DEFEAT

THE SOCIALIST-VOTING CONGRESSMEN

Part VI

WHAT YOU CAN DO

If the voting records contained in this book have shocked you; if you realize that a continuation of this kind of voting by members of both parties will turn this Republic into an all-powerful Socialist dictatorship, then you are probably asking yourself, "What Can I Do?"

There is only one way to halt Communist subversion and the implementation of Communist policies within the United States, and that is by political action at the polls. There are hundreds of anti-Communist educational groups and study clubs active throughout the United States, and the number is increasing by the week. Some operate on a local basis, some on a State basis, while others are national in scope. The purpose of these organizations is to educate their members and the American public concerning the menace of the Communist conspiracy at home and abroad. For various reasons, such as tax deductibility, these anti-Communist groups must limit their activities to education of the threat of Communism, and are not able to extend their activities into the field of political action or politics.

NO DIFFERENCE BETWEEN THE TWO MAJOR PARTIES

Thoughtful and staunchly Conservative Americans, such as Clarence Manion, former Dean of the Law School of Notre Dame, J. Bracken Lee, Dan Smoot, and the late Senator Joe McCarthy, have at one time or another indicated the belief that there is no substantive difference between the two political parties.

Senator Joe McCarthy stated: "If bipartisanship (one-partyism) is carried to its logical conclusion, it will mean the death of the Republic."

Dean Clarence Manion puts it this way: "The American Eagle cannot continue to fly on two left wings."

Dean Manion has also stated on a number of occasions that the difference between the two major parties is such that the people only have a "choice" between "Tweedle-um and Tweedle-dee."

Thus it is seen that because both the Democratic and Republican parties are now dominated by Liberal-Socialist-Internationalists, the choice is no longer between "Democrat" and "Republican," but between "Conservative" and "Liberal."

So extensive has been the Socialist penetration at all levels of government in this country that the mere nomination and election of a Conservative as President would not solve the problem of halting Socialist aggression in this nation. The day when a Conservative will be elected President of the United States is perhaps far closer than many realize. However, if patriotic Americans concentrate on electing a Conservative President in 1964, and neglect electing Conservative Congressmen in 1962 and 1964, such a Conservative President would face a seemingly hopeless task when having to deal with a Liberal-dominated Congress.

Therefore it is seen that the "first order of business" in returning this nation to Constitutional principles and fiscal sanity is for Conservatives throughout this nation to bend every effort in 1962 TO ELECT CONSERVATIVES TO CONGRESS.

By the time you have reached this portion of this book, you have undoubtedly looked up your Congressman's voting record as contained in Part III. (If you do not know the name of your Congressman, telephone your

local newspaper and they will be happy to give you this information.)

If your Congressman has a good Conservative rating, then, of course, you should work strenuously to guarantee his re-election regardless of his party affiliation.

On the other hand, if you find, after reading the description of issues in Part IV of this book and seeing how your Congressman voted on each issue that he voted Liberal a majority of the time, then he should be defeated.

This voting index, published by The Conservative Society of America, can be used to help defeat those members of Congress who are voting 50% or more of the time in favor of Big Spending-Socialist measures.

Local political action units of the CSA are being formed in order to defeat those members of Congress who have been voting for Foreign Aid to Socialist and Communist countries around the world. Political action units are organized at the county level. The chairmen of these units comprise the Executive Committee of the Congressional District. As soon as the Congressional District political action unit has been established, an over-all plan of political action can be put into motion. For additional details concerning political action plans write to The Conservative Society of America, P. O. Box 4254, New Orleans 18, Louisiana.

INDIVIDUAL ACTION CAN BEGIN AT ONCE

It is not necessary, however, to wait until a Congressional District political action unit is formed. You and three or four of your friends can get together and start work merely as individuals.

There are two basic jobs; one is to create a doubt in the minds of the voters of the District concerning the qualifications of the Liberal incumbent Congressman, regardless of whether he is a Democrat or a Republican. Research through the newspaper files will reveal to you the names of the incumbent's closest political supporters. Many of these are probably businessmen who have helped to finance the campaigns of the incumbent Congressman. Analyze the business interests of these supporters. Note how your Congressman has been voting against these interests and then so inform these businessmen.

The first few chapters of this CSA Voting Index contain references to pages in the Congressional Record where additional information can be found concerning the debates on the various issues. (The Congressional Record is available at your public library.) Here, then, is the raw material for letters to the editor and for letters to the supporters of the incumbent Congressman.

If your Congressman has voted for Foreign Aid to Communist and Socialist countries around the world, you should bring this to the attention of every factory owner and manager in your Congressional District pointing out that Foreign Aid has rebuilt factories in foreign lands which now compete unfairly with American labor and American manufacturers.

If your Congressman voted for the extension of various aspects of the New Frontier Welfare State, this information should be brought to the attention of all of the doctors and dentists in the Congressional District.

As an individual we suggest that you purchase extra copies of this voting index and donate them to your high school and college libraries as well as your public library in order that students, soon to become voters, may become familiar with the voting records of Congressmen and Senators.

As an individual you can write a letter to the editors of all the daily and weekly newspapers in your Congressional District. Mention the Conservative voting record (or the pro-Socialist record) of your Congressman and indicate in the letter where the editor and the reading public can obtain a

copy of the CSA Voting Index for their own personal study.

This index should be brought to the attention of every discussion leader of every Conservative club and organization with which you are personally acquainted. The Civic Affairs or Governmental Affairs Committee of the Chamber of Commerce in your area should be told about the CSA index so they may order several copies and have them on hand for the use of members of the Chamber.

A short polite letter should be written to your Congressman asking him to explain why he voted as he did on each of the issues.

INFORMING AND INFLUENCING GROUPS

If you have had experience at public speaking, you can use the Voting Index as a basis for talks before various business and civic clubs in your area. Your talk might be entitled "How Businessmen Can Stop Socialism" or "How Congressman 'Jones' voted on issues of vital importance to businessmen," or "Is the (your State's name) Delegation to Congress really Conservative?"

We urge all Conservatives to attend public meetings where Congressmen and Senators appear when visiting their home State. For instance, if you find that your Congressman voted to supply the funds necessary for the United Nations to carry out its operations against Katanga in the Congo, then you should be present at public meetings and ask your Congressman how he feels about the United Nations operations in the Congo. If he says that he thinks it's a deplorable situation and there ought to be an investigation of those responsible, then you can get up and say "Now, then, Congressman Jones, how is it and why is it that you voted for the bill which provided the money that made possible this shameful conquest of the Congo for Communism?"

If you know that a Congressman is going to be speaking before a businessmen's group or a civic club, information concerning his voting record should be placed into the hands of as many members and officers of the sponsoring organization as possible so that they themselves will ask the questions.

It may be possible for you to make arrangements for your Congressmen and/or Senator to be invited to speak before businessmen's clubs or Chambers of Commerce in your community. Such scheduled appearances should be well publicized in advance so that the public as well as members of the press can be invited to attend.

The Congressman or Senator's talk should be limited to not more than twenty minutes, and the invitation extended to the speaker with the proviso that he is willing to answer written questions from the floor following his address.

COLLECT DIRECT QUOTATIONS OF YOUR CONGRESSMAN

Whenever possible, tape recordings of your Congressman's speeches before groups in his home district should be made and filed away for future reference. Frequently Congressmen, while campaigning for reelection, make highly contradictory statements. They say one thing to a labor group, another, for example, to women's groups, and still another on television or radio. In this way, they clearly reveal their willingness to compromise principles and attempt to be "all things to all people." The tape recording of the voice of a Congressman in making contradictory statements when appealing to various segments of the community can be used with very damaging effect by the Conservative candidate in opposing the incumbent Liberal.

THE CONSERVATIVE SOCIETY OF AMERICA

The Conservative Society of America, publisher of this voting index, is now organizing political action units throughout the nation and has members in 45 States. The function of the CSA is to provide the

mechanism and the tools, such as voting records, political action handbook, etc., in order to facilitate the organization at the local level of CSA political action groups to replace Liberal-voting Congressmen with 100% Conservatives.

Send today for further information concerning the CSA, by writing to:

The Conservative Society of America
P. O. Box 4254
New Orleans 18, Louisiana

INDIVIDUAL STATE RECORD AVAILABLE

The voting record for the Senators and Representatives of your State is available in a short form for mass distribution to key people in your State.

The voting record of each State contains a brief description of the issues upon which votes are recorded. It also contains a tabulation showing how your Senators and Representatives voted on key issues.

This inexpensive 8-page (8-1/2 x 11") State voting record has been designed so that hundreds and thousands may be distributed widely throughout every State.

We depend on the readers of this CSA Voting Index to help awaken thousands of Americans to the need of replacing those members of Congress who have been misrepresenting them.

This 8-page voting record for your State is available in quantity at the following prices:

Minimum Order ----- 50 for $6.00
100 - $10.00; 500 - $50.00; 1,000 - $100.00

Order from:

THE CONSERVATIVE SOCIETY OF AMERICA
P. O. Box 4254
New Orleans 18, Louisiana

(See coupons for ordering in back pages of this book.)

APPENDIX

COMMITTEES

OF THE

U.S. SENATE

AND

HOUSE OF REPRESENTATIVES

APPENDIX

STANDING COMMITTEES OF THE HOUSE AND SENATE

Based on the voting records of Congressmen and Senators as tabulated in Part III, it is useful to establish the Conservative make-up of Congressional committees.

For this purpose, as well as to furnish a list of Committee Members who can be contacted in regard to specific legislation, the Standing Committees of the House and Senate are here furnished as an Appendix.

This information has been extracted from the CONGRESSIONAL DIRECTORY as to names of Committee Members, and order in which they appear, with changes which have been made during the year of 1961 as shown in the CONGRESSIONAL RECORD. Following the name of each Committee Member is shown his Conservative Rating as established in the CSA Voting Index. Each Committee listing is followed by the Average Conservative Rating of the Committee as a whole.

It will be noted that the Committee whose membership has the lowest Average Conservative Rating is the Public Works Committee of the Senate. The membership of this Committee, voting 7% Conservative, is conversely voting 93% Liberal-Socialist.

An interesting comparison may be made between the House Foreign Affairs Committee and the Senate Foreign Relations Committee. Both of these Committees average an identical 17% Conservative, or 83% Liberal-Socialist.

The highest Committee rating is achieved by the House Committee on Un-American Activities, the membership of which Committee averages only 47% Conservative despite the presence of several members who achieve high Conservative ratings.

COMPARATIVE TABLE OF AVERAGE CONSERVATIVE RATINGS OF STANDING COMMITTEES OF THE HOUSE AND SENATE

Mrs. Phoebe Courtney
Editor
The Independent American
7314 Zimpel Street
New Orleans 18, Louisiana

Dear Mrs. Courtney:

Your letter of August 7, 1962, has been received in Mr. Hoover's absence from the city. With respect to your inquiry, Mr. Matthew Cvetic furnished information regarding subversive activities on a confidential basis to this Bureau from 1943 to 1950 for which he was compensated. He was not an employee of the FBI.

Sincerely yours,

Helen W. Gandy
Secretary

NOTE: Correspondent is the wife of Kent Courtney who is President of "Free Men Speak, Inc.," in New Orleans which publishes the newspaper, "The Independent American." The stated policy of the newspaper is to defeat socialist and communist influences that now pervade the thinking and policies of the U. S. Government and the two major political parties. Their publication indicates that the Courtneys are rabble rousers and hate mongers, and they have urged the impeachment of Chief Justice Warren of the Supreme Court, and have criticized the Government for appeasing.

RLR:rap (3)

Mrs. Phoebe Courtney

NOTE: continued
communists and for giving foreign aid. Mr. Courtney is a former John Birch Society member, and he and his wife are staunch supporters of General Edwin A. Walker. It is noted that in March, 1962, the Domestic Intelligence Division recommended that any correspondence received from Courtney should be answered with an in-absence type reply in that it was felt the Bureau should in no way become implicated or associated with him. Cvetic was discontinued as an informant for the unwarranted disclosure of his informant status and repeated unreasonable demands for more money.

August 7, 1962

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Department of Justice
Washington, D. C.

Dear Mr. Hoover:

The August 16, 1962, issue of NEWSWEEK, on page 57, had a notice concerning the recent death of Matthew Cvetic.

NEWSWEEK described Mr. Cvetic as a "self-proclaimed former undercover agent who told of having posed as a Communist for nine years by request of the FBI (which denied it,maintaining that Cvetic's only connection with the FBI was as a paid informer)."

Of course, Mr. Hoover, I will not accept this statement by NEWSWEEK Magazine that Matt Cvetic, whom I knew personally and admired very much for his valiant fight against Communism, was merely a "paid informer" of the FBI as NEWSWEEK states. I would be greatly indebted to you if you would tell me what the official position of the FBI is regarding Matthew Cvetic.

Most sincerely,

Phoebe Courtney

PHOEBE COURTNEY

UNDERMINING THE MORALITY OF AMERICA'S YOUTH

SUBVERSION IN THE SCHOOLS

By E. Merrill Root

E. Merrill Root is the author of "Collectivism on the Campus," and "Brainwashing in the High Schools," published by the Devin-Adair Company, as well as nine volumes of poetry. Mr. Root retired in 1960 after serving 40 years on the faculty of Earlham College, Richmond, Indiana. He now devotes his efforts to writing and lecturing in behalf of the Conservative cause.

SUBVERSION IN THE SCHOOLS

The June 25, 1962, Supreme Court prayer decision – which is censorship of religion and prohibition of prayer – is supposedly "Constitutional." It does not, of course, interpret what the U. S. Constitution says or means. However, let us waive that and concentrate on the double standard that the decision involves, a double standard based on the hypocrisy of the "liberal" agnostics who dominate us with their crooked orthodoxy.

SCHOOLS AS SEEDBEDS FOR ATHEISM

We who wish prayer do not demand that all participate. Those who object may absent themselves from it: they are not a captive audience. But the agnostics and atheists – both equally nihilists (or believers in nothing) – abuse the freedom of the captive audience in our schools by indiscriminately forcing **all** to submit to "counseling," psychological "tests," and "questionnaires." Such "tests" do not separate the state from religion, but set the state blatantly **against** religion.

The "liberals" use our schools as seedbeds for relativism, agnosticism, atheism. They turn our schools into stealthy cultures for germs which may infect our children with intellectual polio or spiritual typhoid.

This is a serious charge. But theirs is a serious offense: *the subversion of the soul.* What is the nature of their "counseling," their "tests," their "questionnaires"? What is their real purpose?

PLANTING DOUBTS ABOUT RELIGION

Recently in California the State Senate published the "Report of the Joint California Legislative Committee on the Public Educational System," including a minority report. In this minority report, examples are given from "A Questionnaire of Religious Attitudes" of statements to which a child in school is to give flat *Yes* or *No* answers, such as:

4) Man has no soul or spirit. He is just a superior animal with nothing but a physical body. (Yes ___; No ___)
18) Values are all relative. There are no absolute standards of right or wrong. (Yes ___; No ___)
38) Religion is merely a crutch which insecure people rely on. (Yes ___; No ___)

The American Civil Liberties Union, active in support of the Supreme Court prayer decision, is concerned lest the tender psyches of agnostics be bruised by noble dignified prayer that God shall bless our nation, our parents, and our souls. But do these "liberals" raise the slighest protest against **compulsory** questions like these that infect our children's minds with agnosticism? These questions were forced upon **all** students in the Kern County Union High School and Junior College District in California. Thus we see that the double-standard "liberals," backed up by the U.S. Supreme Court, would deny the right of participation in school prayer; at the same time such "liberals" demand freedom to subject our children to the dogmas of nihilism.

Here, for example, are questions presented to students for a flat *Yes* or *No* answer:

5) The world would be better off if science replaced religion as the guiding principle of men's lives. (Yes___; No___)
10) God answers prayers by actually intervening in people's lives. (Yes___; No___)
16) Christ was born of a virgin, as the New Testament says. (Yes___; No___)
17) After death, man will be judged by God for the way he lived on earth. (Yes___; No___)
22) The world would be better off without religion, because it is based on superstition. (Yes___; No___)
24) Although there may be a God who created the world, man has no moral obligation to him (not capitalized). (Yes___; No___)
33) There is no apparent eternal purpose for man's existence in the universe. (Yes___; No___)

In commenting on the foregoing "test" questions the California Report stated: "These questions interfere with freedom of religion. They would compel the student to question and doubt his religious beliefs. Such interference with religion is illegal."

But do the "liberals" raise a protest? No! – for such "liberals" are not interested in freedom at all, but only in their own license to propagate the dogmas of relativism, agnosticism, nihilism.

A questionnaire entitled "The Measurement of Human Wants," given at Ganasea High school in Pomona, California, asks:

How much money would you want to:
a) spit on a crucifix? _____
b) eat a pound of human flesh? _____
c) desecrate a church service? _____

What degeneracy motivates the mind that can even suggest such perversities to a child?

SLY ATTACKS ON PATRIOTISM

In the Kern County Union High School and Junior College District (according to the California Senate Report), a questionnaire entitled "Moral Value Inventory" asks:

15. Which is worse:
    ____ 1. Spitting on the Bible?
    ____ 2. Spitting on the American flag?
41. Which is worse:
    ____ 1. Denying the existence of God?
    ____ 2. Laughing while the Star Spangled Banner is being played?

As the Report states: "These questions are impossible to answer. The child would be required to choose between his faith in God and religion, and his loyalty to his country." *Religious faith and patriotism are not alternatives – but corollaries!* Even to suggest such questions is irreligious, and subverts the soul by insinuating that a valid spirit would consider "spitting" on either the Bible or the American flag.

FEDERAL FUNDS FOR "TESTING"

These infections of intellectual polio and spiritual typhoid are not confined to California. In 1958, President Eisenhower signed the National Defense Education Act into law. "Title VII" of this Act provides grants to State educational agencies to assist in establishing and maintaining programs of guidance, counseling, and testing; to "guidance institutes" for the preparation of "counselors"; to States for "testing" in secondary schools.

Mrs. Anne Lorenz (State of Washington) writes in the NATIONAL HEALTH FEDERATION BULLETIN, January, 1962:

> Since this law went into effect, there has been a rash of studies and "testing" of school children by private research organizations and university departments of sociology and psychiatry, and institutes of various kinds – all financed, in part, with Federal tax money. The most ambitious of all the "testings" of our high school youth was "Project Talent" . . . . an unprecedented Federal foray into the field of pupil testing . . . Now, tons of Project Talent questionnaires, bootlegged into the schools, have lifted one billion bits of information from 500,000 boys and girls in the country and city . . .

At a cost of $1,234,304 to you and me, questions like these have been scattered like germs in our children's minds:

What kind of friends would you like to have?
1. Kind but dumb
2. Cheats but does not steal
3. Smart but lies
4. Very dumb but not mean.

How do idiotic questions of this caliber reveal "talent"?

Under President Kennedy, legislation is now proposed which would devote $200 million to furnish youth guidance counselors to every school in the United States. These counselors, after six months training, are to be a plague of locusts loosed upon our schools – "evaluating" both teachers and pupils by their answers to questions that popularize (and vulgarize) the worst of Sigmund Freud and the bad best of John Dewey.

In 1959, the United States Office of Education, through the Community Council (an affiliate of the United Fund), sprang "Talent Tests" on Houston, Texas. The SOUTHERN CONSERVATIVE described it thus:

> In these tests children were queried as to whether or not their parents owned their own homes and, if so, the value; if their parents paid rent, and how much; how many bedrooms their homes contained; how many cars their families owned; what language was spoken in their homes; did their mother work outside the home; how much education did their parents have; whether their mother was a good housekeeper; whether their parents attended church; whether the child had more problems than others in the neighborhood; whether or not it was fair to bring children into the world; and if a girl gets into trouble during a date, should she blame anyone but herself?

How can such unwarranted snooping into private lives by professional busybodies discover latent American "talent"? Fortunately, the use of such tests became known, and an avalanche of angry protests swamped school officials, causing the local School Board to stop the tests.

It is not surprising that an atmosphere of secrecy and semi-secrecy surrounds these tests. Neither the children nor the parents are permitted to know the scorings. Children are often admonished not to tell their parents the questions asked. Even Members of Congress have, in fact, had difficulty in obtaining copies of these questionnaires from the Department of Health, Education and Welfare. It is ominous indeed that such testing procedures are implemented by the Federal Government itself via legislation.

MAKING HYPOCHONDRIACS OF OUR CHILDREN

A test published by the Science Research Associates entitled "Junior Inventory – Form A," which was inserted in the CONGRESSIONAL RECORD of August 13, 1958, asks the students to mark each statement which sets forth what constitutes a problem to him or her. Here are excerpts from this questionnaire, under the section titled "My Health":

2) It sometimes hurts when I breathe
16) I have a thumping in my chest.
17) My stomach hurts a lot.
25) Sometimes I get real dizzy.
28) I have to pick my nose a lot.
29) I sneeze a lot.
30) My skin itches.
35) I have no "pep."
39) I don't like to eat.
45) Sometimes I wet my bed.

After such incitements to hypochondria, what child could enjoy normal physical or mental health?

PROMOTING NEGATIVISM AND FRICTION

In sections entitled "About Me and My School," and "About Myself" we find the following negative suggestions:

89) I don't like school.
90) I don't like schoolbooks.
102) I don't see why I have to go to school.
121) I don't like teachers.
131) I'd like to quit school now.
141) Sometimes I wish I was dead.
142) Sometimes I have to steal things.
149) I worry too much.
162) I am afraid of the dark.

And again, under the heading "About Me and My Home" are the following questions:

186) I don't like my home.
191) I wish I didn't have a brother.
195) My mother is too bossy.
196) My daddy is too bossy.
201) I wish my mother liked me more.
203) My mother and daddy often fight.
215) I'm afraid of my mother.
216) I'm afraid of my daddy.

The testers thus invade the sanctity of the home with the obvious intention of creating dissatisfaction and friction.

The LOS ANGELES TIMES of May 26, 1958, quoted questions from Science Research Associates' Youth Inventory as follows:

80) I have thought of suicide.
203) I wonder if I'm normal in my sex development.
277) How far should high-school students go in sex relations?
285) I am losing faith in religion.

WHAT YOU CAN DO

This wicked tampering with the impressionable minds of America's youth – this calculated destruction of individual self-confidence, respect for one's parents – this deliberate injection of confusing and contradictory suggestions regarding love of God and Country must be stopped!

Warn your child that such tests are liable to be given in his school. Tell him to report to you if any such test is given. (He will not be able to bring it home: so tell him to copy any questions he can and bring them to you.) Go immediately to the school: **demand** a copy of the test.

Write letters to the editor of your local newspaper including specific quotations from "tests" being given to local school children (Enclose a copy of this pamphlet so that the editor will have background information on these tests); publicize the infection. Form local parents' groups to demand that your local School Board outlaw such tests.

Do everything possible to focus the full light of publicity on these dangerous tests which can wreak such havoc on young minds.

Write your Congressman protesting the appropriation of any funds to finance "counseling," "testing," and "questionnaires," enclosing a copy of this pamphlet by E. Merrill Root.

Dear Subscriber:

Enclosed are the two latest TAX FAX pamphlets:

TAX FAX #37 - "Subversion in the Schools," by E. Merrill Root
TAX FAX #38 - "Beware of Phony Anti-Communists (An Expose of the Views of Col. William R. Kintner, a Member of the Semi-Secret Council on Foreign Relations)"

The purpose of TAX FAX pamphlets is to provide information in a handy form so that mass distribution of documented facts on a particular subject can result in citizen action.

"SUBVERSION IN THE SCHOOLS" - by E. MERRILL ROOT

As frequently happens, THE INDEPENDENT AMERICAN is right "on top of the news" with this particular TAX FAX pamphlet. One week after this pamphlet was printed, an article appeared in the September 21 issue of LIFE Magazine entitled "The New Tests in Our Schools -- The 3 R's and a P (For Psyche)" regarding psychological and so-called talent tests being given in schools throughout the country.

Our pamphlet on this subject, entitled "Subversion in the Schools," gives you information which is not contained in LIFE Magazine's article, and documents that the actual purpose of these tests is to undermine a child's faith in God and country, as well as to weaken his moral fiber.

The LIFE Magazine article states, "The knowledge that they (talent tests, etc.) are being given in local schools often produces dismay or resentment, but the individual parent can do little about it."

LIFE Magazine is dead wrong! You and other patriotic Americans can do a great deal about it. Actually, if parents will band together in local groups and give wide circulation to the facts contained in this pamphlet, sufficient pressure can be brought in your community to have your school board outlaw this insidious psychological testing, which is master-minded by the Liberal-Socialists in the educational system. Additional "What You Can Do" information is, of course, included in TAX FAX #37.

THE INDEPENDENT AMERICAN is honored to have as the author of this TAX FAX pamphlet, Professor E. Merrill Root, who is highly qualified to discuss this subject. As you

(please turn to other side....)

know, Professor Root is the author of the books "Brainwashing in the High Schools," and "Collectivism on the Campus."

"BEWARE OF PHONY ANTI-COMMUNISTS"

Here again we give the Conservative, anti-Communist answer to an article which appeared in a national magazine. I refer, of course, to the scurrilous attack made on Robert Welch and the John Birch Society by Colonel William R. Kintner which appeared in the May issue of the READER'S DIGEST.
The purpose of this particular TAX FAX is twofold: (1) To document the Communist origin of the nationwide smear of Robert Welch and the John Birch Society, and (2) to expose the views of that so-called anti-Communist, Colonel William R. Kintner.

This pamphlet shows that while purporting to attack Communism, such phony anti-Communists actually are parroting the Communist-appeasing line of the Council on Foreign Relations. What is particularly dangerous about Colonel Kintner and his kind is that their message is frequently directed to students, who lack the experience to make an evaluation. Wide distribution of this pamphlet can alert students, as well as members of the audience of anti-Communist seminars where Kintner and other CFR members such as Robert Strausz-Hupe may be the speaker. Once the general public is aware of this background information on Colonel Kintner, his threat to the sincere anti-Communist cause will cease to exist.

* * * * * *

Also enclosed is a sheet showing other TAX FAX pamphlets and books which are available from THE INDEPENDENT AMERICAN.

TAX FAX pamphlets have, in the past, played a key role in helping to defeat Socialist legislation in Congress, and in defeating Federally-financed Urban Renewal at the local level ("Urban Renewal" is the subject of TAX FAX #11).

If you want to do something in this fight against Socialism-Communism at home and abroad, then buy and distribute as many TAX FAX pamphlets as you possibly can.

If, however, for personal reasons you are unable to distribute TAX FAX pamphlets, then please send us a contribution so that we may send these two new TAX FAX pamphlets, "Subversion in the Schools," and "Beware of Phony Anti-Communists" to leading newspapers, columnists, and other persons of influence throughout the nation.

Just indicate the quantity of pamphlets and/or books you wish on the enclosed order blanks; attach your check or money order, and rush your order to us in the enclosed self-addressed envelope.

It was Abraham Lincoln who said "Let the people know the facts, and the country will be saved." You can help bring this about!

For God and Country,

SPOTLIGHT ON THE PRETENDERS

Have you wondered what is behind the continuing attack by the nation's press on the John Birch Society and its founder, Robert Welch? For example, did you know that in December, 1960, the Kremlin issued a manifesto to 81 Communist parties of the world ordering united fronts to be set up and all possible tactics employed to fight anti-Communism?

An editorial in the February 25, 1961, issue of the Communist publication, *PEOPLES' WORLD*, of San Francisco opened this Kremlin-directed attack on the John Birch Society and Robert Welch.

Although the attack on the John Birch Society was "triggered" by the Kremlin, the smear was quickly picked up by the Liberal-Socialist clique who parrot the "soft-on-Communism" line, and who number among their members some of the largest newspapers and publications in this country. Despite thousands of column inches in the Left-Wing press vilifying the anti-Communist John Birch Society, this Kremlin-directed smear failed; its only by-product was to make Robert Welch and the John Birch Society even more resolute in their efforts to awaken the American people to the dangers of the Communist menace at home and abroad.

A NEW TYPE OF SMEAR ON THE JBS

With the John Birch Society standing firm and increasing its membership, the Left Wing decided on a change in tactics. This new "switch" called for certain so-called anti-Communists to label the John Birch Society as "extremist."

In the May, 1962, issue of *Reader's Digest*, Col. William R. Kintner took it upon himself to criticize the John Birch Society. In Kintner's article he referred to "wrong-headed 'extremist' cults, such as the John Birch Society." And then, later, "the discredited Birch Society's own journal" (an apparent reference to the splendid anti-Communist magazine, *American Opinion*, published by Robert Welch).

In his article, Kintner attempted to give the reader the impression that anti-Communism is the preserve of such organizations as the Foreign Policy Research Institute of the University of Pennsylvania, of which he is Deputy Director.

PHONY ANTI-COMMUNISTS

What is the political bias of the FPRI? A clear indication of its bias is the fact that it numbers among its supporters the Rockefeller Brothers Fund, which is noted for its espousal of Liberal-Socialist-Internationalist, "soft-on-Communism" policies. Further, the Foreign Policy Research Institute of the University of Pennsylvania cooperates closely with the Council on Foreign Relations, a semi-secret organization whose policies can be described as "Communist-accommodating." William Kintner, who attacked the John Birch Society in the *Reader's Digest* article, is a member of the Council on Foreign Relations. In his *Reader's Digest* article, CFR-member William Kintner refers to the anti-Communist John Birch Society as an "extremist cult."

Is it "extremist" to oppose, as does the John Birch Society, appeasement of Communism and the ruinous foreign policies of both the Eisenhower and Kennedy regimes, which have allowed the Soviet Union to establish a military base in Cuba? If vigorous anti-Communism is "extremism" in the eyes of Col. Kintner, then the thinking of Col. William Kintner, self-proclaimed anti-Communist, should be examined to see how he proposes to fight Communism.

Because of his position as Deputy Director of the Foreign Policy Research Institute of the University of Pennsylvania, Col. Kintner can be assumed to have had a hand in the foreign policy report submitted to the U.S. Senate Committee on Foreign Relations entitled "U.S. Foreign Policy in Western Europe." A summary and analysis of this FPRI report appears in a book entitled "Strategy for the '60's," published by Frederick A. Praeger, New York. It contains the following phrases:

> Far closer political and economic alliance should be developed among the North Atlantic nations .... It is out-dated to depend too rigidly on the nation-state alone ... Traditions must be universalized.

Thus it is seen that in the name of "fighting" Communism, Col. Kintner and the Rockefeller-supported Foreign Policy Research Institute propose to repeal the Declaration of Independence by merging the United States into a Socialist-dominated Atlantic Community. It is well to recall that it was Lenin who stated:

A single world economic system is essential for the final triumph of Socialism.

It should further be borne in mind that Khrushchev uses the words "Socialism" and "Communism" interchangeably.

Kintner's Foreign Policy Research Institute offers a very strange proposal as a means of combatting Communism. According to "Strategy for the '60's," (p. 58) the FPRI recommends:

Support humanitarian drives (as by shipment of food to Poland).

The FPRI overlooks the fact that Poland is completely Communist-controlled, and that food sent to Poland strengthens the international Communist conspiracy.

The Government Printing Office has recently published a 127-page book entitled "Education for Survival in the Struggle Against World Communism," which consists of 18 articles. Among the authors are William R. Kintner and Robert Strausz-Hupe. Mr. Strausz-Hupe, as Director of the FPRI previously referred to, is Kintner's superior. He is also a member of the Council on Foreign Relations.

RED-APPEASING POLICIES OF CFR

The political bias of the CFR is outlined in CFR Study No. 7, published by the Council on Foreign Relations November 25, 1959:

- ... Build a new international order;
- ... Maintain and gradually increase the authority of the United Nations;
- ... Repeal the Connally Amendment;
- ... Promote the solidarity of the Atlantic Community;
- ... Increase Foreign Aid;
- ... Deal with Red China, in secret if necessary;
- ... Negotiate on disarmament proposals with Russia, perhaps in secret.

KINTNER ECHOES CFR "LINE"

On May 25, 1962, Col. William R. Kintner, of *Reader's Digest* fame, addressed an anti-Communist seminar in Baton Rouge, Louisiana, sponsored by the American Bar Association, Louisiana State Bar Association, Louisiana State University Law School and Baton Rouge Bar Association. After a long-winded preamble discussing Communist ideology, CFR member Kintner began his "sales pitch" promoting the Communist-accommodating policies of the Council on Foreign Relations.

WORLD GOVERNMENT

In his speech in Baton Rouge Kintner stated:

We must move toward greater political cooperation with our principal allies.

This is the Atlantic Community, or Atlantic "partnership" scheme advocated by President Kennedy on July 4, 1962, under which the United States would lose its national sovereignty and become a mere satellite in an eventual World Socialist government.

FOREIGN AID

On the subject of continuing Foreign Aid, Kintner echoed the CFR "line" by stating:

Our efforts to help underdeveloped countries come into the modern world have to be far more than economic assistance .... We have to help create a political and psychological climate which will help these people to accept assistance.

NATO

In the question-and-answer period, asked about NATO, Kintner stated that:

NATO is organized in concert with Article 51 of the United Nations Charter which permits regional organizations. It is not antagonistic to the United Nations.

Kintner neglected to inform the audience that NATO, as presently organized, is set up to become a regional supra-government, controlling the political and economic affairs of member nations. NATO cannot be considered as a Free World "shield against Communism" because it is a mere adjunct to the Communist-dominated United Nations.

RED CUBA

Questioned about Cuba, Kintner, the self-proclaimed anti-Communist, stated:

There may be some advantage in keeping him (Castro) there for maybe a year or so as a demonstration of the best Communist poorhouse in the Western Hemisphere.

Col. Kintner's remarks, though shocking, are not too surprising inasmuch as he was a staff negotiator at the Korean Armistice Commission, and was associated with the Planning Section of the Central Intelligence Agency (CIA) during the period 1950-1961. (Were Kintner's "plans" responsible for the disastrously mismanaged invasion of Castro's Cuba in 1961?)

CULTURAL EXCHANGE WITH REDS

Asked about whether we should continue to carry on Cultural Exchange with Communist Russia, Kintner, again echoing the CFR "line," stated:

Well, not only can we afford to carry them on – we should carry them on.

UNITED NATIONS

Regarding the United Nations, Kintner said:

> Some people say get out of the United Nations. I say stay in and maintain control of the United Nations for the Western world.

Kintner omitted mentioning the fact that U.S. influence in the United Nations is increasingly diluted as Kremlin-controlled "jungle states" and former colonies now dominated by Communist-oriented dictators, become full-fledged members of the U.N.

KINTNER'S OTHER REMARKS

Speaking of the increasing centralization of power in the Federal Government, Kintner stated:

> Some of this centralization of power is absolutely essential.

In his Baton Rouge speech, CFR-member Kintner again criticized the John Birch Society by referring to "the extremist-Right group who concern themselves almost exclusively with the internal Communist threat in a very misguided way," and then he continued:

> I hope that either one of two things happens – that they get a new leader, or that they find other means of working on this problem.

Obviously the "other means" of fighting Communism to which Kintner refers would be the adoption of policies advocating more Foreign Aid, including aid to Communist countries, more Cultural Exchange with the Soviet Union, more centralization of power in the Federal Government, repeal of the Declaration of Independence in favor of "interdependence" with Socialist European nations, and appeasement of Communism at all levels.

On the other hand, sincere and effective anti-Communists, such as Robert Welch and the members of the John Birch Society, urge an end to craven appeasement of Communism, the halting of Foreign Aid to Communist countries, a return to policies of fiscal sanity, protection of national sovereignty of the United States and, in general, a return to Constitutional Government.

INFILTRATION OF THE RIGHT WING

The Council on Foreign Relations and the giant tax-free foundations, such as the Rockefeller Foundation, the Ford Fund for the Republic, etc., know that they cannot combat the surging anti-Communist feeling that is sweeping this nation. Therefore, they have decided that if they cannot fight it, they will control it. They intend to do this by masquerading as anti-Communists. They give speeches at seminars and at schools and universities indulging in lengthy discussions of the Communist ideology – how it is incompatible with "democracy," etc. Then, after giving the impression that they oppose Communism, they launch into an exposition of their Communist-appeasing policies.

With unlimited funds at their disposal, with university prestige backing them up, they have little trouble in arranging so-called anti-Communist seminars throughout the United States.

If you wish further information regarding the appeasement-promoting, semi-secret organization known as the Council on Foreign Relations, of which both Col. Kintner and Robert Strausz-Hupe are members, order a copy of *"America's Unelected Rulers,"* by Kent and Phoebe Courtney. Order this 177-page paperback (which lists CFR members) from the address shown below. Price: $2.00, postpaid.

WHAT YOU CAN DO

(1) Buy and distribute copies of this pamphlet, *TAX FAX No. 38*, in order to expose the background and operations of the phony anti-Communists who are now smearing patriotic anti-Communist organizations such as the John Birch Society;

(2) If such self-proclaimed anti-Communists as Col. Kintner or Mr. Strausz-Hupe are scheduled to address an anti-Communist seminar in your city, draw up a list of incisive questions to ask these men during the question-and-answer period. As these so-called anti-Communists attempt to answer, or dodge answering pertinent questions, they will reveal to the entire audience the speciousness of their claims to be anti-Communists.

ORDER – TODAY – EXTRA COPIES
OF THIS PAMPHLET
Tax Fax No. 38

Send it to your mailing list of friends, civic and political leaders, Conservative student groups, university and high school faculty members, club members, patriotic and study groups, doctors, dentists, employees, etc.

ORDER TAX FAX No. 38 from

Was Red Twin-Orbit a Gigantic Hoax?

By Edith Kermit Roosevelt

It may seem heretical to question the authenticity of the Soviet space flights which have received world-wide acclaim from Communists as well as Washington officialdom. Yet no scientist in the field of astronautics worthy of his name could possibly accept these flights on the basis of available scientific evidence.

Obviously, the Soviet Union, which never risks failure in any major propaganda effort, is cock-sure it will never face a real attack on the authenticity of its space flights. Predictability is the essence of "scientific socialism." It would be inconceivable for the executive branch of the United States government to offend Soviet Russia by publicly casting doubt on their flights when it is the current and continuing American policy to reach an accommodation with Communism. It is essential that American youth be made to lose faith and pride in their country as a first-rate power if the United States is to merge with Soviet Russia under a Socialist world government.

The Soviet Union itself is the sole source of information about the flights ever since the U.S. government halted the release of data from government tracking stations.

The fakery involved in the latest Soviet flights is readily apparent to any thinking person. One need not wear the Holy Mantle of Science to know that had it been possible to do so the Soviets would have exploited the propaganda value of feeding live television broadcasts direct from the capsules to American and European networks.

Nor is there proof that the Russian voices picked up by monitoring agencies did in fact come from men in capsules. James D. Hayes, manager of the Mackay Radio Tracking Station of the International Telephone & Telegraph Corp., told this writer that there was no way to distinguish whether the voices of the Russian cosmonauts were transmitted live overhead or came from slave tapes on unmanned vehicles.

Peculiarly, the U.S. military tracking stations made no attempt to enter into two-way communications with the cosmonauts. Yet surely, President Kennedy, Secretary of State Dean Rusk or another of Our Planners would have gushed their congratulations to the Red men had this been possible.

Finally, one need not have received a passing grade in high school biology to realize that the seven-and-one-half hours of sleep at

Liquidating America

(Reprinted from ROCKFORD (Ill.) MORNING STAR)

Behind President Kennedy's July 4 speech at Independence Hall, where Mr. Kennedy plumped for an economic and political U.S. alliance with Europe, it is not difficult to see the finger of Walt W. Rostow.

Rostow is chairman of the State Department's policy planning board. He is the President's closest advisor on international policy. He is author of the still-secret document which is reportedly the master plan for what the New Frontier likes to call "a bold new foreign policy." Rostow personally is on record as saying that there will be no victory of capitalism over socialism. His foreign policy master plan is known to contend that the United States must expand its participation in institutions and organizations "which transcend the independent powers of the nation-state."

It was this latter point which Mr. Kennedy supported publicly in his Philadelphia speech. he not only suggested an economic and political alliance with the six-nation European Economic Community; he also argued that the day of American independence was past and that on the basis of "interdependence" we must now "look outward to cooperation with all nations in meeting their common concerns." He said we must expand our international alliances to help "the developing nations throw off the yoke of poverty" and "lift the weight from the shoulders of all." Mr. Kennedy made it obvious he favors progressive merger of separate sovereignties into some larger political unity.

Mr. Rostow and President Kennedy may be willing to surrender the United States and its citizens to a regional or a world government with its accompanying controls, taxes, and mob rule, but the American people are not.

In the past 17 years, Americans have given generously of their wealth to help the rest of the world. We have taxed ourselves to the point of absurdity. We have gone along with one administration after another which told us we had to finance higher living standards all around the globe or Communism would triumph for sure. Today Communism is more widespread than ever, and our own nation is on the verge of bankruptcy.

At a recent press conference, Mr. Kennedy said he would not want a U.S.-European alliance to become "a rich man's club while the poorer nations get poorer." Mr. Kennedy and Mr. Rostow obviously favor complete international economic equality. No nation, they contend, has a right to be richer than any other.

Mr. Kennedy may have a personal guilt complex about being rich, but the American people as a nation have no apologies for the eco-

to enter into two-way communications with the cosmonauts. Yet surely, President Kennedy, Secretary of State Dean Rusk or another of Our Planners would have gushed their congratulations to the Red man had this been possible.

Finally, one need not have received a passing grade in high school biology to realize that the seven-and-one-half hours of sleep at zero gravity claimed for the Russian cosmonauts would be impossible without lengthy previous conditioning in that state aloft.

The brashness of the Soviet space hoaxes is reflected not only in the discrepancies in accounts by the Soviet cosmonauts themselves but in massive documented evidence of consistent Communist science frauds. For example, science writer Lloyd Mallan reveals that the photograph of the gantry of Titov's space capsule, published in Moscow News, April 15, 1961, was a "still" which was lifted from the Russian science-fiction movie, "Road to the STARS" produced in Leningrad prior to 1958 when the Titov flight had not yet occurred.

Furthermore, in their childishly conceived documentary film, "Gagarin to the Stars," the Soviets barefacedly used the sequence from "Road to the Stars" in which the movie hero cosmonaut waves adieu to the crowd as he steps into the space capsule.

"The Reds crib America's future space plans from hearings before the House Committee on Science and Astronautics. Then they claim they've done it first," says Mallan whose knowledgeability in the field of astronautics has been praised by such authorities as Andrew G. Haley, former president of the International Astronautical Federation and present counsel of the American Rocket Society.

Serving as press agent for the Soviet Union's out-of-this-world propaganda is Prof. A.C.B. Lovell who heads England's Jodrell Bank Observatory. Lovell has consistently downgraded U.S. space achievements while hailing Soviet space claims. But in monitoring the Russian moonshots, Jodrell Bank could only have received signals coming from East Germany since the signals from the luniks were never higher than 22 degrees above the horizon. In the latest space flight, Jodrell Bank received signals but these signals did not prove that men were aboard the capsules!

Significantly, the Soviet Union backtracked on its promise to invite an observer from the Federation Aeronautique Internationale, the international agency which establishes official records in aviation and space, to witness their space flights. But FAI President Jacques Ailez observed Alan Shepard and John Glenn entering their capsules from the gantry and watched their flights from beginning to end in the control room.

Congress, the American press and independent scientists should investigate and publicize the techniques used by the Red science hoaxers and the reasons why the myth of Soviet space superiority is deliberately promoted by those who know better.

Policy By Example

(Reprinted from THE ARIZONA REPUBLIC)

In 1955, 26 per cent of the United States was closed to Russian visitors. The executive order, frankly described as tit-for-tat diplomacy, resulted from the closing of an equal per cent of Russia to American tourists. The State Department subsequently matched closed American areas with similarly closed areas in Russia. We offered to cancel our restrictions, in part or in whole, if the Russians would do likewise. But the Russians were not interested. So tourists went to both countries (10,000 Americans to Russia and 2,000 Russians to America in an average year) but stayed out of the restricted areas.

Last week President Kennedy lifted the ban without securing any Russian concessions in return. The decision stems from a policy advocated by White House Adviser Walt Rostow, who wants to make friendly gestures in the hope the Russians will be shamed into making similar concessions, thus thawing the cold war.

It's a nice theory, but it doesn't impress us very much. The Soviet record of treaty-breaking is At a recent press conference, Mr. Kennedy said he would not want a U.S.-European alliance to become "a rich man's club while the poorer nations get poorer." Mr. Kennedy and Mr. Rostow obviously favor complete international economic equality. No nation, they contend, has a right to be richer than any other.

Mr. Kennedy may have a personal guilt complex about being rich, but the American people as a nation have no apologies for the economic success we have had. America became rich because its people worked, and invented, and produced. We prospered because our government left us free to prosper.

Unless Congress puts a halter on Mr. Kennedy, the present administration will lead us into foreign alliances and eventually into a world government whose foreign majorities would be happy to vote to divide our wealth. The Rockford Morning Star does not favor the liquidation of the United State of America.

Same Old Press Black-Out

(Reprinted from CHARLESTON (S.C.) NEWS & COURIER)

Why is it only now, when it is too late to do anything to save the Western position in Algeria, are Americans learning the facts?

How is it that wire services and telecasters didn't publish stories six months or a year ago that told of the Communist complexion of the Arab rebels? Why didn't news media report shipments of Soviet arms -- and the presence of Chinese military advisers -- to readers in the United States? How is it that The New York Times, with its unparalleled overseas news staff, failed to give its nationwide readership the inside story of Communism in Algeria?

The News and Courier, a regional newspaper in a small state, had these facts in its possession and printed them more than a year ago. We knew what the score was in Cuba when The Times, the wire services and the telecasters were saying that Fidel Castro was liberating Cuba. We reported the facts concerning Algeria.

The truth is that the Red character of the Algerian revolution was evident to all who wanted to see, precisely as was the true character of Fidel Castro's revolution.

More than a year ago, key European journals were reporting that Communist weapons and advisers were moving into Algeria. We recall a lengthy and detailed report published in an official journal of the West Germany foreign office.

What about the Algerian atrocities? Look Magazine has been printing horror stories about the regime of the late Dictator Trujillo of the Dominican Republic. We have not seen full reports in Look and other liberal journals on atrocities committed by the Algerian rebels.

Today in France Magazine reports that the Algerian rebel organization has "killed TEN TIMES as many Moslems, Europeans and Jews as was imputed to the Secret Army Organization." While the liberal press lavished attention on wartime crimes of Adolf Eichmann, it ignored the unspeakable atrocities of the Arab rebels against Jewish communities in Algeria. In fact, the Algerian leadership has promised to support Egypt in further attacks against Israel. How many Americans know that?

Press coverage of the Algerian war is a duplicate of coverage given the Castro revolution. In both situations, a conspiracy of silence and uninterest obscured vital facts until the time for constructive action by the U.S. public had passed. Now that it's too late to help the French set things right in Algeria, the liberal press is giving U.S. readers a peek at grim realities.

The truth is that a large section of the news media in the United States is in default of its duty to the American people.

(Editor's note: THE INDEPENDENT AMERICAN, like the Charleston NEWS & COURIER, was one of the few papers in the nation who warned of the coming Communist take-over in Algeria. The June 1961 issue of our paper, 14 months ago, carried an article entitled "DeGaulle's 'Triumph' a Communist Victory" in which we stated that the campaign of terror against French control of Algeria was Communist-inspired and that the FLN, the Algerian terrorist organization, was Communist-supported.)

....U.S. Aid to Communist nations? Usually you do not have to pay reparations until AFTER you have been defeated.

Tubman, Spender

Jim Wick, the driving force behind the HUMAN EVENTS l
litical Action Conferences, deserves great credit for the busine
like and efficient way in which he managed the 4th HUMAN EVEI
Conference which was held July 13-14 in Washington, D.C.
fact, so professional was the management of this conference t
one would have thought that it was an "official" Republi
convention.

Jim Wick is also to be congratulated for providing Conser
tives of both parties with an opportunity to hear with their c
ears Senator Barry Goldwater's view on Conservatism and pa
loyalty.

Section 6 of the July 28th edition of HUMAN EVENTS gi
highlights from speeches of the various "big name" participa
in the two-day conference. Of course, a brief quotation fr
Goldwater's speech, heads the list.

Now it so happens that I was there -- and perhaps the readers
THE INDEPENDENT AMERICAN might be more interested
remarks made by Senator Goldwater which HUMAN EVENTS
not reprint, than in the innocuous statement by Goldwater t
they did reprint. So, here goes:

First, it should be borne in mind that this meeting was sponso
by HUMAN EVENTS; and, as such, was under their compl
control. In fact, Jim Wick made some sort of an announcement
the effect that HUMAN EVENTS reserved the right, in the inter
of brevity, to delete extraneous remarks, etc., from tape recordi
of speeches which would be available after the conference. Ther
fore, although HUMAN EVENTS advertises as available a ta
recording of the question and answer period following Goldwate
speech, it is improbable that the following remarks made
Senator Goldwater are included.

Perhaps he knew that in that audience were a number of u
hyphenated Conservatives -- well-informed persons whose all
giance is to the principles of Conse

ANOTHER ANTIQUE FOR THE WHITE HOUSE

WASHINGTON REPORT

By Congressman H. R. Gross

IS U.S. PROMOTING MORE BLOODSHED?

Nothing is more brutally shocking on the international scene than the power play which is now being attempted to force Katanga's Premier Tshombe to join in a so-called unified Congo. Up to this time there has been no more implacable foe of Communism in Africa than Tshombe, yet the Kennedy Administration is joined in the worst kind of pressure moves to drive Tshombe into the arms of other African leaders who have been playing fast and loose with the Kremlin.

Acting Secretary General U Thant, of the United Nations, attempted to ridicule Tshombe by calling him a "clown." Failing in this, U Thant, again apparently with Kennedy's blessing, threatens to send U.N. mercenaries into Katanga to shoot it up. All this in violation of the U.N. charter which prohibits the organization from meddling in in the internal affairs of a nation. And if the U.N.-Kennedy combination is so worried about Communist infiltration in Katanga, what about Cuba? Why not send U.N. mercenaries to upset Castro? Or do we have two standards of so-called democracy?

I have written Secretary of State Rusk in an effort to learn on what grounds the United States supports such an incredible policy in violation of the U.N. charter. I may add that he seems in no hurry to answer my letter.

MEDICARE, BRITISH STYLE

The medicare program in the British Isles, with a population approximately one-fourth that of the U.S., cost $2.2 BILLION during the fiscal year ending June 30, 1962, according to Enoch Powell, Minister of Health.

Powell said the costs of Socialized Medicine in Britain rocketed upward 11-1/2% in the past fiscal year alone. Yet there are those in this country who would have you believe that government-run medical care would cost you little or nuthin'!

SPLENDID MODEL

When attempts are made to economize on spending in the District of Columbia there are those who arise on the House floor, beat their breasts and chant the refrain that "This is the nation's capital, the showcase to the rest of the world; the best is really not good enough."

Now we learn that in this showcase of make-believe, otherwise known as Washington, D.C., no less than $18 MILLION in tax funds have gone into the pockets of ineligible relief clients in the last five years.

What a splendid model this is for the rest of the nation and the world!

YOU NAME IT; WE PAY FOR IT

Now comes the State Department with a [illegible]

By [illegible]

Jim Wick, the driving force behind the HUMAN EVENTS Political Action Conferences, deserves great credit for the business like and efficient way in which he managed the 4th HUMAN EVENTS Conference which was held July 13-14 in Washington, D.C. In fact, so professional was the management of this conference that one would have thought that it was an "official" Republican convention.

Jim Wick is also to be congratulated for providing Conservatives of both parties with an opportunity to hear with their own ears Senator Barry Goldwater's view on Conservatism and party loyalty.

Section 6 of the July 28th edition of HUMAN EVENTS gives highlights from speeches of the various "big name" participants in the two-day conference. Of course, a brief quotation from Goldwater's speech, heads the list.

Now it so happens that I was there -- and perhaps the readers of THE INDEPENDENT AMERICAN might be more interested in remarks made by Senator Goldwater which HUMAN EVENTS did not reprint, than in the innocuous statement by Goldwater that they did reprint. So, here goes:

First, it should be borne in mind that this meeting was sponsored by HUMAN EVENTS; and, as such, was under their complete control. In fact, Jim Wick made some sort of an announcement to the effect that HUMAN EVENTS reserved the right, in the interest of brevity, to delete extraneous remarks, etc., from tape recordings of speeches which would be available after the conference. Therefore, although HUMAN EVENTS advertises as available a tape recording of the question and answer period following Goldwater's speech, it is improbable that the following remarks made by Senator Goldwater are included.

Perhaps he knew that in that audience were a number of unhyphenated Conservatives -- well-informed persons whose allegiance is to the principles of Conservatism rather than party labels. Also Goldwater knew that after his speech he faced a question and answer period with "no holds barred." And so, passing briefly over his Republican "pep talk," let us get down to the question and answer period.

ROCKEFELLER AND JAVITS

One of the first questions came from a resident of the State of New York:

"Senator Goldwater, will you support Governor Nelson Rockefeller and Senator Jacob Javits for re-election?"

You could have heard a pin drop as the audience awaited his answer. Stated Senator Goldwater:

"Both Governor Rockefeller and Senator Javits were the choice of the Republican Party in New York. If I lived in New York I would support both Governor Rockefeller and Senator Javits."

At this point, a shocked murmur of "No! No!" swept through the audience.

Senator Goldwater, apparently nettled by the audience reaction, then went on to elaborate, saying:

"I would vote for them because it is important to have a Republican Party. . . . We can't go on losing Senators. I do not agree with Senator Javits, but he is registered as a Republican."

Goldwater neglected to inform the audience what possible benefit could accrue to the cause of Conservatism when a Republican Senator (Javits) votes 92% of the time for Socialist, pro-Communist legislation!

There followed another question from the audience regarding Goldwater's support of Rockefeller, to which Goldwater reiterated:

"Certainly, I would vote for Rockefeller -- because after he was elected I would have a chance to correct him . . . I could work on him."

Again Goldwater failed to amplify just how he would "work on" Rockefeller to bring Rockefeller around to Conservative principles. (Just why should any Liberal, elected as a Liberal, turn Conservative once he is elected?)

ROMNEY OF MICHIGAN

The next question related to George Romney, Republican candidate for the Governorship of Michigan, who, in addition to being a Liberal Republican has also loudly denounced the anti-Communist John Birch Society. Goldwater was asked if he would support Romney, to which question Gold[illegible]

do we have two standards of so-called democracy?

I have written Secretary of State Rusk in an effort to learn on what grounds the United States supports such an incredible policy in violation of the U.N. charter. I may add that he seems in no hurry to answer my letter.

MEDICARE, BRITISH STYLE

The medicare program in the British Isles, with a population approximately one-fourth that of the U.S., cost $2.2 BILLION during the fiscal year ending June 30, 1962, according to Enoch Powell, Minister of Health.

Powell said the costs of Socialized Medicine in Britain rocketed upward 11-1/2% in the past fiscal year alone. Yet there are those in this country who would have you believe that government-run medical care would cost you little or nuthin'!

SPLENDID MODEL

When attempts are made to economize on spending in the District of Columbia there are those who arise on the House floor, beat their breasts and chant the refrain that "This is the nation's capital, the showcase to the rest of the world; the best is really not good enough."

Now we learn that in this showcase of make-believe, otherwise known as Washington, D.C., no less than $18 MILLION in tax funds have gone into the pockets of ineligible relief clients in the last five years.

What a splendid model this is for the rest of the nation and the world!

YOU NAME IT; WE PAY FOR IT

Now comes the State Department with a request for $635,000 to house an Ambassador and eight employees in air-conditioned comfort in Ouagadougou. Where's that? It's in the Upper Volta, and that's one of those "emerging" African nations.

But read on for a moment. Testimony before a House appropriations subcommittee tells us that the principal chore of the Ambassador and his eight employees in Ouagadougou is to decode or code and send an average of two or three official telegrams or cablegrams each day.

If you are still interested in Ambassadors and Ouagadougou, we would remind you that the Kennedy Administration's pay "reform" bill now pending in Congress would give Ambassadors an $8,000 per year increase to $28,000 per year --- that plus substantial allowances.

What we need as badly as more taxpayers, in the U. S. is more Ouagadougous and more Ambassadors!

LAND OF PLENTY?

One observer of the Washington scene says it looks like the New Frontier wants to make this a land of plenty --- owe plenty, tax plenty, spend plenty, and waste plenty.

HOW THE REDS SHARE IN U. S. AID PROGRAM

(Chicago Tribune Press Service)

Washington, June 7—Following is a breakdown, thru June 30, 1961, of foreign aid which has been given to communist dominated countries by the United States:

[In Millions of Dollars]

	Economic Grants	Economic Loans	Military Grants	Total
Poland	393.3	181.7	None	575
Yugoslavia	1,064.2	231.4	69.8	1,365
Indonesia	748.4	252.3	None	1,000
Brit. Guiana	2.0	None	None	2
Ghana	8.3	25.0	None	33

The bulk of the nonmilitary aid given to Yugoslavia and Poland has been surplus farm foodstuffs, according to aid officials.

(Reprinted from CHICAGO TRIBUNE)

FEDERAL FUNDS? NUTS!

"• • • I have suggested more than once that the phrase 'federal funds' be changed to 'taxpayers' money.' Instead of accepting a statement that the United States government is spending $500,000,000 for development of a river in South America, I think the American Society of Newspaper Editors ought to agree to print such an item as follows: 'The taxpayers of the United States sent, etc.' • • • Federal funds? Nuts. That's our dough." --- From an editorial in the Cleveland Plain Dealer by Howard Preston.

of the Republican Party in New York. If I lived in New York, I would support both Governor Rockefeller and Senator Javits."

At this point, a shocked murmur of "No! No!" swept through the audience.

Senator Goldwater, apparently nettled by the audience reaction, then went on to elaborate, saying:

"I would vote for them because it is important to have a Republican Party. . . . We can't go on losing Senators. I do not agree with Senator Javits, but he is registered as a Republican."

Goldwater neglected to inform the audience what possible benefit could accrue to the cause of Conservatism when a Republican Senator (Javits) votes 92% of the time for Socialist, pro-Communist legislation!

There followed another question from the audience regarding Goldwater's support of Rockefeller, to which Goldwater reiterated:

"Certainly, I would vote for Rockefeller -- because after he was elected I would have a chance to correct him . . . I could work on him."

Again Goldwater failed to amplify just how he would "work on" Rockefeller to bring Rockefeller around to Conservative principles. (Just why should any Liberal, elected as a Liberal, turn Conservative once he is elected?)

ROMNEY OF MICHIGAN

The next question related to George Romney, Republican candidate for the Governorship of Michigan, who, in addition to being a Liberal Republican has also loudly denounced the anti-Communist John Birch Society. Goldwater was asked if he would support Romney, to which question Goldwater replied:

"I tried to get him to run for Governor four years ago. If I lived in Michigan, I would vote for Romney."

And then, going back to his previous statement regarding Rockefeller, Goldwater stated:

"As I have described, I would try to change him (Romney) afterwards. The important thing to remember is to get a Republican in and work on him afterwards."

Goldwater has as much chance of "changing" Rockefeller, Javits, and Romney from extreme Liberals to Conservatives as he would have of converting Tito to an anti-Communist.

Goldwater continued to hammer away at the "party loyal" theme. Urging support of Republican candidates, regardless of their degree of Conservatism, Goldwater stated:

"I don't care what their philosophy is . . . . Unless he, (the Republican candidate) steals from the church plate, vote for him, and work on him afterwards!"

Doubtless there were members of the audience who felt that the qualifications of a candidate for the high office of Congressman or Senator should include requirements of greater moral integrity than that the candidate does not "steal from the church plate."

And, finally -- aware of the stony silence he was encountering as he belabored the issue of party loyalty, Goldwater angrily lashed out at the audience by stating:

"You are helping to ruin your country if you don't vote for the Republican candidate!"

Goldwater's opinion was not shared by the majority of the audience at the HUMAN EVENTS Conference who, to the contrary, believe that the country is being "ruined" by those who place party loyalty above loyalty to Conservative principles and to the nation itself.

Goldwater's question and answer period concluded with polite and restrained applause from the audience.

A pall of gloom had settled over the conference after Goldwater lashed out at those in the audience who would not "buy" his party-loyalty-at-any-price philosophy. Rumors spread that a number of individuals and groups of individuals were so disillusioned that they left without waiting to hear the final speaker at the Saturday night banquet, Senator John Tower of Texas. Those who did not hear Senator Tower missed a rare occasion!

ENTER JOHN TOWER

Although Senator John Tower of Texas has achieved a splendid

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to LOVE OF GOD AND AN INDEPENDENT U.S.A.

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without this regular support, this experiment in patriotic and political journalism would not be possible.

54 Nations, Each With U.N. Vote, Have Less Population Than U. S.

The following information was presented by Rep. James B. Utt (R.-Calif.) to the House of Representatives and inserted in the Congressional Record May 7, 1962:

Mr. Utt: Mr. Speaker, the following is a list of 54 member countries of the United Nations together with their population figures which total 181 million people. These 54 countries have 54 votes in the United Nations while the United States with a greater population has but 1 vote.

These nations could have the power of economic and military control over the United States.

Fifty-four to one are very poor odds in any game, especially when this country is in a life and death struggle with

U.S. Tax Dollars Aid Communist Scientists

By Fulton Lewis, Jr.

(Copyright, 1962, King Features Syndicate, Inc.)

Washington -- An Indiana Congressman is up in arms over Administration grants of more than half a million dollars to Communist bloc scientists.

He is Richard L. Roudebush, a Republican, who discovered the recent grants dispursed by the tax-supported National Science Foundation.

Roudebush is a member of the House Space Committee which reviews and authorizes the annual budget for NSF. He has asked the agency for a complete report on the grants.

The grants have been distributed since April 19. Roudebush has demanded of Allan T. Waterman, NSF Director, a complete "list of the names of all individuals at the NSF involved in the negotiations, meetings, and decisions regarding these particular awards."

The grants in question, as revealed by Roudebush, are:

1. June 25, $61,000, Nolit Publishing House, Belgrade, Yugoslavia. A contract for translating and printing in English language scientific and technical journals, series, books, monographs, and such other materials.

2. June 8, $45,675, National Academy of Science, National Research Council. Exchange of scientists between the U.S. and U.S.S.R.

3. June 14, $7,500, University of California. Soviet-American exchange of scientists and travel to meetings in U.S.S.R., Italy and Hungary.

4. April 19, $373,000, Nolit Publishing House, Belgrade, Yugoslavia. Contract for translation and publication of scientific journals, books and monographs.

Says Roudebush: "I believe the Space Committee will be interested in the details of these awards. It appears we have here additional examples of American tax dollars ending up in the pockets of persons inside Communist countries. It would be interesting to know what other types of printing this Yugoslav publishing house performs.., and we certainly have a right to know since nearly half a million tax dollars are going into their cash register."

Roudebush strongly opposes exchange of U.S. and Soviet scientists. "We give and they take," he says. "Our scientists see only what the Russians want us to see; their scientists are shown through top-secret laboratories and research centers."

Roudebush last year exposed the fact that NSF officials had squired Soviet scientists on a 19-day tour of leading American laboratories in April, 1961.

Roudebush's investigation disclosed that one of the Soviet scientists who toured American installations was Dr. Alexander V. Topchiev, Vice President of the U.S.S.R. Academy of Sciences. Topchiev is Commissar of Soviet Science, and his role in the Academy is primarily that of "chief political watchdog in behalf of the ruling Communist Party."

Roudebush's complaint about Russian scientists at U.S. laboratories came in the midst of a Space Committee hearing and investigation into an NSF fellowship grant of $3,800 to Edward Yellin for two years' advanced engineering study at the University of Illinois.

The grant was rescinded following the hearings, requested by Roudebush, which disclosed that Yellin had been convicted for contempt of Congress following Congressional hearings in northern Indiana designed to investigate Communist infiltration of the Indiana and Illinois steel region.

Yellin's appeal of the conviction is now before the Supreme Court.

"I am personally opposed to American dollars going behind the Iron Curtain, whether it be foreign aid, trade with the Red bloc, cultural exchange, or any other means," says Roudebush.

KHRUSHCHEV SAID IT!

The Federal Savings and

countries have 54 votes in the United Nations while the United States with a greater population has but 1 vote.

These nations could have the power of economic and military control over the United States.

Fifty-four to one are very poor odds in any game, especially when this country is in a life and death struggle with communism. The United States is entitled to better odds than this.

It is very obvious that most of these countries are not interested in peace but only in economic gain. This was evidenced when Russia vetoed a resolution to condemn India for its military aggression against Goa, a Portuguese enclave, as Ambassador Stevenson wanted to take this resolution to the General Assembly to override the Russian vote and was only able to secure 35 votes when he needed 70, yet India was in direct violation of the purposes of the United Nations Charter.

The list of member nations follows:

	Million
Greece	8.1
Bulgaria	7.7
Chile	7.5
Sweden	7.4
Finland	4.3
Equador	4.0
Tunisia	3.8
Mali	3.7
Upper Volta	3.7
Guatemala	3.5
Norway	3.5
Haiti	3.4
Bolivia	3.3
Cameroon	3.1
Ivory Coast	3.1
Dominican Republic	3.0
Uruguay	2.7
Chad	2.6
Niger	2.5
Senegal	2.3
New Zealand	2.3
Guinea	2.2
El Salvador	2.2
Somalia	2.0
Israel	2.0
Honduras	1.8
Laos	1.7
Dahomey	1.7
Paraguay	1.6

two years' advanced engineering study at the University of Illinois.

The grant was rescinded following the hearings, requested by Roudebush, which disclosed that Yellin had been convicted for contempt of Congress following Congressional hearings in northern Indiana designed to investigate Communist infiltration of the Indiana and Illinois steel region.

Yellin's appeal of the conviction is now before the Supreme Court.

"I am personally opposed to American dollars going behind the Iron Curtain, whether it be foreign aid, trade with the Red bloc, cultural exchange, or any other means," says Roudebush.

KHRUSHCHEV SAID IT!

The Free Enterprise Department of Coast Federal Savings and Loan Association is searching for authentication of the following statement made by Nikita Khrushchev shortly before his visit to the United States in September, 1959:

"We cannot expect the Americans to jump from Capitalism to Communism, but we can assist their elected leaders in giving Americans small doses of Socialism, until they suddenly awake to find they have Communism."

There is no question that the foregoing statement represents Soviet intent. Khrushchev has repeatedly expressed the same thought.

The following are two examples which support the contention that Khrushchev did, indeed, utter those words:

"Society cannot leap into Communism from Capitalism without going through a Socialist stage of development." (21st Party Congress, 1959. Reprinted in TIME Magazine, Feb. 9, 1959, page 19)

"Socialism is the first stage to Communism, and thus you are now in this first stage if you want to advocate Socialism."
(Statement to the Arabs, June 7, 1961. Reprinted by "Manion Forum" in letter of June 26, 1961)

Strange Behavior

President Kennedy's way of observing Captive Nations Week was to battle for financial aid to the Communist governments of Yugoslavia and Poland.

Reds Win in UNESCO

(Reprinted from CHATTANOOGA NEWS-FREE PRESS).

A sharp warning of how easily our Communist enemies are now able to manipulate activities of the UN came recently when, over strong but completely ignored protests of the United States, the door of a UNESCO-sponsored meeting was pried open for admission of the murderous Red Chinese regime - and possibly also of the East German Communist puppet government.

The agenda at the 27-nation convention on protection of cultural property in event of armed conflict contained a clause specifically limiting attendance to UN or UNESCO members. But the Communist Czechoslovakian delegation, with the support of Russia and Red Bulgaria, pressured through an amendment removing this limitation and thus allowing Communist China to be present, and possibly Communist East Ger-

to override the Russian vote and was only able to secure 35 votes when he needed 70, yet India was in direct violation of the purposes of the United Nations Charter.

The list of member nations follows:

	Million
Greece	8.1
Bulgaria	7.7
Chile	7.5

CONSERVATIVE PROGRAMS AVAILABLE FOR LOCAL SPONSORSHIP

If you and your friends, or your business firm, would like to have these programs played over your local radio station, just write to Kent Courtney, P. O. Box 4223, New Orleans 18, Louisiana, for complete details.

The purpose of THE RADIO EDITION OF THE INDEPENDENT AMERICAN is to give the Conservative side of the vital issues concerning this country today.

Reds Win in UNESCO

(Reprinted from CHATTANOOGA NEWS-FREE PRESS).

A sharp warning of how easily our Communist enemies are now able to manipulate activities of the UN came recently when, over strong but completely ignored protests of the United States, the door of a UNESCO-sponsored meeting was pried open for admission of the murderous Red Chinese regime - and possibly also of the East German Communist puppet government.

The agenda at the 27-nation convention on protection of cultural property in event of armed conflict contained a clause specifically limiting attendance to UN or UNESCO members. But the Communist Czechoslovakian delegation, with the support of Russia and Red Bulgaria, pressured through an amendment removing this limitation and thus allowing Communist China to be present, and possibly Communist East Germany also. When an American representative rose to speak before the vote, he was not even noticed and the Communists rammed through their plan.

Thus, Communist UN members, aided by some tragically misguided non-Communist nations, have managed to give the Red Chinese regime a foot in the door of UNESCO. Americans should heed this warning of increasing Communist influence of UN affairs.

Can't Cut It?

You won't find anything in the Constitution to permit it. But the Federal Government is competing with tax-paying business in 47 different lines of enterprise, including 150 ice cream plants.

Who says it's impossible to cut the Federal budget?

or conservatism is, in effect, a refusal to accept a political vacuum as a fact for the future.

Thirty years of sad experience have apparently failed to bring about any realization that a party without principles is really no party at all.

AN ALERT!

WATCH OUT FOR THE CFR'S COL. KINTNER, SELF-PROCLAIMED ANTI-COMMUNIS

By Phoebe Courtney, Editor

In the May, 1962, issue of READER'S DIGEST, Col. William R. Kintner, a member of the Council on Foreign Relations, took it upon himself to criticize the John Birch Society. In Kintner's article, he refers to "wrong-headed 'extremist' cults, such as the John Birch Society." And then later -- "the discredited Birch Society's own journal" (an apparent reference to the splendid anti-Communist magazine AMERICAN OPINION, published by Robert Welch).

CFR member Kintner, in his insidious little article, attempts to give the reader the impression that anti-Communism is the preserve of such organizations as the Foreign Policy Research Institute of the University of Pennsylvania. The FPRI includes the Rockefeller Brothers Fund among its supporters and helps formulate some of the Communist-accommodating policies of the Council on Foreign Relations.

William Kintner refers to the John Birch Society as "an extremist cult" because the John Birch Society vigorously opposes appeasement of Communism and the ruinous foreign policies of both the Eisenhower and Kennedy regimes, which have allowed the Soviet Union to establish a military base in Cuba. If vigorous anti-Communism is "extremism" in the eyes of Col. Kintner, then let us examine the thinking of Col. William Kintner, self-professed anti-Communist, and see how he proposes to fight Communism.

Kintner is Deputy Director of the Foreign Policy Research Institute of the University of Pennsylvania, and therefore can be assumed to have had a hand in the foreign policy report submitted to the U.S. Senate Committee on Foreign Relations entitled "U.S. Foreign Policy in Western Europe." A summary and analysis of this FPRI report appears in a book entitled "Strategy For the '60's," published by Frederick A. Praeger, New York, contains the following phrases:

> "The free world depends upon the strength and unity of the North Atlantic Community of nations . . . . Far closer political and economic alliance should be developed among the North Atlantic nations . . . . It is out-dated to depend too rigidly on the nation-state alone . . . Traditions must be universalized."

Thus it is seen that in the name of fighting Communism, Col. Kintner and the Rockefeller-supported Foreign Policy Research Institute propose to repeal the Declaration of Independence by merging the United States into a Socialist-dominated Atlantic Community. In this regard it is well to recall that it was Lenin who stated:

> "A single world economic system is essential for the final triumph of Socialism."

It should further be borne in mind that Khrushchev uses the worlds "Socialism" and "Communism" interchangeably.

The FPRI, of which Kintner is Deputy Director, has a very odd means of combatting Communism. According to "Strategy For the '60's," (p. 58) the FPRI recommends:

> "Support humanitarian drives (as by shipment of food to Poland)."

The FPRI overlooks the fact that Poland is completely Communist-controlled, and that food sent to Poland strengthens the international Communist conspiracy.

The Government Printing Office has recently published a 127-page book entitled "Education for Survival in the Struggle Against World Communism" which consists of 18 articles. Among the authors are William R. Kintner and Robert Strausz-Hupe. Mr. Strausz-Hupe is the Director of the FPRI mentioned above.

Both Kintner and Strausz-Hupe are members of the Council on Foreign Relations.

The political bias of the CFR is graphically outlined in CFR Study No. 7, published by the Council on Foreign Relations November 25 ment, controlling the political and economic affairs of member nations. It should always be remembered that NATO is controlled by the Communist-dominated United Nations and therefore, cannot be considered as a Free World "shield against Communism."

In answer to a question about Cuba, Kintner, the self-professed anti-Communist, stated: "There may be some advantage in keeping him (Castro) there for maybe a year or so as a demonstration of the best Communist poorhouse in the Western Hemisphere."

Col. Kintner's remarks, though shocking, are not too surprising inasmuch as he was a staff negotiator at the Korean Armistice Commission and was associated with the Planning Section of the Central Intelligence Agency (CIA) during the period 1950-1961. (Were Kintner's "plans" responsible for the disastrously mismanaged invasion of Castro's Cuba in 1961?)

Asked about whether we should continue to carry on Cultural Exchange with Communist Russia, Kintner, again echoing the CFR "line," stated: "Well, not only can we afford to carry them on, we should carry them on."

Regarding the United Nations, Kintner said: "Some people say get out of the United Nations. I say stay in and maintain control of the United Nations for the Western world."

Kintner omitted mentioning the fact that U.S. influence in the United Nations is increasingly diluted as Kremlin-controlled "jungle states" and former colonies, now dominated by Communist-oriented dictators, become full-fledged members of the U.N.

Speaking of the increasing centralization of power in the Federal Government, Kintner stated: "Some of this centralization of power is absolutely essential . . . to deal with the external Communist threat."

Col. Kintner, formerly of the CIA, apparently does not recognize any internal threat from Communism or fellow-travelers.

In his Baton Rouge speech at the anti-Communist seminar CFR member Kintner took some pot-shots at the John Birch Society by referring to "the extremist-Right group who concern themselves almost exclusively with the internal Communist threat in a very misguided way."

Kintner thus airily dismisses the documented evidence of Communist infiltration in the fields of labor, education, religion and within the U.S. Government itself. If, as many members of the John Birch Society so rightfully believe, Communist have not infiltrated the State Department, then why, during the past decade, has official policy resulted in constant retreat by the United States in the face of Soviet aggression? If this was the result of mere errors of judgment in the State Department, some of these errors would have benefited the U.S.!

Kintner then continued, "I believe that the John Birch Society has not contributed to the avowed goals . . . and I think it is more divisive than constructive in its efforts. For that reason I hope that either one of two things happens - that they get a new leader, or that they find other means of working on this problem."

Obviously the "other means" of fighting Communism to which Kintner refers would be to adopt his method of "fighting" Communism by advocating policies of abject appeasement. Robert Welch and, all members of the John Birch Society should indeed be proud that their efforts are not looked upon with favor by Kintner and his ilk!

WHAT YOU CAN DO

What is particularly disturbing about such self-proclaimed anti-Communists as Col. William Kintner and his boss at the Foreign

thors are William R. Kintner and Robert Strausz-Hupe. Mr. Strausz-Hupe is the Director of the FPRI mentioned above.

Both Kintner and Strausz-Hupe are members of the Council on Foreign Relations.

The political bias of the CFR is graphically outlined in CFR Study No. 7, published by the Council on Foreign Relations November 25, 1959:

. . . Build a new international order;
. . . Maintain and gradually increase the authority of the United Nations;
. . . Repeal the Connally Amendment;
. . . Promote the solidarity of the Atlantic Community;
. . . Increase Foreign Aid;
. . . Deal with Red China, in secret if necessary;
. . . Negotiate on disarmament proposals with Russia, perhaps in secret.

Is it not logical to assume that members of the Council on Foreign Relations agree with its policies?

Before passing judgment on Col. Kintner as to whether he is the anti-Communist he purports to be, let us examine some of his statements.

On May 25, 1962, Col. William R. Kintner, of READER'S DIGEST fame, addressed an anti-Communist seminar in Baton Rouge, Louisiana, sponsored by the American Bar Association, Louisiana State Bar Association, Louisiana State University Law School and Baton Rouge Bar Association. After a long-winded preamble discussing Communist ideology, CFR member Kintner began his "sales pitch" promoting the Communist-accommodating policies of the Council on Foreign Relations.

Kintner stated: "The great hope that we have of achieving the victory in the Cold War is building up a community of interest between ourselves and our principal European allies so that we can capitalize on the great technical, industrial, political and spiritual strength that exists there .... We must move toward greater political cooperation with our principal allies."

This is the Atlantic Community, or Atlantic "partnership," scheme advocated by President Kennedy on July 4, 1962, under which the United States would lose its national sovereignty and become a mere satellite in an eventual World Socialist government.

Then stated Kintner: "I think the Alliance for Progress is a very important single step in Latin America."

This, it will be recalled, is the Foreign Aid giveaway to Latin America under which a Castro-ite by the name of Dr. Felipe Pazos is in charge of giving away U.S. dollars.

On the subject of continuing Foreign Aid, Kintner echoed the CFR "line" by stating: "Our efforts to help underdeveloped countries come into the modern world have to be far more than economic assistance. That is only one part of the game. We have to help create a political and psychological climate which will help these people to accept assistance."

In the question-and-answer period, in response to a question regarding NATO, Kintner stated that "NATO is organized in concert with Article 51 of the United Nations Charter which permits regional organizations. It is not antagonistic to the United Nations."

Kintner neglected to inform the audience that NATO, as presently organized, is set up to become a regional World Government which will be used as a springboard to a World Government. Nor did he inform the audience that their efforts are not looked upon with favor by Kintner and his ilk!

WHAT YOU CAN DO

What is particularly disturbing about such self-proclaimed anti-Communists as Col. William Kintner and his boss at the Foreign Policy Research Institute, Robert Strausz-Hupe, is that they are now engaged in an active campaign of injecting their Communist-appeasing ideas into schools and universities throughout the country under the guise of anti-Communism.

The Council on Foreign Relations, the giant tax-free foundations, such as the Rockefeller Foundation, the Ford Fund for the Republic, etc., know that they cannot combat the surging anti-Communist feeling that is sweeping this nation. Therefore they have decided that if they cannot fight it, they will control it. They intend to do this by masquerading as anti-Communists. They give a [redacted] munist ideology -- how it is [redacted]. Then, after giving the impression that they oppose Communism, they launch into an exposition of their Communist-appeasing policies, as outlined in this article.

With unlimited funds at their disposal, with university prestige backing them up, they have little trouble in arranging so-called anti-Communist seminars throughout the United States, always managing to "suck in" some prominent persons, or perhaps a General or Admiral or two, as window dressing for their "show."

Perhaps ten years ago this phony technique would have achieved complete success. However, today, thanks to the magnificent educational program of the John Birch Society and other sincere anti-Communist organizations which have informed hundreds and thousands of Americans throughout the country regarding the menace of Communism at home and abroad, these so-called anti-Communists who actually preach appeasement no longer face naive, gullible audiences.

Men such as Kintner and Strausz-Hupe, because of the aura of prestige that they have built up, are difficult to "nail down." Patriotic, anti-Communist Americans do, however, have a potent weapon in combatting these pretenders -- and that is the question-and-answer period. If a seminar is scheduled to be held in your city at which Col. William Kintner or Robert Strausz-Hupe will speak, organize a group of your friends, draw up a list of incisive questions, and scatter your friends throughout the audience. They can then, with their written questions in hand, ask such questions so that Kintner and Strausz-Hupe will, by their very answers, expose their true mission. When you "nail" them with a pertinent question -- watch them squirm as they try to dodge giving the answer -- an answer which they realize will reveal to the entire audience the speciousness of their claims to be anti-Communists!

An anti-Communist study program may be in operation or scheduled soon in the schools in your community. If so, be sure to check the textbooks or printed matter being used to see whether they are authored by such persons as Col. Kintner, or other members of the semi-secret Council on Foreign Relations, who echo the appeasement line. A list of the members of the Council on Foreign Relations, as well as an analysis of the aims and policies of the Council on Foreign Relations, is contained in our book, "America's Unelected Rulers.

Adlai's $400,000,000 Boo-Boo

(Reprinted from ST. LOUIS GLOBE-DEMOCRAT)

Once more, our ill-advised decision to jilt old friends and curry favor with the new "neutralist" nations of Africa has backfired.

Secretary of State Dean Rusk just returned from Portugal -- where he got the coolest reception accorded him anywhere during his 10-day visit to our NATO allies. He spent an hour and 40 minutes with Premier Antonio Salazar and an hour and a half with Foreign Minister Franco Nogueira. He left both meetings with his face wreathed in gloom.

Our allies, the Portuguese, feel that we have been ungrateful for their help in the past and have been unfair in our criticism of their colonial policies.

Portugal has been a faithful member of NATO since its inception. Portugal has been a faithful friend of the United States since the days of the Revolutionary War. Portugal has been a faithful ally in the United Nations.

Gold Is A Weapon Of War

(Reprinted from THE INDIANAPOLIS STAR)

Remember when women of European nations were being asked by their governments to give their gold jewelry, even their wedding rings, to be melted down to bullion in the cause of national defense in World War II? This was not just dramatic token sacrifice which was being asked of them. The gold was really needed. For gold is the international currency of war.

In ordinary peaceful times a sound and solvent nation's external trade is usually carried on with its own currency, just as trade within its own borders. There may be periodic settling of balances with other currencies, but if the nation's own currency is strong this will be necessary only at rare intervals.

When a nation is at war, however, the situation is different. The international credit of the nation at war is good only among its closest allies. For who knows how a war will end? And therefore who knows which of the warring nations will, in the end, still be master of its own destinies and thus able to settle its debts?

Therefore when a nation at war wants to buy goods of any sort from neutral nations, the general requirement is cash on the barrelhead. And cash, in this case, is very likely to mean gold. Who wants to be stuck with a boxful of the currency of a nation which has just lost a war?

This is one of the reasons for having a gold reserve. The first and basic reason is to support the currency and control the banking system. But the assurance of a war chest is almost as basic.

The possible wartime necessity for supplies of certain materials which must be imported is recognized by the government. Several billion dollars worth of such materials have been bought and put into stockpiles which are to be used only in time of war. There are many items which come from various parts of the world which are essential to the operation of the nation's complex industrial system. In a prolonged war, ability to obtain some of these materials could be the difference between defeat and survival.

Of course Americans hope there will not be a war. The fact that we hope this does not lead the nation, however, to throw away its military defenses.

Neither should the nation throw away its economic defenses. And one of these defenses is the gold reserve.

A move is afoot in Congress to give the Kennedy administration permission to dissipate that reserve. There is a bill in the House which would repeal the requirement that a 25 per cent gold backing be retained for the currency. The openly declared intention of this proposal is to free the entire national gold supply from legal restrictions, so that any part or all of it may be paid out in settlement of international claims. Under this proposed law the gold supply could all be spent at any time. The fact that such an act is proposed certainly indicates an expectation that the government may want to do just that.

To pay out the gold, destroying the reserve, would destroy a major and essential line of defense. If war did come, after the gold was gone, the United States would find it impossible to buy supplies on the world markets except from those nations which were willing to accept barter or were willing to take a chance for the sake of helping the U.S. war effort.

This would be an unconscionable risk. It should not

The People Will Rise Up

The Kennedy programs at home and abroad, on civil rights and foreign policy, have in them seeds of destruction for this great republic. While the Kennedy administration has been hailed by its own propagandists as an administration of intellectuals, it is devoid of constructive ideas for recovering the enormous political losses overseas and for combating the spread of internal divisions in this country.

The hallmark of the Kennedy administration overseas is withdrawal and defeat. In Cuba and in Laos, the new President accepted the victory of communism. At home, administration has sought to weaken private enterprise and to divide the American people.

MAKERS OF STRIFE

The palace guard, exemplified by such as Prof. Arthur Schlesinger Jr., Secretary of Labor Arthur Goldberg and Atty. Gen. Robert F. Kennedy, are pushing revolution. The State Department White Paper on Cuba, drafted by Prof. Schlesinger, openly hailed revolution in Latin America. The President's brother, by supporting CORE's bus invasion of the South and by other actions and arrogant talk, has invited revolutionary movements to spread in the Southern states.

The Kennedy administration, instead of attempting to unite the nation, has sought to divide it. Robert Kennedy apparently regards Southerners the way Nikita Khrushchev views Latvians.

The youthful, inexperienced and immature U. S. Attorney General, whose ignorance of American political traditions is matched only by his colossal, irresponsible pushiness, seems determined to plunge a great region of the United States into a condition of permanent unrest. If he succeeds, the enemies of the United States will have cause to rejoice. A divided people is a weak people.

The truth is that the country

Kennedy brothers, the apologists for Castro, the cold war defeatists, and the ruthless labor bosses.

REAL AMERICANS

The Other America is not as articulate and organized as Leftist America. It has its champions--Senators such as Strom Thurmond and Barry Goldwater, editors and writers such as William F. Buckley and George E. Sokolsky, scholars such as Russell Kirk and James Burnham, military leaders such as Adm. Arthur Radford and Gen. James Van Fleet.

The Other America believes the USA should not bow and scrape before African dictators. It holds that neutralism is another word for cowardice or deceit. It loathes the leviathan state that crushes states and individual rights.

It doubts that the country should be run by Harvard socialists or tractor traders in the White House. This Other America has yet to rise up in righteous anger.

But the day is coming. Every time Bobby Kennedy gives a boost to CORE revolutionists, every time the President calls for spending that will promote more socialism in America and every time the appeasers of Castro urge another withdrawal, the day of counter revolution comes nearer.

Already, it is apparent that the people are out in front of John F. Kennedy and his associates. The mood of Congress, if one studies The Congressional Record, is disgust with the Munich-type appeasers in the White House palace guard. The rise of the John Birch Society, with its emphasis on militant anti-communist action, is a sign of the real feelings of the American.

Other groups as yet unborn, other national leaders as yet unknown, are sure to arise if the Kennedy administration guides the nation down the path to destruction.

The good Americans are not

a war chest is almost as basic.

The possible wartime necessity for supplies of certain materials which must be imported is recognized by the government. Several billion dollars worth of such materials have been bought and put into stockpiles which are to be used only in time of war. There are many items which come from various parts of the world which are essential to the operation of the nation's complex industrial system. In a prolonged war, ability to obtain some of these materials could be the difference between defeat and survival.

Of course Americans hope there will not be a war. The fact that we hope this does not lead the nation, however, to throw away its military defenses.

Neither should the nation throw away its economic defenses. And one of these defenses is the gold reserve.

A move is afoot in Congress to give the Kennedy administration permission to dissipate that reserve. There is a bill in the House which would repeal the requirement that a 25 per cent gold backing be retained for the currency. The openly declared intention of this proposal is to free the entire national gold supply from legal restrictions, so that any part or all of it may be paid out in settlement of international claims. Under this proposed law the gold supply could all be spent at any time. The fact that such an act is proposed certainly indicates an expectation that the government may want to do just that.

To pay out the gold, destroying the reserve, would destroy a major and essential line of defense. If war did come, after the gold was gone, the United States would find it impossible to buy supplies on the world markets except from those nations which were willing to accept barter or were willing to take a chance for the sake of helping the U.S. war effort.

This would be an unconscionable risk. It should not be allowed to happen. The people should demand of their representatives in Congress that the gold reserve be retained, be protected and be strengthened.

(Editor's Note: The bill referred to in the above editorial from the INDIANAPOLIS STAR is the Administration-sponsored Multer Bill, H.R. 6900. As of June 3, 1961, hearings had been scheduled on this bill, but were temporarily postponed due to public opposition. CONSERVATIVES NEED HONEST REPORTS ON VOTING RECORDS IN CONGRESS

By Kent Courtney, Publisher

The voting records in the House and the Senate of the United States are something that every Conservative should understand completely in order to be able to know whether or not his Congressman or his Senators are voting for or against Socialism.

Many times newspapers will report how members of the Congress in both Houses voted "for" or "against" a particular measure and sometimes the papers will indicate that a member of the Congress was "paired" for or against a measure. However, it must be clearly understood that when a member of Congress is "paired" this means that he did not vote on the measure and that he did not take any official position because the rules of the legislative bodies provide that a member must be present AND voting in order for a vote to officially count in the record.

In order to give a specific example of how this works let us consider a recent vote in the Senate which repealed a portion of the Battle Act. This was Senate Bill No. 1215. This amendment to the Battle Act, was passed by a vote of 43 for the Bill, 36 against the Bill and 21 not voting. This Senate Bill No. 1215 was a crucial vote because by this act on May 11 the United States Senate gave President Kennedy the power to extend Foreign Aid to Communist satellite nations. The actual wording of the paragraph indicated that the President would be given the power to distribute Foreign Aid as he saw fit to all Communist nations, except Soviet Russia.

Schlesinger Jr., Secretary of Labor Arthur Goldberg and Atty. Gen. Robert F. Kennedy, are pushing revolution. The State Department White Paper on Cuba, drafted by Prof. Schlesinger, openly hailed revolution in Latin America. The President's brother, by supporting CORE's bus invasion of the South and by other actions and arrogant talk, has invited revolutionary movements to spread in the Southern states.

The Kennedy administration, instead of attempting to unite the nation, has sought to divide it. Robert Kennedy apparently regards Southerners the way Nikita Khrushchev views Latvians.

The youthful, inexperienced and immature U. S. Attorney General, whose ignorance of American political traditions is matched only by his colossal, irresponsible pushiness, seems determined to plunge a great region of the United States into a condition of permanent unrest. If he succeeds, the enemies of the United States will have cause to rejoice. A divided people is a weak people.

The truth is that the country is well along the path to a real division. The liberal-left, by its great successes since the end of World War II, has produced two Americas. One America is the America of Walter Reuther, Eleanor Roosevelt, CORE, the [illegible] ialists or tractor traders in the White House. This Other America has yet to rise up in righteous anger.

But the day is coming. Every time Bobby Kennedy gives a boost to CORE revolutionists, every time the President calls for spending that will promote more socialism in America and every time the appeasers of Castro urge another withdrawal, the day of counter revolution comes nearer.

Already, it is apparent that the people are out in front of John F. Kennedy and his associates. The mood of Congress, if one studies The Congressional Record, is disgust with the Munich-type appeasers in the White House palace guard. The rise of the John Birch Society, with its emphasis on militant anti-communist action, is a sign of the real feelings of the American.

Other groups as yet unborn, other national leaders as yet unknown, are sure to arise if the Kennedy administration guides the nation down the path to destruction.

The good Americans are not few. Nor are they weak. They are slow to anger and to organize. But the leftists had better watch out when the American people rise up to show wrath against those who are throwing away the liberties our ancestors fought for and won.

(Reprinted from Charleston, S.C. NEWS & COURIER)

NASSAU CONSERVATIVES

A new anti-Communist organization, in the process of formation for several months, formally adopted a constitution and statement of principles and elected temporary officers on May Day, number-one holiday of the international conspiracy.

The group chose the name Nassau Conservatives and elected William A. Bruno, Jr. of the Hicksville area as temporary president. Other temporary officers are George L. Brady of Massapequa, vice-president, and Eugene J. McHugh, Wantagh, treasurer.

Purpose of the organization is to coordinate action and to serve as a clearing house for local conservatives, particularly in the political and educational fields.

If you wish further information regarding NASSAU CONSERVATIVES, contact William A. Bruno, Jr., temporary chairman, Box 387, Hicksville, New York.

CONSERVATIVES NEED HONEST REPORTS ON VOTING RECORDS IN CONGRESS

By Kent Courtney, Publisher

The voting records in the House and the Senate of the United States are something that every Conservative should understand completely in order to be able to know whether or not his Congressman or his Senators are voting for or against Socialism.

Many times newspapers will report how members of the Congress in both Houses voted "for" or "against" a particular measure and sometimes the papers will indicate that a member of the Congress was "paired" for or against a measure. However, it must be clearly understood that when a member of Congress is "paired" this means that he did not vote on the measure and that he did not take any official position because the rules of the legislative bodies provide that a member must be present AND voting in order for a vote to officially count in the record.

In order to give a specific example of how this works let us consider a recent vote in the Senate which repealed a portion of the Battle Act. This was Senate Bill No. 1215. This amendment to the Battle Act, was passed by a vote of 43 for the Bill, 36 against the Bill and 21 not voting. This Senate Bill No. 1215 was a crucial vote because by this act on May 11 the United States Senate gave President Kennedy the power to extend Foreign Aid to Communist satellite nations. The actual wording of the paragraph indicated that the President would be given the power to distribute Foreign Aid as he saw fit to all Communist nations, except Soviet Russia, Communist China, North Korea and North Viet Nam. This then was a crucial vote by which the Senate significantly changed the meaning of the Battle Act which had originally been designed to prohibit the United States Government from sending the taxpayers' money for the support of our enemies.

The measure passed by a vote of 43 to 36. Thus, if only 8 of the Senators reported as "not voting" had voted against the Bill then this measure would have been defeated. Senator Goldwater, Republican of Arizona, and Senator Byrd, Democrat of Virginia, were among the 21 reported as "not voting".

George Boardman of P. O. Box Zero in Chloride, Arizona, wrote to Senator Goldwater asking him why he was not present to vote against this Bill. Senator Goldwater replied in part "on the day that Senate Bill No. 1215 was approved, I was necessarily absent and my position was carried as being against the passage of this measure." The Congressional Record put it this way: "On this vote the Senator from Vermont (Mr. Prouty) is 'paired' with the Senator from Arizona (Mr. Goldwater). If present and voting the Senator from Vermont would vote 'yeah' and the Senator from Arizona would vote 'nay'."

On a previous vote on this same bill, Senator Keating, Republican of New York, at first voted in the affirmative for the Bill but then announced that he would withdraw his vote and "pair" himself with Senator Case of New Jersey. This he was allowed to do even though he was PRESENT in the Senate at the time of the vote!

This whole idea of trying to measure the conservatism or radicalism of our Senators should include the idea of not allowing them off the hook. Either they were present and voting or they are absent and not voting. Either they are on the job or they are not on the job.

When this session of Congress is over, all Conservatives will be looking for the various voting records which are published by The Americans For Constitutional Action, THE INDEPENDENT AMERICAN and other organizations. Here at THE INDEPENDENT AMERICAN, if a man "pairs" his vote he will be recorded as "not voting" because that is the official vote as it appears in the Congressional Record.

We do not propose to issue an "IF VOTING RECORD." THE INDEPENDENT AMERICAN says that the pairing of votes in Congress is politically immoral.

A new anti-Communist organization, in the process of formation for several months, formally adopted a constitution and statement of principles and elected temporary officers on May Day, number-one holiday of the international conspiracy.

The group chose the name Nassau Conservatives and elected William A. Bruno, Jr. of the Hicksville area as temporary president. Other temporary officers are George L. Brady of Massapequa, vice-president, and Eugene J. McHugh, Wantagh, treasurer.

Purpose of the organization is to coordinate action and to serve as a clearing house for local conservatives, particularly in the political and educational fields.

If you wish further information regarding NASSAU CONSERVATIVES, contact William A. Bruno, Jr., temporary chairman, Box 387, Hicksville, New York.

Morton, Illinois

Dear Mrs. Hoepfner:

Your letter of August 25, 1961, with enclosure, has been received, and the interest which prompted you to write is appreciated. I want to assure you that I never made the statement discussed in your communication which was reportedly attributed to me.

Although I would like to be of service, information in FBI files must be maintained as confidential through a regulation of the Department of Justice. In this connection, I would also like to point out that the FBI is strictly an investigative agency of the Federal Government and, as such, does not make evaluations nor draw conclusions concerning the character or integrity of any organization, publication or individual. Please do not infer either that we do or do not have the specific data relating to the subjects of your inquiries. I regret that no suggestions come to mind as to where you can write for the answers to these questions.

In view of the concern you expressed, I am enclosing some literature on the general subject of communism, together with the pamphlet you sent.

Sincerely yours,

J. Edgar Hoover

Correspondent's pamphlet, "Communist Infiltration in Religion"

NOTE: Correspondent previously contacted the Bureau in 4-61 and was furnished some literature on the subject of communism together with facts about a career in the FBI. Correspondent enclosed a pamphlet entitled "Communist Infiltration in Religion" put out by The Independent American. This pamphlet has been brought to the attention of the Bureau in the past and is published by Kent Courtney, Post Office Box 4223, New Orleans 18, Louisiana. Bufiles show that this publication is allegedly dedicated to the defeat of socialist and communist influences and to promote individuals and organizations by the belief that a political party based on constitutional rights is the answer to socialism. Neither Courtney nor his publication has been investigated by the FBI. Courtney's paper indicates he is a rabble rouser and a hate monger. 105-36811

Washington, D. C.

Dear Mr. Hoover:-

You were so kind as to answer my letter of April 1, 1961 that I decided to write again in regards to the enclosed leaflet. We have a group who is and has been studying Communism for sometime now and this leaflet was sent to us. We do not know who else to ask as to the authenticity of this pamphlet. We have been told that you made the statement there were 10,000 ministers in our Country who are Communist Sympathizers. We are a group from the churches in our town and are greatly concerned over such as this.

I would like for your department to answer some questions which we have had before us, such as;

1. Who are the Circuit Riders?
2. Was Bishop Oxnam cleared completely from association of the Communist Party?
3. Is there much infilltration into the National Council of Churches?
4. We would like to be able to write now and then to someone whom we know can give us correct information in regards to questions that come up - whom can we write - we know you are a busy man.

Thank you for your time again,

Yours very truly,

Mrs H W Hoepfner

Dear Mr. Hoover:

Under separate cover we are mailing you today a special advance c[opy] of our new book "The Case of General Edwin A. Walker". A copy of the book has also been sent to all U. S. Representatives and Senators, accompanied by a special letter, a copy of which we enclose with your book.

This is a documented expose concerning the muzzling of the military commanders who warn of Communist subversion and how the appeasers apparently propose to substitute surrender for victory.

Briefly, the book shows the Communist origins of the drive to stifle all anti-Communists. This book is the first publication effort of The Conservative Society of America. The CSA newsletter will start publication the first week of September.

After looking over this book I would appreciate receiving your comments upon it.

Constitutionally yours,

Kent Courtney

Mr. [redacted]

NOTE: Bufiles contain no references identifiable with correspondent.

"Tax Fax No. 31" is distributed by "The Independent American," Post Office Box 4223, New Orleans 18, Louisiana, which is allegedly dedicated to the defeat of socialist and communist influences and to promote individuals and organizations which believe that a political party based on constitutional states rights is the answer to socialism. It is published by Kent Courtney, and neither he nor this publication has been investigated by the Bureau. This newspaper sponsored an "Independent American Forum and New Party Rally" at the Morrison Hotel, Chicago, on 10-23/24-59. It is reported that the purpose of the rally was the formation of a new political conservative party called "Independent American Party." Courtney entered this party on a Michigan ballot in the 1960 election. In connection with a racial matters investigation concerning a Ku Klux Klan meeting on 7-7-61, an allegation was made that one Kent Courtney had reportedly served time for treason in World War II and was to buy a newspaper around the latter part of 1960 or early 1961. No arrest record located on Courtney in the Identification Division.

REC-96

Mr. J. Edgar Hoover
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

This is to notify you that I have requested a sophomore student at Tulane University to subscribe to the newspaper put out by the 26th of July Movement in Havana called "REVOLUCION."

I have requested that this subscription to REVOLUCION be sent to:

Mr. [redacted]
New Orleans 18, Louisiana

I find that I need to read REVOLUCION in order to find out what the Communists are doing in Cuba and what they are planning. I use this information in connection with my weekly radio program, my newspaper and my newsletters.

I employ another student at Tulane to do the translating of this newspaper for me. His name is [redacted], a Cuban student who is completely anti-Castro and anti-Communist.

This letter is being sent to both the local and national officers of the Federal Bureau of Investigation in order to protect these two students who are working with me in the anti-Communist fight.

Please be assured that we wish to cooperate with the Federal Bureau of Investigation in every way in order to defeat our Communist enemies at home and abroad.

Very sincerely yours,

Kent Courtney

YOU ARE INVITED TO JOIN . . .

THE CONSERVATIVE SOCIETY OF AMERICA

Dear Fellow American:

On June 29th we wrote our more than 11,000 subscribers proposing the establishment of THE CONSERVATIVE SOCIETY OF AMERICA, to be dedicated solely (a) to Conservative political action, and (b) to act as a "recruiting office" for those Conservatives who wish to work for the establishment of a national Conservative party.

The interest generated by this June 29 letter regarding THE CONSERVATIVE SOCIETY OF AMERICA has been tremendous!

We are now translating this interest into concrete action. The first step, of course, was the preparation of pamphlets outlining the Declaration of Conservative Principles and the plan of action of THE CONSERVATIVE SOCIETY OF AMERICA.

Before reading further in this letter, may I suggest that you carefully read the enclosed folders. This request is specifically made because the balance of this letter is based on the assumption that you have already read and are familiar with the contents of the two enclosed folders, entitled:

CSA No. 1 - "The Conservative Society of America - An Invitation to Patriotic Political Action"

CSA No. 2 - "A Declaration of Conservative Principles"

* * * * * * * *

NATIONAL ADVISORY BOARD OF THE CONSERVATIVE SOCIETY OF AMERICA

We have also taken the first steps toward forming the National Advisory Board of the CSA. So far only two invitations to serve on the National Advisory Board of the CSA have been extended, and both invitations have been accepted.

We are honored to announce that J. Bracken Lee, presently Mayor of Salt Lake City and former Governor of Utah, has agreed to be a member of the National Advisory Board of THE CONSERVATIVE SOCIETY OF AMERICA. Bracken Lee, one of the nation's foremost Conservatives, was elected Mayor as an independent in spite of the combined opposition of both the Republican and Democratic parties. Bracken Lee is an ardent foe of Big Spending and appeasement of Communism.

The second outstanding American who has agreed to serve on the National Advisory Board of THE CONSERVATIVE SOCIETY OF AMERICA is Major General C. A. Willoughby, U.S.A. (Ret.). General Willoughby is an author, publisher and lecturer. He was a military attache at the American Embassies in Venezuela, Colombia and Ecuador from 1921 to 1929. From 1939 through 1951 he served as General Douglas MacArthur's Chief of Intelligence.

We are now in the process of sending invitations to a number of other prominent Americans to serve on the National Advisory Board of the CSA.

ELECT ONLY ANTI-COMMUNISTS TO CONGRESS!

If your Congressman votes for Foreign Aid bills which support Communist and Socialist governments overseas - if your Congressman votes for Federal Aid and Control of Education - if he voted for the packing of the Rules Committee - if he has been voting for more centralization of power in Washington and the destruction of Constitutional States Rights - then he should be defeated! Your Congressman is either anti-Socialist or pro-Socialist. By his voting record -- and only by his voting record -- should he be judged!

It is far too late to continue the suicidal practice of sending 65% Conservatives back to Congress time and time again, when 35% of the time they are voting for pro-Communist or pro-Socialist legislation. Only 100% anti-Communists and anti-Socialists should be elected in the Congressional elections in 1962.

But you say to yourself, what can I do? Many individuals are doing all they can when they write letters to the editor, or when they sign petitions, or when they subscribe to patriotic publications. Your age, or your job, or your personal and family responsibilities may prevent you from spending long hours recruiting other individuals into a political action organization such as THE CONSERVATIVE SOCIETY OF AMERICA. However, your mem-

ALL INFORMATION CONTAINED 929512
HEREIN IS UNCLASSIFIED
DATE 11-28-00 BY SP5-JCTMB

bership dues in the CSA will make it possible for us to hire full-time organizers in those Congressional Districts where we have a good opportunity to defeat the incumbent Liberal who is voting for international and domestic Socialism. A political effort of this kind needs highly trained full-time organizers who know the nature of the Communist conspiracy, and who know how to organize for effective political action.

FULL-TIME NATIONAL CHAIRMAN FOR THE CSA

The Republican Party has a part-time National Chairman, Representative Miller of New York, who is one of Rockefeller's boys. THE CONSERVATIVE SOCIETY OF AMERICA will have a full-time National Chairman as of right now! Also, the CSA will have full-time paid State organizers.

I am ready to give all my time to develop THE CONSERVATIVE SOCIETY OF AMERICA on a national basis. Right now, even at this early date, there are several groups in the South, the Mid-West, and the Far West which have invited me to come and help them organize State groups of the CSA. I will be available to visit with any group of individuals in any State which are sincerely interested in becoming effective in a political way.

THE CONSERVATIVE SOCIETY OF AMERICA believes that politicians are expendable but that Conservative principles are not! THE CONSERVATIVE SOCIETY OF AMERICA believes that the majority of voters in this nation are Conservative and do not want to be caught "flat-footed" again, as they were in 1960, by being told by some Republicans that the only choice that Conservatives have in 1964 is to support a Liberal Republican candidate and platform as the lesser choice of two evils!

We Conservatives must be independent of both old parties! We must be in a position to be politically effective, and thus become the balance of power.

WHAT'S IN IT FOR YOU?

In addition to receiving the satisfaction that you are part of an effective nationwide organization that is dedicated to the defeat of all Socialist-voting Congressmen and replacing them with dedicated 100% anti-Communist Conservatives, you will also know that your membership dues paid in advance by the year or quarterly will bring you a twice-a-month newsletter containing news of the Society and political action bulletins as outlined in CSA No. 1. The CSA will establish political action groups in each area as soon as sufficient members have sent in their applications for membership from that area. Detailed programs of activity for local units of the CSA will be made available as the local units are formed.

In order to get on the ballot in 1964 to give the American people a real choice, determined men and women must be organized throughout the entire country early in 1963 in order to qualify and thus reserve a place for a new national Conservative party to be on the ballot in accordance with State law.

COOPERATION AND COORDINATION

THE CONSERVATIVE SOCIETY OF AMERICA will in no way be in competition with THE JOHN BIRCH SOCIETY. The JBS is an "educational" organization, whereas the CSA is solely "political action". In other words, the CSA picks up where the JBS leaves off.

The CSA will cooperate with all sincere, patriotic, Conservative organizations which wish to participate in the political action activities of the CSA.

Our national Conservative newspaper, THE INDEPENDENT AMERICAN, will, of course, support THE CONSERVATIVE SOCIETY OF AMERICA, as will THE RADIO EDITION OF THE INDEPENDENT AMERICAN now heard each week over an increasing number of radio stations. Thus, the CSA will have a radio "voice" such as "Big Labor" has.

JOIN THE CONSERVATIVE SOCIETY OF AMERICA TODAY!!!

If you are in general agreement with the Declaration of Principles as outlined in CSA No. 2, then please fill out the membership application which is contained in CSA No. 1, attach your check or money order and rush to us in the enclosed airmail envelope which requires no postage.

For God and Country,

Kent Courtney

Kent Courtney, National Chairman
THE CONSERVATIVE SOCIETY OF AMERICA

P.S. Also, we hope that you will purchase as many copies of these two CSA pamphlets as possible and send or give them to your friends, neighbors, civic leaders, etc., urging them to join THE CONSERVATIVE SOCIETY OF AMERICA.

ABOUT KENT COURTNEY,
NATIONAL CHAIRMAN,
THE CONSERVATIVE SOCIETY OF AMERICA

Since 1955, Kent Courtney and his publication, THE INDEPENDENT AMERICAN, have been advocating the re-alignment of all Conservatives into a new political party. His publication was one of the major influences behind the GOLDWATER FOR PRESIDENT boom of 1960.

Courtney was born in Minnesota in 1918 and reared in New Orleans. He is a graduate of Tulane University's School of Business Administration where he later taught economics and business subjects. His executive experience includes export-import, public relations, and publishing.

THE INDEPENDENT AMERICAN, the nation's largest newspaper of conservative thought and opinion, also sponsors political action rallies which have attracted considerable attention in the nation's press.

Since April, 1958, Courtney has been presenting the Conservative, Free Enterprise side of the news on THE RADIO EDITION OF THE INDEPENDENT AMERICAN heard weekly over an ever-increasing network of stations which have listeners in over 25 States.

"THE CONSERVATIVE SOCIETY OF AMERICA will in no way compete with non-political or educational and patriotic organizations now in operation or long established. We are openly advocating political action to oppose the pro-Communist and Socialist activities of the present political parties. We are political and thus we expect to be effective," Courtney says.

There is no half-way point. Compromising with either Communism or Socialism is surrender.

THE CONSERVATIVE SOCIETY OF AMERICA stands firm. **The CSA will never compromise its pro-Constitution principles for the sake of political expediency.** The CSA unequivocally stands for the rights of the several States and the rights of all individuals.

JOIN THE CONSERVATIVE SOCIETY OF AMERICA!

If you believe that the way to defeat Socialism and Communism at home and abroad is by **political action at the polls . . . .**

If you want to take an active part in this fight to restore America to Constitutional principles and fiscal sanity – then JOIN THE CONSERVATIVE SOCIETY OF AMERICA!

Just fill out the membership application blank, contained in this pamphlet, attach your check or money order and mail to National Headquarters at the address indicated.

Additional copies of this pamphlet (CSA No. 1) are available in bulk quantities at the following prices: Single Copy 25¢; 15 – $1.00; 30 – $2.00; 100 – $6.00; 250 – $13.00; 500 – $25.00; 1,000 – $50.00. Postage Prepaid

The Conservative Society Of America

AN INVITATION TO PATRIOTIC POLITICAL ACTION

CSA No. 1

You Are Invited To Join The Conservativ

AIM:

The aim of the Conservative Society of America is to restore the two-party system to the United States; to give the voter a choice between —
(a) Liberal-New Deal-Socialism and
(b) Conservatism.

PURPOSE:

The purpose of the Conservative Society of America is to provide a national political action organization to represent the Conservative viewpoint and to combat policies of appeasement of Communism.

* * * * * *

Throughout the United States there is a general awakening by Americans of the dangers facing this nation because of (a) continuing policies of bigger and bigger Federal spending, which unless halted will result in national bankruptcy; (b) an increasingly evident encroachment on the rights of the individual States to manage their own affairs, and an increasing centralization of all power in the Federal Government, contrary to all precepts and restrictions of the U. S. Constitution; and (c) the disastrous foreign policy practiced by both the Eisenhower Administration and the Kennedy Administration, which policy for the main part is based on appeasement of Communism and retreat from Soviet aggression. This bi-partisan foreign policy is now reaching such proportions that the United States is rapidly becoming a second-class nation because of our continuing bowing-down to Soviet demands and bluffs.

The American people are now being jarred out of their suicidal apathy by the educational programs of thousands of patriotic groups, operating on all levels throughout the country. However, many such organizations concentrate their efforts solely along the lines of "educating" fellow Americans regarding the threat of Socialism and its twin-brother, Communism.

THE CONSERVATIVE SOCIETY OF AMERICA fully supports the efforts of all organizations whose purpose is to inform the public of these dangers. However, THE CONSERVATIVE SOCIETY OF AMERICA believes that now is the time for **action,** and that the only practical and effective action is **Conservative political action at the polls on election day!**

The sole purpose of the CSA is political action . . . political action at the precinct, ward, city, county, Congressional district, State and national level. This is the way Americans can make their voices heard and their strength felt.

WILL THE CONSERVATIVE SOCIETY OF AMERICA SUPPORT PRESENT CONSERVATIVES IN CONGRESS?

Yes! The CSA will support all Conservatives, whether they are Republicans or Democrats, **provided** they vote "Conservative."

WILL THE CSA SUPPORT INDEPENDENT CANDIDATES FOR CONGRESS?

Yes! The CSA will support independent Conservative candidates to oppose Liberal and/or Socialist-voting Congressmen regardless of party affiliation. The CSA believes that Conservatives, those who support the principles of the U. S. Constitution, have the right and duty to run Constitutional Conservatives for Congressional office in order to oppose the Liberals.

HOW WILL THE CSA BE FINANCED?

By membership dues. A structure of dues for each individual member has been set up which will provide for financing national headquarters of THE CONSERVATIVE SOCIETY OF AMERICA, as well as financing State units of the CSA.

STATE ORGANIZERS FOR THE CSA

Each highly populated State will have a State organizer. Some States such as California and New York will probably have more than one; whereas less-populated States such as Arizona and Nevada may be grouped under one CSA organizer. Each State organizer will be given travelling expenses, in addition to salary, so that he can set up local units of the CSA within his State. A portion of all individual members' dues to the CSA will be assigned back to his State to help set up and finance the operation of a State Headquarters office of the CSA.

ACTIVITIES OF NATIONAL HEADQUARTERS OF CSA

(1) **Direction of activities of full-time paid State organizers for the CSA.** By having State organizers throughout the nation, National Headquarters of the CSA will be able to alert by telegram and long distance calls all of these State organizers, who will, in turn, alert all CSA members in their State or area. Thus, the CONSERVATIVE SOCIETY OF AMERICA will be able to act

e Society of America

quickly in any political crisis where it will be absolutely necessary to have the "grass roots" bring maximum pressure on Congress or on the Presidency when Congress is not in session.

The CSA will cooperate with other nationally organized educational study groups, societies and associations for maximum effectiveness, keeping in mind the political action aspects at all times.

(2) **Publication of the twice-a-month CSA NEWSLETTER which will be sent to all CSA members in good standing.** The CSA NEWSLETTER will be published in two sections:

(a) Section I will contain news of effective Conservative political action, a list of the latest Conservative books, publications, films, etc., advance notice on Conservative meetings and rallies throughout the country, a short review of national and international news which has been "blacked-out" by the left-wing press, and forecasts of things to come.

(b) Section II of the CSA NEWSLETTER will be entitled "Political Action Bulletin." This will keep members of the CSA up-to-date on proposed national legislation; how to defeat and minimize the effects of Socialistic legislation already on the books (such as Urban Renewal, etc.)

(3) **Publication of the CSA POLITICAL ACTION HANDBOOK.** This will be in the form of a loose-leaf notebook to which additional pages may be added from time to time. The CSA POLITICAL ACTION HANDBOOK will contain sections dealing with State, Congressional District, County, Ward and Precinct political organization and activities; strategy and tactics; how to obtain publicity; how to conduct rallies and meetings; how to set up a local Speakers Bureau; analysis of voting trends, voting records of Congressmen and Senators, etc.

LAPEL PIN FOR MEMBERS

A special lapel pin has been designed which can be worn by both men and women members of THE CONSERVATIVE SOCIETY OF AMERICA. This 4-color pin is 5/8" in

I hereby apply for membership in THE CONSERVATIVE SOCIETY OF AMERICA.
I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.
Without reservation, I support fully the Constitution of the United States of America as originally written and intended.
I am opposed to all forms of totalitarianism government, including Communism, Fascism and Socialism.
I am not now, nor have I ever been a member of any group or organization which advocates the overthrow of the U. S. government by subversion or by force and violence.

Name of Applicant (Please print or type) _____

Signature of Applicant _____

Address _____ City _____ State _____

NOTE: I enclose membership dues in the amount of $ _____ for the period of _____ as per dues schedule on reverse side.

IMPORTANT! — See reverse side for full details and additional information.

diameter and will carry the same design as appears on the cover of this folder.

The prime purpose of the CSA lapel emblem is to facilitate recognition between fellow Conservatives. Too many times Conservatives have met each other in a casual way without realizing that they share the same political views. When all Conservatives in this country "get together" on the neighborhood level – on up to the national level, the Liberal, "soft-on-Communism" politicians who have ruled this nation for the past several decades, will be voted out of office!

POLITICAL PHILOSOPHY OF THE CSA

Members of the CSA believe in political realities. Too long have the American voters been brainwashed into believing the exact opposite of fact. For example, we are endlessly told that it is "politically realistic to compromise on some points" – "You can't have everything, so give in a little." That is what conscienceless, hard-bitten professional politicians tell us. The CSA says that such so-called "practical" political advice is not only self-defeating but is a snare and a delusion!

Former Senator William Knowland of California was at one time a Conservative, but he compromised his Conservatism in the interest of "party loyalty" when he was majority leader during the Eisenhower regime. Former Senator Knowland, once touted as a Conservative Republican presidential candidate is today a political non-entity.

Former Vice President Richard Nixon, when a Congressman and Senator, voted "Conservative." However, in the interest of "party loyalty," Nixon compromised his former Conservatism and became a "Modern Republican." Today Nixon is so distrusted by Conservatives that Republican John Tower of Texas, when he ran for the Senate in 1961 requested Nixon not to campaign for him in Texas. Needless to say, John Tower, who ran on a platform of **uncompromising Conservatism**, won his race and was elected to the U. S. Senate.

The "political reality" is the **fact** that the compromise of one's Conservative views in the interest of "party loyalty" or political expediency is not only unethical and immoral – but it doesn't win!

SOCIALISM-COMMUNISM VS. CONSERVATISM

The national and international situation has now resolved itself into a life and death struggle between two ideologies:

(a) The Liberal-Socialist-Communist bloc
(b) The pro-Constitution Conservative bloc

DUES STRUCTURE OF THE CONSERVATIVE SOCIETY OF AMERICA

Individual memberships (men or women) – $20.00 per year payable in advance.
Individual memberships (men or women) – $6.00 per quarter payable in advance.
(Note saving of $4.00 when yearly dues are paid in advance)
Husband and wife memberships – $30.00 per year payable in advance.
Husband and wife memberships – $9.00 per quarter payable in advance.
(Note saving of $6.00 when yearly dues are paid in advance)

Included in each membership is a subscription to THE CSA NEWSLETTER and its special Political Action Bulletins.

When a State Organizer is appointed in your area, you will be invited to attend regular meetings of THE CONSERVATIVE SOCIETY OF AMERICA as soon as your membership application is approved at National Headquarters.

{Please make your check or M.O. payable to The Conservative Society Of America}

Kent Courtney, National Chairman
THE CONSERVATIVE SOCIETY OF AMERICA

You Are Invited To Join The Conservative Society of America

AIM

The aim of the Conservative Society of America is to restore the two-party system to the United States, to give the voter a choice between —
(a) Liberalism, Pseudo-liberalism and (b) Conservatism.

PURPOSE

The purpose of the Conservative Society of America is to provide a national political action organization to represent the Conservative viewpoint and to combat policies of appeasement of Communism.

* * * * * *

Throughout the United States there is a general awakening by Americans of the dangers facing this nation because of (a) continuing policies of bigger and bigger Federal spending, which unless halted will result in national bankruptcy, (b) an increasingly evident encroachment on the rights of the individual States to manage their own affairs, and an increasing centralization of all power in the Federal Government, contrary to all precepts and restrictions of the U. S. Constitution; and (c) the disastrous foreign policy practiced by both the Eisenhower Administration and the Kennedy Administration, which policy for the most part is based on appeasement of Communism and retreat from Soviet aggression. This bipartisan foreign policy is now reaching such proportions that the United States is rapidly becoming a second-class nation because of our continuing backingdown to Soviet demands and bluffs.

The American people are now being jarred out of their suicidal apathy by the educational programs of thousands of patriotic groups, operating on all levels throughout the country. However, many such organizations concentrate their efforts solely along the lines of "educating" fellow Americans regarding the threat of Socialism and its twin-brother, Communism.

THE CONSERVATIVE SOCIETY OF AMERICA fully supports the efforts of all organizations whose purpose is to inform the public of these dangers. However, THE CONSERVATIVE SOCIETY OF AMERICA believes that now is the time for **action**, and that the only practical and effective action is **Conservative political action at the polls on election day!**

The sole purpose of the CSA is political action . . . political action at the precinct, ward, city, county, Congressional district, State and national level. This is the way Americans can make their voices heard and their strength felt.

WILL THE CONSERVATIVE SOCIETY OF AMERICA SUPPORT PRESENT CONSERVATIVES IN CONGRESS?

Yes! The CSA will support all Conservatives, whether they are Republicans or Democrats, provided they vote "Conservative."

WILL THE CSA SUPPORT INDEPENDENT CANDIDATES FOR CONGRESS?

Yes! The CSA will support independent Conservative candidates to oppose Liberal and/or Socialist-voting Congressmen regardless of party affiliation. The CSA believes that Conservatives, those who support the principles of the U. S. Constitution, have the right and duty to run Constitutional Conservatives for Congressional office in order to oppose the Liberals.

HOW WILL THE CSA BE FINANCED?

By membership dues. A structure of dues for each individual member has been set up which will provide for financing national headquarters of THE CONSERVATIVE SOCIETY OF AMERICA, as well as financing State units of the CSA.

STATE ORGANIZERS FOR THE CSA

Each highly populated State will have a State organizer. Some States such as California and New York will probably have more than one, whereas less-populated States such as Arizona and Nevada may be grouped under one CSA organizer. Each State organizer will be given travelling expenses, in addition to salary, so that he can set up local units of the CSA within his State. A portion of all individual members' dues to the CSA will be assigned back to his State to help set up and finance the operation of a State headquarters office of the CSA.

ACTIVITIES OF NATIONAL HEADQUARTERS OF CSA

(1) **Direction of activities of full-time paid State organizers for the CSA.** By having State organizers throughout the nation, National Headquarters of the CSA will be able to alert by telegram and long distance calls all of these State organizers, who will, in turn, alert all CSA members in their State or area. Thus, the CONSERVATIVE SOCIETY OF AMERICA will be able to act quickly in any political crisis where it will be absolutely necessary to have the "grass roots" bring maximum pressure on Congress or on the Presidency when Congress is not in session.

The CSA will cooperate with other nationally organized educational study groups, societies and associations for maximum effectiveness, keeping in mind the political action aspects at all times.

(2) **Publication of the twice-a-month CSA NEWSLETTER which will be sent to all CSA members in good standing.** The CSA NEWSLETTER will be published in two sections:

(a) Section I will contain news of effective Conservative political action, a list of the latest Conservative books, publications, films, etc., advance notice on Conservative meetings and rallies throughout the country, a short review of national and international news which has been "blacked-out" by the left-wing press, and forecasts of things to come.

(b) Section II of the CSA NEWSLETTER will be entitled "Political Action Bulletin." This will keep members in the CSA up-to-date on proposed national legislation; how to defeat and monitize the effects of Socialistic legislation already on the books (such as Urban Renewal, etc.)

(3) **Publication of the CSA POLITICAL ACTION HANDBOOK.** This will be in the form of a loose-leaf notebook to which additional pages may be added from time to time. The CSA POLITICAL ACTION HANDBOOK will contain sections dealing with State, Congressional District, County, Ward and Precinct political organization and activities; strategy and tactics, how to obtain publicity; how to conduct rallies and meetings; how to set up a local Speakers Bureau; analyses of voting trends, voting records of Congressmen and Senators, etc.

LAPEL PIN FOR MEMBERS

A special lapel pin has been designed which can be worn by both men and women members of THE CONSERVATIVE SOCIETY OF AMERICA. This 4-color pin is 5/8" in

dimeter and will carry the same design as appears on the cover of this folder.

The prime purpose of the CSA lapel emblem is to facilitate recognition between fellow Conservatives. Too many times Conservatives have met each other in a casual way without realizing that they share the same political views. When all Conservatives in this country "get together" on the neighborhood level – on up to the national level, the Liberal, "soft-on-Communism" politicians who have ruled this nation for the past several decades, will be voted out of office!

POLITICAL PHILOSOPHY OF THE CSA

Members of the CSA believe in political realities. Too long have the American voters been brainwashed into believing the exact opposite of fact. For example, we are endlessly told that it is "politically realistic to compromise on some points" – "You can't have everything, so give in a little." That is what conscienceless, hard-bitten professional politicians tell us. The CSA says that such so-called "practical" political advice is not only self-defeating but is a snare and a delusion!

Former Senator William Knowland of California was at one time a Conservative, but he compromised his Conservatism in the interest of "party loyalty" when he was majority leader during the Eisenhower regime. Former Senator Knowland, once touted as a Conservative Republican presidential candidate is today a political non-entity.

Former Vice President Richard Nixon, when a Congressman and Senator, voted "Conservative." However, in the interest of "party loyalty," Nixon compromised his former Conservatism and became a "Modern Republican." Today Nixon is so discussed by Conservatives that Republican John Tower of Texas, who became the first Republican Senator from Texas since Reconstruction days, when he ran for the Senate in 1961 requested Nixon not to campaign for him in Texas. Needless to say, John Tower, who ran on a platform of uncompromising Conservatism, won his race and was elected to the U. S. Senate.

The "political reality" is the fact that the compromise of one's Conservative views in the interest of "party loyalty" or political expediency is not only unethical and immoral – but it doesn't win!

SOCIALISM-COMMUNISM VS. CONSERVATISM

The national and international situation has now resolved itself into a life and death struggle between two ideologies:

(a) The Liberal-Socialist-Communist bloc
(b) The pro-Constitution Conservative bloc

There is no half-way point. Compromising with either Communism or Socialism is surrender.

THE CONSERVATIVE SOCIETY OF AMERICA stands firm. **The CSA will never compromise its pro-Constitution principles for the sake of political expediency.** The CSA unequivocally stands for the rights of the several States and the rights of all individuals.

ABOUT KENT COURTNEY, NATIONAL CHAIRMAN, THE CONSERVATIVE SOCIETY OF AMERICA

Since 1955, Kent Courtney and his publication, THE INDEPENDENT AMERICAN, have been educating the realignment of all Conservatives into a new political party. His publication was one of the major influences behind the GOLDWATER FOR PRESIDENT boom of 1960.

Courtney was born in Minnesota in 1918 and reared in New Orleans. He is a graduate of Tulane University's School of Business Administration where he later taught economics and business subjects. His executive experience includes export-import, public relations and publishing.

THE INDEPENDENT AMERICAN, the nation's largest newspaper of constitutional thought and opinion, often sponsors political action rallies which have attracted considerable attention in the nation's press.

Since April 1958, Courtney has been presenting the Conservative, pro-Enterprise side of the news on THE RADIO EDITION OF THE INDEPENDENT AMERICAN heard weekly over an ever-increasing network of stations which have listeners in over 35 States.

"THE CONSERVATIVE SOCIETY OF AMERICA will in no way compete with any political or educational and patriotic organizations now in operation or long established. We are strictly advocating political action to oppose the pro-Communist and Socialist activities of the present political parties. We are political and thus we expect to be effective," Courtney says.

JOIN THE CONSERVATIVE SOCIETY OF AMERICA!

If you believe that the way to defeat Socialism and Communism at home and abroad is by political action at the polls . . . .

If you want to take an active part in this fight to restore America to Constitutional principles and fiscal sanity – then JOIN THE CONSERVATIVE SOCIETY OF AMERICA!

Just fill out the membership application blank, contained in this pamphlet, attach your check or money order and mail to National Headquarters at the address indicated.

Additional copies of this pamphlet (CSA No. 1) are available in bulk quantities at the following prices: Single Copy Free; 15 – $1.00; 50 – $2.00; 100 – $3.00; 250 – $10.00; 500 – $15.00; 1,000 – $25.00. Postage Prepaid

Here Is Where The Conservative Society Of America Stands

PREAMBLE

I

In God we trust. This American motto means not only what it plainly says, but also that men must be subject to law, and that elected and appointed officials must be restrained by a freely established Constitution. It means limited government.

II

We affirm loyalty to the United States of America. The historic American system of checks and balances has five components:

- American independence.
- Division of authority between a Federal Government supreme in exercise of its delegated powers – and the governments of the States, to which, with their people, the remaining powers are reserved.
- Separation within the Federal Government of the Legislative, Executive, and Judicial branches – each with Constitutional authority to meet its own responsibility and to check on the performance of the others.
- Separation of Church and State, to the end that men may worship God without hindrance or compulsion, according to the dictates of their conscience.
- The "Free Enterprise" system as a means not only of maximum economic progress, but also a reservoir of political freedom.

III

We intend to destroy Communism. Communists have declared their intention to destroy religion, representative government, and Free Enterprise. The history of the past half century makes it abundantly clear that they have not relented in their resolution. Especially since World War II, they have been invigorated by a spectacular growth of power. We intend to reduce their success and eliminate their operation from history. Their advance to date has been the result, not of their own power, but of heart failure in the West. The present resurgence of Conservatism in America means that the crisis of fear in the non-Communist world is now past, though effects may continue to mount for some time. The United States has at all times had the economic and military means to defeat Communism. Today the spirit of Freedom, not dead – but sleeping, awakens.

POLICIES AND PROGRAMS

Based on the foregoing, our general policy shall be to maximize individual freedom by demanding:

- *Freedom from foreign tyranny;*
- *Freedom from Federal usurpation and encroachments;*
- *Freedom from violation by any State of Constitutional guarantees;*
- *Freedom from crushing, confiscatory taxation;*
- *Freedom from coercive intervention into private affairs by parasitic and predatory bureaucracy;*
- *Freedom from unfair and ruinous business competition by tax-financed bureaucracy;*
- *Freedom from conspiracy in restraint of trade by business monopolists;*
- *Freedom from conspiracy in restraint of choice by inter-party political monopolists.*

PROGRAM OF ACTION

To implement the foregoing policy, we propose:

(1) **To reappraise the political and military doctrines** which have during the past 15 years reduced the United States from a position of incomparable power to a condition of dire peril.

(2) **To break relations with all governments which are openly creatures of the Communist Party.** This means in the first instance Soviet Russia and her East European satellites. It should go without saying that it also means continued non-recognition of Red China.

(3) **To withdraw from any and all projects looking to the establishment of World Government,** as being at best futile, and at worst catastrophic. The United Nations has failed to keep the peace and is now being used as a smokescreen for Soviet aggression.

Therefore the U.S. should get out of the UN and the UN should be removed from America's soil.

(4) **To break off the negotiations at Geneva for suspension of nuclear tests, and to resume a rational program of testing.** The existing moratorium amounts to intolerable sabotage of the nuclear program in the non-Communist world. The folly of pressing for an agreement which would be worthless if we got it is exacerbated by the perhaps irreparable damage we are inflicting now on America's competitive position in atomic energy.

(5) **To liberate the island of Cuba from the Communist conquerors there.** In the achievement of this objective, which traditional American hemispheric policy requires, we should capture Chinese and Russian Communists now based on Cuba, and hold them as hostages pending release of Americans from Russia and Red China. The importance of liberating Cuba from the Communists, by such means as may be required, is enormously emphasized by the fact that the island was seized by the Communists not primarily for its own sake, but as a base for military and paramilitary operations against the United States. The Cuban situation cannot be stabilized as it is. If we do not act, the Communists assuredly will. They have deliberately sacrificed the Cuban economy. This they would do for military advantage, and they will not neglect to exploit such an advantage to the utmost.

(6) **To end programs of foreign aid to nations which refuse to support the United States in the struggle against Communism,** and to nations where such aid amounts to a subsidy of competition against American labor and management.

(7) **To end programs of intervention in agriculture which, through subsidies and controls,** bid fair to make the American farmer at once a ward and slave of the Federal Government.

(8) **To return our immigration regulations to**

the original legislative concept of preserving the American cultural heritage of freedom.

(9) **To eliminate un-Constitutional and uneconomic business and industrial operations of the Federal Government** in order to receive the maximum benefits of a free enterprise economy.

(10) **To protect the right to work without paying** forced tribute or being forced to join any organization whatsoever.

(11) **To reduce the size of the Federal Bureaucracy.** Besides requiring un-Constitutional projects to keep so many employees in even a semblance of useful activity, the giantism of the bureaucracy inevitably produces the sluggish inefficiency now tragically taken for granted in a government operation.

(12) **To expedite ratification of the amendment to the Constitution to repeal the Sixteenth Amendment.** The power to tax is the power to destroy, and a Constitutionally-limited government should not have the power to destroy the substance of law-abiding citizens.

(13) **To renovate the program of internal security, in order to free the government of infiltration by subversive agents.** To this end we pledge full support to the programs, not only of the Federal Bureau of Investigation and other duly authorized agencies of the Executive branch, but also of the duly-constituted Committees of the Congress, notably the House Committee on Un-American Activities, and the Senate Internal Security Subcommittee.

(14) **To restore, by Constitutional means, the dignity of the Supreme Court of the United States,** which has by its pro-Communist decisions set the Communist conspiracy free to destroy the sovereignty of our Republic.

(15) **To restore the two-party system by establishing a new conservative American political party to** oppose the socialism and appeasement of communism which has been aided and abetted by both old political parties.

JOIN THE CONSERVATIVE SOCIETY OF AMERICA

If you agree with the Conservative principles outlined in this pamphlet, then you are invited to join THE CONSERVATIVE SOCIETY OF AMERICA.

The CSA is dedicated to political action and is now organizing units in each State throughout the nation. If you believe that there is no difference between the New Deal Democrat Party and the "Modern" Republican Party . . . if you wish to see the two-party system restored, that is, where the voter is given a choice between Liberal policies on one hand and Conservative policies on the other, then you will want to join others who feel as you do. Join THE CONSERVATIVE SOCIETY OF AMERICA today!

For further information regarding the CSA, write: Kent Courtney, National Chairman, Conservative Society of America, P. O. Box 4254, New Orleans 18, La.

HELP SPREAD THE CONSERVATIVE MESSAGE

In order to combat the Big Spending, "soft-on-Communism" policies of both parties, please buy and distribute as many copies as possible of this pamphlet which outlines the principles of Conservatism. Mail or distribute this pamphlet (CSA No. 2) to your friends, neighbors, civic leaders, members of your State Legislature, your Congressman, your Senators, city officials, patriotic groups, etc.

ACKNOWLEDGEMENT

THE CSA VOTING INDEX has been prepared and published through the combined facilities of The Conservative Society of America and THE INDEPENDENT AMERICAN Newspaper. Kent and Phoebe Courtney, a husband-and-wife team, are publisher and editor, respectively, of THE INDEPENDENT AMERICAN, a national Conservative Political Action Newspaper, which they founded in January, 1955, and which has subscribers in all 50 States.

Kent Courtney is also National Chairman of The Conservative Society of America, a rapidly-growing political action organization formed in Chicago in April, 1961, which seeks a return to Constitutional government and fiscal sanity through the election of Conservatives, regardless of party label, in the 1962 Congressional elections. The CSA now has members in 45 States.

Kent Courtney acknowledges the assistance of Mr. William Kornhaus and other members of the printing department of THE INDEPENDENT AMERICAN Newspaper on the layout and production phases involved in presenting this information.

Phoebe Courtney acknowledges the collaboration and dedicated assistance of Mary Helen Brengel in tabulating the individual votes cast by Members of Congress and in the editorial preparation of this voting index. Mrs. Brengel is Assistant Editor of THE INDEPENDENT AMERICAN and Research Assistant to the Editor.

Other activities of Kent and Phoebe Courtney include the publishing of TAX FAX pamphlets advocating the Conservative position on such national issues as Foreign Aid, Federal Aid to Education, Urban Renewal, etc. Approximately three million copies of these TAX FAX pamphlets have been published and distributed during the past six years.

Kent Courtney is also commentator of THE RADIO EDITION OF THE INDEPENDENT AMERICAN, a weekly broadcast of "the Conservative side of the news," which is heard over 32 stations throughout the nation.

Courtney, born in Minnesota, moved to New Orleans in 1929. He is a graduate of the School of Business Administration of Tulane University in New Orleans, having majored in economics and later serving as an instructor in economics in Tulane's University College. His wife, Phoebe Courtney, attended Newcomb College in New Orleans.

FOREWORD

If you are content with the way things are going; if you think you can accommodate yourself to living, possibly in the not-too-distant future, under a Socialist-Communist dictatorship, then don't waste your time reading any further in this book.

BUT, if you are worried as you see America spending herself to death; if you are distressed because you see your life savings eaten away by ruinous inflation caused by Socialist big-government spending; if you wish to see your children and grandchildren grow up, not as Communist slaves, but as free and proud Americans; if you love America, and want to help save her from the twin assaults of Socialism-Communism; then we hope this book will provide some answers for you as to what you can do about the crisis facing America today.

The United States today is governed by a system of bi-partisan government, which simply means "one-partyism." We see both the Democratic Party and the Republican Party trying to outdo each other in appeasing Communism, and trying to outbid each other as to who can spend the largest amount of taxpayer dollars in Federal handouts in order to buy votes in future elections.

The Conservative Society of America believes in giving the American people a genuine choice - a choice between Liberalism and Conservatism.

The Conservative Society of America is the opposite number of the Americans for Democratic Action (ADA), which in recent years, although a group actually small in number, has become so influential that major portions of its Socialist, Communist-appeasing philosophy have been adopted by both the Democratic and the Republican parties.

This Voting Index, prepared by the Conservative Society of America is NOT "bi-partisan"; it is NOT unbiased.

The Conservative Society of America is "partisan" in favor of returning this nation to the principles of the U. S. Constitution with its guarantees of individual freedom. The Conservative Society of America is "partisan" in favor of putting an end to the fantastic waste of the taxpayers' dollars in unnecessary Federal spending, the only purpose of which is to concentrate more power in the hands of Washington bureaucrats.

The Conservative Society of America is "biased" in favor of:

(a) recognizing that the international Communist conspiracy is the mortal enemy of the United States, and of taking steps to put an end to the belly-crawling appeasement policies of previous administrations which have given aid and comfort to this Communist enemy;

(b) rooting out and exposing those in high places in the Government who are acting as a fifth column to destroy America from within;

(c) defeating Communism and Communist aggression throughout the world.

Only in this way can the United States survive as a free nation.

INTRODUCTION

So devoted were the Founding Fathers of this nation to the principle of freedom of information that leading members of the Constitutional Convention refused to sign the Constitution until the Bill of Rights was added, Amendment 1 of which guaranteed freedom of speech and of the press.

The growth and importance of political parties was not foreseen or provided for by the framers of the U.S. Constitution. The party system has been superimposed upon the Electoral College, and the services of the Presidential Electors are now a mere formality to comply with Constitutional requirements.

In 1952, Dwight D. Eisenhower, campaigning on a strong Conservative platform, promised to root out Communist infiltration in the government and to put an end to Big Federal Spending. Because he represented the wishes of the majority of the American people, Eisenhower was swept into office. Two years later President Eisenhower, ignoring the Republican Conservative platform, began to advocate "soft-on-Communism" policies and to promote Big-Spending and Appeasement bills which bore a marked similarity to legislation being pushed by the Democrats.

The once-Conservative Republican Party has now moved so far to the Left that it is a pale carbon copy of the Socialist, Communist-appeasing Democratic Party.

At the present time both the Democratic and the Republican parties are divided into Left and Right wings - i.e., (1) Liberal-Socialist-Internationalism, which is characterized by "softness on Communism," and (2) Conservative-Constitutional-Americanism, the philosophy espoused by Americans who will not accept Left-wing appeasement of the Soviet Union which, if continued, can only lead to the surrender of the United States to Communist Russia. However, because the Left Wing holds the reins of control in both the Democratic and Republican parties, the voter is offered only a "choice" of Liberal-Socialist-Internationalism under either the Democratic or Republican label.

Each day an increasing number of Americans are adopting the philosophy of Conservative-Constitutional-Americanism because they wish to preserve and protect our national sovereignty against Soviet aggression; to preserve the rights of the individual States against Federal encroachment; to preserve a sound economic system, now jeopardized by unnecessary Big Federal Spending; to preserve the jobs of American workingmen which are now menaced by internationalist-inspired legislation that is allowing cheap-made foreign products to compete unfairly with American-manufactured products; and to preserve and defend our place as the world's greatest nation against any threats from within or without.

SOCIALISM BY LEGISLATION

Have you wondered why and how the Liberals in recent Congresses, under both the Republican Administration of President Eisenhower and the Democratic Administration of President Kennedy, have been able to ram through an increasing number of Socialist, Big Spending bills, and bills designed to carry out the "soft-on-Communism" policies of previous administrations?

After more than 500 hours of research and tabulation compiling this Conservative Society of America Voting Index, a truly alarming statistic emerged. On the 20 key bills in the 87th Congress, 1st Session, 1961, which were selected for tabulation to analyze the votes of Members of the U.S. House of Representatives, only 38 Congressmen (or only 9%) of the 437 Members of the House of Representatives, have a Conservative rating of 70% or more. The balance of 399 Congressmen have a Conservative rating of 69% Conservative (which means 31% Liberal)

ranging down to 0% Conservative (which means 100% Liberal) according to the CSA Voting Index which appears in Part III.

Another disturbing figure which emerged from the final tabulation of votes in the CSA Voting Index is the fact that 126 Congressmen voted 0% Conservative, or 100% Liberal-Socialist. Of these 126 Liberals, only 42 represent Big City, minority-bloc-voting areas, or union strongholds in industrial centers.

In this CSA Voting Index, 39 Members of Congress receive a Conservative rating of from 5% to 9%, which means a Liberal rating of from 91% to 95% Liberal-Socialist. Of these 39, five represent Big-City bloc votes. Adding the 0% Conservative category to the 5% to 9% Conservative category, it can be seen that 165 Congressmen, or more than one-third of the U. S. House of Representatives voted from 91% to 100% Liberal-Socialist!

How has this Socialist take-over of our Legislative Branch taken place? Widespread as was voter-acceptance of many of the Socialist proposals of Franklin Delano Roosevelt during the 30's, the years 1959-1960 saw a reversal of the tide of public opinion on a nation-wide scale. This reversed tide is now beginning to flow at an ever-increasing rate in the direction of Conservatism and anti-Communism.

How then, in the face of this resurgence of Conservatism, have the Liberals managed to maintain a stranglehold on both houses of Congress?

A NEW TYPE OF PRESS CENSORSHIP

Abraham Lincoln said, "Let the people know the facts and the country will be saved." The truth of the matter is that the American people have not been getting the full facts regarding how their Congressmen have been voting Socialism into law.

An unfortunately small number of newspapers consider it their responsibility to inform their readers how the Congressmen from their district actually voted on every single issue. In fact, some newspapers, who are the first to loudly proclaim themselves as protectors of "Freedom of the Press," are the first ones to practice a type of press censorship: for example, they may conveniently forget to publish how the local Congressman voted on Foreign Aid (which is meeting with increasing public resistance although it is still being supported by a number of Liberal newspapers). Such newspapers give front-page coverage to the recording of Congressional votes on minor bills, thereby creating the illusion among their readers that they give coverage to all bills. In this way, serious omissions of reporting the votes on key bills is seldom detected.

DISREGARDING THE WILL OF THE VOTERS

A cynical callousness has been developing over the years in the political structure of this nation. We now find Congressmen who are more loyal to their particular political party than they are to the voters back home whom they are supposed to represent.

The Fulbright Memorandum, exposed in 1961 by Senator Strom Thurmond, was a blueprint for the stifling of all public opposition to the policies of the Kennedy Administration. This quasi-official document admitted "It is probably the view of most Members of Congress today that if Foreign Aid were laid before the people in a referendum, it would be defeated." And yet, 260 Congressmen, bowing to political leaders of both the Democratic and Republican parties who support Foreign Aid, voted on August 31, 1961 in favor of Foreign Aid despite the wishes of hundreds and thousands of their constituents who had bombarded them with letters protesting the Foreign Aid program.

The Foreign Aid program which has cost more than $100 billion, has failed to win friends for the United States and actually, in many cases, has directly aided the Soviet

international conspiracy. Only 132 Congressmen heeded the demands of their constituents and voted "No" on the Foreign Aid bill recorded in the CSA Voting Index.

"IN THE DARK"

Without documented facts proving exactly how a Congressman voted on all important issues, the voter is unable to evaluate the records of those Congressmen who consider it "smart politics" to keep the voters in the dark regarding their actual views on a number of issues. However, a constituent, once in possession of the voting record of a Congressman, is then able to judge his performance and, if necessary, take steps to form local political organizations to replace said Liberal Congressman by supporting the candidacy of an uncompromising Conservative who would vigorously defend the principles of American Constitutionalism.

This, then, is the purpose of the Conservative Society of America Voting Index. It should be remembered that all Congressmen come up for re-election on November 6, 1962.

Part 1

Two Key Issues:

FOREIGN AID

AND

DISARMAMENT

PART I

KEY ISSUE #1 – FOREIGN AID

The Conservative Society of America has selected 20 issues in the U. S. House of Representatives and 14 issues in the U. S. Senate relating to both domestic and foreign policy in order to arrive at an over-all picture of the basic Conservatism or Liberalism of each individual Congressman and Senator.

However, there are two issues that transcend all others in importance, because they affect the very survival of this nation. These two issues are Foreign Aid and the establishment of a Disarmament Agency within the State Department. In order to give you, the voter, extensive background information on these two bills, documented information is provided in this section which, for the most part, has been excerpted from the CONGRESSIONAL RECORD on the dates indicated.

It should be borne in mind that the major portion of this information represents speeches on the floor of the House or the Senate which was therefore available to all Members of Congress. Accordingly, if your Congressman and/or Senator voted in favor of either Foreign Aid or Disarmament, he did so in spite of the documented evidence contained herein which proves the destructiveness of these two key bills.

After the House of Representatives adopted, on August 31, by a vote of 260-132, the House-Senate Conference Report on the Foreign Aid Authorization bill,* the House was then called upon to appropriate money to finance the Foreign Aid bill, and did so on September 5. The Foreign Aid bill (HR 9033) passed by the House, is the largest Foreign Aid appropriation within the past seven years. It provides for more than $10.9 billion for Foreign Aid and related agencies.

Speaking out against the Foreign Aid bill on September 5, just prior to the vote on the appropriation of money for the bill, Congressman John M. Ashbrook of Ohio stated:

"I shall vote 'No' again today, because the $106 billion we have appropriated and spent for Foreign Aid since World War II has been of little or no value to the United States. We are called upon to appropriate the vast sum of $10,981,779,000 at a time when our national debt is in excess of $290 billion....

"Almost every year Congress is called upon by the President and the Secretary of the Treasury to increase the debt ceiling in order to permit the Government to meet its operating cost, and now not only has our national debt increased,** but our Foreign Aid expenditures have also become larger and more burdensome to our taxpayers. By making the American dollar the chief arm of diplomacy, we are undermining the economic stability of the United States. History has proven that we cannot solve the problems of the world through the expenditure of money, particularly the expenditure of money we do not have, but must borrow with the hope and expectation that future generations might repay.

"By this method of absolute fiscal irresponsibility, we are slowly but surely falling into the economic trap which Lenin

---

* See House Issue #16 in tabulated votes, Part III, for vote on Foreign Aid Authorization.

** See House Issue #13 in tabulated votes, Part III, for vote on increasing the National Debt Ceiling.

and his successors in the Communist hierarchy have so long prophesied would be our ultimate end. Consistently Communist leaders have said that the United States would spend itself into bankruptcy and then the only course of action left open for the American people would be Socialism and ultimately Communism. The Communist dictators have warned us, but we refuse to heed the danger signals. Hitler also revealed his plans to the world, but no one believed him until it was too late....We have literally taken billions of dollars of our own resources to provide our foreign competitors with modern facilities to strengthen the competitive effort."

Congressman Ashbrook then pointed out that these foreign factories, subsidized by Foreign Aid funds, are competing unfairly with American industry because of their extremely low wage scales. And then he added:

"In certain areas of the world we have fostered, promoted, and financed a lush growth of industries in direct competition with American industries. In many instances we have provided the most modern machinery and processes known to man for our foreign competitors....Our taxpayers' money is being used to build a textile mill in Ethiopia, a cement plant in Korea, a steel mill in Turkey, a nylon plant in Korea - at a cost of more than $3 million - another textile mill in the United Arab Republic costing $1 million, and countless other small industrial plants throughout the world....As a direct result, we are destroying one American industry after another, and in some instances literally creating ghost towns. At the same time we are subsidizing unemployment through unemployment insurance at the taxpayers' expense.*

* See House Issue #5, Area Redevelopment (Depressed Areas), House Issue #2, Federal Unemployment Compensation, and Senate Issue #11, Federal Job Retraining, in tabulated votes, Part III.

FOREIGN AID FUNDS SUPPORT COMMUNIST-CONTROLLED U.N.

The Foreign Aid bill also contained an amount of $153.5 million for the support of the United Nations and other related international agencies. Although contributing the major portion of the financing of the United Nations, the United States has only one vote, and is outnumbered 103 to 1, with the balance of power resting in the hands of the Soviet-bloc nations and newly-emerged jungle-States of Africa.

CASTRO RECIPIENT OF U.N. FUNDS

That Castro's Cuba is now a full-fledged Soviet satellite 90 miles from U. S. shores cannot be denied by even the most radical Left Wingers. On October 13, 1961, INFORM Newsletter revealed that the Soviets are now staging a big build-up of jet and missile bases in Cuba.

During the debate on the Foreign Aid bill on September 5, Congressman Glenard P. Lipscomb of California stated, "The taxpayer is well aware of the well-publicized agricultural research grant made to Cuba on May 24, 1961, by the United Nations Special Fund, in the amount of $1,157,600 to which the United States contributed 40%."

An indication of the "soft-on-Communism" approach that characterized the debate on the Foreign Aid bill in the House on September 5 is the admission by Congressman Otto Passman of Louisiana, who stated, in regard to U.N. funds being made available to Castro, "We have no particular power over what nations will or will not get funds from the United Nations....I do not know what will be the policy of the United Nations."

Congressman J. Vaughan Gary of Virginia at this point asked the question, "Is it not true that an amendment was offered in the Committee to put language in the bill to

prohibit payments to Castro, and after long deliberation the Committee decided the language properly should be in the report rather than in the bill...?"

Congressman Passman admitted that this was true, and added, "We believe the report will be sufficient to express the views of Congress."

However, this stratagem by Congressman Passman's committee (i.e., putting the wording in the report rather than in an amendment to the bill) stripped Congress of its right to specify where U.S. taxpayer funds would be spent. By way of the Committee Report, this power was vested in the Secretary of State and the U.S. representatives to international organizations, with the gentle admonition that they "are urged to use every reasonable means to prevent the continuation or initiation of multilateral projects or programs in Cuba or other Communist-dominated countries which are funded, in part, by contributions from the United States."

FOREIGN AID AIDS REDS

Speaking on the floor of the House, Congressman James A. Haley of Florida stated, "I know full well that part of the money which we appropriate will go to countries that are dominated by Communist governments. Let there be no doubt in anybody's mind about that. This will occur because of the fact that the amendment offered by the gentleman from Texas (Congressman Bob Casey) to the authorization bill and adopted by the House did not appear in the bill as it came out of conference authorizing this program."

Congressman Haley continued, "Therefore, because of the present wording, which is broad, the President can, and presumably will, because it has been done in the past, see that aid is given to certain countr which are dominated by Communist governments."

Congressman Samuel L. Devine of Ohio, entering the debate, then stated in regard to Foreign Aid going to Communist Tito, "It is very appropriate at this time that I read in my local newspaper yesterday in Columbus, Ohio, the fact that the U. S. Government has just sold to Yugoslavia 70 jet airplanes."*

Discussing Foreign Aid to Tito, Congressman John M. Ashbrook (Ohio) stated, "American aid to Poland and Yugoslavia is simply unbelievable. Poland is directly under the control and authority of Khrushchev, and every dollar sent to Poland is, to say the least, indirect aid to Communism. Anyone who believes that Tito would permit Yugoslavia to fight on the side of the United States, or any other Freedom-loving nation, is most unrealistic, if not completely blind to the facts of life. Tito is a Communist, and has openly and boldly stated that his troops would march with the troops of Russia in a war against the free peoples of the Western bloc...."

BINDING FUTURE CONGRESSES

Article 1, Section 9, Clause 7 of the U. S. Constitution states: "No money shall be drawn from the Treasury but in consequence of appropriations made by law...."

And yet the 87th Congress in approving the appropriations for the Foreign Aid bill committed future members of Congress, as yet un-elected by the people of the United States, to appropriate funds to finance the development loan provisions of the Foreign Aid bill for the next 5 years.

The Senate-House Conference Committee to iron out minor differences between the House and Senate Foreign Aid bills, attempt-

---

* See Senate Issue #7, in tabulated votes, Part III, for vote on amending Battle Act (Aid to Communist nations.)

ing to hide the fact that the United States was being committed to Foreign Aid appropriations for the next 5 years, adopted the following wording in the Conference Report:

"It is understood that the conferees regard the language in the bill as authority for the Executive to make commitments which will be honored by the Congress unless there is evidence of obvious bad management, or the other country has failed to meet its responsibilities."

In commenting on this section of the Foreign Aid Bill, Congressman Clare Hoffman of Michigan stated during the debate:

"The language quoted (Section 202a) would authorize back-door spending unless there was evidence of 'obvious bad management or the country has failed to meet its responsibility'...While there may be no legal obligation for the Appropriations Committee to comply (in future years) with the wishes of the administration - more accurately the State Department - in effect it will be argued that we are obligated to support every commitment which may be made and which cannot be rejected because of bad management or the failure of some country to meet its responsibility. The inevitable practical result is that the authorization will be urged as a commitment binding upon the Appropriations Committee."

Now that the House and Senate have approved this 5-year plan for future appropriations under the Foreign Aid bill, it can be expected that each year the Administration and the State Department will go through the formality of asking Congress to approve commitments already made. It can further be expected that the Liberals of both parties will attempt to ram such approval through Congress on a voice vote thus depriving the voters back home of the knowledge of how their Congressmen vote on Foreign Aid. (It should be noted that the highly controversial Peace Corps bill was passed by the Senate in 1961 on a voice vote.)

HOW DID YOUR CONGRESSMAN VOTE?

It is worthy of note that at one point in the debate on the Foreign Aid bill, as recorded in the September 5, 1961 issue of the CONGRESSIONAL RECORD, only 105 of the total of 437 Members of the House of Representatives were present to listen to the arguments against the Foreign Aid bill.

It will be recalled that the Fulbright Memorandum pointed out that if the American people were allowed to vote on Foreign Aid via a public referendum, it would doubtless be defeated. Yet on September 5, 1961, after hearing, or not bothering to attend and listen to, the arguments against Foreign Aid, 270 Members of the House voted in favor of the Foreign Aid Appropriations bill which included aid to Communist satellite nations. Only 123 Congressmen voted against this bill. Both the House and Senate Foreign Aid bills permit the sending of Foreign Aid, military and economic to a number of Communist-dominated nations.

Rather than tabulating the vote on the Foreign Aid Appropriations bill (which passed 270-123) the CSA Voting Index in Part III, includes the vote on the adoption of the House-Senate Conference Report covering the Foreign Aid Authorization bill on August 31. This bill was chosen for use in the CSA Index because if the Foreign Aid Authorization bill had failed to pass the House of Representatives, then it would have been dead, and there would have been no need to vote any appropriations to carry it out.

In summing up the analysis of the Foreign Aid Bill of 1961, below is a quotation from the DAN SMOOT REPORT of September 25, 1961:

"The Foreign Aid bill of 1961 is so destructive of American Constitutional principles; so harmful to this nation politically, economically, morally, and militarily; and so helpful to Communism-Socialism all over the earth - that Congressional voting on the measure (without refer-

ence to anything else) could be used by voters as a yardstick in 1962. Every Congressman and Senator who voted for the 1961 Foreign Aid bill (regardless of how many fine speeches he may have made, or how long he has been in Congress, or how he may have voted on other issues) should be voted out of office. Any person who voted for this bill is unfit to serve in Congress, as long as America is a Constitutional Republic, because the bill violates the fundamental political principles which are the bedrock of our Constitutional system....''*

PART I

KEY ISSUE #2 – DISARMAMENT
Establishing a "Surrender Agency"

On September 19, 1961, a lengthy debate took place on the floor of the U.S. House of Representatives preceding the passage of H.R. 9118, which established the U.S. Arms Control Agency under the direction of the President and the Secretary of State.

When the U.S. Senate voted on a similar bill, S. 2180, on September 8, the bill as passed by the Senate was described as "Arms Control and Disarmament Act for World Peace and Security." However, the promoters of this disarmament bill, fearing opposition in the U.S. House of Representatives to the word "Disarmament" decided instead to delete the word "disarmament" so repugnant to the American voter, and to substitute instead the words "U.S. Arms Control Agency." Regardless of the final title, the purpose of the bill which passed the House of Representatives by a vote of 290 to 54 (with 91 Members of the House not voting) was to disarm the United States.*

Speaking on the floor of the House on September 19, 1961, Congressman John R. Pillion of New York stated:

> "....The United States has been losing the cold war to the Soviet Communist conspiracy for the past 25 years until we have reached the point where we are endangered and are most worried about our survival. These losses throughout the world were not caused by our military inferiority or by war; they were caused solely by the pro-Communist attitudes that exist in the State Department. Whether we look at the crisis in Berlin, which was a diplomatic fiasco and a diplomatic loss, or whether we look at the takeover of Cuba, or look back at the continuous losses and pro-Communist attitudes of the State Department, does the gentleman (Congressman Walter H. Judd of Minnesota) now believe that the State Department is going to change its attitude? Does the gentleman entrust this important measure to the hands of the people in the State Department?.... This bill will be reported throughout the world as a disarmament bill passed by the Congress, another sign of weakness, another sign of our willingness to surrender and retreat...."

Congressman August E. Johansen of Michigan, in discussing this bill, stated:

> "Mr. Chairman, I rise in opposition to H.R. 9118. I know of no more compelling reason why this legislation should be defeated than is found in the opening paragraph of the report of the Committee on Foreign Affairs which accompanies this bill (which states): 'This legislation, providing for the establishment of a U.S. Arms Control Agency, does not reflect any intention that the United States give a higher priority to disarmament than to defense, or that we intend to disarm in the face of the military threat.'
>
> "The fact that the committee finds it necessary or expedient to preface its arguments as to the need for this legislation with such a disclaimer is, in my judgment, all the reason needed to defeat it.
>
> "I wonder if the supporters of this bill and the authors of this disclaimer think Mr. Khrushchev is going to read it, or, reading it, is going to believe it.
>
> "The simple truth, of course, is that Mr. Khrushchev is interested in only one

---

* See House Issue #20, Disarmament Bill, in tabulation of votes, Part III.

form of disarmament and that for his enemies alone. His whole aim is to paralyze or destroy our will to resist. His one aim is a campaign of terror, of nuclear blackmail, of alternate smiles and scowls, that will frighten and confuse us into the course of appeasement....Following the collapse of the 1960 summit conference, Khrushchev reportedly referred to the United States in the presence of satellite and foreign correspondents in these vile and venomous words: 'You spit in their faces and they call it dew.'....

"I do not propose, in the face of his terroristic threats and missile-rattling blackmail, to support legislation which in the remotest way gives Khrushchev the basis of believing or asserting that the United States is divided in its purposes or wavering in its firmness."

Congressman John M. Ashbrook of Ohio also spoke out against the passage of H.R. 9118, saying:

"Mr. Chairman, the average reasonable mind might well suggest that we have done just about everything we can in honor do to go halfway - more than half-way - in the accomplishment of peace in our times. However, our national purpose today seems to be reflected more by a penchant toward conciliation, appeasement and negotiation than in winning from our godless adversary, Communism. I mention our foe because in most of these debates on this subject, Members of the House appear to be forgetting (1) our enemy; (2) the record of Communist perfidy; (3) the terrible Communist record of negotiations on disarmament, nuclear testing and anything which requires faith in word and honor in action.

"From the start, the present Administration has adopted a policy of civility toward the Communist conspiracy with the charitable but impractical idea that by treating the Russians and satellites as if they were civilized members of the community of nations, they would respond in kind. That policy has been bankrupt from the start and has seen Khrushchev meet concession with provocative advance, offer with abuse, weakness with a show of strength. That policy has been impractical and I fear that the proposal for the establishment of a U.S. Arms Control Agency will be likewise. One gets the distinct impression that the Kennedy Administration looks with official horror upon the prospects of winning in this struggle with the Communists who are bent on our annihilation. The time to seriously consider disarmament is after the fall or destruction of Communism. We cannot wish this threat away....

"We have urged our NATO allies to increase their military effort. We have told our people that we must add $6 billion over and above the $40 billion contained in the original Federal budget to prepare ourselves for a war we may not want but might be forced on us, for a war which will be headed off not by negotiation of this type, already shown fruitless, but in resolute strength of the type which is now so matter-of-factly disparaged. All history shows that power and a willingness to use it are the sine qua non which hold back tyrants and aggressors....

"The point we need to make here is: We do not need to prove to the world that we seek peace and a control of arms. Our entire history gives testimony to our good intentions....This Agency will in my judgment play completely into the hands of the one-worlders, the I'd-rather-be-Red-than-dead boys and those who think that no sacrifice of sovereignty, honor or principle is too great to make in pursuit of the illusive goal of peace. Judging by the past record of the State Department, this Agency might better be called the Surrender Agency.

"The testimony is replete with evidence which indicates that this agency may well be the back-door for the one-worlders to accomplish their goal of the mandatory international world court, a repeal of the Connally reservation, and a subservience

of American sovereignty to some superbody. It is also the back-door to the recognition of Red China diplomatically....Pass this bill, set up this agency and I predict you will see an international police force. Will it curb the Russians? No. Will it circumvent your individual and Constitutional protections? Unfortunately, I am sure the answer to this will be 'yes.'

"This agency has been referred to as a 'Peace Agency,' as a 'Disarmament Agency' and has ended up with a softer classification as 'a U.S. Arms Control Agency.' The broad powers which are delegated here make it entirely possible that these bureaucrats who head this agency can negotiate with foreign nations, commit the U.S. to international agreement and circumvent the Constitutional safeguards which give to the peoples' representatives control over this area. The language of the bill is so broad that this superagency can gain access to the atomic energy secrets and could well undercut the work of the Defense Department.

"The most important single objection to the bill is this: By approving this bill, the administration will have an expression of intent from this body which will, in my judgment, encourage it to make broad advances toward world government....

"A world government at this time would be a world Socialist-Communist government and we should have nothing to do with it.

"The time may come when reasonable minds may achieve a reasonable solution to the problem of world insecurity but we would only play into the Communists' hands at this time. Do you realize that world government could be the end of our Constitutional rights? Do you realize that U.N. law and treaty law could well be over the law of the land? This would be no step forward but retrogression to slavery and absolute control of our lives. A strong America is the only hope for world peace and freedom throughout the world, and we should be considering means of strengthening our country rather than weakening it."

Congressman Pillion pointed out that a leading member of the Kennedy team had recently outlined the elements which a U.S. plan for disarmament should contain, the first of which was "complete disarmament of all nations rather than reduction or limitation of armaments."

Stated Congressman Pillion:

"The premise that we can get all nations to disarm is fallacious. Russia does not have any intention to disarm, and we should not believe them if the Reds would say they were willing. Their plan has not changed from Communism's inception - eventual subjugation of the world...

"The entire record of the Communists is one of lies, deceit, murder, and treachery which makes this gesture verge on the ridiculous. The real danger comes from the strong likelihood that we are foolish enough to proceed with a plan of the type described without Russian participation or based on their fraudulent promises

"In an age in which we find ourselves carrying on a reckless romance with Socialist-Internationalist theories which will do nothing, I fear, but destroy our hard-earned freedoms, I do not suppose many here in this Chamber today will find the statement of Patrick Henry germane at this time. However, to my way of thinking, he well answered our present deliberations in his historic speech to the Virginia House of Delegates, March 23, 1775, a time which, I might add, was equally critical in our Nation's history. He said: 'It is vain, sir, to extenuate the matter. The gentleman may cry, peace! peace! But there is no peace. The war has actually begun. The next gale that sweeps from the north will bring to our ears the clash of resounding arms. Our brethren are already in the field. Why stand we here idle? What is it that the gentlemen wish? What would they have? Is life so dear or peace so sweet as to be purchased at the price of chains and slavery? Forbid it, almighty God. I know not what course others may

take; but as for me, give me liberty, or give me death."

* * * * * *

It is tragic and frightening that in the debate on the floor of the House of Representatives on September 19, 1961, immediately prior to the passage of the bill to disarm the United States, only the following Congressmen rose to speak out in opposition to this disarmament bill: Anderson (Ill.), Ashbrook (Ohio), Casey (Tex.), Dominick (Penna.), Findley (Ill.), Gross (Iowa), Hoffman (Mich.), Johansen (Mich.), Pillion (N.Y.), Rousselot (Calif.), and Smith (Calif.).

On the other hand, 290 Congressmen voted to disarm the United States in the face of Soviet aggression, with only 54 Congressmen voting "No"!

Every Congressman voting for this dangerous bill has by his action participated in legislation which can be considered as giving aid and comfort to America's mortal enemy, the Communist international conspiracy.

PART II

HERE'S WHY AND HOW

THE CONGRESS IS VOTING

THE UNITED STATES

INTO SOCIALISM

PART II

Significant Sidelights of the CSA Voting Index

PARTY DISCIPLINE

Because of patronage-hungry Congressmen whose one idea is to obtain as many Federal spending grants as possible for their home districts, the Administration has little trouble whipping Congressmen into line to support Administration proposals on the dire threat of having their patronage cut off. Completely overlooked is the fact that the Federal Government has no money of its own, but merely uses the taxpayers' dollars to bribe the taxpayers with Federal Spending projects in local communities.

Some Southern Congressmen have developed a means by which they can both maintain an image of Conservatism, and at the same time remain loyal to the Left-wing-dominated Democratic Party. For example, on issues which may have overtones of segregation, where the Congressman would not be able to pacify voters in his district if he went along with the Democratic Administration's "anti-South" legislation, the Congressman is "permitted" by party leaders to vote against the Administration on States Rights measures, providing he promises to support the Democrat-sponsored Big-Spending bills.

A particular example of this type of "trade-off" is the strong Southern opposition registered by the votes of Southern Democrats on House Issue #15, which was the bill to consider Federal Aid to Education. The Federal Aid to Education bill, with its overtones of ultimate Federal control of education and Federally-sponsored integration, was rejected by the House on August 30, 1961. Of the 242 Congressmen casting Conservative votes against this bill, 78 came from Southern States, with only 28 Southern Congressmen casting Liberal votes in favor of Federal Aid to Education. On the other hand, on House Issue #13, to increase the debt ceiling to facilitate bigger and bigger Federal spending, 61 Southern Congressmen voted Liberal-Socialist, that is, in favor of increasing the debt ceiling; only 33 Southern Congressmen voted Conservative by opposing this bill.

VOTING ON TWO SIDES OF ONE ISSUE

In doing the research necessary to prepare the CSA Voting Index, examples came to light as to how some Congressmen have evolved a method of voting both "for" and "against" a key bill. Here is how it works: In order to please both his Conservative constituents back home and his Liberal party leaders in Washington, some Congressmen will vote in favor of an amendment, for instance, to reduce the Foreign Aid bill by $100 million. The Congressman votes FOR such economy, and so writes his Conservative constituents. Then, even though the amendment to reduce the amount of Foreign Aid funds does not pass and remains a part of the bill, this same Congressman turns around and votes in favor of the Foreign Aid bill itself.

Following is a list of Congressmen who voted "No" on the Passman-Ford Amendment

which would have increased the amount of the Foreign Aid bill (a "No" vote in this instance is considered a Conservative vote). These same Congressmen, however, then turned around and voted "Yes" on adoption of the Senate-House Conference Report which contained the increase asked for in the Passman-Ford Amendment. (A vote in favor of adopting the Conference Report on the Foreign Aid bill is tabulated by the CSA Index as a Liberal vote):*

* See Part III beginning on page 17 for full tabulation of votes on the House-Senate Conference Report on Foreign Aid.

CONGRESSMAN PASSMAN "PLAYS THE GAME"

In football parlance, Congressman Otto Passman, Democrat of Louisiana, is a "triple-threat man" when it comes to voting on Foreign Aid. Having gained a national reputation as being a foe of Foreign Aid, Congressman Passman has acquired great maneuverability in the in-fighting which precedes the actual passage of the Foreign Aid bill.

First, Congressman Passman introduces an amendment to increase the Foreign Aid authorization bill by $175 million. (Such an action would, of course, find great favor in the eyes of the Liberal-Socialists who control the Democratic Party.) At this point, Congressman Gerald R. Ford, Jr., Republican of Michigan, introduces a substitute for the Passman Amendment changing the $175 million increase to a $300 million increase. The Passman Amendment, including the increase introduced by the Ford substitute is approved for inclusion in the Foreign Aid Authorization bill.

Then Congressman Passman turns around, in order to create a Conservative image to his constituents back in Louisiana, and votes against the Passman-Ford Amendment to increase the amount of the Foreign Aid bill.

Reversing his position once more, Congressman Passman votes for the authorization of the Foreign Aid bill, even though it included the increase which he had previously voted against.

And, in a final reversal, Congressman Passman, in voting on the adoption of the House-Senate Conference Report on Foreign Aid Authorization votes "No," which is considered a Conservative vote.

Significantly, the "on-again/off-again" Mr. Passman receives an over-all Conservative rating in the CSA Index of only 44% Conservative on the 20 key issues tabulated.

NOT PRACTICING WHAT THEY PREACH

During the past two or more years, two Congressmen - one a Republican, and one a Democrat - have become nationally-recognized as vigorous foes of Communism. These are:

Congressman Walter H. Judd, Republican of Minnesota

Senator Thomas J. Dodd, Democrat of Connecticut

CONGRESSMAN JUDD'S VOTING RECORD

Congressman Walter H. Judd, Republican of Minnesota, thrilled the nation with his Conservative-sounding anti-Communist keynote address at the Republican Nominating Convention in 1960. But how does that speech compare with Congressman Judd's actual voting record?

The ACA-INDEX, compiled by Americans for Constitutional Action, released December 29, 1961, gives Congressman Judd a Conservative rating of 80%. The CSA Voting Index disagrees! According to the Voting Index in Part III, you will see that Congressman Judd voted in favor of the following Liberal-Socialist-Appeasement issues:

(a) Federal Unemployment Compensation (Federal interference with laws regarding unemployment compensation).

(b) Raise Minimum Wage (Federal interference with setting wage rates of private industry).

(c) Establish a new office for Travel and Tourism (Federal Competition with private enterprise.

(d) Appropriations bill, including U. S. Citizens' Commission on NATO, and expenses of National Commission on UNESCO. (The aim of both of these agencies is to promote World Government, which would result in the destruction of U. S. sovereignty.)

(e) Federal support of Agriculture.

(f) Extend Transportation and Telephone Tax (Tax not needed. This is a device for the Federal Government to regulate the telephone and transportation industries.)

(g) Fourth Supplemental Appropriation including funds for the U.N. to finance Communist take-over of the Congo.

(h) Temporary increase in debt ceiling.

(i) National Space Agency (NASA). (Federal competition with private industry. Military authorities say "no military value in the 'man-to-moon' project.")

(j) Foreign Aid Authorization, including permission for Foreign Aid to many Communist countries.

(k) Cultural Exchange with Communist nations.

(l) Public Works ("Pork barrel" legislation).

(m) Peace Corps.

(n) Setting up a National Disarmament Agency.

Congressman Judd, considered by some to be a Conservative, voted Conservative only 5 times on the 20 issues selected by the Conservative Society of America, and was absent on one vote. The CSA Voting Index rates Congressman Judd only 26% Conservative, or 74% Liberal-Socialist. Yet the ACA-INDEX rates Congressman Judd as 80% Conservative!

SENATOR DODD'S VOTING RECORD

During the past two years, Senator Thomas Dodd of Connecticut has received accolades from Conservatives as being a new star on the horizon, because of his forthright stand against Communist aggression and against the admission of Red China to the United Nations. In 1961 Senator Dodd's denunciation of United Nations policies in the Congo (which, in effect, put the UN in the position of being the aggressor to destroy the independent nation of

Katanga) won widespread applause from Conservatives throughout the nation.

But how Conservative is Senator Dodd? According to the CSA Voting Index, Senator Dodd receives a 13% Conservative rating (Please see Senator Dodd's complete voting record as tabulated by the CSA Voting Index in Part III).

How can Senator Dodd be considered an effective anti-Communist when he voted in favor of Cultural Exchange with the Soviet Union (Senate Issue #10); when he voted in favor of the Disarmament bill to disarm America in the face of Soviet aggression; and when he did not even bother to vote for or against the Foreign Aid Appropriations bill which contained provisions to give the President authority to send U.S. tax dollars to Communist nations?

The CSA Voting Index is in no way intended to minimize the splendid anti-Communist image projected in the public press by some Members of Congress who prefer to fight Communism in the press rather than with their votes in Congress. The point is: How much more the cause of Conservatism would be served if all anti-Communist Congressmen and Senators voted AGAINST Communism in the same manner in which they speak out in public against Communism!

THE MYTH OF SOUTHERN CHAIRMANSHIPS

For the past decade, Southern Democrats have been able to keep Southern voters "in line" and prevent a "bolt" from the Democratic Party by the simple expedient of holding a carrot to the noses of their constituents labelled "Southerners Hold Powerful Committee Chairmanships." The vote in the House of Representatives on January 31, 1961, to pack the Rules Committee chairmanned by the venerable Southern Democrat, Howard K. Smith of Virginia, dispelled this political myth, although party-loyal Southern Democrats have been very careful to underplay this result of the packing of the Rules Committee.

There is, however, more to this "Southern Chairmanship" line that Democratic politicians "sell" to their constituents than is at first apparent. By attaching now-worthless importance to such chairmanships, the entrenched Southern Congressman or Senator is able to beat off any opposition when he comes up for re-election because his campaign theme is "Re-elect me and retain my powerful committee chairmanship." This system has succeeded in perpetuating in office in Washington, Southern Democrats who are no longer responsive to the voters. Further, this technique has successfully prevented the establishment of a two-party system in the South because a Republican or independent Conservative candidate could not impress the voters with what a "powerful" and "important" man he is in Washington because of his "chairmanship."

It will be noted in Part V that, regionally-speaking, Southern Congressmen voted 33% Conservative, which means 67% Liberal-Socialist. It is thus seen that party-loyalty outweighs voter-loyalty according to the voting records of the majority of Southern Congressmen and Senators. The Kennedy Administration, possibly unknowingly, did Southern Conservative voters a great favor when it was able to pack the once-powerful Rules Committee and thereby prove conclusively that the era of powerful chairmanships held by Southern Democrats has passed.

Of what benefit to the voter is a useless chairmanship held by a Congressman when that same Congressman turns around and votes for a majority of the Socialist-Liberal bills of the Kennedy Administration?

With an increasingly alert electorate, Southern Congressmen must stand on their voting records alone if they wish to be re-elected. And, in view of the Liberal-Socialist voting record of a large number of Southern Congressmen, the opportunity has never been greater for the election in the South of Republican and independent Conservative Congressmen in 1962.

THE CHAIRMAN OF THE REPUBLICAN PARTY

The National Chairman of a political party is expected to reflect the views of those who control the party. The National Chairman of the Republican Party is Congressman William E. Miller. Congressman Miller is considered by some party-loyal Republicans as a Conservative. But is he?

Congressman William E. Miller, the National Chairman of the Republican Party, comes from the home State of Nelson Rockefeller. Therefore, it is not surprising that this so-called Conservative Republican Chairman actually achieves only a 67% Conservative rating according to the CSA Voting Index. GOP Chairman Miller voted for Federal Unemployment Compensation (House Issue #2); he voted for the National Space Agency "man-to-the-moon" project, which military experts say has no military value; he voted for Cultural Exchange with the Soviet Union; and he voted for the Democrat-sponsored Public Works "pork barrel" bill.

Congressman Miller did not bother to vote, or take a position on, House Issues #4, to raise the minimum wage; #9, Federal Support and Control of Agriculture; #11, additional funds to subsidize UN aggression in the Congo; #19, Peace Corps; or #20, Disarmament.

On House Issue #16, the House-Senate Conference Report on Foreign Aid, which gave President Kennedy the power to send Foreign Aid dollars to Communist nations, Republican Chairman Miller paired Liberal in favor of Foreign Aid, which included aid to Communist nations.

REPUBLICANS GIVE KENNEDY MARGIN OF VICTORY

From time to time spokesmen for the Conservative wing of the Republican Party travel around the country giving pep talks to the "party faithful." It is interesting to note that such speeches, while purporting to "attack" the opposition party are, in fact, generously larded with glittering generalities. The name of Harry Truman is dragged out, and some shallow criticism is aimed at Truman for the merriment of the party-loyal Republicans in attendance; or, the spokesman for the Conservative wing of the GOP may make a glowing statement about "stop appeasing Communism" which, of course, meets with tumultuous applause from the audience. But said party spokesmen are careful to avoid naming names and laying the blame for the Cuban fiasco, for instance, to any specific governmental official or party.

Have you wondered why?

And don't you wonder why the Kennedy Administration does not lash out at the Republican Party and call it "obstructionist"?

The answer is simple: the Liberal-Socialist Kennedy Administration has no desire to attack the Republican Party because it was members of the Republican Party which gave Kennedy his margin of victory on five key bills in the 1961 session of Congress!

By the same token, how can the party-loyal Conservative wing of the Republican Party whole-heartedly attack the Kennedy Administration when members of their own party support the Kennedy Administration?

This is one-partyism in action -- "coalition" government, which in past history has always sounded the death knell of the two-party system. Here are specific cases where the Republican Party, supposedly the "opposition party," teamed up with the Radical-Left Kennedy Administration to provide the margin of victory for Liberal-Socialist legislation:

(1) AREA REDEVELOPMENT*
This bill passed the House of Representatives by a vote of 251 to 167

---

* See Description of Bill, House Issue 5, in Part IV, beginning on page 44.

on March 29, 1961. A total of 43 Republicans deserted their party and voted for this Liberal-Socialist bill. If, however, these 43 Republicans, members of the so-called "opposition party," had not joined hands with the Liberal-Socialists, the Area Redevelopment bill would have been defeated by a vote of 210 to 208.

(2) FEED GRAINS BILL*
This bill was passed by the House of Representatives by a vote of 209-202. Only four Republicans voted for this bill, which was a blatant attempt to further centralize control of agriculture in the hands of the Federal Government; however, if these four Republicans had not voted in favor of this Liberal-Socialist bill, the bill would have been defeated 206-205!

(3) RAISE MINIMUM WAGE**
This bill to give the Federal Government the power to raise wages in private industry passed by the seemingly overwhelming margin of 340 to 78. Of these 340 votes "FOR" were 133 Republican votes. If these 133 Republicans had voted against this bill, which promoted Federal interference with private enterprise, the bill would have been defeated by a vote 211-207.

(4) CULTURAL EXCHANGE ***
The Cultural Exchange bill was passed by the House of Representatives by the lop-sided vote of 329-66. Of the 329 votes "FOR" this bill were 134 Republican votes. If these 134 Republicans had voted against the Cultural Exchange bill, which gave the "green light" to continuing Cultural Exchange with our mortal enemy the Soviet Union, this bill would have been defeated by a vote of 200-195.

(5) FOREIGN AID****
The Foreign Aid bill, as finalized by House-Senate Conference, passed the House by a vote of 260-132. Of these 260 votes "FOR" the bill, 76 were Republican votes. If those Republicans who voted for this bill which can help aid Communist nations, had voted instead against the bill, the bill would have been defeated by a vote of 208-184.

The U.S. Constitution provided a built-in system of checks and balances so that no one branch of government could become all-powerful. Repeatedly during the past few years we have seen Congress relinquish its prerogatives to the Executive Branch. This dangerous trend, coupled with the Liberal-Socialist infiltration of the command positions in both major parties, has now reduced this nation to a system of "one-party government" under which no genuine opposition from the "out-of-office" political party exists.

A.C.A. AND C.S.A. VOTING INDEXES DIFFER WHEN RATING G.O.P. LEADERS

Conservatives can expect little assistance in the 1962 session of Congress from Congressman Charles Halleck, Republican minority leader in the House. Congressman Halleck's voting record in the 1961 session

---

* See Description of Bill, House Issue 3, in Part IV, beginning on page 43.

** See Description of Bill, House Issue 4, in Part IV, beginning on page 44.

*** See Description of Bill, House Issue 17 in Part IV, beginning on page 43.

**** See Description of Bill, House Issue 16 in Part IV.

of Congress earned him a CSA rating of only 32% Conservative - or 68% Liberal-Socialist.

Republican Congressman Halleck, purportedly the leader of the "opposition party" in the House, voted in favor of the following Liberal-Socialist, appeasement bills of the Kennedy Administration: Issue #2 - Federal Unemployment Compensation; Issue #4 - to raise the Minimum Wage; Issue #6 - Omnibus Judgeship bill; Issue #8 - appropriations for Citizen's Commission on NATO, and UNESCO; Issue #10 - to extend the Transportation and Telephone Tax; Issue #11 - supplemental appropriations bill, including Congo; Issue #13 - temporary increase in the debt ceiling; Issue #14 - appropriations for the space agency's "man-to-the-moon" project; Issue #16 - Foreign Aid authorization bill; Issue #17 - Cultural Exchange with the Soviet Union; #18 - Public Works "pork barrel" bill; #19 - Peace Corps; #20 - Disarmament.

The ACA Voting Index, prepared by the Americans for Constitutional Action, gives Republican Chairman Miller, Congressman from New York, a Conservative rating of 90%, and Republican minority leader Halleck a Conservative rating of 86%. The CSA Voting Index disagrees in both instances. How can two Congressmen who voted as indicated in this section achieve such high Conservative ratings? The CSA rates Congressman Miller as only 67% Conservative, and Congressman Halleck as only 32% Conservative. How, then, under such leadership, can the Republican Party be considered the "party of opposition" to the "New Frontier" Democratic Party?

The Liberal-Socialist infiltration of the command positions in both major parties has now reduced this nation to a system of "one-party government" under which no genuine opposition from the "out-of-office" political party exists.

THE RISING TIDE OF CONSERVATISM

The tide of Conservatism which is now sweeping America has reached such proportions that the Liberal-Socialists in both parties and their spokesmen in the nation's press and radio are becoming acutely aware of the Conservative Offensive. Nothing alarms the Socialist-Liberals more than an informed electorate.

The Liberal-Socialists, when faced with facts and figures proving how Socialism has worked to the detriment of the United States and has actually aided our mortal enemy, the Soviet Union, have no recourse but to resort to name-calling and smear tactics. In such cases, the Liberal-Socialist draws upon phrases originated by and used by THE WORKER, official organ of the Communist Party U.S.A., such as: "ultra-Right," "extreme Right," "Rightist," "military-big business complex," "militarist," "McCarthyism" and "fascist."

It is thus seen that in the use of such phrases, those opposing the principles of Conservatism are following the Communist Party line, whether intentionally or unintentionally. Further, it proves that they cannot intelligently refute the Conservative position and therefore resort to name-calling. Conservatives do not need, and should never resort to such tactics. The Conservative position is easily proven by documented facts.

The balance of this book is devoted to giving you documented facts, and the actual voting records of all Congressmen and Senators on the key issues of survival of this nation as a Constitutional Republic.

The final chapter tells you what you can do about returning America to Constitutional principles and defending our nation against atheistic Communism at home and abroad.

"Right is right though all men be against it, and wrong is wrong though all men vote for it."

---Howard E. Kershner

PART III

TABULATION OF VOTES,

87TH CONGRESS,

FIRST SESSION

1961

PART III

HOW TO USE THE CSA VOTING INDEX

The first section of the CSA Voting Index contains votes cast in the U.S. House of Representatives. The second section contains votes cast in the U. S. Senate.

In the following tabulation of votes, States are listed alphabetically. Each Congressman and Senator is listed alphabetically under the State which he represents.

Over each column appears a brief title of the bill which is tabulated in that column. A full description of the bills voted upon will be found in Part IV.

Each Congressman and Senator's name is preceded by "(R)" or "(D)", indicating whether he belongs to the Republican or the Democratic Party.

The first column which follows the listing of names is entitled "Conservative Rating." The figure which follows the name of each Member of Congress in this column represents the percentage of time, based on the number of votes tabulated in this voting index, that said Congressman or Senator voted Conservative. For example: Congressmen such as Bruce Alger of Texas, or James B. Utt of California, who did not vote in favor of any Liberal legislation, receive a 100% Conservative rating. On the other hand, Members of Congress such as Senator Wayne Morse of Oregon, who in every case voted in favor of Socialist, Communist-appeasing legislation, receive a Conservative Rating of "0".

Between these opposite ends of the spectrum are found such Members of Congress as Senator J. William Fulbright of Arkansas, who receives a Conservative rating of 25%. This means that Senator Fulbright, on the votes tabulated in this index, voted 25% of the time Conservative, or, in other words, voted for Socialism or Communist-appeasing legislation 75% of the time.

In the tabulation of votes, Conservative votes are represented by " + ", and Liberal votes are represented by "-".

The CSA Voting Index is based on the official votes as recorded in the CONGRESSIONAL RECORD. The CONGRESSIONAL RECORD also lists those Members of the House or Senate who have not cast a recorded vote on each bill. Prior to, or following, the officially tabulated vote in the CONGRESSIONAL RECORD, absent Members of the House and/or Senate are permitted to "go on record" by means of having a colleague answer in their behalf stating, "If present and voting, Congressman so-and-so would have voted 'Yea'." (Or "Nay," as the case may be.) It is also a frequent practice for a member to "pair" his vote with that of an absent colleague who would have voted the opposite way. For example, if Senator X, who is in favor of a given bill, is present, and Senator Y, who would have voted against the bill is absent, Senator X may withhold his vote, announcing that he has a "live pair" with Senator Y.

To understand this procedure, it should be explained that a "general pair" is an arrangement to take care of a definite period of time, and covering all measures coming to a vote within the period fixed, in which two Members of Congress agree to vote opposite on all bills coming before Congress in that period, thus, in effect, cancelling out each other's vote. On the other hand, a "live pair" is an arrangement made between two Members of Congress on a particular question, in which a member desiring to be absent may seek a "pair" with a member on the opposite side of this question. The man with whom the absent member is "paired", even though present at the time of the vote, will

not vote. The votes of absent members of Congress, whether they be "general pairs" or "live pairs" or "for the record" announcements, are not considered official votes. They are listed as "not voting" and do not appear in the final vote figure in the CONGRESSIONAL RECORD.

The Conservative Society of America believes that the American people elect Congressmen and Senators to represent them by voting officially on each and every legislative measure. When a Congressman or Senator abstains from voting, or pairs his vote with that of an absentee member of the opposite political view, the voters he represents are deprived of full and active representation on the floor of the House or the Senate.

The CSA does not believe that an accurate reflection of a Congressman's voting record can be arrived at if based on unofficial votes which cannot be tallied. Accordingly, such unofficial paired votes which are listed as "not voting" in the CONGRESSIONAL RECORD are shown in the CSA Voting Index as "o."

In the tabulation for Senate issue #14, it will be noted that the symbol "v" appears. This means that the U. S. Senate did not even bother to record the votes on the passage of this highly controversial bill. Instead it was shouted into passage by a voice vote, thus depriving the American people of the knowledge of how their Senators stood on the totally unnecessary and potentially dangerous issue of the establishment of the Peace Corps.

The Conservative Rating of each Congressman and Senator is based on the total number of votes actually cast. For example, Senator George Smathers of Florida voted Conservative three times, Liberal seven times, and was absent three times on the 13 issues tabulated for the Senate in the CSA Voting Index. Senator Smathers, therefore, obtains a CSA Rating based on three " + " or Conservative votes and seven "-" or Liberal votes. He voted Conservative three times out of ten (or 30% Conservative); thus Senator Smathers voted Liberal seven times out of ten (or 70% Liberal).

U.S. HOUSE OF REPRESENTATIVES
87th Congress – 1st Session – 1961

KEY TO VOTES

"+" = a Conservative vote • "–" = a Liberal vote • "O" = absent or not voting

Where no vote is recorded, the name listed was not a Member of the House at time of vote.

Urgent and Confidential

Dear Subscriber:

This letter contains both good and bad news, but first let's see what the Democrats and Republicans are doing . . . .

THE KENNEDY-NIXON CAMPAIGN BOGS DOWN

Every time Kennedy and Nixon make campaign speeches, they prove conclusively that there is no difference between the two parties. We can sympathize with their speech-writers who, because both candidates agree on all major issues, must confine themselves to glittering generalities.

Also, pity the poor editorial writers of the nation's big newspapers. What can they write about? The CHICAGO AMERICAN thinks they've "solved" the problem in an editorial entitled "Tony Curtis for President?" This editorial states that the qualifications for the presidency apparently now depend on factors such as "looks, sex appeal," etc. They suggest as an alternate candidate, should Tony Curtis not be acceptable, that Cary Grant might do! Such is the height of absurdity that One-Partyism has now reached in this nation.

The WALL STREET JOURNAL, in a slightly more serious vein, states, "Whether the Republican Party itself is Liberal or Conservative, or what it is, no man can tell."

And Henry Hazlitt, in the "Business Tides" department of NEWSWEEK Magazine, recently stated: "Former President Hoover has pointed out that Marxist thinking affects us, and has even 'got frozen' into the Eisenhower Administration."

Even HUMAN EVENTS, a pro-Republican newsletter, in its Sept. 15, 1960 issue, states: "A startling fact is unveiled, calculated to curl the hair of GOP Chairman Morton, Dewey and other Republicans." HUMAN EVENTS then goes on to inform its readers that Secretary of State Herter is using a former State Dept. official under Truman, a man by the name of Paul Nitze, as an "unofficial" advisor on foreign policy. Strangely, or coincidentally, this same Paul Nitze is also one of the "principal advisors of Sen. John F. Kennedy in his campaign to oust the Republicans from office," according to HUMAN EVENTS.

NIXON IS NOT "THE LESSER OF TWO EVILS"

You have just received our TAX FAX No. 23 entitled "Nixon - Campaign Oratory vs. Nixon's Record," and TAX FAX No. 24 entitled "Eight Years of One-Partyism," both of which document what has happened to America under the Eisenhower-Nixon Administration.

And yet, even in the face of that damaging evidence, some might still feel that although Nixon is a Liberal he is preferable to Kennedy. We cannot

THE KENNEDY-NIXON CAMPAIGN BOGS DOWN

Every time Kennedy and Nixon make campaign speeches, they prove conclusively that there is no difference between the two parties. We can sympathize with their speech-writers who, because both candidates agree on all major issues, must confine themselves to glittering generalities.

Also, pity the poor editorial writers of the nation's big newspapers. What can they write about? The CHICAGO AMERICAN thinks they've "solved" the problem in an editorial entitled "Tony Curtis for President?" This editorial states that the qualifications for the presidency apparently now depend on factors such as "looks, sex appeal," etc. They suggest as an alternate candidate, should Tony Curtis not be acceptable, that Cary Grant might do! Such is the height of absurdity that One-Partyism has now reached in this nation.

The WALL STREET JOURNAL, in a slightly more serious vein, states, "Whether the Republican Party itself is Liberal or Conservative, or what it is, no man can tell."

And Henry Hazlitt, in the "Business Tides" department of NEWSWEEK Magazine, recently stated: "Former President Hoover has pointed out that Marxist thinking affects us, and has even 'got frozen' into the Eisenhower Administration."

Even HUMAN EVENTS, a pro-Republican newsletter, in its Sept. 15, 1960 issue, states: "A startling fact is unveiled, calculated to curl the hair of GOP Chairman Morton, Dewey and other Republicans." HUMAN EVENTS then goes on to inform its readers that Secretary of State Herter is using a former State Dept. official under Truman, a man by the name of Paul Nitze, as an "unofficial" advisor on foreign policy. Strangely, or coincidentally, this same Paul Nitze is also one of the "principal advisors of Sen. John F. Kennedy in his campaign to oust the Republicans from office," according to HUMAN EVENTS.

NIXON IS NOT "THE LESSER OF TWO EVILS"

You have just received our TAX FAX No. 23 entitled "Nixon - Campaign Oratory vs. Nixon's Record," and TAX FAX No. 24 entitled "Eight Years of One-Partyism," both of which document what has happened to America under the Eisenhower-Nixon Administration.

And yet, even in the face of that damaging evidence, some might still feel that although Nixon is a Liberal, he is preferable to Kennedy. We cannot agree!

Remember, Rockefeller proved his control over the Republican Party when he was able to dictate and force his platform upon the GOP. Therefore a vote for Nixon is actually a vote for the Nixon-Rockefeller combine, and we fail to see any difference between that combination and Kennedy. Further, do not be misled by a few carefully-worded, Conservative-sounding phrases in the Republican platform, such as "free enterprise," etc. We feel that the Republican platform is far more dangerous than the Democratic platform (if that is possible!) because the GOP platform is vague and misleading on crucial issues. Also, Nixon himself stated in Chicago, "I intend to go beyond the platform in certain areas."

Further, should Conservatives compromise their principles and support Nixon,

(Please see next page . . . . .)

they would actually be endorsing Socialism. By such action, the Conservatives throughout the nation, plus the Conservatives in Congress, would thereby lose all influence. There would then be no check-rein on galloping Socialism!

OPPOSITION PARTY NEEDED

Tom Anderson, publisher of FARM & RANCH Magazine, recently stated, "I'm not sure a Kennedy victory would be catastrophic....If Kennedy should get a chance to install an all-powerful Federal State, then the people would have a choice, an opposition party would arise." (Emphasis added) And then Tom Anderson stated, "Some people say a third party can't be successful. That's not true. The most successful political party in this country is the Socialist Party. It hasn't lost an election since 1932."

VOTERS' REBELLION IN GEORGIA

Some time ago, THE INDEPENDENT AMERICAN predicted that if Southern Democrat Congressmen and Senators placed "party loyalty" above Constitutional principles by endorsing the Kennedy-Johnson ticket, there would be a voter rebellion in certain sections of the South. (The only Southern political leaders who have not endorsed Kennedy and Johnson are Senators Richard Russell and Herman Talmadge of Georgia, Harry Byrd of Virginia, and Strom Thurmond of South Carolina. Only one lonely Governor, Ross Barnett of Mississippi, has had the courage of his convictions. Gov. Barnett has denounced both parties, and is campaigning in his State for Independent Presidential Electors.)

On Sept. 14th, Gov. Vandiver of Georgia, together with the other "party-loyal" Southern leaders, got the shock of their lives: Vandiver had been so naive, thinking he had complete control, that he permitted a referendum to be held so that Georgia voters could decide whether to back Kennedy-Johnson, or unpledged electors. Well, in case the news wasn't carried in your local paper (the left-wing press doesn't like to report news concerning "Conservative voter rebellions") the voters of Georgia, by a good majority, turned down Kennedy-Johnson, and voted for Independent Electors! This was a "straw vote," and is not binding on the presidential electors designated by the State Central Committee of Georgia. However, it proved that when the voters are given a clear choice in a referendum, they will vote Conservative!

* * * * *

HOW CAN CONSERVATIVES REGISTER THEIR OPPOSITION IN NOVEMBER

If there is a Conservative new party on the ballot in your State, you can vote for their presidential candidates. However, if only Nixon and Kennedy are on the ballot in your State, and if "write-in" votes are not permitted, you can still make your strength felt. Don't go fishing! Go to the polls and vote for Conservatives for Congress, but boycott both Kennedy and Nixon!

Dan Smoot recently stated in his REPORT: "If, in this election we could place control of the national Congress in the hands of Americans who believe in American Constitutional principles and, at the same time, cast so few votes for either Nixon or Kennedy that the winner would obviously go into the White House by default, without any real support from the people -- we could stop the degeneration of America's national strength and begin to gather political power for the next presidential election, when Americans would have a chance to regain control not only of the Congress, but of the Presidency."

Don't listen to the siren call of "It's your civic duty to vote for President." It is not your "civic duty" to endorse Socialism! Imagine the impact

the Socialist Party. It hasn't lost an election since 1932.

VOTERS' REBELLION IN GEORGIA

Some time ago, THE INDEPENDENT AMERICAN predicted that if Southern Democrat Congressmen and Senators placed "party loyalty" above Constitutional principles by endorsing the Kennedy-Johnson ticket, there would be a voter rebellion in certain sections of the South. (The only Southern political leaders who have not endorsed Kennedy and Johnson are Senators Richard Russell and Herman Talmadge of Georgia, Harry Byrd of Virginia, and Strom Thurmond of South Carolina. Only one lonely Governor, Ross Barnett of Mississippi, has had the courage of his convictions. Gov. Barnett has denounced both parties, and is campaigning in his State for Independent Presidential Electors.)

On Sept. 14th, Gov. Vandiver of Georgia, together with the other "party-loyal" Southern leaders, got the shock of their lives: Vandiver had been so naive, thinking he had complete control, that he permitted a referendum to be held so that Georgia voters could decide whether to back Kennedy-Johnson, or unpledged electors. Well, in case the news wasn't carried in your local paper (the left-wing press doesn't like to report news concerning "Conservative voter rebellions") the voters of Georgia, by a good majority, turned down Kennedy-Johnson, and voted for Independent Electors! This was a "straw vote," and is not binding on the presidential electors designated by the State Central Committee of Georgia. However, it proved that when the voters are given a clear choice in a referendum, they will vote Conservative!

* * * * *

HOW CAN CONSERVATIVES REGISTER THEIR OPPOSITION IN NOVEMBER

If there is a Conservative new party on the ballot in your State, you can vote for their presidential candidates. However, if only Nixon and Kennedy are on the ballot in your State, and if "write-in" votes are not permitted, you can still make your strength felt. Don't go fishing! Go to the polls and vote for Conservatives for Congress, but boycott both Kennedy and Nixon!

Dan Smoot recently stated in his REPORT: "If, in this election we could place control of the national Congress in the hands of Americans who believe in American Constitutional principles and, at the same time, cast so few votes for either Nixon or Kennedy that the winner would obviously go into the White House by default, without any real support from the people -- we could stop the degeneration of America's national strength and begin to gather political power for the next presidential election, when Americans would have a chance to regain control not only of the Congress, but of the Presidency."

Don't listen to the siren call of "It's your civic duty to vote for President." It is not your "civic duty" to endorse Socialism! Imagine the impact on both political parties, plus the nation's press, if, despite the population increase, only - say - 40 million or less persons voted for Kennedy and Nixon in November! The strength of the Conservative opposition could thus be dramatically demonstrated!

Millions of Americans must be alerted to the fact that there is no difference between the candidates and the platforms of both political parties. These millions of Americans must be told how they can voice their objection to the lack of a choice offered in this Presidential election, and how they can, in effect, veto "One-Partyism."

HOW WE CAN REACH THESE MILLIONS

We have the names and addresses of the leading editors of all daily and weekly newspapers in the United States. It should be made easy for these editors

ENCLOSURE

(Please see ..... Page 3)

to use the material contained in our "Campaign Set" of four TAX FAX on Kennedy and Nixon, the Democrat Platform, and the Eisenhower-Nixon Record. We must prepare editorials, news releases, and letters to the editor for nationwide distribution.

There is material for two or three editorials in each TAX FAX. Therefore, the TAX FAX must be mailed out separately with our sample editorials, thereby facilitating their use.

ARE THE VOTERS APATHETIC OR ANGRY?

By this campaign of information through the nation's press, we can change the apathy of millions of American voters into angry resentment. When they read in an editorial in their local paper that they have no choice, they will want to do something about it. They will find that the only thing that can be done in this election year is to BOYCOTT BOTH KENNEDY AND NIXON. As this campaign gathers momentum, we feel sure that vast segments of the population will become acutely aware of the need for a new Conservative party in order that America may be returned to the two-party system.

TO HELP UNITE CONSERVATIVE EFFORT IN THIS CAMPAIGN

We have the names and addresses of America's leading patriotic and Conservative organizations, and are personally acquainted with many of them. The majority of these organizations lack funds to purchase Conservative material, such as our four campaign TAX FAX, in sufficient quantities to reach all of their members. However, the majority of these groups would, we feel, be glad to distribute this "Campaign Set" of TAX FAX if we were financially able to donate the material to them. Many of these groups are active and well-organized, and are able to spark local campaigns to support Conservatives for Congress, and also boycott both Kennedy and Nixon. The only problem arising is our ability to finance the distribution of these TAX FAX to active Conservative organizations.

* * * * * *

This campaign of information directed to the nation's newspapers and Conservative organizations will require thousands of sheets of paper, envelopes, and hundreds of man-hours of work, as well as many hundreds of dollars for postage.

Although we now have over 10,000 subscribers located in every State in the Union, not all of our subscribers realize that we do not make any "profit" from THE INDEPENDENT AMERICAN. Also, we "sell" our TAX FAX at the lowest possible price which barely covers the cost of printing and postage. We send thousands of sample copies of THE INDEPENDENT AMERICAN Newspaper to prospective subscribers each month so that more and more Americans may be alerted to the dangers facing our Republic.

SUPPORT FROM THOUSANDS NEEDED TO MAKE THIS WORK MORE EFFECTIVE

At the present time only about 2,000 of our 10,000 subscribers donate from time to time to our fight for Constitutional Government. We urgently need the continuing help of these 2,000, but we beg each of you who have not given before to join in this crusade for a return to sound principles of government via effective political action.

AND NOW FOR THE BAD NEWS . . . .

At the present time <u>we owe thousands of dollars</u> to the people who sell us paper, ink, and other supplies which we used in August. We owe the printer [illegible] THE INDEPENDENT AMERICAN. We owe hundreds of dollars to the

[illegible] local paper that they have no choice, they will want to do something about it. They will find that the only thing that can be done in this election year is to BOYCOTT BOTH KENNEDY AND NIXON. As this campaign gathers momentum, we feel sure that vast segments of the population will become acutely aware of the need for a new Conservative party in order that America may be returned to the two-party system.

SUPPORT FROM THOUSANDS NEEDED TO MAKE THIS WORK MORE EFFECTIVE

At the present time only about 2,000 of our 10,000 subscribers donate from time to time to our fight for Constitutional Government. We urgently need the continuing help of these 2,000, but we beg each of you who have not given before to join in this crusade for a return to sound principles of government via effective political action.

AND NOW FOR THE BAD NEWS . . . .

At the present time we owe thousands of dollars to the people who sell us paper, ink, and other supplies which we used in August. We owe the printer who prints THE INDEPENDENT AMERICAN. We owe hundreds of dollars to the radio studio where we made our August tape recordings for the RADIO EDITION OF THE INDEPENDENT AMERICAN. Unless we pay these bills immediately, we will have to discontinue THE RADIO EDITION, which reaches a half-million listeners each week. Instead of retrenching, we should be expanding our RADIO EDITION coverage during this critical campaign period.

Also, we owe more than a thousand dollars to the paper company which supplied us paper, including that used for the "Campaign Set" of TAX FAX which you have recently received. (You may be interested to know that the cost of sending you and our other subscribers free sample copies of the last

(Please see other side)

four TAX FAX pamphlets amounted to $2500.00.)

YOUR HELP IS URGENTLY NEEDED

We hope and pray that you believe in our work . . .

Do you want us to continue to alert millions of Americans to the dangers we face? . . . .

Do you want us to continue our five-and-a-half years of working to bring all Conservatives together into one new Conservative political party? . . . .

Do you approve of the plans for immediate action as outlined in this letter? . . . .

If you do, then please contribute as much as you possibly can -- TODAY! As you can see, we are so much in debt that donations of $25.00, $50.00, $100.00, $500.00, and $1,000.00 are urgently needed. But many more of you may be able to give $1.00, $5.00, or $10.00 - and this amount may be as great a sacrifice to you as larger amounts are to others.

Unfortunately, we have no magic potion called "Instant Conservatism." Our forefathers fought British tyranny from 1776 to 1789, and then had to fight the British again in 1812 before the United States was truly secure as an independent nation. We Conservatives have many battles ahead of us before we will be able to reclaim our country from the control of the Socialists and appeasers. But - - it can be done! . . . and it must be done through open political action and the establishment of a new party of national stature, dedicated to Constitutional principles.

WILL YOU HELP?

Please contribute as much as you possibly can so that we may continue this work.

There is an old Scottish saying which embodies our belief:

> "We fight, not for glory, nor honor, nor wealth. We fight only for Freedom, which no good man surrenders, but with his life!"

Will you give us your VOTE OF CONFIDENCE in our efforts? Please fill out the coupon enclosed, attach your check or money order, and RUSH to us in the enclosed Air Mail envelope, which requires no postage.

For God and Country,

Kent Courtney

IMPEACH

EARL

WARREN?

TO

FROM

A DOCUMENTED RECORD
OF CHIEF JUSTICE
EARL WARREN'S
PRO-COMMUNIST RULINGS

Tax Fax No. 27 92958
ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 12-28-00 SAB-JC/TMB

WHY NOT IMPEACH EARL WARREN?

PRO-RED RULINGS OF THE SUPREME COURT

From 1943 through 1953, the U. S. Supreme Court ruled on 34 cases which dealt with Communism. During this period the Court voted in favor of the position advocated by the Communists in 15 cases, and voted against what the Communists wanted in 19 cases.

UNDER EARL WARREN, SUPREME COURT INCREASES PRO-RED RULINGS

Earl Warren became Chief Justice in October of 1953. From that time until June 2, 1958, the Supreme Court consented to hear a total of 39 cases involving Communists or subversive activities in one form or another. **Of these 39 cases involving Communism, Chief Justice Earl Warren voted 36 times in favor of the Communists.** In other words, 92% of the time Earl Warren gave "aid and comfort to" America's mortal enemy, Communism.

States Prevented From Controlling Reds

Chief Justice Earl Warren voted with the majority of the Supreme Court and thus nullified the subversive control laws of 41 States. Therefore, Communists can now plot to take over your State by force and violence. (Nelson vs. Pennsylvania, 1956)

Communists Can Practice Law In Your State

Chief Justice Earl Warren voted with the majority of the Supreme Court and thus nullified State Laws and Bar Association regulations regarding who can be admitted to practice law. Therefore, Communists may be practicing law in your State for the benefit of the International Communist Conspiracy. (Schware vs. New Mexico, 1957.)

Professors Free To Teach Communism

Chief Justice Earl Warren voted with the majority in the Slochower case, with the result that State and City governments cannot question a teacher about his known association with Communist Party members. Are your sons and daughters now being taught that Socialism and Communism are superior to our Republic and the free enterprise system? (Slochower vs. Board of Education, 1956)

Congressional Investigations Crippled

Chief Justice Earl Warren voted with the majority in the Watkins case, which restricted investigating committees of the House and Senate by saying that your elected representatives could not inquire into the extent of Communist activities of identified Communists. Communists now know they cannot be jailed if they refuse to answer questions asked by Congress. Communists have been set free to carry out their plans to take over the United States. (Watkins vs. the U.S., 1957)

Subversives Free To Hold Government Jobs

In 1954 Congress passed the Communist Control Act which established the Subversive Activities Control Board in an effort to curb infiltration of the Federal Government by the Communists. The Communist Party refused to comply with the provisions of the Communist Control Act, and by legal maneuvers managed to take the case to the U.S. Supreme Court. Under the direction of Chief Justice Earl Warren, the Supreme Court granted an indefinite delay and thus struck a devastating blow to the efforts of the Executive Branch of the Federal Government to control Communist influence. If the Government had won this case, that is, if the Supreme Court had ruled in favor of the U.S. instead of in favor of the agents of the Kremlin, the Communist Party would have been subjected to crippling sanctions. Communists would have been denied employment in the Federal Government and in defense industries. **Because Chief Justice Warren voted in favor of the Communists the U. S. Government now lacks the legal means to protect itself from Communist infiltration.** (Communist Party U.S.A. vs. Subversive Activities Control Board, 1956)

Warren Votes In Favor Of Advocating Treason

Chief Justice Warren and the Supreme Court have ruled that it is legal to advocate and teach and conspire with others for the overthrow of the government of the U. S. by force and violence so long as the future date of the revolution is not fixed and thus remains "indefinite". (Yates, et al vs. U.S., 1958)

DEFINITION OF TREASON

Article III, Section 3, Clause 1 of the U.S. Constitution defines treason as follows:

"Treason against the United States shall consist only in levying war against them (the States), or in adhering to their enemies giving them aid and comfort."

COMMUNISM IS MORTAL ENEMY OF U.S.

J. Edgar Hoover, Chief of the Federal Bureau of Investigation, wrote in his book, Masters of Deceit: **"Communism is the major menace of our time. Today it threatens the very existence of our Western civilization."**

Communism's sole aim is the eventual conquest of the U. S. by infiltration or other means. The documented record of Chief Justice Earl Warren clearly reveals that when he has a choice between voting for the interests of the United States or voting in favor of the Communists, Chief Justice Warren votes in favor of those serving the Communist cause.

VIEWS OF LEGAL AUTHORITIES ON ACTIONS OF THE WARREN COURT

HON. M. T. PHELPS, SENIOR JUSTICE OF THE ARIZONA SUPREME COURT:

"It is the design and purpose of the U. S. Supreme Court to usurp the policy-making powers of the nation... By its own unconstitutional pronouncements, it would create an all-powerful, centralized government in Washington and (the) subsequent destruction of every vestige of States Rights expressly and clearly reserved to the States under the Tenth Amendment of the Constitution.

"I honestly view the Supreme Court with its present membership and predilection, a greater danger to our democratic form of government and the American way of life than all forces aligned against us outside our boundaries."

CIRCUIT JUDGE WILLIAM OLD OF VIRGINIA:

"It is now clearly apparent from a long list of revolutionary decisions by the Supreme Court headed by Chief Justice Warren, that the Court is determined to destroy our dual system of government under the Constitution, and create by usurpation and encroachment a judicial oligarchy of unparalleled proportions."

CONGRESSMAN NOAH M. MASON OF ILLINOIS:

"Most of the recent Supreme Court decisions are based upon the social, economic and political convictions of the Justices rather than upon legal precedents or Constitutional grounds . . . Century old customs and previous court rulings may now be overturned by a capricious Supreme Court . . . The founding fathers and the makers of the Constitution agreed that an uncontrolled Supreme Court meant despotism and must be guarded against. We now have such a court . . . Our first and primary responsibility as Members of Congress is to protect and preserve our Federal Constitution . . . Our oath of office pledges us to do just that. Let us live up to that oath."

GROUNDS FOR IMPEACHMENT OF EARL WARREN

It was Abraham Lincoln who stated:

"The people are the rightful masters of both Congresses and Courts — not to overthrow the Constitution, but to overthrow the men who pervert it."

THE U.S. CONSTITUTION

Article 2, Section 4 of the U. S. Constitution states:

"The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors."

Article 3, Section 1 states: *".....The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior....."*

DEFINITIONS

THE DAN SMOOT REPORT of July 1, 1957, in discussing impeaching certain members of the Supreme Court, notably Earl Warren, states:

"Misdemeanors, as used in the Constitution in connection with the impeachment of officials, means bad behavior.

"High crimes are defined by some law text writers as trespasses upon the constitutional rights of the American people by an officer or agent of government, whether appointed or elected to office.

"To any reasonable lay person, it must be apparent that the kind of aid and comfort which the Supreme Court justices have given to Communists amounts to treason against the United States . . . ."

Robert Welch, founder of THE JOHN BIRCH SOCIETY, in discussing the possibility of impeaching Earl Warren states that **Chief Justice Warren "should be impeached for misconduct in office and removed, if found guilty, under the 'good behavior' clause."**

WHAT DOES IMPEACHMENT MEAN?

Impeachment does not mean conviction, or removal from office — though it may bring about both. Impeachment of a federal official, under our Constitution, means only the arraignment of that official by the U. S. House of Representatives. If impeached by the House, the official is then tried by the U. S. Senate.

WHAT YOU CAN DO

By reading this pamphlet you now realize that Earl Warren's pro-Communist decisions have given the enemies of the American way of life an upper hand. Americans must go on the offensive and remove Earl Warren from his position of power on the Supreme Court.

MOVEMENT TO IMPEACH EARL WARREN

Early in January of 1961, THE JOHN BIRCH SOCIETY, in cooperation with scores of other patriotic organizations initiated a nation-wide MOVEMENT TO IMPEACH EARL WARREN. If you wish to be put in touch with a local committee of this movement in your State contact THE JOHN BIRCH SOCIETY, BELMONT 78, MASSACHUSETTS.

Earl Warren's impeachment will put all Federal judges on notice that the American people will not continue to sit idly by and see their country subverted from within. Now is the time to inform your friends and neighbors. Send them a copy of this pamphlet.

Arrange for speakers to appear before Civic clubs to ask the question, WHY NOT IMPEACH EARL WARREN? Set up debates and get publicity for this IMPEACH EARL WARREN MOVEMENT. Get all organizations, to which you belong, to pass resolutions asking for the impeachment of EARL WARREN.

DEMAND CONGRESSIONAL ACTION

Ask your friends and neighbors to write letters, sign petitions, and DEMAND OF YOUR CONGRESSMAN THAT HE JOIN THIS MOVEMENT TO IMPEACH EARL WARREN. **If your Congressman will not join this movement, then you will know that he favors Earl Warren's pro-communist decisions, and that he should be replaced with a new Congressman.**

HELP ALERT OTHER AMERICANS

Buy and distribute as many of this pamphlet as you can afford. Send them to: friends and neighbors, civic leaders, judges and attorneys, your elected city and country officials, all members of your State Legislature, and all of the Congressmen representing your State at Washington, D. C.

Write letters to the editors of your local newspapers based on the documented facts contained in this pamphlet, and enclose a copy of this pamphlet with your letter.

ROCKEFELLER NOW CONTROLS U.S. FOREIGN POLICY

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

929512

How Rockefeller and The Foundations

"Some of the larger foundations have directly supported 'subversion' in the true meaning of that term, namely, the process of undermining some of our vitally protective concepts and principles. They have actively supported attacks upon our social and governmental system and financed the promotion of socialism and collectivist ideas."

— From the Report of the Special Committee to Investigate Tax-Exempt Foundations (the Reece Committee), December 16, 1954.

Although Jack Kennedy has been elected President of the United States, the man behind the scenes, the man who actually holds the power to control the foreign and fiscal policy of the United States of America, is Nelson Rockefeller, present Governor of the State of New York.

Nelson Rockefeller's influence on the foreign policy of the United States, and on both political parties is a fact that has been overlooked or minimized by the vast majority of Americans. Generally known, of course, is the fact that Nelson Rockefeller was able to demonstrate his political control of the Republican Party by summoning Vice President Nixon to New York prior to the Republican Convention in 1960. At this meeting, Nelson Rockefeller laid down in no uncertain terms his Liberal demands regarding the Republican platform. These demands, it will be recalled, necessitated a complete re-writing of the platform, which had already been drafted.

However, it is not too generally known that men loyal to Nelson Rockefeller were chairmen of the Platform Committees of both the Democratic and Republican Conventions.

SOURCE OF ROCKEFELLER'S POWER

Although Nelson Rockefeller is one of the wealthiest men in the nation, the mere possession of this wealth does not account for his enormous political power. There are other similarly wealthy men who possess no political power whatever. **The secret of this accumulation of political power by Nelson Rockefeller is the tax-free foundations which he controls: The Rockefeller Foundation, The Rockefeller Brothers Fund, plus other cooperating or interlocking foundations, such as The Council on Foreign Relations, The Carnegie Endowment For International Peace, The Ford Foundation, The Institute of Pacific Relations, etc.**

ROCKEFELLER'S INFLUENCE ON KENNEDY'S ADMINISTRATION

In column 4 is a list of President Kennedy's cabinet appointments which can affect the survival of this nation as a Constitutional Republic. After each name is indicated the **direct connection that these cabinet appointees have with Nelson Rockefeller's foundations,** or with foundations which are closely interlocked with Rockefeller's foundations.

WHAT IS THE POLITICAL BIAS OF THE GIANT FOUNDATIONS?

John O'Donnell, columnist in the New York DAILY NEWS stated December 21, 1954, that "the huge fortunes piled up by such industrial giants as John D. Rockefeller, Andrew Carnegie, and Henry Ford are today **being used to destroy or discredit the free enterprise system which gave them birth."**

In 1954 the Hearings of the Special Committee to Investigate Tax-Exempt Foundations, headed by Congressman B. Carroll Reece, brought out the following fact: **Increasingly the foundations have devoted their activities to the promotion of the Welfare State, World Government, impairment of U. S. national sovereignty, and defense of subversive elements in this nation.**

HOW FOUNDATIONS INFILTRATE GOVERNMENT

Kathryn Casey, legal analyst for the Reece Committee described in the Committee Report the "interlock" that exists between the various foundations and their influence on the U. S. State Department.

Kathryn Casey said: "They (the foundations) have undertaken vital research projects for the State Department; virtually created minor departments within the Department; supplied advisors and executives from their ranks; fed a constant stream of personnel into the State Department trained by themselves or under programs which they

Have Infiltrated The U.S. Government

have financed; and have had much to do with the formulation of foreign policy, both in principle and in detail."

The Reece Committee Report on Tax-Exempt Foundations then asks " . . . whether it is proper for the State Department to permit organizations to take over important parts of its research and policy-making functions when these organizations constantly maintain a biased, one-tracked point of view . . . What we see here is a number of large foundations, primarily the Rockefeller Foundation, and the Carnegie Corporation of New York, and the Carnegie Endowment for International Peace, using their enormous funds to finance a one-sided approach to Foreign Policy, and to promote it actively among the public by propaganda and in the government through infiltration."

THE "INTERLOCK" IN INTERNATIONALISM

The Reece Committee Report then states: "Substantial evidence indicates there is more than a mere close working together among some foundations operating in the international field. The Carnegie Corporation, the Carnegie Endowment for International Peace, the Rockefeller Foundation, and The Ford Foundation, joined by some others have commonly cross-financed, to the tune of many millions, various intermediate and agency organizations concerned with internationalism."

Below is a brief run-down of the leading foundations and intermediary organizations with which Kennedy's cabinet appointees are associated in one way or another:

THE INSTITUTE OF PACIFIC RELATIONS

In 1952, the Senate Internal Security Subcommittee stated: "The Institute of Pacific Relations was a vehicle used by the Communists to orientate American-Far Eastern policies toward Communist objectives . . . Members of the small core of officials and staff members who controlled IPR were either Communist or pro-Communist . . . It was the continued practice of the IPR to place in government positions both persons associated with IPR and other persons selected by the effective leadership of IPR . . . **The net result of IPR activities on United States public opinion has been such as to serve international Communist interests and to affect adversely the interests of the United States."**

According to the McCarran Committee, the foundations should have known as early as the 1930's that The Institute of Pacific Relations had ceased to be a proper or even safe recipient of foundation funds. **And yet, as late as December 31, 1952, the Rockefeller Foundation, with Dean Rusk's approval, donated $50,000 to the IPR. This is the same DEAN RUSK, whom Kennedy appointed as Secretary of State.**

ROCKEFELLER PLACES HIS MEN IN KEY CABINET POSITIONS

STATE DEPARTMENT

DEAN RUSK, Secretary of State: Chairman, Rockefeller Foundation (now on one year's leave of absence); member of the American Council of the Institute of Pacific Relations;

CHESTER BOWLES, Under Secretary of State: A director of the Rockefeller Foundation; Trustee, Rockefeller Brothers Fund; Member, National Committee for UNESCO; Member, Council on Foreign Relations.

TREASURY DEPARTMENT

DOUGLAS DILLON, Secretary of the Treasury: Trustee, Rockefeller Foundation; Member, Council on Foreign Relations.

DEFENSE DEPARTMENT

ROSWELL GILPATRIC, Deputy Secretary of Defense: Trustee, Rockefeller Brothers Fund; Member, Council on Foreign Relations.

DISARMAMENT COMMISSION

JOHN J. McCLOY, Director of U. S. Disarmament Commission: Director, Rockefeller Foundation; Chairman of the Board, Chase Manhattan Bank; Chairman, Ford Foundation; Member, Council on Foreign Relations.

LABOR DEPARTMENT

ARTHUR GOLDBERG, Secretary of Labor: Member of the Board of Directors of the Ford Fund for the Republic; Member, Carnegie Endowment for International Peace.

COUNCIL ON FOREIGN RELATIONS

The Council on Foreign Relations is supported by both the Carnegie Endowment and the Rockefeller Foundation. The Reece Committee Report of 1954 states that "its (the Council on Foreign Relations) productions are not objective but are directed overwhelmingly at **promoting the globalism concept.**" The Reece Committee also pointed out that "the Council on Foreign Relations came to be, in essence, an agency of the United States Government, no doubt carrying its internationalist bias with it." **So dominant has become the influence of the Council on Foreign Relations, that it has almost taken over the prescribed activities of the U. S. State Department.**

In 1946, the Rockefeller Foundation, through the Council on Foreign Relations, allocated $139,000 to finance what the Reece Committee termed "the historical blackout". This project called for a rewriting of the history of American participation in World War II so that the policies and measures taken by Franklin D. Roosevelt during the war would escape critical analysis and evaluation in the future.

The following members of the Kennedy cabinet are members of the Council on Foreign Relations, **financed by the Rockefeller Foundation: Chester Bowles,** Under Secretary of State; **Douglas Dillon,** Secretary of the Treasury; **Roswell Gilpatric,** Deputy Secretary of Defense; **John J. McCloy,** Director of The U. S. Disarmament Commission.

CARNEGIE ENDOWMENT FOR INTERNATIONAL PEACE

It will be recalled that a former president of the Carnegie Endowment for International Peace was Alger Hiss, who was convicted of perjury for lying about his Communist affiliations and activities.

Perhaps the best summation of the general aim of the foundations is contained in the 1934 Yearbook of the Carnegie Endowment for International Peace, which states that the Carnegie Endowment Fund "is becoming an unofficial instrument of international policy, taking up here and there the ends and threads of international problems and questions which the governments find it difficult to handle, and through private initiative reaching conclusions which are not of a formal nature, but which unofficially find their way into policies of governments." This arrogant statement on the part of one of the leading foundations clearly indicates that the foundations set themselves above all governments.

ROCKEFELLER BROTHERS FUND

The December, 1959, Report of the Rockefeller Brothers Fund virtually called for the recognition of Red China, as soon as the American people could be propagandized into accepting such a dangerous proposal. The Rockefeller Brothers Fund Report also called for enormous new foreign aid programs, especially for African-Asian countries, to be carried out under the auspices of the Communist-dominated United Nations.

THE ROCKEFELLER FOUNDATION

The Rockefeller Foundation, in its 1946 Report, stated: "**The challenge of the future is to make this world one world** – a world truly free to engage in common and constructive intellectual efforts that will serve the welfare of mankind everywhere."

The Reece Committee, in commenting on this Report, stated: "**However well-meaning the advocates of complete internationalism may be, they often play into the hands of the Communists. Communists recognize that a breakdown of Nationalism is a prerequisite to the introduction of Communism.**"

INTERNATIONALISTS CONTROL BOTH PARTIES

The 1960 Presidential campaign graphically illustrated that there now exists no difference between the policies of the Democratic and the Republican parties. In this pamphlet you have seen the interlocking of the giant tax-free foundations, how they have infiltrated key policy-making positions of the Federal Government, and how, because of their control of both political parties, it is immaterial to Nelson Rockefeller and the administrators of these huge foundations which political party happens to be in power.

Thus, in effect, the foundations have managed to destroy our two-party system and have replaced it with one-party government!

NEW PARTY ONLY ANSWER

Freedom-loving Americans cannot hope to out-spend or out-buy Rockefeller and the giant foundations, which have billions of dollars at their disposal. However, the American people can "out-vote" the foundations. **The only effective way to combat this internationalist control of both parties is by the formation of a national Conservative Party – a NEW PARTY dedicated to the defense of our national sovereignty and a return to Constitutional principles and fiscal sanity.**

WHAT YOU CAN DO

If you wish to help counteract the International-Socialist propaganda of the foundations, then please buy and distribute as many copies of this pamphlet, TAX FAX #28, as possible. Send these pamphlets to your Congressman, Senators, small businessmen in your community, club members, and civic leaders.

Write a letter to the editor of your local newspaper enclosing a copy of this pamphlet, and ask that he write editorials dealing with the increasing power of the giant foundations and how they now control both political parties.

Unloaded in Gulf Ports—

Courtney Hits Import Of Russian Benzine

Kent Courtney, New Orleans, publisher of the right wing Independent American, said today that $1,000,000 worth of Russian manufactured benzine had been unloaded duty free at Gulf ports within the last few days.

"This duty free import from Red Russia," he said, "came at a time when American oil refineries are running at 40 per cent of capacity."

Courtney was in Shreveport today to appear on a radio program tonight and on a television program Sunday.

Originated in Russia

He said that the benzine shipment originated in Batumi, Russia, and was firs tshipped to Belgium. From there it was taken aboard the Norwegian ship Cape Brovig and $369,600 worth was unloaded Feb. 2 in New Orleans. The remaining $781,200 worth is or has been unloaded at Texas City, Tex., he said.

Courtney said he did not know why the shipment was duty free.

"If the U.S. State Department is stupid enough to allow or promote tradew ith Red Russia then U.S. industrialists should be smart enough not to buy from them and hel pfinance the destruction of free enterprise," Courtney said.

Consigned to Dow

The benzine, Courtney said, was consigned to the Dow Chemical Co., at Midland, Tex.

Courtney, who was candidate for governor of Louisiana on the States Rights ticket, will appear on "Party Line" on KWKH between 7:15 p.m. and 8:45 p.m. today. Dr. Medford Evans of Natchitoches, former Northwestern State College professor and now regional representative of the John Birch Society, will appear with Courtney tonight and again on KSLA-TV at 1 p.m. Sunday on the Jaycee sponsored program "Issue."

FEDERAL AID TO EDUCATION IS UNNECESSARY

DO YOU WANT

FEDERAL CONTROL OF EDUCATION?

WHAT FEDERAL AID TO EDUCATION REALLY MEANS

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 1-28-00 BY SP5 JCJMS
929512

Tax Fax No. 29

Federal Aid Means Federal Control

Federal Aid to Education is an issue with an emotional appeal. It has overtones of progress, of concern for children and the nation's future. However, stripped of emotional verbiage, Federal Aid to Education is unnecessary and un-Constitutional. Further, Federal Aid to Education will inevitably, probably far sooner than expected, lead to Federal Control of Education.

The Federal Aid to Education program proposed by the Kennedy Administration would authorize $5,625,000,000 in Federal grants to build elementary and secondary schools and pay teachers' salaries. It also provides Federal funds for college scholarships and loans for college classrooms, housing for students and faculty, etc.

FEDERAL AID IS UNNECESSARY

The Kennedy Administration maintains that Federal Aid to Education is necessary because the States and localities are not able to provide adequate educational facilities. This is contrary to actual statistics. Here are the facts:

Since World War II, according to the Citizens' Public Expenditure Survey, the individual States have built, without Federal help, 680,000 classrooms (more than half of all classrooms presently in use). States and localities have been increasing their expenditures for education by roughly a billion dollars per year for the past 10 years.

Public school spending by the States increased from $5,800,000,000 in 1949-50 to $15,500,000,000 in 1959-60 – an increase of 167.9% in a decade. During this same period, school spending by localities and States increased, on the average, from $260.37 per pupil in 1949-50 to $481.48 per pupil in 1959-60.

The Kennedy Administration's Federal Aid to Education funds could be used to increase teachers' salaries. However, teachers' salaries paid by localities and States have nearly doubled – up 99.8% during the past 10 years, while the United States Consumer Price Index rose only 23.6%.

The number of teachers has increased by 47.6% in the past 10 years, while the school enrollment has increased only 44.9%. The RICHMOND (Va.) NEWS LEADER, in discussing the States' ability to adequately provide educational facilities, points out:

> "Look at the figures on bond issues for school construction: In 1959 voters approved 1,337 such issues, with a value of $1,457,000,000. In 1960, they approved 1,189 new school bond issues carrying a total value of $1,757,000,000."

Thus it is proved that the States and localities have both the ability and willingness to build the schools they need.

Further, the need for additional classrooms will soon be decreasing. For the past five years the number of new pupils has been increasing by 1,118,000 each year. However, based on present census figures of known births and birth trends, the rate of increase will begin to drop by 1965.

The Chamber of Commerce of the United States has recently pointed out:

> "The pressure of growth upon schools will be far less heavy in the 1960's than it was in the past 10 years."

And yet, even though facts and figures prove indisputably that the individual States are able to finance their own educational programs, the Kennedy Administration is asking Congress to appropriate $5.6 billions of taxpayer funds for a need that does not exist.

FEDERAL AID TO EDUCATION IS UNCONSTITUTIONAL

In his "Federal Education" message to Congress asking for $5.6 billions, President Kennedy stated:

> "Without such measures, the Federal Government will not be carrying out its responsibility for expanding the base of our economic and military strength."

The Constitution provides that the Federal Government has primary responsibility for our military defense and does have certain responsibilities regarding the protection of our business economy. **However, nowhere in the Constitution is the Federal Government given any responsibility in the field of education.**

The 10th Amendment to the Constitution, which reserves to the States all rights not specifically granted to the Federal Government by the Constitution, does, in fact, prohibit the Federal Government from intervening in matters such as education.

Of Education

THE MYTH OF "FEDERAL AID"

The phrase "Federal Aid to Education" has led many people to assume that the Federal Government can, by some magic formula, provide funds for schools without cost to the taxpayers. But the fact is that the Federal Government has no money of its own; its only source of funds is the individual taxpayers residing in all 50 States. Why should your tax dollars be sent to Washington – where the bureaucrats can take their "cut" and then return only a portion of these same tax dollars to the States in the form of so-called "Federal Aid?"

WHY DO THE LIBERALS PROMOTE "FEDERAL AID"?

Congressman Noah Nason (R-Ill.) recently stated:

> "There is absolutely no need for Federal Aid to Education . . . . The Federal debt is far greater than the public debt of all of our States and all of our local governments."
